## Late Gavin Millar To Be Buried From Knox United Church

Funeral services for the late Gavin Trimble Millar, will be held at Knox United Church at 2 p.m .Wednesday, June 3rd, instead of in the Brown Funeral Home as originally announced. Rev. R. J. Leighton will officiate and interment will be in the family plot, Lake of the Woods Cemetery.

Pallbearers will be: Bill Burris, Brian Murkin, Larry Fedus, Don Fedus, Bob Bond and Larry Johnson.

## R. J. Scott Of Jaffray-Melick Died Suddenly

Reginald James Scott, Jaffray Melick Township, R.R1, Kenora, died suddenly at his late residence Monday evening. Born in Bloomington, Wisconsin, July 16, 1913, he was in his 46th year.

He attended public school in Hazelridge Manitoba and High School in Bagley, Wisconsin. He farmed in Carman, Manitoba before coming to Kenora in 1942. He was employed as an electrical worker for the Ontario Minnesota Pulp and Paper Company for the past 17 years. He was a member of the Canadian Order of Foresters and the Electrical Workers Union.

He is survived by his widow, the former Alma R. Mitchell; three sons, Dale of Kenora, Dennis and Gerald at home; three daughters, Linda, Joan and Wilma, at home; three brothers, Lyle of Sarona, Wisconsin, Merle of Anola, Man. and Guy of Denver, Colorado, two sisters, Mrs. Hazel Yahvah of Denver and Sister Magdaline St. James of St. Paul, Minn.

Funeral services will be held in the Chapel of the Brown Funeral Home, Thursday afternoon, June 4th at two o'clock. Rev. Vernon Olson will officiate and interment will be in the Lake of the Woods Cemetery.

## Mayor J. L. Skillen Re-Elected Head Of NODA For 1959

Mayor J. L. Skillen of Dryden was re-elected chairman of Zone Two Committee of the Northwestern Ontario Development Association at a meeting of members at Keewatin. Mayor Walter Hodkinson was named vice-chairman.

Chairman Skillen has been identified with the development association since its organization and is its current first vice-president. He and Mayor Hodkinson will represent the zone on the association board of directors. William Fuller of Sioux Lookout, past president of the Northwestern Ontario Associated Chambers of Commerce also is a director.

Attending the annual zone meeting was Alexander Phillips, association manager, who reported at length on the sessions of the new Northern Ontario Economic Development Committee recently held at the Canadian Lakehead.

Zone Four of the association embracing the area from Port Arthur east, also has organized for the ensuing year. Alderman Jack Stitt of Port Arthur will head the committee as chairman and Reeve George O'Neill of Nipigon vice-chairman.

## Miner And News Completes Printing Of 3 Publications

Three major publications have recently been delivered by the printing department of the Miner and News.

Monday, the 1958-59 edition of the High School Year Book went on sale at the school. This 112 page book, boasts a most attractive cover, featuring the Maple leaf in purple on a white background. The plastic coil binding was also done by the Miner and News on the recently purchased plastic binding machine.

K.K.D.H.S. Year Book Editor

GENITA MACKEY

Miss Genita Mackie, grade 13 student and editor of the year book is to be congratulated on an excellent job. This year's edition is a very fine one and covers fully all activities in the school.

Noteworthy is the excellent quality of most of the pictures; an innovation this year was that stereos were cast of all class pictures and grade 13 students etc.

(Continued on Page 4)

## Electrical Workers Elect Officers

At a meeting of the International Brotherhood of Electrical Workers, held Monday night, the following officers were elected:

Pres. - Luke Francis
Vice Pres. - Hugh Kerr
Recording Sec. - Keith Fisher
Financial Sec. - David Harper
Treas. - George Dunford

## DISTRICT SCOUTS HOLD SUCCESSFUL BRONZE ARROWHEAD CAMP

BY GEORGE NOBLE

A successful Bronze Arrowhead Training Camp was held at the Colin Hewitt Memorial Boy Scout Camp, commencing at 7.00 p.m., Friday May 29th and concluding on Sunday, May 31st, at 4.00 p.m. These types of camps are held to instruct the boy leaders of the various Troops as well as all would-be leaders, boys whom the Court of Honour or the Scout Master think are the leaders of tomorrow. Despite the heavy rains of the preceeding week, the camp got underway as scheduled with boys coming from Red Lake, Dryden, Oxdrift and Sioux Narrows as well as local Scouts. All Troops of Kenora-Keewatin District were represented with the exception of Keewatin, but the writer was given to understand that the Keewatin Troop was busy on their own camp, but they sure missed the pleasure of meeting the out-of-town Scouts.

Friday evening saw the 63 boys who were taking the course pitch in and get their respective tents erected and sites cleaned up. Each group kept together as a patrol, so that they were all competing against each other as to the way that they looked after their respective sites. Camp sites were inspected several times during the period of the course, with neatness, cleanliness of cooking and eating utensils and use of camp gadgets being the points on which they all were judged.

After the tents were erected fire places made and the sites cleaned up, a wide game was enjoyed by the boys. Following this a Council Fire was held. Council Fires are the high light of any Scout camp, and consist of a sing-song, skits by the various patrols, a short talk by the Camp Chief and are closed off with the Scout Vesper and prayers. Following this cocoa and cookies were served to the boys and then to bed. Owing to the dampness of the ground, it was found necessary to move the 2nd Kenora boys to higher ground.

Saturday morning saw the boys up early, getting breakfast ready and generally cleaning up. After breakfast dishes were washed and sites inspected, Flag break took place at which prayers were said. Three lectures were given in the morning on the following subjects, 'Necessity of Patrol Spirit', 'How to get Patrol Organization' and 'Patrol in the Troop'. Following the lectures, games were played and then the cooks prepared dinner. After dinner and clean-up, another game was played and then the boys made various camp gad-

(Continued on Page 3)

## Search Continues For Missing Americans

The number of volunteers has been increased in the search for two missing American Sportsmen in the Teggau Lake Area, north of Vermilion Bay.

The Ontario Provincial Police report additional boats will be flown into the lake today to bring the total to ten. Additional clues were found late yesterday which may hold the key to the location of the missing men.

Tuesday an RCAF Otter aircraft and a helicopter left Kenora to continue search operations for two Americans missing since May 24 in bush country about 30 miles south east of here.

Maurice J. Merickel, 56, of Wadena, Minn., and Sylvester Niesses, of Walker, Minn., were expected to fly to Vermilion Bay, but did not arrive. A piece of airplane float and a battered canoe were found in Teggau Lake, about 25 miles from their destination May 25.

The men were flying in a single-engine, float equipped Super Cub. They carried a canoe.

Ray Mathieu, a nephew of Mr. Merickel, inspected the canoe and said it is the one that the plane was carrying.

Two Expediters, that left early Tuesday reported back here for refuelling. They were expected to return to the search area immediately.

## THREE-STOREY FALL ERASES MEMORY

Jack Beemer, 37, a steel rigger from Hamilton, Ont., fell three storeys while working on a construction job April 17. The 35-foot plunge took Mr. Beemer's memory and now he does not recognize his children. He seems to recall his wife but his two little daughters, Sandy, six and Colleen, four, shown above, are strangers. Doctors say recovery will take many month.

# D. B. S. Weekly Highlights

Dominion Bureau of Statistics

**External Trade:**

Commodity imports in April were nearly 20% higher in value than a year earlier at an estimated $535,700,000 and for the four months were 8.5% higher at an estimated $1,777,500,000. Total exports in the month were up by more than 7% at $376,900,000 - incidentally the highest value ever recorded for April but the gain still left the four-month total at $1,462,500,000, slightly lower than last year's.

**Electric Power:**

Total net generating capability of Canada's electric power plants was 13% greater in 1958 than in 1957 and is expected to have a further cumulative increase of about 29% by 1962. Thermal generation is expected to rise in the four years to nearly 23% from 14.6% last year.

**Transportation:**

Railway carloadings showed a gain of over 3% in the second May week, raising the cumulative total slightly to 1% over a year ago. . . Railway operating revenues in March were nearly 9% higher than a year earlier, while operating expenses increased a bit over 2%.

**Merchandising:**

Estimated sales of wholesalers in March were close to 12% higher in value than a year earlier, in the first quarter over 10% higher. Wholesalers of groceries and food specialties topped all the trades in the quarter's gain, eleven others showing increases . . . Number of new motor vehicles sold during March was nearly 19% larger than in March last year, in the first three months was 14% larger. Sales were higher in the month and quarter alike for Canadian and British and European cars.

**Labour:**

Income of paid workers during March amounted to an estimated $1,373.5 million compared to $1,283.2 million last year, over the quarter was 7% greater than in 1958 . . . Claimants for unemployment insurance benefit at the end of April totalled a fifth fewer than at the end of March and 15% fewer than at April 30 last year.

**Food & Agriculture:**

Estimated cash income of Canadian farmers from the sale of farm products and participation payments was 8% higher in 1958 than in 1957. The increase was due mainly to larger returns from livestock and animal products, returns from field crops being virtually unchanged.

## LUCKY DOLLAR

Today's travelling dollar put in circulation this morning is sure to be a lucky one for some one, since the serial number contains two 3's, a 7 and a 9. This lucky dollar numbered LA - 3370985 is redeemable at Radio Station CJRL for a $5.00 Credit Note good at any store with Hawaii on the door, up until 5.00 p.m. Thursday, June 4th.

Still in circulation and good until 5.00 p.m. Wednesday, is lucky dollar - LA - 9666746.

## Albert Wren Says:

At every election the Government hauls out the old fiddle, puts some fresh resin on the bow and plays a tune about Northern Development. Once the election is over it is a tough task to get Departments of Government to work together. "Nothing is ever done about most things," says Clare Mapledoram, the Conservative Member for Fort William. The Fort William Member agrees with Albert Wren that co-ordination of activity is the key to northern development. In short we need a man at the head who will listen to the north at all times, instead of during quick flying trips into the North, flying over highways which the Premier goes back to Toronto and describes "wonderful." The former Liberal Government had a Department of Northern Development which built the first stage of northern development; the Liberal Government will revive that Department and get things done. That is why we support ALBERT WREN.

### JAZZ MODERNIZES RELIGION

Rev. Geoffrey Beaumont of St. George's, Camberwell, in London believes the often sombre Church of England can enhance interest by the introduction of jazz into its worship services. Mr. Beaumont has composed a ballad, the story of the Crucifixion, set to rock 'n' roll music with 1959 lyrics. It may not make the hit parade but it's making an impact in pubs, church halls and jazz clubs. His unique approach to modernizing religion has met with a measure of disapproval but on the whole more praise than censure. His folk mass has been recorded on two long-play discs, which are available in Canada.

## L. F. Williams New Kenora District Road Engineer

Leonard F. Williams, P.Eng., was appointed Municipal Engineer, Kenora District, recently. He has served as assistant district Municipal Engineer, Kenora District since April, 1949. Mr. Williams will have his office at Fort Frances, which now becomes the Kenora District headquarters for the Municipal Roads Branch.

Mr. Williams joined the Department of Northern Development at Sault Ste. Marie, June, 1930, as an Instrument man. He did the same type of work at Fort Frances from June 1931, to June 1934, when he was promoted to maintenance engineer. He held both posts until April, 1949, when he relinquished the duties of maintenance engineer.

## MONTREAL FIRM IS DRILLING FOR GOLD ON GULL ISLAND

Mr. Marshal Pickering and K. H. Wright of Montreal last night advised the Miner and News that Carbec Mines Limited of Montreal are presently doing some exploratory work at the Company's property at Gull Island, 18 miles south of Kenora on the Lake of the Woods.

Mr. Harry Byberg of Kenora has a contract to drill a minimum of 1500 feet and the first hole, to a depth of 75 feet was completed yesterday. The deepest hole planned for the initial test is 350 feet. The property was formerly worked prior to the War and the hopes that showings of gold may be found in the new search was expressed by the visitors.

# Rotary Club Welcomes Two New Members

Two new Rotarians were welcomed into the Kenora Rotary Club on Monday, when W. D. Cockerel, manager of the Toronto-Dominion Bank, and William Whitehead, government Employment Services were inducted in an impressive ceremony, with Past President L. A. Toole as the presiding officer.

President W. H. Marr presided and attendance was 92.86% and last week a 100% meeting. Birthday congratulations were extended to E. L. Carter, and one visiting Rotarian from the United States was given a warm welcome.

A small souvenir, suitably inscribed and packaged, gift of the Ontario Pulp and Paper Company Limited, with a sample of the newsprint product of the three machines, was received, and presented to the club for distribution, and thanks expressed to the Company for the gifts. They will be given to all visiting Rotarians as a reminder of their visit to the Kenora Club. A Ladies' night program will be arranged for the immediate future.

In welcoming and charging the new members, Mr. Toole said this was an important day in the life of the club, in that two well-known citizens had accepted the challenge of Rotary. He hoped they would apply themselves to Rotary and its ideals, which was judged by the conduct of its members at all times.

He outlined the ideals of Rotary as exemplified the world over, and said they must dignify the trade or profession they represented. Rotary sponsored an honest spirit of goodwill and peace to all people, and they must act as ambassadors of Rotary at all times and in all places.

Presentations of emblems, books, the four way test, and ideals of Rotary were made to the new members, who were also welcomed by the presiding officer and assigned to various committees.

## it's a FACT

The snakebird or water turkey, a fisher closely related to the cormorant, gets its name from its long, flexible neck. The head is armed with a daggerlike bill, which it thrusts forward as a snake would strike. With a single thrust it can pierce a fish. If alarmed it can sink noiselessly under water leaving scarcely a ripple and swim for long distances.

## Paper Mill Wastes Will Be . . .

(Continued from Page 4)

suggested is that basic research should be done at the universities . . . However, modern universities appear to be becoming more and more commercially minded. Promotions and increase in salaries tend to be decided on the count of published papers, often the only criteron of quality being that the author was able to get them published.

DUTIES TOO HEAVY

"Teaching duties are too heavy to enable staff members to spend a reasonable amount of time and energy on fields of research which are unlikely to produce pot-boilers. Research and graduate work depends more and more on external grants from industry."

He said little encouragement is offered researchers engaged "in fundamental work divorced from all practical considerations."

About 350 Canadian chemists and chemical engineers are attending the conference, which ends today.

B.C. forests are practically entirely composed of conifers.

A balsam forest could reach merchantable size in 40 years.

Normally it takes at least sixty years to grow a spruce forest.

As with farm crops, the period of tree growth varies greatly.

Canadian pulp makes cellophane, explosives, film, and plastics.

Pulp and paper is Canada's leading enterprise and exporter.

The forests provide a third of all Canada's primary production.

Pulp and paper generates an eighth of the national income.

Pulp and paper accounts for a fith of all Canadian exports.

## LITTLE CANADIAN BASEBALL TO OPEN THURSDAY

by Bob Baker

The eighth season for Little Canadian baseball is due to commence when Thursday June 4th rolls around. Last year's pennant winning Acme-Kenora Cleaners will tangle with Lakeland in the league opener on the Little Canadian Baseball diamond, while over on the senior diamond the Lumber Kings will oppose the Lions. On Saturday the other two teams will taste action, and by coincidence they are last year's finalists Dingwalls and the champion Coca Cola team. Wednesday's paper will carry an account of other attractions that will round out the opening day programme.

A week ago there was a work night at the Little Canadian Baseball park to which parents were invited. A new section of seats, the old seats and the fence were to be painted, as well as fixing a section of the fence. One parent turned out! Most of the coaches were left to get the playing field in shape by themselves. It seems to me that a parent who is grateful for what a few are doing for their boys would have made an extra special effort to get out and show it. How about turning out to help fill the stands and redeem yourself a little bit. You might even like what you see and come back, and if you are interested in helping there is still a lot of fence to be painted. Further details could be had by phoning Jack Salmon at 7328.

## ORIGIN OF PLACE NAMES

The following is another short story of interest, as told to Marjory Bellamy by Canon Maurice Sanderson.

He says, 'I do not know when or by whom our beautiful Lake of the Woods was named. One can only surmise that when the early discoverers looked for the first time over this gem of a lake, set in a wilderness of woods and forests, they aptly called it Lac du Bois, - Lake of the Woods.

But long before the white man came, people whom we call Indians inhabited the country and they called it after some characteristic of the place. They were used to the woods and the forests, but what seemed peculiar to them were the sand Dunes or ridges that lined the beaches of the lake, particularly at the southern end, so they called the lake PAH-pee-Kwan-ga. Sand Dunes. Sah-kah-e-kun-Lake The Lake of the Sand Dunes."

## Conservation Men Seize 2 Aircraft At Sioux Lookout

Sioux Lookout—Two aircraft have been seized and "five or six persons" are expected to be charged following an investigation into charges that fish were being taken out of season.

Robert Trotter, conservation officer for the lands and forests department, said Sunday night a Norseman aircraft owned by Superior Airways of Fort William was seized on Okapoka Lake in the Kenora area by Ontario conservation officers Clifford Milko and Douglas Sayers.

A Cessna owned by Jorgenson Fisheries of Sioux Lookout was taken at North Caribou Lake by officers Michael Semetok and Earl Stone.

Mr. Trotter said a total of 3,000 pounds of fish—2,000 pounds of it pickerel (walleyes) - was also seized.

"We expect to charge five or six persons in magistrate's court here Tuesday," he said. Charges would include taking and transporting of fish out of season.

One of the aircraft seized was brought here. The other was tied up at Pickerel Lake, 100 miles to the northeast.

The investigation had been going on "for some time," department officials said, on the basis of "information received". The pickerel fishing season opened in the Kenora area May 16.

The charges carry maximum penalties of $1,000 fine and up to a year in jail. In the event of conviction, the aircraft could be confiscated.

LET'S TALK CARS
WHAT! NO SPARE?
Don't be surprised if in the not too far distant future you'll only have four tires to contend with. It seems that the spare is destined to be relegated to the museum - - along with running boards and rumble seats.
We're already familiar with tires having an inner air chamber. As you know these are protected by a two-ply layer of rubber capable of supporting the car at moderate speeds until you reach the nearest service station . . . so that repairs to the puncture in the outer casing can be made.
But did you know that there is also on the market as an accessory - - a collapsible spare. This is a thin emergency tire that's carried folded in a little suitcase. This collapsible spare is mounted on the wheel and inflated with a carbon dioxide cylinder . . . that is included in the kit.
The flat regular tire is easily removed with the special tool that is also provided.
Ah, progress!
Meanwhile, back to the tires - including the good old-fashioned spare - you're now depending upon for safe driving. The condition of your tires can often mean the difference between life and death.
So be sure to check your tires often for signs of uneven wear, cuts or bruises. Make sure your tires are carrying the right amount of air pressure at all times, too. And I've said this before - but I'll say it again . . . the only place for a tire without any tread is on a dump heap.
Believe me, we're fussy about the condition of the tires on the used cars we sell, too. Come on down and look over our late-model cars. They're in top condition from rubber to roof.

## District Scouts Hold Successful . . .

(Continued from Page 1)

gets. During the day the boys had a short hike along the road.

Came supper, clean-up and two more lectures, one on Fire-lighting and Fire Woods, and the other on Signalling and Secret Codes. Council Fire was earlier than usual, so that the boys could watch some instructive films on Scouting which were shown by Scouter Don Honeyborn. These were followed by cocoa and cookies and then bed.

Rains came during the night, but Sunday dawned bright, and it turned out to be a lovely day. After the usual morning routine and inspection, two more lectures were given, one on 'Games' and the other on 'Estimations'. The District Commissioner demonstrated the making of 'Twist' a form of camp bread.

Dinner was then prepared, patrol sites cleaned up ready for the final inspection. After this, tents were taken down, grounds cleaned up and checked and then final horseshoe, flag lowering and then the great moment, announcement of the winning patrol. After careful checking of points the Red Lake patrol was declared winner, and each boy received a souvenir of the camp. Cars had arrived by this time to take the boys home. Good-byes were said, but all hoped to meet at the coming Camporee to be held sometime in June.

The following Troops were represented with their numbers. 1st Red Lake, 6; 1st Dryden, 5, 1st Oxdrift, 6, 1st Sioux Narrows (Sea Scouts) 6, 1st Kenora (Sea Scouts) 16, 2nd Kenora, (St. Alban's) 9, 3rd Kenora (Knox) 4, 8th Kenora (Jaffray) 4 and 10th Kenora (Notre Dame) 7. The following Scouters were in camp, some full time and others part time.

District Commissioner W. Wilson, Charlie Wingfield who was Camp Chief, Roger Prefontain who was Deputy Chief, Orren Lane, Q.M., John Tarran and George Noble, with two Scouts from the 2nd. Kenora, Robbie McInnens and Bert Klose who acted as Service Scouts.

Thanks go out to Scouter Evert Larson and to Mr. Bruce Vodrey for the pictures which they took of the boys, to all the people that provided transportation and to any others who helped make this camp successful.

The writer believes this to be the largest Bronze Arrowhead Camp to be held in Kenora, with boys coming from Red Lake, 175 miles. With the exception of Dryden these are all new Troops, two of them less than a year old. It is a credit to the boys and to their leaders who were instrumental in getting the boys to come. We hope that it is not the last time we see these boys, not only here in Kenora, but in their own part of the district. Distance makes these camps hard to have, but they are worth the few that we are able to have.

The coniferous trees account for three-quarters of all the wood that grows in our forests.

Whooping cough, a preventable disease, kills more children under two years of age than polio, measles and scarlet fever combined.

The coniferous trees account for three-quarters of all the wood that grows in our forests.

Quebec alone has almost as many pulp and paper mills as the remainder of the nation.

Aerial photographs show the wood content of a forest.

## SHAKESPEAREAN FESTIVAL REHEARSAL

Rehearsals began for this year's Shakespearean festival at Stratford, Ontario. Many actors arrived and visitors found the theatre-in-the-round stage a busy place. Frances Hyland who will play Desdemona nad Douglas Campbell starring in Othello discuss the parts

will be installed directly in the plants.

MONTREAL MEDAL

Dr. Gauvin, a professor of chemistry at McGill University, is chairman of the Montreal section of the Chemical Institute. The section awarded Montreal medal for outstanding contribution to Canadian chemistry to Dr. Thorbergur Thorvaldson of Saskatoon, retired dean of graduate studies at the University of Saskatchewan.

Dr. Thorvaldson, a 76-year-old native of Iceland, was associated with the University of Saskatchewan from 1914 to 1949, when he retired. He is renowned for developing a sulphate-resistant cement, widely used in western Canada where ordinary cement is disintegrated by soil.

Dr. Thorvaldson said in an address to a luncheon meeting that basic research is required in industry but is often discontinued "at the first sign of temporarily adverse financial conditions."

He said "The remedy usually

## Miner and News Completes . . .

(Continued from Page 1)

These will be kept on file at the Miner and News to be used in the paper from time to time when occasions warrant their use. The book is indeed one that will be treasured by the students at the K.K.D.H.S.

Also delivered this week from the printing department were the new telephone books. The 1959 book is the largest one ever published and the amount printed also exceeds any other order. This year's book which inaugurates the new dial numbers for Kenora, Keewatin and Jaffray-Melick is printed in easy to read type and boasts a smart blue cover.

Last, but by no means the least, books to be delivered, were the Kenora Agricultural Society prize lists. This year's booklet is the most attractive published to date. Mr. John Wynd of the K.A.S. stated today that the books will be in the mail tomorrow. Anyone wishing a prize list needs only to ask Mr. Wynd for same.

## Paper Mill Wastes Will Be Reclaimed

Halifax—A pulp and paper researcher said here a Canadian system of capturing useful waste materials from paper mills will be used soon in one Canadian plant and two in the United States.

Dr. W. H. Gauvin of Montreal, head of the Pulp and Paper Research Institute of Canada's chemical engineering division, declined to identify the mills. The installations will be the first for the "atomized suspension technique," developed by the institute to utilize certain chemicals now discharged as waste into rivers.

The waste material passes through a unit incorporated in the processing machinery. Useful materials are separated from the fluid. Potentially dangerous components in the residue are destroyed.

He said in an interview that the system also will purify rivers by destroying useless organic waste materials.

The system, product of five years' work is patented in Canada and the United States. Patents are pending in eight other countries.

Dr. Gauvin, here for the Chemical Institute of Canada, said the chemicals recovered by the system will be used in the cooking formula for pulp. The system

[illegible] door, and the [illegible] was about ten minutes. [illegible] said the conductor, [illegible] down to speak to the first [illegible] whatever bag were you [illegible]."

"Skeleton key," replied the vic-

Rabbi.

"Skeleton bag? What do you mean?"

"I'm anything."

"I suppose you'll want me to make a speech," said the pompous banquet magnate to a man who had asked him to a dinner. "What shall I talk about?"

The man pondered a moment before replying: "Roughly, two minutes!"

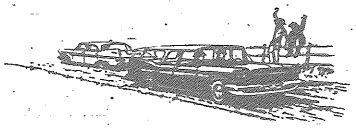
The museum attendant approached the American tourist. "Smoking is forbidden here, sir," he said. "You are liable to a fine of ten dollars."

"Well, here is a twenty dollar bill," replied the tourist.

"I have no change, sir," [illegible] the attendant.

The tourist turned to [illegible] and handed him a cigar. "Here, John, you smoke as well."

# nothing rides like PLYMOUTH rides!



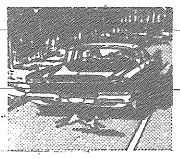
If you haven't taken your favourite country road in a Plymouth, try it soon. And be ready for a few happy surprises! Suddenly the chuckholes don't seem so deep. Ridges and ruts smooth out. The hairpin turns aren't so tight any more.

That's because nothing rides like Plymouth's famous Torsion-*AIRE* suspension . . . with improvements in '59 that again make Plymouth, beyond doubt, the most remarkable riding car.

And there's plenty more in this beauty to make you sit up and take special note. Exclusive swivel seats do away with the work of getting in and out, lock you securely in place while you're on the move. New push-button heat and defrost control on *every* model. And, of course, there's push-a-button automatic drive for complete shifting ease.

Right now's a *smart* time to take a long look at Plymouth. Prices start *lower* than those of any other full-sized car in Canada. And Plymouth dealers are paying top dollars on trade-ins right now! See your nearest dealer today . . . and get into a sleek new Plymouth for an unforgettable eye-opening road test.

CHRYSLER CORPORATION OF CANADA, LIMITED



Nothing's got zip like Plymouth's got zip . . . from either the big new "313" V-8 or the lively, dollar-stretching Econo-Jet Six!

Nothing stops like a Plymouth stops . . . with big, safe Total-Contact brakes, best in the industry!

IF IT'S NEW . . . PLYMOUTH'S GOT IT!

Wonderful Fury four-door hardtop, another quality car of Chrysler of Canada.

Take a Plymouth big-buy test-try today . . . and see how much fun summer can be in a new '59 Plymouth!

## June 11th is YOUR day...!

On June 11th approximately 15,000 polling places in Ontario will be ready to receive your vote. They will remain open from 8 a.m. to 7 p.m. (Standard Time) and from 9 a.m. to 8 p.m. (Daylight Time).

Time-tested election machinery will assure every voter the free, full and impartial exercise of this ancient and honourable privilege of democratic citizenship.

HOW you vote is YOUR business, but it is also important to your family, friends and neighbours that you DO vote.

Your vote means many things.

It expresses your judgment on the issues put forward by the various parties during the election campaign.

It gives your opinion about the Candidates who have placed their names before you.

It states your decision about the future progress of our Province and the men who will guide its destiny in the years immediately ahead.

In these last few weeks you have had many opportunities to assess the policies and platforms of the principal parties. You have been given a complete and comprehensive accounting of the stewardship of your affairs by our Progressive Conservative administration. We believe the record has been one of good stewardship, wise management, and sound planning for the future.

The purpose of this brief message is to suggest respectfully that the safest, surest and most forward-looking decision that you can make on June 11th is to give your vote for the Candidate who represents the Progressive Conservative Party and the government whose policies have been so largely responsible for Ontario's spectacular progress in the last ten years.

*Even Greater Progress Lies Ahead*

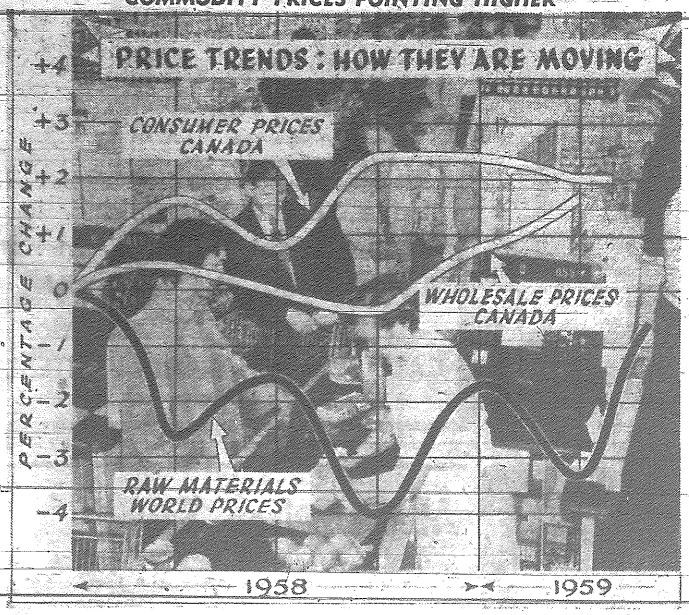
## COMMODITY PRICES POINTING HIGHER



Better times in North America are helping to push most prices higher. Except for foodstuffs, consumers can expect to pay more for many goods. Higher trends in industrial material and wholesale prices promise to end the current decline in consumer prices. Sugar and coffee are becoming cheaper thanks to abundant world crops. Cotton goods should dip this year and possibly petroleum products, but commodities pointing higher are shoes, leather goods, lumber and metals. The chart above shows what is happening to prices.

## Around Town

A special honor award from MacLean's Magazine was presented to Miss Diane Burton of Kenora, who was chosen valedictorian of the Dubuc high school, St. Adolph, Manitoba. Miss Burton gave her address at the commencement exercises held May 23rd.

Mr. and Mrs. John Morrison, Lake Street, Keewatin were visitors to Winnipeg, and attended the wedding of Miss Diane Crossin to Mr. Murray Parker on Saturday, May 30th.

## BIRTHS

**PEKARCHUK** — Mr. and Mrs. John Pekarchuk (nee Theresa McPherson) are pleased to announce the birth of a son on May 30th at St. Joseph's Hospital.

**LOCKHART** — Mr. and Mrs. G. A. Lockhart are happy to announce the birth of their son, Arthur Douglas, born May 26th.

## ANNOUNCEMENTS

The Kenora Home and School Council will hold their Annual Meeting on Tuesday evening, June 2nd at 8.00 p.m. at the Council Chambers. All association Presidents and Delegates are urgently requested to attend and bring their annual reports.

### IN MEMORIAM

In loving memory of our dear father, James R. Begg, who passed away June 2, 1958.

Nothing but memories as we journey on,
Longing for a smile from a loved one gone,
None know the depth of our deep regret,
But we remember when others forget.

Ever remembered by son Wilfred and daughter-in-law Helen.

### IN MEMORIAM

BEGG — In loving memory of a beloved father and grandfather, James Rutherford Begg, who passed away June 2, 1958.

This month comes with deep regret,
It brings back a day we shall never forget,
He fell asleep without goodbye,
But our memories of him will never die.

Always remembered and sadly missed by son Ernest, daughter-in-law Irene and grandsons.

## Wren Holding Meeting At Dryden Tonight

Mr. William J. Henderson, President of the Liberal Labour Association, in the company of Mr. Albert Wren, Liberal Labour Candidate for Kenora, has been touring the District and held a Public Meeting in Hudson Monday night, where he quoted from the Globe and Mail" that a Liberal sweep is predicted for Ontario." He also stated that Mr. John L. Wintermeyer, Leader of the Liberal Party for the Province of Ontario, who is still conducting his tour of the Province is having capacity crowds at all his meetings.

Mr. Henderson, is speaking at a Public Meeting tonight at Dryden, before leaving for the Lakehead.

Canada provides half the newsprint used by newspapers throughout the entire world.

Really fine rag paper has qualities which make it endure down the centuries.
