COLORING CONTEST WINNERS

The following are the winners of the fourth Easter Coloring Contest.

FIRST PRIZE - $5.00 worth of records from the Music Centre won by 9 year old Sheila Fleming of 13 6th Ave. S., Kenora. Sheila enclosed a sales slip from Acme-Kenora Cleaners.

SECOND PRIZE - Two Books of Paramount Theatre Tickets won by 6 year old David Fairfield, 840 7th Ave. S. His sales slip was from Acme-Kenora Cleaners.

THIRD PRIZE - One Book of Paramount Theatre Tickets won by 10 year old Joan Nagengast, 844 Robertson St. She enclosed a sales slip from Zeal & Gold.

The picture to be colored for the fifth week's contest will be published Saturday in the Kenora Miner and News. Boys and girls aged five to twelve are eligible to enter, but each entry must be accompanied by a sales slip from one of the participating merchants.

BREWERS' WAREHOUSE ASSOC.

5 DRIVERS RECORD 40 YRS. OF SAFE DRIVING

The seventh annual Safe-Drivers banquet of the Brewers Warehousing Company Limited was held last evening at the Patricia Hotel. Representatives of the company were present from Dryden, Sioux Lookout, Red Lake and Fort Frances.

Highlighting the evening was the presentation of safe driving awards to five drivers of the company. Merv Carlson of Kenora with a enviable record of seven years of safe driving received his 11 year award from Peter Ratuski.

Other recipients of awards were Mike Kressell of Sioux Lookout, Vic Cowey of Kenora, and John McRae of Fort Frances each with 9 years safe driving, and Gordon Lyle of Dryden who received his 2 year award.

The head table guests introduced by Mike Boles Kenora, manager of Brewers Warehouse were Mr. Bert Philion, district manager from Sudbury, Mayor Peter Ratuski, District Inspector O.P.P. T. Corsie and Corporal Maurice Stewart of the Kenora Detachment of the Ontario Provincial Police, and Sgt. Fred Whitehead of the Kenora Town police.

Mayor Peter Ratuski brought greetings from the Town of Kenora, and said he was very glad the Brewers Warehousing Company chose Kenora for their banquet. He gave words of congratulations to those members receiving safe driving awards, and said he hoped they would continue to drive carefully.

The guest speaker of the evening Corporal Stewart of the Ontario Provincial Police was introduced by Mike Boles. Corporal Stewart outlined the proposed Demerit System, which is to come into effect in Ontario shortly. The speaker said the new system in his opinion, is much needed, and will protect citizens from the small minority of reckless drivers, who cause the majority of accidents today.

The speaker went on to say that the proposed demerit system will make good drivers better, and correct the poor driver.

Corporal Stewart then explained how the system will work, and how points will be deducted. He congratulated Brewers Warehousing for having one of the best safe driving records and went on to explain that the Ontario Provincial Police have improved their own driving record during the past few years.

He concluded by saying, that under the new system the detachment will continue to enforce the law in a reasonable manner and NOT try to see how many demerit points they could hand out.

If nothing else is accomplished, the speaker said, it will remove the accident prone driver from the road. Paul Dalseg of Dryden thanked the speaker.

To conclude the evening the film "Flagged for Action" was shown. This showed the demerit system at work in the province of Manitoba.

Five Celebrate Birthdays At Pinecrest

The candle was lit once again at Pinecrest when a birthday party sponsored by the Ladies' Auxiliary was held on the afternoon of St. Patrick's Day to celebrate the birthdays of those residents born in the month of March.

The cake, donated by Mrs. Jack McLeod was in keeping with the motif of the patron Saint, being iced in white edged in green. The names of the following residents who celebrated their birthdays were inscribed in green icing on the cake: Miss Fitzgerald, Mrs. McKenzie, Mrs. H. Dowd, Mr. Gaffney and Mr. A. Juskew.

Mr. Paul Albert provided the entertainment for the afternoon with western type music. Accompanying himself on the guitar, he sang several selections which were very well received.

The party was arranged by the social committee of the auxiliary and convened by Mrs. P. Dubenski and Mrs. B. Oakley. The servitors were Mrs. A. West, Mrs. W. P. Lenton, Mrs. F. Swanson, Mrs. T Brown, Mrs. W. Watkinson, Mrs. D. Lambert and the president Mrs. W. G. Saunders.

Tea and birthday cake was served to the residents and friends and to those in the hospital ward who were unable to attend.

Education Week Essay Winners Named Today

Winners have been announced in the Annual Grades 7 and 8 Essay Contest held in conjunction with Education Week. Eighty-two essays were received by the 4 judges, all members of the two local Toastmistress Clubs.

First place in Grade 8 was awarded to Cheryl Petrick of Mount Carmel School. She will receive the Rotary Trophy.

Second Place in Grade 8 was won by Cheryl Hayes of North Ward School. Cheryl will receive the Lion's Club Trophy.

Cheryl Shiska of Evergreen School will be awarded the Kenora Kinsmen Trophy when she placed first in the Grade 7 class.

Second place in Grade 7 was won by Joan Stuart of North Ward School. She will receive the Keewatin Kinsmen Trophy.

Honourable mentions were given to Keith Magnus (Keewatin Public School), Robert Harvey, (Rabbit Lake) and Randy Elliot, (King George) all of Grade 8.

Capactiy Crowd Rate Sportsman's Night, Big Success

A near capacity group attended the first annual Sportsman's Night, held in the Legion Auditorium, Wednesday. The Kenora Kinsmen Club were the sponsors of the event.

Guests for the evening were Bud Grant and Gordie Rowland of the Winnipeg Blue Bombers. Lloyd Gilbart, in introducing Bud Grant, coach of the Bombers, told the audience that Grant had played all but two of his professional years of football with the Winnipeg club. In 1957, he said, Bud Grant was selected from a number of applicants to take over the coaching job of the "Big Blue." In two short years as football coach, he has placed his team in the Grey Cup finals, each year, he said, with the Winnipeg club decisively defeating Hamilton to become national champions.

In introducing Gordie Rowland, the group was told that he was a native Canadian, and has been a defensive standout for the Bombers. Last year he was chosen as the best Canadian player in the Western Conference. Most laymen think he should have been selected the best in Canada, it was stated. He also played a standout game for the victors in the 1958 Grey Cup contest.

The two speakers gave short but informative talks, and following the showing of the 1958 Grey Cup film, Grant and Rowland co-chaired a quarter-back session. Numerous questions were asked and opinions given relative to the finer points of the classic. In closing, Bud Grant stated that he hoped that

POLICE EVIDENCE

GUN, BULLETS, CLOTHING INTRODUCED AT TRIAL

The hearing on a charge of murder against Thomas Young of Ear Falls continued Wednesday afternoon with three witnesses giving testimony during the session, which was adjourned at 5 p.m. with Corporal R. McGarva on the stand. Young is charged with the Christmas Day slaying of Constable C. R. Fulford.

The first witness called during the afternoon was John Funk a biologist from the attorney-general's laboratory in Toronto. The first exhibit entered was a tube of blood which established, that Constable Fulford's blood was group "O".

The witness was then called to identify the clothing worn by the slain constable. Mr. Funk told the court he had received the officer's clothing on January 6th from the Ontario Provincial Police in Kenora.

During his investigation he said he found numerous patches of blood on the officer's clothing all being group "O".

The constable's parka was badly blood stained, and had a hole ¼ inch in diameter, in the back below the left shoulder, Mr. Funk said, and the officer's tunic had a similar hole in the same proximity.

The clothing of Thomas Young was then produced and the witness told of receiving these exhibits also on January 6th and of giving them a thorough examination. The witness stated that Young's blood was also type O.

The witness told of finding traces of blood on Young's clothing but in many instances the amount was too insignificant to be grouped.

Some blood found on the accused's trousers was not human, he said.

The witness concluded by stating that on January 7th, he received from Inspector Needham a blood stained pistol.

Mr. Tom Brett counsel for the accused then asked the witness if Group "O" was not the most common blood group. He was told 42% of persons have this grouping.

JURY EXCLUDED TWICE AT MORNING SESSION

BULLETIN

Shortly before four o'clock this afternoon, the Honourable Mr. Justice Thompson, presiding judge at the Thomas Young murder trial, ruled admissable as evidence, the relating of events leading up to the deaths of James Gordon, Albert Young, and Clara Gordon which took place in the same vicinity and at the same time as that of Constable Fulford.

Earlier this morning, the jury was excluded from the court room when Crown Attorney T. A. O'Flaherty requested the evidence be used. Defence Attorney Brett put up a spirited argument against using the evidence citing many examples.

The evidence is expected to be presented after court resumes at four o'clock.

When the spring assizes of the Supreme Court opened at 10 a.m. today, with the Honorable Mr. Justice Thompson presiding Corporal R. J. McGarva was recalled to the stand this morning to continue giving testimony that was stopped when court adjourned Wednesday afternoon. Thomas Young, is on trial, charged with the murder of Ontario Provincial Police Constable C. Fulford. Cpl. McGarva told of finding a body identified as Albert Young in the lower bunk in the bedroom.

In reply to a question from the Crown, the witness stated it was often customary for these people to go to bed partially clothed.

The witness continued that one pane of glass in the kitchen window was broken and there was a hole in the window screening.

On December 28 tests were made and these tests produced in

Jaycee District Conference Slated For March 21, 22

The Kenora Jaycees will be hosts to the Spring Conference of District thirteen of the Ontario Junior Chamber of Commerce this coming weekend.

Approximately 60 delegates are expected to attend the conference including representatives from Port Arthur, Fort William, Atikokan, Dryden, Sioux Lookout-Hudson and guest delegates from Winnipeg. Mr. Jack O'Rourke, National President of the Junior Chamber of Commerce of Canada from Chatham, Ontario will be a distinguished visitor for the conference.

Highlights of the conference will be an address by the National President and District Effective Speaking Finals, at the Sunday noon luncheon.

Post Office Speeds Development Programme

Ottawa,—Major changes in the Postal Service operations and development organization designed to step up the department's mechanization programme were announced here by the Hon. William Hamilton, Postmaster General.

Mr. Hamilton announced the creation of a new "Engineering and Development Branch" charged specifically with carrying out the department's vastly increased activity in the mechanization of postal operations. Under the new set-up, a senior officer of the department will devote full-time attention to this increasingly important phase of postal methods.

Head of the new Branch will be Mr. J. N. Craig, until now Director of Operations for the postal service. Mr. Craig's long career with the department has included positions of Postmaster at Toronto and Chief Superintendent of Postal Operations at Headquarters. During the past four years, as Director of Operations, he has supervised the development of many of the technical innovations introduced into the postal service and has been concerned with the development of the electro-mechanical mail sorting system now being brought to completion for the Post Office by Canadair Ltd., in Montreal.

The Postmaster General pointed out that Canada is member of a Tripartite Committee, with the Unted States and the United Kingdom, which shares technological developments in mail handling techniques. He pointed out that the volume of mail carried by the Canadian Post Office is growing at a tremendous rate and that increasingly efficient methods of handling it are constantly being evolved. The new Post Offices at Winnipeg and Vancouver, he noted, both include a substantial amount of automatic equipment developed under the mechanization programme.

Functions of the new Branch will include a continual review of all standard postal equipment in order to improve its design; research in mechanization of postal techniques, particularly those involving a high proportion of manpower; examining new ideas in postal operation developed in other areas; testing of new machines and techniques; provision of mail handling equipment to all Post Offices and provision of space and facilities for carrying out all postal operations.

Mr. Craig will be succeeded as Director of Operations by the promotion of Mr. W. H. Wilson, presently Regional Director for the Post Office's Pacific Region. During 30 years in the postal service, Mr. Wilson has held a wide variety of positions including District Director for the Vancouver District and Postmaster at Vancouver.

Mr. Craig and Mr. Wilson will occupy their new positions April 1.

Mechanical hares for greyhound racing were introduced in England as early as 1876.

The Pescadore Islands in Formosa Strait number 64 islets covering only 50 square miles.

Canada had 135 cases of diphtheria, with eight deaths, in 1956, compared with 13,239 cases and 1,297 deaths in 1921.

Jury Excluded Twice . . .

(Continued from Page 1)

court a twig from a sapling found 116 feet from the window.

Corporal McGarva stated he removed from the house 5 empty 303 cartridges, a wine bottle found by Clara Gordon's bed, glass from the broken window, a portion of the window screen, a note and pen. These were held until January 3rd. The witness then went on to relate how various exhibits were handled. The accused's clothing was taken the evening of December 25 and were identified in court by the witness.

On December 29th at 11.05 a.m. he said that he saw the accused at the Kenora District Jail where a sample of blood was taken by Dr. Burris.

J. T. Brett Counsel for the accused, asked the witness about tests taken at the home of Albert Young pertaining to the view of the area from inside the home. The witness explained how the tests were made by himself and Inspector Needham.

The witness stated he was in the Ear Falls area from the 25th of December to the 28th of December.

DR. SMITH RECALLED

At this point the Crown requested Dr. Smith of Toronto, be recalled to the stand.

Dr. Smith testified yesterday that a person consuming 3 bottles of native wine, commonly referred to as goof in 4 hours, would have from 1-5 to 3 parts alcohol per thousand in the system. He further stated that after court adjourned he had realized a mathematical error. These figures should have been doubled to from 3 to 6 parts per thousand, he said. In reply to a question from the Crown, he stated that a person with 6 parts per thousand in his system would "quite likely be dead.

NOTE INTRODUCED

Mr. Packard, a document examiner with the Attorney General's laboratory in Toronto, stated that on January 6th he received a note written on an envelope.

He also received a copy of the accused's handwriting - referred to as a London letter, he continued.

The witness said he then set about to compare the two. At this point the Honorable Mr. Justice Thompson, said he was not satisfied that this was admissable evidence at this time. The jury then retired from the court room, and following a discussion with the Crown and the defense attorney, it was stated that the note was inadmissable at this time. The jury was then recalled.

BALLISTICS EXPERT

Constable Gazey, a fire arms examiner with the RCMP at Rockliffe, Ont stated that on January 8th he received various exhibits from Corporal McGarva. These included a .38 calibre fired Smith and Wesson bullet and two particles, a .38 calibre Colt revolver, 5 .38 calibre Smith and Wesson cartridge expended. He said he also received 1 .303 rifle, plus metal fragments.

He stated that following extensive tests he was sure the .38 calibre bullet was fired from the Colt revolver. He further stated that his tests showed that the .303 cartridge cases were fired from the .303 rifle produced in court, but added the metal fragments were insignificant in making positive identification.

Constable Gazey was then cross-examined by the defence counsel, and was asked to tell the court how the tests had been conducted.

CORONER TESTIFIES

Dr. S. M. Burris of Kenora stated that on December 29th he took a sample of blood from the accused at the District Jail, and found him to be medically fit.

On being cross-examined by defence counsel, the witness admitted it was possible for a person to have a nosebleed, and that the evidence could disappear almost immediately.

SIXTH WITNESS

Constable M. Ken, a chemist and fibre examiner with the RCMP Laboratory at Rockliffe, Ont., told of receiving part of a jacket as well as core material from bullets on January 12th.

At this point, Crown Attorney T. A. O'Flaherty, told the Court he wished to discuss some points of law, and for the second time in the morning session the jury was dismissed from the court room.

The Crown told the court that he was now prepared to bring in witnesses who were on the scene of the alleged shooting. He told the court that it would be impossible to question these witnesses without them referring to other shootings. He then asked the court to allow these statements if given, as evidence.

No decision had been given when court was adjourned at one p.m. to resume at 2.30 this afternoon.

Single Dose Serum May Wipe Out Polio

Minneapolis — A cherry-flavored polio vaccine which may give full protection with one swallow is being tested in an experiment involving 65 college families, it was disclosed today.

"If these studies substantiate the effectiveness of the liquid vaccine, then the world is on the way toward eradication of poliomyelitis," said Dr. Robert N. Barr, executive officer of the Minnesota department of health.

Barr said the new live vaccine can be given safely to a day-old infant. It can be taken in milk or fruit juice or drunk from a spoon or vial.

Unlike the Salk vaccine, which uses chemically killed polio virus to immunize against paralysis, the experimental vaccine makes use of live but tamed and weakened virus.

"It is based on a modification of theory that the best way to get rid of a disease is to catch it," said Dr. Herman Kleinman, head of the department's chronic disease section. "This vaccine infects the bowel, then produces antibodies that cure the infection and immunize locally and throughout the system."

He said the Salk vaccine does not protect a person catching polio and transmitting it to another, although it does prevent paralysis.

The experiment involves married university of Minnesota students and their families, some 230 persons.

The new live vaccine has been administered more than 1,000,000 times in different parts of the world since the Minnesota project in 1958, the scientists said, "and there were no unfavorable reactions."

Civil Service Assoc. Supports Director

A well attended meeting of the Ontario Civil Service Association, Kenora Branch was held in the Kenora [illegible] on Tuesday, March 17th, 1959.

The purpose of the meeting was to express the support of the members, to the Board of Directors in view of the protest meeting being held in Toronto March 22nd.

The Kenora members voted unanimously in favour of the Board of Directors' stand with regard to bargaining rights. They also vigorously protested the recent allegations in the press that the views of the association are those of a few "agitators".

Claims Judo Makes For Betterment Of Persons

The Kenora Judo-Kai would like to take this opportunity to thank all the people, companies, radio and newspapers who have assisted in bringing Judo to Kenora and Keewatin. The Kenora Judo-Kai have 73 members in the senior and junior group. Some of the children will not be attending or have not been accepted because of their behaviour or because of the volume now at the Club. As new members are required the children on the waiting list will be first accepted.

Parents are asked not to attend classes with the children as they tend not to listen properly and are conscious of their parents presence. Children are asked to be on time Tuesday at 7.00 p.m. and the classes end shortly after 8.00 p.m.

The Kenora Judo Kai have encountered numerous complaints because we wish to teach Judo to children.

Mr. G. Crosby states that Judo is taught first and foremost as a sport, but it also can be used in self defence. Many adults make the complaint that we are teaching children to become hoodlums. If teaching adult discipline, self respect and using the body for general well being is teaching a child to become a hoodlum, then we should not worry of the up and coming teenagers who will be running this country in years to come. Judo students are taught not to street fight and to avoid trouble. Why? Not that we fear for the student, but because of the ignorance of the other party, fighting should be left up to bullies and fools. You then will say, the child will use Judo when being assaulted. You an adult, what would you do? Take up a stick, rock, your fists or some sort of violence. I believe that the Judo student would not cause injury. Judo is not un-armed combat and it is not the same as seen in movies constituting injury.

The moralists or psychologists who ignorantly criticize Judo because the material of our training is "animal movement" "base instinct or purely physical", etc. have many things to teach us in the spheres in which they have special knowledge. We must, however, ignore their criticism of our method, until they have experienced its effects on themselves and know what they are criticizing.

It is enough to see what they do when they fall, or when their security is threatened, or when other strong emotions are set up in them, to see that there are domains of human experience where there is room for further growth and development. Many seem to believe, with gratuitous assurance, that the control of emotions on a verbal plane or intellectual understanding is emotional control in fact. There is no such thing as emotion without a body, a body without a nervous system or a mind without a brain. There can, therefore, be no training of emotional control without arousing emotions in the body.

We teach adult human control of the most violent reactions that can be set up in a man. The Judo master does not lose control of co-ordinated action when he is falling, strangled or simply beaten, and we rightly say that he has acquired mental control. It is quite clear that proper Judo practise is, in fact a mental re-education having a deep influence on that psychological make-up of the student. Those who have had the good fortune to cross the path of a master, consider it to be the most important event of their lives. In ending I can only say that Judo is not as violent as boxing or wrestling and many other sports, but in fact can make more claims for the betterment of a person than any other sport.

All funds raised by youthful members of the Canadian Junior Red Cross are devoted to their special projects for young people.

Commercial Mixed League Schedule

THURSDAY, MARCH 19th
7.00 p.m.—
1&2 Claydons vs. Kenora Jeweller

THIS FENCE SHOULD LAST

NEWCASTLE, England ( ) —A group of local county workmen were getting long looks and snickers from villagers today.

A midnight band of beauty-lovers repainted a village fence white in six hours.

The workmen took a week in the daylight recently to paint it green.

The unknown beauty lovers struck Sunday night, changed the color to white and left a plaque which said: "This fence was repainted in the interests of aesthetics, by voluntary labor, March 1959."

A county council official said the workmen will probably have to tackle the job again to get the fence back to its officially approved color.

GRANNY SHOWS HOW IT'S DONE

PARIS, Ont., ( ) — Mrs. Harriet Quackenbush is 80 years young as she demonstrated Sunday at her birthday party.

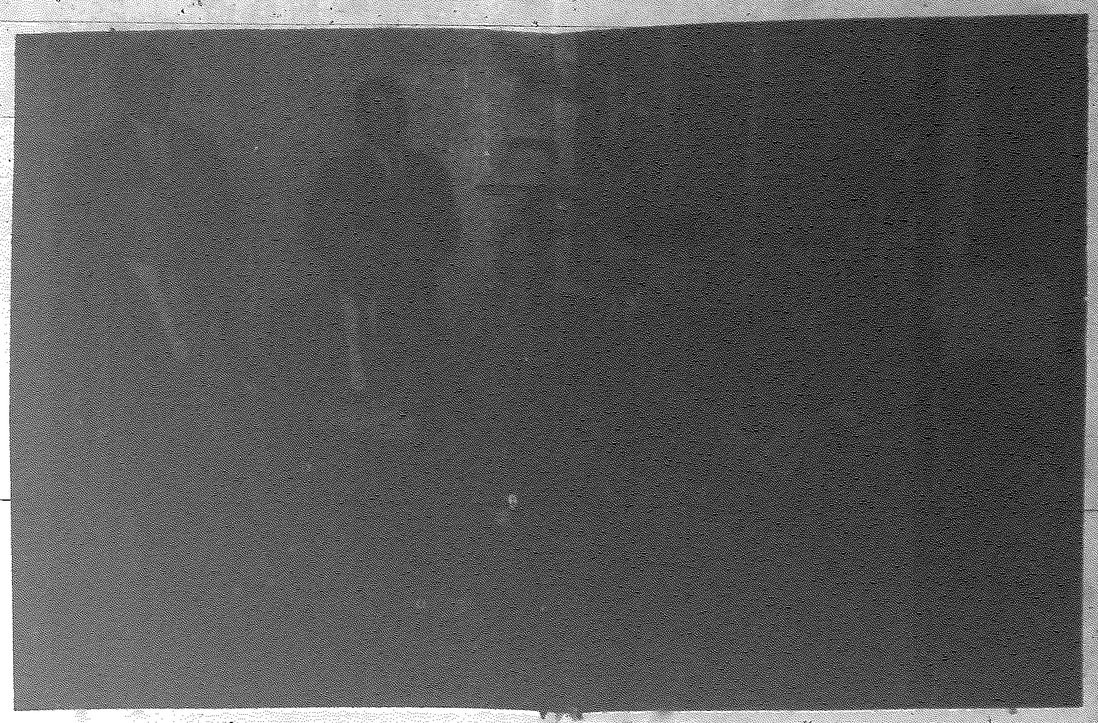
Her family gave her the seemingly appropriate gift of a rocking chair and a footstool. But before settling in the chair, Mrs. Quackenbush showed them she can use a hula hoop.

REMEMBER WHEN?

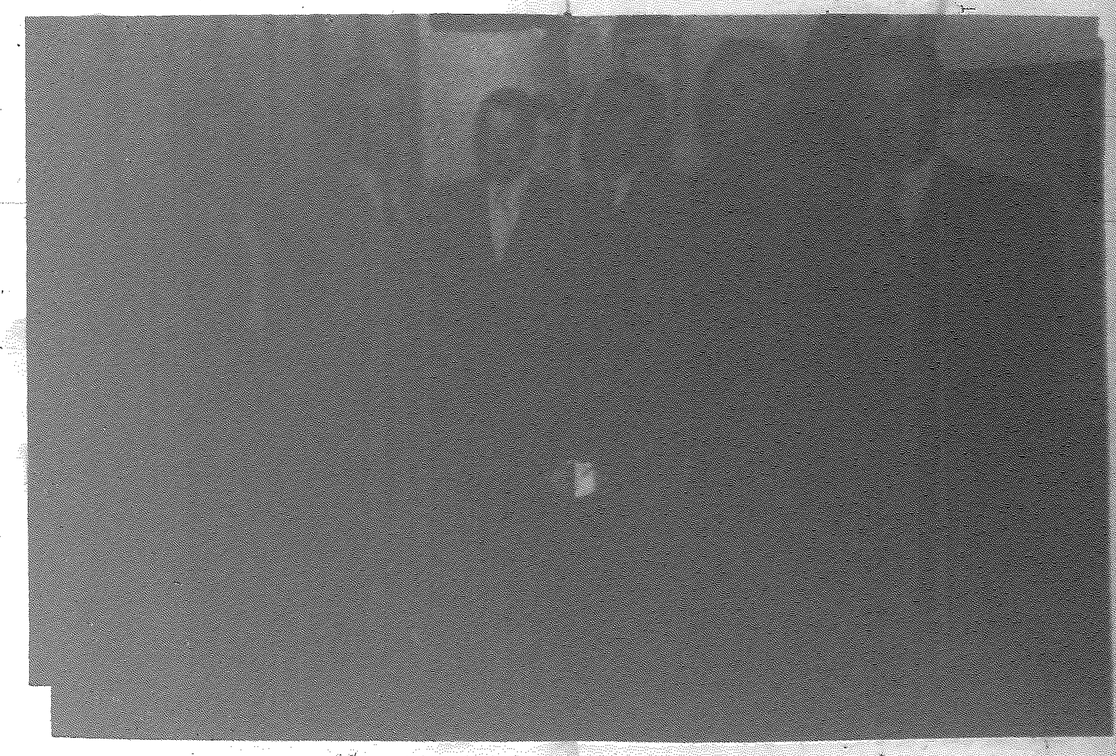
Maurice Richard of Montreal Canadiens was suspended for the rest of the season, including Stanley Cup playoffs, by NHL president Clarence Campbell four years ago today, for a stick attack on Boston's Hal Laycoe and a punch at linesman Cliff Thompson. Campbell was the target of a riot at the Montreal Forum the following night, resulting in award of that game to Detroit Red Wings who later beat Canadiens four games to three in the Stanley Cup final.

SPACE SAVER

Use of microfilm for keeping permanent records in small space was developed in 1870 by the French chemist, Rene Dagron.



Guests and company officials who attended the Brewers' Warehousing Company banquet held Wednesday night in the Legion are shown above. Left to right - District Inspector T. Corsie OPP; Bill Wylie manager of radio station CJRL; Stan Williams Manager of Brewers' Retail, Sioux Lookout; Mike Boles Manager of the local store; Gordon Lyle and Mike Kressel drivers and M. Stewart of the Ontario Provincial Police who was the guest speaker.



Forty years of safe driving is the total accomplishment of the five Brewers' Warehousing Company drivers pictured above. They received their safe driving awards at the annual banquet held Wednesday night. The sixth driver included in the picture at the left is Joe Zucchiatti of Fort Frances who is in line for a ten year award next year. The drivers presented with their awards are left to right - Gordon Lyle, Dryden (2 years), Vic Cowey, Kenora (9 years), Joel McCrae, Fort Frances (9 years), Merv Carlson, Kenora (11 years) and Mike Kressel of Sioux Lookout (9 years).

Mr. and Mrs. Douglas R. Buchanan of Weymouth, Mass., announce the engagement of their daughter, Miss Betty Buchanan, to James Frederick Connolly, MD, BSc, son of Mr. and Mrs. Harold J. Connolly of Ottawa. The wedding will take place in Weymouth on May 16. Miss Buchanan is a graduate of Weymouth High School and the University of Connecticut in physical therapy. Dr. Connolly attended Upper Canada College, Toronto, is a graduate in science from Carleton University and received his medical degree from the University of Ottawa. He is entering his final year in the five-year course in general surgery at the Boston City Hospital.

Dr. Connolly is well known in Kenora, having spent summer holidays here visiting relatives. His mother is the former Elizabeth Rivers of Kenora.

Finds Girl Frozen By Camp Fire

FORT YUKON, Alaska

An Alaskan bush pilot, his voice choked with emotion, told Saturday how he found his 16-year-old passenger frozen to death after his plane crashed in the Arctic wilderness.

"I got down on my knees and prayed to God to forgive me if I had done wrong in leaving her," Walter G. Lyon told a U.S. commissioner's inquest here.

Lyon said he found the body of Marie Martin beside the dead embers of a campfire he built to keep her warm while he mushed to the wrecked plane the two had left in hopes of reaching safety.

The 40-year-old Fairbanks man said he had offered to fly Miss Martin to Arctic Village last Tuesday to visit an uncle. En route, he noticed animal tracks on a small lake and landed to investigate. The plane crashed on takeoff. The two were uninjured but a wing of the plane sheared off.

TRIED TO HIKE

With only a thermos of coffee and one pair of snowshoes between them, Lyon and the girl decided to hike to the village, 20 miles away. After a few hours in the 40 - below - zero weather, Lyon decided they were lost and thought it best to return to the plane. Miss Martin was exhausted and was unable to continue.

"I gathered a stack of wood and built a fire for her," Lyon said. "I told her to keep it burning and to walk around it to keep her from freezing to death while I went back to get sleeping bags and food.

"When I got back I saw her body lying next to the ashes of the fire. I got down on my knees and prayed God to forgive me if I'd done wrong."

Lyon was rescued later that day by Walter John, a trapper, who came across his snowshoe tracks.

HIDDEN DROP

BURTON - ON - TRENT, Eng. — Luckily the place was empty when the ground subsided in a parking lot in this Staffordshire town, revealing a 30-foot well holding 16 feet of water.

DEER DWINDLE

EPPING, England — The number of deer in Epping Forest has been reduced to 90 from 182 in the last 10 years, mainly because of collisions with vehicles.

Men Bowlers Selected

TORONTO — Herb Donaldson of Toronto, with a 1,468 total, Sunday night won the Eastern Canadian bowling championships high single and will head a six-man team to Vancouver for the east - west final later this month.

With Donaldson at the March 27 to 30 tournament on the West coast will be Toronto bowlers Perc Cutting, 1,457; Fred Pechaluk, 1,410; Tommy Moxon, 1,402, and Lorne Taylor, 1,365. Dick Adams of Oshawa who rolled a 1,361 total, is the sixth man.

The roll - off to choose the women's team is led by Verna Bryan, St. Catharines, 1,312; Marin Pusey, Sarnia, 1,269; Blanche Laballister, Toronto, 1,259; Marg Caff, Guelph, 1,255; Thora Harrison, St. Catharines, 1,250 and Jean Knauff, New Toronto, 1,245. The women's section has reached the half-way point in eastern competition.

the people of Kenora would continue to support the Blue Bombers, in this year's quest of the football championship of Canada.

Prior to the adjournment, it was announced that the proceeds from the evening would be put in the fund for the Children's Aid Receiving Home, of which the local Kinsmen are the sponsors.

A vote of thanks was extended to all who had helped make this first Sportsman's Night the success it was.

Court Bullets, Clothing . . .

(Continued from Page 1)

SECOND WITNESS

The second witness to take the stand during the afternoon session was Dr. Smith, director of the Attorney-General's laboratory in Toronto.

Dr. Smith told of receiving a sample of Constable Fulfords blood on January 6th. He testified that he analyzed it for alcohol content, and found none.

He also told of receiving skin from the mouth of Constable Fulford, and tests for powder on this were strongly positive. Under questioning by the Crown, he stated the weapon was close under 36 inches.

The witness stated that on January 14th he received from Mr. Funk, Constable Fulford's parka, and tests for powder around the bullet hole were negative. He also stated that tests for powder around the bullet hole in the back of the officers tunic were also negative.

The witness went on to state that on January 6th he received from Corporal Roller of the Kenora detachment of the OPP, fragments of broken glass. He stated that these were free of powder residue.

The witness told the court that he believed the bullet had first passed through a window screen.

He also told of tests taken in Toronto and in Kenora concerning the effects of shooting at glass.

In cross examining the witness, Mr. Brett questioned him on the tests taken. He also asked the witness about native wine and its effects on the person consuming it. The witness replied that he would have to know pertinent facts such as food consumed and when, the size of the man and the rate at which the individual burns up the alcohol he consumes.

The witness was then again questioned by the Crown as to the effect alcohol would have on a person doing various acts.

THIRD WITNESS

Corporal R. J. McGarva of the Kenora Detachment of the Ontario Provincial Police told of receiving a call at 4.10 on Christmas morning from District Inspector T. Corsie. The witness said he accompanied Corporal H. Roller and proceeded to Ear Falls where they were met by Corporal Bender at 8 a.m.

They then proceeded to the residence of Robert Young at Goldpines, a distance of 4½ miles, arriving at 9.30. There he said, they arrested Thomas Young, as he came out of his grandparent's home. They removed a 38 calibre revolver from the accused's right hip pocket. Witness stated that the gun contained 5 live cartridges and 1 expended one in the magazine. The accused was given the usual police warning and then taken to Red Lake, he continued.

Court was told, the three officers then proceeded to Ear Falls, where the patrol car was parked at the Hydro Sub-station. They then went to the home of Albert Young.

Constable Fulford's body was found 110 feet from his patrol car and 270 feet from the Albert Young home witness continued. He was lying on his right side in the snow and his service revolver was missing.

The witness then identified pictures taken at the scene.

Five feet from the N.E. corner of the house a body was found identified as James Gordon, witness said.

The witness stated that on the east side of the house, tracks running down to the river were found, and these headed in a westerly direction.

A lengthy discussion then ensued between the Crown and Corp. McGarva concerning the Young residence.

On entering the home the body of George Williams was found fully clothed on the kitchen floor, Corp. McGarva said and the body of Clara Gordon was found on a cot in the kitchen. Her clothing was badly disarranged.

The witness stated he found a note and a pencil on the kitchen table. Counsel for the accused objected to having the note read at this time. The Crown did not insist that the note be read, and the court adjourned at 5 p.m. with Corporal McGarva still on the stand.

Plans Finalized For Keewatin Variety Show

The Social Committees of the Keewatin Legion and the Legion Auxiliary met in the club rooms of the Keewatin Legion Building at 7 p.m. Sunday to finalize plans for the Variety Show which they are presenting this coming Friday and Saturday in the Memorial Building.

The props and decorating committee reported that "Murphy's Shanty" was already installed on the stage, awaiting the growth of shamrocks planted earlier in the day.

The committee in charge of prizes reported that 24 merchants had donated prizes. After much discussion it was decided to divide these equally between the two performances with special prizes for the couple present who had been married the longest. The rest are to be offered as lucky seat prizes.

Business being concluded, Ma and Pa Murphy and their brood rehearsed their hilarious bit and "Blarney Stone", the magician convulsed the committees with his seemingly impossible magic, after which the meeting adjourned.

The first mental hospital in North America was founded at Quebec in 1714 by Bishop St. Vallier.

Commercial Mixed SCHEDULE

THURSDAY, MARCH 16th

7.00 p.m.—
1&2 Lucky Strikes vs. Pathfinders

4-H Members Produce Million Pounds Of Sugar

In 1958 members of the 4-H Sugar Beet Clubs in the Province of Manitoba produced beets which yielded just under one million pounds of sugar. This relatively new project, introduced two years ago, is becoming more popular each year and in 1958 a total of 308 members were enrolled in 20 clubs.

Besides learning how to grow, care for and market sugar beets, the members were required to plant and look after a one-acre plot. Two perpetual trophies and miniatures are awarded each year by the Manitoba Sugar Beet Growers Association. Winners in 1958 were Miss Roselyn Hiebert of Steinbach, for the highest general proficiency score, and Jacob Sawatzby for the best seed plot. Jacob's home farm is near Altona. The Beaverbrook Club of Altona had the highest average yield of 14.12 tons per acre.

The trophies were presented to Roselyn and Jacob at the annual meeting of the Manitoba Sugar Beet Growers Association.

The Canadian Red Cross Society commemorates its 50th anniversary in 1959.

Almost 900 housewives and business women are volunteer members of the Canadian Red Cross Corps.

ONTARIO

NOTICE TO TRUCKERS

Half-Loading regulations as outlined in the Highway Traffic Act are in effect as from

12:01 A.M. WEDNESDAY, MARCH 25th, 1959

Traffic officers will be on duty in this District to check loads.

All Provincial Highways and Secondary Roads in the Kenora and Rainy River Districts are under Half-Loading Regulations.

Your co-operation will prevent unnecessary abuse of roads and avoid prosecutions and license suspensions.

F. B. WHITELEY,
DISTRICT ENGINEER.
