Kenora Lionelles Install Officers, Hear Reports

Twenty-two members of the Kenora Lionelles club attended the final meeting of the season held in the form of a dinner at the Chalet on June 3rd.

Following dinner, annual reports given by the various conveners showed that the club had enjoyed an excellent year. The two rummage sales held during the year to raise money were reported as being most successful. Donations were given to the following: Salvation Army, Red Cross, CNIB and Children's Aid Society. Other projects included a Christmas party at Pinecrest, including putting up the tree, providing entertainment and the serving of lunch. The Lionelles also packed the eye glasses, that the Lions Club had collected in a recent drive.

Past President Edna Hughes then installed the following officers for the 1959-60 term:

President - Mrs. Anne Ihnasz.
1st Vice-President - Mrs. Nell McLeod.
2nd Vice-President - Mrs. Gay Houghton.
Secretary - Mrs. Mary Shewchuk.
Treasurer - Mrs. Florence Armstrong.
Penalty Officer - Mrs. Verna Jordan.

Lion Tamer - Mrs. Sharon Katz.
Directors - Mrs. Jerri Heuvel and Mrs. Marg Townsend.

Tribute was paid to eight members namely, Mesdames Sally Nagengahst, Marie Allanson, Marg Brennan, Jay Budworth, Lois Davey, Gay Houghton, Anne Ihnasz and Dorothy Stratton, who had completed two years perfect attendance at meetings and Mrs. Betty Townsend and Mrs. Nell McLeod who had one year perfect attendance. A presentation was made to Mrs. Lois Davey who is leaving to reside at the Lakehead.

Following the business session Mrs. MacDonald and Mrs. Lodge entertained with songs and dances.

Harry Atwell Resident Since 1887 Died Monday

Harry Frost Atwell, one of this community's oldest residents and who was held in high esteem by a large circle of friends, died at the Kenora General Hospital, Monday afternoon, June 15th, following an illness of three weeks. Born in Holyoake, Mass. U.S.A., September 24, 1874, he was in his 85th year.

He received his education in Maine, U.S.A. and came to Kenora (Rat Portage) with his parents in 1897. He entered the services of the CPR as a wiper in 1902, was promoted to engineer the same year and worked continuously as a passenger engineer, until his retirement, October 1st 1939. He was engineer of the Royal Train in May 1939.

Active in fraternal circles, he was a member of Pequonga Lodge AF and A.M. No. 414; Cathedral Preceptory No. 70 of Port Frances; Royal Arch Masons - Golden Chapter, No. 90; Khartum Temple AAONMS of Winnipeg and the Lake of the Woods Shrine Club. He was a member of St. Alban's Pro-Cathedral.

He is survived by his widow, the former Isabel Holden. Funeral services will be held in St. Alban's Pro-Cathedral, Thursday afternoon, June 18th at 3:30 o'clock. Rev. S. G. Tomes will officiate and interment will

COCHENOUR WILLANS GOLD MINES WIN RYAN SAFETY AWARD FOR 4th YEAR

be in the Lake of the Woods Cemetery. Pallbearers will be: Messrs, Earl Mackie, Ernie Newman, Cliff Rotnem, Bill Fonger, John Milloy and W. Brown. There will be a Masonic Grave-side Service.

Rotary Club Set For Giant Bingo

Under the able guidance of Rotarian Pat Wismer and organizer extraordinary Frank Townsend, Kenora Rotarians completed final arrangements for their monster Bingo to be held at the Thistle Rink on Tuesday evening, and all details will be looked after for the large attendance expected at this popular but first Rotarian Bingo. Arrangements were announced in detail at the regular meeting on Monday.

President W. H. Marr presided, and two visiting Rotarians were welcomed, one from the United States and one from Winnipeg. Attendance was 92.86% and last week 93.43%.

M. Y. Cameron announced a very successful recital by Miss Patricia Francis, and an excellent attendance, with good financial returns. Larry Johnson reported a most successful Ladies' night party at the Devil's Gap Lodge on Saturday.

Doors will open at 7.15 for the big bingo which gets underway at 8.15 p.m. and tickets can be secured at the door.

Alex Gabryluk Retires Today From CPR At Kenora

Alexander Gabryluk, painter, Kenora, will work his last day, Tuesday, June 16th, 1959, before being retired on pension.

Mr. Gabryluk entered the service of the Canadian Pacific Railway Company as a Sectionman in September, 1919, and transferred to the position of Painter, October 1st, 1919 and has worked as Painter and Painter Foreman on the Kenora Division since that time.

He was born at Kudrince, Poland, on July 29th, 1894, and was married to the former Lena Parashuk at Sandy Lake, Manitoba, on April 24th, 1923.

Mr. Gabryluk is a member of the Brotherhood of Maintenance of Way, Ukrainian Fraternity Society and attends St. Nicholas Catholic Church. His hobbies are gardening and fishing. The Gabrylks have two daughters, Mrs. R. J. (Elsie) Lindsay and Mrs. Bert (Helen) Abbey both residing in Kenora, also four sons, Raymond, William and Donald of Kenora, and Peter of London, England and nine grandchildren. The Gabryluk's reside at 908 6th Street North, Kenora, Ontario, and intend making their home here after retirement.

The employees of Cochenour Willans Gold Mines were guests at a Company Cocktail hour and Banquet in the Cochenour Community Hall on Saturday evening when the John T. Ryan Regional Safety Award for 1958 was presented by Mr. M. Taschereau, President of the Red Lake Branch, Canadian Institute of Mining and Metallurgy to Mr. J. E. J. Fahlgren, Manager of Cochenour Willans Gold Mines Limited on behalf of the mine and employees. This trophy is presented annually to the mine which, during the year cited, achieved the lowest accident rate of any metaliferous mine in Ontario and this was the fourth time it has been won by Ontario. In 1954 this company also won the Dominion Award.

All employees were presented with personal Morocco Leather Pocket Books and Key-Tainers inscribed in gold commemorating the award.

The guest speaker, Dr. Arthur Secord was brought from New York to address the dinner. Dr. Secord is the Director of Community Service and Professor of Speech at Brooklyn College, New York. He is author of "How to Tell What you Know" - a handbook for management men, personnel directors and salesmen at every level. Since 1950 Dr. Secord has addressed some 600 meetings, which include places in Canada, the United States, Germany, Puerto Rico and on two occasions addressed the National Safety Congress in Chicago.

His topic at Cochenour was "How to Tell What you Know", based on safety coupled with good humour and was particularly well received and thoroughly enjoyed by the guests.

Dr. Secord arrived on TransAir from Winnipeg on Saturday. Unfortunately the report of the plane crash - TransAir out of Trout Lake was heard by his wife in New York. She immediately contacted the Radio Station inquiring if by chance it was the plane going from Winnipeg to Cochenour and without further question this was confirmed, to her horror.

A long distance call at noon Saturday relieved her sorrows, but meantime the incorrect report had subjected Mrs. Secord to great shock.

TONIGHT, June 16th, at 8 p.m., a group of singers and speakers from the Canadian Lutheran Bible Institute in Camrose, Alberta will appear at Bethesda Evangelical Lutheran Church, where the Rev. F. E. Johnson is pastor.

Those in the group pictured above include: seated - Lois Foras, Vancouver; Pastor L. O. Sogge, Camrose; Miriam Wesner, Swan River, Manitoba; Standing - Hal Felstrom, Calgary; Leif Lovrod, Bawlf, Alberta; and Herman Hagen, Viking, Alberta.

Pastor Sogge is a member of the Staff of the Canadian Lutheran Bible Institute, and will lead the group in a programme of songs by the male quartet and the spoken Word.

The group will travel over a route marked by Vancouver, Prince Rupert, the east to Winnipeg and Port Arthur and will return to Camrose after a period of seven weeks.

The Canadian Lutheran Bible Institute is a school which is inter-Lutheran in character and which serves the church by providing Bible training for laymen.

Following the programme, the Luther League, assisted by the Augustana Lutheran Church Women, have arranged for an informal social period and light refreshments to be served in the Sunday School rooms.

Accordion Band Pleases At Concert

The audience was stamping and cheering and calling for more numbers when the Winnipeg Accordionaires gave the last of many encores at the Ukrainian Literary Society Hall on Saturday evening. The occasion was the first annual concert of the Music Centre presented by Mr. Frank Patterson, the director. The pleasing group had given a sparkling program with selections from the classic of Rossini, Korsakov, and others, a group of popular songs, and a crowd pleasing ad lib session. Finally they had responded to numerous curtain calls with generous encore numbers.

"Please don't wait a year to give us a program like this" an enthusiastic member of the audience urged. Mr. Patterson says it may be possible on another occasion to stage the concert as a benefit for the community centre fund.

The youthful local musicians who contributed to the program

gave splendid performances. The pupils of Mr. Ray Feicho, the accordion instructor, who appeared in solos or duets, were Jerry Scott, Anita Titz, Evelyn Atkinson, Brian Gimzik, Bill Cormylo and William Vermeer. The eleven talented members of the centre's accordion band gave several well executed selections. The other out-of-town group, the Drydenaires had four members who all had a way with the instrument.

Mrs. Gladys Schröder presented several of her pupils in recital. Great proficiency was shown by Dianne and Louise Lough and Bonny MacLaine in a trio, Donna Shankowski in a solo, and Betty Contini giving the Hungarian Rhapsody.

"I am very proud of these young performers," the director said, "and the progress they have made." The audience in its applause appeared to concur with this opinion.

Alaska, with an area one-third that of Canada's northern territories, has a population of about 200,000, seven times that of the Yukon and Northwest Territories combined.

LIONS UPSET COCA COLA DINGWALL'S SWAMP LUMBER KINGS

The powerful Coca Cola machine fell prey to the Lions last night as they won by the narrow margin of 9-8. Cokes scored five runs in the first as Jerry Townsend and Allan Minor hit safely with the bases loaded. Allan Spendlow cut the margin with a two run homer in the third; then in the fourth Ron Cymbalysti hit a two run double to help get three and tie the game at 5-5. Lions went one up with Ricky Erickson's solo blast in the fifth. Cymbalysti hit another home run for Lions good for two runs in the sixth, and Erickson batted in Spendlow with what proved to be the winning run. With cokes coming to bat Lions enjoyed a 9-5 lead, and Gregg Duggan was close victory. When he walked the first two batters, Ron Cymbalysti came to his rescue, but Dennis Portman greeted him with a three run blast and put Cokes one away from a tie. Cymbalysti settled down to get the next three and preserve the win for Duggan. Gary Hall was the loser.

Lions	0	0	2	3	1	3	9	10
Coca Cola	5	0	0	0	0	3	8	6

Dingwall's scored seven runs in the first inning when three Lumber King's errors opened the gates, then continued to score in every inning to subdue the Lumber Kings 16-2. Lorne Houghton started for the Kings and was relieved by Dennis Lalbert in the third. Neither fared too well as Dennis Barchuk led a nine hit Dingwall attack with three singles. Lumber Kings could only match his total as a team. Dennis Misurka took over from Johnny Hodges when he had trouble finding the plate. The big south-paw fanned nine men in a row at one stretch without allowing a man on base. He managed twelve strike-outs in his five and two-thirds innings.

Water Safety
DID YOU KNOW THAT

CHANCES OF RECOVERY

Below is a very interesting chart on the chances of a drowning victim's recovery after breathing has stopped and artificial respiration has been started. It is taken from the August 1958 issue of Accident Prevention.

1 minute after breathing has stopped chances of recovery are 99%.

2 minutes after breathing has stopped they are 92%.

3 minutes after breathing has stopped they are 72%.

4 minutes after breathing has stopped they are 50%.

5 minutes after breathing has stopped they are 25%.

6 minutes after breathing has stopped they are 11%.

7 minutes after breathing has stopped they are 6%.

8 minutes after breathing has stopped they are 5%.

9 minutes after breathing has stopped they are 2%.

10 minutes after breathing has stopped they are 1%.

11 minutes after breathing has stopped they are .01%.

12 minutes after breathing has stopped they are .001%.

However, even if the breathing has stopped for 12 minutes, you

must always hope that there is the one case out of 10,000 that will recover.

Here is an economical and time saving method of heating up just a few rolls at a time. Place the rolls in the upper part of a double-boiler and fill the bottom of the double boiler with hot water. Allow the water to boil long enough to heat the rolls thoroughly.

KITCHEN CLASSICS

SWEET N' SAUCY

Many of our most widely popular dishes come to be taken for granted. For instance, we often think of pudding as a filling side dish for a meat course, or as a quick, easy-to-prepare dessert. Yet the making of pudding also allows for almost unlimited ingenuity and originality on the part of the cook. It can be a

spicy, fragrant mixture for hearty winter meals, or a mild, delicate one to finish off a summer snack. With a special seasoning a new filling, or topped with just the right sauce, a pudding becomes an epicurean dessert. Apple-Raisin Pudding is a close relative of that old time favorite, Dutch Apple Cake. Raisins added to the batter make the tasty difference. The colorful, not too sweet, Orange Sauce that is poured on top, is equally effective on dessert dumplings or a simple cottage pudding. You will find this dessert a real taste tempter for accelerated winter appetites.

APPLE-RAISIN PUDDING

Yield - 6 to 8 servings -
 1-½ cups, once-sifted all-purpose flour or 1-¾ cups once-sifted pastry flour
 2-½ teaspoons baking powder
 ½ teaspoon salt
 ¼ teaspoon ground mace

¾ cup fine granulated sugar
 ¼ cup soft shortening
 ½ cup milk
 1 egg
 ¼ teaspoon vanilla
 ½ cup seedless raisins
 2 red-skinned apples
 1-tablespoon granulated sugar
 Grease and 8-inch square cake pan. Preheat oven to 350 deg. F. (moderate).

Sift together into a mixing bowl the all-purpose or pastry flour, baking powder, salt, mace and the ¾ cup sugar. Add shortening and ½ cup of the milk. Beat with electric mixer set at medium speed 2 minutes, scraping sides and bottom of the bowl often - or beat with a wooden spoon for 300 strokes. Add remaining milk and egg; beat 2 minutes longer or another 300 strokes. Stir in vanilla and raisins. Turn batter into prepared pan.

Quarter, core and cut apples into thin wedges. Arrange apple wedges, pointed edges down, in a fan shape over batter. Sprinkle with the 1-tablespoon sugar. Bake in preheated oven 45 to 50 minutes. Serve warm with following Orange Sauce.

ORANGE SAUCE

Yield - about 1-½ cups sauce
 1-tablespoon corn starch
 3-tablespoons granulated sugar
 ½-cup water
 1-cup plus 2-tablespoons orange juice
 1-tablespoon butter or margarine
 Combine corn starch and sugar in a small saucepan; blend in water and orange juice. Cook over low heat, stirring constantly, until sauce thickens slightly and comes to the boil. Cover and cook over low heat, stirring occasionally, 5 minutes longer. Just before serving, stir in butter or margarine.

Canada's Pacific coast Indians were divided into seven different language groups. All lived mainly on salmon and sea food rather than on foods from the hunt.

First Of Three Art Courses Begins At Quetico June 26

Artists from Northwestern Ontario and Manitoba communities will gather at the Quetico Conference and Training Centre on June 26 to begin the first of three art courses under the direction of John Martin, ARCA, OSA, nationally recognized painter and designer. The first two courses will be held at the Quetico Centre and the third course will be held at the Fort William Public Library. The courses are sponsored by the Lakehead Area Art Association. Mrs. George Beatty, 307 Matheson St. N., will attend the course at Quetico Centre.

The first course at the Quetico Centre June 27 - 30 will be for beginners or persons with little experience. The second course at the Quetico Centre July 3-6 will be for more advanced painters. Delegates to either of the first two courses will register at the Quetico Centre the evening before the courses begin.

The third course July 9-13 will be held at the Fort William Public Library with registration at

6 p.m. on July 8. Content of this course will be similar to the second course at the Quetico Centre.

"One interesting aspects of the summer art classes this year is participation from Manitoba," said Mrs. Helert I. Strickland, Secretary - Treasurer of the LA.A.A. "One of the candidates from Manitoba is an Indian Canadian boy from St. Boniface. This young man is being sent to the course by the Indian Affairs Branch of the Department of Citizenship and Immigration. According to Indian Affairs officials he seems to have latent ability and would benefit from receiving instruction from someone of Mr. Martin's calibre."

The instructor, Mr. Martin, was director of design at the Ontario College of Art at Toronto for eight years and is currently on the staff of Riddley School for Boys as well as being a freelance artist. He is an associate of the Royal Canadian Academy, a member of the Canadian Society of Artists and the Canadian Society of Painters in Water Colors.

Delegates wishing to register for the course should contact Mrs. Helen I. Strickland, 226 E. Mary St., Fort William; the Community Programmes Branch, 400 Catherine St., Fort William; the local Recreation Office or the Quetico Conference and Training Centre, Box 1,000, Atikokan, Ontario.

Fireflies are valued for chemicals in their tails, which Johns Hopkins supplies to biological researchers all over the world. The open season on fireflies has begun here, with youngsters receiving 30 cents a hundred for the bugs.

In good years Baltimore's have captured as many as 100,000-lighting bugs, but Dr. McElroy, director of Hopkins' McCollum-Pratt Institute, says twice as many are needed.

Women make up one-fourth of the total employees in Britain's civil service and municipal services.

backache?
rest disturbed?

ARE ALL WIVES FED UP?

When they are troubled by backache, that tired out feeling or disturbed rest, many, many women turn to Dadd's Kidney Pills. These conditions can be caused by excess acids and wastes in the system and Dadd's Kidney Pills stimulate the kidneys and aid their normal action of removing these excess acids and wastes. Then life seems brighter, housework lighter! Why don't you, too, try Dadd's?

Mining Claims Down In Region

Due to a long and late break-up period on the lakes in the area, only a small number of mining claims were recorded in the Red Lake mining division during May. A total of 63 claims were recorded. Of this number 35 claims are situated in the Randall Lake Area, 175 miles north of Red Lake. Fifteen claims representing the key claims of the former Berens River Mine, 110 miles north of Red Lake, were recorded. Eight claims were recorded in Heyson Twp. and five in Bateman Twp., in the Red Lake area.

Indicative of further prospecting activity is the sale of 218 tags as permissible under the new regulations. The new regulations allowing prior purchase of claim tags to be used during the staking of mining claims appears to be of great help to those prospectors working in areas that require costly air transportation.

Since break-up, field crews representing various companies are working in the area.

Yacht Britannia Arrives In Canada

Her Majesty's Yacht Britannia arrived at Point Edward Naval Base, Sydney, N. S., on Sunday, June 14th, and will remain in Sydney until 1.30 p.m. on Thursday, June 18th, it was announced today.

After leaving the Cape Breton seaport the Yacht will sail up the Gulf of St. Lawrence to Seven Islands where it is due to dock at 6.00 p.m. on Friday, June 19th.

The following evening, Her Majesty, who will have arrived in St. John's Nfld., by air on June 18th, will embark on Britannia for Gaspe, the next stop on a cruise that will eventually take the Yacht the entire length of the new seaway.

REWARD PAID FOR FIRE FLIES

BALTIMORE — Johns Hopkins University reports a firefly short-age.

"We've got to get a lot more fireflies," said prof. William D. McElroy.

So the summer evening sport of catching the glow-producing insects, an annual event for Baltimore Children for 11 years, will be taken up in many parts of the

Brides Once Were Marketable Commodities

The American bride sweeps down the aisle with all the self-satisfaction of a modern Diana returning from the hunt with a stag slung over her shoulder.

But this spring ritual wasn't always the victory celebration of the female. And everything about the wedding, including the word itself, is designed to remind her that she once was, at best, a mar-

ketable commodity . . . and at worst, fair game for any strong-armed marauder.

The best man, for example, is believed to be a relic of the days when a man simply carried off a girl who had wandered too far from home. The husband-to-be usually brought along a muscular friend to fight off pursuers, according to The World Book Encyclopedia.

The bridegroom had to hide out for a while until the girl's family got tired of searching for them. This was the beginning of the honeymoon.

Of course, these tactics didn't foster togetherness . . . and may have started the continuing battle between a husband and his mother-in-law.

The practice of buying a wife left a girl with fewer bruises. But it didn't do much more for her pride, especially when some African tribes thought she was worth about one ox.

The betrothal of children was common among early Anglo-Saxons. The bridegroom's pledge of marriage was accompanied by a "wed" - security for the purchase price of the bride. From this comes our word "wedding."

"Giving the bride away" merely represents the time when the father delivered his daughter to her fiancé, who paid up.

Among some modern tribes, however, notions of romance have persuaded the father to renounce his loot, and the bride gets the traditional gifts.

Here's an easy method of adding a new note of interest to the breakfast menu. Add chopped leftover bacon to some muffin batter and use bacon fat in lieu of shortening.

THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO
CONSTRUCTION OF A COMBINED AREA OFFICE AND SERVICE BUILDING AT KENORA

SEALED TENDERS in triplicate, addressed to the undersigned, 620 University Avenue, Toronto 2, Ontario, and clearly marked:

"Tender for a combined area office and service building at Kenora" will be received up to 4:30 o'clock p.m. Eastern Daylight Time on

TUESDAY, JULY 14, 1959

for the construction to full completion of a combined Area Office and Service Building at Kenora. This building will be a one-storey concrete block electrically-heated structure approximately 100 feet by 61 feet with no basement. The building is to be completed in all trades and ready for occupancy by December 31, 1959.

Tendering documents may be obtained on or after June 15, 1959 at the office of the Director of Supply, 620 University Avenue on payment of \$25.00 per set, which sum will be refunded on the return within 14 days after award of contract of each set of documents in good condition. The tendering documents may be inspected at the office of the Daily Commercial News, Toronto; the Toronto Builders' Exchange and the Commission's Regional Office, Port Arthur and Area Office at Kenora.

Each tender must be accompanied by a certified cheque drawn on a Canadian chartered bank, payable to the order of The Hydro-Electric Power Commission of Ontario in the amount of 10 per cent of the total amount of the tender. Provision for the return of the cheque appears in the tendering document.

The successful tenderer may be required to furnish a performance bond in the form approved by the Commission and issued by a bonding company licensed as such in the Province of Ontario and acceptable to the Commission, for 100 per cent of the total amount of the contract.

The lowest or any tender will not necessarily be accepted.

E. B. Easson,
Secretary.

"CAN YOU STOP IN TIME?"

For the three summer vacation months - June, July and August - Canada joins with the United States and Puerto Rico in a concentrated campaign for highway safety called "Slow Down and Live". Sponsored in Canada by the Canadian Highway Safety Conference, the drive this year bears down on the motorist who hugs the bumper of the car ahead, and carries the slogan, "Can You Stop In Time?"

Safety experts have, for years, warned drivers to leave at least 10 feet between cars on the highway for every 10 miles an hour. Driving closer than that creates a terrible risk of sudden smash up with the always possible results: injuries, damage to vehicles, or death. On top of this, the Conference points out, is the peril created by panic that so often

"FOR ACHIEVEMENT" — N. R. Crump (left) president of the Canadian Pacific Railway Company, receives the Julian C. Smith medal "for achievement in the development of Canada" from Dr. K. F. Tupper, retiring president of the Engineering Institute of Canada. The medal, awarded by the Institute, since 1939 to Canadians judged to have done the most in the last year for the nation's progress, was presented to Mr. Crump at the opening dinner of the Institute's 73rd annual meeting at Toronto's Royal York Monday evening, June 8.

arises in the mind of the driver of the car being followed too closely. Seeing another vehicle practically riding his rear bumper, the motorist frequently tries to escape the tail-rider. In his fear, he can crash his car, pile into other vehicles or pedestrians or tangle traffic dangerously.

From coast to coast in Canada, individuals, organizations, industries and associations are set to promote this vital campaign which begins June 1st and comes to an end with the Labor Day weekend. Tourist authorities expect the greatest influx of visitors in Canada's history as a result of an extended promotion campaign, the Royal visit, the St. Lawrence seaway and other attractions. Within Canada itself, the motor vehicle population is increasing rapidly to crowd the nation's highways more than ever and, with expanded road-building programs in almost every province, these vehicles will have more places to go.

Crowded highways arouse impatience and tend to urge the unthinking driver to take chances, the Conference warns. This includes driving too close to the vehicle ahead, one of the most dangerous acts a motorist can do.

The Canadian Highway Safety Conference pleads with the motorist to realize his responsibility, as an individual, in the prevention of traffic deaths and injuries, and the reduction of the multi-million-dollar economic loss that occurs in Canada every year as the result of highway accidents.

"Only the driver at the wheel", the Conference says, "can prevent a traffic accident. It's up to him." The Conference asks him, "Can You Stop In Time?"

WHAT FATHER COULD QUARREL WITH ERROR?

SHELBY, N.C. — The Shelby Daily Star said few of the girls' fathers could find anything wrong when The Star made a typographical error earlier this week.

The error appeared in a story about a sub-debutante ball sponsored by the Junior Charity League. A sentence in the story referred to the sub-debs as "sub-debts".

SHORT ENOUGH TO BE INTERESTING

PLATTSBURGH, N.Y. — How short are short shorts?

The city commission didn't say when it banned them, and the issue is still unresolved.

So when police arrested Lise Fournier, 21, of Montreal, they had her husband measure her shorts on the spot.

Now it's up to Judge Irving Goldman to decide whether 12 1/2 inches is too short. While he pondered the matter, he released Mrs. Fournier on \$5.00 bail.

32 Communities Being Served By Natural Gas

As much as 70,000,000 cubic feet of natural gas is being sent out each day to 32 communities in Northern and Northwestern Ontario. 609 miles of pipe have been laid to date costing \$17,800,000. Northern Ontario Natural Gas Company Limited—officials outlined these achievements in the 1958 Annual Report issued in Toronto.

All major industrial customers are now being served in the combined franchised areas of Northern Ontario Natural Gas Company Limited and its affiliate, Twin City Gas Company Limited including two large manufacturing plants, eleven pulp mills and International Nickel Company of Canada, and during 1958 used up to 67,200,000 cubic feet of gas per day.

In spite of the late fall arrival of Alberta gas via Trans Canada Pipe Lines Ltd., over 4,000 residential customers and 132 commercial - industrial customers were put on line by December 1958. Approximately 97% of the residential customers in the Company's franchised areas are using gas for space heating or in combination with one or more additional appliances.

One of the most modern and unique telemetering systems in Canada has been installed at despatching headquarters in North Bay which measures and records pressures and volumes of gas at 16 points along the 1,100 mile system, thereby helping to maintain high load factor operation and containing demand within contract quantities.

The distribution systems are of the highest standards of construction using welded high tensile strength steel pipe and all welded joints. Careful supervision has ensured that all standards of the stringent codes of the Province of Ontario have been met.

This year the affiliated Company's will spend approximately three and a half million dollars, mostly for customer service lines.

REMODELLING YOUR BATHROOM

Perhaps no room announces the age of a house so much as the bathroom. It is no wonder that so many women cast a baleful eye on this tattle-tale room.

But remodelling is a major job and basic mistakes can be costly.

Collect pictures of bathrooms you admire and make notes of the features adaptable to the size of your room as well as your family needs. This will establish your major structural changes.

Consider the variety of available materials: paint, wallpaper, wall tile, flooring, plastic laminates. You will undoubtedly want real tile - that is ceramic tile - for your walls. You can choose either a 4" or 6" wall tile. Your choice will depend on the size of your room.

Treat yourself to a built-in vanity table. This gives you extra counter space for pretty bottles and your more attractive bath and cosmetic preparations. If your budget permits, plan ex-

tra space underneath the vanity for your linens and towels.

And finally colour. Your ceramic tile is available in a great variety of colours than can blend with, or complement, coloured fixtures. Unless you are particularly devoted to white, do consider both coloured tile and fixtures. But a word of caution. Don't get involved with too many colours.

No more than two basic colours should be used for fixtures, walls, tile and floors. If you choose pale pink ceramic wall tile, then paint your walls above the tile a matching pink. Your bathroom fixtures might be a medium brown or cocoa. Your floor, then, can be light brown or beige, a combination of brown and pink, or off-white.

In selecting accessories (shower curtains, windows curtains, bath set, towels) remember to use only one stripe and one pattern.

All other areas should be plain. For instance, if you like striped towels and patterned curtains - don't use patterned wallpaper!

Use good materials. Labour costs are high - it's not practical to use inferior products. You'll enjoy the easy upkeep of ceramic tile. You'll love the luxury of coloured fixtures. So it you do it at all - do it right!

Sports Editor Dies Was Born In Kenora

VANCOUVER — Andy Lytle, for several decades one of Canada's best known sports editors, died in his home here Friday. He was 75.

Born in Kenora, Ont., he was sports editor of the Vancouver Province for several years and later occupied the same position with the Vancouver Sun and the Toronto Star.

Ten years ago he returned from Toronto and took over his old position at The Sun. Soon after that he wrote features for the now defunct Vancouver Herald, then retired.

"Save now for two weeks with play in '60! The BNS can help you."

YOU'LL PLAY best on your vacation when you're free of money worries. That's why Jack Harmer opened his special vacation Savings Account at the BNS about a year ago. It took just a small deposit each payday to give Jack, Helen, Jeannie and Barbara the time of their lives this year. When you go on your vacation next year, leave money worries at home. Open your BNS Vacation Account now!
