MAJ.-GENERAL MEGILL

INSPECTS REGIMENT AND CADET CORPS

Highlighting a year of training by the officers and men of the 40th Medium Regiment RCA (M) Kenora, was the annual inspection parade held last night at the Armoury drill hall, with Lt. Col. R. Campbell Commanding Officer of the regiment in charge.

Major-General William J. Megill, DSO, CD, General Officer Commanding, Prairie Command and his party carried out the inspection.

In addressing the officers and men of the regiment, Maj. Gen. Megill stressed the fact that the army and reserve were not losing their identity, but were simply adding a new role which would be given top priority in training programs.

"Unlike times in the past", he continued", when war broke out, there was ample time to build an army; present day thinking is that we must have trained personnel ready to serve for national survival on a moment's notice."

Following the salute, the General and his party inspected the staff recruits class and observed normal training routine on the new FN rifle and the 105 Howitzer. R.S.M. J. Calder presented a trophy to Gnr. Quinton G. R., who was named the best all round gunner

After dismissal, the party visited the officers' and Sergeant's mess for informal meetings with personnel.

Prior to the general inspection of the regiment, Major-General Megill with Aide-de-Camp, Captain P. Nixon and Captain W. A. Gabriel inspected the local cadet corps, with Captain F. Sewell local officer in charge of the cadets.

J. H. Holland, President of the United Services Institute, spoke to the Cadet Corps, making them conversant with the rules for presentation of the trophy which is presented annually to the most outstanding cadet. Mr. Holland stated that since the corps had only been functioning for four months, presentations would be made after a year's training.

Earlier the General and his party were entertained by officers of the 40th Medium Regiment, at dinner at the Chalet. Mayor P. Ratuski on behalf of the town, welcomed the General and his party in a short ceremony at the armouries.

LUCKY DOLLAR

For the past three days, the CJRL travelling dollars, have had themselves a real journey and from latest reports, they are still travelling. No one has turned in a lucky dollar at the radio station to claim the $5.00 Credit Notes good at any store with Hawaii on the door.

Another travelling dollar was put in circulation this morning and the lucky number is EL - 1532148. This dollar is redeemable for a $5.00 credit up until 5.00 p.m. Monday, June 1st.

Still in circulation and good until 5.00 p.m. Saturday is lucky dollar JL - 4537631.

Provincial Park Season Opens In District

In the course of early spring inspections at Department of Lands and Forests Provincial Parks more than one hardy soul was discovered rushing the camping season. In one case bear hunters were the eager beavers, and in the others, fishermen.

Twin Lakes Park 28 miles east of Kenora on Highway 17 at the C.P.R. subway, is being turned back to the Department of Highways for use as a picnic ground.

Entrance stickers and campers' permits are now being sold at Sioux Narrows Park and Blue Lake Park. When improvements to the septic tank and field at Rushing River Park have been completed within the next few days so that the Comfort Station can be opened for operations, charges can then be collected at that popular park.

Charges at Aaron Park are being deferred pending the installation of a water pressure sysetm.

Dams In Process Of Construction On Lake Of Woods

The Ontario Department of Public Works at the request of the Department of Lands and Forests began the construction last summer of a dam at the outlet of Dogpaw Lake where it empties into Regina Bay, Lake of the Woods, in the Sioux Narrows area.

The purpose of the dam is to regulate the flow of water on that watershed. Completion is scheduled for this summer.

Another dam at the outlet of Longbow Lake into Lake of the Woods is just getting underway by the Department of Public Works on the recommendation of the Department of Lands and Forests.

Of concrete construction, the Longbow Lake dam will have an overall length of 78 feet and contain one sluice gate. The decking on the dam will serve as a roadway across the stream thus giving access to a summer cottage subdivision being established beyond it on the shores of Lake of the Woods.

A novel feature of the structure will be a roller portage passing through the dam under the roadway to permit the easy movement of boats back and forth between the two bodies of water without interference to vehicular traffic crossing over the dam.

It is scheduled for completion this year.

OPP DIVER TO ASSIST

SEARCH CONTINUES FOR 2 MISSING AMERICANS

The search continues today for two Americans missing since Sunday in the Sioux Narrows area.

A party left this morning for Teggau Lake 40 miles east of Sioux Narrows where a battered canoe, a part of an aircraft pontoon and an aircraft door were discovered earlier this week.

An oil slick on the water in the lake has given searchers a vague idea of where to look for the plane flown by the two Americans Maurice Merickel and Sylvester Niesses both of Minnesota.

Corporal Wilson an Ontario Provincial Police diver from the Lakehead, will go down in the water at the spot where the oil was discovered to make an examination of the lake floor.

Aiding in the search this morning, is an RCAF Otter from the search and rescue unit at Winnipeg. Also on the scene to make an investigation is a man from the Department of Transport.

No further news was received at press time.

Kenora Delegates Attend Children's Aid Convention

The annual convention of the Ontario Association of Children's Aid Societies which was recently held at Toronto broke all records for attendance, with 500 delegates from all parts of the province present. Kenora representatives, Mrs. Joseph Roy for the board of directors and Mr. W. J. P. Thompson on behalf of the staff, found inspiration in so large and enthusiastic a delegation.

"A jack-of-all-trades" was the decrition which Dr. Elizabeth Govan, professor in the school of Social Work, U. of T., gave of the field worker, as she keynoted the convention in an interesting speech. She stressed the need for resourcefulness on the part of the social worker. Dr. Govan asked that the rights of children and the rights of parents be ever borne in mind, warning of the shock incurred when a child is taken from his home. When removal is necessary she pleaded for a search for the best foster homes possibe.

The delegates discussed and had clarified for them the regulation governing adequate medical care for children, particularly with regard to administration of blood transfusions. Under the "neglect" clause of the Child Welfare Act the Children's Aid Society is authorized to get temporary wardship of a child when

(Continued on Page 10)

Magistrate's Court

Magistrate J. V. Fregeau dealt with a heavy docket at court this morning, hearing twenty-seven cases, seventeen of which dealt with liquor infractions and the remaining ten with vagrancy.

Liquor infractions included a local man charged with supplying liquor to an Indian. He was fined $50 and costs. A man from southern Ontario paid $150 and costs for resisting an officer. Other cases dealt with first and second offence drunks and having liquor at a place other than a residence, with Keewatin police laying seven of the charges.

Men from the Maritimes, Quebec and Ontario appearing on vagrancy charges were each given twenty-four hours to leave town while those guilty of trespassing on the CPR were fined $10 and costs.

TCA GETS LOW SUMMER RATES

Montreal — Trans-Canada Air Lines has introduced new low summer excursion rates to the Caribbean.

Applicable from June 1 to December 15, they reduce tourist tariffs by as much as 15 per cent and are good to all Caribbean centres served by TCA . Antigua, Barbados, Kingston, Montego Bay, Nassau and Port-of-Spain.

Conditions of the excursion fare require the use of TCA local service and the completion of the journey within 30 days of departure date, with a seven-day extension where necessary. Children's discounts do not apply to excursion fares. They will still pay one half of the regular fare if under 12.

Letter To The Editor

May 25, 1959

Dear Mr. Editor:

In your paper of May 19, 1959, there was an article on dredging of the Laurenson's Creek. I am sure it is of interest to local residents, and to quite a number of people from out of town as well, it will be a big improvement. There is also another point of interest that should be mentioned at this time, that is we have our very capable Liberal Member of Parliament, Bill Bendickson, to thank for his untiring efforts in progressing this project. Thank you Bill.

Yours truly,
A Boat Owner

Since World War II, $1½ billion has been invested in the pulp and paper industry.

KITCHEN CLASSICS

THE SCANDINAVIAN INFLUENCE

Most of our most intriguing recipes have their origin in faraway lands. Not so many years ago, only the lucky few who travelled abroad could enjoy the pleasures of an international cuisine. But now that foreign restaurants are becoming so much a part of the Canadian scene, people from coast to coast have cultivated a taste for dishes with a foreign flair. Many homemakers are anxious to try their skill in making these dishes. And there's no doubt about it, specialities like Swedish Limpa, add a certain fascination to meals.

Swedish Limpa is a slightly sweet, rye-flour loaf with an attractive, deep brown crust. The lunchbox sandwich becomes an adventure in eating when Limpa is used. Try toasting it for breakfast too. The enticingly different flavor is the unique result of combining orange rind, caraway seeds and brown sugar with the rye flour.

SWEDISH LIMPA

Yield—2 loaves

1 1/2 cups water
3/4 cup lightly-packed brown sugar
1 tablespoon caraway seeds
2 teaspoons grated orange rind
2 tablespoons shortening
2 1/2 teaspoons salt
1/2 cup lukewarm water
1 teaspoon granulated sugar
1 envelope active dry yeast
2 1/2 cups (about) once-sifted all-purpose flour
2 1/2 cups once-sifted rye flour

Combine in a saucepan the 1 1/2 cups water, brown sugar, caraway seeds, orange rind, shortening and salt; bring to the boil and simmer 3 minutes. Cool to lukewarm.

Meantime, measure lukewarm water into a large bowl; stir in the 1 teaspoon sugar. Sprinkle with yeast. Let stand 10 minutes, then stir well. Stir in lukewarm caraway seed mixture and 2 1/2 cups all-purpose flour; beat until smooth and elastic. Stir in rye flour and work in sufficient additional all-purpose flour to make a rather stiff dough. Turn out on floured board or canvas and knead until smooth and elastic. Place in a greased bowl. Grease top. Cover. Let rise in a warm place, free from draft, until doubled in bulk - about 1 1/4 hours.

Punch down dough. Turn out on lightly-floured board or canvas and knead until smooth. Divide dough into 2 equal portions. Shape each portion into a smooth loaf about 10 inches long. Place on greased cookie sheets. Make several shallow diagonal slashes in the top of each loaf. Grease tops. Cover. Let rise in a warm place, free from draft, until doubled in bulk - about 45 minutes. Bake in a moderately hot oven (375 deg. F.) 30 to 35 minutes.

KEEWATIN NEWS

Mrs. Kember

The Woman's Missionary Society of Keewatin United Church met on Tuesday afternoon May 19th at the home of Mrs. Frank Burton with the vice president, Mrs. James Waterson, presiding.

A guest at the meeting was Mrs. Shynkar, who with her husband was on her way to Sandy Lake, where Mr. Shynkar is in charge of mission work among the Indians.

Plans were made for the annual W.M.S. tea, to be held at the Manse on Friday afternoon, June 12th.

Children need more sleep than adults. From one to two years, fourteen hours is necessary; from two to three, about thirteen hours; this can be decreased to an average of eleven hours for those from four to six.

Modern forest administration aims to obtain wood from the forests in perpetuity.

DEPT. OF LANDS AND FORESTS PLANS FORESTS FOR THE FUTURE

Each year the Department of Lands and Forests at Kenora spends a great deal of money planting trees and in recent years, on other methods of obtaining a new forest such as spot seeding, slash scattering and soil scarification. Much of the value of this work is lost unless there is a consistent follow-up program to assess results and thus help field staff to know which method for obtaining a new forest is most effective, most reasonable in cost and most easily performed.

For this reason a crew is now at work checking results of former planting and regeneration projects; their findings will largely determine the trend of future projects.

Another field party is surveying proposed timber sales for the coming year. It is our policy to govern the volume and location of timber sales by the age and condition of the timber, market demands and by the growth capacity of our forests.

Dryden Nursery Establishment

The Department of Lands and Forests is in the process of developing a new Forest Tree Nursery in the Kenora District of Northwestern Ontario.

This nursery is being located on the east side of Thunder Lake approximately 15 miles east of the town of Dryden in Zealand Township.

A Nursery Headquarters will be developed on the site including suitable buildings to provide office, shipping, maintenance and storage facilities as required for the production of nursery stock.

In developing this site for the production of seedling trees, the and will be divided into three acre compartments. These compartments will be cleared of trees stumps, etc. and cultivated. Belts of trees will be left between compartments to act as windbreaks. The soil of the area, a medium to fine sand, is generally well suited for nursery work. Some parts will be improved to an optimum level of fertility for the production of trees by the addition of locally collected acid peat and a regulated program of fertilization.

The trees to be grown in this nursery will be used for reforestation work in this part of Ontario, and will include species common to the area such as White, Red and Jack Pine and White and Black Spruce. Large areas of land, west of the Great Lakes, suitable for the production of forest crops will require additional stocking with seedling trees. This work can best be carried out by using stock produced in the area, without the necessity of bringing in stock from more southerly nurseries.

The nursery has a potential capacity of 10 million trees annually. It is expected that this production will meet the nursery stock requirements of northwestern Ontario for many years to come.

It is expected that some seedbeds will be ready for sowing in the fall of 1959 and nursery stock ready to plant out will be available for shipping within two to four years' time depending upon the species.

Blasting Caps Dangerous In Children's Hands

Few places are more dangerous playgrounds for children than construction sites. That's the advice of police and fire department representatives who have taken time out to visit schools to promote safe play habits.

Children can pick up a handful of trouble at building project sites. Take blasting caps for instance. Blasting caps are essential tools in much construction work but when mishandled by children, who could mistake them for firecrackers or empty rifle cartridges, these innocent-looking cylinders can cause serious injuries.

Officials advise children to stay away from places where building is going on—an organized playground has much safer fun to offer. However, if a stray blasting cap should be found, children are told to keep "hands off".

There are two main types of blasting caps: non-electrical for use with safety fuse, and those set off electrically.

The type for use with safety fuse is about 1½ inches long and about the thickness of a pencil. It has one open end and is made of aluminum.

Electric blasting cap shells are made of either copper or aluminum and may vary from one to five inches in length. They have two colored wires attached.

Open flame, shock, friction, undue heat or rough handling cause detonation of these caps. The police or some other authority who can dispose of the blasting cap safely should be notified immediately one is found.

Albert Wren Says:

This is a message to you from the Liberal Labour Association. It's not long but it is important. Would you go on a long trip - - say for five years - - without planning it. Would you build a house without a plan - - would you buy a car without knowing what performance you can expect.

Probably not. Then why vote without knowing clearly what the parties are planning. The Ontario Liberal party has published a sixteen point platform which you should read and learn what changes we plan and offer to the electorate. Every item has been thoroughly thought out and each is solidly practical.

Don't take our word for it. Don't take any other person's word. MAKE UP YOUR OWN MIND. You will get a copy in the mail within a few days or you can pick up a copy at our Committee room at the Legion Hall.

YOU READ IT - YOU STUDY IT -
YOU MAKE UP YOUR OWN MIND
THEN VOTE LIBERAL LABOUR, ALBERT WREN,
ON JUNE 11th

Around Town

Mr. and Mrs. Morris Green and daughter Lois arrived from Saskatoon today to spend some time with his parents, Mr. and Mrs. Magnus Green, prior to Mr. Green assuming his duties as minister at Lac du Bonnet where he will serve the Lutheran church. Mr. Green will be ordained into the ministry on Sunday at Bethesda Lutheran church.

Miss Denoris Green, R.N. of University Hospital, Saskatoon is visiting her parents, Mr. and Mrs. Magnus Green. She will attend the Service of Ordination for her brother, Morris on Sunday.

Derek Hulmes, son of Mr. and Mrs. A. Hulmes will be guest of honor today at a birthday party to mark his 10th birthday. Some sixteen youngsters will gather at his home for the traditional birthday party.

Derek's birthday is really a double anniversary, since it is just one year ago that he arrived in Canada with his parents, aboard the Empress of Britain.

Derek states that he likes Kenora very much and is really enjoying his new home.

CARD OF THANKS

We wish to extend our sincere thanks and appreciation for the acts of kindness and messages of sympathy received from our kind neighbours and friends during our recent bereavement in the loss of our brother. We would especially thank all those who made donations to the Canadian Cancer Fund in his memory.

The Galloway family.

CARD OF THANKS

We wish to extend our heartfelt thanks to all our friends, neighbours and relatives for their beautiful floral tributes, cards and messages of sympathy and loan of cars during our recent bereavement.

Special thanks to Dr. Davidson, the Brown Funeral Home and pallbearers.

Lawrence and Leonard Lajeuness

IN MEMORIAM

ROBINSON — In loving memory of my dear husband, Edward Robinson, who passed away May 29th, 1958.

Gone is the face I loved so dear,
Silent is the voice I loved to hear;
Too far away for sight or speech
But not to far away for thought to reach,
Sweet to remember him who once was here,
And who, though absent, is just as dear,

Ever remembered by his loving wife, Mary.

IN MEMORIAM

ROBINSON — In loving memory of my dear dad, Edward Robinson who passed away May 29th, 1958.

He had a cheery smile, a pleasant way
A helping hand in all he knew;
He was so kind, so generous and true
On earth he nobly did his best,
Grant him, Jesus, heavenly rest.

Ever remembered by his loving son Travis, and daughter-in-law Pat.

When staying at the summer cottage, it is wise to know that in case of fire, the family could escape safely. Furniture in rooms should be arranged so that there is no obstruction. Valuables should be kept in a safe but handy place so that they can be picked up quickly. A fire extinguisher and several large packages of baking soda should be kept near stoves to be thrown on flames.

CALL GENDARMES IT'S FEROCIOUS

New York—Police received a telephone call from an alarmed woman who reported a wild animal was loose in the Bronx.

A patrolman, dispatched to investigate, spotted a furry shape. He clapped a big bucket over the furry thing and weighed it down with rocks.

Then he summoned police reinforcements and an agent of the Society for the Prevention of Cruelty to Animals.

As the SPCA agent stood ready with a noose, the bucket was whisked off.

It was a Davy Crockett hat.

it's a FACT

The art of assaying—determining the kind and amount of metal present in ore—is not new. As long ago as 500 B.C., the Lydians determined the amount of gold in jewelry or an alloy by rubbing it on a black stone—the "touchstone." The resulting mark was then compared with one made by a "touch needle" containing a known amount of gold.

"READ THE MINER AND NEWS CLASSIFIED ADS"

TO ALL BOAT OWNERS AND OPERATORS ON LAKE OF THE WOODS

At this time of the summer season when numerous gas boats and pleasure craft are operating and company tug boats and pleasure craft are operating and company tug your co-operation in our endeavour to keep the lake clear of floating pulpwood, logs and dead heads. When gas boats run too close to a tow of pulp or logs, the swell has a tendency to wash out some of the pulp and logs, and it is for this reason that we ask you to:

(1) When passing a tow, either being towed by tugs or in storage, keep at least 100 feet from boom. When it is not possible to do this, if in narrows, slow down till past the tow or boom.

(2) When following a tow of pulp or logs, watch for any stray logs or pulpwood sticks which may have worked out from rear of tow.

If these precautions are observed by all boat owners, it will keep the lake free from floaters and will help eliminate damage to small craft.

FIVE ROSES

"CANADA'S MOST RESPECTED NAME IN BAKING"

Small Boy Rescued From Jaws of Bear

Grand Rapids, Mich. — A 3-year-old boy was rescued from the jaws of a 250-pound bear at the City Zoo by a teen-ager who jammed a glowing cigarette against the beast's nose.

The anmal released its grip on the hand of Russell VanDam.

The boy had crawled under a guard rail and thrust his hand through a two-inch mesh screen into the bear's cage.

Thomas Cole, 19, heard the boy's mother, Mrs. Melvin J. VanDam, scream. He rushed to the cage and found her trying to pull her son's hand free. Cole reached through the screen and burned the bear's tender nose.

Buzz of Razor Puts Edge on Recording

Keansburg, N.J.— —Councilman Louis Collichio brought his tape recorder to the town meeting again Tuesday night.

He's been using his tape recordings for a weekly newspaper column.

As usual Mayor James Gravany and Councilman Martin Lohsen asked Collichio to turn the machine off. They've claimed the recordings can be edited to give a distorted picture.

Collichio kept the machine on. So Lohsen turned on an electric razor and held it by the microphone to drown out other sounds of the meeting. When the session adjourned, he used the razor to shave.

PELVIC CHECKUPS URGED

Uterine cancer is the second most common form of cancer in women. But the site is accessible for early detection and treatment, according to the American Cancer Society. A periodic pelvic checkup including a simple cell examination, guarantees a high rate of cure.

American (but not British) visitors can buy a special pass for $3.50 which allows them unlimited travel on all subways, busses and trolley-busses in London and suburbs.

P. C. Candidate Tours District

Howard Keffer Progressive Conservative candidate for the Kenora district in company with his campaign manager Bill Johnson, has just completed the first half of his campaign which covered many hundreds of miles. Both men stated today that they predict a terrific swing to the Progressive Conservatives on June 11th.

Mr. Johnson stated, that many Liberals have been attending the meetings through the riding just as they did in Kenora to hear Premier Leslie Frost, and they are expressing their views that we need representation with the government in Toronto.

Howard Keffer and Bill Johnson left Kenora on May 19th and have held meetings at Vermilion Bay, Quibel, Red Lake Road and Red Lake as well as making calls at Madsen, Cochenour Willan, Campbell Red Lake and the new Dickenson Mine.

Mr. Keffer said that the general thought expressed by many people of the riding was that our district has not had the representation in Toronto that we should have had, and our problems have been expressed very badly and irresponsibly during the campaign. He went on to say that people wanted the most effective representation at all times and not only at election time.

Mr. Keffer and Mr. Johnson returned to Keewatin for the meeting with the Hon. Macaulay where an overflow crowd turned out to hear this able speaker. The same afternoon they attended a coffee hour at Vermilion Bay. On May 22nd they attended a meeting in Dryden and from there held meetings at Vermilion Bay, Eagle River, Cxdrift and Waldolf.

PUBLIC NOTICE

TAKE NOTICE that the Municipal Council of The Corporation of the Town of Kenora will take into consideration the passing, and if approved, will pass at its meeting to be held on Monday the 22nd day of June, 1959 at the hour of 8.00 o'clock in the evening, Daylight Saving Time at the Council Chambers in the Town of Kenora, a By-law for Stopping Up a Lane Allowance lying between the Kenora General Hospital property and Bishopstowe on Tunnel Island in the Town of Kenora, which lane allowance may be more particularly defined as follows:

Being that parcel of land comprising a lane allowance which runs easterly from Sylvan Street to the Lake of the Woods, a distance of 266 feet more or less and which lies between Lot 27, Plan M 18 of record at the Land Titles Office at Kenora, Ontario and that part of the Government Reserve on Tunnel Island originally recorded in the said Land Titles Office as Parcel 2969 and subsequently re-entered with other lands as Parcel 10133,

for the purpose of transferring the said hereinbefore mentioned land to the Kenora General Hospital.

AND THAT the said Council will at the aforementioned time and place hear in person or by his Counsel, Solicitor or Agent, any person who claims that his land will be prejudicially affected by the By-law, and who applies to be heard.

Dated this 14th day of May, 1959.

F. J. Hooper,
Town Clerk.

Motorist Cannot Assume Or Assert Right-Of-Way

There is no such thing as an absolute right-of-way on the road, warns the Ontario Safety League. But there is always an indisputable right-way.

Ontario law says that in certain circumstances a driver must yield the right-of-way. It does not say that a motorist can ever assume or assert an unchallengable right-of-way.

If a driver sees another car approaching at an intersection that looks as though it is not going to yield the right-of-way as it should, there is only one "Right way' for the first man: Slow down and be prepared to yield to the oncoming car, if it becomes necessary to prevent a collision.

"What! Let the so-and-so get away with it!? Am I supposed to back up every time a road-hog feels like cutting in on me?" is the typical, and understandable reaction.

Yes, let him "get away with it . . . for your own sake, if nothing else, because everybody loses in an accident. The other man may be a new driver, not knowing any better. He may be sick, or in love, or drunk, or deranged, or half-blind with anger or humiliation. Whatever the reason, you have nothing to gain by bluffing it out with him, still less by crashing it out.

Should the road hogs ALWAYS be allowed to "get away with it"? Yes . . . by other drivers! . . . No . . . by Society. That is a job for the police, and licencing authorities.

Whatever the legal responsibility rests squarely on each and every driver involved who failed to take reasonable precautions to prevent the accident.

The paper mills have contributed very largely to hydro-electric power development.
