Our EDITORIAL VIEWPOINT

THE END OF AN ERA

During the past 15 years we have witnessed the advent of the jet age, the atomic age and the space age. We might be forgiven in these fast-moving times therefore, if a news item elsewhere in this issue escapes our attention.

By contrast, it notes, not the start of a new age, but the end of an era. The 40th Medium Regiment, RCA Militia completed its final live-firing exercise at Shilo last week-end, and in future will be assigned new duties in keeping with changes brought about by the advent of the three above-mentioned ages.

For generations back, there has been no substitute for the foot soldier in time of war. The appearance of the airplane in World War I served but to indicate a new dimension in future conflicts. Few would have hazarded the guess in 1918 that the role of the big guns was to end so soon.

In Kenora, where hundreds have passed through the local Armouries, the end of the era will hold nostalgic memories. Particularly will this be true for George Carmichael, Bill McLeod, Ernie Crandall, Max Lachappelle and Bob Campbell, commanding officers of the Unit who still reside here.

Much could be said about the part which the local Militia unit has played in the defence of our Country. Probably many thoughts of past deeds flooded back in the memories of officers at Shilo Monday when the final "live shoot" of 100 rounds of 105 mm explosive ammunition was fired. In the words of Captain Dennis Nairn, "No gunner likes to lose his guns. I feel the task of the Militiaman in the national survival role is an important one."

Looking ahead, realistically we must prepare for atomic age conditions. Here, the roles of the Unit and of Civil Defence interlock. Civil defence will assume responsibility for personal problems, while the Army will be concerned with radiation monitoring, evacuation, survival; fire and police duties, communication and a host of other responsibilities.

We salute the officers and men of the 40th Medium Regiment on this historic occasion and wish them well as they embark on a new and interesting phase of Canada's national defence.

Miss Patricia Francis To Present Piano Recital

Music lovers of this area are in for a real treat on Friday evening when Rotary Club will present in recital, Kenora's own noted pianist, Patricia Marie Francis, A. R. C. T. and L. R. C. T. The recital is to be held in the high school auditorium commencing at 8.30 p.m.

PAT FRANCIS

James Francis was born and educated in Kenora and for the past few years has been furthering her studies in piano with the Royal Conservatory of Music, Toronto. A consistent winner of awards and scholarships while in Toronto, Pat placed first in the examinations for her L.R.C.T. held last year. Pat was also the first winner of the Kenora District Music Festival Rose Bowl.

This coming recital, marks the second time that the Kenora Rotary Club has presented Miss Francis in Kenora, although recitals are not new to this talented pianist. In Toronto recitals, she earned "rave" notices in the eastern papers.

Young and old alike are looking forward to hearing Miss Francis. She has planned an interesting program including well known piano selections. Tickets may be had from any member of the Rotary Club. Proceeds are in aid of the Student Loan Fund.

Funeral Services For Late Edgar McMillan Thursday

Edgar William McMillan beloved husband of Anne Alliston McMillan of Norman, Ontario, died suddenly, Tuesday morning, May 19th. Born in Portage la Prairie, Manitoba, February 10th, 1912, he was in his 48th year.

He received his education in Portage la Prairie and he was employed by James Richardson and Sons and Patricia Transport, both of Winnipeg, prior to coming to Kenora in 1956 as sales manager for W.H. Marr Ltd. He was a member of Capitol Masonic Lodge, A.F. and A.M. of Winnipeg.

In addition to his widow, he is survived by one daughter, Allison of Toronto, two sons, Blake of Portage la Prairie and John at home; one brother, Albert McMillan of Dryden and one sister, Margaret McMillan of Washington, D.C.

Funeral services will be held in the chapel of the Brown Funeral Home, Thursday afternoon, May 21, at two o'clock. James Chell student minister of Bethany Lutheran Church will officiate and interment will be in the Lake of the Woods Cemetery.

Pallbearers will be: J. D. Macdonald, Lorne Harris, Walter Brennan, Orlie Johnson, Gavin Millar and Wm. Marr, Jr.

LUCKY DOLLAR

Another CJRL travelling dollar is making the rounds of local stores. Placed in circulation this morning, was dollar numbered EL - 3916415. This lucky dollar must be presented at Radio Station CJRL by 5.00 p.m. Friday, May 22nd to be eligible for the $5.00 Credit Note good at any store with Hawaii on the door.

Still in circulation and good up until 5.00 p.m. Thursday, May 21st is lucky dollar. F! - 9212162.

Rotarians Told Of Problems Of The Modern Air Age

New problems of modern aviation in this supersonic age were all graphically and ably outlined to members of the Kenora Rotary Club on Tuesday by Flight Lieutenant William Bain of the RCAF, and with the Space Age just around the corner, it could be seen that modern aviation control is rapidly developing into an intricate science with innumerable almost unsurmountable difficulties to be met.

W. M. Marr presided, and two visiting Rotarians reported on Monday. Attendance was 92.73% and last week, 93.18%.

Introduced by Rotarian John Warner, Flight Lieutenant Bain, who has among things had a two year tour of duty on Sabre Jets, and is now Air Cadet Liaison officer for the area, said that in a recent flight to Vancouver in a T33 trainer, he had experienced some of those control difficulties en route. Air Traffic Control was becoming a rapidly difficult problem.

He divided the four ages of flying into four groups. The first when flying in Canada from 1919 to 1950 was classified as the Age of pioneer development in Canada. The second from 1945 to the present was the Jet age, and in the middle of this era came the Atomic age. The Space age was rapidly approaching.

Air power in the Jet age depended upon many things. Science, development, industry, civil aviation and military aviation, and from the rotating pin wheel we took from the centre our air potential and our future air power.

The speed of development the pressures of the moment, development in air science and development, all were culminating in new problems, and now civil aviation was getting into the jet and supersonic age and new ad-

(Continued on Page 3)

Hansen's, Kenora Olson's, Keewatin Join IGA Chain

Tomorrow, Thursday, May 21st will mark the official opening of the newest addition in food merchandising stores for this area when the IGA Stores, Hansen's of Kenora and Olson's of Keewatin join the coast to coast chain of the Independent Grocers Alliance, IGA.

IGA stores have the distinction of being independently owned and operated, in a nationwide system of free and independent enterprise geared to preserve small business.

Located in all major towns and cities in both Canada and the United States, Howard Hansen owner of Hansen's Self Serve, Kenora and Andy Olson of the Keewatin Store are both proud to become partners in this ever growing chain of top notch food stores.

Both stores will feature IGA brand lines with table rite meats a specialty. All IGA meat is personally selected by specially trained meat buyers.

As an added attraction all youngsters of the area may take part in a bicycle draw, with a bicycle to be awarded to some [illegible] Full details of the draw may be had from either the Kenora or Keewatin store.

Opening day specials at both the Kenora and Keewatin stores, will be found elsewhere in this issue.

Kenora Kinsmen Club Receives Service Shield

At the Governor's Dinner on Saturday May 16, 1959, the Kinsmen Club of Kenora was presented with the Dr. Art Schwartz Service Sheild. This trophy is presented each year to the Kinsmen Club in District Two (Manitoba and Northwestern Ontario) which is judged to have carried out the best service project during the past year. The presentation was made at the District Convention, which was held this year in Port Arthur.

Service Projects are judged on the basis of community need, member participation, community benefit, and humanitarianism.

Since service work is the underlying principle of Kinsmenship, this award is considered to be the highest award in the district.

The Kenora project was the obtaining of a Receiving Home for the Children's Aid Society.

The Kenora Kinsmen Club are very proud to have won this trophy, which also means that this project will be considered for the National Service Trophy at the National Convention at St. Andrews, New Brunswick next September.

Minnesota School Band To Present Concert In Kenora

An outstanding High School Band from Floodwood, Minnesota, will pay a visit to Kenora on Thursday, and definitely arranged is a concert at Pinecrest Home for the Aged, with the possibility of a downtown concert at Memorial Park, provided the weather man co-operates.

The school band has some fifty-five members, and the trip is part of the award given to the band members for their past season's outstanding performances at innumerable functions.

As a goodwill measure the band is visiting the Kenora area, and the trip to Pinecrest was warmly accepted by the Board of Management and if the weather is agreeable the concert will be presented on the spacious lawn in front of Pinecrest with the general public invited to come along and enjoy the concert.

If the weather is favourable it is planned to have the band members perform at Memorial Park, and announcements will be made over the radio and through the local newspapers, as soon as general conditions are known and the arrangements are confirmed with the band management.

This outstanding group will play without remuneration and it is hoped Kenora and Keewatin citizens will turn out to enjoy their visit.

FORMER RESIDENT WINS T.V. SET

At "Variety Night" staged by the Kenora Legion on Friday evening, Jim Sweeney, a former Kenora resident was the lucky winner of the T.V. set. Jim who resides at 26-44 Hargrave Street, Winnipeg held ticket number 352.

MOOSE LODGE DRAW WINNERS

The Loyal Order of Moose Lodge No. 1689 Kenora wish to thank everyone who helped make their recent draw a success. The names of the winners are as follows:

First Prize - $300.00 Miss Sonia Stadnyk, Kenora.

Second Prize - $150.00, Miss Dolores Mayosky, Norman.

Third Prize - $75.00, Melvyn Rapinda, Norman.

All the pulp and paper mills combined use only one third of the annual forest cut.

Canada is taking more measures to protect the forests, her most valuable resource.

END OF AN ERA

40TH MEDIUM REGIMENT FIRES HISTORIC SALVO

Victoria Day was a day of special significance to the local Regiment, marking the end of an era. For on that day the 40th Medium Regiment fired its final salvo, the last live-firing exercise at Camp Shilo. As the Militia takes on its new role in the nuclear age, the survival role outlined in Defence Minister Pearkes' recent White Paper on Defence, the field equipment will be gradually withdrawn.

Late Saturday, representatives of the Regiment from the Lakehead, Dryden and Kenora gathered at the Armouries. Through the co-operation of the RCAF, the group was then airlifted to Shilo for Exercise "Gungone 1". This was a Fire and Movement Exercise involving the firing of 100 rounds of high explosive ammunition from the 105 m.m howitzer guns on the firing ranges.

The weatherman smiled on the operation, providing clear skies and temperatures near 80 degrees, making conditions ideal in every respect.

Capt. D. A. R. Nairn, Unit Training Officer, was in charge of the Kenora contingent which included Lieut. S. R. Hayward; S/Sgts. H. G. Michalak and A. C. Tew; RSM J. P. Calder; Sgt. O. J. Cook; Bdr. D. E. Belair; L/Bdr. D. J. Cameron and Gnrs. N. J. Ames; R. E. Fairfield; G. M. Fradsham; A. J. MacFarlane; L. N. McArthur; E. Paulson; N. C. Ralph; P. A. Roy; J. E. Belair; G. S. Cameron and J. N. Engstrom.

Capt. Nairn 'pulled the string' on the final four round salvo. The brass casings were retained, one of which was brought back to Regimental Headquarters and presented to Lt. Col. R. Campbell, Commanding Officer, as a permanent memento of the historic occasion. As the militia turns its interests to its new role in national survival, Capt. Nairn spoke for all when he said, "No gunner likes to lose his guns, but our new job is an important one."

Fire Department Answers Early Morning Alarm

Shortly after one o'clock this morning, the Kenora Fire Department answered a call to the Department of Highways building on the east highway, where a small fire had started in the carpenter shop.

Prompt action by the firemen resulted in the fire being brought under control in a very short time. Damage to the building is estimated at around $300 but at press time, damage to equipment was not available. Cause of the fire has not been determined.

KEEWATIN LEGION AUXILIARY PRESENTS $2,500 CHEQUE TO LEGION BLDG. FUND

Highlighting "Ladies Night" held by the Keewatin Legion, Branch No. 13, was the presentation, by Mrs. Jessie Shaw, immediate past president of the Ladies' Auxiliary, of a cheque in the amount of $2,500.00 to immediate past president Luke Francis. This cheque was the 1958 donation of the Ladies' Auxiliary for the Legion building.

The event, in the form of a banquet, was held Saturday, May 16th, with the branch being host to some 61 members of their Ladies' Auxiliary. The ladies were received at the Memorial Building by president, Ben Brodie. Following Grace by Luke Francis, the ladies were treated to a hot turkey dinner, served by members of the Legion.

During the banquet President Ben Brodie thanked the ladies for their co-operation in the endeavours of the Legion. This was ably responded to by Ladies' Auxiliary President, Mary Forbes. Mrs. Ellen Christianson proposed the toast to the Queen.

At 8 p.m. Legion and Auxiliary members and their guests gathered at the hall for a social evening and dancing to the music of the Cardinals.

Mrs. Jessie Shaw, past president of the Ladies' Auxiliary to the Keewatin Legion is shown presenting a cheque for $2,500.00 to Legion past president Luke Francis. The cheque represents money raised by the Auxiliary for the Keewatin Legion Building Fund. The presentation was made at a banquet held in the Memorial Building at which the men entertained the Ladies' Auxiliary.

THREE CHILDREN KILLED

Ban Plastic Bags U.S. Cleaners' Plan

Chicago, — —The suffocation of three children in 24 hours by flimsy cleaning plastic bags sparked demands for action today from dry-cleaning establishments which send the bags into homes.

W. E. Dinsmore, manager of an Indianapolis cleaning establishment which used the bags, demanded all of them be labelled "danger.' He acted after an Indianapolis child had died while playing with the bags.

In Chicago, Wilbur M. Gage, owner of Magikist Cleaners, said, "I will issue orders immediately to discontinue use of these bags. We have between $2,000 and $3,000 worth of them on hand but the investment certainly is not worth exposing one child to the danger involved."

Gage issued the order after he was informed that the National Safety council has warned 100 children may be killed by the plastic bags this year.

The plastic bags come into almost every home covering newly cleaned clothes, groceries and scores of other products.

Three children played with the bags Monday night and yesterday and died.

First was the Indianapolis baby. Then, at Riegelsville, Pa., last night, five-month-old Brynn Alma Lanan pulled a plastic garment bag over her head while her mother was gone. She was dead by the time the mother returned.

At Los Angeles, two-year-old Ruth Marie Ferreault climbed into a closet when she was supposed to be taking her nap. Her mother found her dead, inside a 30-inch-long plastic bag.

EUROPEAN AWARD FOR CANADIAN FILM

Cannes, France, — (Reuters) — A Canadian work last night was awarded the grand prize for documentary films in the 1959 Eurovision television competition.

The film is "L'Essai Feminin" (The Rise of Women) and was made by Douglas Tunstell.

HEALTH UNIT REPORTS

TUBERCULIN TESTS GIVEN SCHOOL PUPILS

The regular monthly meeting of the Board of Health was held on Thursday, May 14th, 1959 at the Unit offices, Kenora.

Dr. R. J. Whitaker presided and the following members present:-

Dr. R. D. P. Eaton, Medical Officer of Health; Mrs. J. E. Turner, Government Representative; Mr. J. Forbes, Keewatin Representative; Mr. E. W. Byers, Jaffray Melick Representative; Miss Hazel K. Wilson, Supervisor Public Health Nursing and Mr. D. H. Lemoine, Senior Sanitary Inspector, were also in attendance.

The following report was presented:—

In the communicable disease field during the month of April there has been a lessoning of the incidence of Hepatitis and a very high incidence of Influenza across the district. In this respect it is notable that Influenza was quoted as a prime or a contributary cause of death in 4 out of a total of 18 deaths during the month.

The incidence of Scarlet Fever is higher this year than in immediate past years. This appears to be the common experience across much of the North American continent.

The published figures on Poliomyelitis in the U.S.A. for 1957-58 and 1958-59 showed a 10% increase in total cases of Poliomyelitis and a 60% increase in paralytic forms for last year over the previous year. Although such figures can be by no means taken as any indication of a similar occurrence to occur in Canada/ they serve at least to remind us that Poliomyelitis is still very much with us, and is a threat perhaps to be reckoned with every time the summer season comes around.

As it seems that considerable numbers of the adult population have still not taken advantage of the protection afforded by Salk vaccine, the Unit has started an adult clinic which is being held weekly on Monday evenings, in the Legion Hall in Kenora.

The first of these clinics at the end of April was attended by 242 people. In Red Lake, two adult clinics were held with a total attendance of just over 400. No adult clinics had been held in Dryden up to the end of the month.

In both Red Lake and Kenora extremely valuable assistance was given by voluntary clerical help. In Kenora, the C.P. & T. fund committee of the Rebekah and Oddfellows have undertaken to provide all this voluntary help for the clinics.

Tuberculin skin testing was done in the three High Schools during the month.

In Red Lake, the programme resulted in the finding of two probable cases of active Tuberculosis, both of whom have been admitted to Sanatorium.

In view of these findings 100% Tuberculin testing will be insisted on in this school.

Questions have been asked recently regarding a concentrated milk product that has been offered for sale in the Red Lake District by Modern Dairies of Winnipeg.

This product has been checked by this office and proves to be as stated a concentrated fresh milk made from what would otherwise be surplus milk in the Manitoba dairy industry. Pasteurized milk is concentrated by vacuum evaporation and is then pasteurized and carton bottled.

It is a hygienic product but it should be appreciated that it is not like canned condensed milk, a sterile product, and is liable to spoilage either before or after dilution at the same rate as ordinary milk.

The pollution situation at the St. Mary's Indian School is little changed to date though it is understood that some action is being taken following a demand made by this office, and that plans are presently being discussed for alternative modes of disposal. There is, of course, no easy answer to the problem but we now have reason to expect that the situation will be relieved before the start of another school year.

The school inspection work has largely been completed during the month. In the main it shows that there is a steady and increasing awareness of the necessity of high standards in the teaching institutions.

In one school at least however, handwashing and toilet facilities are primitive beyond belief and children are being expected to learn the elements of hygiene in a teaching environment which would appear to be dedicated to a cult of squalor.

Chest clinics were held in Kenora, Dryden and Cochenour - Total Attendance - 48.
Three classes for expectant mothers were held with a total attendance of - 24.
Miss Rose Frim, District Nurse with the Ontario Society for Crippled Children spent some time in the area seeing many of the handicapped children.

SANITATION REPORT

The following is an account of work in the sanitation field for the month of April:—

Food Control:—
There were 36 routine inspections made of eating establishments in the Unit area. Minor maintenance problems were noted and ordered corrected. There were no written work orders issued. Swab tests taken of eating and drinking utensils amounted to 122. Two tests were reported positive to coliform. Beverage room glasses in nine hotels were also tested with two having high plate counts. Repeat tests were taken of these two with good results.

The Wonder Bar Restaurant closed down with the operator moving to new premises on Matheson St. These new premises are being remodelled with a lunch counter set-up and no booths. It will be inspected before opening.

A new operator has opened a french-fried potatoes stand. This is a mobile unit and will be operating at various locations throughout the area.

Milk Control:—
The local dairies were inspected weekly with 86 samples of

	Sat.	Unsat.
Co-Op	19	0
Groveside (Dryden)	25	4
Lakeland	15	1
Lucerne	12	6
Modern Dairies	3	0
Totals	75	11

In the unsatisfactory tests 8 were reported as containing a coliform count the remaining 3 had high plate readings. The above results give an average of 87% satisfactory.

Tender Opening No. 40

ONTARIO

General Structural Trades
Sewage Disposal Plant and Extension to Water Distribution System

District Jail, Kenora, Ontario

SEALED FIXED SUM TENDERS will be received in the office of the Tenders Secretary, Room 6630 East Block, Parliament Buildings, Toronto 2, Ontario, until 3 p.m. E.D. Time on **WEDNESDAY, JUNE 17th, 1959** for the General Structural Trades Work including the Mechanical Trades in connection with the construction of a Sewage Disposal Plant and the Extension to the water Distribution System at the District Jail, Kenora, Ontario.

Tenders will be opened in public in the office of the Tenders Secretary, Room 6630 at 3 p.m. E.D. Time on Wednesday, June 17th, 1959.

A Bid Bond made payable to the Honourable the Provincial Treasurer of Ontario in the amount of $4,000.00 must accompany the tender.

A Performance Bond made out by an approved Guaranty Company on the Department of Public Works form in the amount of 100% of the tender will be required from the successful tenderer.

Plans, specifications with tender form attached and tender envelope may be obtained on application to the Department of Public Works, Ontario, Room 6436 East Block, Parliament Buildings, Toronto 2, Ontario, and may be viewed at Room 6436, and may also be viewed at the Builders Exchange at Fort William, Ontario.

A Deposit of $50.00 will be required per set of Tender Documents taken out. This amount will be refunded when documents are returned in good condition but will be forfeited if not returned within thirty days after above closing date.

The lowest or any tender not necessarily accepted.

NOTE. The Contractor will be required to show that he has had experience in building similar plants.

J. D. Millar,
Deputy Minister,
Department of Public Works, Ontario.

School System Called Graduated Scale Playgrounds

VICTORIA, B.C. — A sense of personal shame has attached itself to the virtue of seriousness and created a problem for present-day education, a noted teacher and musician said here.

Jacob Avshalomov, conductor of the Portland (Oregon) Junior Symphony, told some 400 young women attending the 37th Annual Conference of the Association of the Junior Leagues of America meeting this week in the Empress Hotel, that "We have lost the power to focus on any one thing without interruption."

The same problem exists on all levels of education, he declared, because "we lack the capacity for attention."

"Often," he said "The fault is at the teaching end. Teachers become tired, worn out in the constant battle for attention and lose their potential."

He called the present school system a "Graduated scale of playgrounds - everything for fun, nothing for real." "Today," he said, "We even play at playing."

Lamenting the present trend toward group or project learning, Mr. Avshalomov maintained that "It is difficult to think in collaboration. What one turns up in creative fields is dredged from the innards of one's own soul."

Mr. Avshalomov spoke at a symposium on "Our pursuit of learning," which is the theme of the AJLA Conference.

Also on the panel of guest speakers were: Dr. Shane MacCarthy, Executive Director of President Eisenhower's Council on Youth Fitness; Dr. James Roby Kidd, Director of the Canadian Association for Adult Education, and Stuart Keate, Publisher of the Victoria Daily Times.

Canada's exports of forest products are thrice those of animals and animal products.

HONOLULU 'BIGGEST', ITS LIMITS ARE 1,000 MILES OUT

HONOLULU — Honolulu could claim to be the biggest city in the world — with city limits more than 1,000 miles from downtown.

The official city boundary covers an expanse of 540,000 square miles, most of which is Pacific Ocean.

Technically, the boundary extends to Midway Island, 1,149 miles to the west and to Palmyra Island, 960 miles southwest.

HOW SAFE OFFICER?

OCONOMOWOC, Wis. — Milwaukee detective Milton Lang told a churchmen's group that Oconomowoc residents could feel secure because of a competent police force.

After finishing his address, Lang left the hall to go home. He returned 10 minutes later.

"Somebody stole my car battery," he explained.

Rotarians Told Of Problems Of . . .

(Continued from Page 1)

vances, created new problems, especially that of air safety and air traffic control.

To date there was yet no way of controlling aircraft while in the air, with civil aviation now into 1000 miles per hour bracket, and military aircraft into the 2000 M.P.H. bracket. Science was developing new pilot aids, warning devices, radar devices and concentration was now directed on controlling aircraft at the terminals, or for landing and take-offs.

The key to control at present was the capacity for rapid decisions, and this still devolved on the trained individuals. They had gone from high frequency to very high frequency and now to ultra high frequencies, and V.O.R. or visual on range was now a great aid to the traffic controller.

To come very soon, would be the sonic boombs where aircraft went through the sonic barrier, and with the new high speed aircraft attaining speeds of mache 3, would come almost continuous sonic boombs, which had obvious limitations with possible structural damage and noise discomforts.

If we were ever going to advance we must have new equipment and the public must be kept aware of the facts, and grow up with the probems. Air Cadet training of the future, said Flight Lieutenant Bain would in its syllabus, advise the cadets of those them for the future and their possible entry into modern aviation.

A warm vote of appreciation was extended to the speaker.

Pulp and Paper Firms Call For Government Help

OTTAWA — The pulp and paper industry has called for federal government assistance in the form of tax incentives towards greater production and basic research to further replenish Canada's forests.

In a 3,000-word brief to the Commons resources committee, the woodlands section of the Canadian Pulp and Paper Association said the industry, which it described as 'Canada's leading bread winner," is faced with substantial drops in exports, higher production costs and a "measurable trend" in Canadian investments in foreign paper-producing areas."

"Our costs are rising at a faster rate than those of our competitors and, in the frequently heard phrase, we are pricing ourselves out of the market," said the brief read to the committee by W. A. T. Pepler of Montreal, manager of the woodlands section of the association which represents 98 per cent of the pulp and paper industry.

These rising costs—in taxes, wages and unemployment insurance payments — were beyond the industry's control, and adversely affected the industry's ability to sell its products.

The industry had tried to reduce production costs by better methods and companies were conducting 175 separate research programs.

The brief said tax legislation in the past had been designed to produce revenues, but the government apparently did not realize that the times are changing.

"The emphasis still seems to be on immediate direct revenue from the forests rather than on the development of increasing indirect revenues through maintaining and expanding production," the brief said.

"New legislation must be framed and new tax structures must be devised, with incentives and encouragement to both corporations and private individuals to increase the yield from this great forestry resource . . ."

The federal government collected about $200,000,000 annually in tax revenues from the forestry, but spent less than $10,000,000 a year on forestry research. It should have spent more.

It had a responsibility to create "a favorable economic climate" in which the industry could progress.

The brief urged "a concrete program of expansion of forest research immediately and that the program envisage doubling within five years the professional staff engaged in forestry and fire technical assistance as is required."

The pulp and paper industry purchases a third of its wood from small holdings.

The forest industries account for 17 per cent of all the manufacturing output of Canada.

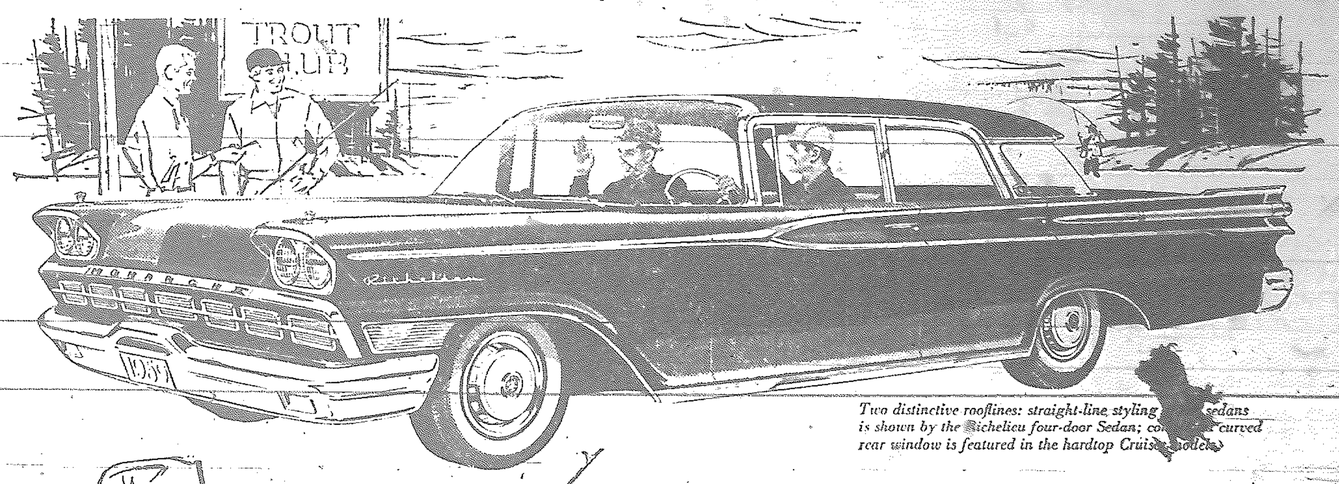
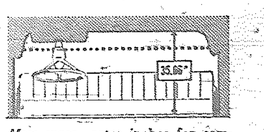
MAIN STREET AT LAKE OF THE WOODS



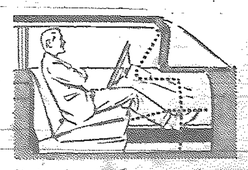
Two distinctive rooflines: straight-line styling [illegible] sedans is shown by the Richelieu four-door Sedan; co[illegible] curved rear window is featured in the hardtop Cruis[illegible] models.

"We didn't realize what comfort meant until we made the trip in the Monarch"

If you like your comfort big, Monarch Mark II is for you. Here's the car with man-sized space for all six-passengers—space to stretch long legs and really relax. Add luxurious cushioned seating that gives you the deep-down comfort of a favourite armchair, a ride that flattens the bumps and fills in the potholes, and you've got yourself the smoothest cruise on the road. ❁ Handling? You never had it so easy—or so good. Performance? This is the big one that gets away, quietly. There are three superb series priced to invite *you* to the adventure of fine-car ownership: the economical LUCERNE; the spirited RICHELIEU; the luxurious SCEPTRE.



More space—extra inches for comfort with new forward location of instrument panel.



Easier entry and exit—no jutting doorposts to get in your way. *More legroom*—the new low centre tunnel cuts the "hump" in half.

the canvassing for signatures on the petition to change the delivery to forenoon from afternoon which will be more satisfactory to the majority of residents. This canvass had already been started by Mrs. J. Robinson who obtained the assistance of Mr. Carl Olson.

A report was given by Miss Sally Danielson, the honourary five cent stamp issued on the 13th May. The stamp is commemorating The Associated Country Women of the World and was designed by Helen Bacon (Mrs. Fitzgerald). The stamp is of extra special interest to this branch of the Women's Institute because it was designed by one of the members, (Mrs. Tyson), sister.

Members were asked to bring their choice of short course from the Home Extension Services Dept. of Agriculture to the next meeting so that the form can be filled in and sent away.

There were two resolutions passed by the branch to be forwarded to the District Resolutions Convener.

The following conveners were elected to office for the coming year.

Mrs. J. Lund - Resolutions
Miss Sally Danielson - Agriculture, and Canadian Industries.
Mrs. V. Clancy - Historical Research and Current Events.
Mrs. J. Lund - Citizenship and Education.
Mrs. G. Iriam - Home Economics and Health.
Mrs. J. Robson - Public Relations.

Mrs. J. Lund then read an article from Chatelaine by Dr. Hilliard, "What to tell your child about sex". Dr. Hilliard believes you should fill your child with love and laughter; a young person will hear only what she wants to hear; a mothers attitude toward illness can reflect on her children for their lifetime. These are only a few of the very educational facts of the article. There was a lively discussion following this article.

It was decided to change the meetings to evenings. The next meeting to be held at the home of Mrs. J. Lund June 10th at 7.30 p.m.

The travelling prize was won by Mrs. Wallman, one of the guests. The five members and three guests enjoyed a delicious lunch served by the hostess.

After the social period the meeting closed with the singing of the Queen.

CARD OF THANKS

I would like to thank all my friends, neighbours and relatives for their visits, cards and kindness towards me during my recent illness.

Special thanks to the Ukrainian Cathelic Women's Society for flowers, Father Singbalist, nurses and staff of St. Joseph and Dr. Halliwell.

Mrs. John Andrychuk.

ANNOUNCEMENTS

The annual meeting of the Kenora District Music Festival Association will be held on Friday evening, May 22nd at 8.00 p.m. in the Council Chambers. A good attendance is required.

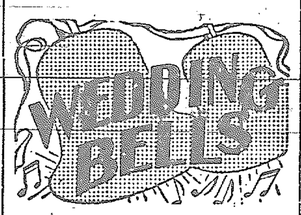
Mothers of 1st Kenora Sea Scouts and 1st Mowgli Club Pack will meet at the home of Mrs. E. Belair, 612 5th Street South at 8.15 on Wednesday, May 20th.

A Musical Tea will be held in the lower hall of the Presbyterian Church on Saturday, May 23rd from 2.30 to 5.00 p.m. Sponsored by the Ladies Aid. Home Baking will be sold.

PELLATT-LACLU INSTITUTE

The regular monthly meeting of the Pellatt-Laclu Women's Institute was held on May 13th at the home of Miss Sally Danielson. The president Mrs. Carl Olson opened the meeting at 1.30 p.m. with the "Ode" followed by the "Mary Stewart Collect". The secretary, Mrs. J. Robinson read minutes of the previous meeting which were adopted.

Part of the correspondence consisted of a letter from Mr. G. F. Bourke, secretary to Mr. Wm. Benidickson M.P., who has assisted the branch with the mail service in the Pellatt - Laclu area. After hearing the contents of the letter it was decided to continue



BALLARD — RASSMUSSEN

A pretty wedding of local interest took place on Saturday, May 9th at 11.15 o'clock in St. Casimier's Catholic Church, Cloquet, Minnesota, when Shelly Rassmussen became the bride of Harvey C. Ballard (Bud) formerly of Kenora.

The bride, given in marriage by her father, was lovely in a floor-length gown of nylon net and chantilly lace over bridal satin. Long sleeves tapered to lily points over her hands and the scalloped Sabrina neck line was set off by a diamond sunburst broache, a family heir loom belonging to the groom's great grand mother. Her chapel length veil of silk illusion was held in place by a tiara of nylon net and seed pearls.

Miss Doris Rassmussen, sister of the bride was maid of honour and Miss Frances Ballard, sister of the groom was bridesmaid. They were attired in ballerina length gowns of ice blue and pink taffetta. They were fashioned on similar lines as the brides gown the only difference being short sleeves and large butterfly bows at the back of the waist, with streamers to the hem line.

Mr. Bert Ballard and Mr. Leonard Ballard brothers of the groom were his attendants.

The bride's mother choose a sheath dress of beige with green trim. Her accessories were beige and green and a corsage of white Camillias completed her ensemble.

A reception followed the ceremony at the Carlton Civic Center after which the happy couple left for a honey-moon trip to the Wisconsin Dells. For travelling, the bride chose a dressmaker suit of grey with pink accessories. A corsage of pink sweetheart roses and white carnations completed her ensemble.

Out of town guests included: Mr. Ed. Leveille, Keewatin Ontario; Mrs. and Mrs. George Dégagne of Keewatin, Mr. and Mrs. Louis Duquette and Paulette of Terrace Bay. Mrs. Rose Prefontaine of Winnipeg. Mr. William Mitchell Kenora and Mr. and Mrs. A Lafreniere of Norman.

PICKED OUT WRONG HOUSE TO TEAR DOWN

BURNABY, B.C. — Anton Tkalcic of Surrey thought things were looking up last week when he got his first work in 11 months.

But today he says he just feels sick.

Mr. Tkalcic demolished a little green house on Union Street in this Vancouver suburb, then found it was the wrong green house.

Mrs. Kay Kinna, owner of the wrong house, says she could not collect on a $5,000 insurance policy held on the house, which has been vacant since April 7.

H. R. Smith had ordered his house demolished and told the wrecking company it was a "little green house next to a new house" on Union. Mrs. Kinna's was at the other end of the block.

Mr. Tkalcic said he will build Mrs. Kinna a house similar to the one demolished in error or put a fair share of work into a larger one.

"I don't know what else I can do," he sighed.

CARD OF THANKS

I would like to thank all my friends, neighbours and relatives for their visits, cards and kindness towards me during my recent illness.

Special thanks to the Ukrainian Catholic Women's Society for flowers, Father Sinbalist, nurses and staff of St. Joseph and Dr. Halliwell.

Mrs. John Andrychuk.

ANNOUNCEMENTS

The annual meeting of the Kenora District Music Festival Association will be held on Friday evening, May 22nd at 8.00 p.m. in the Council Chambers. A good attendance is required.

Mothers of 1st Kenora Sea Scouts and 1st Mowgli Club Pack will meet at the home of Mrs. E. Belair, 612 5th Street South at 8.15 on Wednesday, May 20th.

A Musical Tea will be held in the lower hall of the Presbyterian Church on Saturday, May 23rd from 2.30 to 5.00 p.m. Sponsored by the Ladies Aid. Home Baking will be sold.

PELLATT-LACLU INSTITUTE

The regular monthly meeting of the Pellatt-Laclu Women's Institute was held on May 13th at the home of Miss Sally Danielson. The president Mrs. Carl Olson opened the meeting at 1.30 p.m. with the "Ode" followed by the "Mary Stewart Collect". The secretary, Mrs. J. Robinson read minutes of the previous meeting which were adopted.

Part of the correspondence consisted of a letter from Mr. G. F. Bourke, secretary to Mr. Wm. Benidickson M.P., who has assisted the branch with the mail service in the Pellatt - Laclu area. After hearing the contents of the letter it was decided to continue the canvassing for signatures on the petition to change the delivery to forenoon from afternoon which will be more satisfactory to the majority of residents. This canvass had already been started by Mrs. J. Robinson who obtained the assistance of Mr. Carl Olson.

A report was given by Miss Sally Danielson, the honourary five cent stamp issued on the 13th May. The stamp is commemorating The Associated Country Women of the World and was designed by Helen Bacon (Mrs. Fitzgerald). The stamp is of extra special interest to this branch of the Women's Institute because it was designed by one of the members, (Mrs. Tyson), sister.

Members were asked to bring their choice of short course from the Home Extension Services Dept. of Agriculture to the next meeting so that the form can be filled in and sent away.

There were two resolutions passed by the branch to be forwarded to the District Resolutions Convener.

The following conveners were elected to office for the coming year.

Mrs. J. Lund - Resolutions

Miss Sally Danielson - Agriculture and Canadian Industries.

Mrs. V. Clancy - Historical Research and Current Events.

Mrs. J. Lund - Citizenship and Education.

Mrs. G. Iriam - Home Economics and Health.

Mrs. J. Robson - Public Relations.

Mrs. J. Lund then read an article from Chatelaine by Dr. Hilliard, "What to tell your child about sex". Dr. Hilliard believes you should fill your child with love and laughter; a young person will hear only what she wants to hear; a mothers attitude toward illness can reflect on her children for their lifetime. These are only a few of the very educational facts of the article. There was a lively discussion following this article.

It was decided to change the meetings to evenings. The next meeting to be held at the home of Mrs. J. Lund June 10th at 7.30 p.m.

The travelling prize was won by Mrs. Wallman, one of the guests. The five members and three guests enjoyed a delicious lunch served by the hostess.

After the social period the meeting closed with the singing of the Queen.

WEDDING BELLS

BALLARD — RASSMUSSEN

A pretty wedding of local interest took place on Saturday, May 9th at 11.15 o'clock in St. Casimier's Catholic Church, Cloquet, Minnesota, when Shelly Rassmussen became the bride of Harvey C. Ballard (Bud) formerly of Kenora.

The bride, given in marriage by her father, was lovely in a floor-length gown of nylon net and chantilly lace over bridal satin. Long sleeves tapered to lily points over her hands and the scalloped Sabrina neck line was set off by a diamond sunburst broache, a family heir loom belonging to the groom's great grand mother. Her chapel length veil of silk illusion was held in place by a tiara of nylon net and seed pearls.

Miss Doris Rassmussen, sister of the bride was maid of honour and Miss Frances Ballard, sister of the groom was bridesmaid. They were attired in ballerina length gowns of ice blue and pink taffetta. They were fashioned on similar lines as the brides gown the only difference being short sleeves and large butterfly bows at the back of the waist, with streamers to the hem line.

Mr. Bert Ballard and Mr. Leonard Ballard brothers of the groom were his attendants.

The bride's mother choose a sheath dress of beige with green trim. Her accessories were beige and green and a corsage of white Camillias completed her ensemble.

A reception followed the ceremony at the Carlton Civic Center after which the happy couple left for a honey-moon trip to the Wisconsin Dells. For travelling, the bride chose a dressmaker suit of grey with pink accessories. A corsage of pink sweetheart roses and white carnations completed her ensemble.

Out of town guests included: Mr. Ed. Leveille, Keewatin Ontario; Mrs. and Mrs. George Degagne of Keewatin, Mr. and Mrs. Louis Duquette and Paulette of Terrace Bay. Mrs. Rose Prefontaine of Winnipeg. Mr. William Mitchell Kenora and Mr. and Mrs. A Lafreniere of Norman.

PICKED OUT WRONG HOUSE TO TEAR DOWN

BURNABY, B.C. — Anton Tkalcic of Surrey thought things were looking up last week when he got his first work in 11 months.

But today he says he just feels sick.

Mr. Tkalcic demolished a little green house on Union Street in this Vancouver suburb, then found it was the wrong green house.

Mrs. Kay Kinna, owner of the wrong house, says she could not collect on a $5,000 insurance policy held on the house, which has been vacant since April 7.

H. R. Smith had ordered his house demolished and told the wrecking company it was a "little green house next to a new house" on Union. Mrs. Kinna's was at the other end of the block.

Mr. Tkalcic said he will build Mrs. Kinna a house similar to the one demolished in error or put a fair share of work into a larger one.

"I don't know what else I can do," he sighed.

USE THE CLASSIFIEDS

The ravages caused by fire, insects, and disease in the forests of Canada are excessive.

About half the annual pulpwood harvest of Canada comes from the province of Quebec.

Albert Wren Says:

His proposals for low cost housing have received acclaim across the Province. He wants to see a $500.00 down payment with mortgage spread over a period which will allow reasonable payments for principal, interest and taxes. Low rental housing will also be necessary but he feels that a man would rather own his place, but the real hitch now, is the down payment. Another thing this scheme would do, it would provide WORK and JOBS. It would sell lumber and materials. It would be a giant step toward relieving serious social problems which arise from inadequate housing. He says that if a man can pay for rapidly depreciating automobiles on low down payments, there is no reason why homes cannot be built and purchased the same way. Yes, he is always studying these matters.

School System Called Graduated Scale Playgrounds

VICTORIA, B.C. — A sense of personal shame has attached itself to the virtue of seriousness and created a problem for present-day education, a noted teacher and musician said here.

Jacob Avshalomov, conductor of the Portland (Oregon) Junior Symphony, told some 400 young women attending the 37th Annual Conference of the Association of the Junior Leagues of America meeting this week in the Empress Hotel, that "We have lost the power to focus on any one thing without interruption."

The same problem exists on all levels of education, he declared, because "we lack the capacity for attention."

"Often," he said "The fault is at the teaching end. Teachers become tired, worn out in the constant battle for attention and lose their potential."

He called the present school system a "Graduated scale of playgrounds - everything for fun, nothing for real." "Today," he said, "We even play at playing."

Lamenting the present trend toward group or project learning, Mr. Avshalomov maintained that "It is difficult to think in collaboration. What one turns up in creative fields is dredged from the innards of one's own soul."

Mr. Avshalomov spoke at a symposium on "Our pursuit of learning," which is the theme of the AJLA Conference.

Also on the panel of guest speakers were: Dr. Shane MacCarthy, Executive Director of President Eisenhower's Council on Youth Fitness; Dr. James Roby Kidd, Director of the Canadian Association for Adult Education, and Stuart Keate, Publisher of the Victoria Daily Times.

Canada's exports of forest products are thrice those of animals and animal products.

HONOLULU 'BIGGEST', ITS LIMITS ARE 1,000 MILES OUT

HONOLULU — Honolulu could claim to be the biggest city in the world — with city limits more than 1,000 miles from downtown.

The official city boundary covers an expanse of 540,000 square miles, most of which is Pacific Ocean.

Technically, the boundary extends to Midway Island, 1,149 miles to the west and to Palmyra Island, 960 miles southwest.

HOW SAFE OFFICER?

OCONOMOWOC, Wis. — Milwaukee detective Milton Lang told a churchmen's group that Oconomowoc residents could feel secure because of a competent police force.

After finishing his address, Lang left the hall to go home. He returned 10 minutes later.

"Somebody stole my car battery," he explained.

Rotarians Told Of Problems Of . . .

(Continued from Page 1)

vances, created new problems, especially that of air safety and air traffic control.

To date there was yet no way of controlling aircraft while in the air, with civil aviation now into 1000 miles per hour bracket, and military aircraft into the 2000 M.P.H. bracket. Science was developing new pilot aids, warning devices, radar devices, and concentration was now directed on controlling aircraft at the terminals, or for landing and take-offs.

The key to control at present was the capacity for rapid decisions, and this still devolved on the trained individuals. They had gone from high frequency to very high frequency and now to ultra high frequencies, and V.O.R. or visual on range was now a great aid to the traffic controller.

To come very soon, would be the sonic boombs where aircraft went through the sonic barrier, and with the new high speed aircraft attaining speeds of mache 3, would come almost continuous sonic boombs, which had obvious limitations with possible structural damage and noise discomforts.

If we were ever going to advance we must have new equipment and the public must be kept aware of the facts, and grow up with the probems. Air Cadet training of the future, said Flight Lieutenant Bain would in its syllabus, advise the cadets of those them for the future and their possible entry into modern aviation.

A warm vote of appreciation was extended to the speaker.

Pulp and Paper Firms Call For Government Help

OTTAWA — The pulp and paper industry has called for federal government assistance in the form of tax incentives towards greater production and basic research to further replenish Canada's forests.

In a 3,000-word brief to the Commons resources committee, the woodlands section of the Canadian Pulp and Paper Association said the industry, which it described as 'Canada's leading bread winner," is faced with substantial drops in exports, higher production costs and a "measurable trend" in Canadian investments in foreign paper-producing areas."

"Our costs are rising at a faster rate than those of our competitors and, in the frequently heard phrase, we are pricing ourselves out of the market," said the brief read to the committee by W. A. T. Pepler of Montreal, manager of the woodlands section of the association which represents 93 per cent of the pulp and paper industry.

These rising costs—in taxes, wages and unemployment insurance payments — were beyond the industry's control, and adversely affected the industry's ability to sell its products.

The industry had tried to reduce production costs by better methods and companies were conducting 175 separate research programs.

The brief said tax legislation in the past had been designed to produce revenues, but the government apparently did not realize that the times are changing.

"The emphasis still seems to be on immediate direct revenue from the forests rather than on the development of increasing indirect revenues through maintaining and expanding production," the brief said.

"New legislation must be framed and new tax structures must be devised, with incentives and encouragement to both corporations and private individuals to increase the yield from this great forestry resource . . ."

The federal government collected about $200,000.00 annually in tax revenues from the forestry, but spent less than $10,000,000 a year on forestry research. It should have spent more.

It had a responsibility to create "a favorable economic climate" in which the industry could progress.

The brief urged "a concrete program of expansion of forest research immediately and that the program envisage doubling within five years the professional staff engaged in forestry and fire technical assistance as is required."

The pulp and paper industry purchases a third of its wood from small holdings.

The forest industries account for 17 per cent of all the manufacturing output of Canada.

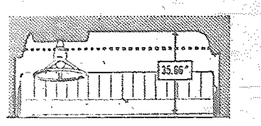
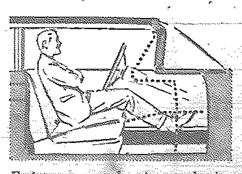
Two distinctive rooflines: straight-line styling of sedans is shown by the Richelieu four-door Sedan; compound curved rear window is featured in the hardtop Cruiser models.

"We didn't realize what comfort meant until we made the trip in the Monarch"

If you like your comfort big, Monarch Mark II is for you. Here's the car with man-sized space for all six-passengers —space to stretch long legs and really relax. Add luxurious cushioned seating that gives you the deep-down comfort of a favourite armchair, a ride that flattens the humps and fills in the potholes, and you've got yourself the smoothest cruise on the road. Handling? You never had it so easy—or so good. Performance? This is the big one that gets away, quietly. There are three superb series priced to invite *you* to the adventure of fine-car ownership: the economical LUCERNE; the spirited RICHELIEU; the luxurious SCEPTRE.



More space—extra inches for comfort with new forward location of instrument panel.



Easier entry and exit—no jutting doorposts to get in your way. *More legroom*—the new low centre tunnel cuts the "hump" in half.

HANSEN'S IGA - KENORA
OLSON'S IGA - KEEWATIN

WHAT IS IGA? . . .

IGA stands for INDEPENDENT GROCERS' ALLIANCE . . . the world's foremost group of independently owned and operated food stores. The IGA movement, started in 1926, now extends from coast to coast with thousands of stores located in major cities and towns in Canada and 45 states . . . all working to bring the housewives of North America better foods at lower prices.

YOUR GROCER AND IGA

. . . Your grocer has joined IGA like the thousands before him in order to bring you quality foods at LOW PRICES. He believes in IGA principles . . . in the system of free and independent enterprise, a system striving to preserve small business, maintain a stable income for the farmer, good wages for labour, and good profits for industry. With this as an objective, we can further increase our high standard of living.

HOW CAN IGA DO IT?

. . . How can we sell everything at such low prices you ask? The answer is simple . . . IGA unites major units of food distribution. The INDEPENDENT RETAILER in your community, the INDEPENDENT WHOLESALER, the MANUFACTURER, the FARMER and YOU. All work together in a well-knit, smoothly running organization. With operating costs as low or lower than those of any other system in the food industry. Today, because of the combined purchasing power of all IGA stores, we can sell at low prices Every Day in the Week—Week In and Week Out.

LOW PRICES EVERY DAY

Regardless of competition, IGA stores will always bring you Every-Day Low Prices! In fact, as IGA sales continue to increase and operating costs decrease — IGA Markets will be able to bring you even lower prices! This may surprise you — but it's true that IGA's operating costs are as low, or lower, than those of any other system in the food industry today! That's why IGA can sell at rock bottom prices every day of the week. That's why you save money all the year through when you shop at your neighborhood IGA Food Store.

Tuberculin Tests Given School . . .

(Continued from Page 2)

The Modern Dairy samples were obtained from retail outlets in Red Lake. This milk is trucked in from Winnipeg on a standing order basis. Further samples will be collected routinely on each trip to Red Lake.

Although we had intended to discontinue our activities in the raw milk field, we have had word from the Department of Agriculture that they are not yet ready to take over this field. As a result we will be taking raw milk samples again next month and will continue this program until further notice from the Department of Agriculture.

Water Supplies:—

There were 23 water samples taken during April with 20 from public supplies, 50 from private and 13 from rural schools. One sub-standard sample was reported for the Keewatin pumphouse, otherwise municipal supplies were well maintained in the Kenora, Dryden, Red Lake towns. Four private supplies in the Red Lake area and two in Dryden showed indications of some pollution. These were chemically disinfected and will be retested. A motel in Kenora drawing water from Lake of the Woods also showed a polluted supply. Temporary relief was gained by extending the water intake but being a surface supply chlorination is indicated.

Sewage Disposal:—

A Kenora business firm was found to be dumping sewage into a ditch. They have been given to June 22nd to terminate this nuisance.

Temporary correctional measures were taken at the St. Mary's Indian School to prevent further seepage of sewage into the Lake of the Woods.

Ten permits were issued for septic tank installations in the Kenora area and one in Dryden. The Department of Health has released new sets of plans for concrete tanks which are available at this office free of charge. These plans are quite detailed and would greatly assist the individual in building his own disposal system.

Refuse Disposal:—

Routine inspections were made of disposal grounds in all municipalities. Business lanes have been cleaned and properties bordering on the lanes have been cleared of the winter's accumulation of rubbish and garbage.

Housing:—

A rental unit on Railway St. was inspected twice and the owner advised of the need of repairs to the dwelling. A work order failed to get any action and the building was condemned. A second housing unit on the Anderson Branch road was condemned as unfit for human habitation. Two vacant shack dwellings were found to be in a state of disrepair and were condemned.

Schools:—

The annual sanitary inspections of schools were continued throughout the month. Inspections in the Kenora area have been completed with schools in the Dryden area nearing completion.

Interviews:—

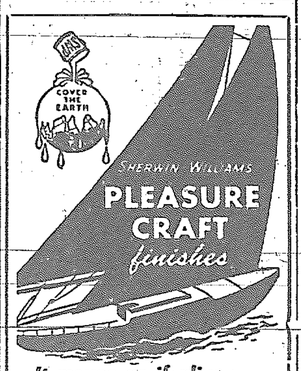
There were 58 persons interviewed concerning sanitation matters and problems:- Mr. Lemoine 20, Mr. Hakenson 26, and Mr. Pitt 12.

READ THE CLASSIFIEDS

The annual consumption of wood in Canada is still well below the annual growth in the forests.

Woods operations of the pulp and paper industry provide winter work for farmers.

More than a third of Canada is covered with vast forests.



It moves as if alive
—THAT CRAFT OF YOURS

Keep it lively, bright, well-cared-for, above and below the water-line, inside and out.

PLEASURE CRAFT will protect it against the abrasive washing of salt water, corrosion and deterioration by marine growth, barnacles, etc., in coastal as well as inland waters.

PLEASURE CRAFT will preserve the beauty of wood or metal in cabins, on deck furniture, spars, etc.

it's a FACT

The Eiffel Tower, in Paris, designed and built for the Paris Exposition of 1889, cost more than $1,000,000, all but $292,000 of which was paid for by its designer, Alexandre Eiffel. The balance was contributed by the French government. In payment, Eiffel was allowed to collect visitors' admission fees for 20 years. Profits in 1889 almost paid the entire cost of the tower.
