HIGH SCHOOL REPORTS

GRADES NINE - TWELVE PASSING AVERAGES UP

At the regular meeting of the Kenora Keewatin High School Board held last evening in the council chambers, the principal, Mr. A. G. Richmond reported a slight improvement in the passing averages of grades 9 to 12. June promotion rates for this year are as follows:

Grade IX - 81.37%
Grade X - 80.36%
Grade XI - 78.37%
Grade XII - 81.08%

Grade XIII results will not be available until the middle of August.

Communications were read from The Prime Minister's Office, Toronto, Ontario and The Minister of Education, acknowledging receipt of a resolution on school grants which had been supported by the members of The Kenora - Keewatin District High School Board to alleviate the burden placed on municipal property owners by inviting the Provincial Government to revise payment of grants so as to enable the municipal authorities to hold the line in school taxation.

While the Department of Education did not feel that it would be altogether feasible to put this resolution into effect, they did assure the Boards presenting the resolution, of some co-operation and further study on the matter.

Bids for tenders, for painting and decorating at the High School during the summer months were received and the tender of Ritz-way Decorators was accepted.

Tenders were also received for supply and installation of floodlights at the High School were received and the bid of Lecain & Jordan was accepted.

The cost to cover the supply and installation of all necessary equipment for the modification of the Sound System at the High School set forth by MacIvor Electronics Limited of Winnipeg, would be $3,194.00. These terms were approved by the Board with work to commence immediately and the System to be in order by opening of school.

Plans for Commencement Dinner held in September were left in the hands of Mr. A. G. Richmond and Mr. Charles M. Hayes. The Chairman, Mr. Carter, expressed the opinion that a dinner should be held as usual but in view of the fact that responsibility for a dinner would be left in the hands of two beginning teachers in Home Economics Department this year, that it would be better to forego trying to hold the dinner at the High School as formerly.

Accounts amounting to $30,462.24 were authorized paid.

The resignation of Mr. J. L. McKellar from the Caretaking Staff at the High School was accepted and Mr. A. McMahon of Kenora, Ontario, was hired on the Staff.

A signed contract was received from Miss Maretta J. McCulloch to teach Girl's Physical Education for the coming 1959-60 school term.

Hydro Ends 10 Year Standardization Job

Ontario Hydro today completed the biggest electrical engineering job of its kind in the history of the world.

Five years and three months ahead of schedule, ceremonies in Leaside ended the frequency standardization program which has changed well over one million customers from 25 - to 60-cycle power.

Metropolitan Toronto representatives of Leaside and East York joined Hydro and municipal utility officials in celebrations at the home of the last customer, Mr. and Mrs. A. A. McMichael of 115 Hanna Road.

Joining the McMichaels as guests of honor were Mr. and Mrs. R. E. Taylor and their daughter Valerie, who was only three years old when ceremonies launched the preliminary test program at their East York home on May 18, 1949. The main program began the following October.

James S. Duncan, Ontario Hydro Chairman, and Bertram Merson, Chairman of the Toronto Hydro-Electric System and President of the Ontario Municipal Electric Association, jointly pressed a button on a panel in the McMichael home to turn off a bulb using 25-cycle frequency and illuminate a second with 60-cycle current.

Mr. Duncan noted that "the standardization of Southwestern Ontario and parts of the Northeastern section of the province has been the largest electrical engineering program of its kind ever carried out anywhere in the world. Certainly no other project of this nature has ever had such impact upon the lives of so many people in the province."

Mr. Duncan called the program of frequency standardization "a first-rate investment in progress."

"During the next two decades," he said, "the savings made possible by the standardization of electrical frequency in Ontario will approximate the entire cost of the job."

Carried out during the most dynamic period in the history of Ontario, frequency standardization was completed at an estimated cost of $360,000,000.

At one time 3,600 men and 1,300 vehicles were engaged in the program. Altogether, 6,956,596 pieces of electrical equipment were changed over for 1,025,754 customers. Based on an average working day, this works out to four customers and 30 appliances standardized every five minutes over the length of the program.

The jobs ranged from a transformer 520 feet up on Windsor's Ambassador Bridge to a pump motor 80 feet down in a farmer's well.

Among the oddities the change-over men encountered were a small door in a basement window run by an electric motor to let a cat in and out; a 67-year-old juke box that played steel records more than two feet in diameter; an electrically-operated model cow; and an electrical bridge table that dealt and shuffled cards.

It was also a massive job in human relations. It was a type of situation where many complaints were to be expected - and some customers did complain - but Ontario Hydro also received thousands of congratulatory telephone calls and letters for the special care taken to satisfy each customer.

Officials still are amused by the Hydro man's report on answering a Goderich woman's complaint about a bad smell after her refrigerator was changed over:

"Dead fish, placed under refrigerator by cat. Removed. Odor gone."

Problems were seldom that simple, but compliments poured in for Hydro's maximum speed and efficiency in dealing with vital services.

In London's Victoria Hospital, crews found a way to change-over an iron lung without disrupting the flow of life to a patient who had lived in it for seven years.

Large newspapers were converted without missing a deadline. Special arrangements were also made for radio stations, water pumping stations, heating plants and transportation facilities.

LAKE LEVEL REMAINS STATIONARY

Wednesday's rainfall added another .21 inches of rain to an already soaked area. Suprisingly the level of the Lake of the Woods remains the same as it was Monday, at 1053.72 feet above sea level.

Of interest is the fact that while the Lake of the Woods remains stationary, Rainy Lake to the south is up three feet over this date last year. Level of Rainy Lake is 1107.75 feet compared with 1104.73 feet a year ago.

Child Killed By Lightening Near Fort Frances

The Provincial Police at Kenora reported this morning, the first death caused by lightning in this area for some years.

Killed instantly late Tuesday night when struck by lightning was six-year-old Thomas Robert Hinote, son of Mr. and Mrs. Robert Arnold Hinote of 4331 Knox Avenue, Minneapolis, Minnesota.

The child was killed while asleep in his bed in a cabin on island A107 in Rainy Lake, near Fort Frances, as a violent electric storm hit the area.

No further details are available. The Fort Frances detachment of the OPP are investigating.

Another occupant of the cabin was injured by the bolt. Five others escaped.

The boy's mother said a "ball of fire" came into the cabin, apparently splitting when it struck a stove pipe. One section struck the boy.

The other section was described as "spraying" Mrs. Verne Hinote, the boy's aunt, "with fire." She was brought to a hospital where a doctor reported she was suffering from electrical and physical shock.

Air Cadets Have Varied Training At Sea Island

Approximately 575 Air Cadets from widely scattered centres on the Prairies and British Columbia are currently attending Air Cadet Summer Camp at RCAF Station Sea Island B.C. Included are members of the Kenora Air Cadet Squadron.

This camp, one of the three camps across Canada, serves all cadets in Western Canada including Northwestern Ontario. The objective of the carefully planned program is to create a camp period that will be enjoyable and educational to all who have the privilege of attending. It is felt that association with cadets from other Provinces, and the sharing of common interests promoted by the Air Cadet program, will instill in the cadets a broader knowledge of Provinces other than their own. This will contribute to the development of real Canadian Citizens interested in the welfare of the nation as a whole.

The following outline of camp activity will indicate why summer camp is one of the most popular features of the air cadet program: The Cadets arise at 6:30 a.m. and follow a regular training program from 8 a.m. until 4:15 p.m. During the evening the Cadets are free to follow their own interests on the camp such as Sports, hobbies or enjoy the entertainment provided. At 9:30 p.m. Vesper and Benidiction services are held in the Station Chapels. Then at the end of a varied and full day, "Lights Out" at 10:00 p.m. The Air Cadets are under careful supervision both day and night. Adults are on duty as Patrol Officers for the entire night.

From the time the cadets leave home until they return, they are under careful and comptent adult supervision. The camp officers, Civilian instructors and RCAF specialists are all dedicated to the task of making the cadets stay a profitable experience.

Two Forest Fires In District

The weather still continues to be wet with violent and frequent thunderstorms. Precipitation varies widely throughout the district due to the local nature of most of the storms. A few examples of the variation in rainfall are as follows. On July 4th and 5th Kenora had a total of 3.97 inches while Nestor Falls recorded .43 inches. On July 7th and 8th Ignace had a total of 2.69 inches while Kenora had .5 inches. (The above precipitation amounts are those recorded by Lands and Forests weather stations.)

Two fires occured during the past week, one as a result of a neglected camp fire, the other caused by lightning.

New Ghost Lake Subdivision Ready

Recently the Department of Lands and Forests at Kenora brought to public notice the fact that disposal of recreational land was to be restricted as far as possible to sale of lots in registered plans of subdivision. That bulletin described proposed subdivisions in the vicinity of Kenora, but omitted those farther east.

About two years ago a subdivision was laid out on the north shore of Ghost Lake a few miles north-east of Dryden, which was very well received by the public. Most of the lots were sold, but a few still are available.

Encouraged by the results of the first subdivision the Department laid out a second one containing 19 lots on the north shore of Ghost Lake. The official survey of these lots has recently been completed and it is hoped that they will soon be ready for sale.

A good motor road built as an Unemployment Relief measure, serves this second subdivision. A beautiful sand beach, about a mile in length, adjacent to the lots, has been reserved for public use, and it is confidently expected that this area will prove one of the most popular in the District.

Another subdivision should also be mentioned - that near Vermilion Bay on the north-west shore of Eagle Lake. The few lots remaining in this subdivision are now ready for immediate sale.

CPR Honors Gentry Of The Old West

Calgary,—The Gentry of the old West, the Rangemen who settled in Alberta three-quarters of a century ago, were honored at the 28th annual old time range men's dinner as guests of the Canadian Pacific Railway.

There was no fanfare, no wild whoop-de-do, none of the riotous color that has come to be associated with the Calgary Stampede.

There were indications, however, that old rangemen never die and more seldom fade away.

Host of this annual dinner to honor the pioneers was E. C. ("Pat") Fitt, manager of the Palliser Hotel at Calgary: chairman was G. E. Mayne, CPR vice-president and general manager at Winnipeg: guest speaker was George H. Gooderham, Indian Agent in Alberta from 1920 to 1954, who recalled stories of the early west.

A guest of the evening, Gene Barry, who portrays the famed Bat Masterson on Television, said in surprise: "Why these old guys did exactly what I'm trying to do today on TV."

Main theme for the evening was the cowboys prayer, part of which was read in memory of departed pioneers:

"Just keep an eye on all thats done and said:

"Just right me sometime when I turn aside:

"And guide me on the long, dim trail ahead—

"That stretches upward toward the great divide."

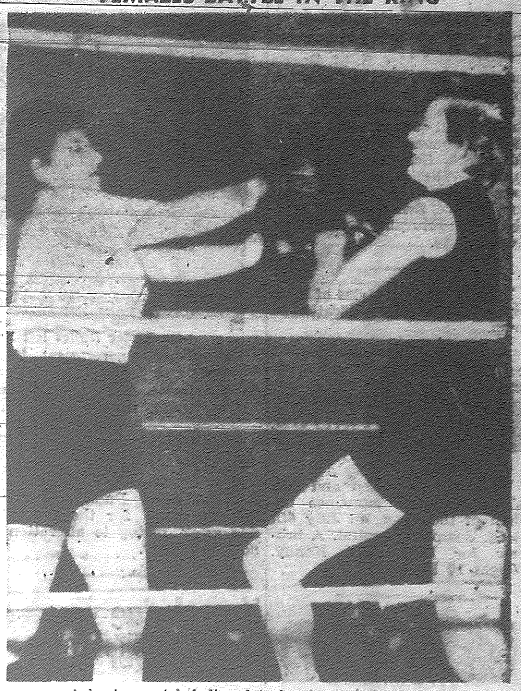
FEMALES BATTLE IN THE RING



A boxing match believed to be the first female bout held inside a ring in Canada was staged at McAdam, N.B. Mrs. June Lounder (white blouse) attacks Miss C. McConvey (dark blouse) with both fists flying. Despite this Miss McConvey won a five-round decision.

Fur Production Down For District

Fur production figures for the number of fur bearers harvested in the Kenora District during the trapping season of 1958-59 shows a marked decrease from that of the previous year.

With beaver still on the increase throughout the District, the catch of this major fur species dropped to 10,000 pelts as compared with the 15,000 taken during the season of 1957-58.

Mink are still reported in good numbers but with very few trappers working their lines full time this past year, the catch of this valuable fur bearer dropped from 4,000 in 1957-58 to 2,300 in 1958-59. Other animals trapped were: Fisher 229, Lynx 22, Marten 6 and Otter 251. No figures are available at this time on the number of muskrats pelted but it is probably around the 10,000 mark.

The value to the trapper of wild fur produced in the Kenora District during the past year amounted to approximately $150,000.00 with each actively engaged trapper realizing an average income of $750.00 for his winters work.

Pulp and paper accounts for almost a third of Canada's trade with the United States.

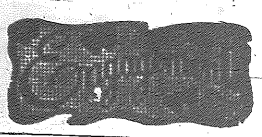
Around Town

Doctor and Mrs. S. M. Burris left Wednesday on the Canadian for Montreal from where they will fly to Great Britain. Dr. Burris will attend the World Medical Convention to be held in Edinburgh, Scotland, July 16th to 24th. The couple will then tour England, Belgium, Germany, France, Switzerland and Italy before returning home in six weeks' time.

Mr. and Mrs. P. Myles of Winnipeg are spending a vacation in town.

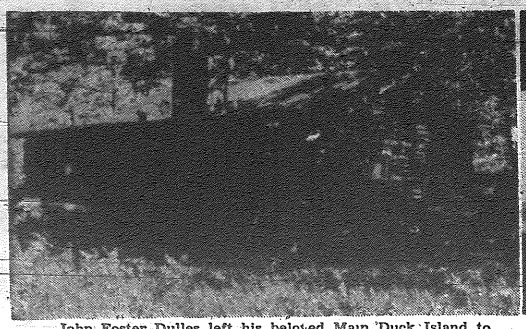
BIRTHS

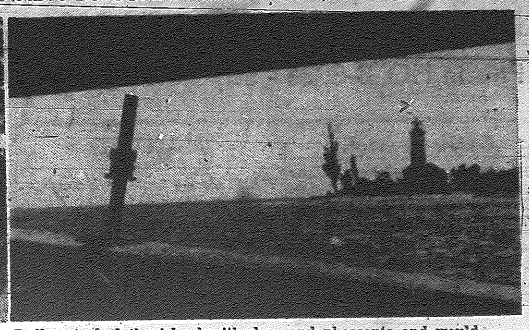
WILCOX — Helen and Jim Wilcox wish to announce the birth of their son, on July 6th at St. Joseph's Hospital. A brother for Larry and Kenny. Weight 10 lb., 8½ oz.



Mr. and Mrs. J. Monette wish to announce the engagement of their daughter, Joanne, to Mr. Gary Buffam, son of Mr. and Mrs. G. Buffam of Ottawa, Ontario. The wedding will take place at 4.00 p.m. August 5th at Knox United Church, Kenora.

MAIN DUCK ISLAND LEFT TO CANADA BY JOHN FOSTER DULLES





John Foster Dulles left his beloved Main Duck Island to the Canadian government. Main Duck Island is situated in the middle of Lake Ontario, is three miles long and about two miles wide. In some places it rises to a height of 40 feet above the water, then slopes to pleasant bays and beaches. Mr. Dulles stocked the island with deer and pheasants and would not allow anyone to cut the trees. An 80-foot lighthouse, right, is maintained by the Canadian department of transport as an aid to lake shipping. At left, photo shows the home Mr. Dulles used. It is made of logs and the front door is made of planks from ships wrecked on the beach.

ANNOUNCEMENTS

The Kenora Public Library will be closed for the rest of this week, owing to alterations now underway.

New Judge For Rainy River

Appointment of a new judge for the district court of Rainy River district has been announced from the office of the Ontario attorney-general.

The appointee is Albert Ransome Hugill, formerly of Sault Ste. Marie, Ont. Judge Hugill who is 61, succeeds Judge H. J. M. Donley who recently became a county court judge at Toronto. Judge Donely had held the district post for 10 years.

Judge Hugill, a former crown attorney for Algoma district carried on a wide general practice at Sault Ste. Marie and was solicitor for that city until 1946. He served on the city council there for several years.

A bachelor, Judge Hugill graduated from Osgood Hall in 1920, after serving overseas in the First World War.

United Church To Aid Student Centre In Hong Kong

An outright gift of $100,000 toward the construction of a student centre and chapel at Chung Chi College, Hong Kong has been made by The United Church of Canada's Board of Overseas Missions it was announced today by Rev. Dr. David H. Gallagher.

The cheque has been mailed to the New York headquarters of the United Board for Christian Higher Education in Asia.

Chung Chi is one of seven institutes of higher learning in free East Asia, sponsored or given financial help by the United Board, which represents 15 Protestant mission agencies in Canada, Britain and the U.S. The other schools are in Korea, Formosa, the Philippines, Japan and Indonesia.

Confirming the gift, Dr. Gallagher said Chung Chi has more than 500 students in arts, science and religion. Half are Christian. The United Church supports a missionary and his wife on the college staff - Rev. Walton Tonge and Mrs. Tonge. Another Canadian, Dr. Leslie G. Kilborn, is chairman of the board of governors.

Guests Ate Way Through Seaway

Chicago—The Queen and 1,000 other guests figuratively ate their way through the St. Lawrence Seaway Monday night.

Each of the courses served at a banquet was named after one of the seaway's locks.

The banquet, given by Mayor Richard J. Daley, was held in the gold and green grand ballroom of the Conrad Hilton Hotel.

The ballroom was decorated with 25,000 American beauty roses. The tables were covered with gold cloth and the lighting during dinner was soft: Candles and colored lights in crystal chandeliers.

The dinner began with fresh strawberries, then double consomme Iroquois, filet mignon St. Lambert with potatoes Welland and grilled tomato Beauharnois, International Rapids salad and ice cream and sherbert served beneath a cupola of green icing. The names are those of seaway locks.

Of the original forest of Canada 60 per cent has been burn't

On the limits of the pulp and paper companies, billions of trees spring up every year.

Forest management is increasing the productivity of the great Canadian woodlands.

Many leased forests contain more wood today than they did 20, 30, or 40 years ago.

The value of production from the forests of Canada far exceeds that of all the mines.

Keewatin Indians	17	11	5	1	.676
Dryden Red Sox	17	11	6	0	.647
Kenora Legion	15	8	6	1	.566
Dryden Dodgers	15	1	14	0	.067

by Bob Baker

DINGWALL'S WIN OVER LUMBER KINGS

Dingwall's managed only two hits from the offerings of Stu Barber, but eleven walks were just as good as hits as the Lumber Kings dropped a 10-8 decision and a chance to tie Coca Cola for first place. Dingwall's opened the scoring with three runs in the first on four walks, one error, and one hit. Lumber Kings came back to route Don Brown with 5 runs in the second. Dingwall's scored two to tie the game in their half but the Lumber Kings pecked away for an 8-5 lead by the fifth inning. Six more walks were sandwiched around a pair of costly errors to hand the game to Dingwall's. Dennis Misurka came on to pitch the sixth in hitless fashion to hold the win for Dennis Barchuk.

Barber fanned thirteen more batters in losing his second game of the year against three wins. Dennis Barchuk had a double and Trevor Williams a single for Dingwalls. Terry Gilbart had three hits for the Kings and Ralph Jacobson two.

Canadian Scouts To Leave Sunday For Jamboree

Vancouver, BC—Ninety - one boy scouts and leaders from Canada's 10 provinces will fly to the Phillipines on board a Canadian Pacific Airlines Jet-Prop Britannia Sunday to attend the tenth annual world Boy Scout Jamboree.

The Canadian contingent will join over 11,000 scouts from 50 countries in a giant camp just outside Hanila for the 10-day Jamboree, commencing July 17.

On Saturday evening the scouts will attend a swim party followed by a campfire and weiner roast at West Vancouver's Ambleside Park.

At 2.00 p.m. on Sunday, the contingent, including nine B.C. boys will assemble at the Canadian Pacific Railway Station for a final check in. Leaders will divide the group into three troops of four patrols each.

All the boys will be issued colorful, canary-yellow plastic raincoats calculated to distinguish the Canadians from other contingents during the Jamboree. The scouts will also receive special troop insignia, patrol colors, and a Nation badge incorporating the Canadian flag.

Following the assembly, the group will depart for a swim at the U.B.C. Pool and a tour of Marine Drive.

Phillipine Consul in Vancouver, Dr. G. F. Bisnar, will host the contingent at an oriental dinner commencing at 5:30 p.m. in a downtown restaurant.

Following dinner, the scouts will assemble at Vancouver International Airport for combined inspection and departure ceremony commencing at 9:15 p.m., R.C. Chief Justice, A.C. Des Brisay, will conduct the inspection with M. J. Foley, Provincial President, Boy Scout Association, and Brigadier W. G. H. RCAF, Provincial Commissioner.

The CPA Charter Aircraft will depart Vancouver at 10:00 p.m. the group will arrive back in Vancouver aboard a CPA Britannia on August 5.

Most of the wood used in making paper is unsuitable for making good lumber.

At least 90 per cent of the wood used in making paper would make, at best, scrap lumber.

SAWKINS—CARON

Notre Dame Church, Kenora was the scene of a pretty wedding on Saturday, June 27th, at one o'clock when Joanne Caron, only daughter of Mr. and Mrs. J C. Caron was united in marriage with Mr. William Sawkins, youngest son of Mr. and Mrs. Albert Sawkins.

Rev. Father Savoie performed the double ring ceremony before the altar decorated with gladioli and summer blooms.

Mrs. R. Favreau presided at the organ and Mrs. Claire Alcock was soloist. During the Mass, Mrs. Alcock sang hymns and during the signing of the register, the Ave Maria.

Given in marriage by her father, the petite bride was charming in a floor length, full skirted dress of white silk organza. The bodice featured an Empire waistline with an inset of Venetian lace and short shirred sleeves. She wore matching white silk organza mittens. Her Chapel Veil was of nylon illusion net, held in place by a coronet of seed pearls. She carried a cascade bouquet of red sweetheart roses. Her only jewellery was a gold cross and chain, a gift of the groom.

The bride was attended by Miss Jean Luby as maid of honour and Miss Judy Lacombe as bridesmaid. Little Marcia Sawkins neice of the groom was flower girl.

The attendants were gowned alike in waltz length cottilion blue silk organza dresses, featuring full skirts, with shirred bodice and cap sleeves. Head bands of white stephanotis and short white gloves completed their costumes. They carried baskets of tinted daisies and carnations.

The flower girl wore a short white dress of flocked organza with full skirt, short sleeves and large collar. Her head band was of white and she carried a small basket of tinted daisies.

Mr. Richard Caron, brother of the bride was best man. Guests were ushered by Mr. Ronald Sawkins, brother of the groom and Mr. Don Baker.

For her daughter's wedding, Mrs. Caron chose an afternoon dress of navy eyelet nylon, with pink accessories and a corsage of pink roses and lily of the valley.

Mrs. Sawikns, mother of the groom was attired in an afternoon dress of sheer in shades of brown and gold. Her accessories were white and she wore a corsage of yellow roses and lily of the valley.

A reception was held at the Ukrainian Hall. The bride's table was attractively decorated with summer blooms and centered with a three tiered wedding cake.

Mr. Fred Duquette, uncle of the bride, proposed the toast to the bride to which the groom ably responded. Don Baker proposed a toast to the bridesmaids and Richard Caron read the telegrams of congratulations.

Mr. and Mrs. Sawkins left on a honeymoon for points in the U.S.A. The bride wore a two piece summer suit in a blue grey tweed. Her accessories were pink and navy and she wore a corsage of pink roses.

Out of town guests included: Mr. and Mrs. A. Perrault, Kelowna B.C., Mrs. J. Inman, Fort Frances, Ont., Mr. and Mrs. Fred Sawkins, Ignace, Ont., Mrs. J. A. Ryan, Mr. and Mrs. James Ryan, Mrs. Chas. Ahronson and daughter Geraldine all of Winnipeg.

Prior to her marriage the bride was entertained at the Norman Community Club at a miscellaneous shower. Numerous gifts were presented by Michael Sobiski and Janet Pelletier. Hostesses for the evening were Misses Judy Lacombe, Jean Luby, Dawn Lemay, Elaine McLay and Mesdames F. Falardeau, E. Larouche, R. Mulski, M. Bennett, J. Luby, A. Lacombe.

GIRL GUIDE, 12, FOUND MURDERED

Lynne Harper, 12, Clinton, Ont., schoolgirl was found murdered near this RCAF station. A 14-year-old boy is being held in connection with the murder. Because he is a juvenile the boy has not been identified. Lynne, a Girl Guide leader left her home to attend a ball game and was last seen thumbing a ride on the highway. An autopsy confirmed that she had been beaten, raped and strangled with her own blouse. She is the daughter of an air force couple stationed at Clinton. Attorney General A. Kelso Roberts has offered a reward of $10,000 for information leading to the arrest of the killer.

Sewing Machine Invented 114 Years Ago, July 9, 1845

To females who fancy sewing, July 9th commemorates the birthday of a hero! For New Englander, Elias Howe, inventor of the sewing machine, was born on July 9th, 1819.

Attempting to mechanize tedious hand sewing, Mr. Howe devised a lock stitching machine in 1845 which worked five times as fast as a skilled seamstress. However, it had one serious drawback. The cloth being stitched did not move freely under the machine's curved needle.

The recognizable ancestor of our modern sewing machines appeared in 1851. Patented by Isaac Singer, an able mechanic and businessman, this new machine featured a needle which moved up and down in a straight line. Cloth moved freely under it.

The sewing machine, one of the great labor-saving devices, did more than remove the drudgery from sewing. As the machine was perfected, it provided women with a happy-making and useful activity. For today's home-sewers (estimated to be 26 million strong in North America) seldom sew for economy alone. They sew for better appearance, longer wear, and for sheer creative pleasure.

Sewing is a big business in Canada today. With a sewing machine in one out of every two Canadian households, according to the Dominion Bureau of Statistics, sales of patterns, fabrics and notions are rapidly increasing. It is estimated that sewing machine sales are 30% to 45% higher now than they were 10 years ago.

Evidence that women sew for fun rather than strict economy is provided by the numbers of film and TV stars, who make their own wardrobes. These include Joan Fairfax, Phyllis Marshall, and Antoinette Bower, in Canada, and Celeste Holm, Loretta Young and Betty Furness, in the U.S. One keen homesewer is a girl more famous for taking her clothes off than for making them - Gypsy Rose Lee.

WITNESSES LEAVE FOR WPG. CONVENTION

About 25 of Jehovah's Witnesses from the Kenora congregation will attend a District convention in the Winnipeg Arena July 9-12. Over 5,000 delegates are expected to attend.

Mr. John Freeman, presiding minister of the Kenora congregation, in announcing the plans of the local delegates, said that it has been necessary to cancel all local meetings from July 7 to July 14, due to many being away for the Christian assembly.

Mr. Freeman said that the local delegates attending the international gathering will benefit greatly not only from the rich spiritual provisions, but also from Christian association with Witnesses from Saskatchewan, Manitoba, Ontario and many areas in the United States.

Most of those from the Kenora congregation will be staying in private homes in Winnipeg and nearby areas. Many hotel accommodations will be filled, according to the Watchtower rooming committee, and the majority of attenders will be placed in homes following a gigantic house-to-house effort to find available accommodations.

BUDDHIST MARRIAGE VOWS, PERFECT WISDOM AND COMPASSION

Four candles flicker, a small figure of Amida Buddha, the Buddha of of Infinate Compassion and Wisdom and the scroll behind the statue with the Japanese characters, **NAMU AMIDA BUTSU** (I place my faith in Amida Buddha) draws every eye to the altar. The Buddhist wedding ceremony opens with the minister, Rev. Newton Ishiuri, left, sounding a deep gong. Then follows a solemn chant of homage to Amida Budha. At right the picture shows the incense burning ceremony which is a solemn moment in the ancient Buddhist marriage ritual. Minister places an ozuzu, a beaded circlet, on palm of the groom and then the bride. Each burns incense to symbolize purity of intention. The bride was the former Michiko Ichii and the groom Morio Christiaan Shinohara.

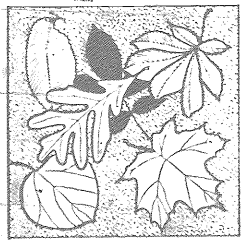
BUZ SAWYER

it's a FACT



No two leaves are exactly alike, even though they may come from the same branch of the same tree and seem to have the same size, shape and color. The leaf is the food factory of green plants and trees because they manufacture the food which plants must have to become full grown and healthy. Leaves have veins like blood vessels in the human body. These veins are hollow tubes which carry food and water back and forth between the leaves and the rest of the plant.

Marilyn Gunn (right) of Kenora, one of the Ontario delegates to the Junior Red Cross International Study Centre being held in Toronto in August glances at some of the new material put out by the Ontario Juniors on Dental Health with Barbara Wasky (left) of Fort William and Velma Robinson (centre) of Tarentorous who are also delegates.

Edward C. (Ted) Burton, Barrister at Law, and son f Mr. and Mrs. E. C. Burton, Coney Island, was called to he bar at the Convocation held at Osgoode Hall, Toronto, n June 25th. Prior to attending Osgoode Hall, Ted received his B.A. from Western University, London, Ontario.

Mystery Disease Bat-Transmitted

LONDON —A mysterious virus contracted during research in the bat caves of Africa was blamed today for the death of an American scientist.

Willis E. Snow, 40, of Bailey Springs, Ala., died a month ago in a London hospital. He had arrived in Britain from Africa only 10 days previously.

At an inquest today, a government pathologist, Dr. F. E. Camps, said it had been learned that Snow had been collecting insects in bat caves in a study of diseases that may be insect-transmitted.

Dr. Camps said the public health laboratory is satisfied that Snow died of a so-far-unknown virus. He added that bacteriologists are continuing with their experiments because "it is important to know what the disease was."

JUST PART OF HIS JOB

BOSTON — Robert Dooley of Scituate, a state smoke inspector, was quietly going about his business of inspecting chimneys on a five-storey apartment house in Boston's Back Bay Monday when police from three patrol cars charged onto the roof.

When Dooley raised his eyebrows, the police explained they had come in response to a woman's telephone call to save him from committing suicide. Dooley showed his badge and convinced police that climbing up on roofs and looking into chimneys was just part of his job.

Dental Society Hears Clinician From University

International Falls, Minn.

Dr Erwin Schaffer of the University of Minnesota was clinician at a meeting of the Kenora-Rainy River District Dental society last weekend in Fort Frances and International Falls.

Dr. Schaffer, chairman of the department of periodontology at the U. of M., lectured Friday afternoon at the Rainy Lake hotel in Fort Frances and also presented a clinical program in the office of Dr. Arthur Ojala, the Falls. His appearance here was arranged by Dr. Ojala, who served as program chairman for the meeting.

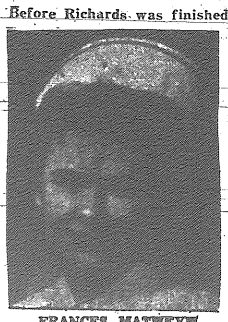
Visiting dentists and their wives were entertained at dinner Friday evening at Island View resort. Twenty-four guests were present. Dentists at the meeting were from Dryden, Kenora, Sioux Lookout, Red Lake, Fort Frances and International Falls.

He's Little Late Learning Solution

Spokane — — Henry M. Richards, assistant vice president of a downtown bank, was thumbing through a business magazine Monday when an article caught his fancy: "How to Prevent Bank Robberies."

Before Richards was finished, an excited teller ran into his office shouting: "We've just been robbed."

A holdup man had just relieved the bank of $2,477.



FRANCES MATWEYW

Miss Frances Matweyw, daughter of Mr. and Mrs. Don Matweyw, 424 Eighth Street North was a recent graduate of the Port Arthur St. Joseph Hospital School of Nursing. Frances also received the Bedside Nursing Award marking the third year in succession that a former Kenora High School student has received this award.
