PARK DEER TAMER THAN CATTLE

The deer are blocking traffic in Algonquin Park these days. Even the odd bear is coming onto the highway to solicit food from tourists. Although officials warn motorists not to feed the bears on the road or anywhere for that matter and not to make sudden stops at the sight of deer, tourists continue to stop. How can you resist when the deer are so tame they'll eat out of your hand.

Tourist Traffic On The Increase At Border

Summer travel figures just released by Canadian Customs officials at Fort Frances indicate the tourist season so far is running ahead of last year.

There has been a total of 20,116 vehicular travel permits given American visitors by local Customs officers since May 1. The total for the same period last year was 19,575, lower by 541 permits.

Until July 15, this month saw 5,695 tourist parties cross the bridge into Fort Frances for Canadian visit of 48 hours or longer. This represents a gain of almost 400 over the first half of July, 1958.

Taking the start of May as the beginning of the tourist season, totals by months compare as follows: with 1958 figures in brackets: May, 4,682 (4,691); June,

9,739 (9,598); July 1-15, 5,695 (5,286).

Biggest day for the Customs checkers at International bridge this summer was July 4. On the U. S. Independence Day, there were 682 American tourist parties welcomed.

July 4 was tied by June 20 which also brought 761 tourist cars over the bridge, and other days were only slightly less busy for the boundary officials.

Changing Guard At Ottawa Colorful Ceremony

Ottawa — A new kind of red coat is attracting the attention of visitors to Canada's Capital this summer.

Red coated RCMP officers have long been a tradition in Parliament Hill. Now a daily half-hour ceremony — the Changing of the Guard — performed by scarlet-uniformed members of the 1st Battalion, Canadian Guards is establishing a new tradition that is proving to be a popular tourist attraction.

Each morning, the steps leading to the Peace Tower and the parapet overlooking the green-carpeted lawns in front of the Parliament Buildings are lined with visitors as the colorful ceremony takes place.

Shortly after 10 a.m. more than 40 members of the unit, in full ceremonial dress, and accompanied by their bands, march on to Parliament Hill. The ceremony takes about 30 minutes to

complete and includes a march-past with the salute taken by a senior officer.

The 1st Battalion, Canadian Guards, which performs this Ceremony on Parliament Hill is providing the Governor General's Household Guard at Rideau Hall. This unit is stationed at Petawawa Military Camp and is commanded by Lt. Col. R. S. Graham, C.D. of Winnipeg.

Another feature of interest to Ottawa visitors during the summer months is the band concerts that are being held twice weekly. The band concerts which are also held on Parliament Hill, take place on Monday and Friday evenings and are under the direction of Capt. J. M. Gayler.

These ceremonies were authorized by the Government as a result of a brief submitted to the Prime Minister by The Ottawa Board of Trade.

Marathon Swim Feature Of Annual Rotary Picnic

One of the most popular events of the year for old and young will take place on Monday, August 3rd, the annual Civic Holiday, when the Rotary Club of Kenora will stage their annual Community Picnic at Conroy Island Beach, and a host of events with prizes and all the trimmings will be run-off with the usual fine organization work of supervision being carried out by Rotary Club members.

Top event this year will be the Marathon Swim which will be staged this time in front of the beach over a measured course, so that all the spectators can watch the progress of the race in its entirety, and cheer on their respective favourites.

There will be the usual fine program of field sports, water sports, games and entertainment, and lots of excitement and fun for everyone.

In the next few days the entire program of events will be published, and also the times that the Ferry Argyle and other boats will be available to transport citizens to and from the Beach.

So watch for the program announcement and make your plans accordingly. Take the family to the picnic, take along your own lunches if you desire, and have a real afternoon of fun and entertainment.

ANY OLD STRING FOR NIPPY BIT

Memphis, Tenn. — A lady walked into a music shop to buy a guitar string.

"What kind?" proprietor Neil Hakala asked, "electric or acoustic?"

"Oh, just show me some," she said.

Embused, Hakala brought out a box of strings and she examined them critically, finally selecting an acoustic second string.

"But how, Hakala queried, did she know it would be right for her guitar?"

"Oh fiddle," the woman replied. "I don't care if it even fits a guitar, I want it to slice cheese with."

The first of Canada's national parks, the Banff park in Alberta was established in the Rockies in 1885.

The first authentic record of Canadian maple syrup and sugar production is dated 1705.

MID-CONTINENT STUDY OF TOURISM CONTINUES

Northwestern Ontario was well represented at the second meeting of the Mid-Continent Association held in Winnipeg on Thursday, with representatives from Manitoba, North Dakota, South Dakota, and Minnesota also taking part in the day-long discussions, as guests of the Manitoba Tourist and Convention Association.

The Association, formed to discuss ways and means of not only bringing in more vacation visitors, but of inducing residents of all five Commonwealths to travel more extensively in visiting other sections of the five group area, discussed at some length suggested circle tours, which would outline week-end week and longer visits to see the attractions of the other Commonwealths. It was stressed and substantiated by films that in the five Provinces and States we have a complete vacation centre, with thousands of lakes, rivers and streams, farm lands, mountains, large cities and attractive towns, and unexcelled vacation opportunities and facilities.

M. G. McMullon, manager of the Manitoba Tourist and Convention Association pointed out that co-operation between all 5 States and Provinces would be a means of bringing in more tourists; would cut down or lessen the loss of tourist dollars to the areas; create a greater knowledge of our neighbouring States and Provinces; take advantage of more cars, longer vacations, better highways, increased outdoor activities, rise in incomes, longer vacations and vacations with pay, and bring about improvement in our tourist attractions by an exchange of ideas.

A very interesting suggestion made by Paul Besselievre, manager of the Blackhill and Badlands Association of South Dakota, was that of education tours for high school students. Invitations had been sent to the high schools of seven surrounding states and the response had been terrific. A special booklet had outlined attractions, privileges, special rates, conducted tours, & also historic outlines, and an enthusiastic youngster could not only enthrall others, but convince his parents where they should spend their next visit.

Tourism could also be related to Industrial Development said Mr. Larry Schneider of North Dakota for no industry had ever come to a community unless

someone in management had been there first to view the area. The trend was towards decentralization, and all the areas needed industries.

Mr. Lee Van of the Arrowhead Association of the Duluth area, outlined a tourist survey which had been made there by professional surveyors at a cost of \$30,000 and it had revealed much valuable information which he gave out in the report to visiting delegates.

Other suggestions included immediate exchange of literature, exchange of visits by officials in the early fall, a hospitality week or month in which all citizens act as a welcoming committee to visitors and really extend the glad hand. This had been done in North and South Dakota with great success and visitors have been entertained in homes and on farms, and valuable friendships formed.

The Housing, Handling and Humouring of Tourists was also stressed in an address by Mr. Paul Besselievre who stressed the code of ethics of the South Dakota Motel Association as follows:

- (1) Render courteous service.
- (2) Provide clean and sanitary accommodation.
- (3) Charge reasonable, equitable rates.
- (4) Give full value for money received.
- (5) Maintain respectable establishments.
- (6) Be honest and reliable.
- (7) Prevent and eliminate hazards.
- (8) Avoid unfair competition.
- (9) Co-operate and participate in community affairs.
- (10) Maintain the policy "one for all and all for one."

Committees on Constitution and Program and Budgeting were named, with all delegates on the two committees.

All Star Games Today, Sunday

Local ball fans will this week end witness top notch baseball in the Kenora area, when the Kenora District All Stars meet the Warroad Warriors.

Game time Saturday at Central Park is 6:30 p.m., reverting to Keewatin, Sunday at 2:30 p.m. with all proceeds going to the Kenora District Baseball League injured players fund. The umpires in the League have donated their services for the two encounters.

You and Your Camera

It's safe to assume, I guess, that you're interested in making pictures or you wouldn't be reading this column. Another reasonable assumption is that when you snap a picture you like to get a picture. And I'm certain that you like all possible shooting range in your picture making at the lowest possible shooting cost. If I'm right then you should be trying

35mm photography - it's really catching on in Canada.

That "35mm", of course, refers to the width of the film it takes. Thirty-five millimeters is about an inch and half - which is pretty small, and which is also the reason for the compactness of the camera itself and why it's called a miniature. Because it's small, the film is likewise comparatively inexpensive. Yet, as the 35mm is such a compact

little picture maker, it can pack a whole of a lot of detail into a small area - and whether you're shooting for prints of any size, or for color transparencies to project on a living-room screen as big and beautiful as life, there's no better starting point than a crisp 35mm image.

Another feature of the 35mm camera is that it will make black-and-white snaps in a choice of extra-detailed and extra-fast films not available to all other still cameras. It also takes color films for the making of full-color prints and its small-sized color film costs less than most color film with labs automatically transposing its minute color negatives into wallet-sized 2 1/2 by 3 1/2-inch color prints.

Yet, perhaps most important of all, the 35mm camera, from still, other types of color films, makes 35mm color transparencies - which are, again, relatively small in size and in cost. We've no quarrel with color prints, almost all of which are surely larger than a 35mm transparency. But you've never seen color, and realism, and detail, and brilliance, until you've looked at an image taken by a competent miniature camera and projected, feet, and not just inches in width, on a living-room screen!

With one of the color films and developing kits available you can even produce your own transparencies. Whether you make 'em or not - and most folks are content to let the labs handle it - you can enjoy them with a greatly magnifying projector and screen . . . or with a similar viewer you plug into a light socket . . . or with a table viewer which projects the transparencies onto its built-in, several - inches - wide ground-glass screen.

One of the main-features of the 35mm camera is that with it you just dial for distance in terms of clearly marked "scenes," or "Groups," or "Close-Ups" - and you can shoot as close as 2 1/2 feet, too! As for exposure . . . it doesn't use that "f" business, which I for one have never understood. Instead, it has a string of exposure-value numbers ranging from 10 to 15.

For each and every type of film made for it there's a little card illustrated with familiar light conditions coded by a similar string of numbers. The card slips into a frame on the back of the camera right in front of

your eyes. Maybe, for your choice of film and for the light under which you're shooting, the indicated exposure value on the card reads "15." You simply set a second dial by the camera lens so it also reads "15."

That's all there is to it . . . SHOOT!

However, Mr. Monteith told the Commons last week that it is not planned to abandon the evacuation policy entirely.

He also indicated that the emphasis will be placed on providing shelter against radioactive fallout.

This is understood to stem from

the belief that in the event of nuclear war Canada would not be a primary target for nuclear-armed missiles but the more populous southern sections of this country would be threatened by widespread fallout resulting from nuclear explosions over American targets.

Government Plans Fallout Shelters

Ottawa—The federal government is expected to propose a double-pronged policy of shelter and evacuation for civil defence at a fall conference with the province, it was learned Wednesday.

Government sources said that Health Minister Monteith and Prime Minister Diefenbaker in statements just before Parliament prorogued indicated that a policy for providing fallout shelters will figure largely in the October conference on civil defence.

It is understood the federal proposal now is being prepared and that it will be put before the provinces for comment.

At the same time, it is understood that the shelter plan does not involve scrapping all plans for evacuation of centres of population in the event of nuclear attack.

Since about 1953, the emphasis for civil defence has been on evacuation. But with the development of the intercontinental ballistic missile—and the consequent lack of warning of an attack—evacuation has been viewed as less effective.

JUVENILE BASEBALL

This corner becomes more bewildered every time out, these unpredictable pirates Tuesday played errorless ball, Friday nothing else but, and the Cubs are not Cubs anymore, they are full grown. Last night's performance left a lot to be desired, and we feel there will be changes

made in the Pirate's line up. They have the players but position in the line up is where changes are needed. We do know Cubs are not that much superior, as Pirates proved they can play baseball by their performance Tuesday last. I am not alone in my thinking that, before the season advances much further with five more games to play, there will not be much spread if any between these two teams.

cond on Gary Hanstead's single. Acme Cleaners scored two in the second and two in the third as Dennis Lindsay doubled in each inning. Cokes went a head 6-4 without the benefit of a hit in the fourth. A towering home run over the centre field fence by Billy Cook opened the fifth for Acme, but that was all they could manage off the deliveries of Hall. Hall had two singles and a double for Cokes.

CAT, Caterpillar and Traxcavalor are registered trade marks.

There were plays last evening bordering on the sensational, a catch by Larry Salmon was a wonderful picture, worthy of senior class, and the work of Bobby Ames, Richard Palmer, and Barrie Frances showed class, Bobby as usual was the life of the infield. We have faith in this Pirate team so do not become discouraged, Tuesday next may be yours.

Our sincere thanks to Mr. Hanstead plate umpire and to all those that assisted, and to you local fans, thank you for your attendance, not so much financially as spiritually. So until Tuesday we say Thanks and good luck. Bye for now.

by Bob Baker
COCA COLA EDGES-ACME CLEANERS 6-3

Young Garry Hall pitched and batted-league leading Coca Cola to a narrow 6-5 win over Acme Cleaners in Little Canadian Baseball last night. The win boosted Cokes to a half game lead over the Lumber Kings again.

Cokes scored three runs in the first with the help of a dropped fly ball, and two more in the se-

Hall spaced six hits in winning his second game of the year. Billy Cook gave up seven but did not get the support from his mates that Hall received. Cook fanned a dozen batters and walked only four in losing.

KITCHEN CLASSICS

A Deliciously Different Dessert

Here's a recipe for a most unusual dessert . . . a real conversation piece to serve when company comes. An added bonus for the busy cook is the simplicity and ease with which it can be made. The recipe is Chocolate Waffles with Coffee Syrup. The waffles have a scrumptious milk-chocolate flavor which the coffee-flavored syrup compliments. Serve the waffles hot off the iron with plenty of butter or margarine. A sprinkle of sifted icing sugar may be substituted in place of the syrup. An especially appropriate idea for the summer months would be to make ice-cream sandwiches from the waffles, and serve them with or without the syrup.

CHOCOLATE WAFFLES

With Coffee Syrup

Yield - about 4 servings

- 1 cup once-sifted all-purpose flour
- or 1 1/4 cups once-sifted pastry flour
- 1/2 cup cocoa
- 2 eggs
- 1 cup milk
- 1/2 teaspoon vanilla
- 1/4 cup butter or margarine, melted

Heat waffle iron according to manufacturer's directions. Sift together once, then sift into a bowl the all-purpose of pastry flour, baking powder, salt, sugar and cocoa. Separate the eggs; beat whites until stiff but not dry. Beat yolks until light and stir in milk, vanilla and melted butter or margarine. Make a well in flour mixture and gradually stir in liquids; beat with a hand rotary beater or electric mixer set at a medium speed

just-until batter is smooth. Fold in beaten egg whites. Bake better as waffles (or pancakes). Serve hot with plenty of butter or margarine and a sprinkle of sifted icing sugar or, if preferred, with the following Coffee Syrup.

COFFEE SYRUP

- Yield about 1 1/4 cups syrup
 - 1 tablespoon corn starch
 - 1 tablespoon powdered instant coffee
 - 1/2 cup granulated sugar
 - Few grains salt
 - 1 1/4 cups boiling water
- (Continued on Page 10)

and cotton waste. In 1859 John Thompson began to experiment in the manufacture of paper from wood, and seven years later Alexander Buntin installed at Valleyfield, Quebec, what is claimed to have been the first wood grinder in America, thus beginning the manufacture of wood pulp by mechanical process. In 1871, however, Canada's paper mills were still of modest number and dimensions. The great expansion which saw the pulp and paper output reach a value of a quarter of a billion dollars in the peak year 1929 was still to come. In 1939 more than \$500,000,000 was invested in the industry in Canada.

Canada's First Paper Mill Began In A Modest Way

siderable importance for a time. It was sometimes called St. Andrews East to distinguish it from the place of the same name in Glengarry.

In 1810 another paper mill commenced production in Lower Canada, in Portneuf county, while Upper Canada entered the field in 1813 with an establishment, still in operation, at Crook's Hollow, now Greensville. In 1819 the Maritime provinces' first mill was built on Bedford Basin, near Halifax, by the owners of the "Acadian Recorder." In the early days, and in fact prior to the 1830's, no wood-pulp was used or produced. The raw materials of the papermakers included rags, straw, esparto grass

The manufacture of paper, now one of Canada's staple industries, was begun in a modest way. The country's first paper mill, operated by Americans who obtained concessions from the seigneurs started work at St. Andrews, Quebec in Argeteuil county, Lower Canada, in 1803. Settled by Scottish and American veterans of the Revolutionary war, the little village was of con-

WEDDING BELLS

WATTERSON — KUHN

A double ring ceremony was solemnized at Bethesda Lutheran Church, Kenora, on Saturday, July 18, when Gloria Dolores, daughter of Mr. and Mrs. Karl Kuhn of Inglis, Man., became the bride of John Robertson, son of Mr. and Mrs. D. D. Watterson of Windsor, Ont.

Rev. F. E. Johnson officiated at the ceremony. The soloist was Miss Lorraine Tycholls, and Miss Pat Francis played the wedding music.

Given in marriage by her father, the bride wore a traditional floor length gown on Empire lines. The fitted bodice and long fully point sleeves were of Guilture lace and fell into a full skirt featuring pure silk organza over taffeta, with scattered appliques of matching lace and irri-

descent sequins. Her lace Juliet cap with seed pearls held in place a chapel veil outlined with a border of lace. She carried a bouquet of American Beauty roses. A diamond pendant, a gift of the groom was her only jewellery.

Mrs. Art Fahlgren, matron of honour, chose a gown of pastel green lace styled on princess lines with a green satin cummerbund and back bow.

Bridesmaids were Miss Annette Kuhn of Inglis, Man., and Miss Alma Kuhn of Camrose, Alberta, sisters of the bride. They wore identical waltz length dresses of white nylon velvety with pink taffeta sashes.

The attendants carried cascades of pink and white carnations.

Mr. Hiro Oshiro was best man and the ushers were Mr. Art Fahlgren and Mr. Steve Marshak.

Mrs. Kuhn, mother of the bride, wore a blue and white printed dress and jacket with white accessories and a corsage of pink roses.

At the reception at The Chalet, Mr. Gordon Windsor proposed the toast to the bride.

The happy couple left on a honeymoon trip by air to Windsor, Ont., and the United States. The bride's travelling costume was a blue and white sheath dress with a matching three-quarter length coat and white accessories. Her corsage was a white orchid. Mr. and Mrs. Watterson will reside in Kenora.

Out of town guests were Mr. and Mrs. R. Aube, Miss Lorraine Tycholls and Miss Barbara Willis, Mr. P. Frederickson of Dauphin, Man., Mr. and Mrs. C. Galloway, Mrs. B. Bauerle, Miss Lily Kuhn, Miss Anne Anderson, Miss Judy Buttie, and Ron Lindford of Winnipeg; and Mr. and Mrs. N. Eastlack of Omaha, Nebraska and Miss Marg. Cizak of Grandview, Man.

Prior to her marriage, a miscellaneous shower was held at the home of Mrs. John Fahlgren on June 13, in honor of Miss Gloria Kuhn. Co-hostesses were Mrs. Steve Marshak, Miss Bertha Davis, and Mrs. Art Fahlgren.

The guest of honor was presented with gifts and a corsage. Twenty-five guests were present.

On June 25, Mr. and Mrs. Eric Lindstrom honored Miss Gloria Kuhn and Mr. Jack Watterson prior to their wedding. A smorgasbord was served at Pine Portage Bay.

On July 4, the Junior Chamber of Commerce entertained Miss Gloria Kuhn and Mr. Jack Watterson at the camp of Mr. Hiro Oshiro on Black Sturgeon. A toaster was presented to Mr. Watterson from the club.

On another occasion, Miss Kuhn was presented with a silver tea service by the choir members of Bethesda Lutheran Church.

Around Town

W. M. "Bill" Benidickson arrived in Kenora, Friday from Ottawa to join Mrs. Benidickson and family at the summer home on Coney Island.

Earl Hutchinson returned home Friday from Toronto where he attended the funeral of his aunt, the late Mrs. James Dougherty.

Mrs. E. L. Morris of Portland, Oregon is visiting her sister and brother-in-law, Mr. and Mrs.

Jack McLeod, also her mother, Mrs. Anna Dowd;

RETIRES FROM CPR AFTER 52 YEARS

Vancouver — Fifty-two years after he started work in this city with the Canadian Pacific Railway, Jeffrey Arnot, purchasing agent retires at the end of July.

To reach the 50-year span is considered a rarity.

To pass the mark is a rarity in any man's business. He already had his coveted gold railway pass.

The native of North Bend was 13½ years of age when he became a junior clerk. He has been with the purchasing department for 49 years. His total purchases for the CPR couldn't be estimated but it would run into hundreds of millions.

He had also served in Calgary and Winnipeg and when in Victoria was president of the Rotary Club. He did take time out—five years in overseas service in World War One.

DEPARTMENT OF HIGHWAYS OF ONTARIO NOTICE TO SUPPLIERS OF STRAW OR HAY FOR SEEDING

Separate sealed bids marked, "Bid for supply of Straw or Hay, Kenora District," will be received by the District Engineer, Box 1070, Kenora, Ontario, until 12.00 o'clock, noon CDS1.

Specifications, bid forms and bid envelopes may be obtained at the above mentioned address. The lowest or any quotation not necessarily accepted.

DEPARTMENT OF HIGHWAYS,
ONTARIO,
KENORA DISTRICT.

"NINE TENTHS OF WISDOM CONSISTS OF BEING WISE IN TIME"

(Author's Name Below)

Wisdom is the ability to judge the facts and do the right thing at the proper time. When you are sick, wisdom dictates that the time a cure can be more easily accomplished is at the very first sign of trouble. To delay gives an attacking germ or virus the opportunity to multiply and ravage your body.

At the very first sign of any illness, be wise. Consult your physician. Let him diagnose the cause and prescribe the proper medicines he judges will help you most. You will save much sickness-time and add years to your life.

What's new at the Mutual

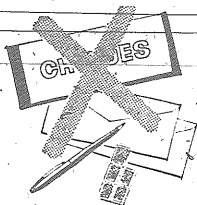

Guaranteed insurability—to meet your future requirements

A new Mutual Life option guarantees you the right to obtain extra life insurance later on—up to \$90,000 additional insurance, without medical examination. Your insurability can be priceless—ask your Mutual Life of Canada man about insuring it.

Lower rates for women!

With a deep bow to the ladies, The Mutual Life now provides you with insurance at lower premiums than for men—and recognizes that you are younger, madam, than your years. Your proven ability to live longer means real savings for you—from The Mutual Life of Canada.

Automatic payment of premiums... save time, postage and money!

You write no more cheques... Mutual Life's new automatic plan takes over. A Mutual Life extra! Your monthly premium is less than if you pay monthly the usual way.

Group insurance for 5 or more employees

Really comprehensive coverage at remarkably low Mutual Life rates—life insurance, hospital, surgical, medical expenses and income while laid up—plus health insurance and maternity benefits for dependants—all integrated with government plans where in effect.

Talk it over with your Mutual man. A Mutual Life policyholder enjoys the most modern services, the most attractive savings in life insurance today. Get protection at low net cost from The Mutual Life of Canada—the company with the outstanding dividend record.

1880 — ninety years of leadership in mutual life insurance — 1959

Cpl. Fieldsend of the R.C.M.P. transferred from Snow Lake, to Selkirk Manitoba and will be joined by his family in the near future.

Letter to the Editor

Norman, Ontario,
July 24th, 1959.

Gentlemen:
A copy of the following letter to the editors has been mailed to both our daily newspapers for publication.

In Pat's Patter, Miner and News July 23rd, there was an article regarding dogs and the dog catcher. Six people phoned Pat at the Miner and News about dogs being loose and destroying their flowers.

Maybe these people are new to the Town of Kenora. At least it would seem that they did not live here four or five years ago. I am in business in Norman and three or four years ago we had dogs loose running all over the place. Any delivery to my store could not be left outside the door for one minute owing to the deplorable dog situation we had at that time. This I am glad to say has been remedied and is improving every year since we had a permanent dog catcher. Today in Norman, and I am speaking for Norman, we see an odd dog loose but very few. The dog population has decreased in our neigh-

hood and the control over these animals is just about as good as can be desired. Kenora is a big town and there are a lot of dogs in the town and it would appear that the control of these animals is up to the dog catcher. Just when and how this man works I do not know, but I have seen him in our district early in the morning, late in the evening, every day of the week including Sunday.

If there was legitimate cause for a beef I would not write this. But I like to give credit where credit is due, and as far as I am concerned I am pleased to say that the dog catcher has done a good job in the past three years. More power to him.
A Citizen of Norman.

KITCHEN CLASSICS

(Continued from Page 3)

1 tablespoon butter or margarine

Few drops vanilla
Combine in a small saucepan the corn starch, instant coffee, sugar and salt; stir in boiling water. Cook, stirring constantly,
