500 TON SHIP LAUNCHED AT OWEN SOUND

The largest vessel built at Owen Sound, Ontario, in 70 years, the 500-ton Ville Marie, hits the water in a launching which drew a crowd of 2,000 persons to the dockside. The Ville Marie was built at a cost of $1,000,000 for survey and scientific work in the St. Lawrence river ship canal. It can navigate in ice.

New Books At The Public Library

The following new books are on the shelves at the Kenora Public Library.

Keewatin Retired Men Enjoy Picnic

The Keewatin Retired Men's Association held a picnic on Wednesday afternoon September 9th at Webb's Camp, Lac Lu with twenty members present.

Regardless of the inclement weather a few games of "horse shoes" were played, while other members played whist.

A delicious meal was served, and a short programme followed. After a sing-song, Mr. Percy Baker entertained with piano selections and Mr. Dave McKellar recited a poem of his own composition, expressing appreciation to Mr. Webb and his family for their hospitality.

Mr. George Armstrong on behalf of the Retired Mens Association expressed thanks for their generous hospitality.

St. James Branch Plans Fall Events

The regular meeting of the Evening Branch of St. James Anglican Church, Keewatin was held in the Rectory on Monday evening September 14th. President Mrs. Olive McCowan was in the chair.

The meeting opened with prayer. Minutes of the last meeting were read and approved. Eleven members answered to roll call. Mrs. A. Hatcher read the treasurer's report. Correspondence was read and placed on file.

Mrs. Whitford gave her report on the Church plates. It was decided to hold the fall rummage sale on Friday September 25th, from 10.00 a.m. to 12.00 a.m. and from 1.30 to 4.30 p.m. All donations of rummage to be left at the Sunday School room.

A discussion was held in regards to the Harvest Supper which will be held Tuesday, September 29th. Being no further business the meeting was adjourned.

Mrs. Whitford gave the Benediction. A social hour followed and a dainty lunch served by the hostess.

USEFUL TREE

by Carlton Fitchett

I think that I shall never see
A thing as useful as a tree;
tree that feeds our printing presses,
And makes silk hose as well as dresses.
It also lines our rubber boots,
And makes some modern two-pant suits.

The tree that in the spring may wear
A wreath of bird nests in her hair,
And intimately lives with the rain,
Now wraps cigars in cellophane,
And bread and cookies, cakes and pie,
Which wives who go to bridge clubs buy.

The tree that down the hillside plunges
Makes fountain pens and also sponges,
And fishing lines and catgut leaders,
The hemlocks, pines, the firs and cedars
Through which the wind of winter whistles,
make safety glass and toothbrush bristles.

The tree that gazes at the sky,
Lines overcoats that take our eye,
When we are needing winter raiments
That may be had on easy payments.
And down the styx we needn't float,
To get a wooden overcoat.

Our EDITORIAL VIEWPOINT

PARKING PROBLEMS

When Kenora's Council rushed through three readings of the new parking by-law Monday night, authorizing the doubling fees for parking on our streets, most citizens reluctantly agreed that it was probably a necessary, though undesirable step. Parking and traffic are inherited problems which pose heavy financial demands upon the civic treasury without relative compensations.

Kenora's first venture into the realm of parking came when local merchants complained that motorists were using downtown streets as all-day parking lots. Parking meters were Council's answer. Profits, if any, were to be directed to obtaining off-street parking lots. It has always been our concern that profits from fines and from meters were never set aside for purposes originally intended. Further, meters were kept operative on holidays, Wednesday afternoons and at times other than necessary to meet the earlier situation.

No one should minimize the problem posed by the automobile, facing our leaders today. Location of traffic arteries, traffic control, parking, prosecutions, etc. are very real and serious. Council's latest moves - parallel parking, the start on an off-street parking program not to mention bylaw 1537, offer ample evidence of that body's awareness to the needs.

The point we are making is this: citizens would appreciate a declaration of future policy, in light of today's conditions. For example, is surplus revenue from parking and fines to be incorporated in the general fund? If the operation is the be merely self-sustaining, will courtesy tickets to tourists be considered? Presumably the hours of operation of meters will be clearly printed on the meters (together with non-operative days). It would also be interesting to ratepayers to see a balance sheet on parking receipts and expenditures to date. Only then can an intelligent opinion be formed as to the share of the tax load being borne by the motorist.

Visitor Deplores Poor Facilities At Lakeside Beach

The following letter was received recently by the Kenora Junior Chamber of Commerce.

Brandon, Man.

Dear Sir;

A few weeks ago I wrote to you saying that I would be holidaying in your part of the country and aked for pamphlets on camping facilities and places to see while in that part of the country. Received same for which I thank you. I am now home and have had a very nice holiday. We have camped a lot for quite a few years in both United States and Canada. I have been asked at different camps I have been to and mentioned to the man in charge what a nice camp and good facilities they had. I have written to some organizations they name telling them what fine camps they have. Now I am sorry to have to tell you that I think your camp at Lakeside Beach is the poorest camp grounds we have ever been in. As far as we could see it did not have one good thing in it to mention. Your location is very poor. It is dusty and no beach, you might say at all, for children or adults. Your wash rooms and toilets are nil. You have an old kitchen stove in a shack which is little better than nothing. Possibly you know all this and are planning improvements. But as you travel and meet a lot of campers they naturally ask you about camping grounds if they are headed where we have come from. Now we visited and stayed at Falcon Lake, Rushing River, One Sided Lake and Fort Frances before we went across the line. Now if you visit any of these camps you will know what we had to tell them.

Thanking you again for your help in our visit to your city. We enjoyed boat rides, tour through your paper mill and quite a few different places of interest. But your camp is away below standard.

Yours truly,
Oliver English.

Magistrate's Court

Two local residents who failed to notify the Motor Vehicles Branch of the purchase of a car were each fined $10 and costs.

A youth from Sioux Lookout charged with obtaining liquor while a minor, was fined $10 and costs or seven days.

Charged with obtaining food at the Ken Cafe without intending to pay for same, cost a Winnipeg man $15 and costs or 7 days. Payment of the bill must be made to the cafe or a further 2 days will be added to the sentence.

Fellow Workers Honor A. Parfitt On His Retirement

Mr. Arthur Parfitt well known Keewatin citizen retired from the Lake of the Woods Milling Company on August 31st, 1959 after completing 49 years service with the Company.

Mr. Parfitt was born in England and arrived in Canada on May 21st, 1910. He joined the staff of the Lake of the Woods Milling Co. in June 1910, working as a Cooper until the mills discontinued the production of barrels in 1928.

For the past 31 years, Mr. Parfitt has been a fireman for the company.

A surprise party was held on August 29th when twenty members of his department gathered at his home. A social evening was enjoyed at which time Mr. L. Contini, on behalf of the employees of the Lake of the Woods Milling Co. presented Mr. Parfitt with a wallet and a sum of money.

Mr. Parfitt has many hobbies which he intends to spend the majority of his future time enjoying. Mr. and Mrs. Parfitt reside on 10th St., Keewatin Ontario.

Pulpwood Cut Down In District

Pulpwood production in the Kenora District during the past several months has been below average, due mainly to lost time on account of weather conditions experienced this season. Approximately 700 men are now employed on woods operations throughout the District. Demand for lumber appears to be on the increase with approximately 500,000 feet board measure sawn to date.

More than 60 per cent of the gross returns of Danish agriculture come from exports.

Subdivision Method Gains Popularity

With the sale of recreational land restricted to subdivision lots because of recent changes in the policy of the Department of Lands and Forests, public reaction was regarded with misgivings. However, several plans are now registered and many more are in course of preparation, and it is found that public acceptance of the new system is much more favourable than expected. The reasons seems to be that once the plan is registered prospective applicants may select a site, pay the entire purchase price and become owners within days where formerly it sometimes took months to complete survey and other preliminaries.

The Kenora office announces that four new plans were approved during the past week by the Toronto office of the Department and instructions issued to the surveyors for the field work to be undertaken. These are on Malachi, Macara, Dogtooth and Longbow Lakes.

CPR Takes Delivery Of 1,000th Diesel

Montreal. — Canadian Pacific has taken delivery of its 1000th Diesel Locomotive, a 1000-Horsepower Road Switcher, No. 8023. It was built by Montreal Locomotive works.

Significant milepost in Canadian Pacific's steady replacement of steam power with the more efficient Diesel, acquisition of the 1000th Diesel Unit brings total Dieselization of the 17,000-mile Railway system a step closer to the 1961 target date set by N.R. Crump, President, when he took over the reins in 1955.

Canadian Pacific acquired its first Diesel Electric Units in 1943. They were American-built yard switchers, assigned to various parts of the system to see how they would perform under Canadian conditions, particularly Canadian Winters.

Convinced that efficiency and economy were on the side of the newer type of power, Canadian Pacific decided to first Dieselize those sections of its line where savings and benefits would be most readily achieved. The company's wholly-owned subsidiary, the Esquimalt and Nanaimo Railway, operating entirely on Vancouver Island and connected only by water link with the parent company on the B.C. Mainland was chosen for the first experiment and was entirely dieselized in 1948.

The next section to be served entirely by diesel power was the 178-mile stretch from Wells River, Vermont, to Montreal, on the Montreal-Boston Line. Here again the experiment was successful.

Then followed dieselization of the 517-mile Schreiber Division along the north shore of Lake Superior; the section through the Rockies from Calgary to Revelstoke; the Kootenay and Kettle Valley divisions through southern British Columbia and [illegible] of the system.

The extent to which Canadian Pacific went beyond any other North American Railway in application of the new power was demonstrated near the close of 1954 when the same diesel units began to haul its Trans-Continental trains, "The Dominion", the whole 2881 miles from Montreal to Vancouver, and from

(Continued on Page 3)

Police Hunt Kidnap Suspects

The village of Chesterville, fifty miles southeast of Ottawa is the scene of much excitement today as Ontario Provincial Police comb the adjacent farming area for two kidnap suspects who terrorized the area, and robbed two homes on Tuesday.

All roads leading to the area have been blocked, although police believe the wanted men are on foot after stealing and abandoning two cars.

The two men are believed to be the same ones who abducted a family near Niagara Falls last week and another family in Shannonville, Sunday. The families were released unharmed.

The suspects were last seen Tuesday night. They were driven off in an exchange of gunfire with a farmer when they approached his home near Chesterville after they had tied up a couple in another home, and stolen their car.

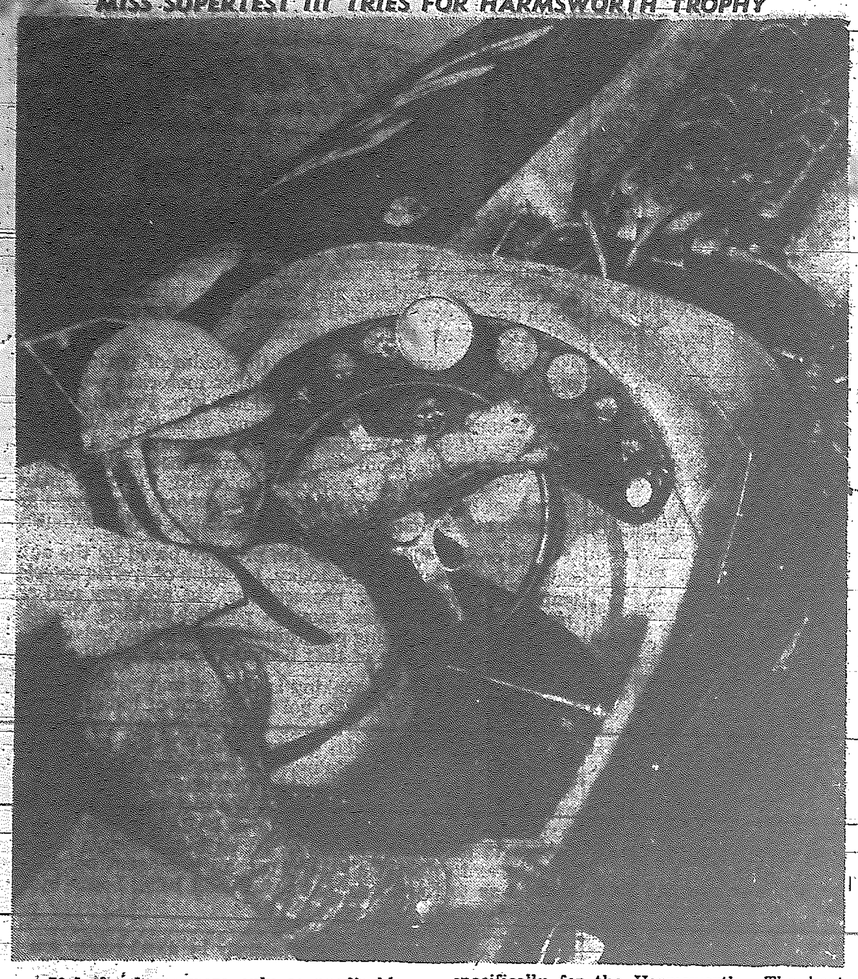
MISS SUPERTEST III TRIES FOR HARMSWORTH TROPHY



If hydroplanes were only as predicable as horses, you could bet on Canada winning the Harmsworth trophy to be held soon on the Detroit river. Jim Thompson, London, Ontario designed and built Miss Supertest III specifically for the Harmsworth. The boat is powered by a Rolls-Royce engine and the sleek craft has hit 180 miles an hour in runs on the St. Clair river at Sarnia. Bob Hayward, above, will be in the cockpit of the 6,000-pound craft.

Football Once Was A Skull

Cheering coeds and klieg lights have brought football a long way from the days when the English stubbed their toes kicking around the skull of a Dane.

The Danes occupied England from 1016 to 1042. A few years after they left, some workmen digging in an old battlefield uncovered a Danish skull and started kicking it back and forth. Several boys who had been watching dug up another skull and soon everybody was "kicking the Dane's head."

They were also getting bruised toes. Some precocious youngster substituted an inflated cow bladder . . . and the game of football was born.

In the 1100's, the "game" was more of a riot. Teams from neighboring towns . . . sometimes with hundreds of players on each side - - met at some midway point. The bladder was thrown down and the free-for-all was on. The object of the game was to kick the ball into the center of the rival town. When the yelling horde descended on the town, pedestrians ran for their lives and shopkeepers bolted their doors.

Eventually the players were ordered to play in some vacant area or give up the sport. The teams retired to a field marked off with boundaries similar to those of a soccer field. And the towns - - and football - - were saved.

New Films At The Public Library

The following films are available at the Public Library for September and October.

COLONIALISM: OGRE OR ANGEL?
(Commonwealth Series)
B&W 30 min.

How the British colonial empire grew. This film takes us to a representative number of colonies, protectorates and protected states for which the United Kingdom is resopnsible. We see the impact of industrialization on non-white populaces and their awakening desire for self-determination. Edgar McInnis discusses British and Commonwealth views regarding the latter.

COMMUNITY RESPONSIBILITIES
(What's Your Opinion Series No. 1)
B&W 11 min.

In good citizenship where does a person's duty to the community end? Where does obligation to oneself or one's family begin when apportioning one's spare time and energy? These questions come under vigorous discussion. The audience is invited to decide the matter.

DRESDEN STORY
(On the Spot Series)
B&W 30 min.

Has Canada a Negro problem - or is it the fair skinned Canadian who is at fault in the problem which develops as the Ontario town of Dresden becomes a town in turmoil over the color question? A good film for discussion of the question of racial discrimination.

HEART OF ENGLAND
Color 20 min.

A beautiful and appealing color film tracing the life of the Cotswold countryside through the four seasons. This is a sheer delight for almost any audience.

INTRODUCING ITALY
(Atlantic Community Series)
B&W 19 min.

We see a country rich in culture, in history, in artistic achievement, in natural beauty, in climate and hospitality, the places which have appealed to the imagination since Roman times that stand side by side with the works of modern technology.

LAND OF BUBBLING WATER
Color 12 min.

Mineral hot springs in the Canadian Rockies provide a pleasure bonus to all who vacation in this scenic area of the Canadian West on a tour that takes them from Vancouver to Banff Calgary, Jasper and Waterton Lakes National Park.

PARLIAMENTARY PROCEDURE
B&W 22 min.

Illustrates while a group is in session, how the rules of parliamentary procedure facilitate the orderly conduct of a meeting. Explain the functions of the chairman the purpose and correct manner of presenting a motion, an amendment to an amendment, point of order, and point of information; and the application of other rules including the motion of adjournment.

RICHES OF THE EARTH
Color 17 min.

Colorful animation illustrates how Canada's underground resources took shape through geological ages, and how these riches of the earth have become the raw materials of the works of man.

TREASURE OF THE FOREST
B&W 13 min.

A film on the industries which draw their wealth from the raw material supplied by Canada's forests showing how this wealth is being preserved by a long term conservation program.

THE VISIT
B&W 30 min.

A film about Paul, a young French Canadian who is caught between two ways of life and must choose between the old and the new. Paul sees more clearly than his father the inevitable change that is coming to the Province and responds to the stronger call of the industrial world.

FELL OFF WAGON, AND HORSE TOO

LONDON — A stunt man found out Monday that it isn't profitable to fall off a horse if you have already fallen off the wagon.

A police officer testified in Marlborough Street police court that Frank Fay stopped traffic on Park Lane when he emerged from Hyde Park on horseback, crossed the busy thoroughfare and tried to persuade the horse to jump a low fence.

When they reached the fence, the horse stopped. Fay, a stunt man for a film company, cleared the fence by himself.

He was fined a total of 22 14s for riding under the influence of drink and riding in a dangerous manner.

Iowa has about 25 per cent of the grade A farm land in the U.S.

The safest way to turn a corner on two wheels is on a bicycle.

powered scenic-dome car ride.

Canadian Pacific's 1000 Diesel units range from 2400 Horsepower to 1500 and 1300 horsepower locomotives in general use in both passenger and fast freight service to 1200 and 1000 horsepower road switchers, particularly useful on branch lines and yard switchers which vary from 660 to 1200 horsepower, and include 44-ton diesel-hydraulic units.

In the case of a diesel electric locomotive, the power is transmitted from the diesel engine to the driving wheels electrically, that is to say, the diesel engine drives and electric generator which supplies current to traction motors geared to the driving axles. Diesel hydraulic locomotives differ from the diesel electric in that power is transmitted from the diesel engine to the driving axles mechanically through a torque converter and gearing similar to an automobile equipped with an automatic transmission.

Fully 92 per cent of all Canadian Pacific's rail transportation work in all categories - passenger, freight and yard, is being performed by diesel power.

In addition, Canadian Pacific operates a fleet of 55 stainless-steel rail diesel cars, called dayliners, in passenger service on all parts of the system from and including Vancouver Island to Nova Scotia. These are self-propelled diesel hydraulic units, air-conditioned and smooth in operation, and are found in some main line as well as branch line operations. This is the second largest rail diesel car fleet on the continent.

MAIN STREET AT LAKE OF THE WOODS

KITCHEN CLASSICS

GINGER and PEACH JAM

Yield: about 11 medium glasses (5½ lbs. jam)

½ cup diced candied ginger (about ¼ lb.)
6 cups prepared fruit (about 2 quarts ripe peaches)
2 tablespoons lemon juice (1 lemon)
6 cups (3 lbs.) sugar
1 bottle liquid fruit pectin

First, prepare the fruit. Dice about ¼ pound candied ginger. Measure ½ cup into a very large saucepan. Peel and pit about 2 quarts fully ripe peaches. Chop very fine or grind. Measure 4 cups into saucepan with ginger. Squeeze the juice from 1 medium sized lemon. Measure 2 tablespoons into saucepan. Then make the jam. Add sugar to fruit in saucepan and mix well. Place over high heat, bring to a full rolling boil, and boil hard 1 minute, stirring constantly. Remove from heat and once stir in liquid fruit pectin. Skim off foam with metal spoon. Then stir and skim by turns for 5 minutes to cool gently, to prevent floating fruit. Ladle quickly into glasses. Cover jam at once with ⅛ inch hot paraffin.

KEEWATIN NEWS

Mrs. Kember

The first regular meeting following the summer recess of the Keewatin, United Church Young People's Union was held on Wednesday evening September 9th in the Sunday School room.

President Mr. J. Gordon was in the chair. Secretary Treasurer Betty Contini read the minutes of the last meeting and presented the treasurer's report.

A brief discussion took place regarding future projects. It was decided that the memebrs would serve refreshments on Sunday evening September 13th when Mr. Albert Baldeo, student minister from Trinidad would show films following the regular evening church service.

Miss Myrna Ames has returned home after being a delegate to the Dominion Anglican Girls Auxiliary Conference held at Camp Pontiac near Ottawa, from August 21-31st.

During her stay in Ottawa many tours were arranged. Of special interest was one through the R.C.M.P. Barracks and the Parliament Buildings at which time the delegates were introduced to the Prime Minister, Mr. J. Diefenbaker. Myrna enroute home visited with her mother, Mrs. B. Ames at Fort William for a week's holiday.

Miss Margaret, Etter who also attended the Conference left Ottawa for her home in New Brunswick, where she will visit with her parents.

CPR Takes Delivery Of . . .

(Continued from Page 1)

Vancouver to Montreal.

When the streamlined, stainless - steel scenic-dome "Canadian" emerged in April 1955 to cut 16 hours from the Montreal-Vancouver schedule its diesel units assigned in Montreal carried the 15-car train the whole distance to Vancouver, thus providing the world's longest diesel-

In keeping with the Progressive Conservative Federal Governments policy of more development throughout Northwestern Ontario, it was learned today that tenders would be called some time next week for the construction of Three Double Staff Dwellings, Type C-74, One Single Staff Dwelling, Type C-68 and related work at Kenora, Ontario. This will all aid in helping to supply more jobs for this area.

MARLENE STEWART STREIT WINS CANADIAN OPEN TOURNEY

Mrs. Marlene Stewart Streit won the Canadian ladies' open golf championship for the sixth time when she defeated Mrs. Barbara McGhie of Whipoorwhill, New York. If Canada's touring male pros could blast out of sand traps and sink putts of six feet and under with the regularity as Marlene, they'd all be among the first 10 money winners on the United States circuit every year.

D. B. S. Weekly Highlights

Dominion Bureau of Statistics

External Trade: Commodity imports rose nearly 15% in July to an estimated $494,900,000 to make a seven-month rise of $308,500,000 or over 10% in value of imports. Total exports increased a more modest 3% in July to $433,700,000 and in the seven months showed an aggregate gain of $47,400,000. The result was a rise in excess of imports over exports to $45,800,000 from $198,700,000. Imports were higher than last year in the month and seven months from all main areas, with the major part of the rise from the United States, while the increase in exports was mainly in trade with the United States.

Prices: The consumer price index reached a new peak of 126.4 at the first of August as the result of a rise of 0.4% from a month earlier. Most of the increase was due to higher food prices. A rise in the index usually occurs in August . . . The general index of wholesale prices declined fractionally in August from July, while the index of industrial raw materials at wholesale edged up slightly between the end of July and August 28.

Forestry: Overall figures show declines in Canada's forest production in 1957 from 1956 of 8.4% in volume and 12.4% in value. The year's total output is estimated at 3,172,166,000 cubic feet with a value of $823,054,000.

Transportation: Freight handled at Canadian ports during May was 2% greater in volume than last year, loadings and unloadings in foreign service rising over 23% while those in coastwise services were down 14%. Most of the gain was at ocean ports; both loadings and unloadings were smaller at Great Lakes ports.

Manufacturing: Steel ingot output reached 451,277 tons in August, totalled 3,700,228 tons in the first eight months this year, and was at 92.7% of rated capacity in the week ended September 5 . . . Cement shipments to the end of July were about 4% larger than a year ago . . . January-July shipments were larger this year than last for radios, television sets, domestic washing machines and clothes dryers . . . Leather footwear output was over 12% larger numerically in June, nearly 10% larger in the half-year.

Agriculture: Canadian turkey producers had an estimated 8,235,000 birds at the first of August this year, close to a fifth more than a year earlier.

Around Town

Mrs. J. R. Hyslop and Mrs. W. R. Dennis left Tuesday night on the Canadian to attend the 74th Dominion annual meeting of the Woman's Auxiliary of the Anglican Church of Canada to be held in Victoria, September 22 to 25. Mrs. Hyslop who is president of the Keewatin Board of the W.A. will attend the executive meeting of the Dominion Board in Vancouver before proceeding to Victoria.

Mrs. Britton Osler D.C.L., Dominion president will preside at the annual meeting.

Robert Bourgeault left Monday for Winnipeg where he will attend United College.

Miss Valerie Saul left Sunday for Winnipeg where she will attend the University of Manitoba.

Rev. T. Oshiro and Mrs. Oshiro of Emo, Ontario were visitors in Kenora on Monday.

Miss Margaret Etter is a visitor to Rainy River and district.

Mr. and Mrs. J. Bellamy were visitors at Fort Frances this week.

Mrs. C. White of Fort Frances is a visitor at the home of her son-in-law and daughter, Mr. and Mrs. Peter Bunio, Seventh Street South.

Mr. E. L. Carter, Mr. Howard Myles, Mr. Luke Francis, Mr. Bill Knipe, Mr. Ambrose Cairns, Mr. Ernie Crandall; Mr. Norman Nuson and other employees of the Ontario Minnesota Plup and Paper Mill are business visitors in Fort Frances.

Mrs. Mary Bell returned to Kenora on Tuesday after visiting at the Lakehead, Fort Frances and International Falls.

The Area Convention of the Women's Institute for Northwestern Ontario commenced Tuesday, September 15th and will continue until the late afternoon of Wednesday, September 16th. Delegates from Thunder Bay, Rainy River and Kenora Districts are attending; Mrs. A. Davidson, Kenora. Mrs. F. Robinson, Laclu-Pellatt, Mrs. J. Allan and Mrs. Sarah Christianson, Keewatin and other local members are attending the Convention.

C. Sanjeevi and M. Anverpasha of Madras province, India, have been studying the operation of the three generating stations at Cameron Falls recently.

They are two of a party of six who arrived in Canada four months ago under the Colombo plan to study the manufacturing of electrical machinery and operation of power stations.

They will return to Montreal in two weeks and expect to return to India by the end of November.

Both visitors stated that the standard of living, social conditions, and opportunities offered the average person were the main differences between Canada and India.

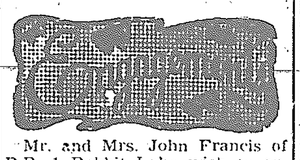
BIRTHS

LEEANDER — Born to Mr. and Mrs. W. Leeander (nee Jean Christianson of Winnipeg) at the Women's Pavilion, Winnipeg General Hospital, twin girls, Kathi Lynn and Terry Susan. 6 pounds, 15½ ounces and 5 pounds, 8½ ounces.



Mr. and Mrs. John Francis of R.R. 1 Rabbit Lake wish to announce the engagement of their eldest daughter, Sandrea Lee Elizabeth to Robert James Hermanson, eldest son of Mr. and Mrs. Ted Hermanson of Norman Ontario. The wedding to take place at Calvary Church, October 17, 1959.

THANK YOU

I wish to thank all the employees of the Lake of the Woods Milling Co. The Retired Men who were former employees of the mill, for the lovely gift, and the firemen for the lovely party they honoured me with upon retirement.

To Mr. Dave McKellar for his congratulatory poem he composed and read in my honour.

Mr. Arthur Parfitt.

CARD OF THANKS

To all who assisted in any way during our recent bereavement, we wish to express our deepest gratitude.

Chas. Fisher and family.

ANNOUNCEMENTS

The Lake of the Woods United Services Institute will meet on Friday, September 18th in the Armouries at 8.00 p.m.

G Clef Choir is commencing a new season Monday, September 21st. There are openings in all sections for any interested in joining. Those having had some experience in choral groups and being able to read music will be welcome. A simple audition will be held at St. Alban's Church Hall Thursday, September 18th, from 6.00 to 7.00.

Bernice and Oscar Boivin, formerly of Kenora, wish to announce the opening of their new Service Station and Restaurant, Obee's Esso Service, on Highway 71, Fort Frances.

WEDDING BELLS

CORR—FORSBERG

South Arm United Church, Lulu Island, B.C., was decorated with autumn flowers for the double ring ceremony, when Lorraine Forsberg became the bride of Mr. James Corr. Miss Forsberg is the daughter of Mrs. J. Carlson and the late Mr. A. Forsberg of Keewatin. The groom is the son of the late Mr. and Mrs. J. Corr of London England.

The bride was given in marriage by her step father, Mr. J. Carlson of Keewatin.

The bride wore an exquisite gown of white Chantilly lace and tulle. The portrait neckline and lace bodice were embroidered with seed pearls. The skirt of graceful fullness was enhanced by floating panels forming a full skirted back. Her veil of sheer illusion was held by a Swedish crown of Satin and pearls. Her only jewellery was pearl earrings, a gift of the groom. She carried a white prayer book crested with yellow rose buds and strings of pearls.

Mrs. Lois Good, the bride's niece was matron of honor She was gowned in a Champagne shade dress of French lace and wore a matching headdress of tulle and velvet. She carried bronze mums in the shape of a lace fan.

Robert Fisher was best man and ushers were Geoffry Evans and Melvin Kirby, all of Vancouver.

Mrs. J. Carlson the brides mother wore a dress of dusty-rose lace over taffeta with beige accessories. Her corsage was of pink rosebuds.

The reception was held at the Richmond Clubhouse where Mr. Alex Riddell proposed the bridal toast.

For her wedding trip to Portland, Oregon, the bride wore a brown Cashmere suit with beige accessories. Her corsage was of yellow rosebuds. The happy couple will reside in Vancouver.

TENDER NO. 13

KENORA PUBLIC SCHOOL BOARD

Sealed tenders will be received up to 4.00 p.m. Monday, September 28, 1959, at the Board Office, 102 Main St. South, for the supply and installation of a GAS-FIRED BOILER at Central School.

Specifications are available from the Board Office.

A 5% Bid Bond is required with each tender submitted.

The lowest or any tender not necessarily accepted.

A. Friesen,
Secretary-Treasurer.

1000th DIESEL: Termed a significant milepost in Canadian Pacific's system-wide dieselization program was the delivery Thursday (SEPT. 10) of diesel locomotive No. 8023, a 1,000-horsepower road switcher, which was the 1000th unit of the efficient diesel power to go into service on the C.P.R. Shown in the cab making a final inspection of the unit at the time of its delivery to Windsor Station, the railway's Montreal headquarters, are C.P.R. President N. R. Crump (right) and G. W. Miller, president of Montreal Locomotive Works, builders of the unit. Several directors and officers of both companies were on hand to witness the aquisition by the C.P.R. of its 1000th diesel, which brings total dieselization of the 17,000-mile railway system a step closer to the 1961 target date set by Mr. Crump in 1955. The Canadian Pacific acquired its first diesel electric units in 1943.

TURKISH ARMY CHIEF HOT FILM FAN

LONDON — Military tongues were wagging here today over the cinematic doings of Turkey's army chief of staff at a ceremonial parade the Royal Marines staged in his honor.

Newspaper gossip columnists say the distinguished visitor, Gen. Rüstu Erdelhun, insisted on taking motion pictures of Monday's parade at Portsmouth on the south coast.

The Turkish general was reported to have startled his escorting officers by demanding: "Now let's do it all again" after he inspected the parade.

His aide appeared with the general's movie camera and "shot" his chief as he inspected the marines for the second time.

Then Erdelhun took the camera himself and asked the marines "to march around a bit."

The marines marched while the general dashed around the parade ground filming. When Erdelhun ran out of film, he sent a marine to buy a new reel.

Col. Harry Kimpton, commanding officer of the Portsmouth marine barracks, was quoted as saying:

"I have never seen anything like it before but it might be the done thing (thing to do) in Turkey."

Ontario's Secret Weapon is Energy

Ontario's big ace in economic development has been energy.

The potential has been available for development to feed the power-hungry steel mills, the pulp and paper operations, and the wide variety of manufacturing facilities in Ontario.

Ontario's big energy sources:

● Coal, once the prime source, has given way to petroleum. But it still ranks in second place as an important ingredient in the province's industrial complex.

● Oil and its derivatives now supply nearly half the energy, should hold this dominant position for some time.

● Canadian-produced natural gas has broken onto the Ontario scene with a splash. Gas pipeline, bringing western Canadian product, now moves from west to east, then south, to bring its benefits to great sections of the province.

It has freed Ontario from its previous dependence on foreign sources.

▶ Uranium spells nuclear power age for the province which has two uranium mining camps, one the world's largest.

Work is well underway toward development of first commercial power from nuclear generating system.

▶ Hydro, a power source that has been hiked 3½ times in capacity during last 10 years. It holds a place of its own in the Ontario energy picture.

Energy plays such a major part in Ontario that a Department of Energy Resources has been created by the government.

It will be responsible for coordinating all sources, with the exception of the operations of Ontario Hydro which will remain a separate authority.

Heading the new department is Robert W. Macaulay who is also vice-chairman of Hydro.

Background to the formation of the new department:

Energy use in the province has gone up 90% in last 15 years, while population was rising 50%.

Requirements for energy in next 20 years are expected to treble.

It will be the department's job to "take concrete steps to ensure the economic, effective and safe development of energy resources and supplies."

The department will serve as a research and advisory body, will provide liaison between government and the producers.

Ontario Fuel Board will be re-organized and taken into the new department. It has had duties in the control of rates as well as over gas and oil exploration and development within the province.

Until recent years, coal supplied the chief source of Ontario's energy.

It still accounts for about one-third of total requirements.

But, in a developing economy, hydro-electric power assumed a growing importance.

Later, oil and natural gas took over a leading rank. Electric power, oil and gas supplied less than one-quarter of need 15 years ago. Today, they supply two-thirds of all energy used in the province.

Oil in 1945 formed less than 14% of consumption for energy and heating while today it supplies 50%.

Although hydro power accounts for only 10% of requirements, its importance cannot be gauged by this figure alone. It has probably made the greatest contribution in the development of industry and the rapid rise of living and working standards.

The province has been quick to join federal authorities in planning for development of nuclear power.

Work is going ahead on 27,000 hp nuclear energy station at Des Joachims.

Now, plans are underway for a much bigger, commercial venture. This would be a 268,000 hp nuclear power plant, a joint venture between province and Atomic Energy of Canada, the federal crown company.

Ontario's supply of raw material for nuclear power is very large. Output last year was $222 million from camps at Algoma-Blind River and Bancroft.

The key to full nuclear development: Vast scientific and research programs to bring nuclear power to practical, economic reality.

Advertises Distaste For Human Race

ROCHESTER, N.Y. — Harold Clarke, a 63-year-old bachelor, is advertising his distaste for the human race with a large sign on his front lawn.

"I'm disgusted with people. . . . Have been for years," he says.

Clarke, who lives alone, says he had often been annoyed by neighborhood children.

A few days ago he caught a young boy retrieving a ball from his front porch. That's when he spent $15.20 to have the sign painted. It says:

"To whom it may concern. If your children's annoying behavior continues and causes me to have a fatal heart attack, will you consider yourself morally guilty of manslaughter: Harold Clark."

Everybody seems to be against Harold. Even the sign painter misspelled his name

WILKINS IS BADLY OUTNUMBERED

SMETHWICK, Eng. — Herbert Wilkins is thinking of resigning from the Silver Lining Club for old people.

Wilkins, 71, a retired fireman, is the only male club member among 200 women.

When he joined four years ago, Wilkins said, "I was told it was a mixed club and there would probably be some other men along soon."

No more men have joined.

"I am thinking of resigning," he said. "It's quite quite pleasant but a bit boring."
