LOCAL RED CROSS NOTES PROGRESS IN ALL DEPARTMENTS AT ANNUAL MEET

The Annual Meeting of the Kenora-Keewatin Branch of the Canadian Red Cross Society was held in Legion Rooms, Kenora. President Mr. C. V. Lee was in the chair. Reports of Standing Committees for 1957 were presented as follows:

Treasurer's financial report by Chairman, Mr. H. R. Churchill, was read by President. Miss Alice Archibald, Director of Junior Red Cross, gave a summary of the year's work of the High School Junior Red Cross Branch. Many projects were undertaken by this group - besides assisting the Senior Branch in their Blood Donor Clinic work and Swim and Water Committee; a successful Fund Raising Campaign was held in November. Teas and Sale, making School Kits, and generous donations given to both local hospitals, Salvation Army, Pinecrest Home for Aged, and Christmas donations to Fort William Sanatorium. This commendable work of Junior Branch has had the encouraging co-operation of High School Principal and Staff, and brought to light a very valuable contribution to the community.

Blood Donor Clinic Committee: Mr. Harry Henfrey, Chairman, gave his report of the two Blood Donor Clinics held May and October. 778 bottles of blood were collected during 1958. A number of donors from Keewatin were temporarily rejected in October under instructions from Health Unit Officer, through jaundice contact.

Diet Committee (in conjunction with Blood Donor Clinics) Convenor Mrs. H. Cooke reported - Drinks and refreshments were served to all donors by this Committee of ladies. Thanks to

(Continued on Page 5)

Council To Further Study Liquor Referendum

At last night's meeting of the town council, it was unanimously moved that a communication from the Chamber of Commerce requesting that an early decision be rendered in the matter of the taking of a vote on the question of licensing cocktail outlets in the town, be further studied in committee.

Alderman G. Sewell stated that since the request for licensing of further outlets was first made known by the Chamber of Commerce, Council is now in receipt of material from the chief Election Officers of the Province of Ontario. Two alternatives are offered for the taking of a vote, one requires a petition signed by twenty-five percent of the voting population and the other states that a council has the right to hold a vote without a petition. At the meeting when the members of the Ministerial Association voiced their protest, I was

under the impression that a petition was the only way", Alderman Sewell said.

Alderman Stratton stated that there were parties for and against this question - a vote should be held.

Alderman Minor said that he was glad that Alderman Sewell had brought the question up and that it should be referred back to committee for further study, even though he (Mr. Sewell) had put council behind the "eight-ball", when as senior alderman, he had told the Ministerial Association that council would do nothing without a petition from twenty-five percent of the population. We had no other choice, he said, since representation was made to this council before the actual question had been presented.

Alderman Sewell replied that since receiving a copy of the act, he now knew that he had been entirely wrong when he had voiced his opinion to the delegations that had appeared before council previously, this definitely needs more discussion before we can give a decision.

Tourist Outfitters Hear Panel On Development

Delegates to the 31st annual Northern Ontario Tourist Outfitters convention presently being held in Kenora heard a panel discussion with the topic "Planning For Future Development." Jim McHattie, Director of the Department of Travel and Publicity for Ontario was moderator and speakers were: Lawson Mack, ATRO, Weldon Moore, Ben Cummsky and A. M. Delamere of the Tourist and Delamere Board.

Mr. Delamere spoke on the advantages of publicizing the industry in the United States. He stated that representations at various sport shows was a must.

"Ben Cummsky representing the camp owners expressed his views regarding the modernizing of parks by the government. "I know we need parks," he said but when the government uses taxpayers money to modernize parks when adjacent tourist resorts are struggling to do so, it is a definite hardship to us. The tremendous expansion of parks is one reason why this country is called the "poor-man's vacationland," he said.

Lawson Mack reviewed industry vacations. The time has come he said, when we must ask large industries to stagger their vacation times so that the tourist areas are not deluged with vacationers all arriving at the same time. It is fast becoming the custom, he said for large firms to close down completely for vacations during July and August - we must try to see that the vacation periods are spread over a longer period.

Weldon Moore spoke on the

need for better food and more variety in food that is served to the tourists. He stressed the importance of the blueberry crop as an attraction and gave some ideas on how to serve them and freeze them.

This morning L. A. McLennan addressed the delegates, using as his topic "Wills."

Women To Join In World Day Of Prayer Friday

Each year on the World Day of Prayer, Christian women in some 142 countries around the world gather in groups to worship, to pray and to give thanks. Each group is part of the circle, each woman a link in the chain of devotion that binds together women of varying race, colour and creed.

We invite you to take part in the World Day of Prayer on Friday, February 13th.

The service for Women will be held at 3 p.m. in Bethesda Lutheran Church with representatives from all protestant churches in Kenora taking part. The speaker is Mrs. L. M. Watts. Mrs. P. Johnson will lead in Prayers.

A Service for Children will be held at 4:30 and also an evening service for young girls at 7:15, all three meetings to be held at Bethesda Lutheran Church. The spirit of the World Day of Prayer is two-fold, to pray and to give.

Receiving Home Referred To Town Planning Board

Regarding the request by the Children's Aid Society to establish a Receiving Home on First Avenue South and the submission made on behalf of the estate of Mr. G. M. Rieth and the petition from property owners in the area, council will inform the society that the use of the property in question is one which the Kenora Planning Board is authorized to rule on and council suggests that the question be presented to that body for a complete review of the problem encountered with the proposed established home in this location.

Wednesday, Beginning Of Lenten Season

Wednesday marks the opening of the Lenten Season - a time of prayer and penance in preparation for the great feast of Easter. Shrove Tuesday is celebrated today in many Christian countries as the last day of carnival, feasting and merrymaking before the season of Lent when fasting and penance are in vogue.

In England the eating of pancakes alone survives as a social custom and the day is commonly called "Pancake Day".

In the U.S. the festival season, preceding Lent, particularly associated with New Orleans, is known as Mardi-Gras.

Wednesday derives its name from the ceremonial use of ashes as a symbol of penitence. The custom is retained by the Roman Catholic Church and the priest marks the forehead of the congregation with the sign of the cross in ashes and intones the words: "Remember, man, that thou art

(Continued on Page 10)

COUNCIL GIVES FINAL READING TO BYLAWS

A bylaw to authorize an agreement between the province of Ontario, the Central Mortgage and Housing Corporation and the town for the laying out of subdivision No. 2 in the Pinecrest area, was given final reading. Alderman Sewell informed council that it was expected that approximately 118 building lots would be made available. Also passed was a bylaw to provide for the 1959 expenditures on roads or streets in the town.

Properly:

W. H. Marr Ltd. will be informed that regarding that company's proposal to sell to the town a 20 foot strip of property south of the Anglican Church for the sum of \$20,000, council is not interested at the price set. Mr. Marr will also be informed that his offer of \$3,000 for property in Lakeside, cannot be accepted since council proposes to set aside this property for park purposes. Mr. Fred Weber's offer of sale of property to the town will be held in abeyance till such time as the snow is off the ground to permit the examining of the property. Referred to finance committee was the offer of Roy M. Colman for purchase or lease of a 15 foot lane allowance between lots 5 and 6 east of block 7. Mr. Joseph Curik's request to establish a trailer park on his property was referred to the Parks and Finance Committees and the Planning Board. Requests of Mr. H. Foster pertaining to a transfer of property was referred to the Finance Committee. Petitioners living in the Trojan and Mellick Avenue area, who requested water delivery service will be advised that council cannot comply with their request at this time. The town solicitor will be authorized to proceed with the closing of a road allowance along the shore of the Lake of the Woods adjoining location 121 P. and K. A. R. Chaloner's request for a pay telephone on his property resulted in council announcing that a pay telephone is to be installed along the highway and will serve both Mr. Chaloner and the adjacent area.

Finance:

Municipal accounts totalling \$125,942.50 and Utility accounts of \$107,370.19 were authorized paid. As recommended by the Public Utilities Committee, council authorized purchase of additional equipment for pipe thawing. Authorized payment of grant-in-aid of \$250 to Recreation Committee for the Minor Hockey Association.

Tenders:

The tender of Dingwall Motors for a truck for the Waterworks Department in the amount of \$2,100.44 was accepted. The following bids on the Robinson property, Lakeside, were received: P. C. Anderson - \$3,119; E. R. Norman - \$2,000; R. C. Ngman - \$2,300; Charles Krisko - \$1,200; Sam Melowski - \$2,176; A. Lindgren - \$1,010; F. Poirier - \$1,700; I. F. Wismer - \$1,550; David Simoneau - \$4,000; Bert Jardine - \$1,250; J. A. Wennman - \$1,500; A. Ulvaan - \$5,300.

Referred to the Welfare Committee was a proposal of Dr. R. P. Eaton of the District Health Unit in which he stated the advantages of establishing a Home-maker Service.

Classrooms in Mount Carmel School were open to the parents at 7:45 p.m., and many parents availed themselves of the opportunity to check on their children's progress.

At 8:15 p.m. the meeting was called to order in the Notre Dame Parish Hall, with the President Mr. H. Kerr, in the chair. Following the business of the meeting, a film entitled "Assignment Children" was shown depicting the work of UNICEF. This film gave a wonderful insight into the work done by UNICEF.

After the showing of the film, Dr. J. C. Edie, a newcomer to our town and to our Association was introduced by the Program Chairman, Mrs. G. Minshall. Dr. Edie commented on the film, and spoke on the various aspects of the help being given to children all over the world. Dr. Edie's talk was enjoyed and very much appreciated by those present.

The attendance prize was won by Rev. Sr. Alfred's room. Five new members were admitted to the Association, making the total membership now 145, and all time high.

Following the meeting, lunch was served and a most enjoyable social period was held.

Charlottetown, capital of Prince Edward Island, was known as Port La Joie to the first French inhabitants.

BUILDING PERMITS

Building permits issued at the town office for the month of January amounted to \$22,000.00. This total included a renovation permit of \$20,000 for the Dalmore Hotel. The balance was made up of various permits for repairs.

Local Curlers Visit Dist. 'Spiels

Kenora curlers have been making the rounds of various bonspiels throughout the district. In the recent Dryden bonspiel, a rink skipped by D. Dingwell topped the fourth event while Henry Clifton's rink and one skipped by L. Bergman of Keewatin ended up in the jewelry.

The Ken McInnes foursome visited the two day Superior Wisconsin 'spiel but failed to bring home a prize. A total of forty-eight rinks took part in this event.

Red Lake Rink Wins OPP 'Spiel

In the Ontario Provincial Police District 17 curling bonspiel played at Kenora Monday afternoon, a Red Lake rink skipped by Con. C. Robertson emerged as winners. The Robertson rink with R. L. Bender third, J. White second and E. D. Peterson lead, will now travel to Dryden for the round robin series on Friday.

The winner of this event will advance to the Dominion finals which will be played at Fort William, March 9th.

Jaffray Institute Hold International Day Program

In spite of the cold weather Friday February 6th, a record group of members and visitors attended the Jaffray Womens Institute International Day program at the Rabbit Lake Club House.

The dinner table was centred with vases of floral decoration. Grace was said by Mrs. W. Kelso.

The meal served at 7 p.m. consisted of members native dishes, such as roast beef and yorkshire pudding, cabbage rolls, scalloped potatoes, jelly chicken, meat loaf and an abundance of variety in foods.

Recorded bagpipe music, including the "Gathering of the Clan" was enjoyed through the kindness of Mrs. S. Lambert.

Following the banquet Mrs. W. Thompson introduced Miss Minnie Kemp who showed very interesting picture slides of her tour of Europe.

A short business meeting then took place with 2 minutes silence observed for our late member Mrs. Sadie Smith.

Paying in pennies for age or waistline was the roll call answered by the 15 members present. This proved very profitable.

Secretary-Treasurer Mrs. W. Kelso read the minutes of the previous meeting, the read the correspondence, Home and Country magazines also Canadian Consumer Bulletins were distributed to the members.

Mrs. C. Kearney reported on the Home Economics Extension course "The Third Meal" and that summary day will be held Wednesday, February 11th at 1:30 p.m. in the East Room of the Can. Legion Bldg. visitors welcomed.

It was also announced that the girls 4H Homemaking club project "Being Well Dressed and Well Groomed" Achievement Day will be held at the Presbyterian Church Saturday March 7th with the leader Mrs. A. Davidson and assistant Mrs. H. Williamson.

Mrs. R. James gave a short talk on encouraging the feeding of birds in the winter time.

The meeting closed with the singing of the Queen.

The next meeting will be held at the residence of Mrs. A. R. Aschough, Rabbit Lake. Roll call will be the question "Should Womens Institute members accept office on the school board?"

CHOSEN BY

IRAN'S SHAH

The shah of Iran asked the hand of Italian Princess Maria Gabriela of Savoy in marriage. The Italian weekly "Oggi" reported. Maria's mother, Italy's former Queen Maria Jose, was quoted as saying in Merline, Switzerland, that "from the religious and Catholic viewpoint it looks impossible to me that this marriage could take place."

Wednesday, Beginning Of . . .

(Continued from Page 1)

dust and unto dust thou shalt return."

The Lenten season continues until Easter Saturday, March 29. The ceremony is derived from the custom of public penance in the early church when penitents clothed themselves in sackcloth and ashes.

Of the reformed churches in England the Anglican Church alone marks the day by any special service. This is known as the Communion, its distinctive features being a solemn "denouncing of God's anger and judgments against sinners."

The ceremonial of the ashes was not proscribed in England at the Reformation. It was enjoined by proclamation in 1538 and again in 1550 but had fallen into complete disuse by the beginning of the 17th century.

Presbyterians and Lutherans

mark Ash Wednesday with special church services also.

Midget Schedule Second Section

The schedule is to be followed thusly: date, rink, time, Home team, Visiting team.

February 10
Rideout, 8:00; Rideout vs. Jack's

Drillers.
St. Marys, 8:00; St. Marys vs. Legion.

February 11
Norman, 8:00; Strattons vs. Jack's Drillers.

St. Marys, 8:00 St. Marys vs. Rideout.

February 12
Central, 8:00; Legion vs. Jack's

Drillers.

Keewatin, 7:30; Keewatin vs. St. Marys.

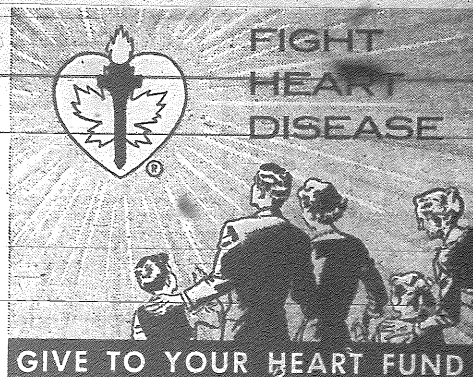

February 14

Down The Ice With Minor Hockey

We are pleased to announce, and glad for all little Thistles that **ROBIN HOOD OATS COMPANY** are awarding a Trophy for "MOST VALUABLE PLAYER" in the Little Thistle hockey league for season 1958-59. Also on hand are identification wallet size copies of "PLAYERS CREED" we ask all Parents and Players to read the Creed as the Officials who will do the judging will, since the points set forth in the Creed are to form the basis for selection over and above the boys "HOCKEY

SKILL." The following is the Creed.

AS AN ATHLETE - I will obey my coach's training rules and keep my body healthy by observing all rules of good, clean living.

AS A SPORTSMAN - I will play the game according to the rules of the game displaying at all times fair play and a respect for the abilities and rights of others.

AS A STUDNET - I will carry out my academic assignments both in school and at home and obey my teachers and other instructors at all times.

AS A SON - I will respect my parents and heed their advice at all times.

AS A JUNIOR CITIZEN - In training for adult contributions to my community and country, I will observe the tenets of my religion at all times and associate with youth groups in my community to learn worthy social attitudes and to contribute to the community's social welfare.

AS A CANADIAN - Whether native or by choice, I will bear in mind the proud heritage of my country and so conduct myself as to add to it.

We ask all participants to do their utmost to live up to the Creed. **ALWAYS REMEMBERING IT IS NICE TO BE IMPORTANT BUT MORE IMPORTANT TO BE NICE. ALL PLAYERS** may get a identification with imprinted Creed from your coach.

Thank you all, Bill Watkinson.

"A SPECIAL NOTE TO ALL PARENTS:" - We suggest you read the above to your boy so he will get the points with more understanding, the wisdom is there, just a little help from

you, we know from experience he will do his best. **THE FAMILY THAT PLAYS TOGETHER STAYS TOGETHER.**

Off the Cuff by Rick Hunt

"The baby figure of the giant mass of things to come . . ."

—Will Shakespeare

The Week's Schedule.

Boxing Days. Basketball . . .

If you can endure this week of cold you will likely be present at the Thistle on Tuesday when Dryden is in town, on Friday when the old timers return to hockey's stage, and possibly on Saturday, if the Thistle-Rockets series isn't as dead as King Tut. In between, there will be curling, basketball, bowling and many other activities in Kenora's little world of sport. The Thistles and the Dryden Rockets are getting the main billing as they prepare for their semi-final series which starts tomorrow. The second and fourth place teams in the Ont.-Minn. Hockey League are in a healthy state of affairs and the best-of-three series should give the local fans some good entertainment as well as being helpful to the weak Thistle coffers. It is about this time that we commit on the outcome of the Ont.-Minn. Hockey League championship race. Right now, the Thistles and the Lakers have the inside track and look promising for respective victories over the Rockets and the Canadians. However, Lady Fate has pitted the rivals together in this issue.

Fort Frances vs. Warroad — Although the Lakers ended the season in first place in the Ont.-Minn. Hockey League they had serious trouble in the final stages of the season when Fort Frances were beginning to defeat them with ease. This semi-final series between the border town Canadians and the American team will be very close. If the Canadians have finally come into their top season form they can very easily knock off the Warroad giants. The Lakers, as the story goes, do not round into shape until the semi-finals begin. It is then that Pennell and his roving pro sweep like an angry wind through the other clubs in the league. Unlike last year, the Lakers will have the same team, as they have had all season when they go into their series against Fort Frances. This could be a factor in rivals' favour . . . we doubt it if the Lakers will blow the series in two straight. In fact the Lakers should defeat Harry Rarefoot's team. Warroad in full games.

Kenora - Dryden—The Thistles are developing into an excellent team and it is unlikely that the Rockets will be able to stop them in this semi-final series; although they may make it go the limit. The Thistles have good defensive strength and their forwards have a good scoring punch. The locals will be up against tough rivals who would like more than anything in the world to slaughter the Kenora Thistles in their own back yard. Try as they might,

the Rockets will find it next to the impossible to dump the Thistles on Kenora ice during the playoffs. They could do it . . . but not this year. Thistles in two straight. Indeed both semi-finals should be only a taste of the baby figure of the giant mass of things to come.

The Mail Bag Dept. has an interesting letter this week . . . A local reader wants to know if

any boxers . . . "allies" of Canadian fame have ever come from the Lake of the Woods area . . . We checked our files and came up with this . . . In amateur boxing and wrestling Kenora has also occupied a prominent place in sport . . . Bayer Anderson held the Dominion heavyweight wrestling championship . . . Garrow held the Dominion Hea-

LET'S TALK CARS

DO YOU HAVE YOUR CAR COMPLETELY SERVICED?

During a recent "safety check" conducted by a special police detail, one rather startling bit of information came out . . . over half of the passenger cars checked were low on brake fluid. And some of them were dangerously low. Actually, that should not have surprised me too much . . . we find the same thing with many of the cars we are called on to repair. Many motorists seem to have a complete disregard for some one phase of servicing.

Some drivers never think to have air put in their tires, until one goes flat . . . others neglect to put water in the battery. I know one man who has his car washed and polished every week . . . but only has it greased when a squeak develops to the stage where it really annoys him. The most popular way of rotating tires is to start the motor, put the car in gear and step on the gas . . . and so it goes.

Balanced car care is becoming more and more important. That's the way to have a smooth running car that is completely dependable. And motorists who insist on balanced maintenance find that operating costs are lower . . . and they get the added advantage of a better trade-in allowance when the time rolls around for a new car.

And talking about trade-ins, we have a fine selection of good used cars on the lot right now . . . every one of them has been completely gone over to assure you of miles and miles of economical, trouble-free driving. See them now, while the selection is at its best.

Ask Frost Improve Indian Conditions

The Canadian government was charged yesterday with providing better treatment for immigrants than for Canadian Indians.

In a series of resolutions drawn at its convention in Port Arthur and presented at Queen's Park yesterday, the Northwestern Ontario Associated Chamber of Commerce accused Ottawa of failing to meet the needs of Indians in the Kenora district of Red Lake.

The convention urged the Ontario government "to put forth every effort to obtain recognition of the dire needs of these people, who cannot find subsistence on their reserves and consequently are forced to migrate for survival." It also asked immediate action to meet "educational needs and the needs of re-establishment for these first Canadians."

The chambers of commerce claimed the Indians' situation was becoming progressively worse.

The government was providing educational programs for new Canadians but not for Indians, the resolution said.

"No proper provision has been effected by the government to provide for the education of Indian children, and the community continues to be battered from pillar to post trying to establish who is basically responsible to administer and re-establish this migration of people.

"Municipalities generally are financially incapable of coping with the heavy influx of Indian residents, and Indian residents have no property that can be assessed," the resolution added.

The resolutions presented by the 35-member delegation also urged the government to attract more basic industries to Northwestern Ontario, to carry out as much road work as possible in the area to alleviate unemployment and speed up road construction.

Birth Rate Called Worse Than H-Bomb

Vancouver... People with antiquated prejudices about birth control are more dangerous than all the insane people in the world; the increase in the world's birth rate is more dangerous than the hydrogen bomb.

So warned Dr. Brock Chisholm, former World Health Organization director, here last night as he told British Columbia branch of the Canadian Mental Health association people the world over would welcome a drug to produce temporary sterility.

He said world population is increasing 45,000,000 a year, but "there is no increasing ability to increase the world's food supply. It is pointless to send donations of food to the over-populated countries unless, in addition, we attempt means of controlling their birth rate."

He said that at the present increase rate there will be only one square yard of land "fitting all the mountains" for every person on earth in 400 years.

"The great need in the world today is research in the field of birth control... temporary, recoverable sterility by surgery or drugs," Dr. Chisholm claimed. "All the insane people in the world are less dangerous

Caribbean Lures As Holiday Spot

Not many years ago only summertime was considered vacation time. Very few persons enjoyed a winter holiday.

But this habit tradition has been reversed on a sensational scale. Today, according to travel and transportation agencies in Winnipeg, a fast-broadening segment of people are taking their vacations in winter.

harsh winter weather has played a big role in this switch in holiday and travel habits. But there are other big inducements to pack a few bags and head down south to the balmy breezes and sun-scorched shores of the Gulf of Mexico and Caribbean.

There are appreciable savings in plane, train and ship winter travel rates. And many of the resort areas feature specially reduced rates during the slackier winter months, as an added attraction.

Southern California, Mexico, Florida and the jewel-like islands of the legendary Spanish Main are the main targets of current travellers.

The big lure of Florida is its well-established tourist business, efficiently geared to satisfy the recreation-bent of any age.

A tourist jaunt to Jamaica, a fast-growing challenger to other southern points as a major resort area, costs only \$313 return via TCA tourist flight from Winnipeg.

The first-class tab is only \$317 return. And the airline has a fly-now-pay-later plan.

In Jamaica the winter hotel rates range from \$10 to \$40 a day for single rooms and \$44 to \$54 for double rooms. But the rates include all meals. There are a host of hotels ranging from the moderately priced to the ultra-luxury hostilities of the Montego Bay area. The whole island has charm, however.

To get around, you can arrange for "Drive" cars in Winnipeg which will be standing ready at Kingston airport on arrival in Jamaica. Canadian driving licences are recognized.

DOESN'T NEED THE PASS NOW

PROVIDENCE, R.I. For many months Sandy, a cocker spaniel, had been sneaking rides on the Newport-to-Jamestown ferry.

Public works director Angelo A. Marcello Tuesday night decided to give Sandy a pass later this month.

But Sandy doesn't use the ferry anymore. His owner, Mrs. Ronald Clendenning moved recently to Jamestown, to the home of her parents whom Sandy used the ferry to visit.

HIS WORSHIP HIRED HAND AT THE BASE

LONDON — Officers of the United States Air Force base at Bentwaters, Suffolk, are reported today to have unknowingly invited one of their own "hired hands" to dine with them.

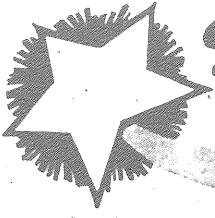

An invitation to lunch and to view the new F-101 Voodoo

jet fighter went to all local dignitaries. The Daily Express reports.

Among them was the mayor of nearby Aldeburgh, 58-year-old Redvers Martin who works at the base as a carpenter.

"My boasts have no idea that I'm the mayor," he was quoted as saying.

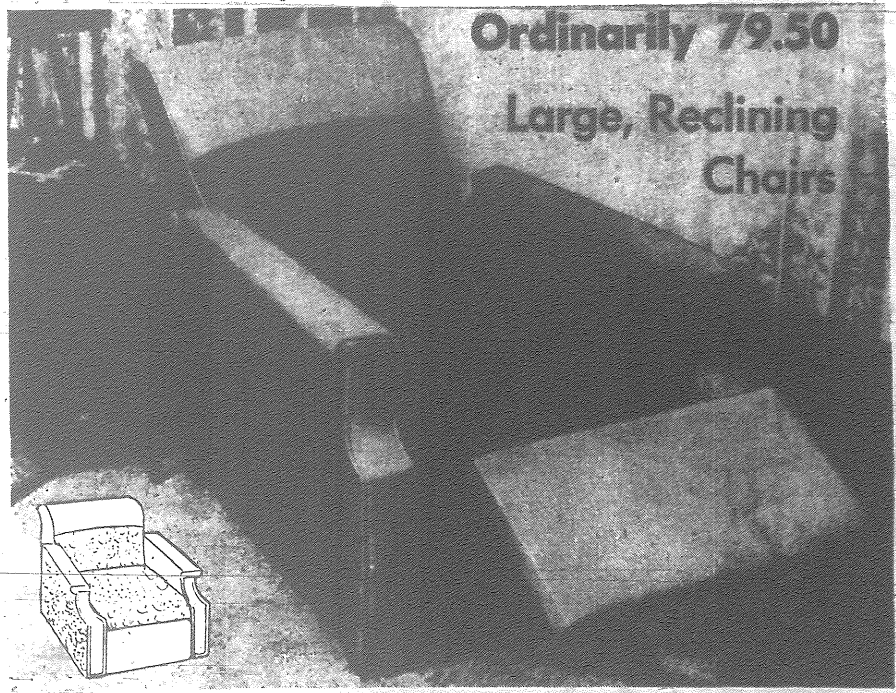

"I don't like to ask them for time off just so that I can sit down to lunch with them."

(Continued from Page 1)

ladies of the Canadian Legion Auxiliary for their valuable help in coffee making etc., and use of their kitchen and facilities; also to Clearwater Beverage Co. and Lakeland Dairies for again donating their products for Clinics.

Loan Cupboard and Sick Room Supplies; Mrs. A. G. Richmond, Conventer, reported 55 calls for use of equipment, an increase over the previous year. In 1958 another three wheel chairs had been purchased - two of which had been sent to Pine-

crest on an extended loan basis. Donation of equipment from St. Joseph's Hospital had been added to our stock. Fire Chief Davie and staff continue to be very helpful in regard to storing and delivering of Loan Cupboard supplies. This service is appreciated by the Branch and Conventer. Cod liver oil has again been purchased by local branch in capsule and liquid form, and is being distributed where needed by the staff and local Health Unit.

Mrs. Richmond reported 24 nurses from local Nurses Association had assisted Mobile Clinic staff at the two Blood Donor Clinics held in 1958.

Swim and Water Safety Committee: Dr. Playfair, Chairman, reported on classes held in July at Coney Island and Keewatin beaches. In spite of inclement weather, the attendance had been better than the year previous. Mr. R. Mossop had directed.

Welfare Committee: Dr. Playfair for Kenora, Mr. A. H. Coles for Keewatin, on recent fires: Children's footwear and clothing and supplies had been purchased by Branch for victimized famil-

FEB 10 BURE Fuse Is Safety Valve, Fire Chief Warns Public

A familiar story to Kenora's Fire Department is the one about the 30 amp. fuse. "The fuse blew out," goes the story, "so I replaced it with another 15 amp. fuse and that blew out too. The only way I could keep the lights on was to put in a 30 amp. fuse."

This is the tale by a householder as he stood out in the cold and watched the fire department fight a fire-raging in his house.

"The fuse is the safety valve of your electrical system," Chief Davie warned. "Never use more than a 15 amp. fuse in ordinary household circuits." "Carelessness in the misuse of electricity caused one out of every ten fires in Ontario in the last two years, according to figures released by

the Ontario Electrical Office, and overloading is one of the biggest culprits.

The Fire Chief cited some of the major causes of electrical fires in the home as amateur wiring, over-fusing, outdated wiring and frayed appliance cords or extension cords.

National Electrical Week, February 8 to 14, is a good time to have all wiring checked and to take stock of any electrical fire hazards you might have in your home, Fire Chief Davie suggested.

Canadians Eating Costlier Meals

Canadians have been enjoying a relatively high standard of living. The sharp change in income levels and food consumption patterns during the last 20 years in revealed by comparison of 1935-39 averages with 1955-57

averages. Disposable income per person increased almost four times from \$339 to \$1,236, while the consumer price index doubled.

The average Canadian still spends about 25 per cent of his disposable income on food as he did in pre-war years, but, with his increased earnings, his tastes have turned toward more variety and higher quality in the menu.

There has been a definite shift in food consumption patterns toward more expensive classes of food and food already prepared.

Cereal products, potatoes and sugar are considered low-cost sources of food energy. Popularity of the first two commodities has sagged greatly. In 1935-39, annual consumption of cereal products was about 206 pounds per person. In 1955-57, it was 160.

Similarly, potato consumption slipped from 192 to 154 pounds.

Because Canadians today are eating less bread and potatoes, consumption of butter and margarine in the 1955-57 period was 23 pounds per person—2.6 pounds less than consumption of butter alone in 1935-39.

Milk, Eggs Stable
Milk, eggs and meat are the principal animal protein foods and are considered important from the nutrition viewpoint. White consumption of milk and eggs are fairly stable, there were sharp increases in consumption of red meat and poultry meat.

From an average of 118 pounds per person in 1935-39, red meat rose to 141 pounds in 1955-57. Poultry consumption soared from 18 to 31 pounds.

Fruits and vegetables are important in a diet as a source of vitamins, minerals and bulk. They are relatively high-cost sources of both food energy and protein. Consumption of vegetables, other than potatoes and tomatoes, increased from 78 to 101 pounds.

But the meteoric rise in consumption of fruits and tomatoes from 139 to 239 pounds per person offers even more vivid evidence of today's more expensive living.

DR. DUNLOP FINDS MIKE "ALL RIGHT"

Dr. W. J. Dunlop, minister of education in the Frost government, showed himself to be a liberal (with a small l) when he told this story about a Liberal (with a big L).

Years ago, when Dr. Dunlop headed university extension courses at Varsity, he was forced with some misgivings to take on a fledgling history teacher simply because no experienced instructors were available. The youth was all he could get.

"But he turned out to be all right."

His name? Lester B. Pearson, leader of the Liberal party in Canada.

North Carolina manufactures more wooden furniture than any other state.

BIRTHS

Mr. and Mrs. G. Heron are proud to announce the birth of their daughter, Colleen Dawn on February 6th, at the Kenora General Hospital. Weight 6 pounds, 13 ounces. A sister for Carol Elaine.

Mr. and Mrs. Samuel Clark are happy to announce the arrival of their baby daughter, Beverly Jean on February 9th at the Kenora General Hospital. Weight 7 pounds 12 1/2 ounces. A sister for Robin Bruce.

Announcements

NOTICE

The regular meeting of the Ladies Auxiliary to the Canadian Legion Branch 12 will be held on Tuesday, February 10th. All members please bring a tea towel to replenish the kitchen. Pot Luck lunch will be served.

Any member of the Keewatho Legion or Auxiliary wishing to attend the opening of the Dryden Legion, there will be a bus leaving Saturday February 21. Leave your name with the steward to be sure of a seat.

Midnight February 10th, that is today and the DEAD-LINE. All players in the minor hockey classes not having their registration cards in today, are not eligible to play in competition. In fairness to players that have their cards in, names will be published of those that are ineligible to compete in their class or league. All have had two months to do this simple duty, actually there is no excuse.

Bill Watkinson,
District Representative,
T. B. A. H. A.

The title of alderman is mentioned in records of the City of London, England, as long ago as the 11th century.

Kitchen Classics

LET IT BLOW, LET IT SNOW
Skating and skating parties certainly whip up appetites to an unprecedented peak. In fact, at this time of year just battling the elements enroute home leaves one feeling ravenous. Next time the children gather at your place for refreshments, try serving piping hot coffee or cocoa along with Raised Orange Doughnuts, warm from the oven.

RAISED ORANGE DOUGHNUTS

Yield about 2 1/2 dozen doughnuts
 3/4 cup milk
 1/2 cup granulated sugar
 3 tablespoons shortening
 3/4 teaspoon salt
 1/2 cup lukewarm water
 1 teaspoon granulated sugar
 1 envelope active dry yeast
 2 well-beaten eggs
 1 tablespoon grated orange rind
 1 1/2 cups (about) once-sifted all-purpose flour
 Shortening or cooking (salad) oil for deep frying
 3/4 cup granulated sugar
 3/4 teaspoon ground cinnamon

Scald milk; stir in the 1/2 cup sugar, shortening and salt. Cool to lukewarm. Meantime, measure lukewarm water into large bowl; stir in the 1 teaspoon sugar. Sprinkle with yeast. Let stand 10 minutes, then stir well. Stir in lukewarm milk mixture, well-beaten eggs, orange rind and 2 1/2 cups of the flour; beat until smooth and elastic. Stir in sufficient additional flour to make a soft dough - about 2 cups more. Turn out on floured board or canvas and knead until smooth and elastic. Place in greased bowl; grease top. Cover. Let rise in a warm place, free from draft,

until doubled in bulk - about 1 1/2 hours.

Punch down dough. Turn out on lightly-floured board or canvas and shape into a smooth ball. Roll out dough to a scant 1/2 inch thickness and cut with a floured doughnut cutter. Place the rings of dough in lightly-floured cookie sheets, cover with a tea towel. Let rise in a warm place, free from draft, until doubled in bulk - about 3/4 hour. Place risen doughnuts, a few at a time into shortening or cooking (salad) oil which has been heated to 375 degrees F (a cube of day-old bread should brown nicely in

'SOMEONE SURE GOOFED!'—Those on the receiving end of many 1959 Valentines are due to suffer a great loss of ego, followed by hearty chuckles. With appropriate caricatures, the verse might say, "I have a great appreciation for the unusual—But you're absolutely ridiculous"—or, "You're so different, Valentine! I'll tell you a secret and you're not being spoofed—when the angels made you, dear—someone sure goofed!" However, it is expected that the big majority of the more than 440 million Valentines sold this year will be sentimental. (Central Press)

50 seconds). Cook doughnuts until golden, turning once. Drain on crumpled absorbent paper and shake in a paper bag holding a mixture of the 3/4 cup sugar and cinnamon.

GRANT VISITORS NO CONCESSIONS

WINNIPEG — Police Chief Robert Taft said he deliberately violated minor traffic regulations, and was fined in several American cities to test their policy regarding tourists.

The chief gave the information as he appeared before the police

commission to oppose any traffic law exemptions for visitors on parking law infractions and other minor traffic law violations. Mayor Stephen Juba contended that suspension of traffic tickets for out-of-town visitors would help the tourist trade.

The chief said he found that American cities made no allowances for visitors, and this was the way it should be. He had been clamping down on tourists because the previous lenient policy encouraged breaches of the law.

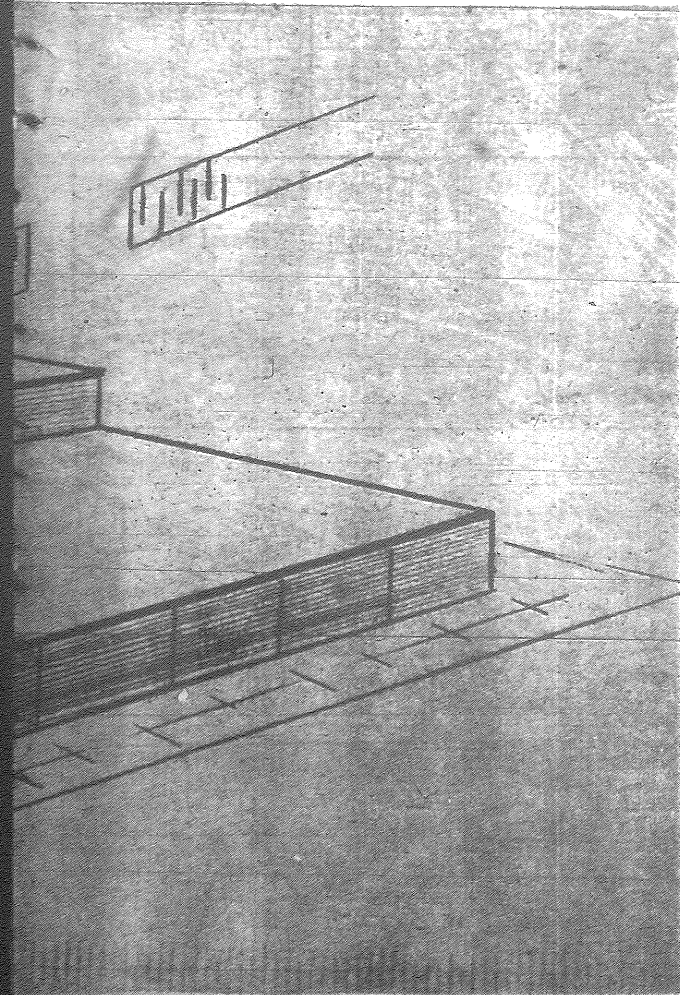

Of the 1,107,000 tourists visiting Britain in 1956, about 43 per cent arrived by air.

Fun Night At The Thistle To Aid Community Centre Fund

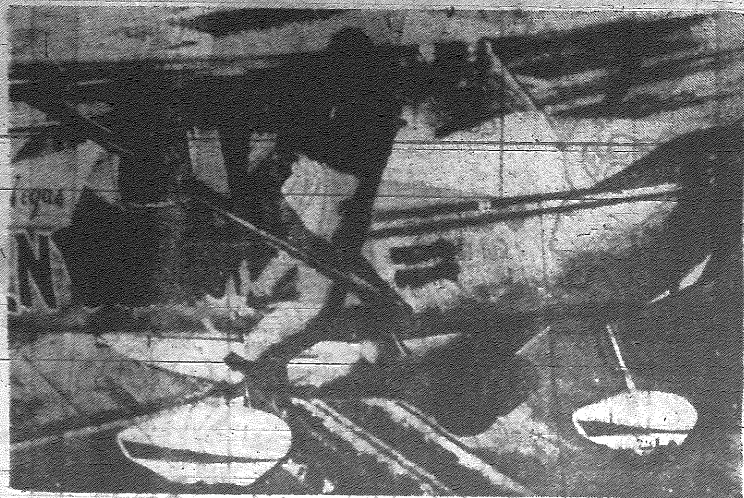

Kenora's proposed community centre fund will receive a real boost on Friday evening when all proceeds from the games at the Thistle rink will be added to the fund. The old time Thistles will engage the "young fry" in a battle of ages and all in-attendance are guaranteed a fun filled evening.

It is also reported that a very interesting broomball game will be on the program - more about this later, since final arrangements have yet to be made.

As an added incentive to a hard working committee, the rink should be filled to capacity. Not only will all patrons enjoy a fun filled evening but they will be helping to swell the fund for the community centre. With everyone doing their bit, before we realize it, a community centre similar to the one pictured at the left will be Kenora's to enjoy.

RISKY BUSINESS, THIS ENDURANCE FLYING

Co-pilot John Cook wipes off his airplane windshield the hard way as he and his partner, Bob Timm, continue their attempt to break the endurance flight record of 1,200 hours currently held by two Texas pilots. If he slipped he would fall about 4,000 feet to the suburbs of Los Angeles.

if the Canadian industry is properly protected.

Spring Styles Prove Women Dress For Men

Fashions for Spring '59 have finally resolved the once controversial question: "Do women dress to please the opposite sex, or their own?"

It's men that women strive to please. Remember the chemise and trapeze? The emergence of both was enthusiastically hailed by the fair sex. Yet the success of these styles was brief. Evidently, women balk at buying or sewing fashions deplored by their boyfriends and husbands.

Therefore, with winter here and Spring not far behind, dress manufacturers, pattern companies, fabric distributors, and local sewing center experts have returned to those fashions which have enjoyed male approval over the years, the so-called "classics". These include: the shirtwaist, sheath, box jacket suit, coat dress, polo-coat, "town and country" costumes.

Spring fashions then should prove very satisfying to the male population. For the gals will be wearing:

Large collars framing an attractive expanse of shoulder, or plunging V-neck bodices.

Appealing sleeves, either short and provocative, or wide and flaring.

Full skirts, or smooth sheaths, that just cover the kneecap.

Neatly-fitted or nearly fitted suits, and loose-fitting coats.

Feminine shirtwaist dresses with collar interest and skirts of unpressed pleats.

Eye-catching buckles and buttons - some as large as demitasse saucers.

Skirts that fold and gather around the hipline, emphasizing soft curves.

Checked materials, neat and attractive, in all patterns and color combinations.

While the upcoming styles may seem unexciting, they are familiar and conservative, there is something exciting new on the fashion scene: texture and color.

Prettier and more varied textures are everywhere, to say nothing of new and lively colors. Prints are very much in the picture, with gorgeous floral designs in the lead.

Individual designs of stark daisies, roses, and poppies laid flat against dark backgrounds, preferably black, are intoxicating to the senses. For shortish women who hesitate to wear the bright new designs, local sewing center experts suggest fashioning accessories from these stunning fabrics. A matching handbag and scarf, for instance.

Without a doubt, men are going to be pleased with their women this Spring. For the ladies will look enchantingly feminine - and slightly frivolous.

Guess it's a man's world after all!

D. B. S. Weekly Highlights

Dominion Bureau of Statistics

PRICES

For the second successive month the consumer price index eased downward a tenth of a point during December to 126.1 at the first of January. The small decrease was due mainly to January sales prices for clothing and lower prices for 1958 model appliances, which lowered the indexes for clothing and household operation. The shelter index again moved upward and the food index rose slightly.

MANUFACTURING

Steel ingot production rose again in the last week of January to 104,111 from 102,362 tons the previous week. Twelve-month figures show large gains in 1958 production of vinyl-asbestos floor tiles as against a decrease for asphalt tiles and a substantial rise in output of rigid insulating board. Eleven-month shipments of cement were 5% larger than in 1957, and leather footwear output about 2% larger numerically.

ELECTRIC POWER

Net generation of electric energy was more than 7% larger in 1958 than 1957, reaching 96,743,375 megawatt hours as compared to 90,248,811 the previous year. Biggest increase was in Quebec.

FOOD AND AGRICULTURE

Number of cattle and calves on Canadian farms was an estimated 8% smaller at December 1 than at June 1 last year and 2% less than at December 1, 1957. The number of horses fell 9.5% in the twelve months to about 637,000. Margarine production amounted to 145,607,000 pounds last year, 11.5% larger than in 1957.

TRANSPORTATION

Railway carloadings were over 2% larger in the third week of January than a year earlier, putting the three-week total 0.6% above last year's receipts from connections, however, continued lower.

BUSINESS
Corporation profits before income taxes in the nine months ended September last year were 10% lower than for the same period, while tax liabilities were down 12%. The result was a drop in profits after taxes to an estimated \$1,198,000,000 from \$1,316,000,000.

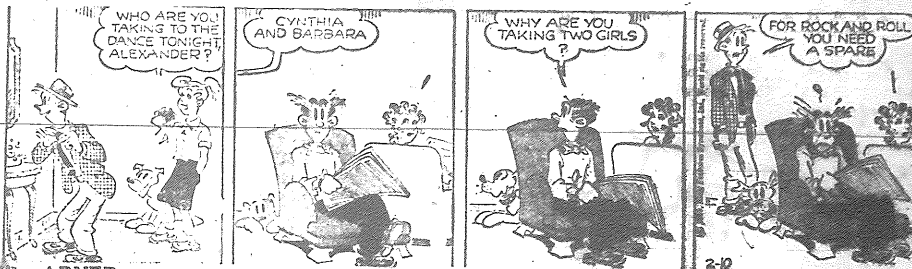

Must Protect Fruit and Vegetable Growers

Victoria, B.C.—Canada's Fruit and Vegetable Industry needs

better tariff protection if its people are to enjoy home grown products and capital investment is to be encouraged, Phil R. Robinson, of Ottawa, manager of the Canadian Food Processors Association told 100 leading Food executives here Monday in annual session at the Empress Hotel.

He said there were 55,000 commercial growers of fruits and vegetables in Canada, who can only provide more jobs for Canadians, more goods to be transported, a larger outlet for cans, cartons, bottles, labels and other supplies

Off the Cuff

(Continued from Page 2)

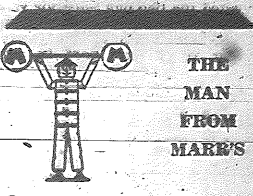

vyweight boxing title - and John Percy held the Canadian bantamweight title - that's all we have. We would certainly like to hear from some of you 'boxing' and wrestling fans if you know how those three men got started etc.

The High School basketball teams played in Winnipeg, (not F. Frances, as earlier reported in the CUFF, on Saturday and came away with two victories.

The Mustangs defeated Silver Heights 24-19 and the Colts dumped Deer Lodge Junior High 26-21. It was only the previous evening that the Mustangs and Colts both went down to defeat at the hands of the Red Lake Cougars and Cubs. Emil Uhrnyuk, coach of the Colts, told us after the Winnipeg contests that the big contest of the evening - the Winnipeg contest - was between Pembina North Dakota and St. James, the leading High School team in Winnipeg. Pembina won the game in a easy style. And the latter school has only a hundred or so students. It just proves how far ahead of the Canadian High Schools the American High Schools are when it comes to physical education. The Pembina team members had been playing together for about four years. Their coach reports that in the

small town there is a "Little Basketball League" for the youngsters. Quite the rage in the southern and northern states south of the line. Moonshine Magoo, James J. and Klondike Ike have all left for holidays in different parts of the world. Moonshine took his tennis racket and headed for Bermuda. Klondike is vacationing in Costa Brava in sunny Spain. James J. is in northern Tibet doing some mountain climbing. Certainly hope the boys enjoy their winter vacations. Moonshine was the first to send us a post card from White-mouth Man. . . . no postage stamp; just collect. . . . that cuffs it; play it safe, on and off the field of sport.

Sun Life income from all sources in 1958 amounted to \$350 million, of which \$221 million came from insurance and annuity premiums. The company earned a net interest rate on assets of 4.28 per cent, as against 4.18 per cent in 1957.

CORRECT CATEGORY

ANNAPOLIS, Md. — Local Episcopalians are distributing forms on which persons can ask to see a minister. There are categories to be checked so the minister will know the reason for his call. Rev. Leslie L. Fairfield received one logical reply from a prisoner at the county jail. The category checked was "shut-in".

Primitive Americans worked by firelight at least 8,000 years ago in Russell Cave in Jackson County, Alabama.

Sun Life Exceeds 1958 Sales

Montreal.—The Sun Life Assurance Company of Canada exceeded \$2 billion life insurance in force in 1958 with record new sales of \$990 million, President George W. Bourke told the 88th annual Sun Life meeting here. The company's 1958 sales were \$72 million higher than the previous record set in 1957.

During the year Sun Life total insurance in force increased to \$3,357 million, twice the amount in force just 10 years ago. Group life insurance accounted for \$3,097 million of the total. The company's combined life insurance and annuity business stands at the equivalent of \$11 billion of life insurance.

Sun Life paid \$159 million to policyholders and beneficiaries in 1958, including \$110 million to living policyholders. Set aside for policyholder dividends in 1959 is \$35 million.

The Life's assets increased by \$99 million during the year to a record of \$2,214 million. An increase of \$194 million in the bond portfolio brought it to \$1,250 million. Almost \$63 million was advanced in new mortgage loans on residential, industrial and commercial properties so that mortgage loans, numbering 55,600, now total \$514 million.
