TOMORROW'S DRIVERS

In this age, all Canada is safety conscious. Dr. Arthur F. Van Wart of Fredericton, president of the CMA feels a child should be prepared for driving a car. A sense of timing and muscular co-ordination can be developed by activities such as dancing and bicycle riding. The kiddie-car tractor, ridden by Mike Christopher is a help to the small fry.

8TH TROOP

BOY SCOUTS TAKE TO AIR FOR WEEKEND TRIP

Little work was accomplished in school by 12 boys of the 8th Kenora Scout Troop on Friday May 15th because that evening at 6 p.m. they were to climb aboard a Norseman and a Goose aircraft of O.C.A. at the second [illegible] lake. The boy was so excited (his father too) that Assistant Scout Master Roy Hoare discovered his kitt bag still on the dock after everyone was aboard and ready to go.

This chance of a lifetime was not done by the scouts alone but through the generosity of Mr. Barney Lamn and Mr. Rex Kitely of Ontario Central Airlines. The fee per boy was set very, very low and Mr. Kitely stated, "Don't leave any boy behind if he can't pay".

Bill Wickham was co-pilot on the "Goose" with Billy Wickham and George James passing such comments as, "Boy my house looks like a fly speck." Dennis Pemmican and Dennis Bialkoski and Scott Wickham decided that there was an awful lot of water down there and they would sure hate to walk home.

Some sixty miles north of Kenora, Scout master Joe Kurtz waded ashore at the most beautiful beach this side of Hawaii. He helped Jimmy Metail and Gary Roulston ashore when Jackie Kurtz shouted, "there is a boat coming in here." Sure enough Barney Lamn had sent two guides from Ball Lake Lodge with a large canoe for the boys to use for the weekend. David Rotnem and Rickey Sharples wanted to go fishing immediately but Patrol Leader Ron Tacknyk succeeded with some difficulty, of course, in getting them to help put up the tents.

After camp fire that night the boys turned in with excitement still running so high that they talked until after midnight before falling asleep.

Old Mother Nature looking down upon the peaceful camp decided perhaps that too many parents weren't sleeping that night as well as the boys and so sent Jack Frost down to cover everything with his white paintings. The boys failed to stir although Joe and Roy decided their bones were getting too old for this camping business.

Bright warm sunshine the next morning proved the test had been passed and fairly decent weather prevailed for the week end.

Rushing river, twenty times as large, flowed a short distance from camp and here the boys succeeded in catching many fish. Various Scout activities were engaged in. Some boys misbehaved but they will be dealt with at the next Court of Honour Meeting.

When Monday evening rolled around the boys were all anxious to leave on the first plane, (until it came in that is) then the skipper had a tough time getting them aboard.

Thus ended a weekend camp that will live in the boys memories forever.

"Thank-You," is a word that may be said to cover receipt of a rusty nail or a million dollars, there is no way of enlarging it or making it smaller.

To Mr. Lamn and Mr. Kitely of Ontario Central Airlines the Scouts of the 8th troop say a real heartfelt "thank-you" and they aren't talking about rusty nails.

Lake Level Up 9 Inches Since First Of March

Good news for boat owners is the latest report on the level of the Lake of the Woods. Today's reading is 1057.72 feet above sea level, which is a full nine inches higher than the season's low mark of 1056.96 during the first week of March.

As a matter of fact, the water level trend is exactly the opposite of a year ago. On March 1st 1958 the lake level at Kenora stood at 1059.38 feet. The level dropped steadily in March, April and May last year. By June 1st the level was down to 1058.25 feet, or more than a foot in 3 months. By contrast the Lake has climbed this year during the same period, and, with yesterday's rainfall, is likely to continue its upward course.

Yesterday's rainfall was .53 inches as of 8.00 a.m. today bringing the total for the past 48 hours to .62 inches.

Paul Ruggles Graduates With Master's Degree

Mr. and Mrs. T. D. Ruggles have received word that their son Charles Paul, received his Master's Degree from the University of Saskatoon, majoring in Biology. He has since been appointed Biologist with the Canadian Department of Fisheries at Vancouver.

While attending the University of Saskatoon, Mr. Ruggles worked for two years on the productivity of northern lakes for the Department of Natural Resources. He received his Batchelor of Science from the University of Washington in June 1926.

Paul was born in Kenora and attended public and high school here. He is married to former Eilene Freisen of Altona Manitoba and they have three children, two boys and a girl.

From her forests Canada produces 1,200 tons of pulp and paper an hour, day and night.

T. Montgomery Pioneer Resident Died Tuesday

Thomas Montgomery, well known resident of Kenora, died Tuesday evening, May 26, at the General Hospital, following a short illness. Born in Bruce county, Ontario, January 18th, 1877, he was in his 83rd year.

He came to Kenora as an infant and received his education here. He was employed in the west for a few years, was a fireman with the CPR and was a teamster for Murphy Bros., Cameron and Heap and Western Grocers.

He is survived by his widow, the former Catherine Mary MacInnes; one son Russell of Kenora and three daughters, Mrs. E. J. (Susan) Chandonet, Mrs. George (Jean) Cox and Mrs. J. (Kathleen) MacKay, all of Kenora.

Funeral services will be held in the chapel of the Brown Funeral Home on Friday afternoon, May 29th at two o'clock. Rev. J. D. Marnock of First Presbyterian Church will officiate and interment will be in the Lake of the Woods Cemetery.

Wallace Warner Wins Flying Scholarship

Wallace Warner, seventeen year old son of Mr. and Mrs. Don Warner, Fourth Street North, Kenora and an officer of the Kenora Lions Air Cadet Squadron, has been advised that he has been selected for a flying scholarship, upon completion of which, he will win his wings and private licence.

Wallace has been a member of the Air Cadets for four years. In 1958, he won the Presidents Trophy as the most proficient cadet at the training camp held at Trenton Ontario.

Trillium TM Club Hears Two Speakers

The regular meeting of the Trillium Toastmistress Club was held at the Kenricia Hotel on Thursday, 14th May.

The meeting was opened with the Blessing by the President, Miss Helen Sawchuk. Guests were Mrs. G. Saunders, Miss Galloway and Miss Laura Leroux.

Table Topics wer ably handled by Mrs. Gladys Schroeder, the theme being Mother's Day. The Club Representative, Mrs. Veronica Kirk, reported on the speech contest held in Winnipeg on May 3rd. The two speakers were Miss Audrey Bain, who told us of her experiences as a public health nurse and Miss Betty Ings, who spoke on the "Long Road".

The critic was Mrs. Bernice Holmstrom and Mrs. G. Saunders evaluated the meeting. Mrs. Saunder's comments were very helpful and should be of great assistance of handling of future meetings.

The meeting closed with the inspiration by Mrs. Lillian Woolley. The next meeting will be on Thursday, May 26th at the Kenricia Hotel at 6 p.m. All interested ladies who wish to attend should phone Mrs. Helen Dubenski at 6647.

LUCKY DOLLAR

Another CJRL travelling dollar is waiting to be found and redeemed for a $5.00 credit note good at any store with Hawaii on the door. Today's lucky dollar is FL - 0468051 and is good up until 5.00 p.m. Friday, May 29th.

Still in circulation and good until 5.00 p.m. Thursday is lucky dollar LA - 6704552.

Keewatin Figure Skating Club Elects Officers

The nominating committee of the Keewatin Figure Skating Cub met at the home of Mrs. J. M. Forbes recently. The following slate of officers was elected for 1959-60 season.

Pres. - Mrs. J. M. Forbes
Vice Pres. - Mrs. G. Welch
Secty. - Mrs. J. Walsh
Treas. - Mrs. J. Ellard.
Board of Directors - Mrs. A. Scott, Mrs. E. Olson, Mrs W. McLean, Jr., Mrs. G. Styles, Mrs. R. Lemay, Mrs. J. Beckworth.

Magistrate's Court

Magistrate's Court this morning featured six cases, all dealing with infractions of the liquor act.

An Ottawa man charged with having wine at a place other than a residence paid $10 and costs or seven days.

A man from Nova Scotia paid $25 and costs when he appeared on a drunk charge.

Three men, charged with being intoxicated in a public place were each fined $10 and costs or seven days and a local man charged as a second offender paid $50 and costs or thirty days.

BAZAAR WINNERS

3rd Prize—Handmade Lamp - F. Atamaniuk, 1006 Park St. Ticket no. 3696.

4th Prize—Crocheted Tablecloth - Mrs. L. J. Fortier, 528 3rd Ave. S. Ticket no. 236.

5th Prize—Hand made cushion - W. Gala, 817 4th St. N. Ticket no. 2936.

The growth in the pulp and paper companies' forests continues to exceed the cut.

The majority of the pulpwood harvest in Canada floats on its journey to the paper mills.

MISSING SINCE SUNDAY

FIND PART OF PLANE, SEARCH CONTINUING

Ontario Provincial Police report today that a pontoon found in Teggau Lake, in the Vermilion Ba[illegible] is believed to be from a light aircraft carrying two American sportsmen which was reported missing in the area since Sunday. A damaged canoe also found on the lake, Monday by Don Mathieu has been postively identified as the canoe picked up by the men.

The two men, now identified as Maurice J. Merickel 56, of Wadena Minnesota and Sylvester Niesses of Walker, Minnesota took off from Sioux Narrows Sunday afternoon in a piper cub plane. They stopped at a small lake to pick up a canoe belonging to Mathieu and then proceeded to Teggau Lake for some fishing.

The OPP have contacted the RCAF for assistance with sounding equipment to try and locate the downed plane. At press time today no further news was reported.

Maurice Merickel is well known in this area as well as the province. An ardent sportsman, he had been named many times champion wolf hunter of Ontario. In 1957, for the third year in a row, he was presented with the Premier Wolf Hunter of Ontario trophy at the Northern Ontario Tourist Outfitters Association meeting at Fort William. He was also noted for his expeditions to Alaska and the Canadian Arctic where he engaged in hunting polar bears and wolves. On all his trips he flew with his own private plane and pilot.

He had been a summer resident at Sioux Narrows for the past twenty years.

A. H. Coles Honored At Surprise Party

A surprise party was held on Thursday evening May 21st at the home of Mr. and Mrs. H. Hansen to honour Mr. A. H. Coles who with Mrs. Coles are leaving shortly to reside in the east after residing in Keewatin for the past 25 years

Hosts were Messrs. H. Hansen, W. Davidson and G. Armstrong former emloyees of the Lake of the Woods Milling Company and members of the Keewatin Retired Men's Association.

Mr. J. Duncan made the presentation of an engraved pen and pencil set to the guest of honour on behalf of those present and extending best wishes to Mr. Coles for the future years of his retirement.

Refreshments were served and a social hour was enjoyed by all. Guests numbered 15.

DR. WIGLE OF DRYDEN TO HEAD ONTARIO MEDICAL ASSOCIATION

At the 79th annual meeting of the Ontario Medical association held at Toronto, Dr. William W. Wigle of Dryden was named president-elect of OMA. During the ensuing year, he will travel throughout Ontario obtaining first-hand information from members of the association's branches.

Dr. Ian W. Davidson of Sudbury was elected chairman of the council. Both will take office in 1960.

Approximately 2,000 doctors are registered for the meetings. Highlighting the convention was the announcement that the Ontario Medical Association Council will write a complete fee schedule.

The schedule is expected to include several hundred items and will take "about a year" to write, Dr. M. O. Klotz, of Ottawa, tariff committee chairman, announced at a press conference following Monday's first meeting of the association's two-day convention.

The relative value of the services will be the basis of the schedule and will make for a more equal distribution of fees to medical services. The schedule will also aid insurance companies in determining payments.

Dr. Klotz, pathologist at Ottawa Civic Hospital, said it is unlikely the public will note any change in fee schedules for quite some time. "Our main reason for the plan was to get the schedule established on a firmer basis."

TOUGH POINT

Biggest task will be relating surgical procedures to non-surgical procedures, or "operation as opposed to consultation," said committee member Dr. J. C. C. Dawson, formerly of Peterborough and now assistant registrar of the College of Physicians and Surgeons of Ontario.

Other tariff committee members who will work on the new schedule include Dr. J. B. Cook, medical officer of health for Sudbury and Dr. Roger Kennedy, who practised for a time in Sarnia and now is medical officer of health for Ottawa.

Coaches: Gordon McNichol, Neil McDougall
David Kruk, Allan McDougall, Jim Litkowski, Wayne McNichol, Tom Kozak, Jim Cederwall, Helgie Thorsteinson, Paul Thorsteinson, Dennis Montgomery, Kenneth Richardson, Donald Gove, Denis Gaudreau.

TEAM: GOLD EYES
Coaches: Doug Spencer, Ed Bruce
Wilfred Watterson, Bobby Bruce, Warren Spencer, Harley Scorah, Bill Fauleoner, Alfred Cardinal, Barry Manchuk, Stewart Caron, Rene Fillion, George Cairns, Scott Forbes, Wayne Garrow.

Porcupine Not Protected Under Game Laws

Toronto — Because porcupines are reported causing a great deal of damage to trees in various parts of the province, Ontario Lands and Forests Minister the Hon. J. W. Spooner again points out that these animals are not protected by law and may be killed when they become destructive.

For years the Department has been trying to dispel a common belief that porcupines are protected game animals. They are not. Officials estimate that one porcupine can destroy up to fifty trees in a year by girdling the main stem of large trees or chewing the tender bark of small ones.

The damage a porcupine can do is apparent to anyone who has tried to raise small trees. Damage in the Omeenee forest near Downeyville was one example of why these destructive animals should be hunted out and destroyed.

Added to such damage, of course, is the damage created around summer cottages by porcupines which thrive on salt and will go to no end of trouble to find it. Deposits left by perspiration on the handles of axes, on paddles, canoe seats, chairs etc. offer strong attraction.

There isn't much sport in killing a porcupine, he's slow-moving and an easy target. Contrary to widely held opinion, he can neither throw his quills like arrows nor does he readily attack humans. His tail can, of course, sink barbed quills into skin and flesh. Don't let the dog get too close, for few dogs can kill a porcupine.

About the only animal that can handle a "quill pig", experts say, is the fisher, but fisher are not plentiful and so the porcupines population increases.

Porcupines are not protected under the game laws and may be killed by any means at any time by a landowner in defence or preservation of his property.

There was a time when Indians killed many porcupines for their quills, which were dyed and used in the manufacture of baskets and other articles. Few are sought for this purpose today. "Porky" is thriving and getting closer to the municipalities in southern Ontario; an occasional one is found in the ravines around Toronto.

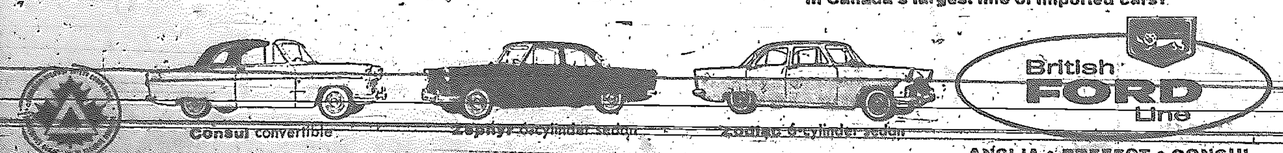
Consul 4-cylinder sedan

Announcing New Mark II Series
CONSUL ZEPHYR and ZODIAC
Clean-cut new-styling! These British Ford Line beauties have a trim new look. Roof lines are slimmer and lower—and there's exceptional headroom, too. Visibility is increased with larger windshields. You'll find new touches of elegance in fully chromed headlamp hoods, roof drip rails and re-styled tail lamps. New instrument panels with close-at-hand heater controls are another handsome and functional change. There's also extra luxury in floor coverings and upholstery . . . and finer fittings all around.
Clear-cut new value! These new features are *standard*, yet prices are low! And all sedans have plenty of room for six passengers, along with a compact design that makes them fun to handle, easy to park.
Cost-cutting performance! Up to 35 miles per gallon of gas in the Consul, up to 30 miles per gallon in the 6-cylinder Zephyr and Zodiac. You save on gas and still enjoy all the dash and "go" you'll ever need.
You'll find more choices . . . more style . . . more value . . . more fun . . . in Canada's largest line of imported cars!



Consul convertible — Zephyr 6-cylinder sedan — Zodiac 6-cylinder sedan

TEN GREAT YEARS OF ONTARIO'S PROGRESS WITH PREMIER FROST

"... Our dynamic economic creed has been, and is, more people, more industry, more jobs, more wages, more opportunity and from these—more productivity and revenue to do the job."

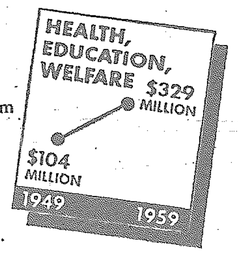
"This is our policy. This is our objective. Although Ontario's advances of the last decade are unprecedented in this country, or in any country in the world, we believe that ...

... EVEN GREATER PROGRESS LIES AHEAD"

from Premier Frost's Report to the People of Ontario

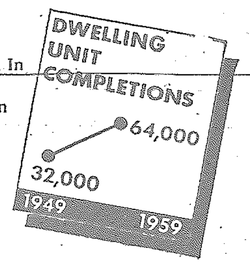
HUMAN BETTERMENT

Ontario's advances in health, education and welfare are unequalled. Investment in human betterment has risen from $104 million to $329 million a year—about half of Ontario's total revenues. Personal income has risen much faster than living cost.



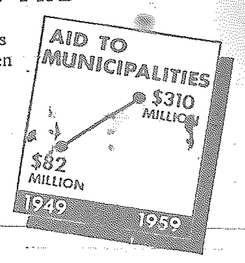
HOUSING

Vigorous government action has abated the acute housing shortage. In 10 years, 425,000 new dwelling units have been completed, a record without equal on this continent. 1958 saw an all-time high of 64,000 completions.



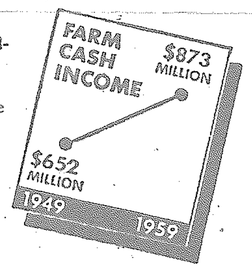
MUNICIPAL AID

P-C Government policies have lightened the burden on every municipal taxpayer. Provincial aid has increased from $82 million to $310 million annually in ten years.



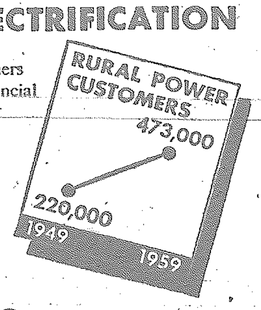
AGRICULTURE

Farm cash income in Ontario reached an all-time high last year. Great strides forward have been made in the orderly marketing of farm products. Price supports are a reality.



RURAL ELECTRIFICATION

90% of Ontario's farmers now have power. Provincial grants totalling $100 million have increased rural power customers from 220,000 to 473,000 in ten years.



HIGHWAYS

In ten years, Ontario's investment in our vast provincial highway system has risen from $65 million to $238 million a year. Road grants for the improvement of municipal roads are up from $15 million to $61 million a year.

PLAN TO BUILD 600 CHURCHES

Vancouver — The United Church of Canada plans to build 600 new churches in this country in the next five years, the church's associate secretary said Thursday.

Rev. James Fraser of Toronto told the British Columbia conference that $53,000,000 was raised last year, the largest amount in one year in the church's history. Present property was valued at $300,000,000.

BIRTHS

THOMSON — Mr. and Mrs. Roy Thomson (nee Bernice Walker) of R.R. 1 Kenora are happy to announce the birth of their son on May 24th at the Kenora General Hospital.

Mr. and Mrs. Joseph C. Caron of Kenora, Ontario are pleased to announce the engagement of their only daughter, Mary JoAnne to Mr. William Sawkins, youngest son of Mr. and Mrs. Albert Sawkins, Kenora, Ont. The wedding to take place Saturday, June 27th, 1959 at 1.00 p.m. in the Notre Dame Catholic Church, Kenora

ANNOUNCEMENTS

Anyone knowing the whereabouts of James Clifford Baxter, Painter and Decorator, of Kenora, Ontario, kindly contact Transalta Minerals Ltd., 521 8th Ave. S.W., Calgary, Alberta.

The Art Club meeting will be held Friday, May 29th at 8 p.m. in the Council Chambers. A film will be shown.

Corporal Punishment To Be Discontinued

Corporal punishment is to be discontinued in Ontario reform institutions, Reforms Minister George C. Wardrope announced at the recent annual conference of the Ontario Association of Children's Aid Societies.

Mr. Wardrope said that instructions to this effect have been sent out to all institutions. "I have taken steps to abolish the use of the strap," he said. "All our superintendents have been advised to that effect."

The new order does not apply in cases where a judge has specifically ordered the strap.

Mr. Wardrope also announced that he will have the wording of the Training School Act changed, and have the word "incorrigible" replaced by "unmanageable".

The Minister of Reform Institutions said that his department is trying to shift emphasis from punishment to reform in its treatment of persons committed to its institutions. It is planned to transform reform institutions into minimum security units, stressing manual training and education for both mental and physical therapy.

Mr. Wardrope also announced a $6,360,000 building programme, including a new Ontario Training School for Girls at Lindsay, and a new Training School for Boys at Simcoe.

More Financial Assistance To Ontario Hospitals

A two-fold programme of increased financial aid to hospitals by the Province was announced recently by Premier Leslie M. Frost.

The first measure of assistance will be in the form of $150 per bed grants to be used for any of three purposes: to retire capital debt — to reserve for future expansion — or to replace depreciated fixed equipment.

The second measure will be an increased payment to outpatient clinics or from 30 cents per visit to $1.50 for same.

The Premier said that the Government was putting emphasis on outpatient treatment because it considered that it offered part of the solution to the problem of hospital congestion relief. It is felt that the purpose of hospital treatment is to apply the specialization of the institution to the illness of the patient; when that specialization is no longer required, the bed space should be made available to someone else.

Mr. Frost also announced that the Government was planning to foster the establishment of more nursing homes as a further help to hospital congestion relief.

"We are planning for a well-equipped system of nursing homes, to meet provincial standards," he said. "This should remove much of the pressure from active treatment hospitals."

The Premier revealed that Provincial grants to hospitals during the past twelve years have amounted to $205,000,000. These grants have been for capital construction, ordinary and special maintenance, rehabilitation, nurses' training and other purposes.

"We have built a much extended and improved hospital system," the Prime Minister said. "The number of beds in public hospitals has risen from 3.9 to 5.1 per 1,000. The net increase is 14,000 beds over the period. There are an additional 2,600 beds currently under construction."

It Pays To Treat Seed Potatoes

It wasn't many years ago that potato growers heard a lot about treating seed tubers for everything from scab and rhizoctonia to blackleg and seedpiece decay.

Unfortunately potato disease control just didn't come that easy and many growers who depended on a "sure-shot" chemical were disappointed; some even quit treating seed altogether.

"We learned a lot since then," comments Ontario Agricultural College botanist, Prof. C. B. Kelly, "The main thing being that seed treatment is effective only against surface organisms. Mercuric chloride and Semasan Bel are useful for treating surface borne bacteria, rhizoctonia, verticillium, and seed-piece decay. Spergon and Phygon can be used for prevention of seed decay and they will also stop rhizoctonia fungi from attacking the sprouts."

"But if the disease is inside the tuber or is a virus, there is no effective control," notes Kelly. "Seed treatment won't stop late blight fungus in tubers; it doesn't control verticillium wilt if the fungus has entered the tuber by way of the rhizome; and it doesn't control blackleg and ring rot inside the tuber."

The O.A.C. plant disease specialist stated that one major benefit of growing seed potatoes was that "No new surface disease organism would be introduced into clean soil".

"Growers shouldn't expect the treatment to carry the whole load," he added. "Other control measures that come to mind are: sow foundation or certified seed, store seed potatoes away from table potatoes, in a disinfected area, and buy small whole potatoes rather than cut up larger potatoes where you have to depend on knife disinfection or streptomycin sulphate dipping of the seed to prevent the spread of disease from tuber to tuber."

Quetico Annual Meeting Set For May 30

Delegates from all over Northwestern Ontario will gather May 30th at the Quetico Conference and Training Centre for the First Annual meeting and residential training conference for the Centre's membership. The Centre was incorporated in May of 1958 and began operating July 4th.

According to H. E. Thomas, President of the Board of Directors, Fort William, the past year's executive officers will report on the progress made in developing Northwestern Ontario's residential training centre on Eva Lake, 100 miles west of the Lakehead. The meeting will consider methods of improving the Centre's contribution to the cultural and economic growth of Northwestern Ontario through continuing education opportunities," Mr. Thomas said. "They will discuss facility improvements and public relations, too."

The theme speaker and resource person for the meeting will be Dr. J. R. Kidd, Director of the Canadian Association for Adult Education. Dr. Kidd has had twenty years' experience in adult education, recreation and group work, serving in Canada, the United States and abroad. Born in Saskatchewan, he grew up in British Columbia and has worked in five Canadian provinces. He has held professional positions in recreation, group work, camping, counseling, as well as adult education, and has considerable experience in writing and editing in films, radio and television, in university teaching and in public lecturing.

First Farm Accident Figures Reported

Detailed information on the accident picture on Ontario farms for the first three months of the Farm Accident Survey is now being reported to agricultural representatives, states T. R. Hilliard, Director of extension, Ontario Department of Agriculture, under whose supervision the Farm Accident Survey is being carried out. The information will be tabulated and analyzed, and the results divulged as soon as they are available.

Agricultural representatives report that a total of 542 people are acting as accident reporters in the Farm Accident Survey. "I would like to commend all those who are serving as farm accident reporters, and also those farm families that are providing the information on accidents on their farms," states Mr. Hilliard. "This information will be of value to farm organizations and the Department in devising a safety education program designed to reduce the number of all accidents on Ontario farms."

D. B. S. Weekly Highlights

Dominion Bureau of Statistics

Labour:

Employment rose substantially during the month ended April 18, the number of persons with jobs rising by 112,000 to an estimated 5,664,000 and the number without jobs and seeking work declining by 80,000 to an estimated 445,000. The total with jobs was 127,000 larger than in April last year and the total without jobs 77,000 smaller, the labour force showing a growth of 50,000.

Merchandising:

Preliminary reports indicate a gain of more than 3% over last year in department store sales during April. During the first quarter of the year sales were more than 6% higher in dollar volume, although gaining only 2% in March . . . Total retail sales during March were 3.4% higher than a year earlier, but the cumulative total for the quarter was up 5.5%. The total increases in both month and quarter were spread country - wide, while 10 of 18 specified trades had gains in March and 15 in the quarter.

Industrial Production:

Measured by the Bureau's indexes, industrial production during March was slightly lower than in February, with output down variously in each of manufacturing, mining and electric and gas utilities. Compared to March last year, however, production was some 6% greater.

Manufacturing:

Steel ingot production declined again in the week ended May 16 when it was at 84.7% of rated capacity . . . Shipments of veneers in the first quarter were 11% higher than last year, plywoods nearly 20% higher . . . All main concrete products, except chimney blocks, were shipped in larger quantities in this year's first quarter . . . Crude oil consumption by Canadian refineries was up 18% in the three months.

Sawmilling:

Production of sawn lumber increased more than 7% in British Columbia to the end of March, but the total for the other provinces was down nearly 5% from last year.

Education:

Over 3,600,000 children were enrolled in Canada's elementary and secondary schools during the 1957-58 school year, an increase of 100,000 over the previous year.

Immigrants To Get Welfare Aid

Immigrants living in Ontario are now eligible to receive the same degree of welfare assistance as other citizens, Public Welfare Minister Louis P. Cecile, Q.C., announces.

This is the result of a new agreement signed by the Province with the Federal Government.

"From the date of their arrival in Ontario," Mr. Cecile said, "immigrants will be entitled to social and welfare benefits, including direct relief under the General Welfare Assistance Act of Ontario. The cost will be shared by Ottawa and the Province under the Unemployment Assistance Act."

Since public assistance in Ontario is usually administered by municipalities, result of the agreement is that, from now on, immigrants will get general welfare assistance directly from municipal welfare agencies rather than from Ottawa.

JUDGE RULES ON FRILLY PANTIES

Nottingham, England—All the dignity of British law and the wisdom of a bewigged judge were summoned to decide the fair breaking strain of the elastic in women's—ahem—panties.

Piled before Judge Abraham Flint were 44 items of frilly ladies' dainties, including 19 pairs of assorted panties.

The judge whipped out a pocket magnifying glass and examined them. Then he tested them.

"One of the garments," he commented, "pulled off about five times would be subject to considerable strain."

After that, he said, the elastic joint would give way, "making them unfit for the purpose for which they were sold."

In the case before Judge Flint a firm of wholesalers sued a store for £49 8s, the value of the undies.

The store claimed the dainties were not fit for sale as the elastic was sewn into the waists the wrong way.

Judge Flint agreed they were rather poor quality, but he wasn't satisfied the defects in them were there before they left the wholesalers. He ordered the store to pay up.

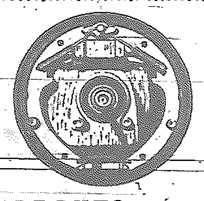
SMART BOY OUTSPELLS FATHER

Bluefield, W. Va.—It was bad enough when the spelling champ from Fairview Junior High School ran through all but one of nine competing Bluefield Lions Club members in a luncheon match.

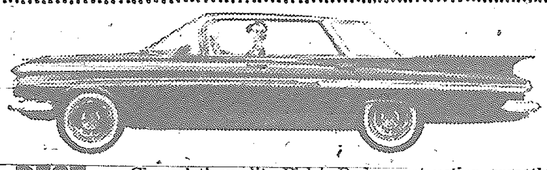
But young David Spracher Jr. gave the coup de grace when he was pitted against his dad. Son proceeded to outspell father to close the program.

Take it from the experts—
CHEVY GIVES YOU 7 BIG BESTS!

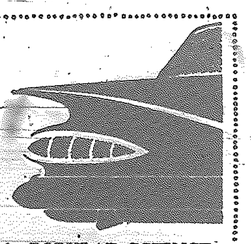
Take it, not from us, but from the published opinions of outside, independent experts and from on-the-record facts and figures: Chevrolet gives you these 7 big bests over any other car in its field!



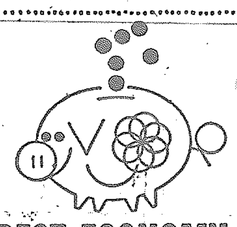
BEST BRAKES In direct competitive tests of repeated stops from highway speeds, conducted by NASCAR*, Chevy was rated best in its class—and why not? Chevy brakes are larger for up to 66% longer lining life.
*National Association for Stock Car Advancement and Research.



BEST TRADE-IN Chevrolet's quality Fisher Body construction, smooth, more economical engines, rugged transmissions and sleek modern design hold resale value higher than others in its field . . . bring you more money at trade-in time.

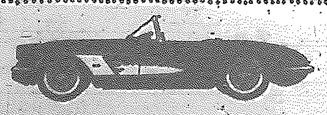


BEST STYLE As summed up in POPULAR SCIENCE MAGAZINE: "The fact is, in its price class the Chevy establishes a new high in daring styling . . ." It's the car that's unmistakably '59 in every modern line.



BEST ECONOMY No doubt about this; two Chevrolet Sixes won their class in the famous Mobilgas Economy Run, got the best mileage of any full-size car.

BEST ROOM Official figures on all car dimensions make this clear. For example, Chevy front seat hiproom is unsurpassed . . . almost six inches wider than one of its competitors.



BEST ENGINE Every motor magazine has given Chevy's V8's unstinted praise. As SPORTS CAR ILLUSTRATED puts it: "Indeed, this device is surely the most wonderfully responsive engine available today at any price".

BEST RIDE You'll be able to tell this yourself, instantly. But MOTOR TREND magazine expresses it this way: ". . . the smoothest, most quiet, softest riding car in its price class".

PLUS THESE TREMENDOUS TRIFLES Who'd want to do without Chevrolet's extra luxuries? Like the protection of full wraparound bumpers, crank-operated ventipanes, the convenience of single-key locking, a real overhead curved windshield, oil-hushed hydraulic valve lifters in every standard engine for quieter running, a bigger luggage compartment with full side-wall lining.

No wonder more people are buying Chevrolets than any other car! CHEVROLET

PHONE 475 DRYDEN, ONT. - P.O. BOX 631
OR WRITE BOX 90 - MINER and NEWS

Albert Wren Says:

"Country roads are in dire need of attention. These roads should be rebuilt to today's standards, properly surfaced and turned back under subsidy to the local authority for maintenance. Horse and buggy roads are not good enough to meet today's load demands."

"A North-South pattern of access roads must be webbed into the Trans-Canada system to develop mineral areas. Quebec proved the worth of roads going ahead of development. People don't mind taxes if they are getting service and development with their money. We are going to move forward with development access roads.

Expect 2,000 Boats July 9 In Harbor

Some 2,000 local and visiting boats of all sizes and power are expected to line the channel through which the royal barge will carry Queen Elizabeth II and Prince Philip to dock following the royal couple's arrival at the Lakehead aboard the Britannia July 9.

Members of local boat and yacht clubs, meeting Monday to discuss plans for a marine welcome during the royal visit, decided on a formation of two lines of craft on each side of the navigation channel from the breakwater main gap to the entrance to the CPR dock in Port Arthur.

The Britannia will drop anchor outside the breakwater near the north gap at approximately 9.30 a.m. and will be met by the royal barge and three escort boats. The two Canadian naval destroyers and the Royal Navy escort destroyer accompanying the Britannia to the Lakehead will also anchor outside the breakwater.

Also in the flotilla will be the motor launch Fort Steele, of the RCMP marine division at Halifax.

To Patrol Channel

Members of the Lakehead Power Squadron, under Commander G. A. Hay, will form larger boats of their group at anchor to indicate the course of the royal barge. Smaller boats, each carrying an RCMP officer, will patrol the channel to insure observance of safety measures. Patrol boats under the RCMP will also cover the open waters of Thunder Bay to keep the navigation course open for the approaching royal yacht and escort ships.

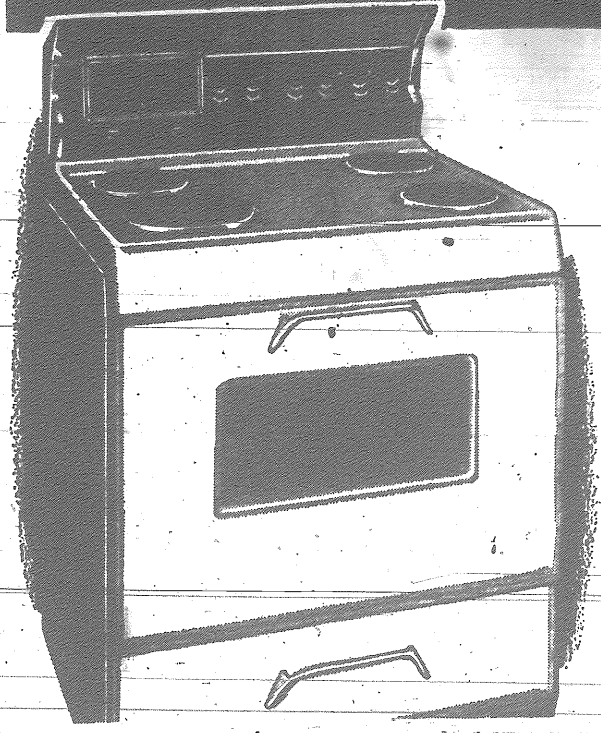
A further meeting to finalize plans for the welcome will be held June 10. Chairmen of the meeting Monday was Sgt. J. S. Stewart, of the local RCMP detachment. Commodore J. Ross represented Nipigon River Boat Club; Commodore Don Arthur, Kam River Boat Club, and Commodore J. Coslett, Thunder Bay Yacht Club.

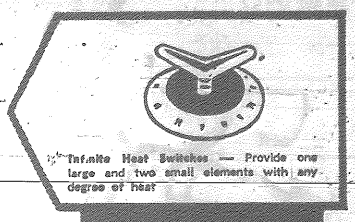
"What has lots of legs, green eyes, and a yellow back with green stripes?"

"Gosh-gee, I don't know. What?"

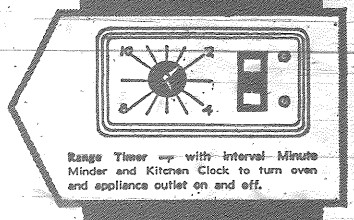
"I don't know, either but it's on the back of your neck."

60.00 Trade-In Offer! VIKING Automatic 30" Electric Range





Infinite Heat Switches — Provide one large and two small elements with any degree of heat



Range Timer — with Interval Minute Minder and Kitchen Clock to turn oven and appliance outlet on and off.

Fort High Second In Field Meet

Dryden athletes, overwhelming Fort Frances tracksters in junior and intermediate events, claimed their second straight championship of Northwestern Ontario track and field at a school meet Saturday at Pither's Point.

Fort Frances starred in the senior events, taking nine firsts to two for Dryden, but lacked the depth of the visitors who dominated the junior rounds with nine wins and added six intermediate victories. Although Atikokan and Kenora high schools were sparsely represented, the meet featured complete teams only from Dryden and Fort Frances who totalled 99 and 82 points, respectively.

LANKY MEL Trethart of Fort high, winner of the high jump, hop, step and jump and discus throw, emerged as senior champion with three firsts. His teammate, Bill Maffey, won the 100-yard dash in 11 seconds and the 220-yard dash in 24.6 seconds although the day was so windy that records will not be matched against past marks.

Strong, cold wind blowing across the Point prevented jumpers, runners and throwers from equalling their best practice efforts, even though some creditable performances were recorded.

King of Dryden, for instance, won the senior, one-mile race in 5.1 minutes. Henrichs, of Atikokan made the 880-yard run in two minutes. Moore of Kenora pole-vaulted 9 ft., 1 in. Trethart high-jumped 5 ft., 2½ in., hop-stepped 38 ft., 3 in., and threw the discus 95½ ft. Bill Selman of Fort Frances broad-jumped 17 feet, 9 in. Gunderson's shot-put distance was almost 39 ft. Getty of Dryden threw the javelin over 141 ft. Peter Wilkins of the Fort won the senior 440-yard race and Fort Frances completed its mastery in senior sports by winning the relay.

TWO DRYDEN lads, Hamilton and Milani, both brought their team three firsts in the junior events while Edgar Vien of Fort Frances took the junior honors for pole-vaulting and high-jumping. Dryden won both junior and intermediate relay runs.

Jim Bird of Atikokan and Croshuk of Dryden were both double winners in the intermediate competitions.

LIVING LONGER

The defeat of many diseases has increased life expectancy 22 years since the turn of the century. Cancer, too, will be brought under control by science, according to the American Cancer Society, which in the past 13 years has spent more than $67 million seeking the answers.

FBI Pulls Out Of Lynch Case

Washington — — Federal authorities today announced their withdrawal from the kidnap-killer case of Mack Charles Parker. The results of their lengthy investigation will be turned over to the state of Mississippi.

Atty. Gen. William P. Rogers said the evidence obtained by the FBI after a masked mob snatched Parker from the Pearl River county jail at Poplarville, Miss., April 25 and killed him, failed to show any violation of federal statutes.

American Indians used a well-developed and articulate sign language at inter-tribal meetings.

Employment in industry in Germany has risen by more than one-third since 1950. In Italy and France agriculture remains a major employment field.

To better serve the general public of Winnipeg — its surrounding districts, and our Travel Agents in this city, we have pleasure in announcing the opening of our new KLM Office at:
