KILLER PHOTOGRAPHS HIS VICTIMS

Killer Harvey Glatman took this photo of Hollywood model Judy Dull, 19, before he raped and strangled her and left her body near Indio, California. Glatman was sentenced to death in San Diego after admitting he took Miss Dull and two other women into the desert, where he forced them to pose for photographs before he murdered them. Glatman, who met the women by posing as a professional glamor photographer, was captured while he was attempting a fourth kidnapping.

Keewatin Past Grands Club Elect Officers

The Christmas meeting of the Past Grand Club of Keewatin was held at the home of Mrs. Viola Gordon with 15 members present.

At the conclusion of the regular business nominations of officers for the new year took place with Mrs. Joyce Johnson as chairman and the following being elected:

- Past Pres. - Mrs. Evelyn Gordon
- Pres. - Mrs. Olafia Sveinsson
- Vice Pres. - Mrs. Sophie Bragg
- Secy. - Mrs. Rita McKie
- Treas. - Mrs. Mary Barnard

A delicious lunch was served by the hostess. The next meeting will be held on January 12th at the home of Mrs. Dorothy Hodgkinson.

LOCAL CHURCHES TO OBSERVE WEEK OF PRAYER STARTING MONDAY

One of the established traditions of the Protestant denominations of recent years has been a Universal Week of Prayer conducted by the various churches in the first full week of January of each new year. Men and women who pray together are bound by an invisible chain of Divine Grace.

The Kenora-Keewatin Ministerial Association is again sponsoring this Week of Prayer program for the people of our district, and each of the churches invites those who may care to do so to come and share in any of the under-mentioned services during the week of January fourth to tenth inclusive.

On Monday January fifth, a joint service for all churches is being held in First Baptist Church at 8:00 p.m. Rev. Alex MacCrae will be in charge, with Rev. J. D. Marnock of First Presbyterian and Rev. J. W. Whitford of St. James Anglican speaking. The choir of Lakeside Baptist Church will be present to assist.

Tuesday to Friday at 8:00 p.m. Calvary Church in the Rideout is conducting prayer meetings at the church open to all who wish to attend.

First Presbyterian is holding cottage prayer meetings throughout the districts, the community, and a special service at Cecilia-Jeffrey School on Wednesday at 8:00 p.m. open to all.

St. Albans will hold special services Tuesday, Holy Communion at 10:00 a.m. and a Service the same evening at 8:00 p.m. at which the people of St. James Keewatin will attend.

First Baptist church, besides being host to the rest of the denominations on the Monday night, will hold its regular Mid Week Devotional Meeting on Wednesday at 8:00 p.m. when special emphasis of the Week of Prayer will be marked.

Bethesda Lutheran Church is organizing Cottage Prayer Meetings Monday through Friday of the week, and Lakeside Baptist besides Cottage Prayer Meetings on Tuesday, Thursday and Friday is planning an open Prayer Meeting in the Church for Wednesday night at 7:45 p.m.

Knox United has asked all of the Groups meeting in the Church during that week to make a special place in their program in observance of the Week of Prayer - and the Wednesday Night Adult Bible Study Group will be centering on the same theme.

ROBIN HOOD MILLS TO OPERATE MILL IN VENEZUELA

George H. McIvor, chairman of the board of Robin Hood Flour Mills Limited, announced today from Montreal the signing of a management contract for the operation of a flour mill in Maracaibo, Venezuela. The new mill is already under construction and will begin production next July. The mill was designed by A. Sangati & Sons of Padua, Italy and will have a capacity of 1,500 cwt. daily.

The new plant is being built by Venezuelan financiers, Pietro Castelli and Vittorio Possenti who also own La Milanese, a producer of macaroni and spaghetti products in Venezuela. However, the mill will be operated exclusively by Molinos Nacionales C.A. (Monaca), the Venezuelan subsidiary of Robin Hood Flour Mills Limited.

"Flour milled in this plant will be produced under the supervision of Robin Hood technicians to the same high quality standards to which the Venezuelan market has long been accustomed," McIvor said.

"With its additional capacity Monaca will be able to supply its customers with even better service than before", he continued.

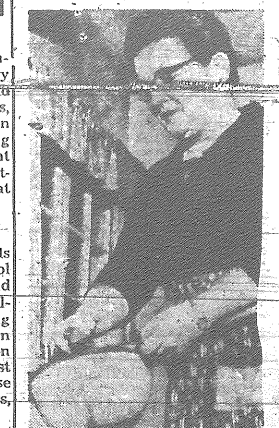

Early Morning CPR Derailment Ties Up Traffic

An early morning derailment on the CPR main line at Louthier, twenty-one and a half miles west of Kenora has tied up all traffic from east and west.

The accident of the east bound freight resulted in 16 cars, some empty and some full being derailed. The accident occurred at 1:10 a.m. in twenty below zero weather. Work trains from both Kenora and Winnipeg were dispatched to the scene and Canadian Pacific officials state that they expect the line to be cleared around two o'clock this afternoon. In the meantime, all west bound trains are being held at Kenora and east-bound trains are held at Winnipeg.

No one was injured in the accident and names of train crew have not been released. Railway officials are investigating the cause of the accident.

Housewife Stalls Construction Start On Toronto Subway

A mother of two who likes best to cook and work around her modest bungalow, Reeve Marie Curtis of Long Branch, Ont., is the principal obstacle in the path of a \$200,000,000 subway project planned for Metropolitan Toronto. Curtis, last of a long list of suburban officials who originally opposed the construction of the subway, says that Long Branch residents will be taxed for the subway, from which they will receive little benefit. She is taking the case to the Supreme Court of Canada.

Mrs. E. Sorenson Ignace Resident Died Friday

Word has been received in Kenora of the death of Mrs. Karoline Petrine Sorenson of Ignace, Ontario and well known here. The late Mrs. Sorenson aged 57 died at her home on Friday, January 2nd.

She was born in Norway and came to Ignace in 1930. She was a member of the Anglican Church, the Women's Institute, and the Ladies Auxiliary to the Canadian Legion, Ignace Branch.

She is survived by her husband Emil and two sons, Hans and Frederick, both of Ignace.

Funeral services will be held in Ignace on Monday, January 5th at 2 o'clock. The Moffat Funeral Home in Dryden is in charge of arrangements.

domestic vehicle manufacturers remitted to the federal government about \$130,000,000 in sales and excise taxes, and Mr. Dykes said, "One continuing deterrent to the automotive industry is the excise tax on passenger automobiles. This discriminatory levy has been up and down over the years, now stands at 7 1/2%, and should be removed. There is no reason why the passenger car should be taxed as a luxury, and there is no other justification for the tax."

Canadian Auto Sales Prospects Bright For 1959

Toronto: Canadian car and truck manufacturers produced an estimated 296,275 automobiles and 58,875 commercial vehicles in 1958. In these plants a monthly average of about 31,700 persons were employed with a payroll in the industry of about \$150,000,000 in 1958.

"Employment in the early months of 1959 will likely be higher than at any time in 1958," said Mr. James G. Dykes, General Manager of the Canadian Automobile Chamber of Commerce today. "In the last 2 months of 1958 employment was 2,000 higher than the average for the year and this will probably be carried through into 1959. Their increases are expected in the Spring, the major selling time of the year."

"We estimate that there are now 4.7 million vehicles in use in Canada - 3,575,000 cars and 1,075,000 trucks," said Mr. Dykes. "These represent a vehicle for every 3.3 persons and a passenger car for every 4.7 persons." Mr. Dykes said that motor vehicle sales in 1958 numbered about 370,000 cars and about 67,000 trucks. "As the new year begins dealers' stocks are low and orders high. There are many indications that total sales in 1959 will reach 475,000 - perhaps even higher."

It was pointed out that the

Many Local Groups Brought Christmas Spirit To Pinecrest

The members of Pinecrest Ladies Auxiliary appreciate very much the efforts of those who gave of their time and talents, by entertainment and provision and decorating of trees, during the festive season, which brought something of the spirit of Christmas to our friends resident at Pinecrest.

Our thanks goes to: Lakeside Baptist Church girls and leaders, Rabbit Lake School Choir and leader, Keewatin Old Timers and Pianist, The Lionelles, The Sodality Group of Young People of Notre Dame (Roman Catholic) Church, The Salvation Army, C.G.I.T. group of First Baptist Church and leader, Moose Lodge, Sea Scouts and leaders, Girl Guides and leaders.

GUMP MAKES WATSON EAT HIS WORDS

All season, New York coach Phil Watson has called Detroit's Terry Sawchuk the best goalie in the NHL. But Ranger netminder Gump Worsley made his boss eat his words by blanking Red Wings, 2-0, for his first shutout of the season. Here Gump foils Norman Ullman on one of the 38 shots he stopped. His sensational netminding gave Rangers their first win over Detroit in six games this season. Sawchuk, who had previously never permitted Rangers to score more than one goal per game against him this season, was beaten twice by Andy Hebenton.

cause Belleville is going to the world's championships and that leaves Whitty, who the Canadiens are mastering this season. Danny has watched the Baby Habs play against St. Catharines Teepees in an exhibition game . . . He has also watched Norman Ontario's Brian McLay play this season with the Cornwall club. Dan ends off his letter . . . "Maybe the Independent Thistles can salvage the Edmonton Journal Trophy . . . for that is the only trophy I can see that the "Habs" aren't gunning for." Certainly hope that Dan is enjoying the Ottawa scene. Bob Bailey is now playing with Cleveland and Bud Bailey is with the Quebec Aces for the other letter of inquiry. Saw the president of the Minor Hockey Association in the M and N office yesterday . . . of course we mean "pappy" Neil Strain. Neil is in excellent shape. (Continued on Page 7)

Off the Cuff by Rick Hunt

Meanwhile . . .
 Back At The Thistle:

So we picked up the Tribune and Free Press off Klepa's newsstand and gasped at the glaring headlines. Slowly we reached into our pocket and brought out a bright green ticket and with all our energy we ripped it into little shreds. It was our way of expressing goodbye to "vacation a la Cuba and Havana" and all the fun at the race track. Wishful thinking, dreaming mostly, had been strangled by grim reality. This February we will still be in Kenora's cold, and we will still be wrapped up in our Thistle Rink cubby-hole toasting the icicles with orange juice. February in Kenora - ah, what bliss - what deep joy!

Reminds one of the Thistle on New Year's Day. The post-celebration crowd was really living it up as aspirins and the

brano were being passed from hand to hand. The hockey was great that day too . . . in fact the fans are still talking about the Braves and the Thistles and they are hoping for a return match. The fans are thinkers along the lines of Archie Moore and boxer Yvon Durelle. A return match with the Braves . . . perhaps next New Year's . . . ah, but it is far too noisy in the Thistle Rink after a brilliant New Year's eve . . . Bring the Braves back shortly.

It was a ripe day for the scribes on the first of the year. You could fill a whole column with the greatest moments of Kenora sport during the past year . . . or about the curlers in Manitoba's Junior 'speil . . . or just about Allie Reynard coming back . . . or about the wonderful game between the Thistles and Braves. The first of every year is plainly set aside for the newspapers. They can get their hands on anything on New Year's.

In your opinion, reader, what was the highlight in Kenora sport in 1958? We think, (our humble opinion) that the Thistles' last season was the major local highlight . . . The biggest thrill we saw locally last year was the comeback victory by the Elmwood Giants to win the Keewatin Kinsmen's Baseball Tournament. Their last inning, seven run miracle rally over Oakville was the most exciting baseball that ever happened here. Danny Kitt, Kenora exile now living in Ottawa under the peace bells from Parliament Hill, dropped us a line yesterday . . . first bit of mail we have received in 1959.

Danny tells us that the Hull-Ottawa Jr. Canadiens and the Hull-Ottawa Senior Canadiens will probably take the Memorial Cup and Allan Cup this season. Kitt says the West has nothing in the Junior or Senior ranks that will touch these two clubs. He claims that Hull-Ottawa Sr. Canadiens will take the East be-

Congratulations ARE in order!

The wedding was a very happy occasion and congratulations were offered all round. Special congratulations were due the groom, because he had made sure that his bride started married life with the added protection of life insurance—a Sun Life policy on his own life to help replace his income if he should die prematurely.

BROTHER, IT'S COLD INSIDE

Bundled against the 85-degrees-below-zero temperature, engineers Robert A. Brown, left, and Joseph E. Waikem check a radome during early stages of a thermal shock test in a test chamber of a laboratory in Akron, Ohio. Nearly any kind of weather or climate can be reproduced in the lab's chambers.

Custom Of Wearing Gloves Stems Back To Middle Ages

Reviewing the centuries many interesting and amusing hand-covering customs are noted. Unearthing facts, early as 400 B.C. Xenophon criticised the "effeminate" practice of the Persians who not only covered their head, body and feet during the winter but wore gloves! And Biblical references include Jacob's hand-covering of goat skin to deceive his blind father; and in the story of Ruth, a man removes his hand-covering indicating the deal is closed. Similarly, in the 17th century a woman always presented her suitor with her gloves as a signal she accepted his proposal of marriage. A strange custom in Greenland is observed where gloves are worn from the hair of departed relatives as a symbol of great respect! Eye-lifting too, but in direct contrast, certain savage tribes in the Belgian Congo wear gloves from the skin of their enemies on festive occasions.

The custom of wearing gloves stems back to the middle ages when only the nobleman could afford them, while Marie Antoinette is accredited with the promotion of the fashion. Her court designer created the most fabulous and exotic designs of the day, obeying her requests and commands. The most elaborate and ornate gloves were worn at the Royal Court, as many Kings and Queens became ardent lovers of these fascinating hand-covers. It is said the Queen, wife of Charles VII was the first to wear white kid gloves made in Grenoble. It is here, the finest kid gloves in the world today are pro-

duced, and where the House of Perrin famed glove makers since its establishment in 1860 is located. In the French Alps, Grenoble is considered unexcelled for goat-raising to procure the sturdiest yet finest-textured kid skins needed for the renowned glove-making centre. A pioneer of the glove industry was Xavier Jouvin who invented the fitted glove and established the little city of Grenoble. Queen Elizabeth I received the first French gloves shipped to England, and finally owned more than 2,000 pairs of exquisite jeweled and embroidered gloves. Napoleon's fondness for gloves was evident possessing as he did, in the year 1860 over 300 pairs (40 were ermine-lined). And Charles VI of France enjoyed wearing gloves to the extent of wearing out 255 pairs a year. These facts make news of present day celebrities who own two or three hundred pairs of gloves less impressive and certainly less than original.

Laurence Sterne, the English humorist who died in 1768, was a clergyman in Yorkshire.

WINE BINGE TOO MUCH FOR SALLY SOW

BRIGHTON, England — Sally, an expectant mother, went on an all-night binge she never planned. Sally is a pig. She escaped from the grounds of a convent school at midnight and smashed into a wine shed on a neighbouring estate. About 60 bottles of matured homemade wines were overturned and smashed on the concrete floor. Sally slurped it up, then reeled out and fell into a nearby pit and died.

Martha Washington was the widow of a wealthy planter with two living children when she married George Washington in 1759.

USE THE CLASSIFIEDS

AIR CADETS SURPRISE INSTRUCTORS

RCAF regular officers at the Mount Hope air base in Ontario are both astonished and delighted with the unprecedented step taken by the reserve air cadet group there. They acquired a CF-100 jet engine from Crown Assets in Ottawa for the nominal sum of \$125. "Two squadron leaders walking through the hanger where the cadets train, almost turned a complete somersault when they saw parts of the jet engine lying around," Sqd. Ldr. Murray Grant said. "Cadet training syllabus for the last six years does not include jet instruction. I hear that they have changed this year's syllabus." Members of the 62nd Royal Canadian Air Cadet group are shown around their newly acquired jet.

A TEXAS OIL COMPANY WANTS MAN OVER 45 FOR KENORA AREA
WE NEED a good man at once and we are willing to pay top earnings. We prefer someone between 45 and 65... who can make auto trips for about a week at a time... and can cope on small town industrial and rural property owners.
WORTH \$12,000.00
Our top men in other parts of country draw exceptional earnings up to \$12,000 in a year. This opening in the Kenora area is worth just as much to the right man. We take care of all deliveries and collections. Pay earnings in advance. Write a confidential letter to: **E. P. SWALLOW, President**, Southwestern Petroleum Co., P.O. Box 785, Fort Worth 1, Texas

and we certainly hope that it gains in reputation during the new season.
Big news from the local chess world when drummer boy Allan Houston defeated the Winnipeg or Manitoba's chess champion in two games while he was watching the Junior curling 'spell. Congrats to Houston who is unofficially Kenora's chess champion - at least for KKDHS. There used to be quite a chess league in Kenora two years back... The Dryden Rockets will be the next victim of some ice... certainly hope we have all the Thistles out for this game... The Thistles are coming in to form and they will be looking for their revenge against the orbiting Rockets... Have a safe driving weekend - Rick Hunt.

Boiling Water Froze So Fast, Ice Was Warm

Burlington, Wis. - A paradoxical tale about hot ice has won a Minnesota man the honour of being the Burlington Liars Club world champion liar of 1958. The club, after studying the lies of the land for the 29th time, bestowed its top laurels on Lou Powers of Ortonville, Minn. "One morning last winter it was so cold that when I set out a tea kettle full of boiling water, it froze so fast the ice was still warm," Power wrote. The prevaricator added; "The next night it was still colder, and when I kicked out the family cat I froze my foot."

O. C. Hulett, president of the club, admitted that Minnesota is so chilly it has snowmen with goose pimples but he fretted about the lack of lies from another frigid place, Alaska. "What's with Alaska?" Hulett demanded. "They are bigger than Texas, but we didn't receive a lie from them in '58."

"The Burlington Liars Club is not going to recognize them as a state until they send in at least as many entries as Texas," Hulett said. To instruct Alaskans in the art of large caliber lying, Hulett supplied some "honorable" mention fiction from Davis F. Boone of Marshall, Tex. Boone's boast: "I've heard a lot of talk about a lot of rivers, but Texas has one that is definitely the driest. In fact, it is so dry that fishermen along it's banks not fishing in it!"

FOR THE BIRDS
This cache of pecans stashed away in a crack in a utility pole in Venedy, Ill., will feed the feathered friends during the winter. Old-timers in this village, noted for its pecan trees, claim that when the birds build up big food caches like this one, the winter will be long. Others say it just means the pecan crop was good.

Parks Policy For Province Offered

TORONTO — Will there be enough parks and open spaces for recreation 50 or even 25 years hence for our rapidly expanding population?

To guarantee that the people of Ontario will always be able to enjoy to the full the great recreational opportunities of this Province, the Federation of Ontario Naturalists has presented today to Prime Minister Leslie M. Frost a brief containing a number of suggestions and ideas as a basis for a written parks policy.

No written policy on park development and management exists for the Province now. This brief by the 3,500-member Federation could be an historic document.

Among the recommendations contained in the brief was a suggestion that legal provision should be made for the setting aside of nature reserves for purely scientific purposes. This would mean areas set aside similar to the tract of land near Austwell, Texas, for the nesting of the near-extinct Whooping Crane. No such areas exist in Ontario, although there is a danger that a few animals and some of our rare and beautiful wildflowers, notably some kinds of orchid, may soon disappear entirely unless given protection.

The Naturalists also say that from a cultural standpoint it is just as important to preserve samples of each type of primitive natural environment as it is to preserve the works of man in art galleries and museums. Although widely recognized in Britain, Europe and the United States, for most Canadian this is an entirely new concept.

Some of the other points in the brief were:

Recreations which interfere with the preservation of natural conditions in parks should be restricted to definite areas.

Recreational pursuits which demand the use of mechanical power should be strongly dis-

couraged. Access by plane and helicopter should be limited to as few as possible designated landing places preferably on the perimeter. Educational programmes using natural features of the parks should be developed.

Cutting of trees or control of animal numbers, when desirable, should be carried out by park authorities.

In formulating policies for the management of nature reserves study should be given to the National Parks and Access to the Countryside Act 1949, Great Britain.

These are just some of the suggestions made in the brief. The Prime Minister has promised to give it consideration.

"EVILS STILL WORSE HAVE WE KNOWN"

(Author's Name Below)

Each new year begins with a goal we hope to accomplish before its end. All members of the health team, research scientists, physicians, pharmacists, dentists, nurses and chemists are united in a great effort to cure and prevent every disease.

We still have much to accomplish, but the past few years have enabled us to overcome many evils. No longer do we fear Malaria, pneumonia, mastoids, venereal diseases, infections from child-birth or surgical operations. We now have specific drugs physicians prescribe that can be depended upon. Even the few remaining diseases, for which we still have no known cure, can be lived with if their diagnosis is early.
