Benidickson Presents "Creek" Petition To Gov't

Information reaching Kenora from Ottawa, states that W. M. (Bill) Benidickson MP for Kenora-Rainy River, has received and has presented to the Federal Minister of Public Works, a petition signed by a large number of citizens, requesting the Department to dredge and clear Laurenson Creek which is classified as a navigable stream along part of its course. Jack Lunny and his associates who are interested in and have had considerable years of experience, initiated the petition and the Member wishes to thank the signatories, for their valuable support of this project which he has been dealing with in conjunction with departmental engineers and local authorities and officials during a long period of time.

Local papers advised the public last Novemebr of intentions to bring this matter to the attention of the responsible department. In presenting the petition, with his strong support, the Member pointed out that present low water levels makes this a particularly favourable season and further urges the project as a means to provide some employment locally.

Over a number of years the matter of Laurenson's Creek has been a continuing subject of discussion between Bill and the engineers and the department at Ottawa and it is hoped that it will now be possible to do a thorough job of improving the navigation of the creek.

"Yellow Girl" Ojibway Version

Marjory Bellamy reports that while paying a visit to Canon Maurice Sanderson at Pinecrest recently, and speaking about "Yellow Girl Bay" and the origin of the name, Canon Sanderson gave the following story of the way the Ojibways think the name originated.

There have been several explanations given as to how the place "Yellow Girl" got its name. Which of them is the right one, I don't know, but I rather like the Ojibway story.

I suppose the same feelings lurk within the savage breast as in others, that the poet wrote about when he wrote, "In the springtime a young man's fancy lightly turns to thought of love." And what can be wrought in the imagination of one filled with such thoughts.

One fine summer's evening, so the story goes, a love-lorn young Indian brave paddled his birch-bark canoe over the calm waters of the lake and gave himself to thoughts of love. As he glided silently round a low-lying point there, ahead of him on a rock shelving into the water sat a girl with yellow hair (perhaps blonde, we would say now) combing her long golden tresses.

The young man stopped in his paddling, and gazed upon the beautiful sight. Perhaps a premonition told the girl that she was not alone; and turning her head, she saw the young man. After a long look she slid into the water and was never seen again.

In telling of his experience afterwards, the young man spoke of "Ooshahwe Equasance" - the Yellow Girl; and the Indians ever since have called the place "Ooshahwe Equasancing" - the place of the Yellow Girl.

Lakehead Port Underway Soon Frost States

TORONTO — The Ontario legislature focussed its attention on northern development Wednesday.

Premier Frost announced his government is considering extension of the Ontario Northland Railway south to Georgian Bay and debate broke out over a threat to the Lakehead posed by a $100,000,000 harbor development planned for Duluth, Minn.

Duluth is about 200 miles southwest of the Lakehead on Lake Superior.

The premier said extension of the 566-mile government-owned railway between North Bay and Moosonee would be related to plans to establish a deep sea port at the James Bay community.

The extension, about 75 miles, would form part of a network of rail and water routes linking the Lakehead and the proposed Moosonee port with the Great Lakes and the St. Lawrence Seaway.

The Duluth plan was brought to the House's attention by Clare Mapledoram (PC—Fort William), who called for government action to speed up development of port facilities at Fort William and Port Arthur on Lake Superior.

He said "a serious blow" might be dealt to the Lakehead by Duluth's development. Duluth, closer to Winnipeg, is planning a $100,000,000 harbour development which could take port business away from the Lakehead by providing an alternative route to Western Canada.

Premier Frost promised his government will use its "full force" to preserve the status of the Lakehead.

Mr. Mapledoram also complained about Ontario's failure to oppose the federal board of transport commissioners.

There is a general feeling now at the Lakehead that the province of Ontario should have made some representations to the federal government about the rail freight rates.

SHOULD BE SAME

"We feel that we should have the same freight rates as Manitoba. It costs twice as much to send something to Dryden from the Lakehead as it does to Winnipeg."

Reforms Minister Wardrope, member for Port Arthur, said Duluth may be closer to Winnipeg than the Lakehead but by water it is 14 hours farther inland.

At the same time Mr. Wardrope suggested a truck licensing concession which would permit trucks to travel from Manitoba to the Lakehead.

"This would give us a great deal of advantage over Duluth in getting freight from the port."

Albert Wren (L-Kenora) said $40,000,000 of the money for the proposed Duluth development is reported to be coming from Canada and remarked:

"That's a far cry from some of the visions we heard from the government at Ottawa some months ago."

Mr. Wren attacked the government for its "utter neglect" to complete the Trans-Canada Highway to the Manitoba border. He said voters in northwestern Ontario "are not going to put up with it much longer."

W. G. Noden (PC—Rainy River) took issue with the Liberal member. He said the government is providing an alternative route to Manitoba—due west to Atikokan and Fort Frances and then north to Kenora and the boundary.

Discussing northern development, Premier Frost said the St. Lawrence Seaway will make centres on the Great Lakes potential ocean ports.

"With the Moosonee development on James Bay, the government has been looking at the practicality of extending the Ontario Northland Railway from North Bay to Georgian Bay somewhere around Parry Sound.

"This would give a direct rail connection from a Great Lake port to what would in fact be an ocean port with tidewater at Moosonee.

"Concerning the Great Lakes, I may say that we are looking at the great potential of places such as Little Current, Sault Ste. Marie, Michipicoten Harbor and the Lakehead in the future development of our northland.

"The government has already made representations to Ottawa relative to the port at Fort William and Port Arthur . . . I am glad to say that things have been cleared so that the port, which is of the highest importance to Canada at the Lakehead will shortly be under way."

RED LAKE CUBS IN JUNIOR LEAD SENIOR COUGARS NIP MUSTANGS 48-46

By Rick Hunt

The basketball teams from the Red Lake District High School scored a double basketball victory at the Kenora-Keewatin High School gymnasium last evening. The Red Lake Cougars defeated the senior Mustangs 48-46 in a thrilling contest, and the visiting junior Cubs trounced the local Colts 45-42. The Red Lake Cubs are now in first place in the junior division of the Northwestern Ontario High School Basketball Association with three straight victories.

The senior contest between the Mustangs and the Cougars was one of the most exciting games seen on the local court in the past few seasons. Ron Buckler paced the Cougars with 19 points while Bob Apps and Pete Wynd notched 11 points each for the purple and whiters.

Ehor Boyanowski, the star player for the junior Cubs, tallied 21 points for the junior league leaders. Ernie Surkan scored 13 points for the losing Colts.

The junior game was in the hands of the Red Lake visitors from the opening whistle. The Colts could not keep Ehor Boyanowski from scoring and therefore, the Cubs found an easy victory. The senior game was much more exciting than the junior match. It was a see-saw battle between the Mustangs and the Cougars all the way. The game was tied at the half, 24-24. Then in the last half both clubs put on an excellent exhibition of passing, dribbling and shooting to keep the fans on the edge of their seats. With one minute to go in the contest the Red Lake team led 46-44 and then Harold Symonds swished the basket on a perfect shot to put the Mustangs only two points down. The Cougars then held the ball by passing it around for their defensive play until time had run out on the roving Mustang lads.

The victory gave the Cougars their second win in the senior division while the Mustangs have won only one game to date. Both the senior and junior games counted "four" points last evening . . . See OFF THE CUFF for further court jots.

A Message For Our Day

THE KENORA MINISTERIAL ASSOC.

GOD IS LOVE

At the time of the Birth of Christ, we see the love of God manifested towards us, He sent His only begotten son into the world (John 3:16).

During Lent and Easter we see the love of God, as Jesus suffered and died that we might have the forgiveness of sins. He did this because He loved us, John 15:13.

Jesus' ascension into Heaven is also an expression of love. He has gone there to prepare a place for us in those eternal mansions that we read about in John 14: 2-3 on the Day of Pentecost the outpouring of the Holy Spirit was both witnessed and experienced by the disciples. It was an act of love, to endue the believer with power to be a Witness, Acts 1:8.

Yes "God is love" He loved us and He loves us now even though we are sinners. We did not, and do not deserve His love. We deserve God's wrath and displeasure because of our sins. Only a love like God's could reach out to sinful rebellious mankind. Romans 5:8.

What should be our reaction to this? John sums it all up when he says "we love Him because He first loved us" Jesus says, "If you love me keep my commandments".

Let us show our love to Him, who first loved us, by loving God and our neighbor.

Rev. E. L. Armbruster,
Full Gospel Church.

"THE PRACTICE OF MEDICINE IS A THINKER'S ART"

*(Author's Name Below)

If you have headaches often, it is not enough to just get relief from the pain. The cause must be discovered and cured.

Headaches can be a symptom of fever, acute indigestion, chronic appendicitis, eye strain, food poisoning, constipation, or even a brain tumor. When a physician prescribes a medicine, you can be sure that he will not only relieve the immediate pain, but will also try to cure the cause. Be wise. Depend more on your physician than self-treatment.

Automotive Parts Salesman Wanted

An experienced salesman required to sell automotive parts, one who is interested in building a secure future with the Canadian Subsidiary of a long established U.S. Organization, with a Dun & Bradstreet Rating of AAA-1. We pay our top salesman commission in excess of $10,000 individually per year. The salesman must be capable of functioning independently, 30 to 45 years of age, married, a good mixer and motivated by a desire through hard work to earn a high rate of earnings without close supervision.

The most important credential with which we are concerned is that the applicant has established a record of being a successful salesman with a past record of reliability. He must have a car in good condition and be able to finance himself for sixty days to work in the cities of Kenora, Dryden, Rainy River and the general area of the Lake of the Woods, calling on Authorized Dealerships, Independent Garages, Construction Companies, Fleet Accounts and Industrial Plants. This is a proven territory with a large volume of already established business. A real opportunity awaits the fortunate applicant.

The Canadian Sales Manager from the Toronto Office will be at the Kenricia Hotel, Kenora, Ontario on February 19th and 20th, 1959, to interview interested applicants.

Personal interviews will be arranged through the National Employment Office, 10 Main Street, Kenora.

ROBERTSON AND STRAIN IN ACTION . . .

DATELINE: We have it that Whipper Billy Watson may be coming Kenora way to speak at a forthcoming scout and cub banquet . . . The famous wrestler and after dinner speaker usually campaigns for the March of Dimes and it is reported that he may be here to talk about that . . . After all we have quite a March of Dimes organization locally . . . Certainly hope that the "Whipper" can make it . . . Neil Strain and Sugar Robertson will see action in the annual old timers and "young fry" Thistle clash. But for the first time, the two former red and white stars will be on the "old" line-up . . . Last year's game was very successful . . . It was Sam Robertson's night then and the fans packed the Thistle, even though the temperature was well below the zero mark . . . It should be quite a game this Friday, February, 13. It could be an "Unlucky" night for the present day Thistles, even if they are not superstitious about the date . . . Chuck Rayner will be wearing the pads for the old timers . . . Better get your tickets early for this one . . . Glad to see that the Grand 'ol Opry was such a success. . . The performers of the show should be congratulated . . . Proceeds went to Kenora's future recreation centre . . . Basketball was fast and furious at the High School Gym last night. The Red Lake teams looked very good in defeating the local teams . . . Red Lake's junior Cubs are now in first place in the junior division . . . Their coaches are Jim Sturgis and Bill Christie . . . The Cougar's victory over the Mustangs was the big attraction and the large crowd on hand really watched some good basketball . . . This Northwestern Ontario High School Basketball Association is really coming along at top speed . . . It certainly has developed an interest in basketball in the district . . . The Mustangs and Colts leave for Fort Frances to-day to participate in their annual pennant duel . . . Fort Frances is not in the district basketball league . . . Officials at the games last night were Tom Cook, Frank Townsend and Dave Moorey . . . The fellows turned in a nice chore for both contests . . . The Mustangs seem to be lacking a leader in their attack. Bob Apps, Harold Symonds and Pete Wynd are playing good basketball for the locals . . . The local squads will now be doing the travelling to the other district points . . . The Jaycees defeated the Legion Juveniles 4-2 to hold second place in the local Juvenile League . . . . The Jaycees say that it is now their turn to defeat the league leading Lake of the Woods Indians . . . that cuffs it; play it safe on and off the field of sport . . . . Rick Hunt.

Bank Shareholders Buy Additional Stock

More than 99.4% of the shareholders of the Toronto-Dominion Bank took advantage of the Bank's recent offer to purchase additional stock, according to Allen T. Lambert, Vice-President and General Manager.

Of the 400,000 shares offered, said Mr. Lambert, only 2,262 remained unsubscribed for when the offer closed on January 15. The shareholders were offered one additional share for every five shares held.

The stock offer resulted in 1,016 new shareholders being placed on the Bank's books and the total number of shareholders now stands at 10,631.

"SERVING WITH A PURPOSE"

Comparative Price Advertising is no "Gimmick" at EATON'S

WHEN EATON'S QUOTES COMPARATIVE PRICES THIS IS WHAT IT MEANS . . .

● When we compare an EATON special price with the "Ordinary price" prevailing — a thorough survey is made of the local market, to make certain **that the special price to be quoted is substantially lower than the price at which a comparable article is being sold RIGHT AT THE PRESENT TIME in other stores as well as our own.** Only when this condition is fulfilled will we quote comparative prices in our advertising.

● Whenever we quote a "regular price," **we refer to the last price at which the merchandise was sold at EATON'S** even though that price may have been a reduction of an earlier "regular price." Thus, if we sell an article at 4.95, reduce it to 3.98, and later on reduce it to 2.98 — it will be advertised as "Reg. 3.98. Special Price 2.98."

Throughout its history EATON'S has steadfastly scorned misleading price comparison practices. Above all things, we value your **confidence** . . . and we safeguard it by sticking to this simple, straight-forward rule.

EATON ADVERTISING MUST MEAN WHAT IT SAYS, AND SAY WHAT IT MEANS
