AT KEEWATIN BANQUET

250 FATHERS AND SONS SALUTE MINOR HOCKEY

"Tonight's banquet is a very fitting climax to a wonderful year", Mayor Walter Hodgkinson told some 250 members of Keewatin's Minor Hockey Association and their fathers last night, at the first annual Father and Son banquet held in the Memorial Building. Members of the L.A. to the Legion served a delicious turkey dinner to the near-capacity attendance.

"This isn't one of the events which separates the men from the boys; rather it is the reverse". His Worship continued in praising all those responsible for the banner year enjoyed by the league. "Fathers present represent the present and their sons, the future. If the sons carry on in a manner similar to their fathers, Keewatin has little to fear," he

continued.

Junior Johnson capably chaired the enjoyable gathering, thanked members of Council, referees, rink personnel and others who had assisted in making the year one to be remembered.

President Cece Robertson of the Minor loop added his own thanks, saying that it was the cooperation received at all times, from everyone who could assist, which made his task easy and pleasant.

Jack Thomson introduced Ted Early, well known through the district as the Recreational Director for Dryden. Mr. Thomson paid tribute to Ted's outstanding record of service, not only in Dryden, but throughout the whole district.

Dryden can carry on its ambitious program, only because it plans, on a budget basis, to pay for it, said Mr. Early. Some \$12,000 will be raised this year on direct taxation with the balance of needed funds being raised in other ways. The task of leading the program was not always easy, and Mr. Early illustrated by showing that the lack of interest by the parents was a major factor. He praised the Keewatin program, and especially the thought which brought fathers and sons together at the banquet.

To the boys he directed the following: teamwork is necessary to win. Without a loser there can

(Continued on Page 3)

Demerit Plan In Operation On April 1st

Toronto—Ontario's driver demerit system goes into operation officially today after being on trial for two months.

The new system of "quarantines," planned to root out dangerous drivers and bar them from the road unless they reform, was originally scheduled to start Feb. 1.

The two-month delay resulted from Ontario government plans to increase speed limits in Ontario and the court dispute over the province's careless driving laws.

The demerit system, similar to

schemes in Manitoba, New Brunswick, Nova Scotia and 17 states of the U.S., provides three-month licence suspensions for motorists collecting 12 demerits in any two-year period.

It assesses five demerits for careless driving, three for exceeding the speed limit by more than 10 miles an hour and two for exceeding it by less than 10.

Man Hospitalized Following Highway Accident Tuesday

Tuesday afternoon, a young man, R. Day of a Northwestern Indian Band was rushed to St. Joseph's Hospital suffering from injuries he received when he was hit from behind by an unknown car as he was walking along Highway No. 1 near the Manitoba-Ontario boundary. His condition today is reported as satisfactory.

Winnipeg police and RCMP are conducting a search for the car. The driver might be unaware of the fact, that he had hit a man, they state.

Disappointing Response For Mail Delivery In Norman

Residents of Norman who have been pressing for postal delivery services similar to those enjoyed by the rest of Kenora, and who have been in touch with the negotiations which have been conducted on their behalf for some years, by Federal MP. W. M. "Bill" Benidickson and the officials of the Post Office department, will be interested to know what progress has been made and the results of the surveys.

In a recent communication from Ottawa, summarizing a series of consultations dating back on this occasion to early February, when a survey was made regarding acceptance of a system of "group boxes with a sub-post-office at Norman", Mr. Benidickson reports that the response of the public contacted, was decidedly discouraging in that of 200 people

(Continued on Page 7)

Joining Local Firm, Says It Is Great To Be Back

How does it feel to return to the Town of your birth to live, after a lengthy absence? According to Don Rutherford, late of Winnipeg but, for many years, a resident of Montreal, "its great." "Of course," said Don this morning, "I was quite young when I left, so I don't remember too much. But my aunt and others have always considered Kenora their second home; they come here every year."

Don took a tour around town and decided that he was born on Matheson street in the 300 block in the large red brick house located there. But he admits he could be mistaken - the town has changed so. His father was a jobber for a Toronto firm in Kenora before moving to Montreal where he went into the wholesale lumber business. It was in Montreal East that Don learned to "speak, write and live like a Frenchman."

WILL ORDER RETURN OF FUNDS JUDGE INDICATES

Did Fred A. L. Green, who, for more than 30 years prior to last July resided at remote Fort Resolution in the Northwest Territories, give his money, some \$8,000, to his son, Lionel, of Nestor Falls, Ontario? Or were monies, forwarded over a period of several weeks, merely sent in trust, and to be accounted for at a later date? The circumstances of the case were outlined to Mr. Justice Thompson yesterday in an all-day session of the Supreme Court, which commenced its third week yesterday.

His Lordship, who was forced to set over the conclusion of the Assizes until Thursday, due to a commitment in Fort Frances this morning, indicated that he will order the funds to be returned to the father. He will give written reasons for his judgment.

His Lordship, after listening to counsels for the plaintiff and the defendant for the greater part of the afternoon, concluded: "I can't conscientiously believe the old man intended it to be a gift." The son was led to believe that the money was intended to be a gift. He added, "I feel the boy was quite justified in feeling he was to benefit from the old man's money. There is no fault on the shoulders of the boy at all."

Earlier, His Lordship told Mr. Vern King, acting for Mr. Green that he was of the belief that "the old man was responsible for the whole thing. I think he was trying to buy his way back into the good graces of the family, which he had walked out on... he had no place to go... he was old and was ill."

The afternoon sittings commenced with Mr. Green Sr. returning to the witness box to continue his testimony. He identified several letters, in addition to those marked at the morning hearing, which he sent or received from his son, Lionel. A letter dated July 5th from Lionel read in part: "Hello Dad: nice to hear what you are doing... Any money used will be well used, you can be sure of that." It closed with good wishes and usual social expressions of goodwill. A second letter from Lionel under date of July 12th acknowledged the receipt of additional funds.

Questioned by Mr. King, the plaintiff said his son came to meet him at Edmonton in July, and together they travelled to Nestor Falls. It wasn't until three weeks after arrival that he first mentioned the return of the money. Mr. Green Sr. said his son was nasty when he asked. He left to reside in the Lakehead with a daughter in January of 1959.

What was your purpose in sending the money to Lionel? asked Mr. King. Answer: For him to put it in the bank for me when I came out.

CROSS EXAMINATION

Mr. C'Flaherty suggested to Mr. Green that there were other letters which had not been produced. Witness said, after prompting, that he may have lost some when he was clearing out his belongings.

Quoting from one letter written by the father to the son, Mr. O'Flaherty read as follows: "Are you making any money? I have made some, so you are welcome if you think it will help at all." Doesn't that imply a gift? asked

Mr. O'Flaherty. "It doesn't mean that at all," was the reply.

Reading from another letter, Mr. O'Flaherty asked for an explanation to the following: "I will send you some more cash which you can use as you think fit." Witness said he meant that

(Continued on Page 10)

Golf Club Elects Directors At 36th Annual Meeting

At the 36th annual meeting of shareholders of the Kenora Golf and Country Club, held Tuesday evening in the Council Chambers, it was announced that Ralph Allan of Florida, popular club pro for the 1958 season, will be back again along with Mrs. Allan for this season.

Named honorary presidents were Mr. Lowry Johnson and Dr. R. G. Davidson. Appointed as directors for three years terms were Dr. J. H. Johnson, Dave Bruce and Gordon Peterson. Harold Lindsay will be Club Captain for 1959 and Bob Berry will be chairman for National Golf Week which will be held in June.

The reading of annual reports showed that the club had enjoyed an excellent year and despite varying weather conditions, the course was in excellent condition.

Votes of thanks were extended to the women's section for their keen interest in the affairs of the club; the donors of prizes and trophies, in particular for the two new trophies given last season, the W. H. Dingwall Cup for Junior competition and the Westario Motors trophy for business girls' competition and to the retiring directors, Dr. E. C. Apps and Roger Swanson.

It was announced that the directors would meet shortly to plan the season's activities and to elect officers.

(Continued from Page 1)

it was allright for his son to buy tires for a car, which were mentioned in a letter which was not produced. "You must understand that I just got over a stroke."

Asked concerning whether the money was to be deposited in his own name or the name of the son, Mr. Green replied, "I didn't care, I wasn't feeling good." Witness said it was his own idea to send Lionel the money, "but I never meant the money to be kept the way the letters read."

Asked why he didn't continue with his regular banking procedure with the Mission, as he had for many years past, witness said he was afraid the amount of money was too great, and "I was afraid I might not get it back."

His Lordship questioned Mr. Green Sr. concerning family matters prior to his departure for the north. Witness said that he sent money on two or three occasions over a two year period to his family after he left, but then made no further contacts. He told the Judge that in late July last he found out where his other children were residing.

The second of two witnesses called during the hearing was Eric R. Green, a son who resides at Port Arthur. It was by chance as he stopped at his nephew's home at Vermilion Bay last September that he found his father, who was there with Lionel, his brother and other members of the family. Witness said until that moment he didn't know his father was alive. Witness said he saw his father for a second time 3 weeks later at Nestor Falls. On neither occasion was money mentioned. Mr. Eric Green told the court that when he came to pick his father up in January to take him to the Lakehead, his father asked Lionel for the money.

"You are not going to get the money, you" was the reply said Eric, and many other unpleasant things were said.

Mr. O'Flaherty said he would offer no evidence.

Mr. King submitted that, on three grounds, the case must be considered. It must be proven that there was an intent to make a gift, and the donee was responsible for making certain that the donor knew and understood. The gift must also be a free gift, free from any pressures, real or implied. The matter of influence did not enter the case, said His Lordship, as there was no verbal association for more than 30 years.

His Lordship, in ruling out improvidence and undue influence, told Mr. King that "you are driven back to the written communications." He said that any and all evidence given by the witness would be disregarded. It is easy for a person to come into court now, and change his mind. It was the intent at the time of the act which was the key, and that could come only from the letters and telegrams, the Judge suggested.

His Lordship agreed with Mr.

O'Flaherty that there was no need for him to prove undue influence. However he suggested that it was his duty to prove that the gift, was indeed a gift.

Mr. Justice Thompson did not agree that the quotations from various letters meant what they

stated, as suggested by counsel for the defence. The over-all picture indicated that Mr. Green Sr., not trained to fully express himself in writing, had been clumsy in his manner of communication. Citing one exchange of letters, the Judge said that

Lionel asked his father if he was well fixed. The father replied in the next letter that he had the \$3,200 which he had sent, plus more money he expected to receive from sale of merchandise. That showed clearly that there was intent to give the money a

wer, said His Lordship. "I have indicated what my decision will be. I have to be in Fort Frances tomorrow," said Mr. Justice Thompson in adjourning Court. Two divorce actions will be heard Thursday morning.

EATON'S *Eatonia* Exterior and Interior Finishes

Only at Eaton's can you buy these fine quality, reliable Eatonia paints - noted for their long-wearing qualities, the smooth, lasting finish they give to indoor and outdoor painting jobs. You're assured of quality and value when you invest your decorating dollars in Eatonia paints.

Off the Cuff by Rick Hunt

JOHN TARRAN TALKS ABOUT SPORTS IN ENGLAND
 Yesterday, John Tarran wrote about his recent trip to Great Britain and his first day impression of London. To-day we ask John questions on the many

sporting events he saw and on other highlights of his trip.
 Question—"John, what were the main sporting events you witnessed in England?"

Answer—"Well Rick, I saw an ice-hockey game between the Brighton Tigers and the Wembley Lions. Their hockey is very fast and there is less rough play because the teams in England are playing under the International European rules. I personally like the Canadian style of play because it is far more exciting from a fan's viewpoint. I talked to three Canadian players and they were very happy about playing in Britain because they were given good paying jobs during the off-season.

Every Wednesday night in London there is amateur boxing. These boxing matches are International and teams from England, Ireland, Scotland, Russia etc. fight against each other. One week England will meet Scotland, the next week it will be France against Scotland etc. It was very nice to watch the boxers because they were well trained in their art; consequently, a sharp contrast from the "fighting" American fighters.

In soccer I saw Russia play and lose to England and the under 23's of the British Pros play the under 23's of Poland Pros. The British managed to win 3-1. That latter game was played at Sheffield before 50,000 fans during the evening. I also watched Manchester United play. You know the team that lost the majority of its players in the air crash last season. Mr. Busy

has done a wonderful job in building the team up because United is back in first place in the first division... which is remarkable.

Besides the many other sporting events I was in Wales when the British Commonwealth games were on. I saw many events there. At Doncaster I saw the famous St. Leger Horse Race which was very exciting."

Question—"What did you think of the Nottingham Race Riots?"

Answer—"I was astonished at the suddenness of the eruptions that the minority of white citizens had against the coloured faction. Thousands of coloured people came to England without jobs, without knowledge of the country and without security. These people were taken care of by the Social Welfare. Some of their element were content to live on the Social Welfare allowance and they just drifted along. Some couldn't speak English; therefore, they couldn't obtain work. Crowded conditions, language difficulties and their primitive way of living certainly caused difficulties. All this, along with a radical section of white Teddy-Boys, touched off the Nottingham Riots."

Question—"From your talking to the average Englishman - in-the-street, what were his thoughts concerning the present world situation?"

Answer—"Most Englishmen at this time have a part to play in National Defence in the event of a Third World War. The British certainly do not want another war because of the destruction and suffering of the past wars. The average Englishman's thought is "AVOID IT."

Question—"Finally John, has England changed in the past ten years?"

"Yes Rick, it has changed. In some cases the English people are better off than they were ten years ago. There are now more smaller industries than before and the average person is content to put up with his lot..."

CUFF NOTE—Certainly like to thank John Tarran for re-living his trip to England for us. John adds that the Labour Party should defeat the Conservatives come next General Election. Tarran states that the average Britisher could be better off under a Labour government at this time. That of course, is John's own opinion. To-morrow we resume our, natural course... don't forget... Don't leave your blood on the highway, deposit it in a blood bank.

MEDICINE HAT JOINS COMMUNICATION NETWORK

Montreal—Medicine Hat Alta, today joined the ever-increasing number of Canadian centres to be connected with the telex network.

Canadian National - Canadian Pacific communications, who operate the network in Canada, announced that the new connection would make the southern Alberta city part of an expanding network which already includes most of Canada, Chicago and New York in the United States, and 37 overseas countries.

Telex service in Canada extends from St. Johns, Nfld. to Victoria, B.C.

The telex machines installed and maintained by CN - CP provide instant printed conversations with other subscribers. Simple to operate, the Telex users merely consults a directory listing all Telex users. By direct dialing the two parties are linked immediately.

The sender can type his message as soon as he receives an automatic "answer-back" code on his Teletypewriter; acknowledging

LET'S TALK CARS

IT'S BETTER TO BE SAFE THAN SORRY

That heading may be a corny cliché but it's nonetheless true. Just ask the driver who wasn't... and the courts are full of them! So today I'm going to take a page from the Safety-League and pass on a few of their rules - just as a gentle reminder.

1. Be wary at the wheel when you're weary. Being "asleep at the wheel" isn't just a saying any more than one motorist has found out. I'm not counting those who never came to... to find out.

2. Driving with closed windows greatly increases the danger of carbon monoxide poisoning if the car has leaky exhaust pipes. The danger is increased still more if cigarettes are being smoked in the car.

3. Not only motorists but pedestrians come in for their share of safety tips, too. Mainly, pedestrians can't win in an argument with a moving car. I like the League's slogan, "Never mind who's right... walk so you'll be left."

4. Keep windshield, windows, mirrors and headlights clean.

5. Party goers who delude themselves that they can drive equally well after a few drinks are merely indulging, says the League, in wishful drinking.

6. No driver can operate with the same efficiency under conditions of snow, rain or fog. Neither can your fires, brakes or lights. Under these poor conditions drivers should adjust to them by decreasing speed and using more care.

7. Braking on a curve greatly increases the danger of losing control... so brake on the straight.

Incidentally, the Safety League highly endorses the practice of car maintenance... which is only common sense. After all - to drive safe you have to have a safe car to begin with. For safety check-ups and necessary repairs bring your car to DINGWALL MOTORS for fast, dependable service.

be no winner. He stressed the fundamental values of lessons learned in sport, which are useful in later life.

"Develop a hobby - be a sport. Meet your parents halfway. Play it hard, but play it clean. And always play to win."

Addressing the fathers, Mr. Early said that care should be taken not to punish the child twice for the same mistake. In urging tolerance, he said boys need their dads. Develop a hobby. Share interests with your boys. Have faith in them and let them know you stand behind them.

The speaker was ably thanked by Jock Forbes.

The highlight of the evening was the presentation of trophies. Three teams walked to the

stage to receive KMHA trophies. The Bill McLean Cup went to Keith Christianson and his Karlsson-coached kids. The Canucks received their cup from Bob Merredew while the Hornets, winners of the Bantam A loop, won the third award.

The following received Most Valuable Player awards:

- Juvenile: Gary Parks.
 - Midget: Lionel Phillion.
 - Bantam A: Lorne Murphy.
- Presentations were made by Sexton Karlsson.

NEW AWARDS

The Robin Hood Oats Company, through its district representative, Mr. Bill Vis, gave trophies to MVP in the junior divisions. Selection of winners was made by a local committee, said Mr. Vis, and judging was made, not only on the basis of hockey ability, but on the basis of scholastic standing and good citizenship, also. The real trophy should go to the men and women who take an interest in the rink and make this all possible, said the speaker. The following were the winners:

- Tom Thumb League: Dave Guthnecht.
- Fee Wee League: Wayne Barnard.
- Bantam B League: Warren Spencer.

Entertainment by Frank Fowles and a showing of the 1958 Stanley Cup play-offs were greatly enjoyed.

Vitamin D, the sunshine vitamin, helps to develop strong bones and teeth. Every child should have a daily dose of vitamin D from birth throughout his growing years.

While tuberculosis is gradually decreasing in Canada, it could be wiped out as was smallpox, if every Canadian would have chest x-rays and any TB tests available to him. By prompt medical treatment, the disease can usually be cured in its early stages.

The bars of a child's crib or playpen should be either too close together for the youngster to put his head through, or else far enough so that there is no danger of his being caught.

Full Speed On Superior Route

The story of "Closing the 'Gap'" on Trans-Canada Highway 17 around the eastern end of Lake Superior, is really several stories, according to the "Department of Highways News." There is the financial story, for example in which to explain the reasons it is expected to take \$31,000,000 to build the 163 miles between the Agawa River and Marathon. Another story could be written for the construction problems, problems fully grasped by few except those on the spot.

This is a short report mainly on the men of Special Project 56-1, with headquarters at White River—the special Task Force that D.H.O. established in May 1956, to watch and push forward in every way possible the job of "Closing the 'Gap.'"

There are 160 men attached to Special Project 56-1, spread over seven camps, scattered throughout the length of the "Gap."

The most satisfying achievement to report is that the original gap of 163 miles has now been reduced to only 68 miles! Trans-Canada Highway 17 has been extended from Marathon for 29 miles in an unbroken stretch both east and south—as far as 24 miles south of the town of White River. At the southern end, Highway 17 was pushing 15 miles further north, starting at the Agawa River—that is, the grading has been completed.

In the summer and fall of last paving of the 17 miles from Marathon easterly to Rouse Lake was completed. In 1959, approximately 20 miles of paving will be done on both sides of the town of White River. It is hoped that by the end of 1959, the whole of the 80-miles between Marathon and White River will be paved.

Free Ferry

In September D.H.O. took over the ferry "Alice M." that one of the construction companies had been using to cross White Lake Narrows in carrying out a contract on this section of the highway. This ferry service is provided free to those travelling Highway 17, and will be until the bridge across White Lake Narrows is finished. At all other points along the "Gap" Bailey bridges have been erected to carry traffic while the permanent bridge is under construction.

Nine Bridges

During 1958 alone nine bridges and other structures in the "Gap," with a value above \$2,000,000, were completed.

Throughout the whole of the "Gap" still remaining work is being carried forward as rapidly as possible, under extremely difficult and rugged conditions over most of the route, where paving has not already been done, is ready for paving. In 1958, 70 miles of grading were completed. The specific mission of the men attached to Special Project 56-1 is to see that this job is done as well as possible and completed at the earliest possible date.

More Than 100 Miles

The men of Special Project 56-1 have kept open this winter approximately 83 miles of Trans-Canada Highway 17 through the "Gap." The longest of these sections is from 24 miles south and east of the town of White River and for 31 miles westerly from White River to the junction with Secondary Highway 614. Maintenance crews from Fort William District have been keeping the new highway open from that point west to Marathon and, of course, from Marathon westerly.

WESTARIO MOTORS
YOUR CHRYSLER - PLYMOUTH - FARGO DEALER

Keith Christiansen of the Keewatin Tom Thumb hockey team is shown with the Bill McLean Trophy which he accepted on behalf of his teammates.

Bill Vis, District Representative for Robin Hood Flour Mills is pictured with the three winners of his company's trophies, which he presented at the Minor Hockey Association banquet held last evening in Keewatin. Proud possessors of the "Most Valuable Player" trophies are: Dave Guthrie, Tom Thumb League, Wayne Barnard, Pee Wee League and Warren Spencer, Bantam "B" League.

The Keewatin Canucks were last night named winners of the Pee Wee Hockey division. Mr. Bob Merredew made the presentation of the trophy, following a banquet held in the Memorial Building, Keewatin.

Around Town

Miss Eleanor Bergman, nurse-in-training at Grace Hospital, Winnipeg, spent a few days visiting with her parents, Mr. and Mrs. Richard Bergman.

Ronald Peloquin a student at Gravelbourg College, has returned to Gravelbourg, Saskatchewan after spending the Easter holidays with his parents, Mr. and Mrs. Don Peloquin.

Winners of the Norman Catholic Women's League draw are as follows: Luggage set won by Mrs. J. Copeland, Norman; Tool Kit won by Mr. J. Pearson, Norman. The draw was made March 25th by Mr. R. Baker at the Norman Bigo held in the Polish Hall.

Mr. and Mrs. Lloyd Haney wish to announce the engagement of their daughter Vivian Jemima, to Gordon Phillip Lay of Melville, Saskatchewan.

The wedding to take place May 9th at four o'clock in St. Alban's Pro-Cathedral.

was dated just prior to the start of the Easter recess, the Member advises that he has had another conference with the Director of Postal operations when the Norman problem was very thoroughly discussed in the light of the decision made some time ago that each application and each district is to be studied by officials on the basis of the existing peculiarities. On instance of the particular conditions which contribute to the difficulties is the known distance intervening between the present Kenora carrier service area and the nearest point of the Norman delivery. Further, it is not unlikely that some scattered sections may still have to be served by carrier-served group boxes.

Residents however may be assured that this matter is one of continuing importance to the Member and he is giving it his closest attention.

Joining Local Firm,

(Continued from Page 1)

When he was old enough to think about business, it was expected that he would join his father, but such was not the case. Instead he went into the

automobile business, and for 18 years was associated with Chrysler products in the sales division.

The west called, and Don journeyed to Winnipeg last year, where he changed occupations.

"One day my wife said to me, 'Don, let's face it. You aren't happy away from cars. Go back into the automobile business.'"

"I always remember my dad's advice: 'you've got to be sold on your product if you expect to sell it.' On the lookout for a Chrysler product connection, Don says he came into contact with Bud Gibson, president of Westario Motors Ltd. "Of course he didn't have to sell me on Kenora. And I am happy as can be, back with Chrysler, Plymouth and the line I know so well. I am thrilled to death with my opportunity here and, on the other hand, I think my 18 years with the product enables me to return the favor to the customers of Westario Motors."

Mr. Rutherford is fortunate in being able to look forward to securing a house at an early date. He looks forward to getting into community service work, and generally resuming his roll as a good Kenora-ite.

Announcements

The annual Spring Tea of the Keewatin United Church will be held on Friday, May 8th. There will be a Home Bake and Candy Table.

Disappointing Response For Mail

(Continued from Page 1)

concerned, about 50% responded. Of that number, those in favour were almost equal to those who did not favour the system offered. However of those opposing, a number neglected to sign the forms, which suggested a very unsatisfactory situation.

The Member has ascertained in the meantime that, at a conference of postal officials during the winter, a decision was made to allow some measure of modification of the otherwise strict regulations and requirements, upon which the Department had been quite adamant, in all previous negotiations.

Renewing his efforts, Mr. Benidickson reported recently that, while there are still some problems to be overcome, the insistence on better services in the Norman area, has resulted in a further study of the possibility of a carrier service.

Lack of facilities for a suitable sub-office, together with the widely separated locations of homes, lack of access from one street to the next without retracing, clear and consecutive numbering of houses, absence of sidewalks, all are factors which the postal officials have had to consider. Persisting in his efforts, the member has been able to modify some of the obstacles, but there are still others to be tackled and overcome. Some will necessitate a measure of willing co-operation on the part of residents.

Marr's Marine and Electric Ltd.

REDDITT

By Mrs. F. Ferguson

Miss M. Race of Three Rivers, Quebec, is home with her parents, Mr. and Mrs. O. Race for the Easter holidays.

Mr. and Mrs. O. Tintinalla and family spent Easter in Sioux Lookout, guest of Mr. Tintinalla's parents.

Mr. and Mrs. Doug Neuert and family of Saskatoon arrived March 26th to spend Easter holidays with his parents Mr. and Mrs. O. Neuert.

Mr. and Mrs. J. Hass and family of Sioux Narrows motored to Redditt on Friday to spend the day with Mrs. Hass's parents Mr. and Mrs. J. Batimer.

Mr. and Mrs. T. Law and family of Keewatin were visitors Friday with Mr. and Mrs. R. Moran.

Mr. and Mrs. F. Jakubec and three grand children of Transcona are spending the Easter holidays with their grandparents.

Mr. and Mrs. F. McKay and son of Dryden motored up Saturday to visit Mrs. McKay's parents Mr. and Mrs. W. Mulholland.

Mr. and Mrs. O. Makinen and daughter of Ft. Frances are guests of Mr. Makinen's mother.

Mr. Mel Sinclair of Kenora spent Easter Sunday with Mr. and Mrs. P. Ferguson.

Mrs. Geo. Ufland's many friends are pleased to hear that she is doing nicely. Mrs. Ufland was a patient in the St. Joseph Hospital.

Mr. F. Kemtic spent Easter with his family.

Redditt Honors Mrs. F. Montague

Monday evening March 30th, a large crowd gathered in the Legion Auditorium Redditt to say farewell to Mrs. F. Montague and family who are leaving to reside in Winnipeg. Dancing and contests were the order of the evening. Winners in the game of "Grab the bag" were: 1st - Mrs. Will-

ams, 2nd - Miss W. Reichart. "Drop the Penny" was won by Tommie Law.

At midnight a dainty lunch was served. The table was centered with flowers and seated with the honored guest were her two daughters Joann and Mrs. D. Vann (Francis). Mr. and Mrs. E. Borrowman, Mr. J. Borrowman, Miss Zona Hancock and Mrs. D. Lamb.

After lunch was served to the assembled guests, Mrs. C. Neuert presented Mrs. Montague with a lovely coffee table and gift of money from her friends and neighbours in Redditt.

Mrs. T. Reichart presented a Crystal Candy Bowl on behalf of the Women's Institute.

Mrs. S. Michuluk made a presentation to Mrs. Montague of a purse, on behalf of the Canadian National restaurant.

Miss W. Reichart gave a gift of two lovely Petite Point Cups and Saucers. Mrs. Montague thanked everyone for their kindness, and extended a hearty welcome to all to call and visit her in her new home. She assured all that she would always remember Redditt. Mrs. Montague has resided in Redditt for some 20 odd years.

With the singing of "For She's a Jolly Good Fellow," the happy and enjoyable evening was brought to a close.

KEEWATIN NEWS

Mrs. Kember

Congratulations are being extended today to Mr. John Hansen, well known and highly respected citizen of Keewatin who is cele-

brating his 91st birthday. Citizens of both towns join in very best wishes to Mr. Hansen.

Save the ribs of discarded umbrellas. They make very good and lasting supports for trailing flowers. If they are painted a soft green, they will hardly be noticed in the garden.

Broken glass or china should be gathered and placed in a strong container, then wrapped and marked "Broken glass" before being dropped into a refuse container. Many serious injuries have been suffered by people who handle waste baskets of garbage where broken glass or sharp metal has been tossed in with papers.

Kenneth Scott of the University of California Medical School.

From what Scott and his co-workers have found, the society says, they can prevent an implanted cancer from growing in a rat. They can let a rat cancer get started, then stop it.

This suggests there can be a way of stopping early cancer in human beings, or preventing the growth of malignant cells that have been unavoidably left in the system after a removal of the original cancer, the report says. The method has been used only on rats and is not ready for the cancer patient. There is too much difference between rat and human cells to make the transition easy. And the rat cancer stopping drugs are poisonous to man. One of them causes a form of madness.

However, there are related drugs which are less poisonous to humans and which still can stop rat cancer. The question remains whether these drugs could stop human malignancy.

As soon as warm weather softens the ice on lakes, rivers or creeks, children are attracted to the floating blocks of ice. Stepping on the broken ice may result in drownings. Parents and teachers should caution school children against this hazard. Smaller youngsters should be kept away from the danger areas.
