MOUNTIES - AND BOAT SAFETY

The Kenora detachment of the Royal Canadian Mounted Police is rendering a real service by insisting on compliance of the law by all boat owners using district waters. Few will argue against the theory that "an ounce of prevention is worth a pound of cure" and this truism applies particularly to boating practices. Unlike automobile accidents where the percentage of fatal accidents to the total number of accidents is comparatively low, the opposite is the case on the Lake.

In the past few days, the Court has demonstrated its stern view of water safety infractions by levying heavy penalties on convicted offenders. One man, convicted of impaired driving of his boat, was fined \$100 and costs or 30 days in jail. One of his companions received a jail term of 30 days for being drunk while three other passengers paid \$50 and costs each, for drinking in a boat.

For operating a boat without proper lights between sunset and sunrise, a boat owner paid \$5.00 and costs; and a boat owner who refused to stop for the Mounties paid \$100 and costs for refusing to obey a peace officer. Failure to have the proper registration numbers posted on the front sides of his boat cost another boating enthusiast \$5.00 and costs. Failure to have fire extinguishers, life jackets, proper lights all brought similar levies against offenders.

It is important that those using the lake know the rules of operating powered boats. The RCMP officers, whose duty it is to enforce the law, requested the Miner and News to publicize the fact that they are out on our Lakes constantly, checking boats for the protection of everyone. It is not their desire to prosecute, but to make boating safer for all.

One lesson which should be drawn from the phenomenal growth of boating this summer is the need for a Boating Club. Such an organization is long overdue on the Lake of the Woods, and it could inform members of regulation changes and have a voice, now lacking, in stressing local needs. It could be an excellent source of assistance to Police. It could assist the Dept. of Lands and Forests in its program, now in the experimental stage, of establishing "roadside tables" on various islands on the Lake of the Woods.

Possibly, the RCMP, by their activity this summer, may be instrumental in the formation of a Boat Club. The Miner and News will take the initiative in calling a meeting of boat owners if response to this suggestion merits it.

Retired Men Honor Mr. J. Minor On 90th Birthday

Members of the Keewatin Retired Men's Association entertained at the Five Spot on Thursday afternoon, August 13th at a surprise party honoring one of their older members, Mr. J. Minor. Mr. Minor recently celebrated his 90th birthday.

The thirty-nine present included several invited guests, among whom were Magistrate

J. V. Fregéau of Kenora and Mr. T. Johnston of Montreal, a former resident of Keewatin.

Mr. George Armstrong was chairman for the afternoon. A social hour was enjoyed with a sing song. Some time was spent by the older members, Mr. W. Hall, Mr. Gervas Holmes and Mrs. T. Powell reminiscing about the "good old days".

Magistrate Fregéau spoke of his Association with Mr. Minor in the years passed when he acted on the Board of Directors for Pinecrest.

Best wishes and congratulatory remarks were extended to the honored guest, including a poem composed and read by Mr. D. Mc-

Kellar.

Magistrate Fregéau then made a presentation to the guest of honour on behalf of those present.

Refreshments were served by their hostess, Miss E. Braalen and included an attractive birthday cake.

A most enjoyable time was had by all present and the Retired Men's Association are most grateful to Miss Braalen for her many acts of kindness extended to the Association.

FAIR DOOR PRIZE LUCKY NUMBERS

Prizes of \$25 and \$10 await the holders of lucky tickets drawn at the Fair Friday night. \$25 awaits the holder of ticket number 418030 and \$10 for the holder of ticket number 436387.

The \$25 door prize is given by the Kenora Agricultural Society and the \$10 prize by Smalley Agencies.

Two more door prizes will be drawn again this evening. Winners names will be published next week.

Man Is Missing In The Bush West Of Kenora

Ontario Provincial Police, assisted by the local Search and Rescue Squad are looking for a camper lost in the Lake of Two Mountains area. The missing man, believed to be from Manitoba, left camp about 4.30 p.m. Friday and has failed to return from what was supposed to be a short trip in the bush along the route of the pipeline.

Police were called about 10.30 p.m. Friday and at 8.30 a.m. today the assistance of the Search and Rescue Squad was sought. OPP Constables McMillan and Bergman are in charge of the search party with assistance from Allan Shaw, George and Bob Page and other members of Search and Rescue.

The search area is located about 20 miles west of Kenora between the highway and the CPE tracks. Police are withholding the name of the missing man until relatives have been contacted.

Kenoraite Says Storm Damage Is "Unbelievable"

"You would have to see it to believe it", said Colin Button of Red Rock and formerly of Kenora, describing the devastation wrought by the storm which struck Nipigon on Wednesday night. "My wife and I were driving back to Red Rock from Nipigon when the storm struck and my car was rocked from one side of the road to the other." "The worst of the storm was in downtown Nipigon where pavement, newly laid, was torn

LARGE CROWD ATTENDS FAIR, WINDUP TONIGHT

up and property severely damaged. The Legion Hall, near the bottom of the hill has eight inches of sand on the floor," Mr. Button continued.

Colin was eloquent in his description of the new swimming pool at Red Rock. For the paper mill community it is the answer to the summer's heat. The four young sons of Mr. and Mrs. Button spend most of each day in the pool, and the total registrations for the summer were amazing, the Miner and News was told.

Mrs. A. Stevenson Wins Fair Contest

Mrs. Allan Stevenson, a perennial winner in the contests to guess the correct attendance at the fair had come up with another winning entry for Friday's contest. Mrs. Stevenson's guess of 1136 was only 246 out since the official figure was 913.

Mrs. Stevenson used the numbers from the ads of the following merchants, Tilley's Pharmacy, Vacationland Co-Op., Lindstrom and Nilson and North American Lumber and Supply. Running second was Mrs. L. J. Favreau with a guess of 1237.

The winner gets for her work two tickets to the fair, six bingo cards to play in the current Agricultural Society Bingo and a pass for two to the Paramount Theatre. Grand award prize for Saturday contest is \$25.

5,000 Foot Runway C.K.'d By Falls Town Council

International Falls — Border City aldermen took a big step Tuesday night toward meeting modern demands for expanding facilities at Falls Municipal airport.

The move, taken by majority vote, was to formally request state and federal governments to earmark funds for lengthening the northwest-southeast runway to 5,900 feet. The runway presently is 3,800 feet long.

(Continued on Page 8)

Kenora Agricultural Society officials stated today that an estimated crowd of over twenty-five hundred adults and children visited the 48th annual fair all day Friday. It was pointed out that the paid admission figure released today does not include children since they were all admitted free this year.

Judging of livestock entries highlighted the Friday's events with particular interest focused on the 4H club entries. While the number of entries was disappointing, a large crowd watched with interest the judging which was done by John MacDonald, who has just completed the same duties at the Emo District Fair. He gave the boys and girls much helpful advice on showmanship.

Mr. E. S. Marr of Dryden, Agricultural representative for the district, was also in attendance and although disappointed with the number of entries, had high praise for the quality of the 4H club work, especially the potato clubs.

With the weatherman promising nice weather for the balance of today Fair officials are expecting the biggest crowd yet to attend the exhibition. Special buses will run during the afternoon and evening and excellent service will be provided up until ten o'clock this evening. Stanger shows have pleased all who have gone to the fair and they will continue to play till the fair closes tonight.

Highlight of this evening will be the presentation of trophies and cups. Top award is the W. H. Greenwood Memorial Trophy. Two door prizes will also be drawn during the evening.

AVOID GETTING LOST

Vacationists travelling in the woods this summer may avoid, through a little precaution, some uncomfortable moments or even a chilly night in the open should they become lost.

Become familiar with the use of a compass, maps and natural aids to find your way under what might appear to be almost hopeless circumstances. R. J. Hall, of the Ontario Department of Lands and Forests, advises as a prime requisite.

Never go into the woods without a compass, whether you know the district or not. Often, a cloudy rainy day, even the best of travellers get lost. "The com-

pass, however, often is only your emergency equipment which is kept in your pocket. The sun itself is a good guide, especially if you also have a watch. In fact, old woods travellers travel all the time by the sun. The sun is due south at noon and relative positions of the sun in morning and afternoon may be estimated or calculated with your watch.

Another method of determining due south is to hold the watch with the hour hand pointer at the sun. Halfway between this and twelve o'clock on the dial is south.

Still another method which can, of course, be used only at night is the location of the north star. This star is small and not very bright. It is located easily by extending a line through the two outside stars of the bowl of the dipper or the tip as it is often called. The dipper swings itself around the north star with the handle on the outside.

With the aid of a compass, the sun, the north star and a map, the possibilities of becoming lost in the woods are much fewer. You should always determine the position of your camp or last known point before entering the woods in relation to some prominent feature such as a lake, river or road. When you come to the conclusion that you are temporarily mixed up — and almost everyone who has travelled in the woods has become mixed up at times — here are some well tried principles that should be followed:

1. Don't become panicky. Fear and panic are the death of calm reasoning. Sit down on a comfortable log and rest quietly

for a few moments.

2. Determine on a consistent plan of action and stick to it, at least until you have proven beyond all possibility of doubt that you are wrong.

3. Study your map and go over in your mind the course you have taken since leaving a known point. Often, in this way, you will see where you have made the wrong turn or got off the course.

URGE COURSE FOR POLICE

Kitchener — The "quack" doctor is no more of a threat to society than the ignorant, imprudent or unskilled policeman.

That's why it is the duty of each police officer to help attain true professionalization of police work, Police Chief Leonard Lawrence of Hamilton told the opening session Tuesday of the Ontario Police Association's annual meeting.

Chief Lawrence said an Ontario government committee to investigate police training needs will "come up with the answers in the best interest of the police service."

He said Ontario educationists candidly admit they don't know how to set up a police education curriculum. They said not enough textbooks are available in this field, instructors are scarce and there is no place to turn to for the help they need.

Moreover, he said, they are far from convinced that police courses warrant the trouble involved in setting up such curriculums.

44 YEARS TO COMPLETE NAME QUILT

Mrs. Luella Des Rosiers, of Ringwood, Ont., has finished a job she started 44 years ago. It is a giant quilt she began making in 1915 when her husband was heading overseas with the 123rd Royal Grenadiers. The quilt bears the names of all 1,500 men in the battalion at the time.

Announce Increase In Jurors Pay

Jurors' rates for Northwestern Ontario sittings of the supreme and district courts have been increased considerably. It was announced at the recent meetings of the Northern Ontario District Sheriff's Association which was held in Port Arthur last week. Present for the sessions was C. L. Sundin, sheriff of the District of Rainy River.

Larry Lamoureux of Sudbury was elected president and W. B. Elliott of Bracebridge, vice-president of the district association at its concluding session. Sheriff Don Steen of Port Arthur is past president of the association.

Long a project of the NODSA, the raising of jurors' rates has been discussed for several years by the sheriff's association and resolutions have been sent in yearly by the local group.

Sheriff Steen stated that jury rates, as of September 1, will be \$10 a day for jurors with an allowance of 20 cents a mile from the jurors' place or residence to the courthouse. Out-of-town jurors will now obtain a living allowance of not more than \$8 a day if it is deemed desirable to have him remain in town overnight.

Previously, juror's rates were a straight \$6 a day with a transportation allowance of 15 cents a

mile. During the two-day meetings, many technical topics were discussed, including court procedure and the conveyance of prisoners. A dinner welcomed guest sheriffs at the Prince Arthur hotel.

During the dinner guest speaker was Hon. George Wardrope, minister of reforms institutions. Mr. Wardrope spoke of the work of the reforms ministry and said his hopes were high for an open women's institution at the Lakehead.

The dinner guests were also addressed briefly by H. H. Donald, inspector of legal offices from the Attorney-Generals department, Toronto; Sheriff H. J. Collier, president of the Ontario Sheriff's Association; and T. E. Callon, president of the Thunder Bay Bar Association.

Conform To Traffic During "Extra Danger" Hours

Worship of the sun dominated men before the dawn of civilization. Forms of the cult have persisted strongly through the ages. In Canada sun worship reaches a peak at the holiday weekends, when millions head away from the cities towards the lakes and sports areas.

Human sacrifice played a big part in the pagan rites of sun worship. And so it is today. Before history was written men died on raised altars, from the stone knives of high priests. Today, mass homage to the sun is marked by blood that drips on the highway pavement, between splintered glass, at the end of desperate skid marks.

"It is a devastating thought" says Mr. F. H. Ellis, General Manager of the Ontario Safety League. "That tragedy will strike at scores of sun-seeking Canadian families this coming weekend... completely unnecessarily. Each life that is due to be lost or wrecked on our highways and waterways would be saved by a trifle... a moment of patience, an act of courtesy, a little forethought."

The Ontario Safety League would like to make a one-word request of all who drive through the extra-danger hours of the holidays — "CONFORM!" Conform to the natural flow of traffic — keep a steady pace in the flow, and don't try to beat the clock, and the other cars, by nerve-tensing switches from lane to lane.

Conform to the traffic laws — and encourage others to do the same. Conform to special conditions — rain and darkness often dictate lower speeds than the

posted limits. Conform to your normal physical capacity — stop for a coffee break and a stretch whenever fatigue approaches.

Above all, conform to the requirements of decency and common sense and avoid anything that could make you executioner or victim, in a senseless sacrifice on the roads.

CBC's fall and winter television schedule includes a new film series on Dennis the Menace, a comedy based on the popular comic strip.

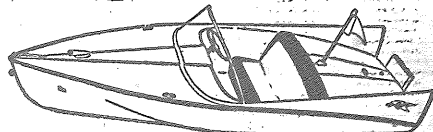

While irises refuse to grow in countries near the equator, some varieties bloom at the edge of the Arctic.

A Message For Our Day

THE KENORA MINISTERIAL ASSOC.

LACKING THE WANTED FEELING

There may be hundreds of lonely people in Kenora, but why is loneliness a problem of our age. Today there are more amusements, both inside and outside the home. People have more money which enables them to buy the necessities of life as well as the luxuries. Generally speaking everyone has more time to spend on the cultivation of friendship. Why then should there be so many people for whom life holds seemingly nothing? Why are so many without friends or worth?

It seems reasonably certain that loneliness is related to ones attitude to others. The old adage about gaining friendship by being a friend is still true. It is not customary for people to go knocking at other people's doors saying, "Can I be your friend?" The smile, however is still the quickest gainer of friends. It doesn't knock at the door but it taps at the heart.

Loneliness is today's problem because self-centredness is taking the place of brotherly love, and personal interest is dogging the footsteps of Christians. The answer to this problem lies with the individual on both sides of the fence.

When Christ asked us to love our neighbour as ourselves, He suggested that we love the Lord our God with all our heart, soul, strength and mind. When you have hold of God you are able to do His work, for He has hold of you. There is a motto that says, "Love conquers all", but we can add "because love has conquered me". When God's love has broken through the iron roof that man has erected to keep God out of his life, His love will then, after man in knocking down the brick wall separating man from his brother.

The man who knows Christ as his Saviour and who has claimed forgiveness of sin through the blood that Christ shed on the cross, should give the lead in speaking to the lonely and in befriending the friendless. He should always share his thrilling knowledge that Jesus Christ is the Friend of all and has died to be the Saviour of all.

Everyone is wanted in this world. God wants you for His own. Make friends with Him today and you will soon find other friends of the helpful sort, and your experience of friendlessness will become a memory of the past.

Lt. A. King, Salvation Army

KITTEN RIDES AXLE OF DIESEL

Vancouver - Great Northern Railway officials discovered what looked like a case of customs-evasion, illegal border crossing and non payment of fare.

The suspect: a six-week-old kitten which apparently rode one of the axles of the diesel locomotive on the night express from Seattle.

Inspector Bert McKay of the Society for the Prevention of Cruelty to Animals picked up the begrimed lobby at the GNR grass pit where he was discovered Monday night coast

"the chimney you can install yourself in 2 hours ..."

THE **SELKIRK**

INSULATED CHIMNEY

Now you can install your own chimney! No bricks-mortar or foundation ... the Selkirk Insulated Chimney fits any home. Selkirk, the only chimney designed to provide proper venting for today's modern heating equipment. Saves you time, labor and money ... cuts fuel bills, eliminates fire hazards and never needs cleaning! Made of heavy gauge non-rusting materials, insulated to give you positive draft.

KEEWATIN NEWS

Mrs. Kember

FAMILY HONORS MR. J. MINOR

On Thursday afternoon, August 13th, twenty-four members of the family of Mr. J. Minor held a family picnic celebrating his 90th birthday.

The gathering took place at Coney Island at the summer cottage of his grand-daughter, Mrs. Merlyn Heimbecker of London, North Dakota.

Members of the family included seven grandchildren and four great-grandchildren. On behalf of the family a presentation was made to the honoured guest by his grandson, Jay Minor.

Guest preacher at the Kewatin United Church Sunday, August 23rd, will be Rev. A. R. Hubbard, B.A., D.D., Kingsway-Lambton United Church, Toronto, Ontario.

The 8.30 a.m. service and 7.00

p.m. church service at St. James Anglican Church has been cancelled for the month of August. The 11.00 a.m. service as usual.

Mr. and Mrs. Wes Moore and son John are spending a holiday with her parents, Mr. and Mrs. N. Brandle at Binscarth, Manitoba.

Mrs. Patricia Gauthier and family Bruce, Doreen and Diana spent a week's holiday at the home of her parents Mr. and Mrs. B. Howard. Master Bruce Gauthier is now the guest of his aunt Mrs. T. Jarvie.

THANK YOU

I would like to express my sincere thanks and appreciation to all my friends, neighbours and relatives who so kindly remembered me on my 90th birthday August 13th with their kind remembrances of birthday cards, telephone messages, personal visits, flowers and gifts.

Mr. J. Minor

"It is the opinion of the Canadian Paediatric Society that plastic film as a cause of accidental death among infants and young children should receive the same consideration as other hazards found in all Canadian homes, such as poisons, knives, matches, electric appliances, etc.

The need for a sustained educational programme to instruct the public in its safe use is clearly indicated. Plastic film after it has fulfilled its intended purpose, should be destroyed or stored in a place inaccessible to children. The advantages of

plastic film have been so well established, that the prohibiting of its use, does not seem justified."

The Ontario Safety League has launched just such a sustained educational programme as advocated by the Canadian Paediatric Society and Dr. Jeffrey. It will extend across Canada, in a cooperative effort with all other provincial Safety Organizations and Departments of Health, and is designed to make parents aware of the dangers of thin plastic and instruct them in its safe use. The programme has as its objective the elimination of this

cause of needless infant deaths through sensible use of the material.

Provincial parks, set aside and maintained by 10 provincial governments, total 59,516 square miles.

The Ozark mountains at no point rise about 2,000 feet elevation.

Fluctuations in the national income closely parallel variations in pulp and paper production. Prosperity in the industry and in Canada are inseparable.

Plastics Campaign Endorsed By Paediatric Society

"An intensive educational programme to instruct the public in the safe use of plastic film is the logical solution to the urgent problem of infant smotherings attributed to thin plastics" Dr. Fred W. Jeffrey, Chairman of the Ontario Medical Association Conference on Child Safety told the Ontario Safety League today.

Dr. Jeffrey's statement is supported by the Canadian Paediatric Society who at their recent annual meeting passed the following resolution:

"IF YOU DO NOT THINK ABOUT THE FUTURE YOU CANNOT HAVE ONE"

(Author's Name Below)

Every thinking person makes plans to assure a better future. He starts a savings account, secures insurance and tries to increase his knowledge.

But, no future can be a real happy one unless good health is present. Fortunately medical knowledge has made great progress. Antibiotics, hormones, vitamins and new chemical compounds have been perfected which are both preventive and curative. Place your future health in your physician's capable care. If medication is indicated he will prescribe what is needed. Visit him for regular check-ups now so you will be healthier in the future.

YOUR PHYSICIAN CAN PHONE HO 8-7913 WHEN YOU NEED A-MEDICINE

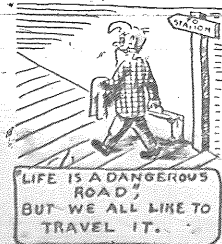

Pick up your prescription if shopping near us, or let us deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

CHILD FOR ADOPTION

ARLENE and DOROTHY - are sisters aged nine and six, of Protestant, Anglo-Saxon background. Arlene is in grade four, a bright, happy little girl of sturdy build with blonde hair, blue eyes and a fair round face. Dorothy is small and dainty for her age with blonde hair, big brown eyes and fine features. A healthy normal child, she will start school in September. Arlene and Dottie need a home with understanding and affectionate parents who can offer the security these two sisters have never had. Couples interested in adopting them are requested to write to:

MONEY GROWING METHOD SOUGHT

Port Moresby, New Guinea — Villagers in the Sepik district of New Guinea have been trying to make money grow by storing it in boxes, in special houses known as "bang bangs," says native affairs director A. Roberts.

Several small villages had been practising this crude banking system, he said, and three of them also had been imitating Western customs by appointing local kings and police.

Roberts added: "Patrols have been sent to the villages and every effort made to convince them that economic progress could only come through productive work."

Henry Kendall, Australian poet who died in 1882, was an inspector of forests.

Reindeer moss, found in white areas of the far north, is an edible lichen growing on rocks.

Fort Frances Band To Parade For National Legion

Fort Frances — Twenty-four young musicians of the Fort Frances Canadian Legion Scout band are excited about plans to attend the national convention of the American Legion which opens Sunday at Minneapolis.

Bandmaster John Fadyk said arrangements are being completed to take the full outfit to the convention. Opening highlight for the local Scouts will be performing in a giant parade on Monday.

Comprising some of America's most noted drum and bugle corps, the parade will last from 8 to 10 hours. One delegation alone, representing Wisconsin, will require 1½ hours to pass the reviewing stand.

The bagpipe section of the Fort Frances band, which is rounded

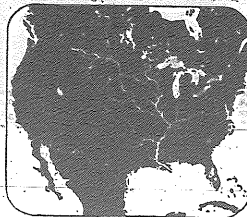

out with bugles and drums, will probably make it unique in the parade.

Fadyk said the Scouts will be billeted in cabins owned by Minneapolis Boy Scouts. The Fort Frances youngsters have been promised several tours of the Twin City area.

The band has been invited to play at two baseball games, the opening of the State Fair and also on television. Fadyk has been invited to attend several Legion dinners and a ball.

"The boys have been working hard, and are looking forward to this trip with great excitement," Fadyk reported. "We hope this trip will lead to many more next

it's a FACT

The Mississippi River's meanderings add at least 500 miles to its length between Cairo, Illinois, and the Gulf of Mexico. Its length is 2,470 miles because of its meanderings. It carries with it over 400,000,000 tons of dirt each year to be added to the delta at its mouth.

summer. We hope to do justice to the friendly relationship between Canada and the U.S."

5,000 Foot Runway

(Continued from Page 1)

The two governmental aviation agencies will underwrite approximately 83 per cent of the estimated \$180,000 total cost of the project.

The balance, \$30,000, must be put up by the city.

The aldermen acted at the behest of Councilman Urban Kerry, airport committee chairman, to beat a Thur-day deadline set by the Minnesota department of aeronautics.

The state agency said it must have the formal request for allocation of funds by then in order to include it in the over-all Minnesota airport expansion plan. This plan must be presented to the federal agency to meet its Sept. 1 deadline.

The question was voiced as to whether a city the size of the

Falls can afford additional expenditures on airport facilities. It was stated that the Border City flying center is listed as one of the principal ones on the entire U.S.-Canada boundary. Visiting flyers stop over in the city or at neighboring resorts and spend an estimated half million dollars annually in the area, with everyone benefitting from this money going into local trade channels.

The longer runway will permit some of the largest type commercial and private craft to land here. It also will permit North Central Airlines to include the Falls on its new Corvair route and will allow some jets to land.

A ZENITH Transistor Radio

ZENITH TRANS-OCEANIC
STANDARD AND SHORT WAVE
PORTABLE RADIO

POWERIZED TO TUNE IN THE WORLD

It's the transistorized version of the world famous Zenith Trans-Oceanic Portable Radio whose ownership reads like an International "Who's Who." It receives Standard Broadcasts, International Short Wave, Marine Weather, Amateur Short Wave Coverage Bands plus Ship-to-Ship, and Ship-to-Shore reception. Students can tune in foreign lands and learn languages as they are actually spoken. It uses no AC/DC power supply, no tubes or large "B" batteries—operates on low cost flashlight batteries, available anywhere in the world.

Band Spread Tuning—electrically separates each short wave band to allow up to 1400% more room on the dial for every station. Tuning is easier, faster, much more accurate.

Detachable Wavemagnet Antenna—In addition to standard antenna mounted at top of cabinet, radio has a detachable antenna for attaching to windows of autos, trains, steel buildings.

Telescopic Short Wave Antenna—handle conceals waverod antenna. Extends to several feet—has greater sensitivity to short wave stations.

Rotary Band Selector—8 bands are located on rotary cylinder. Turn of control selects desired band quicker, easier. Large station numerals make tuning simple.

Calibrated Logging Scale—above tuning scale for ease in logging and relocating stations.

Operates on Low Cost Flashlight Batteries—available everywhere in the world where flashlights are sold. Up to 300 hours of listening at fraction of cent per hour.

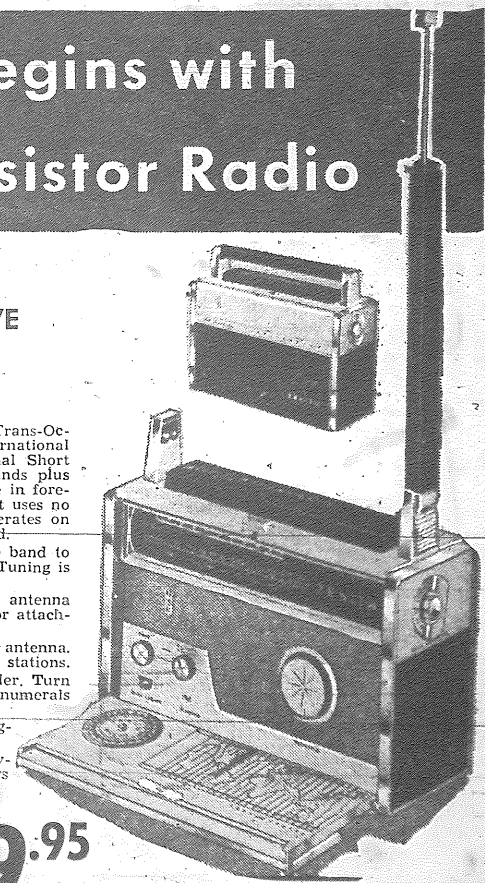

DIAL-O-MAP Time Chart—tells time of any place in the world. Dial your zone time, get station broadcast time.

Log Chart Compartment—lists all major short wave stations with their radio frequencies and hours of best reception. Contains space for your personal log.
