"KENORA THRILLS ME, ITS A BEAUTIFUL SPOT"

Has Canada something better to offer than any other country? It has and everybody should know about it, so said Albert John Strange, good will ambassador from Cape Breton, Nova Scotia. This gray bearded man with kindly eyes, and with a great love for all mankind stopped in at the Miner and News this morning to give his views and observations on people, places and things that make up our country. Currently on a cross country tour from sea to sea, Mr. Strange is on his way back home after reaching the west coast.

By trade a phrenologist and vocational advisor, topped off of course by being the world's best listener, Mr. Strange has found much to his liking on his tour and has had his faith in people restored over and over again.

Commenting on his impressions of Kenora, Mr. Strange said that this was one of the most beautiful places in Canada. I went to your station he said, and what a wonderful way to welcome people, the flowers are so beautiful. A beautiful mind thought of this idea he continued, but we must let our personalities shine in more places than just at the station. The gardens of our homes and the entrances to our town should reflect the friendliness of this fine place. Kenora thrills me with its beauty, said the traveller, and for the life of me I don't understand why this heavenly place is not known from coast to coast. As far as I am concerned it will come in for a good deal of publicity and people will hear all about Kenora.

Mr. Strange, nicknamed "Socrates," and very aptly named, is the guest of Zennith Katz at the Kenwood Hotel. This afternoon he is going out on the lake to get a first hand knowledge of the scenery, and expects to leave here tomorrow.

Everywhere that this man has been he has been well received by civic dignataries as well as citizens. He has in his possession many letters from Mayors of Canadian cities and towns carrying greetings to the mayor of his own home town. He is also the proud possessor of letters of good wishes and bearing the seals of Canada's provinces. He has been on TV in most cities and even appeared on the much talked about Tabloid program. He

ALBERT JOHN STRANGE

has also made the headlines in newspapers wherever he has gone. He met prime minister Dienfenbaker and sat through six sessions of parliament. How proud I was of our democratic government and of the decorum and good manners displayed in parliament, he said.

Concluding the interview this morning, this wise man quoted a line from a hymn that this reporter sang as a child, "You in your small corner and I in mine", that is how we must all play our part in making Canada the finest country in the world and by our way of life we will be known, and the rest of the world will know us.

This man well deserves the name of good will ambassador. We can stand a whole lot more of them, believe me.

Two Accidents On Kenora Streets Are Reported Today

Kenora Police report two minor accidents during the past 24 hours. At 4.40 p.m. Tuesday a 1957 Ford, westbound on Second Street S. and driven by P. Welenchenko of Kenora struck the rear of a 1950 Studebaker, driven by P. Chabinge of Winnipeg which was stopped in a line of traffic near the North Star Service station. Apparently brakes failed to hold. Extensive damage resulted to the front end of the Ford and minor damage to the rear of the Studebaker.

At 4.00 a.m. today, Glen Grotke was driving westbound on River Street towards Highway 17 (8th Ave.). His 1950 Plymouth failed to negotiate the turn and the car crossed the road passed through the iron railing and dropped into the yard of Mr. Longe. Remarkably, little damage resulted to the car and there were no injuries.

The Year's Most Dangerous Weekend

September brings the opening of schools, the end of vacation-times, week - ends instead of weeks at the cottage, short trips instead of long trips, and the creeping process of shortening daylight periods. It also brings the most dangerous week-end of the entire year — the Labour Day weekend.

Traffic increases greatly over that short period between Friday, September 4, to Tuesday September 8. It's the last fling before autumn sets in with a vengeance and the end of the holiday period arrives. Everybody wants to make the most of it. Some will get away early Friday afternoon and not return until early Tuesday morning. Others will set out on Saturday for a shorter run. A few will only take the day be it Friday, Saturday, Sunday or Monday. All of them will drive over the streets and roads of the nation and the volume of traffic will grow. As it grows, tempers flare, drivers and pedestrians become careless and the perils of the highway pop up everywhere.

No one will be immune from danger on the highway. Everyone must be aware at every moment of that danger, prepared to do all that is possible to avoid it, or lessen the impact when it is inevitable. There will be no time, in the few seconds it takes for an accident to happen, to think of the best thing to do. Reactions must be automatic if life is to be preserved or injury made less. This takes thought—and practice—NOW!

The lessons a motorist learns today will stay with him for a long time. They will not only guide him through Labour Day traffic but may take him safely through the changing seasons to the recurrence of danger at Christmas and New Year's.

Credit Union Board Meeting Attended By Jim Davidson

Crests and scholarship awards, a $25,000 landscape project for the new Credit Union building, a stepped up program of organization, the effects of strikes and layoffs to credit unions were the highlights of the semi-annual Ontario Credit Union League Board meeting, held at the Park Hotel, Niagara, August 22-23. Jim Davidson, representing Kenora and also Vice President of the Ontario League was in attendance.

Toronto Chapter president Cliff Way, on behalf of the Chapter, received approval to raise funds to provide $25,000 to landscape the new League building going up on Credit Union Drive in Toronto. It is estimated that five cents from each of the 500,000 members would be needed.

Jerry Chapman, Heinz Credit Union Leamington, was awarded $50 for winning the province wide crest contest. The crest will be the official emblem for Ontario's credit unions. On behalf of the students of Sacred Heart School, Ingersoll, Monica Costin, 12, accepted a plaque for the school effort in the crest contest.

With a two year program of consolidation near completion, the League Board voted for an extensive program of organization of new credit unions. Thirty-five have been charted this year bringing the total to 1,400 in the province.

A discussion of the effects of strikes and layoffs to credit unions revealed from recent experiences credit unions came out of these situations in a stronger position as a result of becoming more useful to those in need.

The Board approved an expenditure of $800 for scholarships for Grade 13 students. Four students will get $200 each. They will write an essay "What Is A Credit Union". The students must be credit union members.

The Board and 350 visitors were the guests of the Niagara - St. Catherines - Welland Chapters.

Transportation Conference Opens At Lakehead Friday

Representatives of industry and business in Northwestern Ontario have been invited to attend a conference at Port Arthur next Friday, August 28th, to organize a presentation to the Royal Commission on Transportation.

The meeting will be held in the mezzanine conference room at the Prince Arthur Hotel, beginning at 2:30 o'clock. It will be under joint auspices of civic and chamber of commerce groups of Fort William and Port Arthur and regional development, municipal and chamber organizations.

Decision to prepare and present a brief on Northwestern Ontario transportation problems was taken at a recent meeting at the lakehead with Manitoba officials. Compilation of data is the right of the Corporation of business firms is imperative in the assembling of information for a strong case in behalf of this part of the province, it is pointed out. The meeting is open to all firms that desire to assist.

Requests already have gone forward to the Royal Commission on Transportation to hold a sitting at the Lakehead. The commission will meet early in September in Ottawa to establish its itinerary.

Dr. D. Halliwell Heads Boy Scout Apple Day

It was announced today in a special interview with the Miner and News, that Dr. David Halliwell was appointed Chairman of the Boy Scout Apple Day which will be held on September 11 and 12 next. Dr. Halliwell, who is well known to all Kenora residents, has always been a tireless worker in many community projects, and will no doubt carry this project to a successful conclusion.

Dr. Halliwell will be assisted by three local residents who are well known for their scouting activities. George Burnham and Donald Start will serve as co-chairman, while Wes Rowson will direct the advertising and publicity program for this project.

Pat's Patter

INDIAN PIPES

Many and varied are the types of wild flowers that may be found throughout this area if we but look for them. Periodically someone brings a rare one into this office. Latest discovery was a clump of flowers that has the fascinating name of Indian Pipe. Jim Pateman brought the flower into me and when I saw it, it was easy to see why the flower is called Indian Pipe. The name is certainly no misnomer since it is the exact shape of a pipe, a small clay one at that.

The flower is small, waxy in appearance with the top of the flower shaped like the bowl of a pipe, only inverted. The plant (Monotropa Uniflora) is characterized by its bell shaped flower which nods on its solitary stem. Very rarely do two flowers appear on one stem. The plant which has scales instead of leaves blooms in July and August and is found in shady spots usually in moss. Jim found his plant near Narrow Lake.

DAFFYNITIONS

HOT DOG—The only animal that feeds the hand that bites it!

HANGOVER — Something to occupy a head that wasn't used the night before.

A WORD TO THE WISE

One way to save face is to keep the lower half shut! . . . The best place for your bathroom scales is in front of your refrigerator!

FALL PREVIEW,

Summer will soon be a thing of the past and the fact that fall is just around the corner may be seen in many different ways. Have you noticed the way the sky has changed colour from the brilliant blue of July to the rather hazy blue that it is now? One could call it a "faded" blue, faded by the almost every day shining of the July sun. The night deepens much faster too although it darkens so slyly that one is not really aware that it is dark at nine o'clock unless you happen to look at your watch. With the departure of summer one cannot help but be a little melancholy; her visit is so short; so long awaited and so soon gone. This summer, like the lady she is known to be, was her gayest loveliest self, just the way we like her to be. She is leaving us, regretfully we hope, but with a promise that she will be back again next year. Our warmest visitor, the welcome mat will be out, come next June.

DID YOU KNOW

The neighbor that bought a couple of tons of steel during the current steel strike failed to mention that the order was in the shape of an automobile.

THOUGHT FOR TODAY

Good resolutions never die - they just have a hard time being lived up to after being born.

LABOR DAY

Labor Day can be variously defined as: the end of summer; the beginning of the school year; a national traffic jam; or simply an excuse for a long weekend away from the office.

But the founder of the holiday, Peter J. McGuire, conceived it as a tribute to "the industrial spirit, the great vital force of every nation."

In 1882, McGuire - a leader in the Knights of Labor - proposed that a day be set aside to honor the working man. He suggested the first Monday in September, since it came almost midway between Independence Day and Thanksgiving Day.

The Central Labor Union of New York adopted his proposal and held the first Labor Day celebration on September 5th. A McGuire had suggested, the union paraded through the streets of Manhattan, to show the strength and spirit of trade and labor organizations.

Shortly after, the Knights of Labor voted for an annual celebration. In 1884, the Federation of Organized Trades and Labor Unions of the United States and Canada - predecessor of the American Federation of Labor - voted to make the celebration national.

Labor Day now ranks with Thanksgiving Day and Dominion Day as the most generally celebrated holidays in Canada.

HOW ABOUT IT?

Seen anything unusual? Heard anything interesting, maybe a story with a different twist? Maybe you have heard a bright saying or junior made a choice comparison. I'd just love to put it in print. These are the little things that could make "Pat's Patter" appear oftener than it does. Please do drop me a line or give me a call here at the Miner and News. I'm waiting.

Students Get 101 Days Off In Year

Elementary and secondary school students throughout Ontario return to classes September 8 this year, six days later than in 1958. The 1959-60 school year will still contain 195 teaching days, the same as last year.

The first term begins September 8 and ends December 22, to be followed by 12 days of Christmas holidays. Second term will begin January 4, 1960 and end June 29, 1960.

In addition to every Saturday and Sunday, school holidays will include Thanksgiving Day, October 12; Remembrance Day, November 11; Christmas holidays, December 23 to January 3 inclusive and Victoria Day, May 23.

WOULD BAN USE OF INNER TUBES

PETERBOROUGH Ont. — A coroner's jury recommended the banning in Ontario of the use of inner tubes and air mattresses "sold as play devices" unless of an approved design.

The jury, sitting in Omemee, 13 miles west of here, brought in its recommendations at an inquest into the drowning of Martin Pekoskie, 9, of Peterborough July 21. It ruled that the boy died accidently.

He was drowned in about 4½ feet of water while the attention of his father, Philip Pekoskie was drawn to a younger sister for a few moments.

REDDITT

By Mrs. P. Ferguson

Mrs. D. Vann and wee daughter of Winnipeg are guests of Mr. and Mrs. Robert Fisks for a week or two.

Mr. and Mrs. J. Brownlees and Miss M. Brownlees of Haney, B.C. were visitors at the home of Mr. and Mrs. P. Fergusons for a couple of days before continuing their journey home through the states.

Mrs. F. Stewart and sons of Vancouver left for their home after a lengthy stay with her parents, Mr. and Mrs. Bill Duggan, who also accompanied their daughter home on her long motor trip.

Those attending Mr. and Mrs. Geo. Mulhollands 50th Wedding Anniversary which was held August 24th in Transcona, where they now are residing were: Mr. Mulholland's brother, Mr. W. Mulholland, sister Mrs. P. Ferguson, Mrs. J. Latimer niece, Mr. P. Ferguson and Mrs. W. Mulholland, Mrs. H. Smith, sister of Mr. Mulholland etc., of Holand returned with the Ferguson to spend a few weeks with her sister and brother-in-law also other relatives who reside in Redditt.

Mr. and Mrs. C. Fisks will soon be taking up residence in the Eady place.

Miss Sharron Saunders of Kenora is spending some time with her grandparents, Mr. and Mrs. W. Mulholland.

Miss J. Montague and Ian have returned to Winnipeg to begin their schooling which begins next week for them.

Mr. P. Hunchbatch of St. James spent the week with his daughter and son-in-law, Mr. and Mrs. Rowland.

Gun Licence Law Altered

Sportsmen wishing to obtain a 1959-60 hunting licence must now produce a previous licence or a certificate of competence issued by an instructor in safe gun-handling.

The new province-wide law has been announced by Lands and Forests Minister J. W. Spooner.

A form may be obtained from licence issuers for persons previously holding a licence lost or misplaced. The completed form indicates the applicant has held a licence in previous years.

Balloon Lands In Man. Sunflowers

The huge balloon that went aloft from International Falls last Wednesday had a successful and happy flight — except for one person.

She was Mrs. Lena Giesbrecht of Plum Coulee, Manitoba. The big balloon landed in her sunflower patch and made quite a dent in it.

The big balloon came plummeting down out of the sky on a parachute over the Giesbrecht's farm just north of Plum Coulee, and it landed right in the middle of her flowers.

The 200 pounds of scientific equipment attached to the parachute were returned to the Falls and the crew of Air force men and University of Chicago scientists left town with the equipment Saturday.

CANNERS SEEK SQUARE PEAS

MILWAUKEE— The national canned pea council has issued a solemn call to horticulturalists. Please, fellows, can't somebody develop a square pea? Why a square pea?

The council, which admits it examined all angles of the problem, has an answer ready. Not only would square peas be more seaworthy on the consumer's knife, but they'd pack better.

OCTOPUS FRIENDLY

NANAIMO, B.C. — Diver Alex McCracken says the octopus is "a friendly critter, but highly-strung and easily upset." But they're harmless.

"If one grabs you, merely lift the tentacle from your body and move out of the way."

Another underwater denizen, the wolf eel, lives in crevices about 100 feet down. Alex's brother Laurie and members of the Nanaimo skin diving club brought seven of these to the surface near here.

Keeping Up With The Joneses

Author J. Anderson, Dryden

SCENE: The Chief Ranger's Office - a man enters.

Man: "I would like a permit to burn brush."

Ranger: "Sorry the hazard is extreme and no permits can be issued until we get a good rain and hazard is low."

Man: "I have been here for 30 years and never had a fire get away yet. I am careful and know how to burn safely."

Ranger: "That may be but our towers and aircraft are constantly on the alert when a high hazard exists and it would be dangerous to have their attention distracted by permit fires. You can understand that we would find it difficult to issue a permit to Smith who we know would be careful and refuse Jones who may be inexperienced and careless."

Man: "My name is Jones and I am not careless."

Ranger: "No offence meant. I assure you I was only using the names Jones and Smith as an illustration."

Man: "Yes, you and everybody else. It makes me sick. Look at the adds in magazines and newspapers. Smith is a good fellow he uses care in the forest but Jones forgets to put out his campfire or discards a burning cigarette. In the campaign to promote safe driving, Smith says, 'Make mine coffee', but that no good Jones likes whiskey, has one more for the road and comes to a bad end."

"One of these days we Joneses will get organized and protest these vicious libels."

Ranger: "I am very sorry, some of the finest people I know are called Jones."

Man: "Well, O.K.! See you again after it rains."

Camp Cookery Isn't What It Used To Be

One of the Lands and Forests timber scalers writes that when thinking about bush camp cookeries a person who has not seen a modern camp kitchen may have visions of a dimly lit, flat roofed log building without ceiling, floors made out of rough boards and everything else inside the kitchen very outdated by our modern standards of kitchen.

If he was to step into an up to date camp kitchen today a pleasant surprise would await him.

He would see painted floors, walls and ceilings kept spotlessly clean, and rows of windows letting in the sunshine. He would find it difficult to believe he was in the kitchen of the bush camp and not a cafeteria located in the city.

Centre of attraction is the huge stainless steel propane gas stove. Along one wall there are stainless steel sinks of vast proportions. Extending out from both sides of the sink are yards of stainless steel counter space that would be any housewife's delight to keep clean.

Cookery staff themselves are dressed in clean light coloured clothing with snow white aprons.

The meal schedules would be a shock to most city housewives. Day begins at six thirty or seven with a hearty breakfast of bacon and eggs, toast, porridge, fruit juice, milk and coffee. A coffee break follows at 9 a.m. Dinner at 12 noon. A coffee break at 3 p.m. Supper at 5.30 or 6.00 p.m. and finally coffee again at 8 p.m. These numerous meals provide hard working "lumber jacks" with the calories needed to carry on their vigorous work out in the woods.

A typical menu for a days meals may list: home made beef soup, roast beef, cold cuts of meats, hot meat pie, potatoes, peas, beans and other vegetables, topped off with several varieties of pies, buns, cakes, muffins, canned fruits, and tea or milk to drink.

What growing boy wouldn't delight in a few days spent with the "lumber jacks"?

D. B. S. Weekly Highlights

Dominion Bureau of Statistics

MANUFACTURING

Manufacturers' shipments in June, as estimated by the Bureau, were 2% higher than the revised May value and 6% above that for June last year. Cumulative value for the half-year was 5% above the 1958 figure. New orders in the month were fractionally above May and 9% over last year's June value. Steel output in the week ending August 15 rose nearly 10% over the previous week to 88.7% of rated capacity. Rubber consumption in June was a fourth larger than a year earlier.

* * *

BANK CLEARINGS

Value of cheques cashed in the first six months this year increased 13% over the 1958 period to reach a new record total. Totals were higher for all economic regions, Ontario leading with a gain of 17%.

* * *

MINING

Crude petroleum output from January to April was 10% greater than last year, natural gas output 31% larger. Gold production for the half year was 2% smaller.

* * *

MERCHANDISING

Chain stores had June sales estimated at $265,072,000, over 7% larger than a year earlier. Their aggregate for the half-year was 6% higher. Grocery and combination stores had the biggest dollar gains; but their percentage increase was below the average for all chains in June and almost exactly the same for the six months. Department stores chalked up a sales increase of 10% for June to give them a cumulative increase of somewhat more than 6%, built on increases ranging up to 19% in all but three departments. Preliminary figures indicate a further overall rise of 10% in July.

* * *

LABOUR

Total employment rose to an estimated 6,206,000 in July, up 153,000 from June. The number without jobs and seeking work was down only 6,000 from June to an estimated 228,000, but well below the estimated 291,000 in July last year.

* * *

BORDER TRAVEL

Foreign vehicles entering Canada on travellers' vehicle permits showed a rise of about 7% in July with gains in all provinces between Nova Scotia and British Columbia. The gain brought the seven-month total slightly above last year.

* * *

TRANSPORTATION

Railway carloadings continued to rise in the first week of August. Passengers carried by urban transit systems were fewer by 3.5% in the first half of this year than last, but total revenue of the systems was 5% higher.

Motor vehicle shipments of "made in Canada" units for the first quarter of 1959 were up 12.7% over 1958.

614 HIGH SCHOOL BOYS ENJOYING LIFE IN 45 JUNIOR RANGER CAMPS

On Monday, July 6, 614 high school youths, aged 17 and 18, reported at 45 Junior Forest Ranger camps in 16 of the province's 22 forest districts from Pembroke, Parry Sound, North Bay and Sudbury to the Lakehead, Fort Frances, Kenora and Sioux Lookout.

These outdoor-minded lads are spending their summer vacations with the Ontario Department of Lands and Forests combining healthful holiday sports and recreation with forestry and woodcraft education. At the same time they are taking over provincial parks and other projects to release experienced personnel for pressing seasonal duties such as forest fire control.

Included among the Junior Rangers are 12 Indian students representative of the province, chosen from as far east as Walpole Island near Sarnia in southwestern Ontario to Fort Frances and Kenora in the far northwest. Selection was sponsored by the Indian Affairs Branch of the Federal Government.

Almost 2,000 high school students applied for Junior Ranger appointments this year but, unfortunately, the Department has not been able to accommodate them all; last summer only 550 could be placed.

With the continuing expansion of the Department's provincial parks program, a major part of the boys' work is clearing and improving park camping areas and facilities, putting in picnic tables, water supply, fireplaces, preparing beaches and docks, etc.

There is an educational side to the program, too, in which the Junior Rangers will have lectures on the widely varied work of the main divisions of the Lands and Forests Department. By the time their period in camp ends, they are expected to have a fairly thorough grasp of the many services supplied by the Department to the people of the province.

The Junior Ranger program was launched following World War II to offset the manpower shortage at that time. It has proved increasingly popular with high school students, so much so that every year applications have far exceeded accommodation. Purpose of the Junior Rangers is two-fold — to assist those considering forestry or related employment as a life work, and to build for the future by acquainting young men with the opportunities afforded in the Department and in the forest industries. So that as many as possible might enjoy this opportunity, it has been the Department's policy for the past two years to appoint Junior Rangers for one year only.

In the Kenora district, one Junior Forest Ranger Camp, with 12 boys, is located at Sioux Narrows and the second, east of Dryden, with 14 boys in camp.

The Pelicans Are Back!

In the spring of this year, Willie Big George, a member of the Big Island Band of Indians located at Neingoshing Reserve on Lake of the Woods, reported that he had observed approximately 50 Pelicans near the reservation, according to Conservation Officer C. Chalmers, Kenora.

This is somewhat unusual in this district as the Pelican has not nested here for a number of years. The question was then raised "Are they nesting here, or are they just passing through?" Since that time a weather eye has been kept open for possible sightings of these birds during lake patrols.

On August 15th while passing the north side of Oak Island, 23 birds were sighted and definitely established as Pelicans, which appears to be a good sign that once again they are nesting on Lake of the Woods - BUT - not in any great numbers - HUNTERS PLEASE NOTE.

With the opening day of hunting season not too far away the Department of Lands and Forests urges hunters in the field not to shoot at unidentified birds. Pelican are not good eating and if left alone will, in all probability, multiply until we will once again enjoy a fair sized population of Pelicans on the Lake of the Woods.

Little Wild Things Not For Petting

If you find a fawn or calf moose in the bush around the cottage, leave it where you found it. Don't touch it or disturb it. The mother will return.

This is the warning of officials of the Ontario Department of Lands and Forests who point out fawns and calves are hard to rear and unauthorized persons can be prosecuted for having possession of them.

"Female deer or moose normally feed their young, then leave them 'frozen' to rest while the doe or cow herself goes off to get food and water for herself. Instinct or habit usually keeps the calf or fawn in the spot where it was left so that the mother will find it where she left it when she returns for it - as they always do," the officials said.

New School Dress Rules At Lakehead

FORT WILLIAM — A strict set of regulations regarding personal cleanliness, appearance and dress will go into effect at Selkirk Collegiate and Vocational Institute this September.

The regulations, designed to aid good conduct and effective working habits in a school now 450 students over its peak efficiency limit, are as follows:

1. Haircuts are to be of reasonable length with no long sideburns. Hair should be neatly combed always. Girls are not to wear curlers of any kind.

2. Boots and shoes should be clean and polished. The wearing of jet-boots and heels with steel cleats is not allowed. Rubbers and overshoes are not to be worn in the classroom.

3. Boys may wear suit coats, sports jackets or cardigans. No jackets of the windbreaker type are allowed in the classroom. No black jackets are allowed in the school.

4. Washable pants are acceptable provided they are neat, clean and fit properly. No tight, low-waisted blue jeans will be allowed.

5. Any type of skirt which is clean and pressed is acceptable for the girls. The wearing of unwieldly crinolines is discouraged.

6. Shirts and blouses should be clean and pressed. They are to be worn with the collars turned down. Shirts must be long enough to be tucked inside the waistband, and must be so worn. Boys who wear V-neck sweaters must wear a shirt underneath.

7. Socks should be clean and mended at all times. This itself will require some personal attention to the laundering for girls who wear white socks.

Parents were first notified of the above regulations in a letter signed by Principal G. L. Thain and distributed June 29.

When a child refuses some part of his meal on the grounds of dislike, don't make an issue of the matter. Usually, if the rejected food is served a little differently next time, he will have

Around Town

Mr. and Mrs. Bill Bidnell of England are visiting in Kenora, the guests of Mr. and Mrs. Fred Lowe. Mrs. Bidnell was the former Oryl Lawson.

Mr. and Mrs. Fred Lawson former residents now living at the coast, are renewing acquaintances in town.

Birthday congratulations are extended today to Mr. J. J. Pennicard who is celebrating his 87th birthday. Mr. Pennicard who lives with his daughter, Mrs. S. Belair, 228 Water Street, has been a resident of Kenora for the past fifteen years.

Mr. and Mrs. Nils Victor Lundin are pleased to announce the engagement of their daughter Esther Eleanor to Mr. Robert Edmonds of Toronto, Ontario. The wedding will take place at the Bethesda Lutheran Church on the nineteenth of September at 3.30 p.m.

BIRTHS

GREENLY — Mr. and Mrs. Howard H. Greenly, Steven and Wanda are happy to announce the arrival of David Howard on August 23rd, 1959 at the Kenora General Hospital.

CARD OF THANKS

I wish to take this opportunity of thanking all those who remembered me while I was a patient in Deer Lodge Hospital. I wish to especially thank the Canadian Legion and the Ladies Auxiliary to the Legion for their remembrances.

Bill Mitchell.

ANNOUNCEMENTS

Kenora Public Library will be closed all this week owing to renovations.

'Beach Clan' Meets In Kenora Saturday

The Kenora, Ont., home of Mr. and Mrs. Don Beach and family, was the scene Saturday of a family reunion of the Beachs, the first such gatherings in many years.

Guests included Mrs. Agnes Beach and son, Gary, Newport, Rainy lake; her son and daughter-in-law, Mr. and Mrs. Larry Beach and family, 1316 Third Avenue East; Mr. and Mrs. Bill DuBay, Sr., and Mrs. and Mrs. Bill DuBay, Jr., and daughter, Debra, all of St. Paul.

Mr. and Mrs. Dick Beach and Ricky and Mrs. Nora Beach, and Mrs. Pat Harris, Debby and Janice, all of Fort William, Ont., Miss Eileen Beach, Nashville, Tenn.

Alo Beach, Kenora, brother of the late Wilfred "Shorty" Beach of the Falls; Mr. and Mrs. Duane Beach and family, Napawin, Sask., and her mother, Mrs. Sicholson, New Brunswick.

Anglican Church General Synod Set For Quebec Town

Ste. Anne de Bellevue, Que.—Representatives of Canada's 2,500,000 Anglicans will gather here Sept. 1 for the church's 20th general synod, one of the most important in the Canadian church's history.

Chief item on the nine-day agenda is the election of a new primate but of equal interest to church members is discussion of the complete revision of the Anglican Book of Common Prayer recently finished after 16 years work.

About 350 delegates, both lay and clerical, will attend the synod, being held at Macdonald College in this small community near Montreal under the sponsorship of the Montreal diocese. But only those delegates who are also members of the electoral college will participate in the choosing of the ninth primate.

The man chosen from among Canada's 28 diocesan bishops to be chief spokesman of the country's third largest denomination will succeed Archbishop W. F. Barfoot, who retired last December after serving from 1951.

Since Archbishop Barfoot's resignation, Most Rev. Philip Carrington, Archbishop of Quebec, has been acting primate and will preside at the synod until the installation of the new primate Sept. 6.

Archbishop Carrington has ruled out the possibility of his election to the primacy by announcing he will retire shortly.

The election itself will be held Saturday, Sept. 5 in strict secrecy with only members of the electoral college in attendance. The college consists of all active and retired bishops, who constitute the upper house and nominate candidates, and a clerical and lay representative for each diocese who form the lower house.

Other important business includes the appointment of a committee to direct arrangements for a world-wide congress of Anglican churches, scheduled to be held in Toronto in 1963.

The synod is also expected to discuss the setting up of a fixed primatial see. At present the primate takes the title of archbishop of the see he already occupies so that it changes with each primate.

Retail sales in Canada for period January to April 1959 totalled $4,845,050,000 up 5.6% from same period of last year—$4,589,939,000.
