Chicago Visitor Hooks Big Walleye At Sioux Narrows

Every angler dreams of landing a record or even near-record fish - especially when friends who might otherwise doubt the story are present to witness the show.

That's what happened to Lou Issacson of Chicago while visiting Skyer's Camp, Sioux Narrows, Lake of the Woods, Ontario. "Lucky Lou", as his friends now call him, hooked a 13-pound well-eye, a dream catch if there ever was one.

Isaacson made his lucky catch while three boats were close together and the occupants were discussing which of several islands looked best for "shore lunch". Thus a half-dozen fellow Izaak Waltons watched Isaacson play his big fish carefully on account of he was using light spinning tackle and 8-pound line. His lure was a minnow on a small june-bug spinner. It took him more than ten minutes to land the lunker.

It was worth it, said Isaacson. I knew I had a big one on the second it hit. I got plenty of advice from all directions - most of it bad - but I kept the rod tip up and gave no slack line. When I saw the wall-eye's head I knew I had a winner.

Well, anyway, says Al Skyer, it's almost certain to be a winner. It's the biggest walleye caught to date in Lake of the Woods waters - and fishing has been extra good this year.

Lake Trout Spawn To Be Taken From Crow Lake

It is hoped that part of the lake trout spawn requirements of the Department of Lands and Forests will be garnered by an operation on Crow Lake in October when the annual spawning run commences.

Likely looking shoals have been inspected and sounded so that trap nets can be set to capture the lake trout when they move into the shallower water. A number of ripe female fish will be stripped of their eggs by a man experienced in this delicate operation. The eggs are then brought into contact with the reproductive fluid called milt, taken from captured males, and are later "hardened" by being dipped from one vessel of water to another. When the eggs take on water and become firm they will be transported to the Kenora Hatchery where they will be held for further distribution and for re-stocking in the Kenora District next spring.

Crow Lake stands to benefit from the undertaking if sufficient ripe fish can be obtained to provide a goodly supply of spawn. In their natural environment only a small percentage of the millions of eggs deposited on the shoals each year hatch and survive. When the eggs are reared under controlled conditions at Government Hatcheries, the percentage surviving increases tremendously. This means that enough spawn can be removed from Crow Lake to provide Hatchery plantings for a great many other lakes, and by returning a calculated fraction of the hatched fish to Crow Lake, more young fish will be present to someday contribute to better angling in this body of water. Since each female fish provides four or five thousand eggs, only a very small number of the total fish involved in the spawning run will actually be "spawned out."

Prov. Land Tax Appeals Held In Kenora

The Department of Lands and Forests at Kenora reports that on Monday, July 13, one of the many and possibly lesser-known functions of our democratic system of government was carried out before His Honour Judge L. A. McLennan at the Court House here in Kenora. We refer to the Assessment Appeals under the Provincial Land Tax Act.

Under this Act, these appeals are held triennially and the decisions handed down are made retroactive to the year in which the appeal is entered. At first glance, it might appear rather strange that these appeals are only held once every three years. However, when it is pointed out that almost 75% of the land area of this Province is without municipal or local government and therefore subject to Land Tax, it can be appreciated that to hold assessment appeals annually for such a vast area would be both extremely expensive and time consuming. For this reason, these appeals are held triennially and the decision made retroactive.

70% Drop Out Before Grade 12

Ottawa—An estimated 70 per cent of Canada's pupils pack up their school books before they finish Grade 12.

The Labor Gazette monthly publication of the federal labor department, gives this figure in a report on two United States studies now under way to find out what happens to the "drop-outs" and the students who graduate and go directly to work.

Canada's productive forests cover almost 900,000 square miles.

CNR Replaces Rainy River Steamers With Oil

Coal-burning steam engines are no longer a common site on the Canadian National Railway tracks through Rainy River district.

Along with other important changes in the company's operations, the last of the old steamers made its last trip out of Fort Frances a week ago. Now the coal dock, built only hine years ago, is to be torn down, local railway officials reported.

The last steamer burning coal was the yard engine. It will probably be scrapped in the Winnipeg yards. All locomotives through the Fort are now burning oil, not the Fort are now burning oil.

There are still engines pulling passenger trains on the Fort Frances run between Winnipeg and the Lakehead cities, but oil, not coal, is being burned.

It was only about six years ago that the first diesel locomotive arrived in the district and today all of the freight trains are pulled by diesels.

Another feature of the changing times is the designation of Fort repair terminal in the district. This resulted in the transfer last week of 12 maintenance workers and their families to Fort Frances from Rainy River.

Magistrate's Court

A St. Boniface man charged with not reporting an accident which resulted in property damage was fined $25 and coss or five days.

Speeding within the town limits resulted in a local motorist paying $10 and costs while another motorist paid $5 for failing to pay a parking ticket.

A man from Prince Edward Island appearing on drunk charges, was fined $10 and costs.

Ft. Frances Subway Ready This Fall

FORT FRANCES — Norman Cunningham, CNR's superintendent on a $400,000 underpass project at Fort Frances, gazed at a cavernous excavation being completed Monday and expressed the fervent wish: "I hope it doesn't rain."

Reason for his concern is that the great hole, located in the centre of the community on Portage Avenue, has a lake-type bottom of quicksand. When dry, it can be worked on. When wet, it is the next thing to suicide for a man to walk there.

"One of our men went in up to his waist before we could get him out," the young overseer reported.

Twenty-nine feet at its deepest, the excavation is in a tricky stage this week. If the rains hold off, though, driving of more than 3,200 65-foot pilings will be started this week and the cement footings for two main piers can be poured to take the job out of danger.

Originally priced at $340,000 of which Fort Frances municipality is committed to paying one-tenth — the underpass will include pouring more than 220 yards of cement. Some 72 tons of reinforcing iron also is going into the structure.

The finished subway will consist of two, 15-foot lanes for vehicular traffic plus two six-foot sidewalks with hand rails for pedestrians.

It will give the community its only clear route at all times through the railroad which cuts the north one quarter of the town off from the business district.

Cunningham reported an addition $60,000 has been allowed on the job for contingencies. One of the contingencies that has already arisen is the driving of piles to protect the town's sewer and water mains, running alongside the underpass, from caving-in.

A temporary one-track railroad will be eliminated when the three regular tracks are relaid over the underpass, Cunningham said.

There is no definite date for the job to be finished. Sometime this fall or early winter is expected to see the subway in use.

Train Hits Camel

Centralia, Ill. — It took a lot of explaining, but engineer Charlie Mathis finally convinced an Illinois Central railroad dispatcher that a passenger train collided with a camel.

Complying with railroad regulations, Mathis telephoned a report of the incident to a dispatcher in Carbondale:

Train No. 15 hit a camel at Belleville and broke one of its legs.

"You must be seeing things," the dispatcher said. "Take another look and see if it isn't a pink elephant."

Mathis assured the dispatcher the animal was a camel.

"It has a hump in its back, it doesn't have a trunk and its face bears a striking resemblance to some of our dispatchers," he said.

The camel belonged to a circus, showing in Belleville and had been tethered too close to the track.

Splints were placed on the injured leg.

Control Measure For Insect Damage To Shade Trees

Numerous enquiries have been received at the Lands and Forests District Office regarding insect damage to shade and decorative trees in and about Kenora.

Invasions of the White Pine Aphid, Spruce Budworm, Woolly Elm Aphid and needle scale predominate, although the severity of the damage is slight.

Control measures for a great many of the sucking insects as named above include the use of Malathion 50% Emulsible Concentrate applied by sprayer in two applications, 10 days apart. The solution should be mixed - 2 teaspoons of Insecticide to each gallon of water.

K. A. S. Newspaper Bingo Starts Today

The Kenora Agricultural Society newspaper bingo starts today with the drawing of the first number G-55.

The Agricultural Society is staging the newspaper bingo instead of the usual car draw. Proceeds will help with expenses of the annual exhibition and flower show and also to help complete the fair building at Rabbit Lake.

The Bingo number will be drawn each day at two o'clock and published the same day in the Miner and News. The number will also be shown on the master card in Johnson's Pharmacy window.

The society is most grateful for the help given by local merchants and they are asking for the co-operation of all in making this bingo a success.

Cash prizes totalling $800 await the lucky winners, cards at 3 for $1.00 may be purchased from local stores or any member of the society.

FILM BOARD WINS MAJOR AWARD

MONTREAL — A National Film Board film "Short and Suite" has captured one of the major awards at the Venice International Documentary Film Festival, according to word received today at the Board's Montreal headquarters. The Canadian film won in competition against one hundred and forty films from twenty-five countries.

"Short and Suite" is a five-minute color film created by Norman McLaren and Evelyn Lambart. It is described as "a picture in which rhythmic flights of light and color portray the mood music of a jazz ensemble". The music was written by Eldon Rathburn, NFB staff composer.

The award was made by the International Committee of Film Education and Culture for "creating a perfect synthesis between music and pictures."

TWO CAR COLLISION THIS AFTERNOON

A two car collision at 1.00 this afternoon at the junction of Main Street North and the subway, extensively damaged two vehicles.

Involved in the accident was a Pontiac car owned by J. W. Berry and a Town Utility truck. No one was injured.

CAN PLAY LOSES NO PAY

SYDNEY, Australia — Refrigerator mechanic Bill Harrison of suburban Waverley has fought a losing battle for years against slot machines.

Now he has taken the fight a stage further — he has installed a machine by his bedside so he can play until his "arm is too sore to bother any more."

And what is more important, Bill, a self-confessed addict who once lost the equivalent of about $1,700 on the machines in a six-month spree, cannot lose.

Last weekend he bought an old machine in an auction and now, as his week's pay disappears through the slot, all he has to do is open the back of the machine to begin playing again.

BANDITS FOILED BY PLAY BILLS

SOMERVILLE, N.J. — Two bandits, one armed with a pistol and the other with a club held up a liquor store and made off with $25,000 — all of it in play money.

Frank M. Lozito, operator of the store, said he had stashed the bogus bills away playfully in a bank deposit bag at the request of his children.

He was working at his desk near the front when the man with the pistol entered. The other bandit came in the back door, carrying what appeared to be a club wrapped in cloth.

"This is it," said the gunman. "Get over behind the counter and get the bag."

Lozito handed over the bag of funny money.

The bandits then ordered him to open the cash register. Before they fled, one of them scooped out $117 — in real U.S. currency.

To compete in world markets, Canada must grow low cost wood.

Some forest taxation discourages proper forest management.

KEEWATIN NEWS

Mrs. Kember

Mr. Frank Trombly has returned to Toronto after visiting with his uncle and aunt Mr. and Mrs. Peter McPherson.

Mrs. Walter Collings has returned home after spending a few days in Winnipeg.

Mr. and Mrs. D. Smith and family of St. Vital, Manitoba spent the past weekend at the home of Mr. and Mrs. Peter McPherson.

Mr. and Mrs. Terrance Murphy and family have returned to Nakina Ontario after visiting at the home of his mother Mrs. James Murphy.

Mr. and Mrs. M. McKellar and daughter Sandra have arrived from Montreal to visit with the former's parents, Mr. and Mrs. Jack McKellar.

REDDITT

By Mrs. P. Ferguson

Mr. and Mrs. Victor Mislauck of Redditt are pleased to announce the birth of a baby boy. Born Saturday July 11th at St. Joseph's Hospital Kenora.

Jack Sutherland of Holland Manitoba arrived in Redditt on Saturday July 11th where he will spend his holidays at the home of his aunt, Mrs. Ferguson and other relatives in Redditt.

Mr. and Mrs. J. Akister of Transcona are spending their holidays at their summer home in Redditt having arrived this week.

Many campers are enjoying a restful holiday in Redditt making this small place friendly and enjoying good bathing, outdoor picnics and pleasant scenery.

POLICE FINALLY NAB RACCOON

Providence, R.I. — The vagrant led police quite a chase. When spotted in a room at the Maple Hotel he fled.

Later he was captured in the room of superintendent of business building in Westminster Street.

Police took no chances. They slipped a noose around his neck.

The raccoon was locked in a clothes hamper until officials came up with a solution.

OLSON—ZIMMERMAN

On July 6th at 7 p.m., a quiet but pretty wedding was solemnized at the Keewatin United Church Manse when Era Zimmerman, daughter of Mr. and Mrs. A. Zimmerman of Whitemouth, Manitoba, and Douglas Olson, son of Mr. and Mrs. Bert Olson of Kenora were united in marirage by the Rev. A. E. Dunn.

The bride was attired in a navy blue suit, with pink gloves and hat. She carried a navy bag with matching shoes. Her corsage was of red rose buds.

Attending the bride was her sister, Mrs. Dorothy Coulter who chose a pale blue suit with pink accessories and a corsage of red rose buds.

Mr. Eddie Olson of Kenora acted as best man for his brother.

Following the ceremony, a reception was held at the home of the groom's parents, Mr. and Mrs. Bert Olson.

A dainty buffet lunch was served by the hostess after which the newlyweds left for a trip to the United States.

Upon their return they will reside in Kenora.

14 Model Aircraft Builders Win Trip To Europe

Paris, France,—Fourteen young Canadian model aircraft makers put down at Orly airport here aboard an RCAF Comet jet transport, to begin an Air Force-sponsored two week tour of Europe and the Canadian NATO Air Division.

The youths were winners of an RCAF nation-wide model aircraft contest, organized in connection with the 50th Anniversary of Powered Flight in Canada and the 35th Anniversary of the RCAF.

Before returning home aboard an RCAF Transport, the boys will visit top tourist attractions in five European countries, and will see the RCAF's NATO Air Division in action.

The party will also tour Paris and the Palace of Versailles, before being flown to the RCAF's 2 Fighter Wing, Grostenquin, France and the 2 Wing and Air Division headquarters at Metz France, as well 3 Fighter Wing at Zwiebrucken, Germany.

They will also board a Rhine Steamer for the world-famed river trip from Mainz to Coblenz and return, and will spend the night at picturesque Wiesbaden in Germany.

The boys will visit the RCAF's 4 Fighter Wing at Baden-Soellingen, Germany, and the nearby fashionable spa resort of Baden-Baden, and will be taken on a motor tour of the Black Forest.

On Monday, July 20, they will visit the French border city Strasbourg, where they will tour the Headquarters of the European Coalition. During the week they will visit the Air Division's 1 Fighter Wing at Marville, France, as well as Brussels, Belgium, and the nearby battlefield of Waterloo.

A one-day trip to Luxembourg City, capital of the tiny Duchy of Luxembourgh is scheduled for Thursday, July 23, and the following day the party leaves 1 Fighter Wing, Marville, aboard and RCAF aircraft for London, where they will spend several days in the British capital. They return to Dorval, P.Q., aboard an RCAF tranport July 28.

The boys are accompanied by Flight Lieutenant K. K. Young, RCAF conducting officer, and Lorne Williams, civilian co-ordinator. Mr. Williams, a member of the Department of Mines and Technical Surveys, drew up the model specifications for the contest.

Around Town

Mr. and Mrs. J. S. Lambert, 220 Denkirk Heights are to-day celebrating their silver wedding anniversary. Sam and Daisy were married July 16, 1934. Rev. A. R. Maunders of Knox United Church officiated at the ceremony.

Mrs. K. G. Smyth and daughter Rhonda of Montreal are visiting for a few weeks with her parents. Mr. and Mrs. J. D. Pedden.

Miss Denoris Green, R.N., who has been visiting with her parents, Mr. and Mrs. Magnus Green, left Wednesday with Miss Carole Kaeserle R.N. of Saskatchewan for Europe where they plan an extended visit. The girls will tour some eighteen countries as well as nursing at the University Hospital, Lund, Sweden

THANK YOU

I would like to take this opportunity to express my sincere thanks and appreciation to all those who assisted my children and myself after the fire which destroyed our home.

To all those who sent clothing, furniture, household necessities, the Empty Stocking Fund, all cash donations, those who contributed to the Miner and News fund, the Red Cross and Mrs. M. Whiting a Special thank you.

Mrs. Joan Lindsay.
Chris and Joy.

Weddings

HERMAN—SMITH

St. James Anglican Church, Keewatin with the altar banked with white peonies and ferns and large standards of pink and white peonies, provided the setting for the candlelight service on Wednesday, July 8th, at 3 p.m. when Charlotte Smith of Prince Albert, daughter of Mr. and Mrs. Thomas Smith of Fort Vermillion Alberta, and Malcom Herman of White Dog, Ontario son of Mr. and Mrs. Robert Herman of Italy Cross, Nova Scotia were united in marriage.

Rev. J. W. Whitford officiated assisted by Rev. S. Tomes of St. Alban's Pro Cathedral, Kenora.

Mrs. S. Ford organist presided at the organ. The choir prefaced the service with the hymn, "The Voice that Breathed O'er Eden".

The bride, given in marriage by Mr. A. E. Mitchell, was lovely in a full length gown of nylon net, nylon and acetate lace over taffeta and crinoline. The fitted lace bodice featured centre trimming of self covered buttons, a high neckline with lace bolero collar and lily point sleeves. The bouffant skirt was of nylon net with tiers of lace.

Her finger-tip veil of silk illusion edged with nylon lace was held in place by a tiara, jewelled with simulated bead and pearl trim. She wore pearl earrings and carried a white prayer book over laid with lace, a white orchard and stephanotis from which fell white satin streamers and white bows centered with stephanotis.

The bride was attended by Miss Helen Charles of Prince Albert, Saskatchewan. She chose a yellow cocktail length sleevless gown in silk organza over satin and crinoline with matching bolero.

The high waisted fitted bodice had a soft moulded neckline while the bouffant skirt featured a front panel accented with a maching bow on a shirred cummerband.

Her headpiece was of white feathers, and she wore matching yellow mittens, a gold cross and chain and carried a bouquet of mauve mums.

Mrs. A. Mitchell, proxy for the bride's mother wore a two piece silk dress in turquoise, with white trimmings complemented by white accessories. Her corsage was of red and white carnations.

Rev. S. Tomes was the best man, Mr. H. Lord of Kenora and Mr. A. Hatcher ushered the guests.

Following the ceremony a reception was held in the Parish Hall which was decorated with pink and white streamers, wedding bells, pink and white peonies ferns and roses.

The bride's table covered with a lace crochet cloth was centered with a three tiered wedding cake topped with a miniature vase of pink and white rose buds and flanked by pink tapers.

The toast to the bride was proposed by Rev. J. W. Whitford Rev. S. Tomes acted as master of ceremonies and read the messages of congratulations.

Mr. and Mrs. Herman left for a wedding trip. For travelling the bride chose a sheath gown in brown silk-topped with a beige coat and matching hat and brown accessories. A white orchard and stephanotis completed her ensemble.

They will reside at the Anglican Mission, White Dog Ontario.

Guests attending the wedding from out of town were:

Mr and Mrs. G. Romero, Miss L. Godd from Sioux Lookout, Ontario. Mrs. Loraine Castle and Miss Marilyn Castle from White Dog, Ontario, Rev. Ted Weare from Red Lake, Ontario, Miss Bernice Hunter and Miss Helen Charles from Prince Albert Saskatchewan.

Hanna Jasielkiewicz, 21, whose 45-year-old Hamilton, Ont., husband demanded she be deported, charging she married him in Poland only to get to Canada and then deserted him, says it's he who should be deported. Jasielkiewicz travelled to Poland to find a bride and married Hanna, leaving her behind. She said he promised her a good life and when she arrived she found him jobless.

HE'S FOR THE BIRDS

Paul Edwards of Hamilton, Ont., is known in his neighborhood as the "bird boy." Paul seems to have a way with the feathery creatures. His pet robin thinks nothing of perching on a glass when he's thirsty and he acts as an alarm clock in the morning too.

Canada Council Pays For 180 To See Shakespeare

Ottawa. — Textbook Shakespeare will come alive for 180 students at the Stratford festival.

A lot of Canadian geography probably will come alive too, when the teen-age boys and girls from Yukon to Newfoundland meet in the Southwestern Ontario town.

The students, along with 20 chaperones, will attend the festival July 22-24 on an all-expense-paid jaunt sponsored by the Canada council at an estimated cost of $25,000.

They will see Shakespeare's "As You Like It" and "Othello," and the gay Offenbach opera "Orpheus In The Underworld."

Students will get a chance to visit backstage and to meet actors and singers. And when it is all over, each student has been asked to write to the Canada council and say what he thought about the trip.

In the group of youthful school dramatists, singers and school newspaper editors, 17-year-old Donald Higgins of Bell Island, near St. John's Nfld., may meet Mabel Pokiak, 18 , an Eskimo girl at school in Yellowknife, N.W.T. Her home is at Tuktoyaktuk, well within the Arctic circle and about 100 miles northeast of Aklavik.

One Northern Ontario school girl will hop a train at a level crossing closest to her home—105 miles by road from the CNR main line.

Among other items in the youthful travellers' arrangements are meals on the train. The 27 students and three chaperones from the four Atlantic provinces, for example, will eat 379 train meals during their round trip.

Thirty-six students are going to Stratford from the three prairie provinces, 23 from British Columbia, 46 from Ontario and 45 from Quebec.

Teach 30 Eskimoes To Look For Gold

Churchill, Man..—Geiger counters may become standard equipment for Eskimos in this area within the next few years.

The department of northern affairs has hired Harry Leavitt, assistant mines manager for North Rankin Nickel Mines here, to teach a class of 30 Eskimos the facts of geology.

Twenty-four mineral sample sets, prospector's picks and magnetic compasses have been sent for use of pupils. Each tray contains 50 rocks and 50 minerals.

When an Eskimo graduates, he will be able to search for gold that has been discovered in small quantities on the muskeg surrounding Churchill.

Ontario Teenagers Sweep Road-E-O

Galt. — Robert Good, 18, of Fort William, captured first prize and a $1,250 scholarship as Ontario drivers swept the national teenage safe driving road-eo here.

Ronald Kunnas, 18, of Port Arthur took second spot and a $750 scholarship in the road-eo conducted by the Canadian junior chamber of commerce. Third place and a $500 scholarship went to Joseph Sebestik, 19, of Guelph.

The results were announced at Sunday's awards dinner by J. B. Humphrey of Toronto, vice-president of the sponsoring body.

Claim Successful Transplants Of Teeth

TORONTO — A Toronto physician and dentist has claimed the first successful transfer of teeth from one person to another, it was learned here today.

Dr. Samuel W. Leslie, in a scientific paper to the International Congress on Plastic Surgery in London, reported three successful transplants to Harvey Eisen, 19, of Toronto and his son Peter Leslie, 24.

Eisen, the first patient, has a lower eye tooth transplanted from his sister Jill, 11, who had to lose the tooth for orthodontic treatment. The transplant took place 18 months ago and x-rays show a new root.

FELT FUNNY AT FIRST

Eisen said in an interview: the best tooth I have. It felt a little funny at first . . . Now it is completely firm and I can bite or chew as hard as I like with it."

Peter Leslie has two upper teeth transplants, one from a nine-year-old girl and one from an 11-year-old girl. Both had to lose the teeth in treatment.

Young Leslie said today the two teeth are "like my very own."

In his paper, Dr. Leslie said the work is a pilot project and further clinical, radiographic and blood tests on the two patients are needed.

A former president of the College of General Practice of Canada, he said there is similarity between his tooth transplant technique and that employed in skin grafting.

His technique uses the sac which surrounds the tooth during its growth.

Dr. Leslie said he sews the sac around the transplanted tooth and believes it is this attachment which helps the transplant "take."

Picturesque Press Dep't: "Josephine Farias, who spoke on 'Nature,' narrowed her topic down to astronomy, biology, geology, heavenly bodies, living things and earth formations"—Mason Valley newspaper. "A custard pie makes a neat holder for a partly used piece of steel wool"—Wilmington newspaper. "An eye witness was Winston Dawson who was not at the scene at the time"—Vancouver newspaper.

A Verse for Today . . .

Finally, brethren, whatsoever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue, and if there be any praise, think on these things.—Phil. 4:8

Don't underestimate the teenagers. They are keener than parents sometimes suspect. As for instance one young lady we know who apply described herself as, "An independent dependent."

In a week or so a Los Angeles television station will launch a most unusual weekly program—it will be a half-hour showing of commercials—nothing else. It could at best prove to be a splendid opportunity for those TV fans who like to turn off commercials in one fell swoop.

Salesman Required

TO SELL: Service parts of quality to the Automotive, Industrial, Marine and Contracting fields.

Our Company, since its inception in 1927 has gained world-wide recognition as a supplier of these parts. Its growth is a result of continually anticipating, meeting and satisfying customer needs. This Canadian subsidiary is an affiliate of one of the oldest and largest firms of its type in the U.S.A. with a Dun & Bradstreet rating of AAA 1.

Our leading salesmen in Canada earn commissions in excess of $10,000.00 yearly and the salesman we are looking for should have the following qualifications: married, between 30 and 45 years of age, capable of functioning independently, a good mixer and must be motivated by a desire, through hard work, to earn a high rate of commission without close supervision.

The most important credential with which we are concerned is that the applicant has established a record of being a successful salesman with a past record of reliability. He must have a car in good condition and must be able to finance himself for sixty days to work the general area of Northwestern Ontario. This is a proven territory with a volume of established business. A real opportunity awaits the fortunate applicant.

A representative from the Toronto Office will be at the Kenricia Hotel, Kenora, Ontario to interview interested applicants July 22, 1959.

Personal interviews will be arranged through the National Employment Office, 10 Main Street, Kenora.

One citizen who thinks new school expansion has pushed his local taxes sky high, wants to know what can be done to have the schools occupied in summer. A student-age group asks, in turn, "With What?"

Senate Gives Go Ahead For Border Bridge

OTTAWA — The senate transport committee today gave unanimous approval to two bills authorizing construction of international bridges across the Niagara River and across the Pigeon River near Fort William.

The bridge across the Niagara would extend from Queenston, Ont., to Lewiston, N.Y., and that across the Pigeon would link Minnesota and Pigeon River, Ont.

The Pigeon River bridge replaces one built in 1930 while the Niagara bridge replaces one constructed in 1896.

The Pigeaon River bill authorizes Ontario to enter into an agreement with Minnesota for construction of a toll-free bridge. Under the Niagara legislation, Ontario is authorized to designate an authority to construct a toll span.

EXTEND ACROSS BORDER

Federal approval of the projects was made necessary by the fact that the bridges will extend across the international border.

An external affairs spokesman said plans call for the Niagara span to be built by the Niagara Falls Bridge Commission but this could not be specified in the act as the commission has no corporate identity in Canada.

The bridge will link up the New York state Thruway and Ontario's Queen Elizabeth Way. The Piegon River bridge will provide a faster highway connection between Fort William and Duluth, Minn.

Detailed plans of the bridges have not been drawn.

The Senate Tuesday gave second reading—approval in principle—to the two bills.

Senator Walter Aselline, government leader, said tolls for the Niagara River bridge would be set by the board of transport commissioners. He did not give the size or cost of either bridge.

Pair From Britain Lives It Up on $1

By the Associated Press

Montreal

Bernard and Edith Cowderoy, a British couple who are 73 and 71, respectively, have just completed a 14,000-mile North American trip at a cost of $1 plus the price of gasoline. They brought their own food from Britain.

They traveled in a caravan-type of vehicle built over a truck. It is equipped with a mobile double bed, a kitchen, and even a sink. They bought canned food supplies in London, and arrived in Montreal last May 2.

The dollar they spent? That was for overnight parking one night.

Some working members of the family can remember way back when most of the figures on a pay check meant money due the worker—not a long row of figures denoting deductions.

MAIN STREET AT LAKE OF THE WOODS

Health Minister Endorses Salad Week, July 24 - 31.

In a statement endorsing "Salad Week" which is being held this year from July 24 to 31, Health Minister Matthew B. Dymond said, "Overweight is becoming a medical problem in this age of labour saving devices and one of the most pleasant ways to avoid it is to eat more of Ontario's abundant fresh fruits and vegetables."

"Fruits and vegetables are relatively low in the carbohydrates that raise body heat and may produce excess weight," said Dr. Dymond. "And in Ontario, there is excellent selection and ample supply. In July and August, 31 kinds of fresh fruits and vegetables from our fields and orchards are available.

"A cool crisp salad on a hot summers' day is refreshing, non-fattening, and nourishing. Tomatoes are rich in Vitamin C, leafy green and yellow vegetables are rich in Vitamins and minerals that aid growth and protect health.

"For both children and adults, a well-balanced diet should include generous proportions of fresh Ontario fruits and vegetables."

WITNESSES RETURN FROM CONVENTION

Members of the Kenora congregation of Jehovah's Witnesses returned July 13 and 14 from the "Awake Ministers" District Assembly held in Winnipeg July 9 - 12.

The Winnipeg assembly was one of a series of 29 such conventions to be held this summer in Canada and the United States.

Mr. John Freeman, presiding minister, said many whole families attended, most of them travelling by car. Among the many topics discussed, special Bible counsel was given parents and youths.

Featured speaker was Percy Chapman, Superintendent of Jehovahs' Witnesses in Canada. He spoke on "When God Speaks Peace To All Nations" to the 5,367 assembled in the Winnipeg Arena.

Noteworthy at the assembly was the outstanding growth of the modern day organization of Jehovah's Witnesses. Mr. Freeman said in the past 20 years there has been a 126% increase and that there are now over 800,000 world wide.
