Dredging Of Laurenson's Creek To Start Soon

Of interest to local residents is the word recently received from the Dept. of Public Works of the Federal Progressive Conservative Government, concerning the dredging of Laurenson's Creek. The Department advises that the contract has been let, on a tender basis, to the local firm of Jack H. Edwards Diamond Drilling Ltd.

The Contractor advises that it is expected they will start work "in the immediate future" and they are hoping that they will start during the current week. Navigation on the Creek will be improved considerably and the dredging will eliminate the perils caused by the low water level.

Improvements Slated For Local Airport

Resulting from an enquiry by W. M. "Bill" Benidickson, federal MP at Ottawa, to the Director of Construction, Department of Construction, regarding what improvements had been made in the 1958-59 fiscal year to the airport facilities and proposed future improvements in the Kenora Rainy River region, the following information has been received by the Member.

Airport and Airways Surveillance Radar is being installed and a temporary metal building is being put up to house the Radar equipment and enable operation of the facility until such time as a terminal is provided.

The entire water system and sewage disposal system serving all present buildings also has been revised and expanded to accommodate the projected terminal and future buildings.

Investigations and planning are now in process to provide facilities for increased air traffic and scheduled air line operations which will include a terminal building and related services. It is planned to provide an aircraft parking area, taxiway, a car parking area and road, for which plans are now being prepared and it is anticipated that tenders will be called this summer.

In addition it is expected that tenders will be called about midsummer for one double and three single dwellings, for which plans and specifications have been prepared.

Legion Auxiliary Initiates Members

The regular monthly meeting of the Ladies Auxiliary to the Canadian Legion Branch 12 was held on Tuesday, May 12 at 8 p.m. in the East Room of the Legion Building.

The meeting opened with the advancing of colours, "O Canada" and 2 minutes silence. The minutes of the last General and Executive meetings were read and approved.

Under unfinished business the tea was discussed. It was decided that the sandwiches would be donated by the members. Birthday supper tickets had to be purchased by 11 o'clock that night for those wishing to attend. Lunch was to be served after entertainment by the Auxiliary.

The accounts, financial statement and the correspondence were read and placed on file. It was decided that the executive should meet with the men's branch to discuss fire hazards at banquets. The Red Shield was sent the usual $5.00 donation.

All committees were reported to be working hard especially in connection with Spring Tea and sale of work.

It was decided to order pins for all past presidents who don't have one.

Business being over the meeting adjourned with retiring of colours and the Queen.

After the meeting films were shown by Mr. Jerry Bouchard which were thoroughly enjoyed. Tea was served and a social hour enjoyed.

Wren Addresses Campaign Meetings In District

Speaking to meetings of campaign workers over the weekend at Red Lake, Ear Falls, Sioux Lookout and Hudson, Albert Wren, M.P.P. for the Riding emphasized again that the keynote of his campaign was District development and industrial activity leading to full employment.

"It matters not to me what any voter's political affiliation might be," said Wren, "I have always represented every person in the Legislature and any person or group with a desire to move forward, in fields of development and employment are on my side."

"I have lived in my Riding all my life and in the last forty years have seen both joy and sorrow in our desire to move ahead. Through all of it I have never lost my inherent enthusiasm that through diligence, persistence and downright stubborn application we would emerge as an important economic part of Ontario." "EVEN GREATER PROGRESS LIES AHEAD"

Premier Leslie Frost
in his Report to the People of Ontario
4th May, 1959.

On June 11, the people of Ontario will exercise their democratic right to chart the future course of our province.

Before them will be the record of achievement of a decade of wise policies and sound management under the government of Premier Leslie Frost . . . ten years in which Ontario's advances in the development of resources, business expansion and human betterment on all fronts have been unprecedented in Canada or anywhere in the world.

Under Progressive Conservative administration, the stage has been set for even greater progress in the years ahead. The Premier has announced far-reaching and far-sighted plans for government action to continue and increase this dynamic development which has become the envy of the entire world.

The election issue is therefore simple and straightforward. The accomplishments of the past have been tremendous, but *even greater progress lies ahead.* It can and will be achieved only under these same wise policies and with the same skilled and steady hand at the helm of the ship of state.

Foresters Meet

Foresters from Fort Frances, Kenora, Sioux Lookout, and Dryden met last Saturday in Dryden to attend the annual meeting of the Lake of the Woods Section of the Canadian Institute of Forestry. The meeting concluded a series of discussions held during the year, on the problems posed by certain cut-over areas of our forests, which fail to reproduce a new tree crop by natural means. The members felt that, in some areas, action should be taken to give nature an assist, although this was by no means necessary in all cut-over areas. A resolution was passed soliciting support from the Canadian Institute of Forestry, in urging industry and government to meet and attempt to formulate ways and means of tackling the problem.

In general business, the following officers were elected for the coming year: chairman, R. S. M. Bunney, Dryden; vice - chairman, F. E. Sider, Kenora.

Wren Addresses Campaign . . .

(Continued from Page 1)

ditions and doubt about markets had their mill on short time and with frequent shutdowns. Today Dryden is a hub town of Northwestern Ontario, bursting at its seams with nothing ahead but justified optimism." "The gloom people said a few years ago that Red Lake was through but today", Mr. Wren added, "Red Lake is busier than at any time in its history." "Keewatin shuddered from change of ownership, slipping markets, unfavourable tariff conditions & wondered what would happen but through support to their town and to their industry and the faith of the people in the community there is no doubt today in that busy manufacturing town." "Kenora has gone through a period of studied expansion in their pulp and paper mill and orders continue to firm up the futurity of expansion in that industry." "Sioux Lookout imaptiently waits for industrial development in Canada's last accessible stand of virgin spruce forest and the newer development of secondary industry will keep things going until the smokestacks loom on the horizon." "The tourist industry moves forward, beset by many problems it is true, but moving forward nevertheless."

Mr. Wren pointed out how we must work together to bring about full employment. "Our only visible source of income is from our forests, our mines, and our lakes and once armed with resources to meet technological advances from our agricultural land." "Transportation and energy is a key to all this development and we cannot ignore the necessity of standard main and trunk highways; they are vital to our future. The trunk highways and the township roads have to be brought up to a standard of today's loads and traffic demands". The Member emphasized the continuing problem of Indian education and stated, he would leave no stone unturned until there was full equality of edécatoinal opportunity for our Indian young people. Turning again to Hansard, Mr. Wren pointed out how each year since 1951 he has hammered away at the need of the Province to fully enter into Indian Affairs either through association or amended law.

"Despite the profits taken by the more intrepid who had no business to, natural gas will prove a boon to the North and will spur industrial development."

Sabaskong Room Opened Yesterday At Nestor Falls

The official opening of the beautiful new 'Sabaskong Room' and adjacent coffee bar took place yesterday at Nestor Falls. Residents of the community, and folks from as far away as Fort Frances and Kenora attended to offer congratulations to Mr. Helliar and family on their splendid new addition.

The spacious new addition, measuring 40 feet by 55 feet faces Sabaskong Bay and seats 52 persons in the diningroom and an additional 24 at the coffee bar. Open 17 hours each day, it will meet the needs of the expanding tourist trade in a manner which will reflect credit not only on Nestor Falls, but on Northwestern Ontario also. Certainly the delightful room, an artistic creation leaving little to be desired, provides the atmosphere for enjoyable dining.

Jim and Cathrine McCullock manage the Sabaskong Room, and are no strangers to Kenora. Both have worked for Barney Lamm and know the special likes of the travelling public.

The general contractor was Stan Donlyn Ltd. of Fort Frances, while interior furnishings were provided by T. Eaton contract department and Grossman's of Winnipeg.

Charlie Helliar made his home in Nestor Falls 24 years ago. It wasn't the Indian legends of the area that attracted him. "We figured, with the new highway going through, we could make 3 meals a day. For a while, it was heavy going though," he explained.

EARLY HISTORY

Charlie came from England as a youth of 16, settling in Arden, Manitoba. Later he moved to Gladstone and then to Winnipeg. It was while in the Manitoba capital that he met Bill Watkinson of Kenora, and together they enjoyed many trips as commercial travellers. One of these jaunts took them to Rainy River, and here Mr. Helliar thought he could settle down. He purchased a bakery business; later married and became a solid citizen of the Town. In 1935 a disastrous fire levelled the property, and the Helliar family fortune was 'nil.'

It was at this juncture that the move to Nestor Falls took place. The first store measured about the size of a small garage, 10 feet by 18 feet with living quarters of equal size in the rear. Before long, business grew with the community. Ten years ago the present beautiful store, measuring 40 feet by 68 feet was built, which housed, in addition to a wide variety of merchandise, a modern soda fountain. With the additional 2200 feet of space opened yesterday, the coffee bar was moved and the variety of merchandise being offered, increased.

The congratulations offered yesterday to the Helliars, is richly deserved.

Red Sox - Indians Each Win Games In League Opener

Twin baseball games Sunday, marked the opening of the Kenora District Baseball League.

In the eastern half, held at Dryden, the Dryden Red Sox dedefeated Kenora Legion 9-5. Luke Bouchard was the winner for the Dryden club and Gary Beyko took the loss for Legion.

Here in Kenora, the Keewatin home opener played at Central Park due to ground conditions of the Keewatin ball field, saw the North American Indians overpower the new league entry, the Dryden Dodgers by a score of 11-0. Jerry Curle, hurled the winner for Keewatin and Kisano suffered the loss for Dryden. It was unfortunate that the entire Dryden team was unavailable for the opening game.

Tonight at Dryden, the Dodgers take on the Red Sox while Wednesday evening at Kenora, the Keewatin Indians and the Kenora Legion will see action.

LET'S TALK CARS
HOW TO KEEP THE KIDS OCCUPIED ON A LONG TRIP

One of my regular customers drove in the other day to have his car serviced having just returned from a long trip with his family. His wife was with him and we got to chatting. When she told me it was the most enjoyable and relaxed trip they've ever had (what with four youngsters in the family) I was interested to know why. Seems it was all because they played car games.

It sounded like a good idea to me. And in case your youngsters get restless sitting still for hours on end when motoring I thought I'd pass along a couple of the games she told me about. Here they are.

I PACKED MY CAR: Starting with the first letter of the alphabet Junior might start with "I packed my car with apples." Another member of the family then takes up with "I packed my car with apples and beets." And so on right through the alphabet. If anyone forgets one of the items in the right order when his turn rolls around again he has to drop from the game.

GUESS WHERE I'M HIDING. In this game one child is chosen to be "It." He then mentally selects a hiding place in the car and the rest of the family have to guess where he's pretending to hide. In the glove compartment? Under the hood? In dad's pocket. This goes on until the hiding place is guessed or everyone gives up. It's then time for someone else to be "It."

You'll probably think up lots of other games to play once you get started. But no game should ever become active enough to distract the driver's attention.

Before starting on a long motor trip be sure to drive in to DINGWALL MOTORS to have your car thoroughly safety-checked and serviced. It will make for a safer and happier holiday.

Albert Wren Says:

ALBERT WREN during his eight years in the Ontario Legislature has done a great deal to expand opportunity for our young people to get a better education. Albert has helped many youngsters get bursaries and scholarships to get away to College. However one of the great costs from this area is board and room for students going away to University. In these days of high living costs it is an important item to the school budget.

Therefore ALBERT WREN and the Ontario Liberal Party propose to pay a Three Hundred Dollar cost of living grant to each Ontario student attending University away from his or her own locality. Albert recommends that scholarships, loans and bursaries be extended so that no qualified student will be denied a higher education. ALBERT WREN says he will continue to press these things for they are so important to the people of this riding who have to send their youngsters away to University.

North Ward Home And School Hear Festival Winners

On Wednesday evening, May 13, the North Ward Home and School Association held their closing meeting. After a brief business session, Grade seven Junior Red Cross presented a programme.

Patricia was the chairman. An amusng skit was the first item. The festival choirs, who won first and second in their class then sang their festival songs, directed by Mr. Smith and accompanied by Mrs. Kirk. The Recorder Band closed the programme with Venice, a March - That's All and God Save the Queen.

Mrs. J. N. Davidson reported on the Home and School Convention held April 3 and 4 in Toronto. She covered briefly the entire programme of the Convention. The Theme was the "Home and School in Action". Mrs. Davidson appealed to parents to take a more active part in their Home and School. At a symposium, one speaker, asked how to interest fathers in Home and School the answer given was, "In Quebec we don't have that problem, Fathers are the heads of the families and therefore vitally interested in Home and School. Mr. Innard thanked the speaker for her interesting report.

The meeting closed with a social half hour.

The first flag flown in Canada was early England's flag, the red cross of St. George on a white background, later incorporated in the Union Jack.

Emotional Problems Cause Many College Drop - Outs

The "spoon-feeding" of children has been blamed for the high drop-out rate in college, according to a communication from the American Medical Association received by the Health League of Canada.

Four out of 10 students in college today will not stay long enough to be graduated. The root of this high rate is said to lie in psychological troubles. The students simply are not mature enough to cope with college and its demands.

They are products of an era of "spoon-feeding", according to the release. When the student gets to college and finds that everything is not done for him, he cracks up and drops out.

There are, of course, other reasons for leaving college, including financial difficulties marriage or inability to meet the necessary intellectual standards.

Some suggestions were offered to parents and students for handling these college emotional problems.

Parents can help their children remain in college by leaving the children alone: by seeing that they have information about college and career selections, but letting them make their own choice; by refraining from imposing their parental interests on the children; by seeing that children have a previous living-away from-home experience; by not overstressing the need for high grades, and by letting the children earn part of their own expenses.

Advice to students is as follows:

Before going to college, try to get a realistic picture of what to expect; recognize that college will present stiff academic competition; from the start, budget study time; if shy, get a roommate and make yourself available for social contacts, but don't over-emphasize the social side of college; try to think through what you want to get out of college, then make sure your work has a direct relationship to your career.

Leadership Training Course At Quetico

"The course will cover leadership skills needed by officers of Home and School Associations" said Mrs. H. Foulds, Vice-President, Ontario Federation of Home and School Associations, Port Arthur. "We plan to give instructions on programme planning, discussion techniques, effective meetings and duties of officers in part 1; organization and administration, programme aids and resources will be covered in part 2. The Area Committee meeting of representatives of all Northwestern Ontario Home and School Associations will be part 3."

According to Mrs. Foulds anyone interested in Home and School work may attend the Training Course at the Quetico Conference and Training Centre. Registration forms are available from local Home and School officers; from the Community Programmes Branch of the Ontario Department of Education, 400 Catherine Street, Fort William; from Mrs. H. Foulds, 569 Daw-Representatives, Community Proson Street, Port Arthur; or from the Quetico Conference and Training Centre, Box 1000, Atikokan.

Instructors for the course are: Mrs. J. Cropper, Provincial Executive Vice-President, Toronto; Mrs. H. Foulds; Mrs. J. S. Maxwell, Port Arthur Home and School Council; Mr. W. Dougall, National Film Board; Mrs. C. D. Riley, Chairman, Port Arthur Home and School Council; Mrs. A. Thingstad, Area Organizor; H. E. Thomas and Dean McCubbin, grammes Branch.

OUR HIGHEST GUIDE

— WINSTON CHURCHILL

I say that the flame of Christian ethics is still our highest guide. To guard and cherish it is our first interest, both spiritually and materially. The fulfillment of spiritual duty in our daily life is vital to our survival. Only by bringing it into perfect application can we hope to solve for ourselves the problems of this world, and not of this world alone.

I speak not only to those who enjoy the blessings and consolation of revealed religion, but also to those who face the mysteries of human destinies alone.

From Winston Churchill's
Speech March 31, 1949
at Boston M.I.T.

NEAR-RECLUSE WILLS ESTATE TO HANDICAPPED CHILDREN

ST. PAUL—(AP)—A St. Paul man who chose to live as a near-recluse because he had a disfiguring skin ailment left a half-million dollar estate to aid the handicapped children of Minnesota.

The will of Nevin N. Huested, Jr., who died last month at the age of 55, was filed for probate last week.

The executor, Attorney L. E. Matteson, yesterday said the document stipulated the money is to be placed in trust for the benefit of some charitable organization that provides aid for handicapped children, without regard to race, creed or color.

Matteson, a longtime friend, said Huested lived almost the life of a recluse, contenting himself with books and studies of various nature. He had been afflicted with the skin ailment from childhood.

According to the executor, Huested had been given $50,000 by his father in Merchantville, N. J., and increased it to nearly $200,000 through his investments while living here. Last December he inherited money on the death of his father.

British Get Hep on Cats, Roll-ons

LONDON —The cat that beat her all on getting hep in the espresso has at last gained official recognition in Britain.

Cat, hep, roll-on (a two-way stretch;) and espresso are all included in the latest supplement put out by the authoritative Chambers British Dictionary.

Ten years ago these words would have meant little to people who rely on the dictionary for their English. Had they described the cat's dilemma with the words then at their command, they likely would have said:

"A young lady with an addiction for jazz music suffered a disarrangement of her clothing while performing a vigorous dance in a coffee house used by the younger set."

This is a measure of what is happening to the English language, but as a spokesman for Chambers said, "We must keep up with the times."

Chambers—despite its international distribution—is printed and published only in Britain. For 58 years, its tomes have been hauled down from bookshelves over the world to throw light wherever English is spoken.

THERE'S a man in the world who is never turned down,
Wherever he chances to stray;
He gets the glad hand in the populous town,
Or out where the farmers make hay;
He's greeted with pleasure on deserts of sand,
And deep in the aisles of the woods;
Wherever he goes there's the welcoming hand —
He's THE MAN WHO DELIVERS THE GOODS.

The failures of life sit around and complain;
The gods haven't treated them white;
They've lost their umbrellas whenever there's rain,
And they haven't their lanterns at night;
Men tire of the failures who fill with their sighs
The air of their own neighborhoods;
There's one who is greeted with love-lighted eyes —
He's THE MAN WHO DELIVERS THE GOODS.

One fellow is lazy, and watches the clock,
And waits for the whistle to blow;
And one has a hammer, with which he will knock,
And one tells a story of woe;
And one, if requested to travel a mile,
Will measure the perches and roods;
But one does his stunt with a whistle or smile —
He's THE MAN WHO DELIVERS THE GOODS.

One man is afraid that he'll labor too hard —
The world isn't yearning for such;
And one man is always alert, on his guard,
Lest he put in a minute too much;
And one has a grouch or a temper that's bad,
And one is a creature of moods;
So, it's hey for the joyous and rollicking lad —
For the ONE WHO DELIVERS THE GOODS!

BOAT SHOW FEATURES DEMONSTRATION RIDES

The very latest in boats, motors, boat accessories and camping equipment, will highlight the gigantic boat show which will be staged here in Kenora on Thursday, Friday and Saturday, May 21, 22 and 23rd. The show will be held in an ideal setting, right on the Lake of the Woods, at the Rowing Club. This natural show place will provide the two companies sponsoring the show, Williams Hardware Co. Ltd. and the T. Eaton Co. Ltd. with the needed facilities for demonstrations. Patrons attending the show will be able to test drive the boats and motors right in the water. The public will be invited to take free rides in the latest outboard boats powered by the finest motors, and permitted to take over the controls themselves to learn first hand how the newest in outboard motors and boats operate and perform.

Boats featured in the demonstration will include: Peterborough, Star Sraft, Springbok, Viking, Lone Star, Thornes, Webb and Chestnut canoe boats. Motors to be demonstrated will include: Mercury, Viking and Evinrude.

This 1959 boat show which opens at two o'clock Thursday afternoon will remain open till 5.30 p.m. and be open in the evening from 7 to 10 o'clock. The same hours will apply for Friday also but on Saturday, the show will run continuously from 2 o'clock till 10 o'clock.

Those in attendance will be able to get refreshments from a booth sponsored by the Kenora Oddfellow and Rebekah C.P. and T. Fund committee, under the chairmanship of Mr. Art Beasant. All proceeds from the booth will be used to help Cancer, Polio and Tuberculosis patients of this area.

Plan now to take the whole family to this outstanding boat show. There will be something of interest for all members of the family. Father and the older boys can choose their boat and motor for the outings on the Lake while mother and the girls can choose the camping equipment from the large displays. Father too, can select a power lawn mower which will do the grass cutting in a quarter of the time and thus the family can have more time on the lake.

The T. Eaton Co. Ltd. and Williams Hardware Co. Ltd. cordially invite one and all to their 1959 boat show. See you at the Rowing Club, Thursday, Friday and Saturday.

26-Year-Old Mom Gives Birth To 10th Baby

HOUSTON, Tex. — A mother only 26 years old gave birth to her 10th baby here Saturday.

The latest addition is Loretta, 5 pounds 7 ounces.

Mrs. Aveline Suarez has borne a child each year since her marriage in 1949.

Her husband, Antonio, 33, is a railroad employe.

The same doctor, B. J. Wilkerson, delivered all the Suarez babies at Memorial Hospital.

Baby Loretta takes her place behind Richard, 9; Anthony, 7; Mildred, 6; Joseph, 4; Christine, 3; Patricia, 2, and David 1. Two other children died in infancy.

Both natives of Houston, Mr. and Mrs. Suarez married when he was 23 and she was 16.

Short Shorts Cost You $10 At Magog

Magog, Que.,

— A pair of short shorts here this summer may find you on the short end of a $10 fine. In fact, shorts this summer in this eastern township's tourist town will have to be long enough to reach the knees—men's or women's.

"In the past," said police chief Telesphore Lavoie, "we have tolerated shorts on our streets and too often the shorts have been very, very short. One could say they were almost indecent."

Now, he said, a five-year-old by-law that draws the line on shorts at the knees, will be enforced.

But chief Lavoie has provided a small out for tourists and sidewalk ogiers. "Pants-like" shorts that end above the knee will be permitted on the streets.
