DR. HOWARD KING TELLS ROTARIANS:

TIME TO TAKE ACTION ON HOSPITAL PROBLEM

The increasingly serious problems connected with supplying the people of this district with adequate hospital care in a building which has grown both too small for the larger population and in many respects, obsolete, was graphically outlined to members of the Kenora Rotary Club by Dr. Howard King yesterday. He illustrated parts of his talk by means of colored slides, which provided visual appreciation of the problems faced daily at the Kenora General Hospital.

Vice President T. A. O'Flaherty presided at the meeting, which greeted a Lakehead visitor, and had an 88.89% attendance. The speaker was introduced by Jim Hooper, who noted that this being National Health Week, afforded an opportunity to hear a talk on health matters. Highlights of Dr. King's speech follow:

HISTORY

Until 1897 the people of the Rat Portage had no hospital. The nearest hospital was in Winnipeg. On September 11, 1895 a meeting was called to consider the building of a district hospital. The cost of this early building was \$2,500 of which \$1,500 was collected in cash. The hospital was constructed by voluntary labor of citizens on a site on Tunnel Island which was granted to the Rat Portage Royal Jubilee Hospital Company by the Ontario Provincial Government. The building was a three storey wooden structure measuring 27

by 26 feet. It was opened on June 24, 1897 and the first patient was admitted the following day. The Original building is shown in the first slide.

According to available records a contract was let on August 28, 1903 for the building of a second hospital to measure 40 x 60-foot at a cost of \$15,000. The building was opened in 1904 and the original building then became a nurses residence.

At the Annual Meeting in 1929 the construction of a new wing was discussed. A contract was let in the following month and the building completed and opened in 1930. Additions and improvements were made to the Nurses' home at the same time.

Poliomyelitis Make 1959 "Polio Free", in Kenora

Poliomyelitis in Northern Canada is a disease of the middle and late summer, but to protect against the 1959 polio season immunization should be started now.

Polio vaccine is recommended as a "must" for all children and adults up to 40 years.

Vaccine is provided free by the Ontario Department of Health for the whole population. Those who have not taken advantage of this protection should start as soon as possible. Three doses are required, two a month apart and a third after seven months.

You can get this vaccine from your own doctor at any time. Also the Health Unit will be holding free clinics in the Kenora area, during February and March.

The dates and times and places will be announced in the paper and over the radio. Let us make 1959 a "polio-free" year in Kenora.

Chamber Seeks Early Answer To Council Query

The regular monthly meeting of the Kenora Chamber of Commerce was held last night in the Council Chambers, with a relatively light agenda for the consideration of the membership. President Doug Kennedy presided.

The Town Council will be asked to render an early decision in the matter of the taking of a vote on the question of cocktail outlets in the Town. It will be pointed out in the secretary's letter that unless steps are taken shortly to hold such a vote, the

matter, by law, be set over for another year. Last month the Chamber asked that such a vote be taken.

The new dock on Water Street will be lowered from its earlier projected level to 1032.2 feet, or the same level as the Matheson Street dock, the Chamber was advised. From Ottawa came word also that Ash Rapids cannot be dragged, as suggested, due to the solid rock base at that point.

Films On Sweden Now Available At Public Library

The following films on loan from the Swedish Embassy are available for this area for a limited time only. Bookings may be made at the Public Library.

RIVER UNDERGROUND

(colour - 14 minutes)
Produced by National Power Board. Blasting of a power station tunnel at Stornorrfors in northern Sweden. Of more interest to technicians than to laymen.

A LINE IS BORN

(colour - 13 minutes)
This film shows the building of one of Sweden's long power lines, from choosing of sites to the completed line. Would be of particular interest to engineering students. Also gives some glimpses of Swedish scenery.

SWEDEN'S FUTURE ARTISANS

(B & W - 14 minutes)
Creative activities in Swedish elementary schools, showing youngsters at work with everyday materials, producing toys and useful articles for gifts and holiday use. Also glimpses of gymnastics, home economic and other creative activities.

Rideout W.I. Plan Future Meetings

The regular monthly meeting of the Rideout Women's Institute was held Tuesday evening, January 27 at the home of Mrs. Eric Newman. Mrs. Symonds, president was in the chair. The meeting opened with the Institute Ode followed by the Lord's Prayer. Eighteen members answered the roll call.

Following the reading of the minutes and Thank-you notes from friends who had received Christmas cheer boxes, membership pins were presented to four members.

Mrs. Park then gave an interesting paper on culling black sheep wool. Mrs. Crawford read a letter from the Queen Alexandra Solarium for Crippled Children, thanking the institute for the used stamps which helped in the work they are doing. Mrs. Jardine reported on the course, "The Third Meal" and stated that the next meeting of the course was to be held Tuesday, afternoon at 2.30 at the home of Mrs. Frank Leroux Sr.

It was announced that "Summary Day" is to be held in the East room of the Legion, February 11th, commencing at 1.30 p.m. A dinner, in honor of the Institute's thirty-first anniversary is being planned, the date to be announced later, a business meeting to follow the dinner is to be held at the home of Mrs. A. Green.

The meeting closed, with the singing of the "Queen" after which, Mrs. Park, received gifts from members to help replace some of the household articles lost in a recent fire at her home. A delicious lunch was served by the hostess followed by a social

NORTH KENORA CREDIT UNION ON SOUND FINANCIAL BASIS

The sixth annual meeting of the North Kenora Community Credit Union took place Monday, February 2nd in the auditorium of the Masonic Hall, when a fair attendance of credit union members from the district were present to witness one of the best annual meetings ever held by this Credit Union.

Mr. Earle Alcock, acted as chairman and conducted the meeting in his usual genial manner.

The chairman then gave his report for the board of directors, when it was noted with pleasure that a 20% interest rebate on non-delinquent personal loans and also a 4% dividend would be given to the shareholders. The adoption of this report was moved by Earle Alcock and seconded by Vic Anderson.

The treasurer's report was read by Mr. W. Gustafson and the shareholders learned with interest that the North Kenora Credit Union had a total of \$32,265.44 in assets. W. Gustafson moved the adoption of the treasurer's report and Wm Rodgers seconded the motion.

Mr. A. Gustafson read the Credit Committee's report and it was with much satisfaction to the meeting to learn that the personal loan volume had kept pace with the growth of the credit union during 1958.

The supervisory committee report was read by Mr. Geo. Van Walleghem. He stated that the records of the North Kenora Cre-

dit Union as at December 31st, 1958 gave a true and correct view of the financial position of the Credit Union. The report informed the assembly that the Union was increasing in membership and in share investment. In 1958 there was an increase in personal loans to the amount of \$15,202.00; in estate loans to the value of \$2,669.00. The increase in the number of loans totaled 21 and the increase in members shares were 5,424.00; while the increase in the number of shareholders over 1957 were 21.

St. James Anglican Church Held Annual Meeting

The 37th annual meeting of the Parishioners of St. James Anglican Church, Keewatin was held in the Parish Hall Monday evening, January 26th, 1959.

Rev. W. J. Whitford presided over the well attended gathering. Mr. T. Thorpe was secretary.

Following the opening prayer, three minutes' silence was observed in memory of the late Mr. T. Atkinson who had been a very faithful and active member of the Church and vestry.

In welcoming those present, Rev. Whitford made special mention of the various ladies organ-

(Continued on Page 10)

W. BAKER KEEWATIN SPORTS LEADER, COMMUNITY WORKER, CALLED TO REST

At St. Josephs Hospital late Sunday evening, February 1st, William Baker of Eighth Street Keewatin, died in his 64th year. Born in Belleville Ont. Jan. 12th 1896, the late Mr. Baker came to Keewatin as a young man. For the past 30 years he had been employed by the Lake of the Woods Milling Co. Retiring last October due to ill health.

He was a member of the United Packing House Workers of America Local No. 554 and a member of St. Louis Roman Catholic Church Keewatin. A First World War Veteran he served overseas in France, Belgium, and Germany. He was also a member of the Keewatin branch of the Canadian Legion. The town of Keewatin mourns the loss of this great sportsman who has supported and lead sports in his community for many years.

He was manager of the Keewatin Millers for 3 years, including the year they were in the finals for the Edmonton Journal trophy and a past president of the Kenora-Keewatin District Baseball League. He was president of the Keewatin Ball Club for the past 3 years. His greatest thrill and ambition sportwise, was when his team, the Keewatin North

American Indians, won both the league and district championships. A solid believer in the Credit Union movement, he was one of the men responsible for Credit Unions being established in the Kenora District. He served his community well as a member of the council for the Town of Keewatin for a number of years.

He is survived by his wife the former Elizabeth Drake, two sons, Dennis of Vancouver B.C. and Ronald of Norman Ont., two daughters, Mrs. William (Sheliah) Cameron of Port William Ont. and Mrs. Robert (Doreen) Jean of Kenora Ont., also 5 grandchildren.

Resting in the Chapel of the Brown Funeral Home until 9.45 a.m. Thursday Feb. 5th 1959, thence to St. Louis Roman Catholic Church Keewatin Ont. for Requiem High Mass at 10 a.m. The Right Rev. Msgr. Hebert will officiate. Interment will take place in the Roman Catholic Cemetery Kenora Ont. Pallbearers will be as follows:—William McLean Sr., T. Meek, L. Bellefeuille, A., Benoit, R. Smith, J. Orlicieb.

Prayers will be said in the Chapel of the Brown Funeral Home at 3 p.m. Wednesday Evening Feb. 4th 1959.

**Triple Toxoid
Combined With
Salk For Infants**

A new product combining Salk anti-polio vaccine with the familiar triple toxoid against diphtheria, whooping cough and tetanus is available free of charge to doctors for use among infants and pre-school children.

The new quadruple toxoid was announced today by the Ontario department of health. It will give protection with four shots followed by a booster a year later.

The new product is produced by Connaught laboratories Toronto.

It will cut the number of injections necessary by three—the number now required for polio vaccine used separately.

The vaccine is restricted to use of infants and pre-school children because school children have already had the other toxoid besides polio. Separate polio shots will still be used among school children and adults.

Dedication, the Calvert trophy for best play in Manitoba region, Dominion Drama Festival was awarded Saturday to Winnipeg's Theatre 77 in finals held at Fort William, Ont. Manitoba regional chairman Mrs. R. W. Queen-Hughes is shown accepting the 23-inch high carved sumac trophy on behalf of the Winnipeg group from D. F. Lailey, Calvert Lakehead representative. In addition to the Calvert trophy, the group also received a \$100 cash award.

**TAP ARCTIC
AT MOOSENEE**

Toronto—Premier Frost said Thursday night the development of an ocean port at Moosonee on James Bay is aimed at "bringing the wealth of the Arctic down into Ontario."

He said in an interview that it has little to do with overseas shipments of Canadian products.

He had no notion of trying to build up Moosonee as another export port, after the "disappointing experience" at Churchill, Man., he said.

The premier said that with the promise of more exploration and development in the far north, especially in iron ore mining around Hudson Bay and the Arctic

islands, the province would be "just plain crazy" if it didn't take advantage of the northern port and the rail line that runs up to it."

Mr. Frost was commenting on remarks by new Progressive Conservative member Rene Brunelle (Cochrane North) who told the legislature Thursday that the plan to build port facilities at Moosonee would lead to the establishment of "a tremendous new iron and steel industry" there.

**Lakeside Club
Hold Successful
Tea, Saturday**

In spite of fifteen below weather on Saturday, January 31st, the Ladies of the Social Committee of the Lakeside Community Rink sponsored a very successful Tea and Sale of Baked Goods at the Kenricia Hotel. Mrs. Conrad Swanson and Mrs. Carl Holm poured for the first part of the afternoon and their places were taken by Mrs. D. Miller, Sr. and Mrs. Jack George. Also at the Tea were Mrs. J. E. Turner, whose husband was one of the Lakeside residents mainly responsible for the Community Rink at which both youngsters and grownups get so much enjoyment during the winter months. The Conveners of the Tea expressed surprise that so many turned out on such a very cold day and they asked this reporter to say "Thanks" to all, and especially those helped and contributed to its success.

People have been inquiring as to whether the Sunday evening Adult Skating Parties are to be continued and this attraction is definitely to be a regular part of the winter's activities at the Lakeside Community Rink with, of course, lots of hot coffee and donuts.

appreciation to members of the Parish and friends for their many acts of kindness bestowed upon him and his family upon their arrival in Keewatin.

Financial and Secretary reports of the church groups were given by their representatives, were most encouraging and indicated a year of increased activity and accomplishment.

Mr. I. Fines was re-appointed Rectors Warden.

Mr. F. Davis was elected by acclamation Peoples-Warden.

Members of the Vestry elected are: E. Brott, D. Balchin, D. Barnard, J. Butcher, P. Dean, R. Fisher, V. Kember, J. Thompson, H. R. Thorpe, T. Thorpa, A. Winchester, N. White.

Elected as delegates to Synod were J. Thompson and H. R. Thorpe, E. Brott and A. Hatcher will alternate, H. R. Thorpe and V. Kember were re-appointed auditors for 1959.

Rev. Whitford in his closing remarks thanked the members and officers of the various organizations for their support, the press and radio for their publicity, and asked the people for their full support and cooperation in the coming year.

At the close of the meeting refreshments were served by members of the St. James Guild and a social hour followed.

izations of the church, they being the corner stone, through their efforts much needed funds were raised, while the majority were content to remain inactive and relax and allow the condition to continue.

We need every penny that each organization can possibly reap—but not earned at the expense and denial of those attributes that our God tells will not corrode away, said Rev. Whitford.

The early church was kept thoroughly welded together by the unknings of the Holy Spirit, and a deep spiritual conviction in the heart of man, a conviction of fate which seems to have its corners pared and its teachings brought more in accord to suit the channels of secularism.

The time has arrived for all to pull their weight toward the fulfillment of the task in hand, Mr. Whitford concluded.

The Rector gave a detailed account of the activities and accomplishments which have occurred during 1958 expressing his appreciation to those responsible.

Attention was drawn to the memoriums placed in the Church by various families of the Parish, and the introduction of a robed choir.

Rev. Whitford expressed his

BILL BAKER

by Jack Thomson Bill Baker, nine letters of the alphabet, but they spell out the name of one of the greatest little guys local sports has ever seen. Bill has passed from the local scene, only to be called to a bigger job, with a championship club. To us on earth, his family and friends we choke up a little inside it makes us sick because we need him too. But we realize down deep inside, this job is more important than any he has ever had.

For thirty years, sports in Keewatin and the Kenora area have benefitted from this hard working man. When the diamond needed raking, Bill was there; when they needed a car for a trip, Bill took his. In the winter, Bill taped sticks, took tickets, cared for wounds. But, did he ever complain? No. This little man was bigger in heart than you or I will ever be. Whether it be young or old, he helped them all. And for what? Money, personal glory, recognition? Not one of these was his! To Bill, thanks was all that was needed, and many, many times never forthcoming. But that didn't stop this little dynamite; he'd shake his head and say, "I guess they're too busy."

Bill had been sick for quite a while, but never, never lost his interest in his boys. They'll all miss him, the young ones and the old ones. But they all know he'll watch over his teams, the way he always did. Goodbye Bill, it was an honour being your friend.

MINAKI NEWS

Mrs. Wm. Wright has been substituting in the senior room of the local school this past week due to the illness of Miss Densley.

There were several visitors to Kenora for the Friday rally of the Progressive Conservatives in the Legion Hall; Mr. and Mrs. Bill Sigurgeirson, Mr. and Mrs. Michael Lastiwka, Mrs. D. Savage, Mr. Kowbel.

Mrs. Henry Stone went on the local via Redditt to the rally at Kenora and attended the banquet and dance. On the return journey Saturday evening we had a little visit with the Ferguson's while filling in a mere four hour wait. Add to this discomfort the temperature was then about 32 below zero.

MINAKI ROAD

Everyone here seems to be excited over the latest release of news concerning our road. We are hoping work is to start shortly, perhaps this week, and keep right at it until completed. Guess no one will realize the end of all this dreaming and wishful thinking until we actually drive over it. So many here have cars or trucks ready to travel. In fact one small car has made the trip around from Redditt via Kenora and into Pistol Lake over the winter road used for hauling pulpwood from Wade. Anyway, we hope our inconveniences of getting in and out of this place are soon to be over. There are always so many inviting things we would like to attend in Kenora or surrounding area if it weren't

for the troubles of getting there, not to mention the expense.

While we were in Redditt we were discussing the fact that Minaki had the advantage of private telephone service, which now most of us would not care to do without. We obtained the information as to just how many places are serviced through Norwesto on the local switchboard as follows:

Minaki local phones, between 40 and 45. Pistol Lake 5. Redditt 2, Malachi, White, Ont. Jones,

Red Lake, Meintosh, Separation Lake and Gordon Lake.

Quite impressive for a small unorganized territory! Of course since the Hydro nears completion, Caribou and Whitdog Falls phones are now silent.

Among the various "talking" birds the male usually out-talks the female.

The Channel Islands off the French coast have a total area of 75 square miles.

LET'S TALK CARS

"CARS FOR THE KINGS" CAN'T BEAT OURS

Maybe you remember that several years before the war one of the auto manufacturers made a special car for the Duke of Windsor, of England. It had a small bar in the back, and a library and little reading lamps with shades on them. All in all, it was some car.

But it wasn't a patch on some of the fancy boats I've run across. Just last year a French body builder restyled an American car for King Ibn Saud of Arabia and it was delivered shortly before he died.

The King's coat-of-arms, two scimitars and a palm tree, were fashioned from silver, plated with gold, and made quite a hood ornament.

The King's bodyguards rode outside on disappearing running boards and held on to chrome grips fastened on to the 10-inch thick doors. There was green leather upholstery, sheep's wool rugs, an altimeter, barometer and cocktail bar with gold plated silver glasses that cost \$50.00 each. The car set the King of the oil-rich desert country back a cool \$22,000.

Hiltler demanded even more with a \$35,000 Mercedes Benz which had a 5 1/2 gallon gas tank, five speeds and a 230 horsepower engine. The car is owned now by an American.

At our place, you'll have to be satisfied with chrome trim, as much or as little as you want, and the matter of a bar in the back seat is a matter for you and the palates to settle. But the most expensive car we have is no more than 10 percent of the price of these fabulous cars for the Kings. And we think there's nothing like owning your own car to give you that independence and freedom that makes a man "feel like a King."

Time To Take

Action
(Continued from Page 1)

With the exception of a further addition to the Nurses Home-in 1950 and the installation of a new elevator in the main building in 1952 there have been no further additions.

The problem which faces the Community and the Hospital Board is a deterioration of facilities due to an over-crowding and over-crowding. Strangely enough by forcing the hospital beyond its rated capacity and managing somehow to cope and make do with its old and inadequate facilities, the board and staff have willingly or unwillingly concealed the need from the people. The fact is that the beds have been increased 50% over the rated capacity to cope with over-crowding. The dangers of fire in an old building, cross infection in crowded quarters and the use of obsolete facilities are calculated risks which we have had to accept as have many other Canadian Hospitals.

Our board has been very much aware of the hospital's problems and during the past ten years much has been done in the way of improvements. These improvements, however, have been seriously hampered in their effectiveness by the limits and restrictions of our present building.

Many wards have been remodelled and redecorated, a new automatic elevator was installed, a new X-ray unit was put in operation. New operating room table and case room tables plus adequate lights were purchased, the electrical service was completely renovated at a cost of some \$7,000 to overcome a serious hazard and provide a reserve capacity. Plumbing and heating pipes and fixtures have had to be replaced. Expensive laundry equipment has been provided to replace worn out units. All of the equipment which has been purchased is good and will merely need to be relocated in any expansion programme.

In 1957 the Hospital Board began seriously to consider a programme of major expansion. The services of Smith, Carter, and Kotelnikoff, Architects, were engaged and in December 1957 they presented a report on the physical plant and future requirements of the hospital. This report and recommendations are based on the Board's request to enlarge the bed capacity and the hospital to 100 beds and also to incorporate services and facilities for a further expansion in the future to 150 bed capacity.

At the present time the hospital provides 74 beds and 10 bassinets while the rated capacity is 50. The wards are overcrowded, especially in the old section and sunporches are being used as bed-rooms.

Nurse's stations and utility rooms are inadequate for proper nursing procedures and on the first and second floors, utility rooms and patients washrooms are combined. Only 2 private wards have private washrooms - all other wards have common washrooms, and bathrooms. There are no wash basins in the wards.

I would like now to go over some of the departments and facilities and illustrate some of the points with slides.

A few of these facilities should be enlarged, others should be remodelled and modernized but in most cases they should be relocated or even a new department created.

ENTRANCE and LOBBY

The present main entrance is in the centre of the west front at the junction of the old and new sections of the hospital. The entrance is at grade level and leads through a vestibule into the basement elevator lobby. A stair goes up to the first floor. There is no control over persons entering the building. A small waiting room is provided in the old section on the first floor and part of this space is taken up with equipment for admission chest X-ray films.

The lack of an entrance and lobby has no effect on the quality of service rendered, but does very greatly affect a patient's feeling about the type of hospital he is entering.

ADMINISTRATIVE OFFICES

Are overcrowded and must be

expanded. The amount of paper work and administration required demands more personnel equipment. A minimum area of 1,300-1,500 square feet is required to provide accommodation for an administrator, secretary, director of nursing, general business office, board room, switch board and information centre.

MEDICAL RECORDS

There is no special department for medical records. These are stored in a room in the basement and the space is inadequate. Medical histories and information should be more readily available.

DOCTORS FACILITIES

There are no coat rooms or toilet facilities. It is also felt that there should be a library and facilities for dictation of medical histories.

ADMITTING DEPARTMENT

There is none at the present time. As pointed out previously, chest X-rays on admission are being taken in the waiting room. This should be a new department and located near the ambulance entrance and administrative centre of the hospital. Space should be provided for interviewing and also for stretchers.

EMERGENCY DEPARTMENT

None in the present building. This is a definite recommendation for a hospital of this size. It should be located near the entrance to take care of casualties, minor surgery and fracture work.

RADIOLOGY

The X-ray department is located on the first floor of the old section. This department is very overcrowded and provides one X-ray machine and a small dark room. There is no office or separate viewing room. In 1957 this department provided 1,218 routine chest X-rays, 1,908 other X-ray examinations and 139 fluoroscopic exams.

PHYSIOTHERAPY

There is no department but this should be planned and should be located so that it can be easily reached by in patients and out patients.

PHARMACY

There is no pharmacy. Drug supplies are stored in different locations under the stairs of the old building and in the superintendent's office.

LABORATORIES

The present laboratory is located in the basement of the new wing. This is most inadequate and should be enlarged to accommodate all the facilities which are

necessary in a modern hospital. Incidentally this lab also doubles as a morgue. There are no post mortem facilities.

SURGICAL

The space is inadequate and the major and minor rooms are far below the standard size. There are various features which are not in accord with today's accepted provisions and standards:

- (1) Scrub up.
- (2) Not Closed Off.
- (3) Non conductive floors.

The importance of replanning a surgical suite gains importance where you realize that in 1957 no fewer than 49 operations were performed in one month and as many as 88 were performed. The totals for the year were 239 major and 572 minor operations.

DELIVERY SUITE

One delivery room - no special labor room. There is general through traffic in front of the delivery suite which is not closed off to the public. This suite should be redesigned and relocated.

NURSING

Contains 10 bassinets in a very small space and off this room an even smaller utility room is provided.

CENTRAL STERILIZING AND SUPPLY

Is now done in a small room off the major operating room and supplies are stored in a narrow room across the corridor. A proper suite for this department is required.

DIETARY

This department certainly needs immediate attention. At present, food is prepared in kitchen areas on the second and third floors of the old section. There is also a coffee kitchen and snack room on the first floor.

There are no walk in refrigerators. The nurses dining room is fairly adequate but the staff dining room is too small. This entire area has to be replanned. I think you will agree that the preparation of some 75,000 meals a year with the existing facilities is a feat bordering on the miraculous.

CENTRAL STORAGE

Should be high on the priority list. All stores are now placed in several rooms and corridors and consolidation of this department is very desirable.

LAUNDRY

Located above the boiler room and can be reached by a narrow passageway from the old section. This department must be replan-

ned and relocated and should be closer to the central linen and sewing room.

Much of our present laundry equipment may be re-used.

BOILER PLANT

Is below standard because of wood ceiling and wood structure. The present plant is inadequate for expansion and the capacity is not sufficient to keep one boiler in reserve. There is no auxiliary generator in case of power failure.

From the analysis of hospital departments I think you will agree that our expansion programme is not only desirable but extremely necessary.

Our next step was to have plans prepared which would incorporate all the features required to completely modernize our hospital. The greatest difficulty encountered was the building site. This is illustrated by the following slides.

After many meetings with the architects, medical staff, nursing staff and the Ontario Hospital

Services Commission, we feel that we have reached a satisfactory solution and our proposed plans have now been approved by the government. I do not propose to go into detail about the plans but will illustrate with a few slides.

OBJECTIONS

Some objections to the programme have naturally come to our attention. These have been previously seriously considered by the Board.

- (1) Lack of space for future expansion.
- (2) Sewerage facilities.
- (3) Possibility of town being cut off by bridge.
- (4) Noise.
- (5) Parking.
- (6) Transportation.

FINANCING

The total cost of this hospital programme is just over 1 million dollars. This is a staggering sum and a lot of time and effort have gone into consideration of (Continued on Page 6)

WEDNESDAY

PREVIEW FEBRUARY 4th - 6 - 10 P.M.

KEEWATIN INSTITUTE

The regular monthly meeting of the Keewatin Women's Institute was held Wednesday evening, January 28th in the Keewatin Legion Club Room. Twelve members were present. Mrs. Eliza Allan presided.

The meeting opened with the singing of the Institute Ode, and the Lord's Prayer.

Secretary - Treasurer Mrs. O. Swinsson read the minutes of the last meeting - approved as read. Moved and carried that all outstanding accounts be paid. Thank-you notes were read, for Xmas hampers received.

Motto for January: Invest your time, instead of spending it. Mrs. Holmes gave a short talk on the Tweedsmuir History Book.

Miss Avice Jones, Convener - Home Economics and Health read a very interesting article on Signs, Treatment and Care of Deafness occurring in a growing child.

Mrs. Marjory Bellamy gave the following report on the Life and Works of Miss Ethel Chap-

man. Editor, for the past six years of the Women's Institute Magazine, Home and Country.

At the provincial board meeting of the Federated Women's Institutes of Ontario, it was decided that Miss Chapman was to be the Institutes' guest on a trip to Edinburgh next summer, at the time of the triennial meeting of the Associated Countrywomen of the World. The trip, said President Mrs. James Heggerty, was a tribute to the outstanding and continuing contributions to the rural home life of this province, made by Miss Chapman through her writing, lecturing, and extension services.

The announcement came as a complete surprise to Miss Chapman, who has still not quite recovered from her astonishment.

"If, as they say, I have contributed anything to the homes of rural Ontario," she wrote to us, "it is because I have been privileged to work with the Institutes and the farm young people. I think any extension worker would agree with me that they give us far more inspiration than we can ever give back to them."

This is Miss Chapman's first trip to Britain, and she said, "I want to attend the conference of the Associated Countrywomen of the World, of course. Afterwards, I especially want to see as much as I can of the country in Great Britain and Ireland; something of the farms and villages and the homes; and of course the historic spots that every first-time tourist visits. The whole project is so new that I haven't planned anything very definite yet."

Here is a little autobiography of and by Miss Chapman: "I came at the last of a very large family and I believe that

to belong to a closely-knit family is one of the best things that can happen to anyone. Most families have some special common interests. In ours we all liked to sing. Seven of the family taught school, and one was a music teacher. We were blessed with a devoted and gifted mother. She could direct us in "part-singing" while she worked at the kitchen stove and as long as we were in high school, she could help us with a problem in mathematics, give ideas for a composition, or supply source material for a debate.

"Of course there are some hard things about belonging to a large family. Usually they have to leave home to seek their fortunes, and ours scattered all over Canada and to the States. As the years go, a large family suffers many bereavements inevitable, but not less hard for that. "My chief youthful ambition was to write stories. As a child my writing efforts filled many a "one-cent" scribbler, but then as now, my ambition was far in advance of my performance.

"When I was about thirteen, the girls of the neighbourhood were invited to a meeting of the local Women's Institute to see a Foods teacher from MacDonald Institute give a demonstration on cooking eggs. I know now that it was an excellent demonstration, and I decided then that I wanted to go to MacDonald Institute and learn to do extension work."

Extension work occupied a good deal of Miss Chapman's life. Her first job was giving courses in food and cooking to Women's Institutes and later she was assistant superintendent of the WI Branch. For the past six years she has been the editor of the Women's Institute magazine, Home and Country.

The youthful ambitions as a writer were not forgotten, however, and for twenty-five years she was editor of Farmer's Magazine. She has written three books: "God's Green Country," "The Homesteaders," and "With Flame of Freedom." She has also published serials and short stories, some of which first appeared in the Farmer's Advoc-

ate. The meeting then came to a close with the singing of the "Queen". Lunch was served and a social half-hour was spent.

CARD OF THANKS

The Keewatin Minor Hockey Association would at this time like to thank The Grand Old Opry Show, The Keewatin Figure Skating Club, The Merchants of Kenora and Keewatin and any one else who had a part in making our Minor Hockey

Night and the Jack-McKellar Night the success that it was. To all who came to the rink thanks for your wonderful support. Once again thanks a lot it was night we won't forget.

KEEWATIN NEWS

Mrs. Kenner

REPORT

from
Queen's Park

Albert Wren, M.P.F.

Colourful Opening of Legislature

The Fifth Session of the Twenty-Fifth Legislature opened here on January 27th with the largest number of visitors in history. It was reported that over 1,200 guests passed through the receiving line to greet the Lieutenant-Governor and have tea in his apartment.

The Speech from the Throne indicates the heaviest agenda for many years and that the Session will be lengthy and interesting. As the Throne Debate develops more information will be available on plans to expand welfare,

northern development, aid to municipalities, further adjustment to school grants, etc. The period between February 2nd and February 23rd will leave little time to spare for any Member of the House.

The dark clouds of unemployment overshadow the Session and a special debate on this subject is being brought forward in the January 31 issue of the Financial Post says - "I am quite appalled at how few Canadians there are who realize the gravity of our country's economic predicament." "Despite all our modern instruments of communication, the real facts of the situation and why it is so serious don't get through." "Despite all the stern education provided by the last year's events, the speeches are still full of nonsense, the air of static, the public of misinformation." "At the very moment when the national family most needs light, the fuse blows in the basement."

Northwestern Chambers Meet Cabinet

On Thursday, February 5th the annual pilgrimage of the Chambers of Commerce of Northwestern Ontario meet with the Premier and the Cabinet. Resolution passed at the September convention of the Chamber will be discussed at the time. The four MPP's from Northwestern Ontario will entertain the delegates.

Labour Report

The Report of the Select Committee on Labour Relations will be tabled in the House on February 2nd followed by speeches of the several members of the Committee. The report will later be a subject to full dress debate about Ontario's labour relations matters.

Forty Million Canadian Money Going To Duluth

Alexander Freeman, a Winnipeg lawyer, has been elected President of the International Duluth Seaport Corp. and leaves for England soon to interest English capital in the Duluth port. The Company says it has definite plans for the Lakehead but won't reveal them now. Mean-

while the Financial Post reports that out of the estimated One Hundred Million Dollars which will go into the Duluth development, Forty Million Dollars will be Canadian money. The backers says it's simple economic to bypass the Lakehead in favour of Duluth. What will this do to Northwestern Ontario? Have we lost some vision somewhere?

Minaki Road Approved

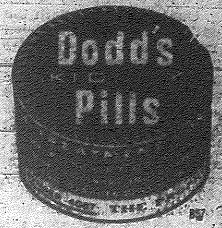

The long and difficult fight for access to Minaki seems fruitless at last. The Minister of Lands & Forests and the Access Road Committee have approved completion of right of way and building of the grade as quickly as ground conditions permit. This develop-

ment will mean much to the western reaches of the District.
Albert Wren, M.P.

Mr. and Mrs. M. McKellar have returned by plane to their home in Montreal after spending the weekend with his parents Mr. and Mrs. J. McKellar.

Mr. and Mrs. J. McKellar were joined by members of their family at a dinner party prior to the evening's entertainment held in his honor at the Kewatin Memorial Rink on the evening of his retirement.

Miss Doreen Thorpe returned to Winnipeg Saturday evening after visiting at her home.

**Do You Want A Community Centre Like This?
It Can Become A Reality - If You Help!**

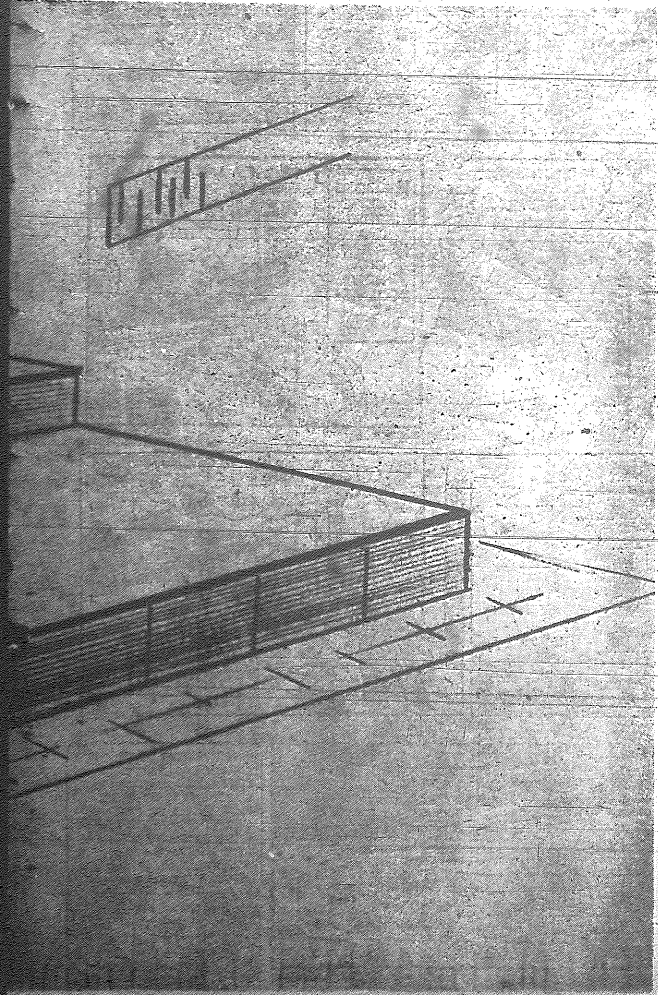

"Little drops of water, little grains of sand, make a mighty ocean and a pleasant land," with apologies to the author, "small" pledges of money, pledged by a horde of people will swell the funds and see the community centre become a reality - and this will indeed be the "pleasant land."

Tonight at the Kenricia Hotel all interested citizens are asked to come out to the Community Centre meeting which commences at 8 o'clock. The executive need many more workers to garner the many, many pledges still needed.

To date 700 people have pledged \$190,000 towards the goal set by the executive. The executive points out that since all are aware of the need for a community centre, the 700 stalwarts must be joined by as many more. If you do your part, the artist's conception of Kenora's Community Centre, pictured at the left, will soon be started.

If you cannot attend the meeting tonight, please offer to sign a pledge at once. Mr. Cockerill of the Toronto-Dominion Bank, community centre treasurer, will be more than happy to assist you.

'DON'T HEDGE - SIGN YOUR PLEDGE'

Time To Take Action

(Continued from Page 5)

possible ways and means of financing. Our conferences with the Hospital Services Commission have resulted in a pretty definite picture with regard to government grants. At the present time we qualify for grants of \$30,000.00 per bed plus grants on the basis of floor space for treatment and diagnostic services.

The total expected in government aid on this is approximately \$50,000.

On the basis of this information the Board decided to engage the services of a professional organization for the purpose of determining the feasibility of a fund raising campaign to finance the balance.

It is their considered opinion that this community is capable of raising a sum of \$500,000 by way of a capital fund raising campaign on the basis of three years pledges. On the basis of gross payrolls—alone the community could support such a campaign on one percent per year for 3 years.

The ability of the Town of Kenora to support such a project is much more questionable. The Town faces expensive commitments which may bring it to the limit of its borrowing powers.

It seems apparent that the heavy portion of the burden should be borne by the people rather than through the medium of debentures issued by the town.

At the present time the financial aspects of this project are in the development stage. The development committee is under the chairmanship of Mr. L. A. Toole and a small office has been rented down town for secretarial work and committee meetings.

We need the interest and support of every citizen.

The question "Can the Community Achieve an objective of \$500,000" seems definite.

The question now is "will the community support it?" I feel confident that when the whole community is made aware of the need and fully informed as to the programme that the answer will be yes.

North Kenora Credit Union

(Continued from Page 1)

Mrs. J. E. Roberts, who headed a new committee for North Kenora, entitled "Educational Committee" gave a most comprehensive report. She informed the meeting that "Education is a very necessary part of our every day living and can mean that step up to happiness, and that Credit Union members cannot be expected to learn all the details of operation in one short talk." Through a monthly bulletin this committee hopes to assist credit union members in learning the wonders of Credit Union. Mrs. Roberts is assisted in her work by Mrs. N. Munn.

The chairman stated that under unfinished business that office space had been located in the office of the Notre Dame Credit Union for a half day once a week. The report for delinquent loans was read by Mr. W. Gustafson.

The election of officers for 1953 was supervised by Mr. S. Magnusson of the Keewatin Credit Union.

Two board of directors were

required. Nominated were Mrs. Kay Benabo, Walter Gustafson and Dave Francis. Mr. Francis declined to stand and Mrs. Benabo and Walter Gustafson were accepted an acclamation.

One member was required for the supervisory committee. Mr. George Heibel and Mr. F. Heibel were nominated. Mr. Heibel declined to allow his name to stand and Mr. Heibel was elected by acclamation. For the Credit Committee, Frank Schelling, Min. Rodgers and Oscar Bowman were nominated. Mr. Schelling and Mr. Bowman declined to compete and Mr. Rodgers was elected.

Mr. W. Gustafson introduced the guests from Notre Dame Credit Union, South Kenora, Kendo, The Railroaders and the Keewatin Credit Union.

Mr. Jim Davidson, a director of the Ontario Credit Union and a charter member of Notre Dame Credit Union addressed the assembly and related that it was a wonderful thing to see people come out and discuss credit union. He informed them that they were the shareholders and it was unfortunate that more people do not come out. However, he recalled the first meeting of the North Kenora Credit Union which was held in somebody's home. The Credit Union had started off slowly but was progressing favorably. He congratulated the chairman on his officers and hoped that they would continue to grow.

Mr. S. Magnusson, from the Keewatin Credit Union stated that it was gratifying to see so many visitors at Credit Union meetings. He stated that the North Kenora would be one of the biggest credit unions yet and congratulated the executive on running such a good credit union.

Mr. H. Michalak brought greetings from the railroaders, also Mr. Ben Sinclair. Mr. J. Nolan brought greetings from Kendo and congratulated North Kenora on having such a successful year.

Mr. Jack Roberts of Kendo credit union congratulated the chairman and his officers on having completed such a successful year. He informed the chairman that the Chapter would be glad to assist the North Kenora Credit Union in any other credit union and if requested would be glad to have the chapter conduct a program any time the credit union desired.

Mr. Ernie Crawford spoke briefly relating that there was quite a change in attendance from last year. He was glad to see a bigger attendance which foretells progress. He wished the chairman and officers of the North Kenora Credit Union continued success for the future.

Mr. Dick Degagne who plans to publish a Credit Union newspaper this month for Northwestern Ontario spoke briefly to the meeting. The paper will be called the Credit Union Educator and will serve the seventeen credit unions in this district. Door prizes were won by Mrs. Kay Benabo and Mr. Vic Anderson.

Mrs. Roberts and Mrs. Munn served refreshments.

- QUICK CANADIAN QUIZ**
1. What part of Canada receives the most sunshine over the course of a year?
 2. The R.C.M.P. force were created in what year?
 3. In 1947 the average weekly earnings in Canadian manufacturing were \$36.34. What is the present average?
 4. In the fishing industry which province ranks first in value of output?

5. In a year which is greater, spending by the federal government or spending by the ten provincial governments combined?

ANSWERS—1. Last year combined spending of provinces was over \$2.2 billion, by the federal government over \$5.5 billion. 2. At July 1, 1953, average manufacturing earnings were \$73.02 a week, more than double the 1947 figure. 3. The southern sections of Alberta and Saskatchewan. 4. British Columbia ranks first although total value of Atlantic fisheries is usually about twice that of Pacific fisheries. 5. In 1873 was then called Northwest Mounted Police, operated only in the west.

Conservation Club Assists With Save The Birds Campaign

TORONTO — Thousands of wild birds in Ontario will be alive next spring thanks to an anonymous person who wrote a letter to a large newspaper in Toronto a year ago.

The person who signed his or her name simply "Bird Lover" wrote a short appeal for kindness that affected a great many people. The writer asked the readers of the paper not to forget the birds when the ground is rock hard or the snow too deep for them to get food.

"Just a few crumbs of bread or some grain will keep the birds alive until spring," the letter stated. "Humans are the highest form of life on earth. It is their duty to look after the wild creatures entrusted to their care."

The letter was brought to the attention of officials for the Carling Conservation Club and things started to move. The club immediately obtained four tons of special bird feed and contacted the Audubon Society of Canada. The feed was distributed to the

various members of the world famous naturalist society in every Ontario centre with the aid of the Ontario Federation of Naturalists.

"That feed was a lifesaver to countless birds," John Livingstone, director of the Audubon Society, stated. "It was a wonderful gesture on behalf of conservation."

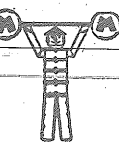

Encouraged by the success of last year's campaign the Carling Conservation Club has obtained four tons of feed again this January, and are distributing it to 42 member groups of the Ontario Federation of Naturalists.

Naturalists in Ontario have in recent years become quite alarmed about the disappearance and, in some cases, extinction of certain forms of wildlife. One reliable authority figured that from now on man can expect the disappearance of at least one form of life every year. In the balance of nature this can be exceedingly dangerous since every form of life contributes something to other living creatures. Wild birds, for instance, destroy insects which cause millions of dollars damage to farm crops.

An official of the Carling Conservation Club said he hopes the example set would arouse interest in private citizens. "Feeding wild birds is not an expensive task," he said, "but it is one we feel we have to do in the interest of conservation." He also advised that blueprints of a windvane feeding station are available at no cost simply by writing the Audubon Society of Canada at 423 Sherbourne St., Toronto.

lic contributions will be accepted by chartered banks. Prospective donors also will be informed they may mail their contributions directly to Ontario campaign headquarters, at 156 Bay Street, Toronto.

The Canadian Heart Fund is organized by the National Heart Foundation. A. B. Hill is president of the national foundation. The Ontario division of the fund is under the guidance of the Ontario Heart Foundation, a federated member of the national body, with D. W. Ambridge as president.

Funds collected are used essentially for research programs, which are directed by the provincial foundation. Ninety per cent of the Ontario Heart Foundation's budget is earmarked for research. The remaining 10 per cent is used for professional clinics, public education and administration.
