SPORTSMANSHIP PLAYING THE GAME

So you played the game
and lost, my lad?
And you're battered and bleeding too
And your hopes are dead
And your heart is lead
And your whole world's sad and blue.
And you sob and cry
In your grief and your pain
For the hopes that had to die
But the game is through
And it's up to you
To laugh, though you want to cry.

For someone there must be to lose, my lad
It's sad but it's always true
And day by day in the game we play
It's sure sometimes to be you
So grit your teeth to the pain, my lad
For you battled the best you could
And there's never shame, in the losing game
When you lose like a real man should.

For after all, life is a game, my lad
And we play it as best as may
We win or lose as the Gods may choose
Who governs the games we play,
But whether we win or lose, my lad
At the end when the battle's through
We must wait with a smile
For the after while
And the chances that will come anew.

And when that One Great Scorer comes
to mark against your name,
He writes not that you won or lost
But how you played the game.

Deer Lake. It isn't Deer Lake at all. "Atik" in Indian means "Caribou" and Atikwa means literally "More than one Caribou". So Atikwa Lake translated means "The Lake of Many Caribou." Incidentally, the large island on Atikwa Lake has had two or three caribou on it as recently as three years ago.

What about Yellow Girl Bay? Anyone know why that bay was so called?

2 Car Accidents Thursday Afternoon

Town police report two traffic accidents Thursday afternoon. At 1:20 H. Hicks of Kenora operating his car on Railway Street and about to turn into the CPR driveway, was in collision with a vehicle driven by Dennis Caron. Extensive damage resulted.

John Hrobar of Pine Portage Road driving his car north on Sixth Avenue South was in collision with a Burns Co. truck driven by Terrence Blake. The accident occurred as Hrobar applied his brakes causing his vehicle to go out of control and slide on the slippery road surface.

Keewatin United Missionary Society Elects Officers

The Women's Missionary Society of Keewatin United Church held the first meeting of the year on Tuesday, January 20th at the home of Mrs. J. McGarvey. Mrs. Spencer, the president had charge of the meeting.

The annual reports were given by the secretary and the treasurer and a paper on alcoholism was read by Mrs. Mackey. From the study book Mrs. J. Smith read a chapter on "Mexico." The time of the meeting was changed from 3 p.m. to 2:30 p.m. and the next meeting will be on Tuesday, February 17th at Mrs. A. Nicholson's.

Following are the officers for 1959.

- President - Mrs. Wm. Spencer
- Vice-President - Mrs. J. Waterson
- Secretary - Mrs. A. Johnston
- Treasurer - Mrs. F. Burton
- Asst. Sec.-Treasurer - Mrs. M. Symonds
- Community Friendship Secretary - Mrs. A. Nicholson
- Citizenship and Temperance Secretary - Mrs. G. Mackey
- Literature Secretary - Mrs. C. G. Pearson
- Missionary Monthly Secretary - Mrs. J. McCracken
- Supply Secretary - Mrs. J. Pearen
- Auditor - Mrs. J.-Lyle

Timber Haul In Full Swing In Kenora District

Cold weather over the past three weeks has aided timber operators in preparing lake roads and pulpwood landings. Hauling by truck of the season's pulpwood cut is now at its peak with approximately five thousand cords being delivered daily to the various storage grounds throughout the District. Twenty-eight Department of Lands & Forests scales have been kept busy measuring the volume of all forest products cut on Crown Lands. An estimated \$1,000,000.00 in stumpage charges will be collected by the Department for this timber. Many more millions will reach the pockets of those directly and indirectly engaged in the production and manufacture of products from the forest.

SIXTEEN RINKS STILL UNBEATEN IN 'SPIEL

Sixteen of the 88 rinks still remain unbeaten as of nine o'clock this morning as play continues in the 14th Annual Lake of the Woods Bopspiel. Among the "chosen" is Henry Clifton's Kenora rink; winner of the Grand Challenge event last year. Four rinks from Strathcona Winnipeg skipped by Mark Gordon, C. Williams, Bruce Hutcheson and L. Sveinson and J. A. Platt of Granite Club Winnipeg still remain unbeaten. Other rinks in the Grand Challenge are, W. Brown, Ed Bowman, George Jackson, Terry Sweeney, J. Pike, Les Munroe, Bill Sinclair and Bill Johnson all of Kenora. Wes Moore and A. McLeod both of Keewatin. Play resumes in the Grand Challenge with a draw at two o'clock this afternoon and one at 4:30.

Play in the Lake of the Woods event has also entered the sixteen's with the following rinks in competition today: W. A. McDonald - Pine Falls, D. Halliday - Fort Rouge, R. D. McKinnon - Falcon Lake, G. Lewis - Pembina, G. Kirton - Deer

Lodge, R. B. Gay - Winnipeg Winter Club, W. D. Cheyne - Granite, W. Burton - Keewatin, W. Currie - Keewatin, and Bill French, A. Scribilo, D. Williams, D. McCunn, B. Lysen, Les Evans and R. Redding of Kenora.

Only upset this morning was the defeating of Jim Guy's rink by George Jackson. Only one extra end game was played when H. J. Rolston defeated B. Lavergne of Kenora 9-8.

Play is also continuing in the Ontario-Minnesota event. Curling is of a high calibre in all events with all teams fairly evenly matched. With the 25 below zero weather currently prevailing the ice is as keen as the players.

- THURSDAY**
1:30 p.m. Draw
GRAND CHALLENGE
- L. Sveinson, Strathcona 9; J. K. McKellar, Keewatin 4;
 - D. Halliday, Fort Rouge 7; H. Marchant, Kenora 11;

Sigurd Magnusson Delegate Kenora Dist. Credit Unions

Sigurd Magnusson, Treasurer of the Keewatin Citizen's Credit Union, succeeds Ed. Lebleu as delegate for Kenora Credit Union District credit unions.

Together with delegates from 23 other Credit Union Chapters in Ontario, Sigurd-Magnusson participated in the second annual conference of Chapter Area Representatives under the Policyholders' Representatives Program of the credit union insurance society, held in Hamilton, January 16th and 17th.

The two-way educational program was designed to help credit unions and their members obtain a maximum understanding and benefit from the services provided by the credit union owned and operated CUNA Mutual Insurance Society.

During 1958, the series of 21 meetings held in Ontario by these volunteer representatives reached over 500 credit unions, providing assistance to treasurers and officers.

Mr. Magnusson is well known in credit union circles and has for a number of years been an active leader in the Kenora District Credit Union Chapter. He advised the meeting on Saturday that he will shortly be carrying this educational program to the credit unions in the Kenora-Hazy River areas. Policyowner credit unions are urged to select their delegate now to attend this meeting. The Program this year will include such topics as

J. Devlin Heads Lumberman's Safety Assoc.

The Kenora area Accident Prevention Committee of the Lumbermen's Safety Association met in the legion hall with a good turnout of members present.

G. R. Potts, Safety promotion supervisor from Toronto addressed the meeting. He dealt chiefly with the importance of area accident prevention committees in the province.

Mr. Jim Karpik, field representative for the northwestern district gave a report on the activities of the district for the past year. Several important safety subjects pertaining to woods and sawmill operators were discussed.

During the meeting an election of officers was held and the following will serve for 1959:

- Chairman - Joseph Devlin
 - Vice-Chairman - Frank Peterson
 - Treasurer - Mr. Nordin
 - Secretary - Mr. Olson
- Arrangements were made for regular committee meetings to be held in Kenora every six weeks. April 16th was the date chosen for the annual dinner meeting. The showing of two safety films concluded the meeting.

Moose Hunters Urged To Return Success Forms

Attached to each moose hunting licence issued in Ontario is a hunter's success form designed for the hunter to report the degree of success obtained during the hunt. Information taken from this form is most important and when compiled assists greatly in management of moose. A nil return is just as important as a return reporting a moose killed.

During the 1958 moose season approximately 728 resident moose licences and 378 non-resident moose licences were issued in Kenora District. To date only 158 resident hunters and 173 non-resident hunters have computed the department. The 158 resident hunters making returns report killing 112 moose or a hunt-

ers success of 70.89%. The 173 non-resident hunters report killing 123 moose or a success of 71.01%.

The Department of Lands and Forests at Kenora requests that hunters who have not as yet reported their success for the 1958 moose season do so as soon as possible. Cooperation from the hunter today will quite probably result in better hunting tomorrow.

Origin Of District Place Names

Frank E. Sider, District Forester, Dept. of Lands and Forests at Kenora asks, have you ever wondered where the Dalles Rapids on the Winnipeg River got its name? This is a very simple one. Les Dalles in French means the rapids on we have the Rapids.

Another misnomer is Atikwa Lake or more commonly called

AT DRYDEN

Dubchuk Stars With 2 Goals In Thistle Victory Last Night

In a fast clean hockey game witnessed by hundreds of fans at Dryden last night, the Kenora Thistles anchored their second place position in the Ontario Minnesota Hockey League by defeating the Dryden Rockets by a score of 3-2. Kenora now has 14 points eight behind the league leaders Warroad Lakers who have 22 points.

The Thistles took the lead at the sixteen minute mark of the first period when Frank Leroux shot the puck home. Dryden evened the tally, when the second

period was only thirty-eight seconds old.

Merv Dubchuk, star Thistle forward, deserves all the honours since he scored the second and winning goals of the game. In the third period, on an assist from Cox he tallied at the 1:52 mark. He scored the winning goal a beautiful solo effort at 12:14. Dryden's second goal followed at 14:02 when Wicklow sent the puck home on an assist from Bert Oig.

Kenora had three penalties during the entire game and Dryden had none. Harry Lawrence in goal for Dryden stopped 26 shots while Kenora's Allie Reynard accounted for 31.

Thistles play in exhibition Saturday night at 8:30 at the Thistle Rink when the Selkirk Fishermen will invade Kenora.

LET'S TALK CARS

Does High Speed Cause Accidents?

The fact that highway speed laws aren't really set by any scientific study of safety, but just seem to be numbers pulled from a hat becomes especially apparent when you drive through the U.S. You may cross two or three states in a day and find the speed limit jumping up and down between 50, 55 and 60.

The American Automobile Association recently proposed a new method for setting highway speed limits. The idea is to let motorists themselves decide what a safe speed is.

It's done, like so many things these days, with radar. The AAA has found that a safe speed is usually the speed travelled by 85 percent of drivers on any particular road. So the AAA has asked that state-wide or province-wide speed laws, many of them unrealistically low, be abolished in favor of the speed that radar devices show is the usual speed of 85 percent of motorists.

Figures I noticed recently showed that, contrary to what I always believed, most highway accidents don't happen at high speeds. A study in Nebraska established that 73 percent of all accidents occurred at less than 30 miles an hour. When speed limits were raised in Nebraska accidents were reduced and the average speed of cars on the highway didn't change at all. Why? To prove drivers were ignoring old speed limits anyway and driving at what they thought was a safe speed.

You just have to conclude that most drivers are ordinary people with good horse sense. We think so, so we have built our good name in the used car business by giving year-in, year-out value and satisfaction. Our best advertisement is the number of people who've come back time after time to buy cars from us.

Prospecting Activity Down in Province For 1958

Prospecting activity throughout Ontario suffered a relapse in 1958 according to figures issued by the Ontario Department of Mines. The 23,980 claims recorded last year were down by nearly 7,000 from the 30,947 registered in 1957. This is the fourth consecutive year in which staking activity has shown a decline from the all-time high of 57,367 recorded in 1955.

Last year's slump is attributed to the decline in the market price of some of the base metals which is thought to make the acquisition of mining real estate a less attractive proposition than it normally is. However, increased prospecting activity in some of the mining divisions in the province toward the end of the year would indicate that a partial restoration of normal prices will lead to renewed interest.

Gains were registered in three divisions over the previous year but these were more than offset by reduced totals in some of the other offices. The divisions showing increases were Fort Frances, Harder Lake and Montreal River.

It is estimated that with claims cancelled during the year being balanced against those recorded,

there were at the end of 1958 approximately 64,000 mining claims in good standing throughout the province.

During the year there were altogether 7,044 miner's licenses issued or renewed. This is down from the 9,278 issued or renewed in 1957.

The record of claims staked in some of the divisions last year, as compared with the number for 1957 is shown below:

	1957	1958
Fort Frances	433	801
Kenora	1,247	1,090
Harder Lake	1,630	2,276
Patricia & Kowkash	6,623	2,899
Port Arthur	4,351	4,027
Red Lake	1,078	2,657

U.S. Car Entries Show 2.4% Gain During November

The number of U.S. cars entering Ontario on Travellers' Vehicle Permits during the month of November was 52,351, and increase of 1,223 or 2.4 per cent over November of 1957, Travel and Publicity Minister Bryan L. Cathcart announces.

With one more month to come the total for the year is still slightly behind that of 1957 at the 11-month mark; as of November 30, 1957, a total of 1,489,998 cars

had entered Ontario on T.V.P.'s as compared with 1,463,019 for the corresponding period in 1956. The difference was 26,979, or a slight decrease of 1.8 per cent. However, as compared with 1956 there is a gain of 17,995 entries or 1.24 per cent.

Ontario and New Brunswick were the only gainers in November, according to the figures compiled by the Dominion Bureau of Statistics. However, for the 11-month period, New Brunswick,

Manitoba, Saskatchewan and British Columbia were the only provinces ahead of the 1957 travel figures. For the whole of Canada, there was a slight decrease of 1,749 entries, or just 0.1 per cent.

The Royal Red Cross is a decoration for nurses instituted by Queen Victoria in Britain in 1833.

Greenland has a population of 27,000 scattered in 200 settlements around the edges of the North Atlantic island.

Australia's Papua territory in New Guinea now has an aerial doctor service like that in Australia itself.

WHERE CARS ARE ALWAYS SOLD FOR LESS

READY FOR THE HELMLINE ORDERS

What's all the fuss about? That's the question asked by Diane Jamieson, Freia von Wedel and Connie Marrles, stewardesses on the Canadian Pacific Airlines. If the order comes from the upper echelons to raise the helm-line, they're prepared and adequately assembled. But on the British European Airways, stewardesses objected to the order to abbreviate skirts an inch or so. It wasn't the principle of the thing, they admitted; it was the effect. "We aren't all built like chorus girls," was their anguished protest.

CARD OF THANKS

We would like to thank all the wonderful people who so kindly helped us after we were burned out on Boxing Bay. We can't say how much we appreciated it all. Thank you, Mr. and Mrs. Bud Park and family.

IN MEMORIAM

SPENCER — In loving memory of our dear mother and grandmother Delia Spencer who passed away January 23, 1948.

As we turn back the pages of yesterday, To eleven years ago today, When the mom we loved so dearly, Was suddenly called away. Memories of mom are Oh! so precious. Thoughts of her are ever near. Many a tender word is spoken, And we shed many a silent tear. Death only comes to let us know, We love more deeply than we show. But love in death should let us see, What love in life should always be.

Loved and remembered always by her family.

IN MEMORIAM

SPENCER — In loving memory who passed away January 23, 1948.

Someone remembers, someone cares, Your name is whispered in my prayers.

A smile, a tear, a thought sincere, How often I wish that you were here.

Always remembered by her loving husband, Joe.

Announcements

The Rideout Athletic Association are having a broomball game on Sunday, January 25 at 8:30 p.m. Bring a broom and join the fun. Business meeting will follow.

A broomball game will be held on Sunday, January 25 at 1:30 p.m. at the Skyline Community Rink. Teams will be chosen. Please bring your own brooms.

The Annual Meeting of the "Kenora District Unit" of the Canadian Cancer Society, will be held on Thursday, January 29th at 8:00 p.m. in the Council Chambers.

in hot oven 400F. for 30 to 35 minutes. Serve warm with a small wedge of cheese on top of each serving.

There is no better way to finish a cold weather meal than with this apple roly-poly. It is easily made with biscuit mix and Delicious, Stayman or Rome Beauty apples may be used.

APPLE ROLY-POLY

- 2 cups biscuit mix
 - 4 tablespoons butter
 - 3 cups chopped pared apple
 - 1/4 cup brown sugar
 - 1/2 teaspoon cinnamon
 - 1/2 cup granulated sugar
 - 1 cup water
 - 2 tablespoons lemon juice
 - 2 tablespoons grated lemon rind
- Prepare biscuit dough, roll into 12 by 8 inch rectangle. Spread with 1 tablespoon of the butter and apples. Sprinkle with combined brown sugar and cinnamon. Roll up jelly roll fashion and cut in 1 1/2 inch slices.
- Place granulated sugar, 2 tablespoons butter, water, lemon juice and rind in saucepan, boil gently 10 minutes. Pour into 9-inch square baking pans. Place rolls in syrup, spread with remaining 1 tablespoon butter. Bake in hot oven 425F. for 30 to 35 minutes.

Two Ways with Fork Tenderloin
A delectable, tender meat to serve guests for dinner is pork tenderloin. The sweet, juicy flavour of this deluxe pork cut is ideal for a special occasion dinner.

Not only is there epicurean eating in every bite of pork tenderloin, but they're good economy too. There's no bone and no waste in pork tenderloin and little shrinkage during cooking.

Pork tenderloin may be purchased in two forms: whole - a long roll weighing about a pound, or pieces - cut and flattened into patties. To prepare a whole tenderloin, roll it in flour and brown in a little hot fat. Place in a covered casserole with a little bouillon, stock or water and bake it at 325F. about an hour and a half. Delicious brown gravy can be made from the drippings.

Tenderloin patties also should be browned in a little hot fat and then cooked with a small amount of liquid. Use diluted mushroom soup or tomato juice and cook on top of the range. A little chopped onion and a pinch of sage can be used as seasoning. Tenderloin patties cook in 35 to 40 minutes.

NEW LOOK IN PORK

Pork chops, loin roasts, and hams have a "new look" these days. A minimum covering of fat gives the meat its new look, and provides homemakers with more lean, edible meat with each pound of fresh or smoked pork they buy.

PROTECTION and SAVINGS

can be yours through Life Insurance as my Company's 72nd Annual Report shows. In 1958 \$35,859,458, or 74% of all benefit payments under Manufacturers Life policy contracts, went to living policyholders. These people have enjoyed protection over the years and now reap the benefits of the savings features in their Manufacturers Life policies.

My Company offers you flexible life insurance plans to meet your needs for protection and savings. As the Man from Manufacturers in your community, I would be proud to serve you.

Representing THE MANUFACTURERS LIFE COMPANY

Vancouver has the least variation in climate of any Canadian city. Highest temperature there is in the low 90's & there is no official record of the thermometer dropping to zero.

In the year ending March 31, 1958, the ten provincial govern-

ments spent an estimated total of \$2,226,000,000, an increase of \$180 million over the previous year.

In the 12 months up to October, 1958, Canada's consumer price index rose by two per cent; increase over the past five years has been nine per cent.

STRONG FINANCIAL PROTECTION

A bulwark against privation in old age; a source of new confidence for young families who face the future alone... these are the roles life insurance is playing for MANUFACTURERS LIFE policyholders and their beneficiaries who received \$48,476,032 in policy benefits last year.

Sound management policies and prudent investment operations continue to earn for the Company an enviable reputation for financial strength and solid growth. The MANUFACTURERS LIFE Annual Report for 1958 shows assets of \$819,795,409 - more than ample to fulfil future obligations to pay the benefits promised in our policy contracts. The net rate of interest earned after deduction of investment expenses was 5.11%.

The 72nd Annual Report also shows that more than 42,000 people purchased \$430,287,103 of new insurance from MANUFACTURERS LIFE. The Company now provides a total of \$2,882,174,877 in insurance protection for more than half a million policyholders. During 1958 a plan for mutualization was approved which, when complete, will place ownership of the MANUFACTURERS LIFE in the hands of policyholders.

Weekly Highlights

Merchandising:

Chain store sales during November continued to gain over a year earlier, but the rate of increase was less than the average for the eleven months, amounting to 2.4% against 6.6%. Among eight with increases out of eleven trades, grocery and combination stores had the smallest percentage gain in the month, but for the eleven months still had the substantial advance of nearly 10% . . . Department store sales in November were up 2.3%, also below the eleven-month average of 3.9%. The month's increase was broad-based, with increases in all regions except Quebec and in 21 of 29 specified departments.

Population:

Canada's population rose an estimated 354,000 in the eleven months from January 1 to December 1, 1958 to reach 17,241,000. The period's gain was substantially below the record figure of 518,000 for the corresponding 1957 period, and under the totals of 389,000 in 1956 and 358,000 in 1955. The drop in immigration was mainly responsible for the year's slow-down.

Manufacturing:

Manufacturers' shipments last November were an estimated 1% higher in value than in November 1957, leaving the eleven-month total 2% below the previous year's. Total inventory held was 4.5% lower than a year earlier, while new orders were almost 11% higher in value. Shipments were slightly higher than new orders, resulting in a fractional decline in unfilled orders. Steel ingot production climbed to 100,692 tons, 38.5% of annual rated capacity, in the week ended January 10. Output in the twelve months of 1958 was down 14% from 1957, but in December showed a slight recovery.

Crude oil consumption by refineries jumped nearly 14% in November to put the eleven-month total for 1958 slightly above that for 1957.

Labour:

Estimated labour income in October was nearly 2% greater than a year earlier at \$1,387,600,000, with gains in all five economic regions.

External Trade:

Commodity imports rose 1.5% in value in November over a year earlier - the second successive increase, while total commodity exports were down 6%. The result was a rise in the month's import surplus to \$48,500,000 from \$16,300,000 for November 1957. The month's results left imports for the eleven months 9% below a year earlier, and exports at practically the same level, the cumulative import surplus consequently being sharply lower at \$289,300,000 compared to \$749,600,000.

Ontario Adoption Rules Under Review

The Department of Public Welfare is giving consideration to less restrictive regulations which would facilitate and encourage the adoption of Ontario children by persons outside Ontario.

ario, Welfare Minister Louis P. Cecil, Q.C., announced recently. There are now some 8,000 children in the Province who are available for adoption, and many of them are not easy to place because of physical and mental disability or because of religious or racial background.

A few Ontario children have been adopted by persons of other provinces in the past, but it is the problem of adoption by U.S. people which is getting more serious study at the present. This involves many legal problems, especially that of citizenship.

"But," said Mr. Cecil, "I can see no objection to placing children elsewhere than in Ontario if we satisfy ourselves the home is a proper one. Our first concern is the welfare of the child, and if we can place a child in a home that really wants him, even if it is outside Ontario, why should we refuse the child the chance of getting a good home?"

Mr. Cecil cited the case of a Georgia couple who were interested in adopting two deaf children.

The Welfare Minister said that the same precautions will apply to adoptions outside the Province as to those in Ontario.

Launch Campaign For Elimination Of Gas Hazards

A campaign to eliminate natural gas hazards in Ontario has been launched by the Ontario Fuel Board in co-operation with major natural gas distributors in the Province.

Chairman A. R. Crozier of the Fuel Board said the campaign aimed at "entirely eliminating gas explosions from this Province apart from the human element."

He announced three major steps are planned to this end.

First, private distributors will review with Government inspectors all safety practices now in use.

Second, if experts say it can be done safely, additional quantities of the chemical injected in natural gas to give it a smell will be

put into Ontario distribution systems so leaks can be spotted more easily.

Third, negotiations are to be undertaken with the Alberta Government for the loan of that Province's top expert in the field of gas transmission and distribution system installation.
