MISS JESSIE FRANCIS PRESENTED WITH LIFE MEMBERSHIP AND GIFT

The final meeting of the King George VI and South Ward Home and School Association was held on Monday, May 25th, at 8.15 p.m. The president, Mrs. Burris warmly welcomed all parents, students and guests, who included Mr. R. S. McBurney, District School Inspector and Mr. A. Friesen, Secretary Treasurer of the Public School Board.

Following the singing of O Canada and the Lord's Prayer, regular business was dealt with. Yearly reports were heard from all officers.

Mrs. V. McIntee program convener, then introduced some of the festival winners from both schools. Jo-Ann Logan, grade one student, delighted the audience with her recitation of "The Naughty Soap Song".

A girls' triple trio from King George under the direction of Mr. Wagar, next presented a fine vocal number.

Marnee Fairfield, accompanied at the piano by Diane McKay, won everyone's praise and approval with a splendid violin selection. Peggy MacDonell, South Ward Grade 3 pupil, charmed all present with her version of "The Donkey".

Members of the present Home and School Executive, and the original executive of the first association in Kenora were then introduced to the audience. The latter included Mr. and Mrs. J. Francis, Mr. and Mrs. Heron and Mrs. Max Cameron.

Mrs. Burris then called upon Mrs. Carl Anderson, a former pupil, to make the presentation of a Life Membership in the Association to Miss Jessie Francis, principal of South Ward School, who is retiring this year. Mrs. Anderson stated that this honour was being given to Miss Francis as a tribute to her devoted service on behalf of the youth of

(Continued on Page 12)

Mrs. Elsie Markham Died Suddenly Wednesday, May 27

Elsie Louise Markham, North Road, Norman, died suddenly at her late residence, Wednesday afternoon May 27th. Born in Southampton Ontario, March 28, 1894, she was in her 65th year.

She received her education in Eastern Ontario and came to Kenora in 1933.

She is survived by her husband William Richard Markham; three daughters, Mrs. H. (Helen) Rogers of Winnipeg, Mrs. Philip (Mabel) Markham and Mrs. George (Jane) Whiting both of Kenora; four sons, Sid Chadwick of Winnipeg, Norman Chadwick of Brandon, Gordon and Fred Markham both of Kenora; one sister, Mrs. Phoepe Thompson of Glenholm Sask. Fifteen grandchildren also survive.

Funeral services will be held Friday afternoon, May 29th at 3.30 in the Chapel of the Brown Funeral Home. Rev. A. Dunn will officiate and interment will be in the Lake of the Woods Cemetery.

MORRIS GREEN

Morris Green To Be Ordained At Kenora, Sunday

Morris M. Green, son of Mr. and Mrs. Magnus H. Green, 625 - 7th Avenue South will be ordained into the Holy Ministry of the Augustana Evangelical Lutheran Church, Sunday, May 31, at 4 p.m. C.D.T. at Bethesda Lutheran Church. Upon completion of high school in Kenora, he attended Gustavas Adolphus College in St. Peter, Minnesota where he received his Bachelor of Arts degree in 1955. Since then he attended the Lutheran Seminary in Saskatoon, Saskatchewan graduating May 22, 1959 with a Bachelor of Divinity degree from Luther Theological Seminary. He has been called by the Board of American Missions of the Augustana Lutheran Church to serve as Board Missionary at Lac du Bonnet, Manitoba where he will be commissioned July 5th.

Dr. Oscar Benson, President of

Susan Leighton Finds Rare Orchid

The Miner and News had a charming little visitor Wednesday afternoon in the person of eleven year old Susan Leighton. Susan brought along two dainty rare orchids that she had found while out gathering flowers near Primmer's Beach on Sunday afternoon.

The orchids were tiny but delicately made, and similar to a small ladyslipper. They were a beautiful shade of mauve with yellow and brown markings on the "front" of the shoe.

Realizing that the flowers were different from any she had seen before, Susan brought them home and then looked them up in the encyclopedia, where she found the flowers were the rare Calypso Orchid.

Displaying so much interest in flowers, Susan was asked if she was going to be a Botanist. No,

LOST SINCE SUNDAY

RAIN HALTS SEARCH FOR TWO MISSING MEN

Bad weather has halted the search for a missing airplane and its two passengers, Maurice J. Merickel of Wadena, Minnesota and Sylvester Niesses of Walker, Minnesota, reported missing since Sunday. The men disappeared while on a flight from Sioux Narrows to Teggau Lake in the Vermilion Bay area.

The Ontario Provincial Police report today that they are waiting for the weather to clear before continuing with their efforts to find the two men.

An RCAF Otter was to have taken part in the search this morning, but heavy rain and mist has caused the RCAF to delay its flight.

A door, part of a pontoon and a battered canoe were found on Teggau Lake earlier. Last night an oil slick from an airplane was sighted on the water by an aircraft flying overhead, leading police to believe that the plane is down in this area.

Maurice J. Merickel Jr., son of the missing man, arrived in Kenora earlier today to assist in the search. He reached Kenora, by airplane but not without experiencing some difficulty of his own. He was forced to land his plane in a farmer's field, six miles from Kenora when he was unable to locate the Kenora airport.

40th Med Regiment Inspection Tonight In Drill Hall

The last inspection of the 40th Medium Regiment R.C.A. as an Artillery Unit will be held tonight at eight o'clock in the drill hall at the Armouries instead of at the high school grounds as previously announced. Inclement weather has cancelled the parade and march past. This will also mark the last occasion that Major-General William J. Megill, DSO, CD, will inspect the regiment as part of the Prairie Command.

Major General Megill is to retire from the Canadian Army on September 1st, after 35 years service to become the executive secretary of the Canadian Geographic Society.

The Kenora area will join with the Lakehead area to become part of Central Command with headquarters in Oakville Ontario.

(Continued on Page 12)

STOLEN CARS RECOVERED

Town police report that a car owned by R. J. Young reported stolen during the night was found early this morning in the vicinity of the Thistle Rink.

Saturday two cars were reported stolen and both recovered, one being found in Winnipeg. No arrests have been made and investigations are continuing.

Inch Of Rain Falls On Area

By noon today, well over one inch of rain had fallen in the Kenora area, with .89 of an inch reported by 8.30 this morning.

The lake level is also continuing to rise with the figure today standing at 1057.83 feet above sea level. This is a rise of 1½ inches since Tuesday, when the level was 1057.72.

Pulp and paper mills expect to obtain pulpwood in perpetuity from their woodlands.

Yellow Rocket Continues To Spread In Prov.

Yellow Rocket, a primary noxious weed, continues to spread in Ontario despite efforts to control, it states the Field Crops Branch of the Ontario Department of Agriculture.

Sometimes called Winter Cress, Yellow Rocket is often mistaken for Wild Mustard. However, it is easy to distinguish between them. Yellow Rocket usually flowers in the middle of May and Wild Mustard three weeks later. Yellow Rocket has a number of main roots, while Wild Mustard has a single tap root. Yellow Rocket is a smooth plant with shiny lobed leaves; Mustard is quite hairy with sharply margined, dull-colored leaves.

The use of high-grade seed is one way of preventing new infestations; for example, not one seed of Yellow Rocket may be present in No. 1 Grade Clover seed. Single plants of Yellow Rocket should be pulled and burned. Plants in pastures should be mowed when flowers appear. Fields that are polluted with this weed should be out early for grass silage whenever possible. Seeds that ripen will be destroyed by fermentation in the silo. Good drainage and thorough Spring and Fall cultivation help kill Yellow Rocket.

Yellow Rocket may be controlled in mature stands of Alfalfa by applying 6 ounces of M.C.P. amine acid in 50 gallons of water per acre AFTER the tops of the Alfalfa have been killed by fall frosts. Daytime temperatures should be above 45 deg. F. when spray is applied. The Alfalfa tops are usually dormant, and the daytime temperature right, during the last week in October or first week in November.

It takes time and effort to eradicate Yellow Rocket, but there is a great deal of satisfaction in seeing a clean field.

TENDER NUMBER 6

Kenora Public School Board

TENDERS will be received at the Board Offices at 102 Main St. S. up to 4.00 p.m. on June 12, 1959.

For seeding and sodding approximately 6,000 square yards at Evergreen School this summer, including the supply and application of all seed, sod, topsoil, and fertilizer as indicated in the complete plans and specifications available from the Board office on deposit of $10.00.

The lowest or any tender not necessarily accepted.

A. Friesen,
Secretary-Treasurer.

DELIVERY ANYWHERE IN TOWN

Morris Green To Be Ordained . . .

(Continued from Page 1)

the Augustana Evangelical Lutheran Church from Minneapolis will officiate at the ordination rites, one of his duties as president of the church. Pastor Hugo A. Anderson, former pastor of Bethesda Lutheran Church and now of Brooklyn, New York, will be Mr. Green's sponsor. Also participating will be Pastor Otto A. Olson, Jr. of Saskatoon, President of the Canada Conference of the Augustana Lutheran Church, and Pastor Floyd Johnson of Bethesda Lutheran Church.

Miss Jessie Francis Presented . . .

(Continued from Page 1)

the province and in her remarks said:

"Any teacher who has worked with you will readily speak of your zealous and conscientious labours, any parent whose child has been taught by you will vouch for your interest in all students and any pupil who has passed through your classroom doors will quickly remark that Miss Francis was one of the best teachers I ever had."

Miss Francis was given a guest book made by King George Students which contained the names of all those present, many of whom had been former pupils.

Mrs. Anderson's son, Bruce, who is now one of Miss Francis' pupils, gave her a lovely corsage of roses and carnations on behalf of the Home and School Executive.

Miss Francis expressed her thanks to all for the fine tribute paid to her. She said that all her years at South Ward had been pleasant ones, and was certainly pleased to feel that her work in Kenora had been so appreciated.

A choir of happy faced grade 3 boys and girls brought the evening's program to a close. These were Miss Ross's pupils from South Ward. They first gave a choral verse speaking poem entitled "No Sir!" and then sang two festival selections. Mrs. H. Henfrey was their accompanist.

The meeting closed with the singing of "God Save The Queen" after which refreshments were served.

40th Med. Regiment Inspection . . .

(Continued from Page 1)

In a statement released from Ottawa on Monday the Hon. George Pearkes, VC, Minister of National Defence, announced that the Canadian Army's command structure will be reorganized this summer to bring it into line with the Government's new policy of National Survival.

In reorganization, Prairie Command, which consists of Saskatchewan, Manitoba and the Lakehead area of Ontario disappears. The Manitoba portion will be designated Manitoba Area with headquarters in Winnipeg and reporting to headquarters, Western Command in Edmonton. Saskatchewan area, with headquarters in Regina, will also become part of Western Command. The Lakehead area will become part of Central Command with headquarters in Oakville, Ont.

The reorganization will become effective September 1st, when Major-General William J. Megill, DSO, CD, General Officer Commanding Prairie Command, will retire from the Canadian Army.

Officers and men of the 40th Med. Regiment will be under the command of Lt. Col. R. Campbell, CD.

Prior to the inspection, the high school cadet corp will be inspected at 7 o'clock in the Gun Shed by Maj. Gen. Megill.

Susan Leighton Finds Rare . . .

(Continued from Page 1)

she replied, I'm going to be an archaeologist; I want to do something really interesting!

A grade seven student at Central School, Susan submitted the following information concerning the Calypso Orchid.

The Calypso flower, a very small lady slipper type orchid, is an extremely rare plant. The orchid family, which it belongs to, has over 7,000 species but almost all are in tropical regions. These are air plants deriving their support from the air.

In Canada, Orchids are not very numerous but very beautiful. This Calypso orchid, better known as the moss orchid, is found in early summer in dark swampy regions of northwestern Ontario. Being of the lady slipper group as soon as the moss orchid's mauve flower is picked, the whole plant will automaticly die. Because of this, the pretty, sweet smelling moss orchid, is a very rare plant.

Little boy: "What do you repair these shoes with,"

Cobbler: "Hide".

Little boy: "Why should I hide?"

Cobbler: "Hide — hide! The cow's outside.'

Little boy: "So what! Who's afraid of a cow anyway?"

A man has been complaining that he had chosen a wet spell for his holiday last year, when a friend interrupted: "It can't have been so bad - you came back sunburned!"

"Sunburn nothing," he replied: "that was rust."

Albert Wren Says:

Here's a thought for today and its worth thinking about. When you hear the Tories telling you about the things they claim to have done for Ontario and especially what concerns this district and Northwestern Ontario, just use your own memory and go over the facts as YOU know them.

You will find that very little that is constructive has been due to the political party itself. Chambers of Commerce, Town and Rural councils, non-political organizations, business and industry organizations have been sending recommendations, and requests and even delegations to Toronto for years and generally were stalled off or given vague promises, until the needs and requirements of the district have been hammered into the Government by a determined representative, whom the Government could not evade and ignore. Albert Wren is such a representative and the fact there on the record that he has accomplished many things for this region and in some cases securing reversals of previous decisions. That is the sort of man we need. VOTE ALBERT WREN, LIBERAL-LABOUR ON JUNE 11th.

District Baseball League Joins National Congress

President, Ted Earley, of the Kenora District Baseball League, has announced that league is once again affiliated with the National Baseball Congress. This will be the fourth year the league has been a member of this International Association. There are over five hundred leagues making up the National Congress. Although only four of the leagues are in Canada. The other three Canadian leagues are in the west. The Canadian American Baseball League, formerly the Western Canada Baseball League, and two leagues in Alberta, Southern Irrigation League and South Alberta Baseball League.

The new Canadian Commissioner, Denny Evenson has stated that he is interested in declaring a true Canadian Champion instead of letting the West be the representative at the Global World Series. He also said the reason the West has been chosen in the past, is the fact that it was felt, it was the best amateur baseball in Canada. The new Commissioner, has said he doesn't think this is fair, and would like to judge the eastern teams. A sponsor is presently trying to be found to handle an East-West final.

Ted Earley, the Kenora District League President, hopes that within a year an Allstar team from this league might have a chance to challenge for the Canadian title.

Does Your Town Want Industry?

Does your town want industry? Sure it does. Every town wants additional industry. For industry means growth, more people, more services, more homes, more business, more money in circulation, and more tax dollars.

Recently Luther H. Hodges, governor of South Carolina, wrote an interesting article for The Rotarian, the international magazine of The Rotary Club. Wherever he went in North Carolina, he heard the familiar remark: "Governor, we want you to bring us a new industry."

"As governor," he replied "I can not bring a single industry to your community."

He did point out, however, important points to be considered in attracting new industries. Excerpts from this article follow:

The comparative success or failure of an industrial-development program depends primarily upon the spirit and enthusiasm of the community itself, especially its leadership. In the final analysis, of course, there must be the understanding and the whole hearted support of the individual citizen.

The first thing that should be realized in any program of industrial development is that no secret formula exists whereby success can be assured. There is no magic involved, and very little luck. No community or state, regardless of its resources and other attractions, can afford to sit on its hands and wait for progress to come to it. You must not only be aggressive in taking advantage of the opportunities afforded in the normal course of events, but you must be prepared to make your own opportunities.

Basically, there are two phases to the successful industrial-development program, each complementing the other. The first phase deals with efforts to attract new industries to a particular state or locality within the state. The second phase is aimed at encouraging and assisting the growth and development of existing industries. The first place is more dramatic, but it is a mistake to consider it more important. To do so is to run the risk of discouraging the expansion of established industries and driving away new industries by creating the impression that you will lose interest in them once they have been "landed."

With regard to exisiting industries, both the state and the community have a responsibility to develop an atmosphere conducive to profitable operations. And the individual citizen, the Rotarian, and other civic leaders can help create a favorable atmosphere.

It is essential, therefore, that local groups keep the state fully informed on what they have to offer. Even more important, the locality itself must know what it has to offer—and it must be prepared to display its wares in a detailed and business-like manner. In other words, the final job of selling is left, as it should be, to the community.

What can the community do to prepare for this, the most critical phase of the industrial-development operation?

The first requirement, of course is organization. If a town is just initiating its development program, it would do well to study what other communitieh have done and adopt those practices which seem suited to the local aims and objectives.

Once the organization is established—and it can be a chamber of commerce, development group, etc. — the first need is to determine what your community has to offer an industry.

Ask yourselves these quest... Is there an adequate labor ...ply? Are there good empl... employee relations in existin... dustries? Are tax rates equita... Are Tax assessments fair?

HIGHWAY 17 EAST — PHONE 9831 — KENORA, ONT.

WHERE CARS ARE ALWAYS SOLD FOR LESS

"TWO-FIVE" is coming to KENORA

JUNE 7th

Two-letter, five numeral telephone numbering will be inaugurated in Kenora on June 7th. Three telephone offices will then use the 2-5 numbering system. These offices will be known as HOmestead - 8 for Kenora, KIngsdale-7 for Keewatin and KIngsdale - 8 for Jaffray-Melick.

Adoption of the 2-5 numbering will be a step toward another big improvement in service - nation-wide Operator Distance Dialing, permitting your long distance calls to go through and come through faster and with greater accuracy.

The new plan, to be completed June 7th, will standardize and enlarge the numbering system.

IT'S EASY TO DIAL

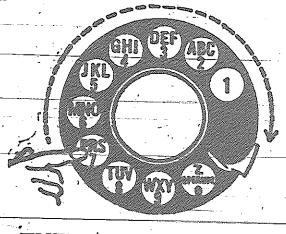
First—

Obtain correct number from directory. If listing is not found — dial "113".

Second—

Hold the receiver to your ear and listen. You should hear the dial tone before you dial. This is a steady humming sound.

TO DIAL NUMERAL OR LETTER



THEN REMOVE FINGER

HOW TO DIAL 2-5 NUMBERS

These Telephone Numbers Consist of . . .

(a) A prefix — an office name and a numeral, like HOmestead 8.

(b) The subscriber number — four more numerals, like 7951.

To dial the number HOmestead 8-7951, you dial HO 8-7951 . . . like this:

1 Lift the receiver — wait for the steady humm-m-m of the dial tone — then

First dial the letter

H . . .

then the letter

0 . . .

not the numeral "0"

then the numeral

8 . . .

then the numeral

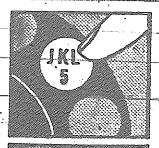
7 . . .

then the numeral

9 . . .

then the numeral

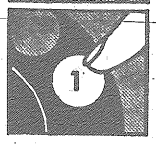
5 . . .



then the numeral

1 . . .

not the letter "I"



It's as easy as that.

If you give this number to the operator, or repeat it to a friend, the easy way to say it is to break it up like this:

"HOmestead eight . . seven-nine . . five-one" This is the best way to say it — to understand it — to remember it.

NOTE: THE NEW KENORA - KEEWATIN - JAFFRAY-MELICK DIRECTORY WILL GO INTO EFFECT ON JUNE 7th. DO NOT USE IT BEFORE THAT DATE.

KENORA TELEPHONE SYSTEM

AFRAID TO TRY DRIVING TEST

DENVER . . — A 17-year - old girl charged with driving without an operator's licence appeared before Judge Gerald McAuliffe Tuesday.

Asked for an explanation, Carol Cooper replied:

"I didn't think I could drive well enough to get one."

The judge suspended $15 of the girl's $40 fine and suggested she try.

WOMAN SHAVED TWICE A DAY

TORONTO . . — A 26-year-old woman told York County Court Monday she lost her job because of publicity about her shaving twice a day

Evelyn Foreman, who sued Ethel Lafontaine for alleged failure of hair removal treatments, withdrew the case after an out-of-court settlement.

Before Judge Frank Denton dismissed the jury, Miss Lafontaine of the Egyptian Studios of Hair Removing insisted on demonstrating how ancient Egyptians removed facial hair with a rolled thread.

She demonstrated on Miss Foremen who commented: "Your Honor, I could get the same results with a pair of tweezers."

Earlier Miss Foreman said she sometimes had to shave twice a day after taking a series of hair removing treatments costing $70.

Miss Lafontaine said if Miss Foreman continued her treatments, she would have lost all the hair on her face and her skin would have become "transparent like a child's."

JUST SAILORS' ROLLING GAIT

TORONTO . . — Police testified Tuesday that Clifford Nesbitt [illegible] old mechanic charged [illegible] impaired driving, "staggered" during a co-ordination test.

Nesbitt denied it. "I'm an ex-sailor. That's my swagger left over from naval days. I can't help it."

Magistrate Donald Graham dismissed the case.

INTREPID COP SUBDUES COONSKIN HAT

NEW YORK . . — Police received a telephone call from an alarmed woman who reported a wild animal was loose in the Bronx.

A patrolman, dispatched to investigate, spotted a furry shape on the porch of a house.

He clapped a big bucket over the furry thing and weighted it down with rocks.

Then he summoned police reinforcements and an agent of the American Society for the Prevention of Cruelty to Animals.

As the ASPCA agent stood ready with a noose, the bucket was whisked away and the wild beast revealed.

It was a Davy Crockett hat.

SENSITIVE UNDERTAKERS

BOURNEMOUTH, England - What's the greatest compliment you can pay an undertaker?

Tell him he doesn't look like one, D. S. Scott, president of the National Association of Funeral Directors, said Tuesday.

Scott, addressing the group's annual conference, said most people no longer looked on the undertaker as "a kind of Dickens character who remained in the shadows and avoided normal contact with ordinary life."

But, he said, some persons "still expect us to look odd sort of persons, and I appeal to you to use every endeavor to overcome this impression."

"Remember always," Scott added, "That we can only achieve real success by doing what some people think a common job uncommonly well."

WEATHER MAN BRIEFS OWNER OF SMALL CAR

GRAND RAPIDS, Mich. — Sometimes the questions are as unpredictable as the weather for United States meteorologist Fred Baughman of Grand Rapids.

A private pilot called Monday and asked for the weather conditions for a flight to Pellston, Mich., 200 miles to the north. Baughman supplied visibility, ceiling and upper level winds.

"Thanks," said the caller. "And what about surface winds?"

Baughman said they would be southerly 15 to 20 miles an hour.

"Real fine," was the reply. "I like those tailwinds because they save me gasoline and help speed me along in my little foreign car."

TEENERS SIGN WITH DISNEY

LOS ANGELES
Three teen-aged rock 'n' roll singers got court approval of their contracts with Walt Disney Productions Tuesday after the judge noted:

"Rock 'n' roll is selling, and there's no law against making money."

But, Judge John Gee Clark warned, "Save your money because you may need it some day."

The three singers are Annette Funicello 16, Tommy Kirk, 17, and Robert Shore, 16.

QUICK CANADIAN QUIZ

1. Canada's highest peaks are in what mountain range?
2. What is the origin of the nickname Jack Canuck?
3. In 1958 which of these products gave Canadian farmers the most cash income: wheat, cattle, hogs, or poultry?
4. What is the comparison of population totals of Canada and the United States?
5. Is Canada's universal old-age pension fully paid for by the special two per cent old-age pension taxes?

ANSWERS: 5. No, the pension fund runs short by $100-to-$150 million a year. 3. 1958. estimates are: cattle, $607 million; wheat, $415 million; hogs, $312 million; poultry, $195 million. 1. In the Yukon's St. Elias mountain range. 4. Canada, 17,241,000; the U.S. about 172,000,000. 2. It probably comes from the name Connaught, the nickname given more than 100 years ago by French-Canadians to Canadians of Irish origin.

(Material prepared by the editors of Quick Canadian Facts, the pocket annual of facts about Canada.)

A man was known for his inability to think of anything to say to women. His friends were amazed when, the morning after meeting a strange girl at a dance, it was announced that he had become engaged. One of them asked how it happened.

"Well," said the tongue-tied man, "I danced with her three times and couldn't think of anything else to say."

TV CHILDREN TO ASK— NOT DEMAND

LONDON (Reuters) — British parents were given good news

Such plugs as 'Ask Mommy to buy" and "Ask Daddy to get" will be banned from television ads aimed at the children.

And youngsters appearing in ads will be expected to display good manners.

When the TV children want something, they will be expected to ask for it, not demand. When they are shown eating, they will be required to do so properly.

The rules were sent out by the Independent Television Companies Association to advertisers and advertising agencies.

An accompanying letter noted that children are influenced by what they see on TV and added:

It has been suggested they might be set a better example."

Spring Waterfowl Breeding Count On Lake Of Woods

The Department of Lands and Forests at Kenora announces that for the past three years a waterfowl breeding count has been carried out on the Lake of the Woods to determine the species and number of ducks that use the area each year for breeding purposes.

The study area, 75 miles in length, commences at a point near Hay Island and terminates at Turtle Portage on the south side of the Aulneau Peninsula.

The census was carried out this year on May 16, 17 and 18 from a slow moving boat and all waterfowl observed were recorded as to species and sex, particular attention being paid as to whether they were in pairs, single or in flocks.

In all a total of 82 ducks were observed with the Ring-necked in greatest abundance and the Goldeneye, Mallard, Mergansers, Scaups, Baldpate and Blue-winged Teal following in that order.

After the hatching period this survey will be followed up with a brood production count to determine the success or failure of the hatch.

Grouse Season Set On A Three Year Basis

Ruffed Grouse, Sharp-tailed Grouse and Spruce Grouse may be hunted, killed or destroyed in the Kenora District from September 15 to November 25, both dates inclusive, in each of the years 1959, 1960 and 1961.

Penner Motors Car Draw Tickets Escape Fire

Penner Motors (Kenora) Ltd. wish to advise all their customers that the draw for the new car will take place as previously announced. Best news of all, concerning the draw, is the fact that the thousands of tickets filled in by motorists for the draw are still intact and were not destroyed by last week's disastrous fire.

By a stroke of luck the barrel containing the stubs was in the front of the building near two new cars. At the height of the fire, the barrel rolled under one of the cars, and escaped the flames.

Date for the car draw will be announced in two week's time, officials stated today.

The monthly draws for the girl's bicycle and the chest of siver will take place as usual on the first Friday of the month, the next draw being June 5th. Tickets submitted for these draws were all destroyed in the fire, so that only those entered since last Friday will of course be eligible.

LUCKY DOLLAR

Another CJRL travelling dollar was placed in circulation this morning at one of the stores with Hawaii on the door. Bearing the serial number JL - 4537631, the bill is redeemable at the radio station for a $5.00 credit note good at any store with Hawaii on the door up until 5.00 p.m. Saturday, May 30th.

Still in circulation and good until 5.00 p.m. Friday is lucky dollar, FL - 046805.

600 Service Lines To Be Installed For Natural Gas

Six hundred service lines will be installed in Kenora this year by Northern Ontario Natural Gas Co. Ltd., it was announced today by D. C. Rowan, sales manager for the company. The work is now under way.

Service lines are the lengths of three-quarter-inch steel pipe which connect gas mains under Kenora streets with customers' premises. Installation operations will be carried out by Campion Pipeline Services Limited.

The most modern equipment - manned by workmen hired from the area - will be employed on the program, to complete the work as quickly as possible with a minimum of inconvenience, said Mr. Rowan.

Underground boring for gas lines will replace open trench excavations, soil conditions permitting, whenever it is necessary to run a service line from a street main laid near the curb to a customer's house on the opposite side of the street.

"Sidewalk superintendents thus can expect to see something of a different nature in pipeline construction this year," said Chief Engineeer Hove of Northern Natural. "Inconveniences experienced last year will be virtually non-existant in 1959. The contractors mainly will be working from lanes and sidewalks to the home - off the street.

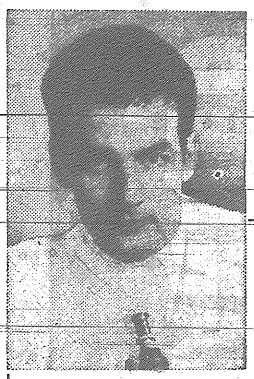
BALDNESS is NOW a MATTER of CHOICE!



AT LAST . . . Science has solved the Case of BALDNESS!

Internationally famed Trichologist, Mr. D. D. GALLOWAY, Head of MAGNA'S Home Treatment Division will conduct individual hair and scalp examinations and analyses and demonstrate MAGNA'S new scientifically developed home treatment methods for improvement of your hair, in strict privacy, for people who care about their appearance. There is no cost or obligation to buy.

ONE DAY ONLY!

FRIDAY, MAY 29
KENRICIA HOTEL - KENORA

Magna's New Treatment Methods Make it Possible to RE GROW YOUR HAIR Right Down to YOUR ORIGINAL YOUTHFUL HAIRLINE!

We, at Magna, have proved to thousands of clients that our methods are genuine and helpful. If you are undergoing the mental anguish and physical embarrassment of balding or even suspect that you are losing your hair, we can definitely help you.

LOSING YOUR HAIR IS A DIRECT RESULT OF POOR HAIR CARE AND HABITS . . . proper, regular hair care is highly essential for a healthy and handsome hair condition. We know from long experience that the average person actually invites the condition that brings about the decay and fall of hair. Dandruff, itchy scalp and irritation are the most prominent initial warning signs.

Your hair is the only part of your body that is able to decay and fall off without causing you pain. Because of this lack of pain, many people do not realize that they are going bald. If they could feel the pain they would seek professional treatment immediately to AVOID HAIR LOSS!

Past experience has proved that over 97% of clients treated respond favourably very quickly to treatment of most causes of baldness. Magna's new home treatment methods can be easily and successfully used by all clients with excellent results - - after a careful clinical analysis of each individual's hair and/or scalp ailment.

Don't miss this opportunity to benefit now! Learn the facts in a private interview and hair and scalp analysis while Mr. Galloway is in Kenora. NO APPOINTMENT IS NECESSARY. EXAMINATION HOURS 10 A.M. - 9 P.M.

RESULTS GUARANTEED!

The pulp and paper industry has been a chief element in Canada's great economic progress.

"Let Me Die With Dignity"

The Ontario Safety League quotes this extract from a column by Kathryn Morris, under the heading "Let Me Die With Dignity".

". . . Almost anyone, whatever his station in life, whatever his education, his religion, or his personal philosophy, will concede a certain attitude of respect toward the newly dead - except on the highway.

After a wreck, all canons of good taste, good conduct, and sense are relaxed, and the mob prevails.

Death on a public thoroughfare provides much the same sort of spectacle as a lynching. I want none of it, for myself, or for anyone I love.

I'D LIKE TO DIE WITH DIGNITY."

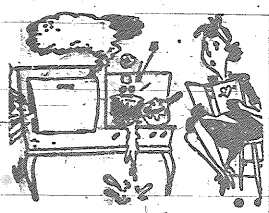
TEACHERS BY DAY, PUPILS BY NIGHT

One night a week for the past 24 weeks, some 200 teachers in North York, Ont. have been learning how the student half of the world lives. They have become students again and follow a course of advanced training in general educational procedures. Forty-seven of them are taking a strenuous physical education course, twirling hula hoops and skipping ropes, above. The course, which corresponds to summer school courses, concludes with exams which the teachers must pass if they wish to receive a higher teaching standing and corresponding increase in salary.



KITCHEN CLASSICS

A TANTALIZING TEAM

Here's a menu suggestion that is specially tailored to parties, showers and trousseau teas. It's a deliciously different treat to highlight the gaiety of the occasion and designed to bring compliments to the hostess. Two favorite and flavorful foods . . . cheese and bacon . . . form a savory combination in this recipe for yeast-raised, Cheese and Bacon Rolls. And you will find that they look every bit as tempting as they taste.

The inclusion of mashed potato and ripe olives adds to both the flavor and the texture of the rolls. For the hostess planning a late supper menu we suggest these rolls be accompanied by deviled eggs or seafood salad. Try serving them to the habitual breakfast skipper too, and watch how they spark interest in the morning meal.

CHEESE AND BACON ROLLS

Yield—3 dozen rolls

1 cup mashed potato
1½ cups lightly packed shredded old Canadian cheddar cheese
8 strips bacon
1 cup milk
2 tablespoons shortening
1-½ teaspoons salt
2 tablespoons bacon dripping
½ cup lukewarm water
2 teaspoons granulated sugar
2 envelopes active dry yeast
5¾ cups once-sifted all-purpose flour
½ cup chopped ripe olives.

Prepare mashed potato (saving potato water); shred the cheese. Fry bacon strips until crisp, drain and crumble into small chips (save bacon dripping).

Scald milk and ½ cup potato water; stir in shortening, mashed potato, cheese, salt and bacon dripping. Cool to lukewarm.

Meantime, measure lukewarm water into a large bowl; stir in 2 teaspoons sugar. Sprinke with yeast. Let stand 10 minutes, then stir well. Add milk mixture to yeast. Stir in 2 cups of the flour; beat well. Cover with a damp tea towel. Let rise in a warm place, free from draft, until doubled in bulk - about 35 minutes.

Stir down batter; add bacon chips and olives. Mix in remaining 3-¾ cups flour. Turn out dough on floured board or canvas and knead until smooth and elastic. Place in greased bowl. Grease top. Cover. Let rise in a warm place, free from draft, until doubled in bulk - about 50 minutes.

Punch down dough. Turn out on a lightly-floured board or canvas and knead until smooth. Divide dough into 3 equal portions. Shape each portion into a roll 12 inches long; cut each roll into 12 equal pieces and shape into smooth balls. Place in greased muffin cups or well apart on greased cookie sheets. Grease tops. Cover. Let rise in a warm place, free from draft, until doubled in bulk - about 30 minutes. Bake in moderately hot oven (375 deg. F.) 15 to 18 minutes.

Every minute throughout the year Canada produces 20 tons of pulp and paper.
