MARGEURITE GIGNAC

Marguerite Gignac, one of the country's most outstanding sopranos will present the second concert in the current Kenora-Keewatin Overture Concert Series at the High School Auditorium, Saturday night, February 14th at 8.30 o'clock. Unquestionably Canada's finest lyric coloratura soprano, and more possibly, one of the finest on the continent, local ticket holders are assured of an evening with one of Canada's "greats."

KENORA'S LATEST VISITOR HAILS FROM AKLAVIK, ARCTIC CIRCLE

The Miner and News had an unusual visitor call at the office today in the person of a very presentable and handsome too, we might add) twenty-three year old Eskimo from Aklavik, in the Arctic Circle.

"Lovely day isn't it?" he said. "I like this part of Canada." When told it was forty below zero in Kenora, the rejoinder was — "that's not cold, we've had it 82 below, in the Arctic circle."

Mel Beaulieu is the young man's name, not his original name but his baptized name given him by the Fathers of the Catholic Mission where he attended school for twelve years. This young man boasts many accomplishments, one of which is that he can converse fluently in nine languages, French, English, six Indian dialects and his native Eskimo. He is naturally a hunter and fisherman, since he must be accomplished in these arts in order to live in the far north, he has been a miner and a forest fire fighter and is a pilot, with enough hours to his credit, to apply for his licence.

Mel's purpose in leaving his home, is to go to Ottawa where he wishes to apply for a position of interpreter, hoping to be sent back north to work.

Asked why he left home, Mel replied that it is too difficult to earn a living in the far north. Last summer and fall, he worked in the mines in the Yukon and for the forestry department in the Northwest Territories, to earn enough money for his trip.

He has spent the past few months with his father, mother and seven sisters at Aklavik, leaving there just seven weeks ago. He travelled down the McKenzie River then to Edmonton and to Winnipeg arriving in Kenora this morning. He hopes to work here for a few weeks, then on to Ottawa.

In speaking of job opportunities near the Arctic Circle, Mel states that they are non-existent.

(Continued on Page 3)

Womens Groups Thank Benidickson

"We wish to give particular thanks to Mr. W. M. Benidickson, MP for Kenora Rainy River, for his interest and intercession on behalf of our submissions." This is a sentence in a letter directed to supporters of "The Canadian Committee on the Status of Women" from the President, Mrs. G. D. Finlayson of Citawau, reporting on the work and efforts of the organization, dealing with the new Estate Act, which was passed by Parliament and became effective on Jan. 1st, 1959.

The Committee specially interested in the various provisions of the Act from the viewpoint of husbands, wives and families, includes representatives of such prominent organizations as the National Council of Women of

Canada the Canadian Federation of University Women, National Council of Jewish Women, Quota Club, local Women's Institutes and several individual widows.

Mr. Benidickson spoke on the Act, presenting the views and recommendations of the Women's Committee both in the House of Commons debates and again before the House Banking and Commerce Committee, last July.

The Chairman's report dated 15th January, expresses the gratitude of the organization to Mr. Benidickson for his efforts, as quoted above.

Kenora Wins 2nd Straight Brier Play-Off Game

BULLETIN:

At 3.45 p.m. this afternoon, Jack Pike and his Kenora rink won their second straight game, defeating Beardmore. The Kenora entry was 4 rocks up on the 12th end, and came through nicely. Tonight they meet Camp Robinson.

Other second-round results saw Fort William win over Couchenour and Marathon over Camp Robinson. Port Arthur and Atikokan game went into an extra end. No final result was received.

Kenora's talented skip Jack Pike and his team mates won their first game this morning in the Northwestern Ontario Curling playdowns at Fort William when they defeated Couchenour.

143 Other draws were:
Port Arthur 6 - Beardmore 5
Fort William 10 Camp Robinson 4
Marathon 10 - Atikokan 1

Stolen Car Found In St. Boniface

A car owned by Bob Bradley, Fourth Avenue South stolen from in front of the wood room at the mill, between 1.30 and 2.00 o'clock this morning, has been recovered in Manitoba. At 5.30 this morning St. Boniface Police spotted the stolen car entering the city. Two men were arrested and will face charges.

Mrs. A. H. Smith Of Jaffray Melick Died Thursday

Mrs. Sadie Laura Smith, RRI Kenora, was called to rest at the General Hospital, Thursday, February 5th. Born in Belleville, Ontario, March 21, 1886, she was in her 73rd year.

She came to this district as a little girl with her parents in 1911. She attended school in Kenora and was a charter member of the Women's Institute.

She is survived by her husband, Alfred Henry, one son Alfred John; four sisters, Mrs. W. J. (Amy) Price, Kenora, Mrs. W. (Ethel) Saunders, Nanaimo, B.C., Mrs. P. J. (Francis) Hall, and Mrs. Laurence (Gertrude) Dowd both of Kenora; three brothers, Hedley Alcock, Kenora, Cecil and Jack Alcock both of Kenora. Also surviving are three grandchildren.

Funeral services will be held in the Chapel of the Brown Funeral Home, Monday afternoon, February 9th at 2.45 o'clock. Rev. Ivan Robson will officiate and interment will be in the Lake of the Woods Cemetery.

EXPECT 225 DELEGATES

KENORA TO WELCOME TOURIST OUTFITTERS

Local members of the Northwestern Ontario Tourist Outfitters have completed all the details for the 31st annual convention of the association which opens in Kenora on Monday. Approximately two hundred and twenty-five delegates are expected to register for the three day conference. Every available hotel room in Kenora has been booked and headquarters will be at the Kenricia Hotel.

Distinguished guests will include Alan Field, director of the Canadian Travel Bureau, Ottawa, Mel McMullen, Deputy Minister of Trade and Commerce for the Province of Manitoba, Dr. R. I. Wolfe, Director of Planning, Dept. of Highways, Capt. W. A. Morrison, Dept. of Transport, Jim McLattie, Director of Development, Branch of Dept. of Trade and Publicity, sports writers and heads of various other government departments.

Highlight of the convention the third to be held in Kenora, will be the Civic banquet, Tuesday evening, tendered by the Town of Kenora. Due to the number of representatives from out of town, local supporters cannot be invited to this banquet since the hotel dining room can only accommodate the out of town guests. Guest speaker at this banquet will be Mr. Alan Field.

A gala welcome has been planned for Saturday night. All delegates arriving via the Canadian will be met at the station. Many distinguished guests will arrive on this train, including a big delegation of Lands and Forests officials and President of

Mr. Bob Giles. Visitors will be driven to their hotels via Shetland ponies and sleds. Citizens are invited to join with the local tourist operators in the welcome.

The town has been appropriately decorated, with large welcome banners strung across Main Street, posters of welcome appear in the store windows, colored lights have been turned on and flags adorn the lamp standards.

Following is the agenda for the three day convention:
Sunday, February 8th
2.00 P.M.

REGISTRATION begins in Kenricia Hotel Foyer
3.00 P.M.

Directors Meeting in Kenricia Hotel Room 324
7.30 P.M.

Open House - President's Suite - Kenricia Hotel Room 320

(Continued on Page 6)

May Share Costs Of Access Roads

Ottawa, — Resources Minister Alvin Hamilton said he hopes Ontario will soon sign an agreement for federal sharing of costs on forest access roads under the roads - to - resources program.

He told William Benidickson (Kenora - Rainy River) in a Commons reply that he submitted a draft agreement to Ontario, but he did not say whether it includes a road from Kenora to Minaki about which Mr. Benidickson specifically asked.

REVIEW OF LIQUOR LAWS ASKED BY CHAMBER OF COMMERCE DELEGATION

The Northwestern Ontario Associated Chambers of Commerce requested a review of Ontario's Liquor Laws in a brief submitted Thursday to the Ontario government.

The brief asked the government to review the entire liquor act and its administration. It said the Liquor Control Act has been in operation since 1928 without substantial revision and there is "an apparent desire" for revision. The brief added: "The Province of Ontario is surrounded by five states and two provinces whose Liquor Laws are more up to date and progressive."

Thirty-two men prominent in civic and community affairs of Northwestern Ontario met at Queen's Park with Premier Leslie Frost and his cabinet.

The men are delegates of Northwestern Ontario Chamber of Commerce who left by chartered TCA aircraft Wednesday evening following the annual Fort William chamber banquet.

Headed by President F. H. Black of Port Arthur, the group

had a two-hour conference with top government officials to present and discuss resolutions for projects believed pressing in Northwestern Ontario.

In addition to Mr. Black, the delegation includes Sam Shaffer, J. H. Jessiman, R. J. Flatt, Crville Weiben, W. P. Bailey and Mel Hunter, of Fort William; R. J. Prettie, A. I. Phillips, Bruce Cohoe, C. B. Binder, Toi Hill and C. W. King of Port Arthur; H. A. J. Tibbets, John McVey, E. C. W. Anderson and L. A. Cadieux, of Fort Frances; Neil Edmondstone, J. E. Bainbridge, R. W. Clarke, Nat Scott, Owen Boland and W. R. Waldie, of Atikokan; W. W. Fuller, S. Osland, R. McOmbe, R. Jewell and Alex Hannah, of Sioux Lookout; Stan Pall, of Geraldton; T. S. Jones, of Dryden; L. P. Johnson of Kenora and W. A. Geary of Red Lake.

The group was accompanied by Ford of Canada president Rhys Sale, who was guest speaker at the Fort William chamber gathering.

Thistle Old Timers To Play 'Young Fry' In Benefit Game

As announced Thursday, the popular old timers hockey game will come off this coming Friday, February 13th. A team composed of former Thistles will meet the present day Thistles. All proceeds realized will be used to defer advertising and other expenses of the present Community Centre Committee. It is the feeling of the Committee that no pledged money should at this time be used for advertising. Highlighting the old timers

ELMER'S THEATRE PARTY
PRIZES AND FUN FOR ALL!

PARAMOUNT

Kiddies . . . This Saturday Morning at 10 a.m. see "GOOD BYE MY LADY" with Brandon De Wilde - Walter Brennan and Phil Harris. This is a wonderful story of a Boy and his Dog. Plus Serial and Cartoons. 12 Lucky Ticket Numbers win Cartoons of Ice Cream - Compliments of the Kenora Locker Plant. Do you know all the Safety Rules that are in the Bank of Commerce Booklet. We have more at the Theatre or at the local Bank if you require more. Please attend the Morning Programs as the Matinee may not be suitable for small children. Doors Open 9 a.m. Come early.

will be the return of "Bonnie Prince Charlie," enough braces, bandages and adhesive tape have been found and Charlie has willingly come forward for the cause. Jimmy Johnston, the popular and capable goalie of a few years back will act as a standby.

Fellows with many years of RED and WHITE service under their belts will round out the defensive corp. Vin Gallagher, Spike Robertson, the Big Train "Ottie" Johnston, Peto Leydier and Louie MacKay should give their goalie plenty of support.

It seems to be more difficult to turn out the real o'd guard for these games, many of them plead old age and aching bones and no one can blame them for using good common sense for wishing to refrain from a possible injury. We were able to find some volunteers, and this is the list of probable starters for the oldsters - "Sugar" Ken Robertson, F. Richards, Phil Creed, Dick Elliot, Gord Peterson, Frank Clifton, Harry Foster, Murray Robertson, Neil Strain and any others we may turn up.

Coaching chores will be handled by Cliff Houston and his assistant Buster Dubois. Equipment Manager is Frank Blake.

More details on this evening at a later date. In closing, a reminder to all who have pledged but have no payroll deduction plan, payments can be made at the local branch of The Toronto Dominion Bank.

Fort William Ready For District Curling Playdowns

Fort William - Arrangements for the Northwestern Ontario Curling playdowns at the Fort William Curling Club are complete. Playdowns commence Friday, Feb. 6th and continue through Saturday and Sunday. The annual meeting of the Northwestern Ont. Curling Assoc. will be held at 8:30 p.m. at the Fort William Curling Club. At this time election of officers will take place and the draw will be made for the playdowns.

The Association has an active membership of some 3,000 curlers from the 30 clubs affiliated with the association. The eight zones will be represented by a team and are as follows:

Kenora, A. Pike, skip; Camp Robinson, J. Bruce, skip; Cochenour D. Reid, skip, Atikokan D. Anderson skip; Fort William D. Wark, skip; Port Arthur, J. Simpson, skip; Beardmore D. Lake, skip, Marathon E. Currie, skip.

Draw times for the playdowns will be Fri. Feb. 6 - 9.00 a.m., 2.00 p.m. and 8.00 p.m.

Sat., Feb. 7, 9.00 a.m., 1.30 p.m. and 3.30 p.m.

Sun., Feb. 8, 9.00 a.m., afternoon draw if necessary due to tie.

An excellent calibre of curling can be anticipated and the club facilities will be available to spectators for a nominal admission charge to cover all games. A valuable door prize is to be awarded. The eventual winner will continue to Sudbury for the Northern Ont. Consols playdowns, the winner to advance to the Brier at Quebec City.

Fish Tournament Open To All Ontario Anglers

Sault Ste. Marie, Ont.—Fishermen who catch the "big one that didn't get away" will be eligible for some attractive cash awards as the result of a province-wide fishing tournament which will be conducted during 1959 under the auspices of the Ontario Federation of Anglers and Hunters.

Molson's Brewery (Ontario) Ltd. is co-operating with the Federation in the promotion of the tournament by contributing cash awards of over \$3,000 in addition to other prizes.

Details of the tournament were announced at the annual convention of the Ontario Federation of Anglers and Hunters held at the Windsor Hotel here.

The contest is open for large mouth black bass, small mouth black bass, yellow perch, great northern pike, muskonge, lake trout, speckled trout and rainbow trout. They must, however, be caught in Ontario waters during the regular open season, on rod, reel and line and must be played by only one person.

Dozens of cash awards ranging from \$10 to \$100 are being offered to winners in various categories. In addition, a Molson

LET'S TALK CARS

HERE'S HOW TO SAVE GAS

Someone has estimated the average driver wastes, just throws away uselessly, 34 gallons of gasoline a year, enough to keep a car on the road for a month or six weeks.

Studies over a number of years have shown that motorists are averaging 18 miles to the gallon when they should be getting 19. Silly driving habits, we might as well be blunt about it, are mainly to blame.

There are so many "rules for drivers" that one person can't possibly keep them all in his head. But these six rules come from the head of a big fleet of company cars; he found these rules cut their costs-per-mile way down and brought that extra month of free driving.

Don't make jackrabbit starts. Get away smoothly and shift into high gear as soon as possible.

Slow down gradually when you know you're going to have to stop. Your car runs on the power from gasoline already burned, so there's no sense wasting all that momentum by coming to quick stops.

Don't race your motor while waiting for lights to change or while warming up.

Moderate speeds save gas and save the brakes.

Don't ride the clutch or brakes.

And finally, get regular checkups and servicing.

So many of the cars we've sold here, and have serviced right along, come back to us to be traded in. And these cars, that our servicemen know so well, are displayed on our used car lot. Then many buyers keep on having their used car serviced here. It's a wise way to look after a car.

Dominion Bureau of Statistics

INDUSTRIAL PRODUCTION

Measured by the Bureau's indexes, total industrial production last November was at a higher level than in October and also November a year earlier. There was an increase in both comparisons in manufacturing, while mineral production was down from October but up from the previous November. Over the eleven months ending November, industrial production as a whole was some 2% below the corresponding 1957 period, with manufacturing off 3.6%, mining slightly higher and electricity and gas a definite 9% higher.

LABOUR

Total claimants for unemployment insurance benefit at December 31 numbered 715,000 as com-

pared to 744,000 at the same 1957 date, although the number of seasonal benefit claimants was up to 127,000 from 89,000. Initial and renewal claims filed during December climbed 33% from November to 475,000 but were down from 499,000 in December 1957. Total labour income of Canadian paid workers during November was an estimated \$1,385,500,000, slightly less than in October but 3% above the previous November total of \$1,344,600,000.

MANUFACTURING

Steel ingot production again increased in the week ended January 24 to reach a rate of 90% of capacity with output of 102,362 tons. Shipments of motor vehicles from Canadian plants last year totalled 359,625 units, down 49,196 units from the 1957 total. Shipments of vehicles from the United States were about 500 fewer, but 11-month sales (latest totals available) of British and

European vehicles were nearly 27,000 units larger.

MERCHANDISING

Wholesale sales moved upward in November for the second successive month, after earlier declines, rising close to 8% over a year earlier to bring the January-November cumulative total 1% above the same 1957 period.

EXTERNAL TRADE

Advance figures show Canada's commodity exports last year were only slightly lower in value than in the record year 1957 at \$4,923,500,000 compared to \$4,934,400,000.

FOOD AND AGRICULTURE

Preliminary estimates place cash income from sale of farm products and participation payments in 1958 at \$2,808,234,000 over 8% above the 1957 total and less than 2% below the all-time peak of 1952.

Marathon Leads North Shore Hockey League

Marathon's commanding lead in the North Shore Intermediate Hockey League has been cut to 15 points by the Terrace Bay Superiors who now control second place in the league standings.

The Superiors with 22 games played have a total of 20 points while in third place with 21 games played are the hard hitting Red Rock Royals with 19 points. A win for Red Rock on Thursday night and a loss for Terrace, will give the Royals second place.

The Nipigon Flyers having played 24 games in the league schedule are holding down the cellar position with 16 points. In the Big Ten of the league's best goal getters Dave Whalen of Terrace Bay took over top place from Nipigon's H. Mannila. Whalen has 47 points and Mannila 45.

WAS HOOKED TO TRUCK BEHIND HIM

ASHLAND, Ky. — Odd, thought motorist W. S. Patton, how closely a pickup truck had been following his car.

Then he got out and learned why. His car was towing the driverless truck.

Patton said he apparently hooked bumpers with the truck before pulling away from a parking place.

Around Town

The colors of the Kenora Curling Club will be seen at the Superior, Wisconsin, bonspiel which opens in that centre tomorrow. Early today, Archie Davidson, Ken McInnes, Doug Williams and Art Swanson left for the north and south to the popular Super for 'spiel.

Members of the Kenora Kewatin Art Club met in the Council Chambers last Friday evening with Miss Mariya Loudon presiding. Plans were made for a tea and art display to be held April 11th in the Hotel Kenaria. Paintings of local members will be on exhibition, as well as paintings from outside clubs.

KITCHEN CLASSICS

Opinions vary as to the best apples for pies. Some cooks prefer Jonathans, but others contend that Staymans, Winesaps or Newtons are best. But when it comes to apples for baking, everyone agrees that the Rome Beauty is best.

- GLAZED BAKED APPLES**
 ½ cup granulated sugar
 1 teaspoon cornstarch
 ¼ cup water
 Grated rind 1 lemon
 4 teaspoons lemon juice
 ½ teaspoon cinnamon
 Red food coloring
 6 large baking apples

Combine sugar and starch in small saucepan. Add water, lemon rind and juice and cinnamon. Cook over low heat until sauce boils. Add 2 or 3 drops red food coloring to tint the sauce delicately.

Wash and core apples, pare one-third of the way down. Place in baking dish so that they are about 2 inches apart. Bake uncovered in 350 degrees F oven for 45 to 50 minutes, or until apples are just tender when pierced with a fork. Baste often with syrup during baking. Remove from oven, baste apples occasionally with syrup as they cool. When cool, transfer to serving dishes. Serve plain, with whipped cream or custard sauce.

Chilled applesauce, sweetened and spiced jus, right, is the best for all early-bird tonics. Keep a big jar of it in the refrigerator & serve it for breakfast often. It's lively flavor will start anyone's day right and help keep them regular.

Staymans or Newtowns make delicious sauce, plain or spiked with lemon and spice as in this recipe suggestion.

- BEST APPLESAUCE**
 6 to 8 cooking apples
 ½ cup water
 ¼ cup sugar
 ½ teaspoon salt
 1 teaspoon lemon juice
 ½ teaspoon grated lemon rind
 ¼ teaspoon each cloves, cinnamon and nutmeg

Wash, quarter and core apples. Place in saucepan with water, simmer until mushy. Force through strainer to remove skins and lumps. Add remaining ingredients, chill.

This makes a tasty all-purpose sauce to serve with roast pork or chops, as a dessert, or with gingerbread. It can even serve as dunking space for sausage ball appetizers.

To make the sausage balls, combine 1½ pounds pork sausage meat, 2/3 cup evaporated milk, 2/3 cup cracker crumbs, 1 teaspoon salt, ¼ teaspoon pepper and ½ cup chopped onion. Brown in hot fat, then drain off excess fat and turn heat down. Cook slowly another 10 to 15 minutes or until thoroughly cooked. To serve, heat the applesauce in a chafing dish or over a candle-warmer, stick a toothpick in each sausage ball and place them in the sauce. Serve as appetizer for an evening buffet. If desired, a little grated horseradish may

be added to the applesauce. You can't beat a stack of hot cakes served with warm applesauce and strips of bacon or little pork sausage. Pancake Tuesday or not, have them often, not only for breakfast but around the clock.
 For a special winter dessert, follow your favorite pancake recipe and bake some extra large cakes. Stack them 4 or 5 high with thick applesauce between the layers (strain off some of the liquid if necessary), then sprinkle the top of the stack with icing sugar.
 Cut in wedges and serve with hot coffee.

Letter to the Editor

404 Third Street North, Kenora, Ontario, February 4, 1959

The Editor, Miner and News, Kenora, Ont.

I was interested in the article in Miner and News January 29, 1959, concerning the origin of the name Yellow Girl.

My father, Capt. W. C. Huggins, who first came to the Rat Portage district in 1876, took on contracts cutting wood for the steam boats. His family accompanying him to the various camps.

My Mother had Indian help, one of them an Indian maid, Yellow Girl, so called because of her unusual yellow hair.

One day in early spring, Yellow Girl fell off the dock and was drowned. Her body was recovered and my father buried her a few hundred yards from shore, and then after he called the place Yellow Girl in her honour.

Yours truly,
 F. E. Huggins.

Public Confidence Increased By Gains Over Heart Disease

The heart that beats inside your chest is a fist-sized, four-chambered pump, which, in the course of a Biblical lifespan, beats almost 3 billion times.

Save, for a brief between-beat rest, it keeps right on working day after day, year after year.

Contrary to popular belief, the heart is not a "delicate" organ. It is tough, and amazingly durable. From the standpoint of mechanical perfection, no pump created by the genius of atomic age science can surpass it.

Equally miraculous is the circulatory network through which it pumps your 11 pints of blood at the rate of 166 gallons per hour, delivering food and oxygen to the billions of cells which make up your body.

It is a beautiful organized refueling and waste-disposing system. Yet, either wholly or in part, it is not immune to sickness and disaster.

The extent to which this is true is mirrored by some grim statistics. Diseases of the heart and circulation, now responsible for more than 49% of all deaths, affect nearly one and a quarter million Canadians, among them an estimated 40,000 children of school age.

They constitute Canada's foremost health problem and the leading medical challenge of our time.

Until only two or three decades ago, the view was widely held that "nothing can be done about heart disease", which was seen as an inevitable forerunner of death - something quite beyond the reach of medical science.

In years past, this same fatalistic viewpoint prevailed regarding such "epidemic" diseases as smallpox, typhoid and yellow fever, diphtheria and bubonic plague. As the infectious diseases succumbed to medical science, so have many other disorders of the body been remedied or cured by new advances in drug therapy and surgery.

Pessimism and despair are now being replaced by hope and assurance that medical research, in the not-too-distant future, will provide the knowledge needed to control most diseases of the heart and circulation. Brilliant victories already have

been scored in the diagnosis and treatment of heart and circulatory diseases. There is today a general awareness that some forms of heart disease can now be prevented, a few can be cured, and that almost all cases can be helped by proper treatment - especially after early diagnosis.

As a result, people now realize that no medical problem - and this specifically includes the heart diseases - is necessarily beyond solution. Furthermore, public confidence is increased because now there exists the machinery for a concerted and planned all-out assault upon the heart diseases - a nationwide program of research, and community and professional education, spearheaded by the National Heart Foundation and the Provincial Heart Foundations from Newfoundland to British Columbia.

In this fight, the stakes are large. The right answers can mean the difference between adversity and prosperity, sickness and health, life and death for millions of Canadians - including generations not yet born.

The door is wide open for every man, woman and child to have a part in the fight against heart disease. This opportunity is opened to you through your generous support of the 1959 Canadian Heart Fund. Donations accepted at any chartered bank.

Stop Bingo Or Face Charges, Police Warn

TORONTO — Magistrate C. O. Bick has warned agencies operating bingo games in Metropolitan Toronto "to cease and desist" or prosecutions will be launched. Magistrate Bick, chairman of the Metropolitan Toronto Police Commission, said bingo games run in newspapers and stores are a form of lottery violating the Criminal Code and must

stop. "I can now give a fair warning at least to those in Metro operating this latest venture to 'cease and desist', he told a meeting of the men's club of Christ Anglican Church at nearby Woodridge.

"If they do not, a conviction and a two-year term is facing those responsible. For those outside Metro, the warning can equally apply but someone else will lay the charge."

Magistrate Bick said after the meeting that bingo games may be held for charitable purposes only on a non-regular basis.

"Once the games are held weekly, as a regular program, then they are illegal."

The 108 acres of Vatican City in Rome are international territory, foreign soil even to Italians.

Tolerant Drivers "Give And Take" On Highway

Good companions make pleasures greater, chores easier. Yet companionship does not need to be demonstrative. Even the silent presence of an in-tune companion offers satisfaction, and a kind of reserve strength.

Drivers sometimes get this feeling of good companionship in heavy traffic, points out the Ontario Safety League. It may occur when cruising at 50 m.p.h. en route to the cottage, on a summer weekend; or when crawling bumper-to-bumper through the city in a blizzard.

It happens when a man suddenly realizes that he is driving quietly and well, and everyone else seems to be doing the same. A feeling of mutual respect and confidence links all the drivers, around into a relaxed, competent group. No one shouts, pushes or elbows. Everyone makes the best of things, makes steady progress, and makes friends.

Unfortunately, good companionship on the road is all too rare. And it is a fragile relationship. It needs only one impatient individualist, heavy on horn and brake, to fracture the tolerant give-and-take feeling of a score of drivers.

A selfish driver, speeding and swerving to bull his way ahead in heavy traffic, will often coat the cars he passes with an unnecessary spray of slush. What is far worse, he may also spatter the other drivers with the infection of his ill-manners, and dangerous impatience.

Before using the contents of any medicine bottle, be sure to read the label. As a reminder that the contents of a bottle are dangerous, it is a good idea to keep several elastic bands or a strip of adhesive around the bottle.

Demerit System Will Reduce Road Accidents - Collins

Ontario's Deputy Minister of Transport says each fatal accident on the King's Highways in Ontario costs motorists \$100,000. D. J. Collins says the costs are represented chiefly by increased insurance premiums. However, Mr. Collins expressed confidence that the Demerit Point System now in use on a trial basis would substantially reduce the number of accidents. He predicted that by 1961 or

1962 all provincial highways will be rebuilt to postwar specifications. He said a speed of 70 miles an hour would be safe in theory, provided there was no other traffic on the road.

YAREMKO AGREES
Ontario Transport Minister Yaremko has said that the province's new demerit system is not intended to take drivers off the road but to keep them on it.

He said the current two-month trial of the system is intended to teach motorists the serious effect of ignoring traffic laws before the system is implemented. Mr. Yaremko predicted last night at a meeting of Hamilton Automobile Club Directors that the system will become a permanent part of Ontario's Highway Control. He said: "If the Points' System never suspends a single driver, it will have accomplished its object."

The trial period between February 1st and March 30th will be used to bring the system to the attention of any motorist convicted of point-deducting offences.

A letter will be sent to the motorist warning him of the consequences of his conviction once the system is in official operation.

Where Do Fish Go In Winter?

FORT FRANCES — Where do fish go in winter? The little that is known about winter movements of fish makes the answer rather complex, but Ontario Lands and Forests Department officers here offer information about some species. Temperatures are probably important; they say. Fish are "cold blooded", their body temperature close to the temperature of their surroundings. As body temperature lowers, activities lessen, so they require less food; movements become restricted. Bass become very inactive and appear to almost "sleep away" the winter. Trout are more active since they like colder water, feed more actively and so are more readily caught. Yellow pickerel (walleyes) are widely sought in this area but few are caught; Burton Island and Rainy River are exceptions. It is suggested that the current in these places may account for better fishing. It has been shown that the heavier the snow cover, the darker it will be and the more active the fish will tend to be.

will eventually occupy the new quarters will start moving this weekend from various parts of the city.

The new setup will be the Canadian Pacific's Western nerve centre for such national services as weather reports and maps for airports; air traffic control; transmission of radio programs; teletype services for newspapers and radio; and other services. The network, which goes by Canadian Pacific and Canadian National to about 2,000 subscribers in Canada; and other telegraphic services for the railway private subscribers and the general public.

The building covers an area 132 by 220 feet and has 105,000 square feet of floor area in its four storeys, basement and penthouse. There is provision for extension to seven storeys.

There is a lunch room in basement, modern and fully equipped and with seating capacity for 136 employees.

Except for a very small amount of material for which Canadian equivalents could not be secured, all construction materials used in this project were secured from Canadian sources, being produced and manufactured in Canada. The general contractor was G. A. Baert Construction Co. Ltd., St. Boniface, Man. Approximately

30 local sub-contractors were further engaged by the general contractor. Children should be taken for their first dental checkup as early as three years of age.

SHERRETT REPORTS KANSAS CITY SPORT SHOWS DRAWING LARGE CROWDS

Mr. Al Sherrett, Manager of the Tourist and Publicity Board presently publicizing this district in the United States, reports that the Kansas City Boat, Sport and Travel Show, which always leads the way in sport exhibitions in the United States, got a way to an auspicious start on Friday evening in the beautiful Municipal Auditorium which seats twelve thousand. Despite the fact that the opening night is usually a dress rehearsal, 5,231 people attended the show and saw as usual an outstanding list of exhibits and floor show.

Saturday saw over 20,000 on hand, despite the six inch snow fall, and "Sunday broke all records with a paid attendance of 23,151, the highest one day attendance record since the show began five years ago. The seats were crammed and the aisles packed and hundreds more were roaming around the exhibits who could not see the floor show until evening.

This puts the attendance over the fifty thousand mark for the first three days. The response was most gratifying. The Kenora booth proved popular and it was surprising just how many of the

visitors had been to Kenora and Lake of the Woods, were planning to return. Folders and maps were in big demand, and the enthusiasm and interest displayed, fully support newspaper editorials which indicate that production in the United States is back to normal. They have had a cold winter here and are anticipating the advent of the vacation months with keen interest.

The new Kenora and District film made in the summer of 1958 for the Industrial and Publicity Board, by Ralph Seaman, of the Carling Conservation Club, has been received, and a premier showing indicates that it is one of the best fishing pictures of the area we have ever had.

This film has no sound track so that the Secretary-Manager can show it at banquets, dinners, luncheons, Rotary Clubs, and other groups, making his own commentary suitable to the audience and conditions. Already, two engagements are assured at Kansas City, Kansas, and Harold Emley, who owns and operates his own TV and radio station in Kansas City, Mo., has billed the Secretary to appear on TV Friday evening to catch the weekend sports crowd who follow his program over several States.

The Kenora display booth has been redecorated by the Pearson Production of Oklahoma City, and after the Kansas Show a new display table or Counter will be made by Mr. Pearson. This will eliminate the renting of a table for each show, with its drapes etc. and be much more effective. This table will be built without expense to the Industrial Board, with the Secretary assisting in the construction. Already six speaking engagements have been lined up in Oklahoma to show the new film and negotiations for engagements in Texas, during the Dallas show in April, are being arranged.

If the enthusiasm at Kansas City can be regarded as a signpost of coming conditions, then we are on the way to a good tourist season. All we will need is good weather and sound promotion.

Kenora's Latest Visitor Hails

CPR Building At Winnipeg Opened Thursday

Winnipeg—The Canadian Pacific Railways new \$1,750,000 air-conditioned fireproof office building here, one block south of the C.P.R. depot, was officially opened Thursday afternoon by G. E. Mayne, Vice-president of the Prairie Region, in the presence of ranking provincial and civic officials.

Earlier more than 400 C.P.R. employees had toured and admired the new offices.

While designed by the Railways Engineering department primarily for Canadian Pacific telegraphs, and air-conditioned especially for the benefit of the intricate communications equipment of this electronic age, the new building will house employees from 18 other departments. Some of the staff of 450 who
