

The Ratuski's Enjoy Stay In Vienna

VIENNA — June 15 — Mayor Peter Ratuski of Kenora and Mrs. Ratuski enjoyed a leisurely lunch today in the Free World's most easterly city, and looked at the Iron Curtain.

They were members of a Canadian delegation, numbering 21, bound for a five-day congress in Berlin, and doing a lightning tour of European cities first. The following were in the delegation.

Mr. and Mrs. P. Ratuski, Kenora, Ontario; Mayor and Mrs. A. T. Aisbury, Vancouver, B.C.; Alderman John O. Booth, Fort William, Ont.; Mr. and Mrs. J. R. French, City Hall, Verdun, Que.; Mr. and Mrs. George S. Mooney, Montreal; Mayor Henry Nicholson, Estevan, Sask.; Mayor and Mrs. Michael Patrick, Windsor, Ont.; Reeve and Mrs. R. J. Pollock, Gwillimbury North Twp., Ont.; Mayor and Mrs. R. John Pratt, MP, Dorval, Que.; Mayor and Mrs. Percy C. Scurrah, Victoria, B.C.; and Mayor Robert M. Simpson, Arnprior, Ont. and two daughters, make up The Canadian party.

Along with 19 municipal officials and wives from the U.S., they were entertained by the Burgermeister of this City of Vienna at the beautiful Kahlenberg Restaurant, situated about 1200' above sea level on a hill north of the city.

Spread out below them was the lovely panorama of the legendary home of Strauss waltzes, wine and laughter, The River Danube, (truly-blue in places) wound its way lazily through the busy streets, offering its calm surface for all kinds of commerce.

But in the distance, the ominous black mounds of the Carpathian Mountains could clearly be seen — ominous because they form a part of Austria's frontier, a frontier that links her with Czechoslovakia and with Hungary.

"Only 40 miles from where we are sitting as free men and women," said Herr Burgermeister Franz Jonas in his speech of welcome, "lies the Iron-Curtain. It is only a short distance, is it not, to dictatorship? Here, in Vienna, the easternmost city of freedom, the question of Democracy is not a theory... it has become our daily task."

The visitors had already seen, during their travels through Lisbon, Madrid, Rome and Venice, he went on, that one of Europe's major problems was the large number of countries in a small area.

"The existence of two opposing

ideologies is within our minds here all the time," the mayor of Vienna said. "but, occasionally, as with the Hungarian Revolution of 1956, it is brought into much sharper relief."

Vienna was a very special city to the western peoples, Herr Jonas observed. It was the most eastern city of freedom in Europe.

"Vienna must never be cut off from the Free World. We are very proud of the fact that our country, Austria, is the only country which was once occupied by the Russians, and which they left."

"For this freedom, gained only four years ago, our thanks are due to those friends of Austria who helped us so much through difficult days, and Canada and the U.S. rank high in our thoughts. We are glad of the chance to express our gratitude to you today."

Each member of the visiting group received a souvenir book of Vienna, and George S. Mooney, executive director of the Cana-

Valerie Saul Wins Three Awards For Scholastic Ability

Miss Valerie Saul, daughter of Mr. and Mrs. T. A. Saul and a grade 12 student at Balmoral Hall Winnipeg, was presented with three awards at the graduation exercises held on Tuesday.

Miss Saul was named winner of the Sir Daniel McMillan award for highest standing in grade 12 French; The E. L. Drewry Scholarship for obtaining the highest average in grade 12 and the award for the highest standing in grade 12 math. She was also presented with her Prefect's Pin.

Prior to attending Balmoral Hall, Valerie was a student at the Kenora High School.

.51 INCHES OF RAIN IN PAST 24 HOURS

In the past twenty-four hours, slightly more rain fell on Kenora, than fell in Keewatin. Actual measurement is .51 inches for Kenora and .45 inches for Keewatin.

The level of the Lake of the Woods is continuing to rise with today's figure, 1058.68 feet above sea level, compared to Monday's level of 1058.57 feet.

THE ROYAL TOUR BEGINS

Queen Elizabeth

Prince Philip

The plane carrying Her Majesty Queen Elizabeth and Prince Philip to Canada landed at Torbay airport at St. John's, Newfoundland at 12.50 today, just five hours and 45 minutes after leaving London. A bright warm sun shone on the city as the royal plane arrived over the airport.

Governor-General Massey and Prime Minister Diefenbaker were on hand to greet the royal couple. The Prime Minister's plane arrived while the royal aircraft was just coming over the airport.

A 21-gun salute boomed out over the tarmac as the plane sped in for a smooth landing. As the first gun was fired, the royal standard was broken out on a flag pole at the airport. A Royal Canadian Navy guard of honor was drawn up as the plane rolled to a stop.

The Queen, followed by Prince Philip, stepped through the door of the plane and started down the ramp at exactly 2.00 p.m. She wore a jade and white print dress with pleated skirt and a topcoat of jade green wool. She had on a jade straw hat trimmed with white velvet.

The Queen was saluted by a military band playing God Save The Queen. She inspected the guard and then returned to the dais where the Prime Minister and Governor-General excused themselves to return to Ottawa.

Before entering her car to head for St. John's, Premier Smallwood introduced members of his cabinet and their wives and other dignitaries to the Queen.

St. Mary's Indian School Winner Of Conservation Prize

A special ceremony was held Wednesday at the St. Mary's Indian School, Kenora, at which Don Start, Forester, Ontario-Minnesota Pulp and Paper Co. awarded a cheque in the amount of \$25 to Grade-seven and eight pupils who prepared the winning entry, Kenora Division, in the Ontario Forestry Association Forest Conservation Scrapbook Contest. Accepting the award on behalf of the pupils was Miss Mary Daniels, leader of the group.

In awarding the prize Mr. Start said that the Company was pleased to recognize the excellent work done by St. Mary's school pupils on their entry.

"It is encouraging to note the interest the young people of St. Mary's are showing in forest conservation, a subject of great importance to all in the Kenora area."

The Forest Conservation Scrapbook Contest was sponsored by the Ontario Forestry Association and was open to all school children attending grades seven and eight, in northwestern Ontario Schools.

Also present at the ceremony at St. Mary's School was Jim Coals, Sec. Mgr., Ontario Forestry Association, Toronto. He spoke briefly on conservation and ad-

ded his congratulations to the school pupils on behalf of the Ontario Forestry Association.

Following the presentation and talk a number of conservation films were shown.

Drownings Claim Three Lives In District

Drownings in the district have claimed three lives in the past twenty four hours.

Ontario Provincial Police report that Ralph Winstowe, 57, of Austin, Minnesota was drowned twenty-three miles southwest of the Manitow Pulp Dam on the English River at 4.30 p.m. Wednesday.

From information received, it is reported that Mr. Winstowe who suffered from a heart condition, was out fishing with his wife and another couple, also from Austin. He leaned over the

back of the boat and it is presumed had a seizure and fell into the water. The boat did not capsize. The OPP were called and the body was recovered at 8.30 p.m. Dr. C. Crispin, corner of Red Lake, stated no inquest would be held.

Second drowning claimed the life of three-year-old Ernie Lee Scul, daughter of Mr. and Mrs. David Lac Scul of Hudson, Ontario. The child fell into the waters of Lost Lake. The body was recovered shortly after the accident. Artificial respiration was applied by Sgt. Miller of the OPP to no avail. No inquest will be held.

Third drowning in the district occurred at Fort Frances, June 16th when 17 month old Alice Boshey fell off a dock and drowned in 14 inches of water. The child is the daughter of Mr. and Mrs. John Boshey of the Lac La Croix Indian Band. No inquest will be held.

The cornet, chiefly used in military bands is a link between the trumpet and the bugle.

The Ratuski's Enjoy Stay In Vienna

(Continued from Page 1)

dian Federation of Mayors and Municipalities, introduced CFMM president, Mayor Robert Simpson of Annprior.

"We have been travelling very quickly," said Mayor Simpson, "and we have seen only a small part of your city so far. But what we have seen, we like very much, and we all invite you to come and visit with us in Canada if you can find the time to do so."

A specific invitation was extended to Buergermeister Jonas to attend the American Municipal Association conference next year in Chicago, which will be attended by many Canadian municipal heads.

Mr. Mooney drew a prolonged round of applause when he said, solemnly: "I hope that all of us have some slight understanding of the importance of this beautiful city of Vienna. Freedom and dictatorship are separated here by so brief a distance, and I am sure we can all think of Vienna as it might have been, and as it is."

Mr. Mooney paused, and concluded:

"Let us pray fervently that your lovely city continues in the future as it is today."

Present at the function, which was performed in traditional Viennese style with white-coated waiters, exquisite china, silver, and linen on the tables, was Canada's Ambassador to Austria, Hungary, and Czechoslovakia - the Hon. J. S. MacDonald.

The delegates, who are tied to a rigid schedule involving heavy footwork during organized tours, and extremely tight air-travel timing, leave Vienna tomorrow for Munich.

After a 36-hour look at the city famous for its Biergartens (and the liquid drunk therein) they will fly to Berlin in time for Mayor Willi Brandt's opening address of welcome to delegates from across the globe.

The five-day affair is called the 14th International Congress of Local Authorities. To recover any lost joie de vivre, after five days of municipal problems, the delegates from Canada and the U.S. will flip through Cologne and Dusseldorf (a half day each) and then recline in comfort with three days in Paris to end the 22-day jaunt.

After the massacre of General Custer and his regiment the Sioux Chief Sitting Bull and 5,000 of his followers fled north into Canada and lived here for five years.

A large part of the surface of the Sahara desert consists of loose gravel or bare rock.

CARETAKER

WANTED FOR

KENORA-KEEWATIN DISTRICT HIGH SCHOOL

STARTING JULY 1st

Steady employment, hourly rate \$1.70 on 4 to 12 midnight shift - \$1.80 on midnight to 8 a.m. shift. Forty-four hour week. Time and a half for overtime. Two weeks holidays yearly. Cumulative Sick leave.

Jim Whyte	Keewatin	7	30	12	.400

Letter To The Editor

To the Editor:

It is the considered opinion of Fish biologists that the handling and return to water of caught and handled fish contribute in most cases to death of fish so caught and handled.

Is it not high time that laws pertaining to the bag limit of fish landed were overhauled and clarified?

If a fisherman after landing his final fish in daily limit continues to fish and lands or handles other and illegal fish is he not then in contravention of the act pertaining to daily bag limit? Could he not justly be designated a fish hog with no thought of rights of other taxpayers and of posterity?

While in company with Forestry officials who were engaged in burning brush and other debris at Longbow Lake garbage dump recently we came upon a large pile of discarded and undressed pickerel and pike. The pickerel weighing up to four pounds and callously disposed of in this manner. It was perhaps too much trouble to hand these fish over to some public institution as they were very likely illegally caught, in the first place.

It is very likely that some camp owner commercial or private is aware of this disgraceful and wasteful act and by keeping silent only lands acquiescence to this disgraceful act.

The discovery mentioned is by no means a rare occurrence and points very clearly to the paucity of fish and game officials in this far flung district.

News reports indicate that Federal and Provincial Governments are making available funds for improvement of Tourist camps. In return owners should see to it that guests obey the Fish and Game laws.

"Conservationist"

In Every Way, Play It Safe, Warning To Fishermen

Toronto—Every season fishermen drown, get lost, suffer mishaps and encounter disaster because some safety precaution was overlooked, or because they were unaware of or neglected one or more of angling's prime rules for safe fishing," the Ontario Department of Lands and Forests reminds anglers.

"In every way, play it safe!" is the warning which prefaces a list of fishing safety "musts" listed in the 1959 "Summary of the Ontario Fishing Regulations" issued by the Department. Here they are:

Land fish carefully! Keep a landing net handy, and use it. Otherwise your hand may slip

on the slimy fish and run foul of a triple-barb hook, with painful results, far from a doctor. Use a heavy glove and long-nose pliers when removing hooks from "muskies" and other such fish.

Cast clear of other anglers! Learn the overhead bait-cast. It's accurate, effortless, safe! Casting bait by the "side-winder" method is for when you're alone!

It's dangerous, of course, to fly-cast directly overhead - a puff of wind may blow the hooked fly in your face. Most fly casters use a "three-quarters" cast - keeps the line to one side a bit though, so be sure your companions are safe on your other side!

Fish only from a firm footing! To fish from a slippery rock or log is to invite disaster; avoid the loose, slippery kind. Test them out with your feet before you mount them - if they don't "feel good", seek firmer footing. Take your time - and move slowly!

Wade streams with care! Never chase a running fish unless you know the stream and its bottom beyond peradventure. A hidden log or rock, a hole, soft sand or sudden drop-off, and you're down - and sometime you won't come up! Just be sure your line has plenty of backing to come with a trout's rushes, and stand still. No fishing is worth an accident.

Boating can be the safest of sports - when owner, operator and passengers make it so. Common sense and courtesy, used at

all times, will make every sunset the end of a perfect boating day.

Know your boat and what it will take under all circumstances. Balance your passengers and baggage. Avoid sharp, fast turns. Avoid overloading. Don't skimp on life preservers. When boarding a boat, step into its centre. Avoid changing places except at a dock or along shore.

Sit down in your boat! Sure,

you can bait-cast much more easily standing up - but you only

increase your chances of taking a dive, losing your expensive tackle, and maybe your life!

Even when fishing shallow waters near shore, learn to fish sitting - or kneeling on the bottom if in a canoe - thus keeping your centre of gravity low and your stability high!

In every way, play it safe!

Weekly Highlights

Dominion Bureau of Statistics

MANUFACTURING

Estimated value of manufacturers' shipments in April was 5% higher than a year earlier at \$1,902,359,000, and in the four months ending April also 5% higher at \$7,184,461,000. New orders during April were 7% above April last year but below

the months' shipments, unfilled orders declining slightly from March and standing 13% below a year earlier. Steel production in the week ending June 6 was down some 3% from the previous week to 86.4% of rated capacity. To the end of May steel ingot output was 20% larger this year than last, over 5% higher in 1957. Pig iron production in the five months was 28% and 5% larger.

PRICES

After five months of fractional declines, the consumer price index edged up 0.2% during April to 125.6 at May 1, putting it a half point higher than a year earlier. The month's increase was due to increases in the "other" commodities and services and the shelter indexes, which were partly offset by another drop in food. Price index of 30-basic industrial raw materials eased downward in the four weeks ending May 22, while the index of Canadian farm products at terminal markets advanced 2.4% with a rise in field pro-

ducts offsetting a slight decline in animal products.

MINING

Iron ore shipments were more than three times as large in April this year than last, putting four-month shipments over a million tons above last year's. Shipments were up substantially to Canadian consumers as well as for export.

MERCHANDISING

April sales of chain stores were 6% higher than in 1958; four-month sales close to 10% higher. All but two of 11 types of chains reported gains in April. Dollar figures for department stores show a country-wide total sales gain of 3.4% in April with higher figures for the week ending May 30 show a 10% advance.

EXTERNAL TRADE

Detailed figures for domestic exports in April reveal increases for newsprint, wheat, uranium ores and concentrates, wood pulp, planks and boards, aluminum and products, farm machinery and implements, and asbestos among the leading commodities contributing to the rise of 6.8% in value.

TRANSPORTATION

Railway carloadings fell sharply in the last ten days of May to bring the month's total under a year ago and leave the five-month total only fractionally higher.

Immunizations against diptheria, whooping cough, smallpox, polio and tetanus may protect small children from these often fatal or crippling diseases.

Children's departments of public libraries in Canada showed an increase of 83 per cent in book circulation from 1951 to 1956.

Watt of this Norfolk community, who has joined the movement at age 90.

Out of Uniform Pursuing Burglar

Seattle — — Ethel Adams, 41, awoke from a sound sleep early Monday to discover a burglar in her bedroom, pawing through her jewel box. Mrs. Adams leaped out of bed and chased the burglar out the

back door. He got away but she stood there screaming for help. In the crowd which gathered was, her daughter, Diane Usher. Diane said Mrs. Adams, "took one look at me and said, 'Mother, get back into that house. 'You don't have any clothes on.'"

Sure to Score with FATHER

MAKE OLFMAN'S CLOTHING CENTRE YOUR HEADQUARTERS FOR ALL YOUR FATHER'S DAY GIFTS. SUNDAY, JUNE 21st IS A BIG DAY FOR FATHERS. BE SURE TO REMEMBER HIM WITH A GIFT FROM OLFMAN'S.

Our selection is good, prices are low and our quality high, and we have every thing to please dad.

Junior Rangers To Include 12 Indian Students

Twelve Junior Ranger positions are being set aside this year for Indian high school students, Ontario's Minister of Lands and Forests, the Hon. J. W. Spooner, has announced. These young men will be among more than 500 students from schools across the province, who will receive appointments to spend their summer vacation time in Junior Ranger camps which will be operated by the Department of Lands and Forests throughout the northern forested areas. The required number of applications have been received and are being processed.

Selection of the Indian students is sponsored by the Indian Affairs Branch of the Federal Department of Citizenship and Immigration whose officials have expressed gratification with the Department's decision to allocate these young men to be part of the highly successful Junior Ranger programme established after the last year.

During the summer the youths are instructed and supervised by staff members of the Department. They perform much useful work and free more experienced per-

sonel for pressing seasonal tasks such as forest fire control.

Commenting on the programme during the past session of the Ontario Legislative Assembly, Lands and Forests Minister Spooner said: "Through this in-

roduction to forestry, fish and wildlife and their many ramifications, we believe we may assist some of the Junior Rangers to more readily decide that a great deal is offered here in the way of a rewarding career. Among these boys of high school age doubtless are some of our future foresters, biologists and rangers, so much need of government and industry. The opportunity we are giving these boys is, I believe, invaluable.

Mr. and Mrs. T. A. Saul, Cindy and Tommy arrived home Wednesday night from Winnipeg where they attended the closing exercises of Balmoral Hall at which Miss Valerie Saul was one of the graduates.

Mr. and Mrs. George Stephens were in Winnipeg to attend the closing exercise and garden party at Balmoral Hall.

OBITUARIES

BOWMAN — Gail and Ed Bowman are proud to announce the arrival of their son, Gary Edwin, on June 17th at the Kenora General Hospital. A web brother for Heather and Kenny.

CARD OF THANKS

We wish to thank all the friends and neighbours of the late Reginald James Scott for the use of cars, the messages of sympathy and the many beautiful floral offerings.

Special thanks to the Ladies of Court Emerald of the Canadian Order of Foresters, the pallbearers, Dr. Davidson, Dr. King, Rev. Brown and the Brown Funeral Home.

Mrs. Scott and Family.

IN MEMORIAM

ALCOCK — In loving memory of our dear Granddad, Wellington J. (Farmer) Alcock, who passed away June 18, 1956.

Silently the angels took Granddad into the mansion above. There shall be rest from earth's toiling safe in the arms of God's love.

Lovingly remembered and sadly missed by your Grandchildren, Gordon, Sharon, Sharlene, Wellington, Julia Ann and Lorraine.

IN MEMORIAM

ALCOCK — In loving memory of our dear husband and dad, Wellington J. (Farmer) Alcock, who passed away suddenly on June 18, 1956.

A beautiful memory dearer than gold, Of a husband and father whose worth can never be told. For we loved him only know, What parting meant three years ago.

A day of remembrance, sad to recall, Without farewell he left us all.

A happy home we once enjoyed, how sweet the memory still. But death has left a loneliness, the world can never fill.

Surrounded by friends we are lonesome in the midst of our joys, we are blue.

With a smile on our lips we've a heartache and a longing dear Dad for you.

Lovingly remembered and sadly missed by your wife Lily, sons and daughters-in-law, daughters and sons-in-law, Eleanor, Gordon, Claire, Douglas, Kathleen, Stanley, Dorothy, Walter and Orval.

ANNOUNCEMENTS

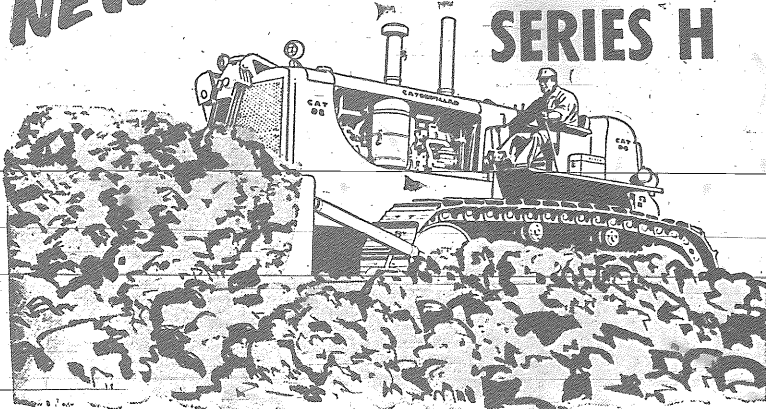

The regular meeting of Lady of the Lake Lodge No. 429 will be held at 8:00 p.m., Friday, June 19 at the I.O.O.F. Hall.

KEN'S STORAGE PLAYS PART IN TRUCKING INDUSTRY SCHOLARSHIPS

The awarding of more than \$12,000 in high school and university bursaries under its "Christmas in September" plan was announced at Toronto today by the ATA Trucking Industry Educational Foundation Inc.

The awards are to go to high school graduates and university students who are in "extenuating circumstances".

The novel Xmas plan was started last Fall. Under its members of the Automotive Transport Association of Ontario, (which represents transport owners in Ontario), agreed to forego their usual Xmas gifts to customers.

Instead they contributed the money to the Educational Foundation. In its first year, 22 member firms made contributions exceeding \$11,000 Ken's Storage Ltd. of Kenora is a charter member of the foundation, and contributed to the scholarship fund.

More members have already indicated they will be contributing this year, and it is expected the annual fund will soon reach \$70,000.

The ATA Trucking Industry Educational Foundation was organized to administer the fund, and for the first year they decided to allot the moneys as follows:

A minimum of ten bursaries of \$250 - \$500 each to students completing Grade XIII and entering university.

Grants of \$1,200 each to Queen's University, the University of Toronto, and the University of Western Ontario.

Grants of \$800 each to Assumption College, McMaster University, Waterloo College, Carleton University and the Ontario Agricultural College.

The high school bursaries are being awarded on the recommendation of the Student-Aid Committee of the Ontario Department of Education and will be given to students enrolling in the first year as full-time undergraduates in courses leading to degrees, or students enrolling at Ontario Teachers' College.

The other funds are to be distributed by the universities concerned.

In all cases, however, there is the stipulation that they are to be given to students who, due to extenuating circumstances, are deserving of financial assistance and could not continue their studies without outside aid.

R. D. Grant, President of the A.T.A. and Chairman of the Foundation, said the reaction to the plan had been quite remarkable.

Christmas cards outlining the

plan were sent out by the contributing carriers to their customers.

The response to this was overwhelming. Typical letters received from shippers said: "Rest assured there will never be any adverse feeling in this firm." "We are proud of being identified with such a worthwhile undertaking." "It has our 100% approval."

Mr. Grant noted a typical case of the special aid concerned a student at St. Michael's College, Toronto.

The student was laid off from his summer job during the steel strike last year, his father was hospitalized, and there were three other school-age children in the family.

In view of his dire need of assistance, officials of St. Michael's College made a special application and a grant of \$300 was made.

Regulations of the Foundation specify that if the need for assistance continues throughout a student's university course, financial aid will be forthcoming.

The high-school bursaries will be awarded evenly throughout geographical areas in the province.

Mr. Grant said that a number of enquiries had been received from other fields of industry regarding adoption of the plan.

SAYS BUSINESS NEEDS THINKERS

MINAKI, Ont. Canadian business hasn't enough "broad-bottomed eggheads" individuals who can sit back and think,

says Dr. D. R. Ladd, associate professor at the University of Western Ontario.

"I once heard that every business should be paying someone to sit with his feet on a desk, stare out the window and think," Dr. Ladd told Manitoba accountants meeting here.

However, there has not been "any great rush" by Canadian business men to put the practice

into operation, he added. But the accountant who takes part in decision-making is a "tolerable substitute" in many businesses, he said.

The Appalachian Trail, a holiday outdoors route in the U.S., extends 2,050 miles from Maine to Georgia.

Nine-tenths of the forests are owned by the people of Canada.

"The Country Without an Army" could well be the nickname for the tiny principality of Liechtenstein, 61 square miles nestled in a narrow valley between Switzerland and Austria. Liechtenstein, an independent nation, with a population of only about 14,000 people, is represented overseas by the Swiss government. Having taken part in no wars for 150 years, it maintains no army. Its capital, Vaduz, manufactures only two items, cotton-textiles and postage stamps. The stamps, one of the country's largest sources of income, are sold mainly to stamp collectors throughout the world.

Boy Scouts Hold Weekend Camp

Last Friday evening, after a choppy crossing over Dogtooth Lake, six Scouts and two Leaders arrived at the Scoutmaster's camp to enjoy a couple of days Scouting. Tents were set up, one for the boys, while A.S.M. Orren Lane set up one for himself. The weather was not what it could have been, but camping this year so far has been under adverse conditions. At least, the rains held off for the weekend, giving the boys a good chance to get in some tests, and to enjoy swimming, even if Dogtooth Lake is quite a bit colder than some of the other lakes around here.

Saturday evening, Scoutmaster George Noble and A.S.M. Ted

Stevens arrived to spend the rest of the weekend with the boys, but they took advantage of the cabin, stating that they were not as young as they once were.

The only complaint heard was from Orren Lane who objected to the woodpeckers starting in at five in the morning, first on a neighboring tree, and then on the ridge pole of the tent. Of course, when one sleeps in the bush, you generally have friends who are curious.

Scouts Robbie McInnes and Robbie Duke passed their Swimmer's Badge.

Boys present at this camp were, Robbie McInnes, Robbie Duke, Robbie Tittlemeir, John Gordon, Ricky Wakeman and Gary McMillan.

Agricultural Lands Under Survey By Lands and Forests

The Department of Lands and Forests in Kenora reports that a very busy week has been spent by the Lands staff preparing maps showing the disposition of farming lands in the District. The maps have been coloured to show patented and privately owned lots, located lots, lots in the Crown which are suitable for agriculture, suitable only for the growing of timber crops or Crown lots for which no suitability reports are available.

With the information obtained from these maps recommendations have gone forward in connection with closing certain areas to future settlement because of inaccessibility, submarginal conditions and poor success of present settlers, the request of Municipalities for a reduction in settlement because of road and school costs and because some areas are more valuable for timber than farming at the present time.

Until the District recommendations have been approved or otherwise it is not proposed to make public the actual areas that are to be closed to further development.

Ontario Forestry Officials Visit Local Schools

For the eighth consecutive year school children of Kenora and district schools have been visited by the Conservation Lecturer of the Ontario Forestry Association with a film-lecture program. The schools visited on this year's tour were:

Monday, June 15 - Keewatin P.S. and Cecelia Jaffray School.
Tuesday, June 16 - North Ward P.S., Evergreen P. S., and West Ward P.S.

Wednesday, June 17 - Central P.S., South Ward P.S., King George P. S. and St. Mary's Indian School.

Conducting the program in this area was Jas. D. Coats, Toronto, Sec. Mgr., Ontario Forestry Association. Films shown included Woodland Manners and Who Was Guilty. Both are conservation films.

The tour in the district was arranged by the local office of the Ontario Dept. of Lands and Forests and the Kenora and District School Board.

Purpose of the annual spring tours is to draw to the attention of the school children the forest fire hazard during the summer months.

From Kenora the tour moves to Sioux Narrows, Nestor Falls, and the Fort Frances area. The Ontario Forestry Association is a non-profit, non-political organization dedicated to the conservation of our renewable natural resources. It is supported by voluntary contributions from government, forest industry, and private individuals.

40 Million Trees Target Of Ontario Nurseries

TORONTO - Surpassing the 35 million forest tree production of last year, the Ontario Department of Lands and Forests has set a target of 40 million trees to be produced from its nurseries across the province in the year ahead.

In addition to planting on Crown lands and other reforestation projects by the Department last year, Ontario Lands and Forests Minister the Hon. J. W. Spooner has reported that approximately 14 1/2 million trees were furnished to owners for planting on private lands last year and it is expected that more than 15 million will be supplied during the fiscal year 1959-60.

"We are continuing to develop means of ensuring that productive forest areas are so treated that regeneration is furthered either naturally or by planting," the Minister said. "It is estimated that some 19 1/2 million trees will be available for planting on Crown lands."

"The number of acres managed by the Department for counties, townships and conservation authorities has increased from approximately 125,000 acres to close to 130,000 acres during the past year. The forests of these areas have been protected and managed and some improvement thinning are being carried out. Slightly more than four million trees were planted on these lands during the year, and we expect to plant four to four and a half million in the fiscal year ending next March 31."

The Minister said also that, to increase Ontario's tree production, land has been acquired for two new nursery sites near Dryden and Swastika.

Mobile art galleries in specially equipped railway coaches will be a feature of South Africa's 1959 golden jubilee celebrations.

Close to 77 per cent of Canada's 575,015 farms in 1956 were worked by their owners.

The Huron Indians were growing corn, beans, squash and pumpkins before the white man came to Canada.
