## COLORING CONTEST WINNERS

The following are the winners of the last of the series of Easter Coloring Contests.

**FIRST PRIZE** — Any items of your choice from any one of the participating stores - Value \$5.00. Won by ten year old Nancy Markham of 620 1/2 Third Street North, Nancy enclosed a sales slip from Acme-Kenora Cleaners.

**SECOND PRIZE** - Two books of Paramount Theatre Tickets, won by seven year old Wendy Fraser of 1128 Valley Drive. She enclosed a sales slip from Bill's Shoe Box.

**THIRD PRIZE** - One Book of Paramount Theatre Tickets won by 10 year old Alma Jane Milson of 903 Park St. She enclosed a sales slip from Acme-Kenora Cleaners.

## Community Centre Building Fund Now At 45% Of Quota

A very large and enthusiastic group of members attended a special meeting of the Community Centre Building Committee on Tuesday evening to determine steps necessary to increase the pledges from individuals. Prior to the meeting, Dr. H. King, public relations chairman of the General Hospital Building Committee outlined the proposal of that committee. He stressed the need for the hospital expansion and hoped that by our discussions, we could avoid any possibility of a conflict between the two drives.

Both the Community Centre Building Committee and the General Hospital Extension Committee are unique in that several members are sitting on both committees.

Although the idea of with-

(Continued on Page 10)

## Lake Level 26 Inches Below One Year Ago

The level of the Lake of the Woods stands at 1057.00 feet above sea level, which is six inches lower than it was on January 1st and 26 inches lower than it stood at this date one year ago.

With a less than average snowfall in the district, there is every indication that the level will drop further. For the past three months the output from the lake has been increased considerably as demands for power from local

industries were met. The outflow yesterday averaged 9,920 cubic feet per second and has been averaging over 8,500 cu. ft. per sec. for 10 or 12 weeks now.

The Lake of the Woods reached its lowest point of the year on March 6th when it dipped to 1055.98 feet. This is still more than 23 inches higher than it was on Feb. 7th, 1925 when it was recorded at 1055.04 feet - a record low.

The latest graph from the Lake of the Woods Control Board shows that the 1959 pattern of almost continuous decline, is continuing. On Jan. 1st, 1958 the level at Keewatin stood at 1060.00 feet. A steady drop of 4 inches a month for the first 6 months brought the level to just over

(Continued on Page 12)

## Rideout Institute Tours Laboratory

Twenty-two members and two visitors attended the regular monthly meeting of the Rideout Women's Institute held March 24th at the new home of Mrs. J. Seibel. Mrs. S. Symonds, president was in the chair.

Following opening ceremonies two minute's silence was observed in memory of the late Mrs. J. McLeod, who had been a valued member of the branch.

Members heard with interest a communication from the Crippled Children's Solarium explaining how the stamps sent by the Institute had been used and requesting that members keep on sending used stamps. A letter was also read from the Institute "Link" in England.

Mrs. S. Christianson of Keewatin, Jason officer for the district reported on a visit to the mental home in Port Arthur. She

also explained the work of the committee.

A tour of the Provincial Laboratory under the guidance of Mr. W. French was thoroughly enjoyed by the members.

It was reported that the District Annual would be held in Kenora on May 26th, with the time and place of meeting to be announced later. The date for the Fall Tea was set as November 24th.

A donation was given to the Farrell family who lost their home by fire. Mrs. W. Allan won the travelling prize.

Following the adjournment of the meeting, members presented gifts to Mrs. Seibel for her new home. A contest was enjoyed and the serving of lunch by the hostesses brought a pleasant evening to a close.

## Magistrate's Court

Two married men both of whom are under the age of twenty-one years were sentenced to terms of fifteen days and thirty days respectively when found guilty of supplying liquor to minors. The girls in question, aged sixteen and seventeen years old were charged with obtaining liquor while under the age of twenty-one. They were each ordered to post bonds of \$25 and given six months suspended sentences.

A Keewatin man was given six months definite and three months indefinite for assaulting a woman. The charge was laid by the Keewatin police. Evidence showed that the woman had been beaten on the head.

Also charged by the Keewatin Police, a third offence drunk was given three months and a second offender, two months. An Ignace woman was sentenced to seven days on drunk charges.

A local motorist who caused an accident by turning a corner to the left of the centre line paid \$21, while a Toronto driver paid \$26 for speeding. Failing to give half of the road cost a Keewatin motorist \$41.

## Baby Iverson Died Suddenly

Arnold Frank Iverson, beloved infant son of Mr. and Mrs. Arnold Iverson, 30-Regina Avenue Kenora, died suddenly at the St. Joseph Hospital, Wednesday, April 1st. Born February 15, 1959, he was six weeks old.

In addition to his parents, he is survived by his two grandmothers, Mrs. Helen Iverson and Mrs. Annie Outen both of Kenora.

Funeral services will be held in the Chapel of the Brown Funeral Home Friday, April 3rd at two o'clock. Rev. Floyd Johnson will officiate and interment will be in the family plot, Lake of the Woods Cemetery.

## KEEWATIN LEGION DRAW WINNERS

The Canadian Legion, Branch No. 13, Keewatin wishes to announce the winners of their draw for Hams, which took place in the Legion, Saturday March 28. Winners are Janet Anderson, Marlene Barnard, John Contini, George Morden, Walter Nicholson, Roy Wayne, Otto Haglund, Mrs. T. White, Andy Jones and Mrs. Andy Stewart.

Thanks is extended to everyone who participated in the draw.

When there are more young ones on hand than one can use, place them in the ground, close to the kitchen door, and they will keep in perfect condition.

## JUDGE ORDERS RETURN OF FUNDS - FATHER TO PAY COST OF ACTION

Mr. Lionel Green of Nestor Falls this morning was ordered to return all monies which he received from his father, Fred Green, by Mr. Justice Thompson, as the unusual civil action which opened Tuesday, was concluded. His lordship ordered all costs in connection with the case to be paid by the father, whom the Court considered was entirely responsible for the situation. The costs of the action will be heavy.

Testimony, as presented on Tuesday, outlined the circumstances of the transfer of funds.

## Kenora Teenagers Off To Lakehead Teen Convention

A group of local teenagers left Wednesday for Port Arthur where they will attend the seventh annual Northwestern Ontario Youth Conference which opens this afternoon. Some 550 teen-agers are expected to register at Lakeview High School. The Kenora delegates are members of Ken-Teen Ville.

Miss Leslie England who was chosen Teen Queen at the Holly Hop held last December, will compete in the teen queen contest, with judging at a special luncheon Friday at the Prince Arthur Hotel. The crowning of the queen will be a special feature of Saturday evening.

Kenora teen-agers will also take part in the Northwestern Ontario dance competition and the rock and roll session.

Discussion groups, variety shows and a business session to select the 1960 site are also included in the activities.

It is expected that out of town delegates representing teen clubs from almost every community in this section of the province, will number well over 400. They will be billeted in Port Arthur homes and transported to and from the conference site by chartered bus.

The conference will continue through to Sunday morning when services will be held at Trinity United Church and St. Andrew's Roman Catholic Church.

Guest speakers at Lakeview High conference headquarters will include Rev. Bob Richards, of La Verne, Calif., theologian, educator and Olympic champion, Inspector Herman Scarnati, of Port Arthur police department, traffic division, and Dr. C. M. Johnston, of Port Arthur Clinic. Question and answer periods will follow each address.

The gathering is sponsored by Port Arthur Teen Club, Port Arthur Civic Recreation Committee, Community Programs branch, Department of Education, and Society of Directors of Municipal Recreation in Ontario.

Mr. Green, Sr. left his family in Winnipeg over 30 years ago and journeyed to the Northwest Territories, where he resided continuously without further contact with his folks. By a strange co-incidence, he located a son, Lionel, last May, and fired on his own volition, forwarded funds to his son at Nestor Falls. By early July the amount sent was over \$8,000. The father, after disposing of his property in the north, came to live with his son. Three weeks after arriving at Nestor Falls, the father asked for his money. It was refused, as the son considered the money a gift.

His Lordship indicated that he considered Lionel Green blameless. The wording of the letters mailed by the father to the son gave every indication that such might be the case, the Judge continued. However, the letters, considered as a unit, indicated that, while the funds might be used by the son, restitution was expected by the father at a later date, in the opinion of the Court.

The Spring Assizes which concluded this morning, opened March 17th, and covered a greater period of time than any similar sittings in recent years. It was also notable for the fact that it commenced eight or nine weeks earlier than usual.

## G. R. Brown, 81, Called To Rest Wednesday Night

Gardner Richard Brown, well known and highly respected citizen of Kenora for over sixty years, was called to rest at the Kenora General Hospital, Wednesday evening, April 1st following a lengthy illness.

Born in Pierre, South Dakota, June 20, 1878, he was in his 81st year. He received his education in Pierre and came to Rat Portage now Kenora in 1899. He was employed by the Hudson Bay Company until 1905 when he joined the services of the CFR as a trainman. He was promoted to conductor in 1908 retiring in 1944. He was a member of the United Church, Pesaung Lodge, A.F. & A.M. No. 414 and the Brotherhood of Locomotive Trainmen. He was an ardent sportsman, being particularly interested in baseball and hockey.

Predeceased by his wife Sarah in 1951, he is survived by one son Harry (Bud) Brown of Winnipeg; two daughters, Mrs. J. Agar (Theima) Stone and Mrs. Don (Verna) Jordan both of Kenora; five grandchildren and two great-grandchildren.

Funeral services will be held in the Chapel of the Brown Funeral Home on Saturday afternoon, April 4th at two o'clock. Rev. R. J. Leighton will officiate and interment will be in the Lake of the Woods Cemetery.

## Liberal Convention Begins Friday In Toronto

Toronto—More than 600 delegates— a near record turn-out—are expected to come to the annual meeting of the Ontario Liberal Association being held in Toronto (Royal York Hotel) this Friday for the kickoff of the party's 1959 election campaign.

"We are expecting a crowded meeting," said W. J. Henderson of Kingston, President of the Ontario Liberal Association.

Highlight of the meeting will be a keynote speech by Liberal Leader John Wintermeyer, who will set the outline of the party's policy in this crucial speech.

Another feature is a special forum of Liberal candidates who will debate important issues in Provincial politics, and encourage lively discussion from the floor. Moderator of the forum will be Charles B. Templeton, CBC television personality.

The day-long meeting will conduct business sessions, including election of party officers, in the morning and will devote the major part of the afternoon to the forum discussion and to debating grass-roots resolutions brought in by individual riding associations. High point of the morning will be a speech by James Scott, permanent party secretary.

The evening will see the annual banquet, climaxed by Mr. Wintermeyer's speech.

## Growing Business Demands Full Time Says Bill Jones

Effective yesterday, Mr. A. W. (Bill) Jones resigned his position with Norwesto Communications to devote full time to his own business - Custom Electronic Enterprises.

Coming to Kenora from Rogers Majestic Ltd. in Toronto in 1951 where he had been employed in the systems engineering division of that company - he joined Norwesto to head an engineering and development group. Subsequently he was placed in charge of the company's complex radio network which extends throughout the northwestern area.

Two years ago Mr. Jones founded Custom Electronic Enterprises, commencing business operations from a small machine shop in the Rabbit Lake area. Originally formed to handle commercial and industrial electronic requirements, the business has now been expanded to include a radio, television and appliance outlet in Keewatin. A new premise was purchased in August of last year to house the overall operation.

Actively engaged in the electronics business for more than 22 years both at the engineering as well as service levels, Mr. Jones' skill in this field is widely recognized. Mr. Jones states that his firm, quite apart from the retail side of the business - will also offer local industry a comprehensive practical engineering service. (Mr. Jones holds an honours degree in physics and mathematics.)

Moving an injured person or giving him hot or cold liquids may easily cause him greater pain or increase his injury unless this is done by the doctor or by a trained first aider. A case of fracture should never be moved until a qualified person has immobilized the limb, or arrested any bleeding in case of a wound.

## TUBEROUS BEGONIAS

Citawa, March 12, 1959—The  
tuberous begonia is one of the  
most satisfactory flowering plants  
for use in shady places. An ideal  
location is where they are ex-  
posed to the morning sun, but  
screened from the noonday sun  
by the branches of trees or shrubs  
or by a building.

Out in the open, without shade,  
foliage is frequently scorched by  
the sun.

Tuberous begonias require a  
mellow type of soil, rich in or-  
ganic matter and well provided  
with drainage. Ordinary garden  
loam, a liberal dressing of an  
inch or more of sharp gritty sand  
and three or four inches of well  
rotted leaf mold or horticultural  
peat will provide a suitable type  
of soil. This should be thoroughly  
dug to a depth of about six in-  
ches.

Begonia plants, ready to set  
out in the garden, may be pur-  
chased from growers and garden  
supply houses towards the end  
of May or early in June, after  
danger of frost is over. Many  
home gardeners, however, pre-  
fer to grow their own plants in  
the house. In the home with south  
or southeast windows, it is not  
advisable to start the tubers be-  
fore the middle of March. With or-  
dinary window light, tubers  
started in February usually pro-  
duce tall weak-stemmed plants  
which fail to do well when mov-  
ed into the garden.

Tubers should be started by  
setting them with the concave or  
flat side up in a garden flat or  
planting box that holds two or  
more inches of damp, firmly  
packed peat or sphagnum moss.  
This flat box should be placed  
in a warm location with bottom  
heat, if possible, for a couple of  
weeks or until the tubers develop  
a small root system and make  
some top growth. Then they  
should be carefully removed  
from the flat and individually  
potted into 4 inch clay or fibre  
pots, using a fibrous sandy com-  
post.

When there is no further risk  
of frost, plants may be set out  
in the garden or flower bed. If  
clay pots are used, remove the  
plants from the pots with the  
ball of roots and place deep en-  
ough to cover the tuber with a  
bout one inch of soil. When plant-  
ing, the lower leaf should face  
the front of the bed and plants  
spaced about eighteen inches a-

part. If plants are crowded, the  
control of mildew in periods of  
humid weather is more difficult.

There are many forms of tuber-  
ous begonias, most of which  
are used for bedding and in gar-  
den planting. Plant breeders in  
Great Britain and California have  
developed a number of very fine  
varieties which are much super-  
ior to the ordinary garden types,  
but these named varieties are  
somewhat more expensive. The  
pendulous begonias are recom-  
mended for hanging baskets on  
the north or east side of the  
house.

## Wolf Oil Cure For Arthritis?

Lindsay—Wolf oil as a cure for  
arthritis?

Fish and Wildlife Supervisor  
Gordon Buie, of the Ontario De-  
partment of Lands and Forests  
here, says the Department has  
had many unusual requests for  
assistance. Latest is a request  
from a lady, 78, who would like  
to obtain wolf oil - as a remedy  
for a severe attack of arthritis.

The district office is trying to  
find some, or, at least, wolf fat  
from which oil can be rendered.  
"We are calling on our Division  
of research," says Buie, "for as-  
sistance in the form of fat from  
the body cavity of one of the  
wolves they are now dissecting in  
research, there is little fat on  
the outside of a wolf, particu-  
larly at this time of year."

"Oil rendered from the fat of  
raccoons, skunks and groundhogs  
long has been regarded as a re-  
medy for sprains and various  
forms of rheumatism, but this is  
the first time we have heard of a  
use for wolf oil; we hope it  
brings the lady relief."

Cross eyes in children often ap-  
pear in early infancy. As soon  
as the condition is noticed, it  
should have medical care. It can  
be remedied quite early. It is not  
a condition that can be outgrown.

**EDITORIAL VIEWPOINTS**

**SPEEDING GOOD ROADS**

There is general satisfaction in this district with the 1959-60 roads program announced recently by Highways Minister, the Hon. Fred M. Cass. The amount of money which has been allocated for the Kenora district seems to assure the completion of the Trans-Canada Highway in this area by the end of 1960.

Most spectacular of the work in progress is the new hospital bridge in Kenora. Following closely is the 12 miles of paving scheduled for this summer between here and the boundary. When completed, these twin undertakings will do much to improve our access to the west.

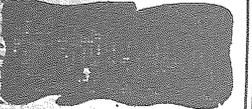

To the east, the tempo of work will be stepped up with some 20 miles of new road to be built easterly from the junction with Highway 70. At the same time 10 miles of paving near the Eagle River bridge plus the completion of 11 miles of carry-over grading west from Vermilion Bay will cut deeply into the remaining portion of highway yet to be re-built. If the 1960-61 program is equally aggressive, the link between Kenora and Dryden should be closer to completion than appeared possible before Mr. Cass' initial visit here last fall.

While the Trans-Canada route holds the most interest for us, as our tourist industry depends to an important degree on good roads, it should be noted that many secondary roads are receiving consideration. Grading is slated for 14 miles south of Redditt on Highway 128 and nearly 3 miles of road around Rabbit Lake will also receive attention by the Department.

Add to this the Minaki Road project plus the grants made to municipalities for streets and roads, and the district expenditures assume an impressive total.

**Around Town**

Mr. and Mrs. E. R. S. Hall, Mrs. Vera Pike, and Patty of Hareysville Ont., are spending the Easter vacation with Mr. Hall's parents at Grand Valley.

Mr. and Mrs. James Barnard of Kenora wish to announce the engagement of their eldest daughter Paulette Louise to Bruce Garfield youngest son of Mr. and Mrs. Horace Baker of Kenora.

**IN APPRECIATION**  
I wish to express my sincere gratitude to all our friends for their kindness to my late husband during his long illness at the St. Joseph Hospital. Special thanks to the Hospital Staff and Dr. Parrie.

**Announcements**

There will be a series of Parental Classes for expectant mothers held in the Health Unit office at 8 p.m. starting April 13th, 1959. Please telephone 7072 to register.

The Lakeside Community Club will hold a Spring Dance on Friday April 3rd at the Legion Auditorium. Dancing 9 to 1 with Doug Reeves Orchestra. Refreshments. Draw for Hudson Bay Blankets will take place.

**Need For Receiving Home Stressed By Children's Aid**

Not long ago the Miner and News carried a story which told how two children in an eastern agency of the Children's Aid Society were prepared for adoption. When David and Patsy's father could no longer look after them, and their mother home situation broke down, the special worker was employed by the C.A.S. began to look for the best possible home where the sister and brother could be kept together, the story told. But she did not pop them into another home where they would again hopefully try to put out tiny roots of attachment while she was doing research on their case. Instead she told them she was going to find a new mother and father for them and asked them to stay in the receiving home for a short time until the best arrangements could be made for them.

The children understood, they began to look forward to going into a permanent home, and further damage to their personalities was avoided. A very happy adoption resulted from this painstaking preparation, and the tax-paying public was saved thousands of dollars when the responsibility was shifted to the adopting parents.

Staff workers of the local Children's Aid Society and many others who are connected with work for children and who have the welfare of our own district children at heart can not but envy the agency which has the advantage of owning a reception home. A very big factor in causing children to become "hard to place" is the instabilities which they develop when they are moved from place to place, often on short notice. The longing to "belong" is deep rooted in the lonely hearts of deprived children. A good many of these moves can be avoided when there is a reception home available to take care of children while a really good initial placement is sought.

In our own district there is the case of Gabrielle. Gabrielle is a little girl who has had scant attention from her come-and-go father during her four and a half years' lifetime. Recently the child's mother herself alienated by the father's indifference, ran away and left the bewildered child. So Gabrielle was placed in a foster home for care. Here for the first time she found a full-time kindly father in the home, and never before knowing the love of her own father, she has become deeply attached to her foster one. This would be fine, but unfortunately she is rejected by the foster mother, or in non-professional words, the mother can not completely tolerate playing second fiddle in the child's affections. What is needed is a home where an understanding mother can be big enough to stay in the background for a while until Gabrielle catches up on her unfulfilled need for a father's affection. Such a home is being sought.

But what the present foster mother should call today and say, "This child does not fit into my home. Please come and get her at once."? What the social worker needs is time, and with a receiving home operating in the town, a little time could be bought.

The District of Kenora Society is forever working on emergency placements. "We are not just saying, we are abusing some of our good foster homes," the local director says. The staff sometimes thinks it is a wonder our children have not become even more seriously disturbed, and there is always the fear that their characters may become permanently scarred.

The parade is endless. The six Raymond children are scattered, and are in their third move. Arrangements had to be made for the seven Arville youngsters in the hours between one and five p.m., and who could claim that the most suitable placements could be made in so short a time?

Pretty four year old Gracie had begun to helplessly at the slightest provocation after circumstances had resulted in her being out on two adoption probations and living in several foster homes, sometimes with, and sometimes separated from her brother. Her final happy adoption home might have been her first, one if their had been sufficient time after she first came in C.A.S. care to give her case the special consideration it needed. It is then no wonder that those charged with the responsibility for the welfare of the less fortunate children of this district, for the troubled, the homeless and the deprived little ones, should envy similar organizations who are able to operate receiving homes. Such a home helps to prevent problems arising. Dental caries causes pain and often destroys teeth. By brushing the teeth immediately after eating, food particles that cause this decay can be removed.

not made possible, their blight will add to the cost of development, and even delay it. A relatively modest program of Dominion-Provincial co-operation in adjusting the cost of commercial transportation, dues and taxation, to keep these centres commercially active and socially stable, would be amply repaid within a few short years.

### Community Centre Building

(Continued from Page 1)

holding the Community Centre Drive for the time being, until the Hospital Building Drive is completed, was discussed, all members agreed that since the Community Centre Drive has advanced to the stage where sufficient pledges have been obtained to cover the cost of the arena, the Committee should proceed in their quest for further pledges. A report submitted by General Chairman Hiro Oshiro indicated that since the revision of estimate on the cost of the Centre was made, the committee drive actually has reached 45% of the quota. In order to get the balance of the 55% in pledges, a meeting has been called for Tuesday, April 7th to recruit additional canvassers. Each committee member has been asked to bring in two others who are interested in carrying out this project to a successful conclusion. Any person who is interested in this work is asked to come out to the meeting on Tuesday, April 7th at 8.00 p.m. at the Kenricia Hotel.

The marten, long hunted for its rich brown fur, is an animal smaller than the ordinary house cat.

its burden.

A glance at census figures for 1951 and 1956 verify his points. Population for 1956, with the 1951 figures in brackets, are: Cochrane, 3,935 (3,401); Hearst, 2,214 (1,723); Hudson, 381 (389); Red Lake, 2,042 (2,122); and Sioux Lookout, 2,501 (2,364). For those that have grown at all, the rate of increase is less than births alone would support, and others that should be growing are slipping backward.

Most so-called ghost-towns were doomed to their fate from their founding; they were frankly one-shot communities that were abandoned when the single purpose of their founding—mostly in shack-town style—was fulfilled. Such places as the five named are not like that. They are centres in which there is potential for considerable expansionist activity.

If interim opportunity for self-sustaining family businesses is

## North Centres Suffer From Economic Pinch

Big industry of various kinds undoubtedly will be added to the mining and lumber industries already well-established in Northern Ontario. Rugged as much of the territory is where natural resources abound, it already has been proved it can be tamed. But existing resources must be made available to smaller, family-operated businesses in existing communities if they are to survive as commercial centres in the nearby expansion period. Mr. Albert Wren, Kenora, placed the problem before the Legislature in a properly non-partisan discussion of the Lands and Forests Department's estimates.

He pointed out that the scales established for timber dues and taxation inhibited the development of such small industries as those which could produce some lumber, railway ties, power line poles, lath, and so on. The application of freight rates to such products shipped in limited consignments also is a cost barrier. The result Mr. Wren indicated is that centres such as Cochrane, Hearst, Hudson, Red Lake and Sioux Lookout are now suffering from a chronic economic recession, such as the one Canada is now experiencing, adds

**Benidickson Enquires About CNR Pensioners**

On March 20th, in the House of Commons, as reported in Hansard, during discussion of the estimates of the Department of Transport, W. M. "Bill" Benidickson M.P. Kenora, Rainy River, brought up a matter of considerable interest especially to residents in the district along the Canadian National-Railways.

Mr. Benidickson stated that on 21st January this year, he raised the question of the revision of the Canadian National Pension Schedule. On January 22nd, a reply received by the Member indicated that the matter had not been brought to the attention of the Minister of Transport.

In view of the fact that the entire subject had evidently been of considerable interest to the Prime Minister, when he was in the opposition, when he advocated a revision, the Member stated that he felt that the present Prime Minister would have

consulted with the Minister of Finance, since such revision in favour of retired pensioners would entail a Cabinet decision and Order-in-Council.

The answer of the Minister of Finance would indicate that no representations have in fact been made either with regard to present employees or the retired pensioners, so far as the Minister of Finance is concerned.

## Jet-Prop Planes To Introduce Fast Air Service

Vancouver, B.C.—Canadian Pacific Airlines' Britannia Jet-Prop Airliners will introduce Canada's fastest air service between Vancouver, Winnipeg, Toronto and Montreal, commencing May 4. Details of the new mainline schedule initiating airline competition across Canada were released for the first time here today.

The 400-mile-an-hour Britannias will cut the existing flying

time from Vancouver to Winnipeg by one hour, 35 minutes, and from Toronto to Winnipeg by 35 minutes. Flying time from Montreal to Vancouver will be reduced by one hour, 25 minutes, and from Toronto to Vancouver by one hour, 15 minutes.

Actual flying times for the Britannia Jet-props, destined to be the largest and fastest commercial aircraft in service in Canada, will be: Vancouver - Winnipeg, three hours, 25 minutes; Winnipeg - Toronto, two hours 55 minutes; Toronto - Montreal, one hour, 15 minutes.

CPA's schedules for the new daily, east-west service reflect two novel features of special in-

terest to Canadian air travellers:

1. The Britannias will carry tourists as well as First Class passengers. This will be the first time in Canada that tourist travellers have enjoyed the luxury of Jet-prop flight.

2. The airline will offer the only non-stop service available between Vancouver and Winnipeg. Elapsed time of the new Britannia service from Vancouver to Toronto will be equal to the present non-stop flight, despite a half-hour stop at Winnipeg.

CPA will make 623 seats available eastbound from Vancouver every week, and a similar number westbound from Montreal. Winnipeg and Toronto will have the same 623-seat capacity in both directions.

The Britannia fleet will be equipped with weather radar which assures smooth flight by enabling the Captain to detect and avoid storm centres even during zero visibility conditions.

For the comfort and convenience of passengers, the 100-seat Britannias, now in service on the airline's Intercontinental routes, will carry only 89 passengers - 51 tourist and 38 First Class.

### Lake Level .26 Inches

(Continued from Page 1)

1058 feet (1058.10). A six inch rise in July reversed the trend, but early in August the decline resumed and continued without interruption, ending the year at 1057.98 feet.

On the other hand, both Rainy Lake and Namakan Lake are higher today than 12 months ago and are higher than average levels prescribed by the International Joint Commission. Rainy Lake stands at 1105.35 feet while a year ago it was 1104.76 feet. The I.J.C. level is 1104.87 feet.

Namakan Lake, which feeds Rainy Lake, today stands at 1110.61 feet as against 1109.85 feet. Its I.J.C. level is 1108.73 feet.
