## GORDON HUDSON, RENOWNED CURLER, WELL KNOWN LOCALLY, DIED FRIDAY

Kenora was saddened Saturday with the news that Gordon Milford Hudson, one of Canada's curling greats and a former Kenora son, had died Friday at his home 259-Garfield Street, Winnipeg.

Known to so many locally, he was born and educated in Kenora, and moved with his family to Winnipeg in 1916. After returning from the First World War, he was associated with the firm of McBride, Cannem and Hudson, retiring a few years ago owing to ill health.

He was only 20 when he skipped the famous Hudson "kid" rink from Kenora, which tied for the Grand Aggregate of the Manitoba bonspiel with Billy Finlay and Rod McAskill. The "kids," Gordon's brother, Cliff, Alex Fidler and Harry Kellberg, were the sensation of that 1914 bonspiel.

Again Gordon piloted his team to the championship of the M.C.A. bonspiel in 1922, 1923, and 1928, and in 1941 he was in another three-way tie, along with his clubmates, Bob Gourley and Leo Johnson from the Strathcona Club. After coming back from the First World War, in 1918 Gordon came to Winnipeg, where he joined the Strathcona club.

Skipping a rink from the

Strathcona Club, he won the Canadian championship in 1928 and 1929, the latter year, Gordon's rink went through without a defeat.

Apart from actual curling, Gordon took a keen interest in the executive side of the game. He was President of the Manitoba Curling Association and also acted as secretary for a number of years. He also handled the ice room for numerous Manitoba bonspiels. In 1949, he was made president of the Dominion Curling Association. As well as the Manitoba Curling Association and his own Strathcona Club, later he was an honorary member of the three associations, and the Kenora Curling Club. He was known from one end of Canada to the other as one of this country's finest curlers.

Surviving are his wife, the former Flora McLean of Winnipeg, one daughter Margaret, one son Bruce, a brother Cliff and one grandchild, Diane Hudson. Funeral services were held this afternoon at 1:30 p.m. in Thompson's Funeral Home. Rev. David Conly officiated. The active pallbearers were Leo Johnson, Lincoln Johnson, Cliff Wise, Ness Wise, Bert Allison and W. R. Haining. The honorary pallbearers: Senator J. T. Haig, R. J. Gowley, John Dutton, A. S. Hames, J. Stoddart, Dr. A. M. Godwin, A. N. Fidler, C. C. Fidler, C. C. Allbutt and G. L. Cousley.

technical broadcasting equipment as supplied by the CBC facilities during the tour, was less than two minutes getting his telephone call through to London. It went west 300 miles to Vancouver, 2900 miles to Montreal and from there by Canadian Overseas Transatlantic Telephone cable.

Talbot, amazed at the hookup arrangements and reception, said the only disturbance was right in London. They were having a severe electrical storm.

## Late Jack Terrell Laid To Rest Today In Toronto

Funeral services were held this afternoon in Toronto for the late Jack Terrell, former well known citizen. Mr. Terrell died in the Toronto General Hospital, Wednesday, July 8th, following a lengthy illness. He was in his 38th year.

He joined the Provincial Police at Kenora, November 1st, 1949 and remained with the force until July 1st, 1952 when he joined the town police. He retired September 2nd, 1952, due to ill health and left Kenora to reside in Toronto.

## New Stamp Marks Plains Of Abraham Bicentennial

A new commemorative stamp to mark 200 years of united effort by Canada's two great language groups in building a modern nation was announced today by the Honourable William Hamilton, Postmaster General. The stamp, which will go on sale on September 10th, marks the anniversary of the battle of the Plains of Abraham which took place on September 13th, 1759, outside the walls of the City of Quebec. The settlement reached after the battle resulted in the creation of a nation, where both the English and French languages and traditions were honoured and protected.

In making the announcement Mr. Hamilton said: "This is a most significant stamp, marking as it does the achievement of two peoples of different language, and different culture, who joined in the creation of one great Canadian nation. In these troubled international times the world may well look for an example to Canada's success over two centuries in developing, among a population which now encompasses large groups of many different ethnic origins, on one hand both unity and understanding and, on the other, respect for one another's traditions and differences."

The new stamp is to be printed in deep red and black. The centrepiece is a group of three maple leaves flanked by the British lion and the Fleur de Lis of France with the word "Canada" centered under the maple leaves. The dates 1759-1959 and the words "Plains of Abraham" and "Plaines d'Abraham" in canson type complete the design. The maple leaves, the 5-cent denomination, the dates and the words "Fostage" and "Postes" appear in black. The stamp is the horizontal type and is approximately 1" x 1½".

The new stamp is the work of Mr. Philip Weiss of Ottawa. Pulp and paper operations have helped to raise the standard of living throughout Canada.

## ROTARIANS ENJOY TRAVEL TALK ON EUROPE, GIVEN BY MAYOR RATUSKI

An extremely interesting and colorful description of a trip to some of the large and historical places in Europe was given to members of the Kenora Rotary Club on Monday by Mayor Peter Ratuski, who recently returned after attending a meeting of the World Congress of Mayors, held in West Berlin. In the comparatively short time available Mayor Ratuski presented his travelogue with keen discernment, humour and able description, and his address was heard with intense interest and appreciation.

President T. A. O'Flaherty was in the chair, and nine visiting Rotarians were welcomed, four from the United States and five from Canada. Frank Kelly of Regina, a former Kenora citizen was present as a guest. Attendance was 92.86% and last week 94.84%. Birthday congratulations were extended to Messrs J. W. Sutcliffe and J. L. Johnson.

Introduced by the chairman Mayor Ratuski covered the highlights of his trip from the assembly in New York where he met Canadian and United States mayors to the return to New York for lunch, after having enjoyed breakfast in Paris.

Visited first was Lisbon, the only port of call in Portugal, where historic places were visited and the first of innumerable monuments photographed. Portuguese were small people, and he watched with interest the trek to markets.

Madrid, capital of Spain provided memorable entertainment and sight-seeing, including a nine hundred year old King's palace, statues, magnificent paintings, peddlers, the grim and revolting bull fight and the tremendous museum.

Four days were spent in Rome, where they saw one of the world's greatest team of fire fighters, the magnificent Churches, Cathedrals, Vatican City, St. Peter's Church, and the famous square, and the tremendous architecture. The trip to Venice proved the roughest of the air trips, and they were entertained at the British and U.S. Embassies, trips by gondolas, and visit to a glass factory.

The visit to Vienna was a very pleasant one, and they saw the famous beer halls and the Emperor's palace of 450 rooms. Praise for the Americans who left everything in good shape as compared to the Russians habit of stripping everything was voiced by Vienna's mayor, and the people were most hospitable. Munich the city levelled by allied bombers was now seventy per cent re-built, and they saw the beer hall where Hitler had organized his first push.

West Berlin, in comparison to East Berlin was a revelation and thirty countries were represented at the Congress of Mayors. All speeches were translated, and in West Berlin they were a free happy and prosperous people. A brief visit to East Berlin saw few people on the streets and policemen at every corner. East Germans were still arriving by the

hundreds and being warmly received and fed. The congress topic was on "Our Youth and Aged People" and the delegates visited hostels for both and were pleased with what they saw, trained teachers, good food, clean quarters, and well cared for refugee camps.

Cologne with its famous cathedral only surviving the terrific bombing of world war two was practically all re-built, and the Ford Factory, Imperial Oil refinery and large textile industry was in full operation. They enjoyed a trip on the boat built for Hitler which was a real luxury boat, almost rivalling the Britannia.

Paris was "Paris" with its historical places and they enjoyed

(Continued on Page 8)

## Northwest Mines Taking Spotlight

Northwestern Ontario, a huge chunk of the province stretching from the Lakehead cities of Port Arthur and Port William to the bleak shores of Hudson Bay, is once more coming into the mining spotlight, states the Northern Miner. It is an area that because of the great distances involved has seen little concentrated effort, and most of that was in prewar days when the lure of gold was the main spark in prospecting effort.

Occupying over 200,000 square miles, almost all the work has been done in the southern section where the principal production has been derived from the iron mines of the Steep Rock area and the gold mines of the Steep Rock area and the gold mines of Red Lake. Now Red Lake, once the frontier limit, is the jumping off spot for the exploration that is penetrating deeper into the north.

Distance is still the big hurdle militating against development of the Patricia Portion which occupies the extreme northwest section and covers over half of the area. But, scarcity of rock outcrops is another factor that has discouraged the prospector. The modern tools, such as aerial surveys, however, are encouraging the new approach.

The Province of Ontario's geological survey has helped with its new geological map, published last month, revealing the latest known data on the location of the greenstone belts and other favourable rocks. And, in progress now, is the largest government sponsored, airborne magnetic survey ever carried out in Canada. It covers a 20,000 square mile block lying east of Red Lake, west of Nakina and stretching from the CN railway north to the 53rd parallel which crosses the northern part of the province in the vicinity of the Attawapiskat River which flows into James Bay about half way up its west shore.

## Magistrate's Court

Three motorists, two from Kenora and one from Rainy River, charged with impaired driving were each fined \$100 and costs or thirty days and had their driving licences suspended for three months.

Speeding on the highway cost a Winnipeg man \$25 and costs, while two Kenora residents each paid \$5.00 for failing to pay parking meter fines.

Three youths charged with obtaining liquor while under the age of twenty-one were each fined \$10 and costs or seven days. Five first offence drunks each paid \$10 or seven days while a second offender was fined \$50 and costs or 30 days.

A Nova Scotia man charged with vagrancy received a \$10 fine or 7 days. Attempting to steal a ride from the CPR resulted in a man of no fixed abode being fined \$20 or 10 days.

A Dauphin man who tried to get credit under false pretences with the intention of fraud was fined \$10 and costs or five days.

### LAKELAND TRIPS DINGWALL'S 11 - 2

An all-out effort by Lakeland gave them a timely win over Dingwall's Saturday night and put them back into play-off contention. Dennis Lajeunesse work-

ed four scoreless innings for Lakeland and gave up only one hit, a first inning single by Don Brown. In the meantime his mates were rapping loser Johnny Hodges and his successors Don Brown and Dennis Misurka for six hits and eleven runs. Lakeland started early and scored in every inning but the last. Johnny Lunny singled twice for Lakeland, had two RBI's, scored three runs, and even stole home once to lead the offensive attack. Gordon Karaim batted in four runs on two infield outs and a double, and came on to finish the game for Lajeunesse in the fifth. Dennis Misurka had the only other Dingwall hit, but a big one. The big boy hit one with Don Brown on first base in the sixth that was still going up when it passed over the fence.

	R	H
Lakeland	132410	11 6
Dingwall	000002	2 2

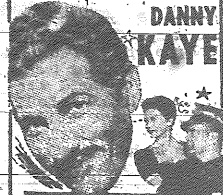

The win for Lakeland was a popular victory because it serves to tighten the league standings. Even Doug Mackie, manager for Dingwall's thought it was nice but he didn't think they should have started with his team. Lakeland has a chance to really tighten the race up when they tackle one of their main opponents for a play-off spot. On diamond "B" it is Lakeland vs Lions. Over on the other diamond Armo-Kenora Cleaners are looking for a win to stop their losing streak when they play Dingwall's.

All tourists are reminded that it is the responsibility of boat owners or those who make a business of renting boats, that their craft are properly equipped to satisfy the regulations listed in this booklet. With this knowledge, the tourist should insist that all the necessary equipment be supplied before renting the boat.

A boat brought in by a United States tourist and not remaining in Canada is not required to be licensed provided the usual Customs permit is obtained.

## Britain's Growth Without Inflation Lesson For Yanks

New York — There's a lesson for Americans in the rise of Britain from the ashes of war to the "threshold of a period of sustained (economic) growth without inflation," the Federal Reserve Bank of New York said today.

The British have recognized that price stability can be maintained in the long run only if output expands as rapidly as income, said the bank's June business review.

The lifting of controls on instalment credit in the autumn of 1958 and the reduction in income and purchase taxes in the April budget have stimulated personal consumption, noted the bank.

Public and private investment programs, meanwhile, have accelerated, home building has been rising and exports have not only recovered all the ground lost in the 1957-58 recession but have climbed to a new peak.

The bank added that the rise of investment in Britain in recent years has greatly increased both the capacity and the efficiency of industry.

Canada produces three and a half times as much newsprint as any other country.

## NEWS FROM HFC:

# Bigger loans for today's greater needs

Borrow up to \$2500 and take up to 36 months to repay

Compare HFC's service with that of other lending institutions

**SURPRISINGLY LOW INTEREST RATES.** HFC's charges on loans over \$1500 are equivalent to less than 8% per year discount on 30 and 36 month repayment plans.

**LOWER MONTHLY PAYMENTS.** HFC's new long-term loans mean smaller payments that fit your budget better.

**BANKABLE SECURITY** not required.

**INCOME INTERRUPTED?** If you can't make a payment promptly when due, you get helpfulness and understanding in rearranging your payment schedule.

**BACKED BY 81 YEARS' EXPERIENCE.** Unlike most lending institutions, HFC's only business is making instalment cash loans. That's why HFC is best equipped to serve your immediate wants and needs.

AMOUNT OF LOAN	MONTHLY PAYMENT PLANS			
	36 MONTHS	30 MONTHS	20 MONTHS	12 MONTHS
\$ 100	\$...→	\$...→	\$ 6.11	\$ 9.45
500	...→	...→	30.01	46.72
1000	...→	...→	41.45	63.10
1500	...→	...→	68.62	93.10
2000	72.30	83.27	116.49	146.66
2200	79.53	91.60	128.14	201.09
2500	90.38	104.09	145.01	250.19

How much do you need?  
Phone or drop in at any HFC office today.

Above payments include principal and interest, and are based on normal repayment, but do not include cost of life insurance.

## SAFETY AFLOAT

**In Brief for Your Boating Safety:**  
To reduce the risks inherent in boating and make for more enjoyable times afloat:

**DO...**

- Head for the closest safe anchorage or landing when a storm threatens and avoid the temptation to "buck it"
- Observe the regulations regarding the presence of lifesaving equipment, using that stamped or labelled "Department of Transport"
- Assist any boat in distress. The waving, in a vertical circular motion, of a piece of light coloured material by day or a light by night is a distinctive distress signal.
- Slow down when passing dredges or waters where divers may be working.
- Learn the Rules of the Road and practise them.
- When operating at night carry a few red flares in a watertight container. The red flares used on railroads are efficient and inexpensive.
- Keep bilges free from gasoline, oil, etc., and properly ventilated.
- Check battery and its ventilation.
- Respect your boat and know its limitations.
- Follow the regulations regarding fire precautions and equipment.

**DON'T...**

- Stand up or change seats in a small boat, particularly when the boat is full. If necessary, crouch low and keep your weight on the boat's centre line, holding on to both gunwales.
- Operate near swimmers.
- Mix liquor and boating.
- Use a leaky or poorly built boat.
- Cruise fast enough to create a dangerous swell when near small boats.
- Leave your steering wheel or tiller unattended especially when under way in harbours or narrow channels.
- Throw garbage overboard in harbour.
- Blow your horn or use spotlight unnecessarily.
- Wait until last minute to signify your intentions of obeying the Rules of the Road.
- Anchor too close to other boats.
- Cruise at high rates of speed near an anchorage.
- Hold impromptu races with other power craft, since canoes and other smaller craft are endangered by the wash.
- Attempt to swim to shore if

your boat is swamped or capsized. Hang on to the boat until you are picked up.

**U.S. Tourists**

Boats operated by United States tourists in Canadian waters must comply with the regulations which apply in these waters. Boating equipment approved by the U.S. Coast Guard is acceptable provided it is in satisfactory condition and in sufficient quantity; it must be used

### FISH

Lonely and deserted wives, with husbands who are "going steady" with a fishing rod, often have fuel added to the fire of their summer wrath. Providing that the family fisherman has been lucky and actually caught a fish, which "didn't get away," he is likely to come back with it and suggest that he has two or three guests in mind to share in the eating of it.

Fish can be a very prosaic item on the table - or it can be exciting and different. Few hostesses think in terms of fish as a main course when planning for guests, but if forced into it through husbandly pride, why not do a real job of playing the gourmet chef? We suggest that the fish be dressed with a savory stuffing and served with a delicate fish-lemon butter sauce. It could be the "rave" meal of your entire summer.

The stuffing is the magic difference which gives this dish the touch of the unusual. To the bread cubes, celery and seasoning, is added one of those convenient packages of onion soup. The subtle combination of toasted onions and beef stock complement the fish flavour for palate intrigue.

Whitefish, bass or pickerel are all excellent with this stuffing. First split and bone the fish, then stuff it and fasten together with skewers. Bake it uncovered, in a long pan or baking dish. French chefs use a deep, elongated baking dish for fish. If you have a pretty oven-bake dish that can be wrisken from the oven to the table, use it by all means. A little garnish of watercress, parsley, lemon slices or radish roses also adds that touch that builds a reputation.

This recipe may help to share the family glory for fish prowess! Use it and see what happens!

### BAKED STUFFED FISH

1 - 5-pound pickerel, whitefish or bass

Salt and pepper

Clean fish and season with salt and pepper. Prepare stuffing, stuff fish, then fasten with skewers (do not lace). Place in a long baking pan and bake uncovered at 500 deg. F. for 10 minutes; reduce heat to 400 deg. F. and bake 20-40 minutes, allowing about 10 minutes per pound total time. Fish is cooked when it may be flaked with a fork but is still moist. Serve with lemon butter to bake 8-10

servings.

**STUFFING**  
1 cup celery minced  
½ cup boiling water  
6 tablespoons butter or margarine  
1 quart day-old bread cubes, toasted  
3 tablespoons packaged onion soup  
1 teaspoon dried sage  
½ teaspoon pepper  
Cook celery in water three minutes. Melt butter and add toasted bread cubes, mixing lightly. Add packaged onion soup, sage and pepper, then toss. Pour celery and water over bread cubes, cover and let steam 10-15 minutes, stirring occasionally.

## Hydro Studying Nuclear Sites

In keeping with the Commission's undertaking with Atomic Energy of Canada Limited to provide a site for Canada's first large-scale nuclear power plant, Ontario Hydro Chairman James S. Duncan announced today that options have been taken on several properties in the area some 15 miles north of Kincardine on

### Lake Huron.

Foundation conditions and other factors determining the suitability of the site will be investigated immediately.

While other locations are being considered, Mr. Duncan stated, several factors make the Kincardine area exceptionally favourable for the establishment of a nuclear-electric generating station. The final selection of a site will be dependent on approval by the Atomic Energy Control Board.

The announcement follows an agreement reached last month between Ontario Hydro and A.E.C.L. At that time it was stated that full-scale work will be pressed forward on a plant of some 200,000 kilowatts with the object of having it in service in 1964 or early in 1965. Cost of the project is estimated at \$60,000,000.

When in operation, the station will be staffed by Ontario Hydro, which will purchase the power generated. After it has been established that the station can be suitably operated as part of the Hydro system, the Commission will purchase the plant.

The decision will decrease Hydro's dependence on fuel brought into Ontario as well as provide a further market for uranium.

Of prime importance to Ontario Hydro is the fact that the basis on which the plant will be purchased will permit production of power at a cost competitive with that produced by modern coal-fired plants of similar size. The Commission will thus fulfill its obligation to provide power at the lowest possible cost and at the same time will have contributed to nuclear pioneering work in Canada.

## APPROPRIATE ANSWER

Colorado Springs — Delegates to the girl scout senior roundup under way here were asked: "What kind of a career do you want?"

In the appropriate space, Eileen Lucier, 16, of Stoughton, Mass., answered: "A successful one."

SERIES F  
**TRAXCAVATOR**  
out-produces all other excavator-loaders in its class!

Another **PROJECT PAYDIRT** development: to bring you the best equipment

Meet the No. 933 Series F Traxcavator! It's designed and proved to establish top standards of production in its size.

**1½ Cu. Yd. Bucket gets heaped load faster**—Series F has a 1½ cu. yd. bucket... a smaller, compact engine... stronger power train... and the operator features to use this extra capacity.

**Operator conveniences mean greater efficiency**—Plenty of leg room, larger seat, convenient controls, in-seat starting controls help the operator put in a full day's work with less fatigue and increased efficiency.

**Power train designed for faster production**—The No. 933 Series F has 4 forward and 2 reverse speeds including a high reverse—3.67 MPH—for faster cycles.

Final drives and undercarriages are extra-strong for big loads and tough work. And, of course, the exclusive Cat Oil Clutch that gives up to 2000 hours without adjustment is standard.

Stop by and talk over your loading-materials handling requirements. We'll show you how well the Series F will handle them!

Mr. and Mrs. Oscar England of Toronto are visitors in town, visiting relatives and renewing acquaintances.

Mr. and Mrs. Gerald Sampson and children Lynn and Stewart of Toronto, spent a few days visiting with his parents, Mr. and Mrs. J. Sampson.

Mr. and Mrs. Frank Harper and daughter of Wachope, Sask., are visitors at the home of Mr. and Mrs. E. Everard, St. Clair St., Keewatin.

Mr. George Lockhart of Kenora left by TCA from Winnipeg for Vancouver, B.C. on a two week's business trip.

Miss Cathrine Toole arrived home from Montreal, to spend the summer months with her parents. Miss Toole will again teach in Montreal this coming year 1959-1960.

Mr. Albert Wray of Atikokan visited at the home of his grandmother, Mrs. Marjory A. Brinkman, 714 4th Ave. S., on Sunday.

Miss Esther Braaten was a visitor to Vermilion Bay Sunday.

Dean L. M. Watts of St. Alban's Pro-Cathedral, Mrs. Watts and family have left on a three week's vacation trip. While the Dean is away, Reverend S. G. Tomes will be in charge.

In spite of mud and rain a good time was had by all at the St. Alban's Church Camp the past week which was held at the Kinsmen Camp.

There were forty-two at camp, made up as follows: four boys, four girls and one leader from Piney; one boy and five girls and one leader from Rainy River; one girl from Terrace Bay; one boy from Minnitaki; 3 girls and two boys from Keewatin; two boys and thirteen girls and two leaders from Kenora. Also the cook from Sioux Lookout and her assistant from Piney.

Mrs. Einar Erickson of Ear Falls returned home on Friday after spending a few days in Kenora.

Mr. and Mrs. Frank Richards of Kenora have been visiting at the home of Mr. Richard's parents, Mr. and Mrs. E. J. Richards, Red Lake.

Miss Wilkens and Miss Diana Garver of the Anglican Sunday School Van have been in the Red Lake area and spent the past week at Eagle River.

Mrs. Weare, Red Lake, has been spending a short time in Kenora and will leave to spend a holiday in Sarnia, Ontario.

M. Bellamy was a visitor to Rainy River and Fort Frances during the week.

**CARD OF THANKS**

Sincere thanks and appreciation is extended to all those who visited or helped in any way during Kenneth's stay in hospital.

Gladys and Deibert Ames

Pulp and paper production exceeds in value that of wheat plus all other grains.

Some 10 per cent of all the freight cars loaded in Canada carry pulp, paper, or pulpwood.

REDDITT

By Mrs. F. Ferguson

Mr. and Mrs. W. Duggan and Mr. and Mrs. Homer Duggan of Redditt attended the wedding of Mr. W. Duggan's nephew in Winnipeg on July 4th.

Beverly and Ronnie Delo of Willem Ont. are spending their holidays with their grandparents Mr. and Mrs. W. Mulholland of Redditt.

Mr. James Latimer and daughter Isabel returned Wednesday from a ten day visit with Mrs. Hass and Robert Latimer at Sioux Narrows.

KEEWATIN NEWS

Mrs. Kember

F/O E. Williamson of Kenora and Instructor Dale Toms of Kewatin along with sixteen Air Cadets from Kenora and Kewatin left recently for the summer training camp at Sea Island, British Columbia.

Mrs. J. White and family of Balmertown are visiting at the home of her mother, Mrs. C. B. Gordon.

Mrs. Gordon Otter and children are in Winnipeg while son Graham is undergoing surgery in the Children's Hospital.

Mrs. Ervin Olson and daughter Maureen have returned home after spending a three week's vacation with her parents, Mr.

and Mrs. W. J. Martin at New Westminister, B.C.

Miss Judy Wilson has arrived from Vancouver, B.C. to spend her summer holidays with her grandparents, Mr. and Mrs. J. MacGarva at their summer camp at Spruce Lake.

Mr. and Mrs. W. Case have returned to Dryden after visiting at the home of Mr. and Mrs. H. J. Rolston.

Miss Coralie Anderson of Camp Nemogosenda, Chapleau, Ontario, is visiting at the home of her grandparents, Mr. and Mrs. D. Anderson.

Miss Eleanor Preece of Winnipeg spent the weekend at the home of her grandparents, Mr. and Mrs. A. E. Mitchell.

Mr. Henry Schroder of Winnipeg was the guest at the home of Mr. and Mrs. A. E. Mitchell over the weekend.

PLAN TEST CASE FOR BAILIFFS

Toronto — Police said Wednesday the attorney-general has sanctioned a test case to decide whether bailiffs are peace officers within the meaning of the Criminal Code, particularly in connection with repossessing instalment purchases.

In the test case police are charging bailiffs Roy Wallace, 35, and Edward Hall, 23, with impersonating peace officers when they attempted to repossess a sewing machine from Kenneth Leach, 30.

A justice of the peace recently granted a summons charging Leach with "assaulting peace officers."

Police said officers called to a

house where people resist bailiffs are "embarrassed" because they don't know what action they can legally take.

TWO BROTHERS HELD WHILE THIRD SOUGHT

Kansas City — Jack, Sam and William Henley are brothers with a strong family resemblance.

Police Sergeant Robert Dow and Detective Norman O'Hare went to their home Wednesday to arrest Jack, wanted on a charge of breaking and entering. They found two men.

"This one guy says, 'you'd better go ahead and give up, Jack,' said Dowd. 'We took him in.'"

At the station the man said he wasn't Jack. He was William and his fingerprints would prove it.

"We tore back out there but when we got there the real Jack Henley was gone," Dowd said. They found Sam, however, and arrested him.

William and Sam were held for investigation of aiding and abetting the escape of a fugitive. Police are still looking for Jack.

Pulp and paper making, a major world enterprise, is Canada's national industry.

The total annual production of newspaper paper in Canada far exceeds six million tons.

There are 55 pulp and paper plants in the province of Quebec and 44 in Ontario.

All Canadians benefit, directly or indirectly, from pulp and paper operations.

The Mediterranean, the largest landlocked sea in the world, is the remains of a much larger body of water. A few million years ago, this greater sea, called Tethys by geologists, extended eastward across southern Asia. Later the shores of Tethys were thrust together as the earth's crust contracted. Much of the sea bottom was pushed up and wrinkled to form such mountain systems as the Alps, Apennines and Atlas.

**"It's Nonsense", To Say Canadians Stir Up South**

Talk about Canadian newsprint-makers stirring up strife among southern U.S. paper mill workers is "utter nuts," says P. M. Fox, president of St. Lawrence Corp.

The head of Canada's sixth largest newsprint producer was referring to remarks made by Millard Cope, chairman of the Southern Newspaper Publishers association.

Mr. Fox said Mr. Cope may have spoken "half cocked" after reading excerpts—perhaps reported out of context—from recent remarks by D. W. Ambridge, president of Abitibi Power and Paper Co., Canada's No. 1 newsprint-making firm.

Mr. Ambridge is on holiday and not available for comment. Commons Committee.

The tangle started May 19, when Mr. Ambridge discussed newsprint industry conditions and export sales with a House of Commons committee.

At one point, he said the U.S. employs "slave labor" in the forest industry in the southern states.

Said Mr. Cope in a speech at Lufkin, Tex.: "The Canadian newsprint industry abhors the competition of your Southland Mills (a paper making concern there), and is on record as such in the House of Commons." "Poisoned Minds"

Continued Mr. Cope: "An industry spokesman has poisoned the minds of Canadians concerning 'slave labor' in newsprint mills of the south.

"You do know—maybe because we do have a free press—that the wages of southern mills exceed those of Canadian mills." He said Americans must stand on guard against such racial criticism, coupled with the other unjust complaints. "The southern mills have come

under "bitter attack" from a segment of the Canadian industry he said.

**Stirs Up Strife**

"They have reached the point," Mr. Cope said, "that an open threat, in testimony before the House of Commons, has been made to purposely stir up strife among employees of southern newsprint-mills."

Commented Mr. Fox today: "Roughly, southern papermill wages are not higher than in Canada." He said a wage increase was granted by mills there recently to bring wages up to the west coast level.

All that the newsprint industry in Canada has done about the new southern U.S. mills was "to warn our people that you have got real competition down there," Mr. Fox said.

## Next 6 Months Even Better For United States

New York.—Hardly any of the experts thought that the first six months of 1959 would turn into such a boom for American business.

Despite many uncertainties, the second half just getting under way looks even better.

So lusty is the U.S. economic health at the halfway mark that many Americans find it difficult to remember the recession woes of last year.

Last week signalled the start of the usual summer let-down in manufacturing. But things are booming in many other lines.

Take a look at the building industry, which employs more people than any other.

**Building Boom**  
Construction outlays set records. If the same rate holds through the next six months (some economists say it will be higher), construction spending for all of 1959 will total more than \$55,000,000,000.

That would be a gain of more than 12 per cent, compared with 1958.

Or take a look at the consumer.

Consumers spent \$102,500,000,000 at retail in the first six months and merchants are betting on

a total of \$210,000,000,000 for the full year—a gain of five per cent.

In most parts of the country, consumers who were timid and cautious a year ago now are going into hock with abandon via the instalment plan.

**Overbuying Problem**  
What's more, they're paying off their old debts faster.

"For the first time in a year," the American Collectors association states, "overbuying has displaced unemployment as the chief reason for consumers' paying problems."

Another bright spot in the developing boom is vacation travel. Resort and motel owners are primed for their busiest summer yet. Trans-Atlantic airlines and steamship companies say business has never been better.

**Cooling Boom**  
Auto sales are perking along nicely. There's been a slight slowdown in the past two weeks but the motor moguls of Detroit are revising their 1959 sales forecasts upward.

Electric power companies are in clover. Consumption of electricity last week was the highest on record. Airconditioning is common in department stores and supermarkets as it was in theatres and office buildings a few years ago—kept electric meters humming.

There never was a boom without rough spots and the current one is no exception.

There are pockets of unemployment here and there—not

ably in the eastern coal fields, and in some northern industrial centres. Automation has eliminated some jobs.

## Rotarians Enjoy Traveltalks

(Continued from Page 1)

every minute of it, including the entertainment available. The moment to General Foch world war one victorious general was outstanding. The trip home was uneventful except for the speed of transit, and he had enjoyed every minute of his trip. He was grateful to the council and citizens for allowing him time off to make this memorable trip.

President T. A. O'Flaherty spoke in appreciation stating that the attention given was indicative of the keen interest and appreciation of the members.

## BORROWED SUIT LEADS TO ARREST

London — The luck of 33-year-old Terry Spencer took a turn for the better for the first time since he borrowed his father-in-law's suit.

In an inner pocket of the suit, Terry found £100. He headed for the race track.

After losing the bulk of the money, Terry tried a change of luck at a dog track. There he lost the remainder of the stake.

A detective told a court Wednesday: "To win back the money he had lost, he pawned the suit for £3—and gambled that away too."

Terry pleaded guilty to stealing the money and helping himself to the suit without permission. He promised to work "extra hard" to pay back his father-in-law.

The court gave him a conditional discharge—allowing him to go free as long as he paid the money back.

Management and labour relations in the pulp and paper industry have been harmonious.

## EATING FOOD MADE HIM DRUNK

Sapporo, Japan — With one Japanese it wasn't something he drank that made him drunk. It was everything he ate. He was a walking distillery.

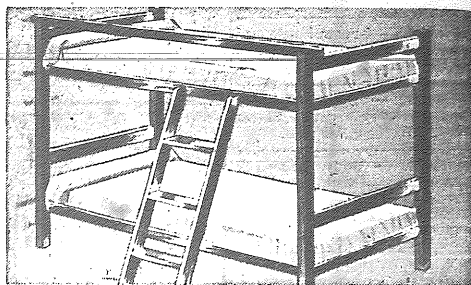

The patient, identified only as Mr. "O," was a 46-year-old farm association executive from Hokkaido who complained of chronic drunkenness though he didn't drink.

Doctor's found O's stomach working away like a high-powered Tennessee mountain still. It contained a type of extremely quick-acting yeast and transformed much that O ate into alcohol.

It was embarrassing. But O didn't worry too much about it until last year. Then things got so bad, he couldn't walk a straight line after supper.

Physicians treated him with tricomycine and finally got him on the wagon.
