FIRST GAME OF FINALS

Good Hitting and Pitching Pay Off; Keewatin Indians Whip Dryden 8-4

The surest way to win a baseball game is to combine fine pitching with timely hitting. That's exactly what the Keewatin Indians did last night in Dryden as they won the all-important first game of their best of seven Kenora District Baseball League finals from the pennant-winning Dryden Red. Sox by an 8-4 count.

Gerry Curle fashioned a neat four hit effort while sending seventeen Sox back to their bench via the strikeout route. His wildness, he walked nine, and his mates four errors kept him in hot water almost all the way and it wasn't until the eighth and final frame that the Indians made sure of the game.

Smith walked with one out in the opening frame and scored when Manager Jim Ortlieb dropped a double near the fence in deep right field. Crawford, who started for Dryden settled down and fanned both Ken Jorgenson and Pat Angers.

In the Dryden first, Sam Doherty, Johnny Harpell and Lorne McDonald were walked in succession to load the bases with none out, but the Sox could garner only one run and this rather tainted. Bob Darcis flied out to Angers in short left and when Len Dyck fanned for the second out, the ball rolled back to the screen allowing the speedy Doherty to score the tying run.

Shortstop Lorne McDonald's error started the Keewatin fourth frame, as Jorgenson reached safely. Angers fouled out to Doherty but back to back singles by Jim Whyte and Gerry Curle sent Jorgenson in to score. Ron Morgan fouled out to the first-baseman but both Whyte and Curle scored when Jackie Salmon's grounder went through Harpell's legs for the second Sox error of the inning.

In the Dryden fourth, Terry Brown doubled to the fence in left centre for the first Red Sox hit. He watched both Walonin and Crawford strike out before Doherty drew a walk. When Whyte erred on Harpell's grounder, the sacks were loaded but Lorne McDonald went down swinging.

With two out and the bases loaded in the Keewatin fifth an error by Wolanin at third for the Sox allowed another runner to cross the plate.

Strange to say with the bases still loaded, Ron Morgan picked up a single but no further runner scored, because it was an automatic single due to the fact that the ball hit the runner speeding towards third base.

Bob Darcis started off the Dryden fifth by rifling a shot through the box. He went to second on a passed ball, to third as Salonen was being retired on a fine play by Curle who knocked down a smash to the mound. An error by Whyte allowed Darcis to score.

Dryden made it a 5-4 ball game in the sixth when Doherty opened with his third free pass. Harpell flied to Jorgenson and Doherty held first scoring when McDonald sent a long double to centre field. Darcis was safe on Jimmy Whyte's third error of the night. Dyck fanned for the third time but Salonen singled to centre scoring McDonald and sending Darcis to third, but Salonen was cut down trying to reach second on the play.

A long fly to centre field by Jim Ortlieb which Cliff Robertson pulled in against the fence in a spectacular play started the seventh. Jorgenson singled deep to centre and Angers singled to left, sending Crawford to the showers. Four of the five runs he allowed were unearned. Luke Bouchard came on and forced Whyte to pop out, hit Curle on the leg and then forced Morgan to ground into a force-out.

Curle meanwhile was exceedingly sharp as the dusk settled in, fanning five consecutive batters in the seventh and eighth. Keewatin touched ex-teammate Bouchard for three runs in the eighth as Salmon and Johnson singled before Smith walked to load the sacks. Ortlieb fanned but Jorgenson singled for one run and then Angers singled for another two.

Fielding plays worthy of note besides Robertson's robbery of Ortlieb would include Anger's first inning grab of Darcis' fly and Harpell's leaping grab of Jack Salmon's bid for a hit.

Angers with three and Jorgenson and Curle with a brace each led the hitters.

Neither team played as well as they usually do, the Indians perhaps because they are feeling the effects of the recently completed series with the Kenora Legion and the Red Sox definitely are suffering from a four week layoff from league play.

The second game of this best of seven set goes at the Keewatin park tomorrow night. Seats will be at a premium, why not be on hand early. Game time is 6.00 p.m.

Lower Bag Limit For District Duck Hunters

Ontario duck hunters won't be allowed more than six ducks a day this season, according to a report from Assistant Sr. Conservation Officer M. Linklater.

The Canadian Wildlife Service has announced that the wildfowl population has declined in most parts of Canada. To meet this situation, the bag limit on ducks hunted in all Provinces, are being reduced until the duck population recovers. The bag limit on ducks this year will be 6 instead of 8 as it was last year. The possession limit has been cut from 16 to 12. Limits on geese, rails, coots and gallinules, Wilson's snipe and woodcock remain the same. The bag and possession limits are 5 and 10 for geese; 25 for rails, coots and gallinules; 8 and 18 for Wilson's snipe; and 8 and 17 for woodcock.

The season in the Kenora, Sioux Lookout and Fort Frances Districts remains the same as last year. September 15, 1959 to December 15, 1959 both dates inclusive.

Special limitations will govern the hunting of canvasbacks and redheads, which are expected to be seriously affected by the prairie drought.

The daily bag limit may not include more than 4 canvasbacks and redheads, and not more than 8 may be possessed.

Hunters may use power-boats to retrieve crippled or dead birds from the water this year provided they do not move more than 200 yards from their blind and do not carry loaded guns.

A Greater Power Had Taken Over

Westbourne, Man.—Just about everyone was working Wednesday to save the life of 16-month-old Raymond Macauley, son of a C.P.R. Section Foreman at this town 73 miles west of Winnipeg.

The engine crew noticed the toddler on a public crossing 100 yards in front of their C.P.R. freight train which was travelling at about 20 miles an hour.

Engineman T. L. Scott applied the emergency brakes, blew the whistles and rang the bell in warning.

Trainman J. G. Stephenson and fireman A. Lester climbed rapidly to the running board of the unit to try to snatch the child from death.

But the youngster was struck, fell between the rails, and the diesel and five cars rolled over him, the brakes screaming.

When they recovered him from under the train, he had only minor cuts to the forehead.

Some greater power had taken over.

Some paperboard is made of wood pulp and some is made, in whole or in part, from straw, or from re-pulped paper.

Severe Storm Hits Manitoba, N. W. Ontario

Southern Manitoba and parts of Northwestern Ontario were hard hit by the severe electric storm which struck early this morning. Near Nipigon, Ontario, the main line track of the CPR were washed out and traffic has been tied up all day. The CPR reports that no trains are running today. Trains No. 1 and No. 2 have been rerouted via the CNR.

The highway at both ends of the town were also washed out, and several houses struck by lightning, during the storm which was of some seven hours duration.

In Winnipeg, power lines were knocked out of kilter which in turn set off burglar alarms and fire alarms sending policemen and firemen on many a wild goose chase. Three houses were also struck by lightning but little damage was done.

Magistrate's Court

Two visitors from Wisconsin were charged in court this morning by the Department of Lands and Forests. The first man paid $33 and costs when found guilty of having more than the limit of yellow pickerel in his possession; the other man paid $25 and costs for having a gun in his possession during the closed season. He also had his gun confiscated.

A Jaffray-Melick man charged with assaulting his wife was ordered to post a bond of $250 and was placed on a two year suspended sentence.

Another Jaffray-Melick resident was fined $10 and costs when found guilty of driving a motor vehicle without a licence.

A woman appearing for a third time on drunk charges was fined $150 and costs or three months. Three second offenders paid $50 and costs or thirty days and the first two offenders were fined $10 and costs or seven days. Having wine at a place other than a residence cost a second offender $50.

The Tree Farm Movement originated within, and obtains its impetus from the pulp and paper industry of Canada.

BIRTHDAY PARTY FOR 12 MARKED TUESDAY

Twelve residents of Pinecrest celebrated their birthdays Tuesday at Pinecrest, at a monster birthday party sponsored by the Ladies' Auxiliary to the Home. The twelve residents whose birthday falls in the month of August are: Mrs. E. Whitehead, Mrs. A. Ames, Mrs. M. Lott, Mrs. J. Woife, Mr. M. Cardinal, Mr. Kolody, Mr. O. Haglund, Mr. F. Schmidt, Mr. J. Youman, Mr. P. Anderson, Mr. H. Tilley and Mr. S. Dyseth.

The honoured guests were seated around a table centred with sweet peas from Mrs. J. Saunders garden and a white frosted birthday cake decorated with red roses and green leaves donated by the Lakeside Bakery.

After the lighting of the single candle on the birthday cake and the singing of "Happy Birthday" Mr. Dyseth, one of the honoured guests, expressed the appreciation of all for the party, and for the efforts of the auxiliary and other groups and individuals on behalf of the residents.

Miss Helen Dubenski favoured those present with vocal and piano solos which were thoroughly enjoyed by all. Among the numbers were Waltz of the Flowers, Sometimes, and Till We [illegible] accompanied by her mother on the mandolin in one of the numbers. Tea and birthday cake were served by members of the Ladies' Auxiliary. The servitors were as follows: Mrs. Wilson, Mrs. D. Lambert, Mrs. K. McCullouch, Mrs. R. Sinclair, Mrs. T. Brown, Mrs. W. G. Saunders and Mrs. Paul Dubenski.

38 Forest Fires To Date In The District

The fire record to date for the Kenora District stands at a total of 38 fires. These have burned 55 acres of forest land.

This record shows that over 63% of the fires were caused by humans. Carelessness in setting brush fires, camp fires and with smoking materials are the leading causes. These fires could be avoided with the proper attitude and attention to the handling of fire in the forest.

PLEASE BE CAREFUL

Well Known Visitor Died In Norway

Residents of Kenora who made friends with Mrs. Ragnhold Berby of Norway who spent some time visiting in Kenora in 1957 and 1958, will be saddened to learn that Mrs. Berby died in Norway, August 12th following a short illness. She is survived by her husband John. Mrs. Herman Johnson of Kenora, a sister, also survives.

During her stay in Kenora, Mrs. Berby worked during the winter at the General Hospital. The couple spent some eighteen months in Canada.

1½ Inches Of Rain Drenchs Town

The violent electric storm that struck Kenora late last night and early this morning dumped over one and a half inches of rain on the area. No reports of excessive damage have been received even though the lightning display was of severe intensity. Drains and sewers were taxed to capacity and in some cases basements and yards were flooded.

The weatherman has forecast [illegible] for this area for the remainder of today with clearing skies sometime on Friday.

The pulp and paper industry spends more on forest protection than the provincial governments, the owners of the forests. The mills have a greater investment in fire fighting equipment than the provinces.

JUST FOR TODAY

Just for today I will try to live through this day only, and not tackle my whole life problem at once. I can do something for twelve hours that would appall me if I felt that I had to keep it up for a lifetime.

Just for today I will be happy. This assumes to be true what Abraham Lincoln said, that "Most folks are as happy as they make up their minds to be."

Just for today I will adjust myself to what is, and not to try to adjust everything to my own desires. I will take my "luck" as it comes, and fit myself to it.

Just for today I will try to strengthen my mind. I will study. I will learn something useful, I will not be a mental loafer, I will read something that requires effort, thought and concentration.

Just for today I will exercise my soul in three ways: I will do somebody a good turn, and not get found out; if anybody knows of it, it will not count. I will do at least two things I don't want to do—just for exercise. I will not show anyone that my feelings are hurt: they may be hurt, but today I will not show it.

Just for today I will be agreeable. I will look as well as I can, dress becomingly, talk low, act courteously, criticize not one bit, not find any fault with anything, and not try to improve or regulate anybody except myself.

Just for today I will have a program. I may not follow it exactly, but I will have it. I will save myself from two pests: hurry and indecision.

Just for today I will have a quiet half hour all by myself and relax. During this half hour, sometime, I will try to get a better perspective of my life.

Just for today I will be unafraid. Especially I will not be afraid to enjoy what is beautiful, and to believe that as I give to the world, so the world will give to me.

VANDALISM AT SCHOOLS CONCERNS TRUSTEES

All public places seem to have a certain affinity to vandalism or wilful damage and schools are no exception. While [illegible] do not know the reasons [illegible] such malicious acts, we do know the results run into millions of dollar every year in Canada.

The Public Schools of Kenora come in for their share of such vandalism. Some of it consists merely of pranks, as when some boys start a big tractor and cannot stop it until they have dislodged a few bricks from one corner of the school. It becomes more serious when considerable damage is inflicted. Early this spring, some boys found a steel ball and decided to bounce it off the wall of a school. Before they were caught, many bricks at the front of South Ward School were chipped and cracked. There is no way to assess the damage, but to replace the bricks would be a major job costing thousands of dollars.

While most window breakages are accidental, windows broken by BB gun pellets or stones do not fall in this category. Quite a number of large window panes have been replaced at King George VI School this year as a result of such missiles. Having the windows smeared with soap as happened at the same school last fall, creates a lot of extra work for the maintenance and caretaking staff. The Public School Board is spending large sums of money in building the schools and improving the grounds. It is very discouraging to find brand new bicycle racks torn from their concrete base or newly laid sod scattered by the wheels of careening automobiles! This is just what happened at King George VI School this summer.

These are but some instances of the vandalism that is costing the taxpayers of this and other communities many dollars each year. At a recent School Trustee Convention, the Ottawa Public School Board drew attention to this whole situation in a Resolution. They pointed out that Juvenile Courts in Ontario have only two methods available for dealing with such offences: First, to send the offender to a Training School for an indefinite period of time; second, to put the offender on probation which is limited in effectiveness by the terms of the pro[illegible] co-operation [illegible] the condition [illegible] in the [illegible] tion called [illegible] stee Association to [illegible] the Federal and Provincial Governments to enact legislation to provide:

1. that parents be held civilly liable for acts of vandalism of their children.
2. for the establishment of an intermediate training School for first and second offenders.
3. that the Juvenile Court in proper cases be allowed to order corporal punishment to be administered before witnesses by an authorized person.

It would seem that more effective measures are required to curb the growing incidence of wilful damage.

And The Bells Began To Ring

Residents of Norman wondered why the bells began to ring at the Sacred Heart Church shortly after midnight. It could have been that a special mass was being said but according to Monsignor Hebert such was not the case. It seems that during the storm, lightning had hit the electric system which started the bells to peal and put all the lights on in the church. No damage was done to the church.

Employment Jumps To New High Record In July

Ottawa — Canadian employment jumped by 153,000 to a record 6,206,000 jobs in July, the federal government reported.

At the same time, unemployment fell off slightly to 228,000 from 234,000 a month earlier. The number of jobless in July, 1958, was 291,000.

The figure of those with jobs at July 18, topped the previous peak of 6,053,000 in June mainly as the result of seasonal expansion in agriculture. Farm employment accounted for about two-thirds of the increase over June.

Juvenile Baseball

Kenora Cubs go one up in a best of three for district championship. Next game in this series in Keewatin Saturday, August 22nd, game time 6 o'clock. In the best game of the season, before the largest crowd of the season, with a good representation from Keewatin, Cubs came up with a big one to take a lead in best of three series for Juvenile district championship. This corner would not predict the outcome of the series judging by the calibre of ball these boys played last evening. The series could go the limit of three games or possibly more. Each and every player was on the ball. Bobby Ames hit one over every opposing player's heads into deep centre, but smart efficient fielding by W. Garrow who moved fast and got that ball into home plate, cutting Bobby off. The fielding of both teams was superb, all in all it was an exciting game throughout. While Keewatin was out hit and outrun they proved they can play ball, Cubs were never extended like they were last night. Score by innings:

	1	2	3	4	5	6	7	8	H	E
Cubs	0	1	2	4	5	1	1	x	14	4
Kee.	2	1	0	1	1	0	1	3	9	4

Winning pitcher Blair Swanson; Losing pitcher Tommy Hemminger.

We are sorry about the accident to player Hemminger of Keewatin, and hope his foot will be O.K. by Saturday, because he is a boy that surely would be missed by any ball club, he played outstanding plucky ball for the Keewatin club, we regret this accident and trust there will not be too much discomfort. Our sincere thanks to Bobby Blake, umpire behind the plate, Bill Dunford on third, and to the chap on first, sorry we did not get his name but thanks. To our faithful score keeper and assistant umpire who has not missed a game, always there to help in any way he was asked. Thank You Sid Zawaly.

So it is over to Keewatin Saturday, which could wind up our season, but I do not think so, these Keewatin boys are definitely not out yet.

So until Saturday, bye for now and Good Luck.

THIS IS TODAY

Today is here. I will start with a smile, and resolve to be agreeable. I will not criticize. I refuse to waste my valuable time.

Bill Watkinson.

There Are Lamreys - - - And Lampreys

District Biologist C. F. Schenk of the Kenora Office, Department of Lands and Forests, passes along the following information concerning lampreys and their significance in the freshwater lakes and streams in the Kenora District.

From time to time reports of lampreys being seen and captured throughout the Kenora District filter into the District Office of the Department of Lands and Forests. Several specimens have also been forwarded by persons quite alarmed at finding lampreys circulating in our inland waters and who wonder what the consequences of their occurence might be.

All of the specimens brought to the attention of the Department personnel have been silver lampreys and not the sea lampreys which have caused the decline of the lake trout fishery in the Great Lakes

The two species are quite similar in general appearance, both having large, funnel-like mouths and sharp, horny teeth which radiate outward from the centre. They have no jaws or paired fins and have seven pores along each side of the body on the anterior portion. The silver lamprey may be differentiated from the sea lamprey by its long, continuous dorsal fin. Two distinctly separated dorsalfins are present on the somewhat larger sea lamprey.

Both species have similar life histories. The spawning fish ascend streams in the spring, lay their eggs in depressions and die. The larval lampreys which emerge burrow into the mud where they exist for several years, feeding on plankton and other small organisms. After the larvae develop into adults they move downstream to commence the parasetic phase of their lives.

Silver lampreys apparently do not multiply to the same extent as sea lampreys and their predations are not nearly as significant as those of the larger species. The wounds inflicted by the silver lampreys are smaller and apparently produce much less damage than those caused by sea lampreys.

It is hoped that this information will alleviate the concern of those who become alarmed when encountering silver lampreys or hearing reports about them from their friends.

The pulp and paper industry has made its own way against world competition without subsidies, price floors, guarantees, or similar help. In war or peace, it has always been a contributor to the public treasury.

Can Earn $15 Daily Picking Cones

TORONTO — Any cotton-pickin' person who wants to can earn $15 a day cone-pickin', the Ontario department of lands and forests has announced.

Use a little care—this is, collect the right color — and the department is prepared to pay by the bushel for the cones from red and white pines.

Offices at Parry Sound, Bracebridge, Powassan and Byng Inlet offer $3 a bushel for white pine cones, $6 for red.

White pine cones can be collected from Sept. 1 to Oct. 1 and should be yellowish green with brown tips. Red pine dates are Sept. 15 to Oct. 15 and are ripe when deep purple with the tips of the scales reddish brown.

The cones will be used to produce seedlings for tree planting programs.

THINK IT OVER

If your nose is close to the grindstone rough,
And you hold it down there long enough,
In time you'll say there's no such thing
As brooks that babble and birds that sing:
These three things your world compose
Just you, the stone and your darned old nose.

it's a FACT

In 1783 John Jacob Astor, a poor German emigrant, sailed for America to seek his fortune. On the advice of his shipmates, he decided to enter the fur trade. By trading directly with the Indians, whom he often persuaded to exchange their entire season's catch for a few trinkets or a blanket, and by hard work and being thrifty, he acquired $250,000 in six years.

About Town

Mr. and Mrs. T. E. Edwards and daughter Carolyn of Toronto are vacationing in town, the guests of Mr. and Mrs. T. J. Thomas.

Mrs. E. McLaren of Vancouver and Mr. Allan Steele of Winnipeg were visitors for a few days at the home of Mr. and Mrs. R. D. Macnab. Also visiting at the Macnab home were Mr. and Mrs. T. Simpson of Amherst, Nova Scotia.

Mr. Robert Rude, of Rochester, Minnesota, is a holiday visitor in Kenora and Keewatin, visiting his aunt, Miss Esther Braaten at the 5-spot.

Miss Jo-Anne Braaten of Wadena, Saskatchewan, has returned home after a holiday visit with her sister, Miss Esther Braaten and her brothers and sister at Vermilion Bay.

Mr. Albert Braaten, Vermilion Bay stopped in Kenora, enroute to Wadena, Saskatchewan. Miss Jo-Anne Braaten and Mr. Robert Rude accompanied him west on his trip.

Mrs. Elmer Holmes of Fort Frances, Ontario is spending a few days at the home of her parents, Mr. and Mrs. Charles Fisher, "Pine Cove" Keewatin. Mrs. Fisher has been confined to bed. We wish her a speedy recovery.

Mrs. J. Bellamy and Rhoda were visitors to Fort Frances and Rainy River this week.

Mr. Robert Clint, of Winnipeg, was a visitor in Kenora on Tuesday.

IN MEMORIAM

COOK — In loving memory of our little son Glen who passed away August 20th, 1956.

When the dewy light was fading
And the sky in beauty smiled
The angels came into our garden
And picked our sweetest flower.
Ever remembered by Daddy, Mommy and brothers.

ANNOUNCEMENTS

The regular meeting of Lady of the Lake Lodge No. 420 will be held Friday, August 21st at 8.00 p.m. at Lee Stephen's home.

KITCHEN CLASSICS

PEACH SHORTCAKE

2 cups sifted all-purpose flour
¼ cup sugar
4 teaspoons baking powder
½ teaspoon salt
Few grains nutmeg
½ cup butter
2 egg yolks
⅓ cup milk
6 large or 8 medium peaches
Whipping cream

Sift together dry ingredients. Cut in butter to make fine meal. Beat egg yolks lightly, stir into mixture. Add milk gradually, stir until smooth. Smooth mixture into greased 8 inch cake pan. Bake in 425F. oven about 15 minutes. While still a little warm, split into layers. Pile slightly sweetened peach slices between layers, cover top generously with more peaches and top with whipped cream. Makes 8 to 6 servings.

While at your market, you'll notice the start of the Duchess apples. These are a little sweeter than the first arriving variety, ideal for fresh applesauce and green apple pie. Most everyone has their own favorite recipe, but just in case you need a refresner, try these proportions.

GREEN APPLE PIE

Combine 6 cups sliced apples, 1 cup sugar, 2 tablespoons flour, ¾ teaspoon cinnamon, ¼ teaspoon nutmeg, ⅛ teaspoon salt and 1 teaspoon lemon juice. Fill pastry lined pie pan, dot with a little butter. Cover with top crust, making slits for escape of steam. Seal edges well, flute rim. Bake in hot oven 425F. for 50 to 60 minutes. This makes a generous 9-inch pie.

For something more delicate and utterly delicious, try a fresh peach chiffon pie. You can use either a graham wafer or baked pastry shell.

PEACH CHIFFON PIE

1 envelope plain gelatin
½ cup milk
1 cup sugar
½ teaspoon salt
2 eggs, separated
1½ cups finely chopped fresh peaches
1 tablespoon lemon juice
Drop almond flavoring
½ cup heavy cream whipped

Soften gelatin in cold milk in top of double boiler, place over hot water. Add ⅔ cup sugar and salt, stir until gelatin and sugar dissolved. Pour over slightly-beaten egg yolks, return to double boiler and cook until slightly thickened. Remove from heat, add chopped peaches to which lemon juice and almond have been added. Cool until starting to thicken. Fold in egg whites beaten with the remaining ½ cup of sugar. Fold into peach mixture along with whipped cream. Pile into baked pastry or crumb crust, chill until set. Garnish with fresh sweetened peach slices.

KENORA AGRICULTURAL SOCIETY
EXHIBITION ATTENDANCE CONTEST

Two Separate Tickets Will Be Awarded Every Day For Admission To Grounds Plus 6 Cards on the K.A.S. Newspaper Bingo and 2 Tickets to the Paramount Theatre

A GRAND CONTEST PRIZE OF $25.00 TO BE AWARDED NEXT MONDAY

CONTEST RULES

1. Estimate the gate attendance at the 1959 K.A.S. Fair for the day given on the OFFICIAL CONTEST FORM. The numbers you use in your estimate MAY be hidden in the merchants' names appearing in the ads in this page. YOU MUST USE ONLY CONTEST NUMBERS APPEARING IN THESE ADS FOR YOUR ENTRY TO BE ELIGIBLE, AND NUMBERS MAY BE USED ONLY AS OFTEN AS THEY APPEAR. For instance, if only one No. 8 can be found, you can only use number 8 in your estimate once. Pick out your numbers and print them vertically in the OFFICIAL CONTEST FORM, and print the merchant's name alongside. Print your estimate in the lower left corner of the Official Contest Form. See the "Sample Contest Form" for correct method of filling out your entry form.
2. Anyone may enter this contest except Miner and News and Exhibition employees.
3. You may send in as many entries as you wish. but each entry MUST be on Official Contest Form published. Mail or bring your entry to: Exhibition Contest Editor, Miner and News.
4. Contest closes 12 o'clock noon of each day.
5. Contest winners will be announced in Miner and News. Winners will be notified by telephone, and may claim their prizes at the Miner and News as soon as they are notified.
6. Only one prize awarded to any one person on any one day.
7. Grand Contest Prize will be for Estimate on Total Gate Attendance for the three days of the 1959 Kenora Agricultural Society Fair.
8. All Prizes awarded for CORRECT or NEAREST correct estimate. Decision of judges will be final.

Letter to the Editor

Editor,
Kenora Miner and News
Dear Sir:

Today August 20th, 21st and 22nd are the dates for the Kenora Agricultural Society Annual Fall Fair, Forty-Eight Years I believe, since the First Fair was held in Kenora.

Three years ago the Kenora Agricultural Society bought some land at Rabbit Lake, and they built a few buildings to bring the K.A.S. up to modern specifications, and at the present time we have one of the finest Agricultural Exhibition Grounds to be found anywhere in Northern Ontario. It cost the people interested a lot of money for this Ground and Buildings, but for one reason or another the K.A.S. isn't getting the support it should have. This I think is largely due to the fact that Exhibitors or the People who should be able to Exhibit just don't get to-gether and make this a worth while venture.

Just about a hundred miles south of us we have a Fair held in EMO, which is known as the Rainy River Valley Agricultural Society Fair. This Fair is a tremendous Exhibition of all the best in Agriculture, Poultry, Vegetables, Grain and Livestock. I have shown at or acted as Judge at many of the biggest Fairs in North America, but believe me Folks I have never in all my life run across anything like they have at Emo where this Rainy River Valley Fair is held. True, that District is more of an Agricultural District than what we have here in Kenora, but actually that isn't the point as far as this Fair is concerned. The Prize Money in both Fairs is just about the same. I think maybe the difference is that in Emo they have the support of the populace, also the Exhibitors. I judged one class at EMO yesterday where there were 32 entries, and there were Seven Prizes. None of the Exhibitors won more than a few dollars, but they have this particular spirit, that if they don't win this year they will try again next year. The people were quite happy about what was going on. There were thousands, and when I say thousands I don't mean hundreds, of interested spectators. People who were giving the Fair Board their support.

Why can't we do this here in Kenora? There must be a reason, maybe you can tell me, but I just cannot put my finger on it. For this Emo Fair, the Judges were brought in from St. Thomas, Ontario, Port Arthur, Rainy River, Kenora, and when the entries got to the point where these Judges couldn't possibly handle them in three days, they brought in Mr. Glen Fulton, from Winnipeg. Now friends, why don't we all get to-gether and get behind our Kenora Agricultural Society. It is good business. Business to the extent that one of the Judges found a room in a Motel close to Emo, the other Judges had to bunk all the way from Fort Frances into Minnesota, and thousands of people were eating hot dogs.

While EMO hasn't got the facilities, we can handle a crowd like that in Kenora. Why don't we get behind the K.A.S. and bring them in.

J. R. MacDonald.

KITCHEN CLASSICS

PATIO PERFORMANCE

Dining outside, with a pleasant summer breeze to add to the pleasure, needn't be foregone because you lack outdoor cooking equipment. Al fresco meals can be satisfying and easy to prepare, with just a little planning and kitchen organization. Keep the menu simple, use trays to transport cutlery and food and enlist the aid of the family for shuttle service. It's wise, too, to choose as the one hot dish, something which can be cooked at the last minute and carried right to the table in its attractive double-duty cooking dish.

Broiled fish fillets are at their most flavorful and flaky best when cooked quickly,—perfect for an al fresco supper on the porch or under the trees in the garden. To complete the menu and please all hands, cook included, we suggest tiny new or canned potatoes and sweet onion rings that heat in the same dish while the fish cooks, half tomato shells filled with crisp cucumber slices, and piping hot rolls —homemade or brown 'n serve variety. Dessert could be warm fresh fruit pie topped with ice cream or a selection of chilled melon slices and spicy cookies, accompanied by glasses of sparkling iced tea or coffee.

BROILED FILLETS AL FRESCO

1½ lbs. fish fillets
½ cup French Dressing
1, 28-ounce can potatoes
1 Spanish onion, thinly sliced and broken into rings
2 tablespoons mint or parsley finely chopped

Place fillets on flat pan and pour half of French dressing over them. Meanwhile preheat broiler. In a shallow overproof baking and serving dish, arrange potatoes and onion rings at each end. Sprinkle with salt and brush with half of the remaining French dressing. Place under broiler (set at low flame) and heat slowly about twenty minutes. Increase flame. Arrange fillets in centre of baking dish with vegetables; place dish about two to three inches from source of heat. Broil two to five minutes; then turn fillets, brush with remaining French dressing and continue broiling just until fillets flake easily when tested with a fork, about five minutes for fresh or thawed fillets. Sprinkle fish and vegetables with mint or parsley and serve immediately. Makes 4 to 6 servings.

Proper dental care should be given children from the age of three years.

IT WASN'T HOT ENOUGH ON SCREEN

CROYDON, England — Iris Bevis, 16, took a jaundiced view of life today from under one eyebrow.

In the cinema Saturday night, the boy friend offered her a cigaret. He smartly flicked his lighter and Iris collapsed screaming — her left eyebrow in flames.

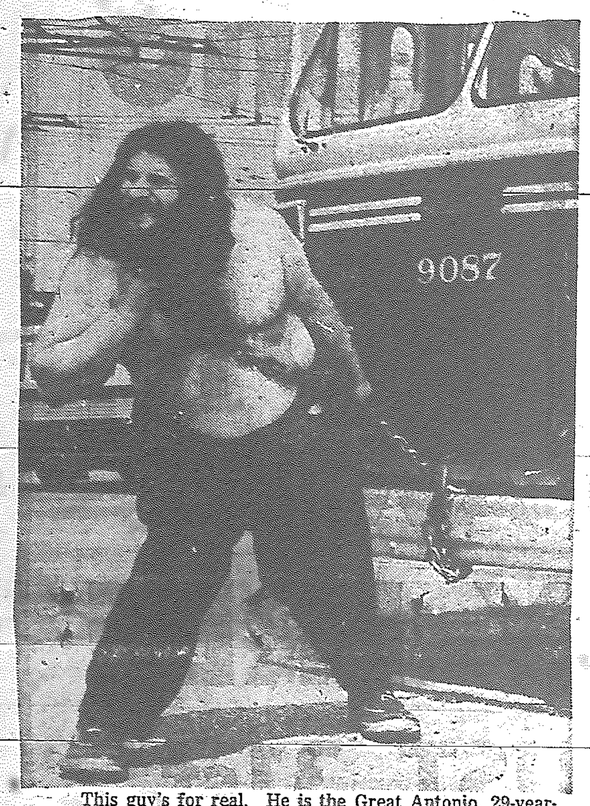
After hospital treatment she went home with the starboard eyebrow intact but nothing to port.

The film was Marilyn Monroe's Some Like It Hot.

There is virtue in having a continuing organization like a corporation managing a continuing resource such as a forest. Continuity of management is an essential for perpetual yield.

Every hour, night and day, the Canadian newsprint mills produce the equivalent of a 6,000 mile, five-foot ribbon of paper that would stretch from Toronto to Baghdad.

RUSSIAN STRONGMAN



This guy's for real. He is the Great Antonio, 29-year-old, 450-pound Siberian strongman. He is pulling a Toronto Transportation Commission bus which isn't one of those little foreign cars. In fact, he can pull four of them at the same time. And besides this, he can also lift a bus in the air but TTC officials declined to let him prove it. The Great Antonio is a professional strongman in Toronto, Ontario, to pit his strength against Whipper Billy Watson.

PILGRIMS TO HOLLYWOOD

A Moncton, N.B. widow is off on a strange and mysterious mission. Mrs. Vivian Larsen, and her daughter Sandra, age 14, are leaving for Hollywood, California in a pink covered wagon drawn by a horse 15 years old. Mrs. Larsen, in a sackcloth hood and dress, is off to tell Walt Disney something...she won't say what. She will only talk to Bob (who is the horse) during the five-month trip to and money for Sandra.

Safety Devices Pay Off In Saving 4 District Lives

In checking over the accident records of the past year for the Kenora District, Department of Lands and Forests, four different accidents are noted which could have been fatal. In each case, however, the victim was making full and proper use of the safety devices supplied, and, consequently, survived with minor injuries or none at all.

The first two accidents, occurred in the winter on road-clearing projects. In each case, a tree landed partially on the victim's head. Fortunately, the men were wearing hard hats and suffered no more than a shaking up and a headache.

The third accident ocurred in the fall, when a member of a survey party travelling by himself in a canoe had the canoe turn over in rough water. He could not swim, but was wearing a life preserver, and stayed with the overturned canoe until help arrived, when he was pulled half frozen from the water.

The fourth accident occurred when a scaler, driving north on the Fort Frances highway, encountered a heavy fog in the vicinity of Sioux Narrows. When he brought the car to a stop, he was completely enveloped by the fog and was unable to see anything outside of his windows. When he opened the door to get a better look, the car rolled over to the left (driver's side). Investigation revealed that the car had stopped balanced on the left shoulder of the highway. When the door was opened, the shift in weight was enough to cause it to roll down into the ditch. Fortunately, the driver was wearing a safety belt, but if he had not been it is quite possible that he would have fallen out the open door with the car on top of him.

All the lives were saved by the use of safety devices which are in common use today, but often ignored because of a slight inconvenience they may cause. These four persons today are quite sure that the inconvenience was well worth the benefits received, and they can say with certainty, 'SAFETY PAYS.'

Can Keep Hospital Insurance 3 Months After Moving

Under a new amendment to the Ontario Hospital Services Commission Regulations, a resident of Ontario who leaves the province to live elsewhere will be entitled to keep his Ontario Hospital Insurance protection for a period of up to three months after he ceases to reside in Ontario. This new provision is to allow time for the resident to obtain other hospital insurance in his new place of residence.

"We believe this new regulation will be very helpful to insured persons who move out of the province" stated Dr. R. W. Ian Urquhart, Chairman of the Commission, in making the announcement. "Of course, the necessary premiums will have to be prepaid. If the resident is prepaid further than three months in advance when he leaves Ontario, he should advise the Commission and any premiums paid beyond three months will be refunded. Another important point to remember" the Chairman went on, "is that Ontario Hospital Insurance will not be permitted to overlap any other hospital insurance which the former resident may obtain in his new place of residence before three months have elapsed. The Commission will not provide benefits if such persons are also collecting benefits for the same services from another organization."

It is anticipated, in the not too distant future, there will be reciprocal agreements among all the provinces of Canada which have Government-sponsored hospital insurance plans whereby residents who move from one of these provinces to another will be able to have continuous hospital insurance with the greatest possible convenience. In the meantime, new residents are subject to the same waiting period as present residents of the Province, that is, benefits are effective on the first day of the third month after application is made.

The Latest In Sales Technique

Bournemouth, England — The English are sometimes accused of being a little slow in developing new merchandising ideas — but here is a sales method that may well be unique in the world:

In this busy and prosperous south coast city George Hartwell Limited, one of Britain's largest automobile dealers, are keeping their showrooms open 24 hours a day, seven days a week, selling cars by "walkie-talkie".

Hartwell's, who sell Roote's products, including Hillman, Sunbeam and Humber cars, found, like so many other motor car dealers, that people principally want to look at cars at night or on weekends. But the problem of staffing after hours is a formidable obstacle.

Hartwell's have met it by leaving the showrooms open and lighted through the night. They are unmanned, but while the customer walks around looking at the various models, a hidden taped voice describes the cars and details as to price, accessories and so forth.

"The customer does the walking and the salesman does the talking," a company official explains.

The company hasn't yet figured a way for a customer to drop a cheque in a slot and drive a car away during these "robot hours". But sales are up and the public likes it.

Ceylon's main exports in 1957 were tea, desiccated coconut and tobacco, rubber, coconut oil and copra.

The pensions paid to U.S. soldiers who served in the Revolutionary war amounted to more than $70 million, according to treasury and war department records.

The majority of the 275,000 reservation Indians in the U.S. live in the southwest and tend to migrate to west coast cities.

At the beginning of the century, on the average day, 15 million newspapers were purchased. Today, 57 million newspapers are purchased on the average day.

- NO Price Cutting
- NO Seasonal Slumps
- NO Trade-In Problems
- NO Service Burdens

This applies with special emphasis to the auto and appliance fields . . . but no other fields are excluded!
The Product in question is sold under one standard price structure—never through discount houses.
Nearly Every Family above the subsistence level is a logical prospect.
The Company will invest well over $1-million in national advertising and back that with strong tie-in programs at the local level during 1959.
Standard "Sales Equipment" for every Dealer—a phenomenally successful, fully proven marketing plan and detailed procedures.
Proof of Success Formula—The Company grew from $10,000 in sales in 1949 to $30,000,000 in 1957.
To Qualify . . . you need a fairly well-balanced background in specialty selling . . . an aggressive, confident outlook . . . ability to select, train and supervise sales personnel . . . and an investment in the $5,000 and $10,000 bracket.
If this sounds like the one right-for-you offer act promptly—the better locations are being snapped up fast. Just write
