HIGH SCHOOL BOARD REPORTS

## STANDARDS RAISED FOR GRADE 12 STUDENTS

In a release from the Kenora Keewatin High School Board, it is announced that academic standards for grade 12 pupils are to be raised. The board gives the following reasons for the changes:

There is a definite trend toward higher admission requirements for Universities, Technical Institutes, Nursing, etc.

Now there is a movement in provincial high schools, prompted by the feeling that unless a student is able to meet the challenge of higher academic standards in grades 12 and 13, he will not be able to adjust to the rigorous courses in a University or other centre of Higher learning.

Repeating a year in high school, from a purely financial point of view, is far less costly to the student and his parents, than a year repeated in University.

It is possible too, that an extra year for some students would enable them to enter University with a more mature personality, and a goal firmly in mind.

The raising of standards in the Kenora-Keewatin District High School is being instituted as follows:

1: Any pupil who has passed

the required subjects in Grades XI and XII, with 50% or over in each subject, will qualify for a Graduation Diploma with three, four or five options.

2: (a) Any four option pupil who has passed all his grade XII subjects with a June average of 60% or over, will be promoted to Grade XIII without restrictions.

2: (b) Any three option student who has passed all his grade XII subjects with a June average of 66% or over, will be pro-

(Continued on Page 20)

## Douglas Carrie Retires After 52 Years Service

After having served 52 years with the Lake of the Woods Milling Co. Ltd., Mr. Douglas Carrie of Keewatin retired on pension on April 30th, 1959.

In recognition of his long service, he was honoured, by The Ogilvie Flour Mills Co. Ltd., at a supper gathering held in the Kenricia Hotel May 1st attended by Mr. George MacLean, Western General Manager of Ogilvie Flour Mills Co. Ltd., Mr. Jack Blakney, Plant Manager and Mr. T. A. Raine, Grain Manager, all from Winnipeg. Guests included Senior Staff of the Lake of the Woods Plant, new Plant Manager, Mr. D. I. C. MacLean, Mr. J. M. Pearen, Mayor of Keewatin Walter Hodkinson, retired foreman H. Hansen and J. Duncan.

Mr. Blakney outlined Doug's history with the company, starting out as a sweeper in 1907 at the age of 14, he later transferred to the Powerhouse, from there he moved up to the Electrical Department, promoted to Electrical Foreman in 1955 serving in this capacity until his retirement. He served with the Royal Flying Corp from 1917 to 1919.

Mr. George MacLean made a presentation on behalf of The Ogilvie Flour Mills Co. Ltd. of a portable TV and radio set, he also read a letter of congratulations from the President, Mr. H. Norman Davis. Previously, the mill employees had presented him with a wallet.

Mr. Carrie was married at Keewatin to Jessie McCrimmon in 1922. They have two sons, Derek with the C.P.R. at Keewatin, James a graduate Druggist at Fort William.

He is part owner of a Tourist Camp at Reo Bay, where he will be spending the summer, after that he may retire to Victoria.

## ORIGIN OF PLACE NAMES

The Department of Lands and Forests at Kenora reports that many of our Indian names for lakes and geographic features are highly descriptive. We came across two this past week we liked very much.

Agimac Lake, on the shores of which the village of Ignace has been built is said to mean "the Lake where the snowshoe wood grows" or Ash Lake.

Osaquan Lake, also in the Ignace area, is said to be the "Lake of the Boiling Water" not because the water is any warmer than in Lake of the Woods, but because of the innumerable springs which have made and continue to feed the lake.

The writer's knowledge of the Indian language is rudimentary to say the least, and it is hoped that his informants were not pulling his leg. However, this may supply the incentive for Indian scholars to provide any needed corrections.

## Catholic Women's League Honors Father Audette

The Catholic Women's league held its regular meeting in the Parish Hall May 4th with Mrs. T. Brett presiding. Miss L. Leroux, Spiritual Convener, read a selection by Most Reverend Fulton J. Sheen "Return to Nothingness" which proved very interesting and capably stressed the "Nothingness" in our origin.

Mrs. L. Van Walleghem, reported for the Guide Convener that the Girl Guides will hold a camping trip on the week end of May 23rd. Financial aids will be given to the Senior Sodality for their retreat given by the Rev. Father Hanley S.J. and to Father Leroux for the needs of his Mission. There will also be a Central depot in the parish Hall to collect baseball equipment for his boys. Mrs. J. McInnis will convene and Mrs. L. Fortier Co-Convene a

(Continued on Page 19)

## BOWLERS CONCLUDE SEASON

## BANQUET AND DANCE IS SCORED ANOTHER WIN

Champions were crowned, prizes presented and 300 members of the Kenora Mixed Commercial Bowling League declared that the finest of many seasons was suitably concluded with a most successful dance last night.

League president, Mrs. Gertrude Wilson, in welcoming the guests and bowlers paid tribute to her fellow officers; John Zilinski, vice president; Bill Dunford, secretary; Helen Plante, treasurer; Joyce Barber and Ivy Zilinski, co-chairmen of the prize committee and Pete Plante, chairman of the entertainment committee. The combined work had made the season most enjoyable. She had special words of thanks for the donors of trophies, Bergman and Nelson Ltd., and the Kenora Jewellery. All present applauded the "thank you" to the L.A. to the Legion who served a delicious turkey dinner.

Greetings from the Town were conveyed by Mayor Peter Ratuski, who congratulated the executive on the splendid manner in which the league was conducted. He thought it spoke well for the Town to have a place where so many young people could enjoy themselves in such a profitable manner, and Mayor Ratuski asked where young people might find an outlet for their energies were it not for such recreational centres.

Bill Dunford introduced the head table guests which included Mayor and Mrs. Ratuski; Mr. and Mrs. George Wilson, Mr. and Mrs. W. Ritzen, Mr. and Mrs. Charlie Bergman; Mr. and Mrs. Frank Kowpak and Mr. and Mrs. C. Dusanag.

Mr. Charlie Bergman, in presenting the Bergman and Nelson Cup to the winning team, said he felt honored and pleased at being able to attend the 1959 banquet. The Ticker Dot team won the Cup.

Mr. W. Ritzen presented the Kenora Jewellery Trophy to the Supermarket team. Those officiating in the presentation of prizes were John Zilinski, George Van Walleghem, Milly McCoombs, Helen Plante and Mrs. Gladys Ralko.

The following were the seas-

on's winners:

**FIRST PLACE TEAM**  
(Bergman & Nelson Trophy)

**Ticker Dots**  
Al Warner, Gail McInnes, (captain), Josie Kolar, Josie Pirozek, Frank Kowpak.

**SECOND PLACE TEAM**  
**Newmans**  
Ron Poirier, Angie Brown, Joan Harkins, George Calder, Grace Munroe, Les Munroe.

**KENORA JEWELLERY TROPHY**

**Supermarket**  
Larry Karaim, Valarie Karaim,

(Continued on Page 20)

## LUCKY DOLLAR

Another travelling dollar was placed in circulation this morning at one of the stores with Hawaii on the door. The lucky dollar which is redeemable up until 5:00 p.m. Saturday, May 9th, bears the serial number:

YA 9833688

Still in circulation and good until 5:00 p.m. Friday is bill number LA-1653426. Anyone spotting a lucky dollar needs only to present it at Radio Station CJRL where they will receive a \$5.00 Credit Note good at any store with Hawaii on the door.

## Lake Open - First Boat Arrived Wednesday

Navigation on the Lake of the Woods is now open as of Wednesday afternoon, May 6th. Reports received by the Miner and News show that Phil Larson of French Narrows was the first of many boats to stop at the Fish Market Dock.

Mr. Larson made the thirty mile trip from the Narrows by outboard motor. He stated that all channels were relatively clear of ice and with the prevailing temperatures, all ice should be gone by the weekend. As late as Monday, channels were still ice choked but the strong winds of the past two days, speedily assisted in the break-up.

This year's opening of Navigation is exactly two weeks behind, 1958. Charlie Boucha won the honors last year when he docked his boat at 11:30 a.m. April 22nd. Alfred Grande was the winner in 1957, bringing his boat in on May 5th.

**WATCH THIS SPACE FOR THE MAN YOU WILL NEVER FORGET AFTER THE JUNE 11th ELECTION**

# SCENES AT SILVER LAKE BEVERAGE COMPANY OPENING

**THE HEART OF THE PLANT**

These two photos show where a big part of the effort in producing pure, refreshing beverages takes place. At the right of the picture may be seen empty bottles going into the giant washing machine. Bottles are carefully checked for cracks before they go into the machine. Note: on the left, the bottled drinks are coming out on a conveyor in a steady stream.

The new Swirl bottle is most attractive, but never more so than the moment it comes gleaming from the washing machine. Sparkling, after the final rinse, it is ready for another filling with Pepsi-Cola. Mr. Ernie Fortier stands beside the bottling unit.

## Silver Lake Beverage

### Opens New Plant . . .

(Continued from Previous Page)

added, this one capable of washing, sparkling clean, 300 cases per hour or 120 bottles each minute.

Mr. and Mrs. Fortier started up with two main brands, 7-Up and Stubby. The Stubby line gave them a full range of flavours, Stubby lime, grape and grapefruit, cream soda, etc., etc. It wasn't until 1949 that the Pepsi-Cola franchise was added.

"You can't stay still in business", Mr. Fortier said, and 12 years ago he purchased the site of today's magnificent plant. Much of the planning and design is his, and those of his brother-in-law, Phil Dufresne. The staff numbers as high as 24 in the summer, and 7 trucks are continuously on the go.

The new building is made of cement block and has a metal-clad roof. There are 7,200 square feet of floor space on the main level, with office space additional on a second level. The ceiling is 16 feet high, sufficient to allow the stacking of 15 cases, which is done by means of a new \$7,000 fork lifting unit.

A tremendous amount of bottles are lost each year—one of the main problems of operating the business. Mr. Fortier buys five full cartons of bottles each spring, required for replacements and for expansion.

Speaking about bottles, the new washing machine is a revelation in mechanical ingenuity. Special large hot water tanks, heated by gas, provide the giant machine with plenty of hot water. A special hot caustic solution, thoroughly rinsed away in the latter stages, insures a spotless, sparkling bottle, ready for the bottling machine. The one continuous operation sees the empty bottle going into the washer, and the bottled drink, thoroughly chilled, coming out the other end of the production line.

Mr. Fortier sells many of his drinks through vending machines, which he sells outright to the store or places on location on a rental basis. Those in the vending business are aware that Mr. Fortier won national recognition (and a trip to Quebec City) in 1954 for having the highest sales, per capita in vending machines for the Pepsi-Cola Company. He won the same award, and a trip to Mexico City last year. He has a trophy and several plaques in recognition of other sales honours.

## Mando Income Down During First Quarter

Minnesota Ontario Paper company today reported first quarter net income of \$1,187,473 on net sales of \$20,369,089. Earnings dipped slightly from \$1,863,206 in the corresponding quarter of 1952 while net sales showed a modest increase from \$20,083,923 a year ago.

The first quarter net was equivalent to 46¢ per share compared to 50¢ a share in the beginning quarter of 1953.

J. B. FAEGRE, chairman of the board, and President Robert Faegre attributed the reduced earnings to a combination of factors, mainly greater losses experienced on exchange of United States and Canadian dollars this year. Also affecting first quarter earnings compared with a year ago were the loss of production during replacement of No. 2 paper machine at International Falls, and non-recurring newsprint sales during a Canadian west coast paper mill strike last year.

## Fort Frances Blood Program

A man who never flinches at the sight of blood was introduced as guest speaker at the Fort Frances Rotary club Thursday noon.

Frank Taylor, who urged support of the Red Cross blood donors' clinic on Thursday, was introduced by Stan Dolny, program

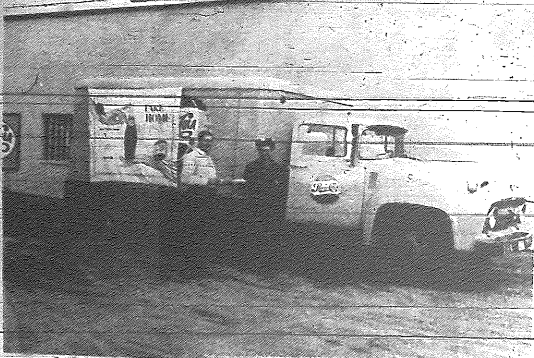

chairman, as a leader of the St. John's Ambulance Brigade, the first-aid volunteers, and the community blood donors' work.

Taylor, who has headed the annual drive for blood donors in Fort Frances since 1952, has been "very active in curbing human suffering," Dolny stated.

The speaker reported that 2,858 pints of blood have been donated to the Red Cross at Fort Frances since he became chair-

man. The LaVerendrye hospital, during that period, has used 1,836 pints in attending to its patients.

At the rate of \$25 per pint, which is the regular rate for use of blood where no community blood clinics are established, Fort Frances people have saved themselves \$45,900 in transfusion expenses since the Red Cross plan began, Taylor commented.

A very familiar sight on the streets and roads of this district is the Pepsi-Cola truck, pictured above. John Landry, sales manager is photographed handing an order to Lawrence Mann, one of the Company's driver-salesmen.

Holding one of several plaques which Silver Lake Beverage Company has earned for excellence of sales and customer relations is Miss Carol Prentice. Mr. Ernie Fortier and John Landry, sales manager are the others in the picture.

**FUTURE KING IS TOLD TO SIT DOWN**

LONDON — A boy of 10 can be an awful pest even if he happens to be the future king of England.

This was demonstrated Sunday at a polo game between Ascot and Windsor Park, led by 10-year-old Prince Charles' father. (Prince Philip's team won 4 goals to 3½.)

The Queen, wearing a green raincoat, scarf and low-heeled shoes, drove to the game from Windsor Castle. Accompanied by Charles and his eight-year-old sister, Anne, she went to a canvas-roofed canopy because it was raining.

The roof sagged from the weight of pools of water on either side of the centre pole. Suddenly Charles punched the canvas, causing water to splash on his mother's stockings. Mother frowned, Charles hit the other bulge.

As 4,000 spectators watched, the Queen was heard to say: "Charles! Sit down!" Charles sat down.

**Gasoline Price War About Over**

A gasoline price war appeared to be over in three Ontario centres today as four major oil companies removed subsidies to their dealers.

Most of the price-slashing service stations in Toronto and its suburbs were back to regular prices of 42.9 cents a gallon and those selling at 39.9 cents were expected to sell at regular prices Wednesday.

A Hamilton service station operator said: "We are back to normal."

Woodstock's price battle ended Monday night after oil executives told dealers by phone from Toronto that subsidies would end at midnight.

# STORY OF CARBONATED BEVERAGES INTERESTING

Of all the beverages used in this country, no drink can be considered more typically Canadian than the carbonated soft drink. The popularity of carbonated beverages knows no equal. Soft drinks are consumed to satisfy thirst, for refreshment, with meals and for a quick energy pick up. They are consumed by young and old . . . errand boy and executive . . . at all times of day and night. They are sold every place . . . from the smallest roadside stand on a remote country road to the largest restaurant in a crowded city . . . from a general store, to a modern supermarket in a big city . . . from factories and service station to office building and schools. Whenever you find people you find carbonated drinks!

The story of carbonated beverages goes back a long way. It is the story of man's attempt to imitate one of nature's products and improve it. Carbonated water, a natural phenomenon, was known to man as far back as two thousand years ago. As people got to know about the benefits of waters that bubbled out of natural springs, they came from far and near to taste this bubbly water. Doctors, at that time used to subscribe it for different ailments.

In the 1500's scientists studied the bubbling springs, and hoped to duplicate nature's carbonated water. They tried to bring this water to people, instead of people travelling long distances to benefit from it.

After much research a man named Dr. John Mervin Nooth in England discovered a apparatus known to us today as a carbonator, impregnating water with carbon dioxide. A man named Joseph Haukins of Philadelphia began the sale of soda water in bottles, in a small drug store. Rapid progress took place, and later on the use of flavourings and syrups were added to make the new industry grow even faster.

Manufacturers of bottling equipment became interested and started to make machinery that would bottle this new product much faster, and make more efficient washers for cleaning. Next came a method of sealing the bottle. The old method used then was a cork and a wire fast-

KEEWATIN  
NEWS

Mrs. Kember

Mr. and Mrs. Charles Fisher have left for Atikokan, Ontario to attend the Baptismal Service of their two Great Grandchildren Robert David Kent, son of Mr. and Mrs. Robert Jackson, and Donna Lynn Agnes, daughter of Mr. and Mrs. Don Jackson.

The service will be performed on Sunday May 10th in the United Church at Atikokan.

Beginning in May, the Retired Men's Association of Keewatin will meet once a month during the summer.

The first meeting will be held on May 6th and thereafter on the first Wednesday of each month. Members Please Note.

The Keewatin Bantam Baseball Club held a meeting in the Memorial Building on Tuesday evening May 5th. The following were nominated to office for 1959 season.

Pres. - Mr. Gordon McNichol  
Vice Pres. - Mr. Gordon Nabbs  
Sec'y - Treas. - Mrs. Jean Mc.

Nichol.  
Publicity - Mrs. Phyllis Spencer.  
Executive - Mr. Bert Gove, Mr. Fred McLaughlin, Mr. Ed Bruce, Mr. Douglas Spencer.

## Social Evening at I.O.O.F. Hall

Following the regular meeting of Juanita Rebekah Lodge 189 Keewatin on Monday evening, May 4th a social evening was enjoyed by members of the order and their daughters. A variety program was presented and contests. The jive contest was won by Mrs. Viola Gordon and Mrs. Agnes Ford.

At the conclusion of the programme refreshments were served to approximately 60 members and daughters.

## Story of Carbonated Beverages

(Continued from Page 17)

ener. Finally in 1892 a patent was issued on a revolutionary crown cork and then in 1893 a glass blowing machine was patented.

In 1890 bottlers were already offering the public a wide variety of carbonated drinks. There was soda water in siphons, and these were various types of mineralized carbonated waters and flavored drinks - sold in bottles and through soda fountains. Flavors included ginger ale, sarsaparilla, root beer, cream, lemon, strawberry and numerous others. The carbonated beverage industry was on the move!

In the last 25 years great progress has been made and some plants now bottle as high as 300 bottles per minute, a far cry from the slow methods of the not so distant past when a man was required to hold a single bottle rigid in a crude machine that forced a crown on the bottle.

Tremendous progress has been made since the first practical method of carbonating water was developed and no soft drink has achieved greater public acceptance and popularity than 7up. Seven Up stands for a carbonated beverage that is outstanding in flavor, purity and beneficial qualities. For young and old in every walk of life, 7up truly represents the best in carbonated drinks.

## PROVINCIAL LAND TAX TO RE-INSPECT AREA PROPERTY

Frank E. Sider, District Forester at Kenora reports that provincial land tax are planning a re-inspection of those properties which will be dealt with at the Court of Revision during July.

Because of the moderate assessment placed on land and buildings by the Department, we do not have many requests for adjustment, he continued.

Since it will be three years until another Court of Revision, the department wishes to deal with all properties in which there is any doubt in the owner's mind as to his assessment.

## REPORT FROM QUEEN'S PARK

BY ALBERT WREN, M. P. P.

## NORTHERN ONTARIO ECONOMIC DEVELOPMENT COMMITTEE

In this report I shall deal with the four days of hearings of this Committee at the Lakehead on April 28, 29, 30, May 1. At the request of the Minister of Planning and Development I attended all hearings of the Committee chaired by Col. F. J. Lyle, consultant to the Department of Planning and Development.

## KEY THREADS-FREIGHT RATES AND CO-ORDINATION

The thread of opinion of both the Committee and those appearing before it was that freight rates and co-ordination of government Departments in the North held the basic avenues for economic development. Conflict of authority and interest blocked many Northern Ontario developments, it was submitted to the Committee and Chairman Lyle agreed that it would have to be a main task of his committee to work out a way to better funnel action through the Departments concerned.

Freight rates came up in almost every presentation and many instances of application of rates to the economies of Northwestern Ontario were outlined, all revealing a totally unrealistic application of freight rates in our part of Ontario. A special study is under way on freight rate structure and I am convinced that Federal authorities can be shown the best way to help us through fair adjustment of rates to this part of Canada.

## NO NEW PULP MILLS

The Committee was told that since 1946 some 37 new pulp mills had been erected in North America; none in Northwestern Ontario, though expansion of existing mills had taken place. J. H. Merrill, Vice-President of The Great Lakes Pulp and Paper Co., T. S. Jones of the Dryden Paper Company, the Ontario-Minnesota Pulp and Paper Co. and others forcibly protested the discriminatory logging tax imposed by the Ontario Government placing Ontario's mills in a position where they had to pay more than any other industry in Ontario and a lot more than their own industry elsewhere in Canada and the Continent. This along with high transportation costs seriously imperils the industry and Mr. Merrill expressed the fear that unless costs of wood comes down soon some existing pulp mills may have to shut down from inability to meet the ever increasing competition from the Southern States. The pulp and paper executive pointed out too how these discriminatory charges encouraged importation of wood from outside Ontario with attendant loss of employment here. (In the spring of 1959 The Great Lakes Company imported pulpwood from the U.S.A.)

It is significant to report here that during the 1958 Session of the Legislature, over a year ago, Albert Wren was the only member from Northern Ontario to protest these new taxes on forest industry and vote against the legislation. I pointed out then and on prior occasions what it would do to employment in Northern Ontario and what I predicted came about; employment in the woods dropped alarmingly and it added to the costs of wood already the highest in N. America. In the 1959 Session just concluded I pointed out again the folly of crippling taxation on natural resources industry when we needed expansion and new jobs.

## SECONDARY FOREST INDUSTRY

On April 15th, 1959 whilst sitting up this Committee and in terms of reference, Premier Pelee assured the Northern delegation of which I was a part that he would "see to it" that the sawmilling industry, tie producers and the like would receive sufficient raw material to organize long term production and financing. Before this Committee last week R. J. Prettie, President of Northern Wood Preservers graphically illustrated how his own 300 employee industry was in peril because they could not get anything but short term guarantees of timber. He pointed out how most of our railway ties now come from B.C. and Alberta. At least ten years supply is required to stabilize producers of lumber and allied products at the Lakehead. Sioux Lookout, Hudson, up the Red Lake Highway and so on. The Premier promised action and the Committee last week saw how urgent it was that action was needed not tomorrow, but today. Discriminatory freight rates were a serious factor in this field of operations also.

## REFORESTATION BLOCKED

Forestry people told the Committee how Treasury officials blocked implementation of a bold reforestation program worked out between the industry and Lands and Forests. Emphasis was placed on need for action in this aspect of forest regeneration.

## IRON ORE DEVELOPMENT

Steep Rock officials and Dr. Bartley, an eminent consulting geologist painted a bright future in iron mining in Northwestern Ontario with a 35 cent per ton reduction in freight rates is worked out. By 1980 Northwestern Ontario will be asked to produce 45 million tons of iron ore which will require not only full production in the Atikokan area but also the development of some 20 properties and more generally lying north of the main line of the C.N.R. between the Manitoba border and Nakina. The geologist told us that vast majority of the tonnage would have to be exported, but some specialty steel production at the Lakehead could be set up for the western market and some sections of the eastern market. He emphasized however that foreseeable use of the raw ore for steel production in Northwestern Ontario would be limited. Significantly the production Dr. Bartley insists will be necessary will add one hundred thousand people to our population. It is certainly worth our effort to create the conditions which will lead to that kind of future, and the main conditions are not insurmountable, i.e. reduced freight rates and rail access into the areas of ore deposits. Remember too as I told you some time ago, the 64,000 square mile aerial magnetometer survey north of the C.N.R. this year will reveal new and unknown possibilities. This survey will not locate orebodies but will show the best places to look.

The gold mining industry did not make a presentation to the Committee largely due to lack of time and since it was only 14 days from the day the Committee was est-

ablished that it first met at the Lakehead. This action of the mining industry has real problems too in costs, taxation and so on. In the Red Lake camp more access is needed and a causeway needs building between McKenzie Island and the mainland. The material is there and estimates of mining people show that One Hundred Thousand Dollars will make vehicle access possible. This data I gave to the Committee and further information will go to them from the industry when the Committee meets in Northeastern Ontario. Our own Red Lake area has a bright future of continued production and expansion and the new jobs which follow.

## HOUSING PROGRAM STRESSED

The Atikokan group presented a forcible outline of the need for low cost housing and suggested to the Committee how this could be met by low down payments and building standards compatible with need and the means of the workman. My own urging in the Legislature for a plan of first mortgage guarantees with a \$500.00 down payment met with general approval. In the Kenora Riding a survey reveals that 260 new homes are needed now in the \$9,000 and below class. Once we get a plan of Government guarantee to low cost housing mortgages we will add force to our economic structure for not only does absence of housing one can afford discourage influx of workers, it simultaneously creates grave social problems which will prove more costly of solution than housing. (Up to last year the Ontario Government had incurred losses of only \$34.00 from all post war building and mortgage activity). In any event there was unanimous agreement that we move forward in this field.

## HIGHWAY DEVELOPMENT

Again there was demonstrated the urgent need to get our main highway completed to the Manitoba border. For 1959 and 1960 heavy concentration of construction work will see the greater portion built to near Trans-Canada standard. It is not right to tell you that the highway will be completed to Trans-Canada standard by 1961 because that is not so over the entire length of the highway between the Lakehead and the border. But I do assure you that we will have a fine two lane highway graded and paved by the end of next year, right across our Riding.

At the Lakehead the committee was told about the need for perimeter access to both the Lakehead Cities and the seaway terminus. These facilities have to be built up quickly if we are to meet the threat of competition from Duluth for western traffic. Likewise we have to get our main highway finished and then look at four lane requirements, by-passes of bottlenecks and so on. It is regrettable that we have to take panic action now when we could have proceeded at a faster pace but financing, the Province's credit, the money markets all have had their effect. Nonetheless now I am confident that we are moving forward to effective conclusions.

While all eyes are on the Trans-Canada we cannot neglect much longer our trunk highways and the equally important necessity to rebuild our township and unorganized area roads to required standards. In the east the County organization of municipal government handles the important aspects of this problem but here it has to be done by government and we have to move right into this area of needed development activity.

## AGRICULTURE

A full range of discussions on Agriculture emphasized to the committee members the need for training, demonstration, pilot farms and again realistic financial assistance. We have to take a new approach to this industry in the light of technological advances, production, marketing. Stability and opportunity of income in a revolutionized industry emerges as prime considerations. A separate committee of government is studying this field and will visit this area on dates not yet announced. From discussion with experts I can see great possibilities in our District for dairy and beef cattle. When the other committee shows up we will all have the opportunity to fully discuss this industry.

## TOURIST OUTFITTERS NEED ATTENTION

Ralph Webb of Laclu, speaking for the Northern Ontario Tourist Outfitters ask the Committee to encourage government attention to the need for assistance in capital financing for his industry, relaxation of the stringent control over highway signs and the need for some realistic liquor regulations. Others deplored the ever increasing American ownership of camps because Canadian capital was not available. Liquor control causes much inconvenience and embarrassment not because of the law but because of application of regulations. Much improvement can be had through new structure in regulations. In one part of Ontario bars can be established without a vote, in other sections a vote must be taken. There are many problems involved and while I do not want to see wide open sale of liquor, it is desirable that we devise law which people will respect and not so blatantly disregard.

The industry needs help in advertising and of course, good roads. All were pointed up in the Outfitters brief to a sympathetic committee group.

## THE EFFECT OF THE ELECTION

I have reported to you in a general way the highlights of the meeting of this committee. Due to short call it was not possible for each community to prepare presentations nor for our Press to be present. Thus I covered each sitting of the Committee to advance and interests and yet be able to report what I feel would be of interest to you. With the election now called for June 11th it is my sincere hope that the work of this committee will not die. Whatever government is returned it is my intention to avidly pursue these important matters of such vital concern to all. I have taken and will take a non-partisan view of these matters for it is important that all our efforts be bent toward achievement of our purposes. We do not seek handouts, we seek full employment in the development of our economy. Full lunch pails is certainly my own objective. I want to see every employable person at work in good circumstances. Thank you for your interest and co-operation.

Yours sincerely,  
ALBERT WREN, M.P.P.

MAY 4, 1959.

Association of Keewatin through their good-ambassador Mr. Gordon Mackey voiced their intentions of joining the club for 1959. I feel sure we can count on our Kenora members that were absent from the meeting to join those that were there in saying WELCOME and thank you Keewatin.

Also contacted were all young peoples groups of the various denominations of local Churches, the teenagers of Moose Lodge, and the Business Girls Association, all the above were favorable to making use of the greens and club house for coming summer. This is encouraging, this corner feels sure that if we must kick then let's kick towards a goal.

Let us all think big, the aim is to grow, and be a credit to the community. Let us all make a habit not to be critical about small things, show more enthusiasm, all work together, if we want a place in the sun, we must expect blisters.

Another meeting is booked tentatively for May 18th, when we hope for a full attendance, to make plans for 1959. One objective is painting the club house, another a house committee, another a draw committee, another is Membership committee, so please be at the meeting. I THANK YOU, and bye for now.

**Catholic Women's League Honours**

(Continued from Page 1)

rummage sale on May 16th. The following conveners were appointed:

- Spiritual - Miss L. Leroux.
- Educational - Mrs. J. Davidson.
- Social Action - Mrs. Pochailo.
- Girl Guide - Mrs. G. Hachey.
- Membership - Miss Dougherty.
- Press & Publicity - Mrs. J. Me-

tal. National Magazine - Mrs. V. Penault.

- Telephone - Mrs. F. Leroux.
- Programme & Entertainment - Mrs. J. L. Roy.
- Social - Mrs. J. McInnis.

Prior to his departure Father Audette, in tribute of his work as league Director was presented with a purse on behalf of the league by President Mrs. T. Brett who, with a few appropriate words expressed regrets at his departure and wished him health and success in his future work. Father Audette replied with a few words and gave his blessing to all the members of the league.

The guest speaker Miss Mildred Parry of the Children's Aid Society spoke on adoption and referred to the lack of Catholic adoption homes, of the compensation feeling of pleasure and fulfillment by having a young life to guide in return for warmth, and security given. The legal status and protection was 30 years old brought about with a growing awareness of the plight of children. Placements were often simply made with children being taken into homes and sometimes this resulted in lost names she said.

Ten thousands were adopted in Canada last year and yet many remained in foster homes and institutions, Miss Parry continued. Child placing agencies have problems which are being eased through experience and time. AGE of prospective parents which used to be a barrier has been overcome and the signs of warmth and affections replaces fastidiousness in a home for child placement, the speaker concluded.

Thanks was extended by the President to Miss Parry for her enlightening talk.

The evening closed socially and lunch was served by Mrs. J. McInnis and Co-workers: Mesdames F. Leroux Sr., J. Fortier, T. Fortier, E. Leroux, A. Poirier, F. Dougherty, T. Brett.

Herman Melville, author of the classic sea tale, "Moby Dick," was born in New York City.

Turkey, a republic since 1923, occupies territory in Europe and Asia.

**Low To Medium Fire Hazard In District**

The Kenora office of the Department of Lands and Forests stated today that cool, cloudy weather and much-needed rain has resulted in a low to medium fire hazard. One fire occurred on May 2nd in the Clearwater Bay Area. The small blaze, caused by smokers almost destroyed a summer cottage.

Last year, the department Beaver aircraft was operating on floats on April 14th, this year ice conditions only allow limited operations as of this date. The Western Region helicopter arrived on May 3rd providing a welcome addition to the transportation system during the critical ice break-up period.

Don't forget to listen to the Smokey Bear Fire Prevention program over CJRL at 12:45 p.m. each Friday, commencing May 8th.

**CPR ELECTS OFFICERS AT ANNUAL MEETING**

Montreal.—At the 78th Annual general meeting of shareholders of Canadian Pacific Railway Company held in Windsor Station Tuesday Edwin G. Baker, George W. Bourke, Robert J. Dinning, G. Arnold Hart, M.B.E., Louis L. Lang and Harold M. Turner were elected directors of the company.

At a meeting of the Board of Directors held immediately after the shareholders meeting, W. A. Mather was elected chairman of the Company, N. R. Crump, president, and R. A. Emerson, vice-president. The following were appointed the executive committee: W. A. Mather, N. R. Crump, R. A. Emerson, Ross H. McMaster, L. J. Belnap, H. G. Welsford, M.B.E., and H. Greenville Smith, C.B.E.

## KEEWATIN CURLERS VOTE TO INSTALL ARTIFICIAL ICE FOR NEXT SEASON

The annual meeting of the Keewatin Curling Club was held recently in the Club Rooms with President W. Powell in the chair. Minutes of the last annual meeting were read and the financial report was given by the Treas-

urer. Mr. L. G. MacDonald brought greetings from the Kenora Curling Club. Chief J. Pike of Kenora in his remarks stated that competition this year, between the two clubs had been noticeably keen.

Reports from the various committees were presented by A. McKie, J. Hemminger and W. Burton.

The following trophies were presented to the winning rinks in the various events.

The Newman Trophy presented by Mr. E. M. Newman to Dan McLean (skip), B. Hanstead (third), M. Contini (second), D. Danielson (lead).

Lake of the Woods Trophy presented by D. McLean to Percy Robertson (skip), A. Brown (third), J. Pearson (second) R. Booth (lead).

A. E. Howard Trophy presented

by Mr. Howard to W. Moberg (skip), P. Bouchard (third) S. Sjostrom (second), J. Salmon (lead).

T. Eaton Co. Trophy presented by Gerald Smith to F. Davis (skip) G. Morden Sr. (third), J. McFarlane (second), H. Coles (lead).

Keewatin Lumber Company Trophy presented by A. Dusang to A. McLeod (skip), T. Sigurdson (third), G. Carner (second), G. Morden Jr. (lead).

Merchants Trophy presented by W. McCowan to H. Christanson (skip), S. Karlsson (third), J. Webb (second), C. Reynard (lead).

Rochoon Memorial Trophy presented by M. Rochoon to K. McKellar (skip), R. Bergman (third) L. Bergman (second), P. Prociowitch (lead).

The election of officers for the 1959-60 season then took place with the following being elected.

- President: O. Hensrud.  
 1st Vice-President: W. McCowan.  
 2nd Vice-President: W. Currie.  
 Secretary-Treasurer: L. Batchelor.  
 Directors: W. Burton, A. McKie, M. Mounk.  
 Draw Committee: George Morden Jr., Brian Hanstead.  
 Ice Committee: W. Currie, P. Walsh.  
 Trustees: G. Otter, S. Karlsson, P. Robertson.  
 Entertainment: G. Harkins.  
 Auditors: H. Rolston and H. Johnson.

W. Powell, retiring president, thanked the executive and committees for their assistance and co-operation during the past season and extended best wishes to the incoming executive.

O. Hensrud then took the chair as president for the coming year. He thanked the retiring executive for their support and un-failing efforts and commented on the hospitality and co-operative spirit he felt would be shown to all members including the executive in the forthcoming season.

The matter of installing artificial ice was the main topic discussed under new business. K. McKellar gave an estimate on the cost of figures arrived at regarding this project. E. L. Holmes outlined financial procedure necessary. It was noted that most Canadian Curling Clubs now have artificial ice or are contemplating same in the near future.

It was suggested that this club now incorporate as non-share members. That a loan or debenture be issued over a ten year period. Dues increased \$10.00 per member would yield roughly half of the necessary annual cost, the remaining half could be raised by the various committees. Much enthusiasm and work will be required for this venture.

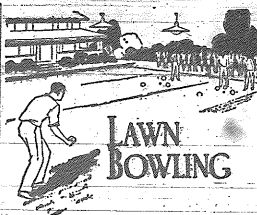

A. Davidson of Kenora, gave a brief outline on the installing artificial ice at the Kenora Curling Club: After considerable discussion on this subject of artificial ice, a motion was passed that the club proceed with the ice program as outlined.

Following adjournment of the meeting a social evening was enjoyed.

If there is no electricity at the summer cottage and heating and light must be obtained from coal oil, it is wise to ensure that the storage of fuel is safely arranged. A cool shady place outdoors from the cottage is best for storage of the bulk of the oil.

The University of Texas has been playing football for 66 seasons.

Dust on an electric light bulb can reduce its efficiency as much as 20 per cent.

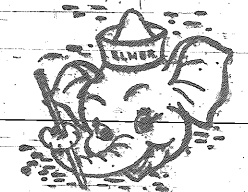

**LAWN BOWLING**  
 "Hi," day by day in every way we are closer to our new season opener, the good Lord is with us, sending rain to make our greens greener and grow,

and give us strength to do just ice to all that are depending upon us to make life just that much brighter, so we all may enjoy good fellowship one with each other. Well we had our meeting as planned. Although the attendance could have been larger, the few of us that were there enjoyed a social chat after coming out from a long winter of hibernation.

Several matters of well being for the club were talked over and passed, one bright feature for the coming season was, the good news that a Retired Men's

### Standards Raised For Grade 12

(Continued from Page 1)

moted to Grade XIII without restrictions.

(c) A four option pupil, who obtains less than 60% in June, will repeat all subjects in which he has obtained less than 60% before taking the corresponding subject in Grade XIII, regardless of his having qualified for a Graduation diploma or not.

(d) A three option pupil, who obtains less than average of 66% in June, will repeat all subjects in which he has obtained less than 60% before taking the corresponding subject in Grade XIII, regardless of his having qualified for a Graduation diploma or not.

(e) Pupils referred to in (c) and (d) above will be permitted to

take Grade XIII work in—  
(i) Any subject which they have obtained 60% or over in Grade XIII work of the corresponding subject.  
(ii) Botany or Zoology, if taught, in which the work is largely non-cumulative.  
(iii) Pupils registered in Grade XII but taking any combination of subjects in two grades, Grades of XI, XII or XIII will be required to obtain 60% in any grade XIII subject which they plan on taking in Grade XIII.

## Ontario Drivers Can Lose Licence Up To Three Years

Toronto—Drivers convicted of failing to remain at the scene of an accident may soon have their licences suspended under the Criminal Code, W. B. Common, deputy attorney-general of Ontario, said.

Mr. Common told the Canadian Highway Safety Conference that federal Justice Minister Fulton is acting on a resolution passed by the safety association last year.

The resolution asked that the maximum three-year suspension be possible in cases where drivers are convicted of failing to remain at the scene of an accident.

Drivers now found guilty under the Criminal Code of drunk driving, impaired driving, manslaughter and criminal negligence can lose their licences for up to three years.

### CUT LIQUOR PRICES

Prices of all spirits raised by the Liquor Control Board of Ontario last month following the increase in federal sales taxes are to be lowered about five cents a bottle.

W. H. Collins, chief commissioner of the board, said in a statement, the reduction was being made after "detailed and accurate calculations" on the effect of the federal tax increase.

The five-cent drop applies to both the half-bottle and full bottle.

The previous increases raised price of Canadian spirits 10 cents on the half-bottle and 20 cents on the full bottle. Imported spirits went up 10 cents on the half-bottle and 25 cents on the full bottle.

## Rexall Drug Sale Now In Progress

Bargains. Bargains. Bargains galore. The biggest ever Rexall One Cent Sale is on right now at Johnson's Rexall Drug Stores. You'll find hundreds of values during the Rexall Spring One Cent Sale, as advertised in Weekend, Star Weekly, Family Herald, and Free Press Weekly. Just one cent buys twice as much. Medicine Chest Needs, Vitamins, Stationery, Baby Necessities, Ad-rienne Toiletries, Batchelor Shaving Needs, Dental Preparations and Extra Surprise Buys - you'll find tremendous bargains in all of these. But remember, Saturday is the last day for the Rexall Spring One Cent Sale, so hurry. That's at Johnson's Rexall Drug Stores, 116 Main Street and 224 Second Street, where you can buy twice as much for just one penny more.

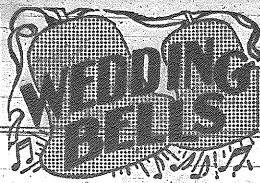

Mr. Jim and Larry Johnson, local Rexall Druggists announced plans for their semi-annual Original One Cent Sale to be held May 4th through 9th in their

drug stores at 116 Main Street and 224 Second Street.

The theme of the Rexall One Cent Sale This-Spring is: "Twice as Much for Only a Penny More", they said. The semi-annual One Cent Sale was originated by the Rexall Drug Company in 1914, and has become an international institution.

Hundreds of nationally advertised Rexall products will be available to the public from coast-to-coast in Canada on the money-saving "Two for the Price of One Plus 1c" plan. The products on sale will include Packaged Medicines, Vitamin Products, Oral Hygiene Needs, Cosmetics, Stationery, Household Needs, First Aid Supplies and Hundreds of Other Rexall Items.

"This sale means that the people of Kenora and District will be saving many hundreds of dollars of necessities for good grooming and good housekeeping", the two Mr. Johnsons said, "and it is the Rexall druggist's major contribution towards holding down high prices and helping to bring down today's high cost of living".

### BAKER-BARNARD

A pretty spring wedding was solemnized Saturday, May 2nd, 1959 at 4 p.m. in Knox United Church when Paulette Louise, daughter of Mr. and Mrs. James Barnard was given in marriage by her father to Bruce Garfield Baker, son of Mr. and Mrs. Horace Baker. Rev. R. J. Leighton officiated. Mr. T. Dawson presided at the organ and spring flowers decorated the Church.

The petite bride looked charming in a waltz length gown of white chantilly lace and nylon net over taffeta. The empire bodice featured a scalloped neckline, bouffant skirt and full length lily point sleeves. A tiara style headpiece held her chapel veil. She carried a colonial bouquet of Garnet sweet-heart roses. Her only jewellery was a heirloom necklace several generations old belonging to the groom's mother's family.

The bridesmaid, Miss Shirley McCorrister wore a waltz length gown of pale pink broadened taffeta with matching accessories and carried a colonial bouquet of blue and white shaggy mums.

Mr. Lorne Baker, brother of the groom, was best man. Mr. Lori Gow and Mr. Rod Fairfield ushered the guests.

The bride's mother wore nylon chiffon tulle over net with back panel detail in Cornflower blue, white accessories and a corsage of pink and white mums.

The mother of the groom chose a sheath dress with high waistline in beige lace over taffeta with silk organza sash and beige accessories. A corsage of white mums completed her ensemble.

A wedding breakfast was held at the Hotel Kenricia. Covers were laid for thirty. The table was centered with a three tiered wedding cake flanked on either side by red roses and tall white tapers. The toast to the bride was proposed by Mr. Rod Fairfield and ably responded to by the groom.

Following a reception at the home of the bride's aunt and uncle Mr. and Mrs. C. N. Peacock, Mr. and Mrs. Baker left on a wedding trip to Winnipeg. For travelling the bride wore a beige blouson styled suit with white accessories. Upon their return they will reside at Trojan Ave., Kenora.

Out of town guests were Mr. and Mrs. J. O. Allan and Mr. and Mrs. E. Piotrowicz of Winnipeg, Mr. and Mrs. Arthur Parfitt, Mr. and Mrs. Edwin Barnard, Jr. of Keewatin and Mr. Fred Harris of Transcona.

## \$60 Poker Loan Now Court Issue

TORONTO - A man who claimed he loaned a fellow poker player \$60 so he could stay in the game tried to collect through the courts yesterday.

Magistrate W. F. B. Rogers requested counsel to submit written argument and remanded the case of William Kalatzis, 33, of Halton St. until May 20.

George Apostolos of Bridgeland Ave., Downsview, said he and Kalatzis were playing cards Feb. 12 in a Yonge St. social club when he loaned accused the money.

Earlier the same day, the witness said, he loaned Kalatzis \$20 and \$40. When Kalatzis' cheque for \$120 bounced at the bank the next day, he said, Kalatzis

was charged with false pretences.

Defence counsel Arthur S. Allan argued Apostolos could not collect the \$120 because the money had been used to keep Kalatzis in the poker game. But Crown counsel Lloyd Graburn contended the money represented a legitimate loan.

The case arose from an aircraft dealer's unsuccessful attempt in Edmonton in 1958 to obtain possession of a plane he lost following an all-night poker game with a businessman.

Supreme Court dismissed an action by Francis Christmas who filed suit against Thomas E. Durham, an Edmonton accountant. As a result, Durham retained possession of the \$2,500 aircraft.

Michigan produces nearly one half of the timber marketed in the Great Lakes states.

Largely because of the discovery of a brilliant young Frenchman, Jean Francois Champollion, historians have been able to trace the life, customs and religion of Egyptian cultures as far back as 3500 B.C. In 1822, Champollion found the key to the long-lost secret of hieroglyphic writing through a laborious comparison of the Greek, Egyptian and hieroglyphic writing on the famous "Rosetta Stone," a black slab of basalt which had lain for centuries near one of the mouths of the Nile River.

CAN'T STOP DOGS BARKING

HOUSTON, Tex. (AP)—A judge ruled Tuesday that dog owners cannot be required by law to keep their dogs from barking and added:

"As a matter of fact, you can't keep a dog from barking unless you kill it."

Judge William A. Miller tossed out a \$50 fine against L. F. Schebler Jr., owner of the Idlewood Kennels.

The kennel owner was fined March 17 in corporation court for keeping barking dogs that made unnecessary noises and appealed to county court. The complaint had been filed by neighbors.

Everybody Has Slight Peculiarities

VANCOUVER (CP) — Mrs. Alathena Smith says that when you realize that everybody is peculiar, especially yourself, you have made the giant step towards becoming an emotionally-mature person.

This is the philosophy Mrs. Smith practises in her work as a clinical psychologist and parent education expert at the John Tracy Clinic for pre-school deaf children in Los Angeles.

"It isn't just a philosophy for handicapped children or their parents, but an idea which would help solve racial and religious intolerance, even war," Mrs. Smith said in an interview here.

"In the last analysis it's our peculiarities that count. It is our unique qualities that draw us to different trades and professions, give us different tastes and outlooks.

"Immature people feel threatened by differences in themselves and others. They are likely to ridicule or attack people who are different.

"The only solution is to help them become mature," she said.

**Big Burden  
On Shipping**

OTTAWA (CP)—United States demands for compulsory pilotage throughout the St. Lawrence Seaway would impose an "enormous burden" on shipping, Transport Minister Hees said Tuesday night.

He added, however, that U.S. authorities are "coming closer all the time" to the Canadian view that pilots should be required only on "restricted" stretches of the newly opened seaway.

Mr. Hees, replying to questions on the CBC's televised Press Conference program, made these other points:

1. Welland Canal locks can "easily" be doubled up to handle twoway traffic if the need arises.
2. Prim. Minister Diefenbaker will announce "in a few days time" the makeup and terms of reference of the forecast royal commission to study effects of railway freight rates in Canada.
3. The transport department is making two studies on the long-proposed Chignecto Canal to link the Bay of Fundy with the Gulf of St. Lawrence.

## Spawning Runs Light Due to Lack of Water

"Spawning runs of fish are unusually light this spring and often, desiccated, with several kinds of fish running together," reports Charles R. Burrows, chief of Minnesota fisheries research. Because of the low water levels in several lakes being studied there have been no northern pike runs in tributary streams and into adjacent sloughs where these fish usually spawn.

"Spawning conditions for pike," Burrows said, "are especially unfavorable in central Minnesota and the Twin Cities area, because of almost no spring runoff to fill the sloughs."

"This spring, spawning runs of northern pike, suckers, and walleyes have occurred in many waters at the same time instead of being separated as they are in normal years," Burrows said.

Usually, fish run later in northern Minnesota but this year there has been little difference because of the snow in southern Minnesota and lack of it farther north. Burrows points out, "that while poor spawning season is unfortunate, it does not necessarily mean poorer fishing two or three years hence. Quite often the bulk of the fishing for several years is supplied by fish that hatched in the good spawning season."

Alexander Hamilton and Robert Fulton are buried in the Trinity Church graveyard near New York's Wall Street financial sec-

# Silver Lake Beverage Opens New Plant

## CIVIC CONGRATULATIONS OFFERED MR. E. FORTIER BY MAYOR RATUSKI

Sometimes the course of one's life changes abruptly, and it is possible to point to a certain event and say: "that changed the whole course of things". For Mr. and Mrs. Ernest Fortier, proud owners of Silver Lake Beverage Company, such is not the case. The event which directed the Fortiers entrance into the soft drink business was as insignificant as anything could possibly be. It started just before the war.

Today, Thursday, May 7th is a memorable milestone, not only in the lives of Mr. and Mrs. Fortier and members of the Silverlake Beverage staff, but also in the business life of Kenora. At 5.30 p.m. today, Mayor Peter Ratuski cut the ribbon to officially open one of the smartest, cleanest and best equipped small bottling plants in Western Canada. There followed a tour of the premises, located on Railway Street, by some 200 guests from this area and from Winnipeg.

But to get back to the beginning of the Company. In 1941, Mr. Fortier operated a small garage business on Park Street. The rear of the premises housed some fairly ancient bottling equipment which had been left by a former tenant. It was occupying space, and worse still, rapidly deteriorating. Waste is one thing which Ernie dislikes. Knowing little or nothing about the business, he decided to experiment. It seemed a bad time to start, with sugar being rationed and help being next to impossible to secure.

It was a family effort, Mrs. Fortier added. I helped wash the bottles, keep the books and even drive the truck on deliveries. Ernie used the one small hand bottling unit, which could handle about 30 cases an hour. We had quite a time at the start.

Ernie figured that by doubling the number of hours (by washing bottles at night) and by securing a second hand capping machine, he could double production. That was the beginning of growth. It wasn't easy. The only recipe for progress was hard work, and that both Mr. and Mrs. Fortier did for many years.

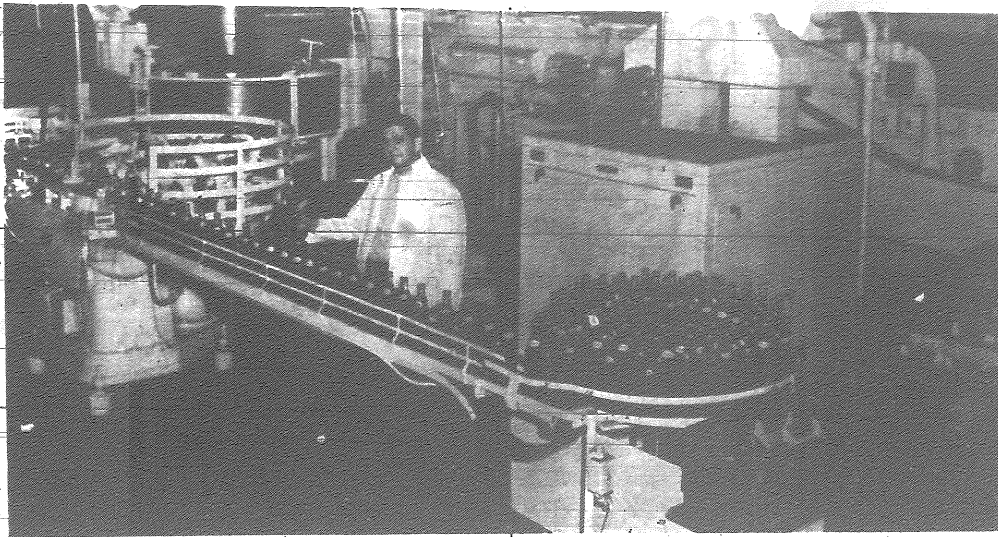

In 1945 a semi-automatic bottling machine was purchased, and this changed the tiring hand labor practice. It wasn't many months before it was realized that a mistake had been made - business was expanding at such a rapid rate that a larger unit was needed, and this was purchased and installed in 1948. In 1950 a larger bottle washing machine was added, and by now three trucks were on the road, delivering to the camps and stores from Sioux Narrows in the south to Red Lake in the north; from Falcon Lake in the west to Dryden and Sioux Lookout in the east.

Meanwhile more space was needed, and in 1947 another 2,000 square feet of plant space was provided. In 1953 a still larger bottle washing machine was
