MISSILE-EQUIPPED ATOM SUB LAUNCHED

The first U.S. nuclear-powered submarine capable of firing guided missiles was launched at Vallejo, Calif. Here, the USS Halibut slides down the ways after ceremony during which Rear Adm. E. W. Grenfell, commander of Pacific fleet's submarine force, called the boat "the greatest and most powerful individual submarine weapons system in any navy in the world."

Low Water Causes Problem At Ash Rapids, MP Reports

W. M. Benidickson, M.P. for Kenora Rainy River reports, that in the matter of navigability of Ash Rapids, this matter has been the subject of discussion between him and the department since 1957's low water season, and reports of engineers have been under study. In a recent report to Mr. Benidickson from the deputy-minister, it was pointed out that unusually low levels of the water in Lake of the Woods, have caused the problem and that expected betterment of levels will remedy the trouble.

5 Roads For North Ontario, One At Red Lake Ignace

Toronto—The Ontario government will sign an agreement within a month with the federal government to construct five major resources roads in Northern Ontario, it was reported Tuesday.

The roads would be built under the 50-50 cost-sharing plan outlined by the federal government.

In addition to the monetary agreement, it was reported, the federal government will conduct aerial and geological surveys north of the CNR line in Northwestern Ontario from Nakina and Pickle Crow west with a view to determining local road sites.

The five roads on which agreement have been reached are:

Foleyet, 45 miles southwest of Timmins, to Chapleau, where work already has begun at the Foleyet end and a start at Chapleau is expected in two weeks;

Savant Lake, 76 miles west of Lake Nipigon, to Highway 17, a 25-mile section south from Savant Lake to join with a private road eventually giving Pickle Crow, in the northern Thunder Bay region, an outlet to Ignace, a main highway and a CPR station;

Armstrong to Port Arthur including three separate sections, one to be built by the department of lands and forests and joining Abitibi forest roads into one road between the two rail centres (the first 30 miles north of Port Arthur already is under contract);

Cavell to a point 50 miles north to provide access to an area still to be determined by Anaconda Copper Corporation with relation to present exploration;

Campbell Red Lake, 100 miles north of the Lake of the Woods, to Young mines—a two-mile section of which already has been completed.

Little Theatre's "Bell, Book & Candle" Festival Entry

In spite of the cancellation of the regional trials of the Dominion Drama Festival at Winnipeg, the Kenora Little Theatre will have an entry in this event, if the plans to hold trial at Fort William go through. The local group voted last night to accept Fort William's invitation to compete there on January 31, with Atikokan and the host group as the other probable contestants. Mrs. Julia Cowie presided at a well attended meeting, as members had turned out in force to work on the many projects scheduled by the Little Theatre group.

Kenora's festival entry, John Druten's celebrated comedy "Bell Book and Candle," will be directed by Mrs. Jean McIntee. It will be first played in Kenora at the Legion Auditorium on January 27 and 28. Mrs. McIntee has lined up some excellent talent for the play and the cast is hard at work endeavouring to hammer out a fine production. Mrs. Connie Eaton takes the female lead, and playing opposite her, is Mr. Charles Cowlard. Mr. and Mrs. Douglas Smith and Mr. John Karwacki complete the cast. All members have had experience in legitimate theatre work locally or elsewhere.

Work has begun on three one-act plays which are to be presented at the Music Festival by Kenora Little Theatre. Directors chosen are Mrs. Veronica Kirk, Mrs. Julia Cowie and Mrs. Charles Smith.

Heavy Damage Caused To Local Church Today

The Kenora Fire Department this morning fought a stubborn blaze in the combined church and parsonage at 214 4th Avenue South. A phone call at 3.52 a.m. brought out all members of the brigade and water was kept on the smouldering building until noon hour. There is, as yet, no estimate of the loss.

The fire apparently started in the furnace room in the partial basement at the rear of the building, and had a good hold all along the floor area beneath the building before it was discovered by the occupants. Credited with saving the structure was the sawdust insulation in the walls, which kept flames from spreading up the walls. In two or three places flames broke through the floor in the main portion of the building, badly scorching the walls.

The Fire Department answered a call to the East End this morning to extinguish a chimney fire.

2 Cars Extensively Damaged Wednesday

Town Police report one traffic accident for Kenora on Saturday, 14th. At 3.35 in the afternoon a car operated by A. Bain of Kenora was in collision with a vehicle driven by H. E. Alcock also of Kenora. The accident occurred as Bain was making a right hand turn into Third Street North from Eighth Avenue as Alcock was coming out of Third Street. Both cars were extensively damaged.

SAYS ESKIMOS VANISHING RACE

OTTAWA — Canada's 12,000 Eskimos may vanish as an ethnic group within the next 50 or 75 years, an Arctic authority suggests.

"But realistically, I am aware that he has to become an integrated Canadian."

Douglas Wilkinson, one of the first six northern service officers appointed in 1954 and probably the best known, says the Eskimo could be sucked down and absorbed by the tide of northern development like countless other minorities in history.

Cuba, world's largest producer of cane sugar, has more than 2,000,000 acres devoted to this crop.

E. L. CARTER RE-ELECTED HIGH SCHOOL BOARD CHAIRMAN FOR 1959

"We must try and keep our standards as high as possible but we should, I believe, be cautious in our spending this year and do our part to keep the municipal tax rate down, E. L. Carter told interested citizens and members of the Kenora Keewatin High School Board, at the inaugural meeting held Wednesday night in the council chambers. Mr. Carter also recommended the setting up of a committee to conduct a survey to ascertain if there is a demand for vocational education in the industrial course.

The inaugural address followed Mr. Carter's re-election as chairman of the Board. Mr. Carter welcomed civic leaders to the meeting and Mr. Bernard Martz Separate School representative replacing Mr. G. W. Belanger. Canon L. M. Watts of St. Alban's Pro-Cathedral invoked the blessing of God for members, teachers and pupils.

Among those in attendance and bringing greetings were: Alderman A. E. Minor representing Mayor Ratuski of Kenora, Acting Mayor of Keewatin, Alderman Luke Francis, Dr. S. M. Burris, chairman of the Public School Board; D. Sweeney - chairman of Separate School Board; D. Kennedy - president of the Chamber of Commerce and T. A. O'Flaherty - Vice president of the Kenora Rotary Club.

The following appointments were made:

Vice Chairman - A. E. Olson

Management Committee - L. A. McLennan and Mrs. H. Fawcett.

Property Committee - A. E. Olson, Bernard Martz.

Public Relations - Mrs. H. Fawcett, L. A. McLennan.

Finance - F. Collins, J. Bellamy.

Mrs. M. L. Millar was re-appointed secretary-treasurer of the board, W. B Powell Attendance officer, Miss Y Oshiro secretary to the principal and Miss M. Franklin assistant secretary to the principal.

During a short business session memberships were renewed in various associations; accounts amounting to $2,963.87 were authorized paid and Mr. F. Collins chairman of finance announced that the budget for 1958 had ended up with a small surplus; accepted an invitation to attend the Dedicatory Mass and luncheon meeting of the Kenora Rotary Club and the official opening of the new addition to Evergreen School made arrangements to send the entire Honor Society of the high school on a trip to Winnipeg to visit various departments of United College as a part of a programme to promote superior academic work.

The principal's report showed that the total registration of 650 at the school in December dropped 15 compared with the previous month but was still 25 above that of a year ago, the cafeteria report showed that the average cost of a meal was 57.8 cents compared with 36.9 cents of a year ago.

Inaugural Address Stresses Education At H.S. Board Meet

Mr. E. L. Carter, re-elected, chairman of the Kenora Keewatin District High School Board at the inaugural meeting held last night in the Council Chambers, delivered the following address prior to the business session.

I should like to express my thanks to the Board Members for the honour accorded me, in once again electing me to the Office of Chairman. I will endeavor to carry on to the best of my ability.

On behalf of the Board, I wish to acknowledge the appointment of Mr. Bernie Martz Separate School 1959 appointee. We are happy to have you aboard, and know that you will be of great assistance to us in our work and deliberations. I am requesting our Secretary to see that you are supplied with a copy of the School Acts.

We also congratulate Mrs. Elcanor Fawcett and Mr. J. F. Bellamy, Public School and Town of Keewatin Members respectively, on their re-appointments.

The Board wishes to pay tribute to the retiring member Mr. G. W. G. Belanger, who proved himself an able trustee during his terms of office. He was our Building Committee Chairman, and his engineering knowledge and advice has been of much value during the last two years.

We believe our High School Course here in Keewatin has made considerable pro-

Dryden Wins "Wild" One

By Jack Thomson

There's an advertising slogan making the rounds that could easily be applied to last night's Ontario Minnesota Hockey League game in Dryden, "Be sociable . . . have a penalty." The game won by the Dryden Rockets seven-six over the second place Kenora Thistles, was one of the wildest and wooliest games seen in this area in many a moon. Dryden with the victory pulled into a third place tie with the Fort Frances Canadians. Kenora opened the scoring, but the Oig men bounced back fast and led four-two at the end of the initial. The Thistles took control in the sandwich frame with three goals and led five-four at the end of the period. Three more for the Dryden crew sent them comfortably on their way until Merv Dubchuk scored for the Red and White with thirty-four seconds to go, and they pressed hard to tie the count. Rockets had one called back in the third for an offside offence.

The game which was fast and furious was marred with outbreaks in the third period. Previous to this Oig and the Thistles' Mason drew five minute fighting penalties in the second. Gaudreau was sent to the dressing room at 10.50 with a misconduct for abusive language. Then Sam Robertson and Ken Wishart ended up in front of the Kenora bench and started to rough up each other receiving roughing penalties. Nineteen seconds later the Rockets' Larry Travis and Mason held sticks high, Mason reinjuring his wrist threw his stick to the ice and was also tagged with a misconduct. This started a chain reaction on the Kenora bench. Charlie Rayner, the Thistle coach started to climb over the boards after someone, three of his own players held him back and finally calmed him down, he was tagged with a misconduct. As the game ended Dubchuk flipped the puck at the boards, and it unfortunately went over the wood and hit a female fan on the wrist, the Dryden Police moved in and wanted to press charges, but after talking it over, it is believed the entire matter will be dropped. The game itself as always between these two arch rivals, is tense, and it takes so little to open these two clubs up, that a stern reinforcement of the rules is needed at all times. Tomorrow night the league leading Warroad Lakers are here and at eight thirty on Saturday Fort Frances Canad-

SUPPORT LOCAL INDUSTRY, THEY PAY LOCAL TAXES, AND, EMPLOY LOCAL LABOUR.

In these days of striving for new industries in a field of the strongest competition, there is a danger that the viewpoint of supporting existing industries is forgotten, and this applies especially to smaller industries facing the stiffest possible competition from outside sources.

This has become particularly noticeable in the baking and milk producing industries when Kenora becomes the focal point for larger industries from Winnipeg and other centres, especially during the vacation months when thousands of holiday visitors come to this summer playground.

There is no law which prevents larger corporations entering the local field, nor is it desirable that there should be any restrictions on free enterprise. But it should be appreciated that other factors enter into the argument which have sound basis for consideration.

Local industries EMPLOY LOCAL LABOUR, and help to benefit the economy of the town and district all year round. Local labor resides at home and spend their earnings at home. They pay taxes, and contribute to the community in many ways.

Local farmers can sell their products to local dairies and in this way the economy of the district benefits. If milk is brought in from other sources, local farmers suffer accordingly, and this is reflected throughout the whole business circle and eventually comes back to our own community. For local farmers in the large majority spend their earnings in Kenora and Keewatin.

Price ranges for such commodities are comparable in every way, and the local products have a high standard of excellence as is indicated by the local patronage already enjoyed.

NAKED TRUTHS REVEALED BY RESEARCHER

EAST LANSING, Mich. Have you ever wondered what would happen if some cosmic calamity suddenly rendered everyone stark naked?

You probably haven't, but Dr. Arthur M. Vener of Michigan State University has.

Dr. Vener recently completed research on the psychological and socialogical aspects of clothing.

He reveals that universal nudity would be quite baffling.

If you walked into a store, you couldn't tell the salespersons from the customers. The floorwalker wouldn't be any help. He wouldn't even have a buttonhole, much less a carnation.

How would you find a policeman unless you saw one directing traffic?

And, if you entered a restaurant, how would you identify the waitresses?

Here are some other bare facts Dr. Vener uncovered in his clothing research:

1. Persons who have "come up in the world" are more aware of clothes than those who have been in the same economic and social group all their lives.

2. A person's clothes consciousness is not passed on to his children.

3. In fact, father has little influence on the dress habits of his teen-age children. Mother carries some weight, but the teen-agers also rely on others in their age bracket.

4. Girls have more clothes awareness than boys, especially those who care more about the opinion of others.

PREFERS SEAT WITH DRIVER

GUELPH — An affectionate pig caused $100 damage to its owner's truck Tuesday.

Anthony Berberich, 61-year-old nearby Rockwood farmer, had the pig penned in the rear of his panel truck. It broke loose as he drove through Rockwood and clambered into the front seat.

The farmer, surprised at having a pig in his lap, lost control of the truck, which hit a road sign. Farmer and pig escaped injury.

TOO PROUD TO ACCEPT

MINDEN, Ont. —The area's unemployment problem worried a barber in this village 38 miles northeast of Orillia. He put up a sign: "Free haircuts for the unemployed all day Wednesday."

Says George Park: "Not a single request for a free haircut. I can't understand it. There's quite an unemployment problem here."

VEXATIOUS SITUATION

BATON ROUGE, La. A visitor unfamiliar with pedestrian traffic signals telephoned police headquarters Tuesday asking directions to the state capitol.

Desk Sgt. M. K. Gunby asked the caller his location.

The man stepped outside his phone booth, then returned:

"I'm at the corner of 'Walk' and 'Don't walk.'"

Kind Deed Exploited

VANCOUVER — A lay preacher knelt in prayer with a man who requested special attention Monday night, then opened his eyes at the end of the prayer to find his wallet and the man missing.

David Bergen told police the man came up to him after a service in Beaulah mission and together they went into the prayer room and knelt.

The wallet contained $1.50.

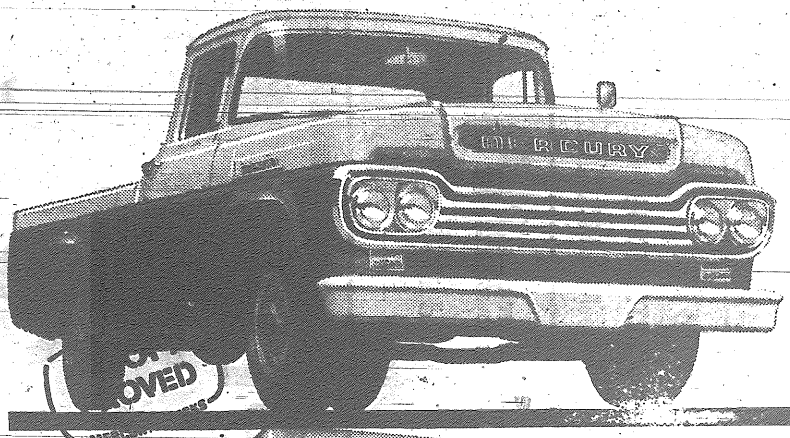
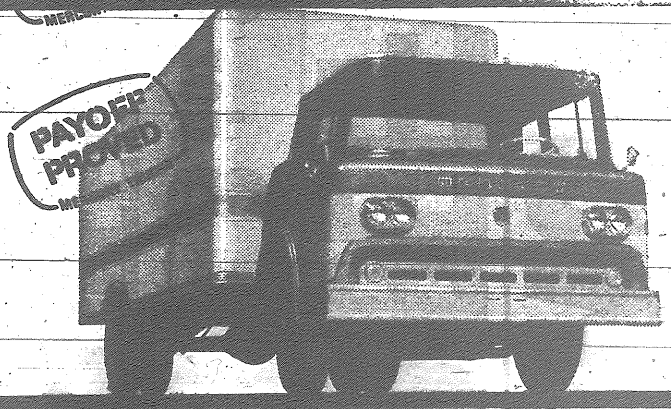
NOW AVAILABLE AT PENNER'S '59 MIGHTY MERCURY TRUCKS



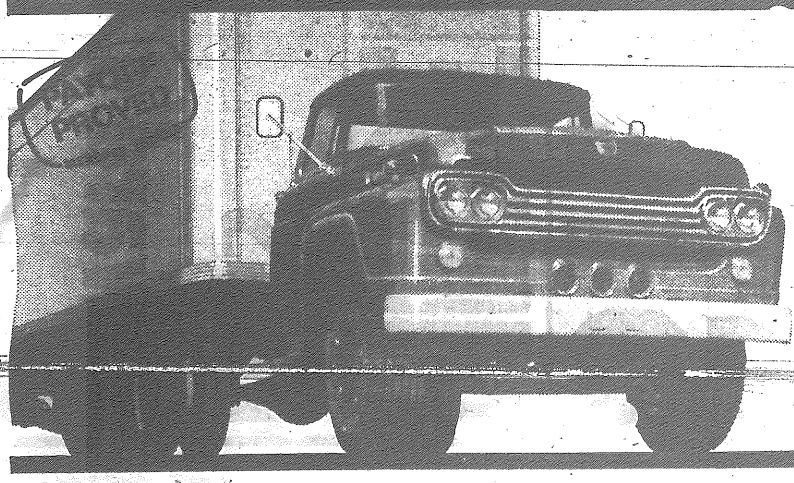
LIGHT DUTY SIX OR V-8

New *payoff-proved* Mercury Light Duties are here with many *new* improvements, new advancements. Both Six and V-8 engines run best on lower-priced, regular gasoline. Handsome new styling combines with Mercury's big capacities to give you trucks that look like a million, yet work for pennies. An industry-new seat covering wears twice as long as former fabrics. New Multi-Drive Merc-O-Matic provides two automatic driving ranges for *all* conditions. New power transfer differential helps prevent bogging down in mud, snow or on ice. Your Mercury Truck dealer has the full story.



MEDIUM DUTY SIX OR V-8

'59 Mercury Medium Duties offer you *payoff-proved* economy, power and comfort in conventional, tilt cab and school bus models. But '59's story doesn't end there. They're new from modern grille to far more durable seat covering materials. New improvements in both Six and V-8 engines give you full short-stroke power from lower-priced, regular gasoline. A new internal shoe parking brake, standard on all Mercury Medium Duties, gives nearly 50% greater holding ability. These are just a few of the *payoff-proved* features that make Mercury Trucks Canada's best buys for profitable medium duty trucking.



HEAVY AND SUPER DUTY V-8

'59 Mercury Trucks give you more of what you want for Heavy and Super Duty operations. These *payoff-proved* giants in conventional, tilt cab and tandem models feature Mercury's rugged V-8 engines. And they run best on lower-priced, regular gasoline. A wide range of transmissions includes the fully automatic Transmatic and the 8-Speed Roadranger. New rear axles and lower rear axle ratios give you top capacity and economy. Cabs feature stronger construction, heavier sheet metal reinforcements and longer wearing seat fabrics. Get the full story from your Mercury Truck dealer.

Certain features illustrated or mentioned are optional on some models, optional at extra cost on others.

Fort Sewer Costs Stun Councillors

FORT FRANCES — "Stunned" and "staggered" were the words applied by Fort Frances councillors to their condition after being informed that it would cost the town $2,300,000 to install a proposed sewage disposal plant and storm sewer system.

The figure was revealed at the town council meeting last night by Mayor J. T. Livingstone.

Livingstone said the report submitted by the Wardrope engineering firm of Fort William "would make you dizzy" since it contained "so many figures." The firm was engaged to survey the project.

"Even if we only do half the work, we would still be taking on ourselves an awfully heavy tax burden," he added.

Suggesting that government officials interested in eliminating pollution of waterways be asked to advise the municipality, Livingstone said he was going to invite a Dr. Berry to visit Fort Frances. He also recommended that council find out how International Falls recently financed a similar undertaking.

The Fort Council gave approval of a licence for the Minnesota television company to operate in Fort Frances. The council went on record as supporting any applications made by Minneonto to either the U.S. or Canadian governments.

GOT THE DIMES IN THREE DAYS

CHICAGO — Walter S. (Tiny) Weimer, who spent three days on a scale while contributors to the March of Dimes matched his 345 pounds in coins, earned $7,524.18 for the polio fund.

It took that much in coins to balance the scales, the March of Dimes announced.

Weimer, a community chairman for the March of Dimes, sat down on a special scale at a downtown intersection last week and vowed to stay there day and night until his weight was matched.

The first trading post in Canada was probably at Tadoussac, at the junction of the Saguenay and St. Lawrence rivers, where early French fishermen traded for furs with Indians of the region.

PROCLAMATION

KENORA

WHEREAS this season of the year usually brings about a reduction of employment opportunities for tradesmen and others due to construction projects having been completed; and

WHEREAS indications are that numerous projects are being planned for later in the year which will likely mean that during the coming spring and summer seasons the demand for skilled and unskilled workers will be great; and

WHEREAS it is desirable from all points of view - economic and otherwise - that employment in our community be maintained at as high a level as possible throughout the year; and

WHEREAS having such work as repairs, redecorating and renovating of premises done now when men and materials are more readily available such a desirable objective might at least be partially attained while at the same time the likelihood of inconvenience and delays later on would be avoided;

NOW THEREFORE by virtue of the authority vested in me as Mayor, I earnestly request the wholehearted co-operation of the citizens of Kenora in the "LET'S DO IT NOW" campaign being conducted locally at this time.

Having that job done now would no doubt be to your advantage as well as that of your fellow citizen who may be presently without work.

"LET'S DO IT NOW"

GOD SAVE THE QUEEN

Dated at Kenora this 15th day of January 1959.

PETER RATUSKI,
Mayor of Kenora.

INAUGURAL ADDRESS STRESSES . . .

(Continued from Page 1)

gress in recent years. A number of improvements have been made, and I believe this Board enjoys the confidence and backing of the Public in our efforts in trying to maintain high standards in our School.

The duties of the Board are briefly as follows:

1. To ensure that this school is operated with proper staff, and accomodation, under the Schools Administration Act of 1954, The Secondary Schools and Boards of Education Act 1954, and the Regulations.

2. To appoint a Secretary-Treasurer.

3. To fix times and places for meetings.

4. To Transmit to the Minister of Education all reports and returns required by the regulations.

5. To make provisions for adequate insurance.

6. To take proper security from the Secretary-Treasurer.

7. To keep school properties in proper repair.

The Board has, beside its duties, extensive powers which it may exercise under the Act.

During 1958 this Board, among other things

1. Appointed Chas. M. Hayes as Vice-Principal January 1, 1958.

2. Held preliminary discussions with The Public School Board in connection with property line surveys.

3. Provided, in co-operation with Chief Pike, and the Public School Board, a special constable at the school entrance to protect the school children and to eliminate the parking problem created by use of the school properties by non-students.

4. Sent the chairman as a delegate to the Ontario School Trustees and Ratepayers Association Convention at Toronto in Easter Week.

5. Discontinued Night School classes with the exception of basic English.

6. With the co-operation of The Ontario-Minnesota Pulp and Paper Company Limited, filled in the area directly south and west of the School with bark, as a preliminary step in providing a new playing field.

7. Converted our heating plants to natural gas.

8. —and this is by far the most important, provided and officially opened in November our new five room much needed school addition.

I would suggest to this Board that perhaps we could spend less time on routine matters, and occupy ourselves more with educational policies.

We have, from time to time, discussed the advantages of a possible joint Administration and Building Superintendent - A man qualified to relieve the Board of a great deal of detail. Possibly, we should give this a lot of consideration in 1959.

We must try and keep our standards as high as possible, but we should, I belive ,be cautious in our spending this year. I feel that with high spiraling costs and high debenture debts, etc., we should do our part to help keep our Municipal tax rate down. Let's scrutinize every dollar spent carefully.

I am not suggesting that we are in the position of the Church in the far South that had the following notice posted on its door—

"Next Saturday night the Annual Strawberry Festival will be held. On account of the lack of funds, prunes will be served," but I do, however, suggest careful judicious spending of the taxpayers' dollars.

I would point out to this Board that by 1961 some further accomodations will be required according to the present enrollment in the elementary schools, and would recommend that we set up this year a committee to conduct a survey in the school district to ascertain if there is a demand for vocational education in the industrial course.

I would also recommend that every effort be expended in seeking department heads for Mathematics and Social Studies.

Before concluding this inaugural talk, I might say I am pleased that our Board is made up of representative citizens of our communities, of citizens who give much of themselves for the cause of education in Kenora-Keewatin.

As we begin 1959 I think we should all, parents, teachers and board members alike, pause for a moment and make sure that we use our offices and influences in guiding our youth along the right path. Let us make certain that as Christian educators and citizens, we give our young people proper guidance as they confront the social and moral problems that face us today at the national and local levels.

Off the Cuff

by Rick Hunt

"If you do not think about the future, you cannot have one . . ."

—John Galsworthy—

H.S. BASKETBALL LEAGUE SEEN; INDIANS RESUME JUVENILE HOCKEY ROLE; DATELINE:

The future holds riches & promising laurels for High School Basketball in the Kenora - Rainy River District. Indeed, the basketball tournament being held this weekend in Dryden just may be the birth place of a District High School Basketball League. Fact is beginning to rule over rumor. The physical education directors from Dryden, Kenora, Sioux Lookout, Red Lake, Fort Frances and Atikokan will be meeting during the tournament to iron out difficulties facing them, in the way of sports in their respective High Schools. They will also be trying to form a High School Basketball League in this surrounding District to promote better basketball and competition between the schools. This has been carried out to a degree in the football season, but only between three of the High Schools. The P.E. men will likely discuss a schedule and transportation matters. It has been said that the proposed league will find its difficulty in the travelling field, where great distances are involved between the different towns. Other basic problems will also be settled. One will be on future basketball tournaments. The respective teachers will probably advocate more meetings on a "summit" scale in the future to discuss other important physical education problems. The bird of physical education is presently soaring to new glories.

What would a High School Basketball League do to the town of Kenora? It would offer an alternative to hockey for the spectators of sport. It would probably increase local High School spirit to a degree. It would give the game of basketball a true meaning in Kenora, where only exhibition games have taken place in the past. It would improve the game for the fans and would eventually make the players more skillful. Positive results will be given by basketball.

What about the league's chances? Everything depends on the outcome of the meeting between the towns' P.E. representatives this coming weekend in Dryden. They will give the league a birth place, or halt it in its struggle for existence. We think that a District High School League will be born by Saturday.

Emil Uhrynuk informs us that the inter-school pennant for basketball between the Kenora Mustangs and the Fort Frances Muskies will continue on, even if there is a league. No fixed date could be set for a return match between the U.S. Air Force squad and the Mustangs, before the Americans play in their Service Tournament in Duluth later on this month. A game may be held in February . . . .

IT IS AS OBVIOUS as Kenora's annual January Sales that ile League with considerable are riding on top of the Juvenile League pith considerable ace Tony Leonard's Thunder Bay Chapple Cup holders have won their first three outings in rather convincing style and they may be on their way to another Kenora Juvenile championship. Before we give up the captain's ship however, let's take a look at the other three clubs. The Rideout bodied Jaycees seem to be enjoying their first crack at Juvenile competition, and outside of the Lake of the Wooders, they can hold their own. They will likely be the strong Juvenile team of the future. The Legion team will probably give the Indians the most trouble this season. With more practice and actual games under their belt, the Legionaires' experience in the Juvenile League should come to fold. However, the Jaycees are now their bitter rivals, and these two teams will be battling for second place. Not to be forgotten is the team from Keewatin, the jolly Kanucks, who predict that they will beat out the Jaycees and the Legionaires. They already boast of a victory over Legion. The Kanucks also came close to defeating the Indians on Sunday; consequently adding to their merit list. It should be a great year for the four teams in the Juvenile circuit . . . Juvenile players to watch - Vern Mainville, lanky, high scoring forward, who should go placed in his future hockey days. He plays with the league leaders..

DATELINE

Scores from the High School's newly formed inter-form hockey league . . . Go-Getters (Lakeside) 10, Norman Boys 2 . . . Yo-Yos (Rideout) 8, Creekside 2 . . . Broomball this Sunday evening at the Rideout rink when Central tangle with Rideout's best.

In the first nine months of this year motor vehicle production in Canada totalled 262,907 units, compared to 327,996 units in the same period a year earlier. Comparative totals of sales and excise taxes paid on the vehicles were $100 million this year, $138 million last year.

Some people never learn that personal abuse isn't much of an argument.

Ladies Auxiliary To Legion Make Annual Donations

The monthly meeting of the Ladies Auxiliary to the Canadian Legion Branch 12 was held Tuesday, Jan. 13th at 8 p.m. in the East Room of the Legion with 46 members present.

The President Mrs. Eileen McCulloch opened the meeting with O Canada, followed by 2 minutes silence. The flags were presented by warden Mrs. Ann Forsythe, Flag Bearers Mrs. Ricky Cox and Mrs. Micky Johnson. Guards were Mrs. Mary Zroback and Mrs. Ann Cairns. Mrs. Eileen Wallace was pianist for the opening ceremony.

Secretary Mrs. Edna Sellers read the minutes of the previous meeting.

There was one application for membership proposed and accepted. Five new members were initiated they were: Mrs. Pearl De Decker, Mrs. Donna Lentz, Mrs. Claire Minshall, Mrs. Theresa Gagnon and Mrs. Sophie Beeshaw. Treasurer Mrs. Grace Teskey gave the financial report.

Correspondence was read by the secretary comprising of letters and Thank You notes from members and veterans who received Christmas Cheer or other gifts.

The annual donation of $500.00 was presented to Branch 12 Can. Legion, other donations were to the St. John Ambulance, and to the Dryden Ladies Auxiliary who lost all thier banquet equipment in a fire a year ago, a serving cart valued at $77.00 will be forwarded.

The various committees gave their monthly reports, followed by the yearly reports of the previous conveners. The president acknowledged all the reports with thanks especially to Mrs. Francis Pearce the social convener, Mrs. Vi Page and all the members for work entailed with the banquets.

During the business session Mrs. Eileen Wallace was appointed pianist for 1959. Flag Bearers: Mrs. Ricky Cox and Mrs. Kay Sinclair.

Guards: Mrs. Mary Zroback and Mrs. Elsie Pencoff.

Auditors: Mrs. M. Doan and Miss Rose Baribeau.

Funeral Committee: Mrs. Evelyn Farrell, Mrs. Dolly Hancock, Mrs. June Gauld, Mrs. Daisy Lambert, Mrs. Vi Page, Mrs. Micky Johnson, Mrs. Judy Artiss, Mrs. Ricky Cox, Mrs. Kay Sinclair, Mrs. Pauline Hill, Mrs. Isa Wilson and Mrs. Mary Lou Kelly.

The travelling prize was won by Mrs. Mary Hanson. Members were asked to bring a tea towel to the next meeting to replenish our towel supply.

The meeting adjourned with the retiring of the colours and singing "The Queen".

A social half hour followed, Mrs. F. Pearce and her committee serving a lovely lunch.

The Ladies Auxiliary to the Can. Legion wish to extend a Very Happy New Year to one and all.

"Borrower" With Gun Calls Again

PRINCETON, N.J. — This kind of steady customer you can have.

He walked into the Household Finance Company office at the Princeton shopping centre Monday and right away the secretary, Miss Joyce Anderson, recognized him.

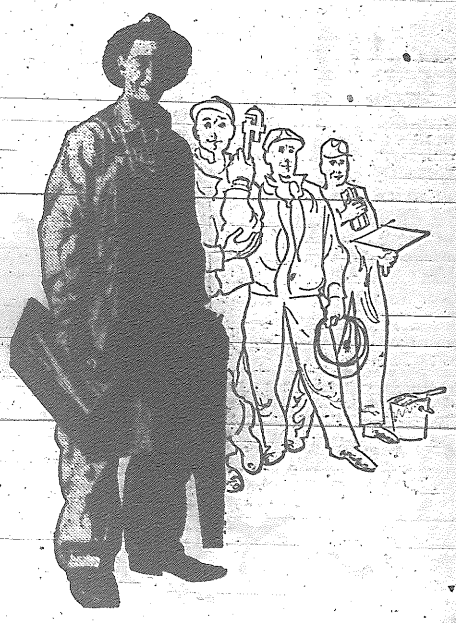
"Are you here for the same thing this time?" she asked.

That he was, the man replied. Then Miss Anderson, alone in the office, gave him all the money in the cash register, $217.

Last December 30 the same man held up the office at gunpoint and escaped with $329.

Iraq's national income rose to $348,400,000 in 1956 from $442,400,000 in 1950.

WE'RE READY NOW...



... next summer we'll be busy

Whether you're planning changes around your home, renovation of a store or the overhaul of industrial plant and equipment—*Winter is the best time to get work done!*

In winter, small jobs get better attention. You get the men with the skills and know-how you need—*when* you want them.

And during the cold weather lull, particularly in the building industry, jobs can be more economical.

HOME IMPROVEMENT LOANS up to $4,000 and up to 10 years to repay are available under the National Housing Act through your Bank. Government-backed FARM IMPROVEMENT LOANS, up to $5,000 and 10 years to repay are also available through all banks.

Help yourself—and at the same time your community to increase employment this winter.

For advice and assistance—call your local National Employment Office

Why wait for spring— DO IT NOW!
