

PICKEREL LIMIT IS 6 PER DAY ALONG BORDER

International Falls — The limit of six walleyes per day with six in possession with a Minnesota license, Warden Marvin Smith said Friday.

However, if an angler also possesses a Canadian license he can catch six fish and have six in possession in angling on the Canadian side.

Anglers having licenses in both Minnesota and Canada and fishing on both sides of the boundary could catch a total of 12 fish and have 12 in possession, Smith said.

Anyone fishing from shore on the Minnesota side cannot catch more than the Minnesota limit, nor have more than the Minnesota limit in possession despite the fact they also may hold a Canadian license, the game warden explained.

The angling season in boundary waters for walleyes and northern pike closes April 14 and reopens May 12. This is to prohibit angling during the spawning season.

Some very fine catches of walleyes in the Manitow and the Sault rapids of Rainy River are being taken. The fish are reported to be biting well on minnows and black plastic night crawlers.

Former Rector Of St. Alban's Given New Appointment

The Venerable Fred Boyd, rector of St. Aiden's Church, Winnipeg, since 1950, has been appointed Archdeacon of Winnipeg, succeeding the Very Reverend F. R. Gartrell. The news is contained in the latest issue of the Rupert's Land News, official publication for the diocese.

Archdeacon Boyd has been rural dean of Winnipeg since 1957. He was Canon of St. John's Cathedral from 1958 until his appointment as archdeacon.

Very well known in Kenora, he was rector of St. Alban's Pro-Cathedral for 11 years, prior to leaving for Winnipeg in 1950.

Mrs. J. McLeod Heads Pinecrest Auxiliary

The Ladies' Auxiliary to Pinecrest held their April meeting at the Council Chambers with Mrs. W. Laurence presiding. The auxiliary accepted with regret the resignation of Mrs. Laurence as president, as she had carried on her duties of office in a very capable manner. The Vice-President, Mrs. J. McLeod took over the office as president at the conclusion of the business session.

The Auxiliary found the response to their Appeal letters, very gratifying and they are also greatly appreciative of the letters of encouragement. It was decided at the meeting to purchase books of worship

for the Chapel at Pinecrest for all denominations.

A report was heard from Mrs. T. Woodgate on Arts and Crafts. Mrs. T. J. Thomas reported on Visiting and she urged everyone to make a special effort to visit residents at the Home who are from out of town. Those wishing to renew their 1962 membership can do so. The auxiliary meets at the Council Chambers at 2:30 p.m. the first Tuesday of each month. New members are most welcome.

Letter To The Editor

Editor, Miner and News.

As Medical Officer of Health, I have been requested to make a further statement regarding fluoridation of the communal water supplies. I report as follows:

Before making a final decision regarding fluoridation, the members of Keewatin Town Council are carrying out a careful study of the subject and have been seeking further information from a number of sources, including the Ontario Water Resources Commission. It should further be noted that Keewatin's Council has not given final reading to the by-law providing for fluoridation. The Kenora Town Council has not yet reached a decision regarding fluoridation and again is considering the subject from all aspects. I have been impressed by the manner in which both councils have been studying fluoridation so carefully, and have been seeking information from all sources, regarding the safety, effectiveness and economical aspects of this measure. I consider it a privilege to be associated with two Councils which are weighing the various evidence in such a fair manner, before arriving at their decisions.

As your Medical Officer of Health, I do not consider it my duty to "crusade" or "beat the drum" for a particular public health measure. It is my duty to consider the pros and cons of any such measure, study all the available evidence, and then make a recommendation to the officials concerned. I have recommended the implementation of fluoridation of our water supplies as a measure which has been proven to be absolutely safe, which is economical, and which is highly effective in reducing dental cavities in our children. Every dentist and physician in our area has carefully studied fluoridation and has made a similar recommendation.

I have also referred to the report of the Ontario Fluoridation Investigating Committee, which was appointed by the provincial government in 1959. For more than two years, the three members of this committee, a judge, a housewife and a college president, studied the question of fluoridation in its entirety. They were presented with 91 different briefs for and against fluoridation, they heard 43 witnesses in person throughout the province, they studied more than a hundred other scientific papers and books. Finally, in 1961, they completed their 177-page report on fluoridation, and recommended the measure as safe, effective and economical. A fluoridation bill was subsequently passed

unanimously by the provincial legislature, authorizing municipalities to fluoridate their water supplies.

Someone has estimated that there have been more than 3,000 scientific papers written on fluoridation over the past 30 years. Despite the evidence of these various controlled studies, those opposed to fluoridation have named more than 100 disorders supposedly caused by fluoridation - ranging all the way from cancer, bone and kidney ailments, and heart trouble to constipation, athlete's foot and left-handedness. Despite clear cut evidence to the contrary, those opposed to fluoridation have also charged that fluoridation causes such effects as corrosion of water pipes and interference with industrial processes.

Some of the technical or medical implications of fluoridation are fairly complex and can be easily distorted. A relatively small group of people can sow the seeds of doubt and fear in the minds of reasonable citizens. Reasonable and sincere people become confused by the apparently conflicting evidence, and may become opposed to fluoridation because they are "unable" to understand the reasons for the apparently conflicting evidence.

Indeed, I think that a number of citizens in Kenora and Keewatin may be confused and undecided about

(Continued on Page 2)

'Doc' Redding's Crew Tops Hibbing 'Spiegel'

Kenora's Ron (Doc) Redding completed one of his most successful years in the sport of curling last night when he and his Kenora foursome captured the Main Event of the Hibbing, Minnesota "Last Chance" Bonspiel. This is by far one of the toughest 'spiegels' in this part of the country with at least twelve rinks attending from Winnipeg alone.

Along with skip Redding were Terry Johnson, Jimmy Guy and Ken Johnson. The Kenora rink collected outboard motors for their first place finish. The boys could not return back to Kenora last night because of the snow but they're expected to arrive in town sometime night. The 'spiel' opened last Thursday.

Redding adds this to his many laurels including his first place finish in the Winnipeg Grain Exchange Curling Club's "Sixteen Club," the Main Event of the annual Lake of the Woods men's bonspiel for the third year in a row as well as representing Northern Ontario in the Canadian Curling Championships in Kitchener, Ontario this year.

Prime Minister Endorses Cancer Society Campaign

The Canadian Cancer Society, since its organization some twenty-four years ago to lead the volunteer fight against cancer, has made remarkable progress in educating the population on the early symptoms of this disease when it is still possible to effect a cure and in encouraging research into its causes and treatments.

I heartily commend to all the Society's annual campaign for funds and express the hope that by the efforts of its members, the day is close at hand when cancer, which constitutes a threat to the health and happiness of so many Canadians, will be no more than a sad memory in the history of medicine, said Mr. Dieffenbacher.

SCOUT CAMPOREE TO BE HELD IN PARK WITH AN INTERESTING HISTORY

The following article deals with part of the Rainy River District where the forthcoming Lake of the Woods International Boy Scout Camporee is being held at Lake of the Woods park. The southern tip of the camp touches on Little Grassy River. Kenora people wishing to visit this camp will travel around 100 south on Hy. No. 71, turn right on Hy. No. 600, until it joins Hy. No. 621, then turn north, until the park entrance is reached.

As you travel through this western part of the Rainy River District, you will probably notice that it is relatively flat and even semi-swampy to swampy. It should be, it was all part of a large lake millions of years ago.

The glaciers had slowly and surely oozed southward - taking much of the soil off the granite Precambrian country north of here and dropped this good soil in the now fertile mid-western corn belt in what has been described as the greatest transfer of real estate on the continent. The leading edge of this glacier started melting back, stayed for millions of years on this area, depressing it and then all of this country around here became a lake, later called Glacial Lake Agassiz, as the glacier retreated. The first humans hunted mastodon and other pre-historic animals and artifacts of ivory have been found.

This extensive lake slowly vanished as the land rose and the glacier retreated further leaving the present Lake of the Woods low enough for permanent water and excellent soil over the rest of the area. As a result we have a shallow Lake of the Woods as little as 10 feet deep and averaging 30 feet in this southern portion which is dangerous to boat travel. Not only does it effect it with its large open stretches of water but also this shallowness adds to the wave size. Logging steamers around the turn of the century had to be very careful to keep out of the wave troughs and some struck bottom with damaging results.

The Sioux Indians inhabited this area at the time the first French explorers arrived in the early 1700's but primitive man, apparently Asiatic, had been here at the time of the glacier retreat. The Chippawa (or Ojibway) drove out the Sioux in the first half of the 18th century, but neither Sioux nor Ojibway know

much about those early people whose mounds they found and whose tools were so primitive that even the Sioux found them old-fashioned.

All of the western portion of this park was an Indian reservation until recently. The whole area was a very active fur trading area with LaVerendrye building Fort St. Charles in 1732. This fort was on an island on the west side of this lake, northwest of this park and its ruins can still be seen. In 1736 the eldest son of LaVerendrye with the Padre, Father Aulneau, started out with 20 men, towards Lake Superior for more supplies. They only got about 20 miles when they were massacred by the Sioux on an island as they slept the first night. These were the first white people to die in attempts to penetrate the west. The island is now known as Massacre Island and is reserved for historical purposes.

(Continued on Page 2)

Lake Starts Up From Winter's Low Of 1056.82 Feet

Spring weather suffered a setback over the week-end when the weatherman dumped a total of 8 inches of snow on Kenora and immediate district in the 48 hour period ending this morning.

For those who like to find consolation in Adversity, the men who keep track of such things tell us there was a high water content in the precipitation. At the Keewatin measuring station, for example, water content was given as .38 and .27 inches respectively, for a total of .65 of an inch of water.

At the Airport, a total of 8 inches of snow fell, with 6.7 inches falling Sunday. Snow on the ground now measures 30 inches. Total snowfall for March was 24.8 inches.

Meanwhile the benefit of further spilling from Rainy Lake into the Lake of the Woods is starting to be felt. This morning the level at the Keewatin gauge stands at 1056.98 feet, while earlier this month it stood at the winter's low of 1056.82 feet.

O-M LEAGUE OFFICIALS REVAMP CONSTITUTION

A special meeting of the Ontario-Minnesota Hockey League took place Saturday night at the Kenricia Hotel to find out if the four teams planned to return to the league next season.

All four clubs were represented at the meeting which was chaired by league president Cal Marvin of Warroad. The majority of the teams felt that they could not commit themselves as to if they will join the league or not until satisfactory league constitution has been drawn up. It was decided that District Intermediate Hockey convener, Hiro Oshiro, draw up a league constitution. This constitution will then be sent out to all four teams and each of the clubs will be able to add or delete points. The league will meet again on August 27 and it is hoped that the new league constitution will be passed by all clubs at this meeting. The clubs will also be able to commit themselves at that time as to whether they intend to return to the league for another season. The four members of the league are this year's champion Fort Frances Canadians, Warroad Lakers, Kenora Thistles and Dryden Rockets.

LET'S TALK SPORTS

By Larry Johnstone

A meeting of the directors of the Kenora Golf Club and the Kenora Curling Rink Company was held yesterday at the Kenora curling clubrooms to discuss the possibility of an amalgamation between the two clubs.

The meeting appointed six members of the golf club and six from the curling rink company to form a fact-finding committee. This committee will have the job of inquiring into the expense of different items that would be involved if this amalgamation were to come about. The committee is required to issue their different reports no later than June 1 of this year. This will give the two clubs a much better idea of whether an amalgamation would be feasible at this time.

The possible plan seems to be that the present Kenora curling rink would be torn down and a new six-sheet rink would be erected next to the present Kenora Golf and Country Club. A number of improvements would also be made to the golf club.

Keewatin Mixed 'spiel
The finals of the 23-rink Keewatin Mixed Bonselpiel took place Sunday afternoon at the Keewatin curling rink. Well known Bryan Hanstead and his foursome captured top prize in the First Event with their victory over Oscar Hensrud. The Second Event was taken by Jim Ortlieb and his quartet who defeated Harold Johnson Senior in the final game. The Keewatin 'spiel was run off most of this week with three draws every night and the semi-finals Sunday afternoon just prior to the finals. This rounds out another successful season for the Keewatin curling rink.

Johnstone Jottings

Kenora's Bryan McLay scored both goals last night as the Muskogee Zephyrs edged the St. Paul Saints 2-1 in two periods of overtime to take the International Hockey League championship in four straight games. The Zephyrs also took the league pennant this year, their second season in the league. McLay was one of their top scorers all season and Bryan expects to be home in about one week. The Prince Albert Anavets squeezed by the Marathon Mercuries 3-2 Sunday afternoon in Prince Albert to take a 1-0 lead in the Western Canada Intermediate best of five semi-finals. The next game is slated for tonight in Prince Albert. Brian Smith of the Buffalo Bisons of the American Hockey League, who played baseball in Kenora two years ago, finished up the season with 23 points including 10 goals and 18 assists. Kenora's Dennis Olson of the Springfield Indians collected 24 goals and 22 assists for 46 points this season. The Kenora Badminton Club's weekly session at the Kenora High School gym has been cancelled for this week. The club's final session of the season will take place next Monday from 7.30 to 10.30 p.m. at the high school gym. Don't forget to pick up your ticket for the Kenora Legion's Dinner of Champions slated for Monday, April 23.

KENORA SOCCER CLUB SET FOR THE SEASON

An organizational meeting of the Kenora Soccer Club took place last night at the Kenora Legion with plans being discussed for the coming soccer season. The Kenora club is a member of the Northwestern Ontario Soccer Football Association along with Cochenour, Madsen and Dryden.

The club reports that their new uniforms for the coming season will be donated by the Kron's

Transportation Company of Kenora. The club also discussed the raising of funds to cover expenses for the coming season and all players in attendance agreed to pay a membership fee of ten dollars to the club which would help defray some early expenses.

The Kenora Soccer Club executive is made up of president Oldone Costa who is also the team's coach for the coming season; vice-president and secretary Jim Alexander; treasurer John Bartkoviak and player representatives Manuel Marquis and Emilio Cassasanta. The Kenora team has called a general meeting of all Kenora players for Sunday, April 29. A meeting of the Northwestern Ontario Soccer Football League is also expected to be called in the near future at Vermillion Bay.

The possibility of Kenora having two teams this season was discussed by those in attendance at the meeting and it was felt that if there are the sufficient number of players to form a second team it would play exhibition games with the senior Kenora club. Officials of the Kenora club stated that they would like to see more high school football players come out and try for positions on the local soccer club. This would keep them in condition for the high school football season which usually gets underway just as the local soccer season closes.

The Kenora Soccer Club expects to see their first action of the season about the third week of May. Once again the home field of the Kenora club is expected to be Coney Island where they have played for the past two years.

VALUED VEGETABLE

The carrot, cultivated for probably 2,000 years, has only in recent years come to be valued for its vitamin and mineral content.

KENORA GIRLS DEFEAT LAKEHEAD SATURDAY FOR SENIOR HOOP TITLE

The Kenora senior girls high school basketball club under Pat Bouchard captured the North-western Ontario district senior girls high school basketball championship last Saturday at the Kenora high school gym over the Port Arthur Hillcrest girls. Kenora downed Port Arthur 32 - 18 in the first game and walloped the visitors 61-16 in the second contest. Kenora took the two-game total point round 93-34.

The Kenora junior girls also collected a pair of victories over

their visiting counterparts in an exhibition junior series. Kenora took the first game 17-11 and came back to capture the second game 25-18.

Norm Menzel and his Port Arthur Hillcrest Colts, Lakehead senior boys high school basketball champions, came up with a pair of wins over the Kenora senior Mustangs under coach Allan Keele. The visiting Colts defeated the Mustangs 48-44 in the opening game of the series and came on in the second contest to pick up a 48-43 decision. Ernie Surkan topped the Mustang scorers with 15 points in the first game and 18 in the second. For the Colts it was McDonald heading the point parade in the first game with 11 and Curtis Creed led the Colts scoring in the second game with 14 points.

Cancer research often requires the building of intricate equipment which not only is unavailable from commercial sources but the like of which has never been seen before. Above is one device hand constructed by a Canadian physicist to measure "radiation scatter", one of the pieces in the overall jigsaw puzzle of the solution to the cancer problem which has to be found. Like the rest of the 84 research projects being undertaken in 21 Canadian institutions this year, this will be financed by funds collected by the Canadian Cancer Society during its April campaign.

It presents the personal story of a farm woman, describing the life she has known on a farm that has already seen three generations and which her sons, educated in agricultural college, will continue to operate.

class-room or the confines of a hospital. He shares with his pals in all activities and what's most important, finds himself doing things at camp which he had not thought possible - since the emphasis is on participation at a camp for crippled children.

The \$1,000,000 objective must be reached to provide a continuance of the province-wide programme for crippled children. Easter Seals provide year-round services for crippled children. Please don't delay, return your Pink Envelope to-day.

the other provinces, and that such agreement would be beneficial to the overall economy of the country.

D.B.S. Weekly Highlights
Dominion Bureau of Statistics

Construction:
Starts on the construction of new dwellings in urban centres of 5,000 population and over numbered 3,207 in February, fewer by 16.8% than a year ago, while number of completions increased 9.5% to 6,347 units from 5,795.

Manufacturing:
Steel ingot production increased 2.3% in the week of March 24 to 121,519 tons from 118,826 in the preceding week. Warm-air furnaces shipped in January were valued at \$1,580,860, up by 4.2% from last year's corresponding total of \$1,517,500.

Transportation:
Railway freight was loaded on 60,433 cars in the seven days ended March 14, a rise of 3.3% from a year ago. Number loaded in the January 1-March 14 period rose 3.7% to 623,722 cars.

The primary purpose of soil testing is to supply individual farmers with information on the lime and fertilizer requirements of their fields.

3rd Province Signs Licence Agreement

"A third Reciprocity Agreement with respect to the operation of commercial motor vehicles between provinces was signed today, this one between the Province of Saskatchewan and this province", Transport Minister Rowntree announced today.

The signing of this agreement now provides reciprocity between the Province of Ontario and the Provinces of Alberta, Saskatchewan and New Brunswick.

Mr. Rowntree repeated his hope that before too long there would be complete inter-provincial agreement between all ten provinces. At that time, the Minister said, the benefits now enjoyed by the four participating provinces would accrue to each of

Easter Seals Provide Treatment For Handicapped

The annual theme of the Ontario Society for Crippled Children presently conducting its 16th Easter Seal Campaign, is to provide maximum treatment for every crippled child up to nine years of age, who is a resident of this province.

Through Easter Seals and your contribution, every effort is made to rehabilitate the physically handicapped child so as to enable him, as an adult, to make as nearly as possible, a normal adjustment to the life of the community.

Nurses employed by the Society are graduates of schools of recognized standing, also post-graduates on Public Health Nursing with generalized experience in this field. Their work is carried on in close co-operation with Medical Societies, Public Health Nurses, Service Clubs and other community organizations interested in the crippled children's programme. Home visits are made as orthopaedic nursing consultants; they are regular attendees at scheduled clinics; assist Easter Seal Service Clubs in locating crippled children through planned surveys; and arrange a follow-up programme with parental guidance. Education, vocation placement and recreational - all fall into the nurses' responsibility.

Camping, to the crippled child, is a way of life too, for during this two or three week vacation he lives in a relaxed atmosphere, away from the restrictions of the

New Films At The Public Library

The following films are available during April at the Public Library.

Apryl and Her Baby Lamb
Color — 13 min.

The purpose of this film is to provide a child with the whimsical and imaginative experience of having fun with a pet, to build attitudes of honesty in the return of the lost lamb to the owner, responsibility in caring for the pet, and to engender the creative interest of a child in painting, music and story telling with an enriched vocabulary.

Australia Builds
B&W — 11 min.

Australia was an unknown land a century and a half ago. Today Australia is a fast-growing nation which in the post-war period has welcomed over a million new citizens. In meeting the demands of this expansion, she has been bolstered by assistance from the World Bank which has enabled her to contribute not only to the welfare of her own people but to a more stable and prosperous world for all.

Camouflage: Nature's Protection
Colour — 10 min.

Although animals have physical protection, the greatest pro-

tection is natural coloration and markings. Careful explanations and examples include fish, fur-bearing and game animals, birds and reptiles.

City Of Gold
B&W — 22 min.

A nostalgic recollection of the period when the Yukon gold fever was at its height. The commentary is written and spoken by Dawson-born Pierre Berton.

Curious George Rides a Bike
B&W — 10 min.

A popular children's story book made into a movie. Kids will love it.

Golden Age
B&W — 30 min.

Must retirement at sixty-five mean the end of the road for older people? This film examines the question from the point of view of three men, each with a different approach to the "golden age". For one it means emptiness and futility, for another the beginning of a new career, for the third the discovery that unlimited leisure does not last.

Industrial Canada
B&W — 18 min.

The film traces the country's transformation from a strictly agricultural economy to an increasingly industrial one.

Picture Making By Teenagers
Colour — 10 min.

A convincing demonstration of what school children can do with

ROYAL BANK

Around Town

Both the Kenora Town Police and the Ontario Provincial Police report that "everything was very quiet over the weekend... nothing outstanding at all."

Two district men will attend the spring conference of the Probation Officers' Association in Toronto this week. They are Charlie P. Wingfield of Kenora and C. L. Traves of Dryden. The meeting will be held Saturday and will feature an address on "White Collar Crime" by Dr. John Spence of the University of Toronto.

ANNOUNCEMENTS

The Kenora Ladies' Curling Club will hold their Annual Banquet Thursday, April 12, at the Kenwick Hotel, 6.30 p.m. All members and spouses are welcome to attend this dinner, followed by the General meeting and presentation of prizes.

The Canadian Daughters Assembly No. 3 will be holding their meeting on Wednesday, April 11th at 8:00 p.m. in the I.O.O.F. Hall. All members are urged to attend as it is the Initiation Meeting. Prior to the meeting there will be a supper at the Kenwood Hotel at 6 p.m. Members wishing to attend please phone HO 8-6931.

The regular monthly meeting of the Ladies' Auxiliary to the Royal Canadian Legion, Branch 12, Kenora will be held on Tuesday, April 10 at 8 p.m. in the East Room of the Legion Building.

GENERAL HOSPITAL EXPANSION CAMPAIGN

NOTES

Our headliner this week was a gift of \$1,000.00 from Kenora Junior Chamber of Commerce and Kenora Junior Thistle Hockey Club. This was a real boost. Our grateful thanks to the Junior Chamber and to the Junior Thistles.

The Junior Chamber has, of course, a long history of supporting worthwhile community projects but this may be a new venture for the Junior Thistle Hockey Club. We commend these younger business men and athletes.

Mr. Frank Klassen, President of the Junior Chamber, in presenting the cheque to members of the Hospital Expansion Committee, stated that the gift was made possible by the public support of the Bingo series recently sponsored by the Junior Chamber and the Junior Thistles at the Wright Theatre.

The General Hospital Expansion Committee is therefore indebted not only to the actual donors of the gift but also to those members of the public who supported the Junior Chamber and the Junior Thistles in their fund raising activity.

Plans call for a one-day effort in Kewatin which should finish that community. There will also be a one-day effort in the Pellatt area. A one-week effort is planned to finish the Kenora - Jaffray-Melick area. This will require a great deal of volunteer help and requests for vol-

unteers are going out to local organizations.

The idea is that volunteers will be asked to devote two hours during the week of April 23rd to hospital canvassing. This may be any evening during the week that is most convenient. You will work with another canvasser and will be asked to make no more than 10 calls.

If we can get 200 volunteers, male or female, we can finish the General Canvass in one week. It is extremely important that we do so and we hope the public will co-operate. Please leave your name at our office if you can spare two hours during the week of April 23rd. Phone HO 8-9695.

Business Women's Clubs Given UNESCO Consultant Status

Renewal of International Federation of Business and Professional Women status of consultant with UNESCO (United Nations Educational, Scientific and Cultural Organization) has been accepted.

Word received by the Canadian Federation President, Miss Una Mac-

Lean, Calgary, shows that the Executive Council of UNESCO, in its 60th session, and on proposal of the Director - General, decided this admission in the category of "information and consultation" called category B.

Speaking of the renewal, Miss MacLean said, "Our Canadian Federation regularly pools its findings with those of the other 20 National Federations of the International Federation, to provide world-wide information on specific social and economic matters for the various commissions and specialized agencies of the United Nations".

She drew attention to the 16th session of the Commission on the Status of Women, meeting at United Nations Headquarters in New York, March 19 to April 6. Observers from a considerable number of international non-governmental organizations in consultative status with the economic and social council, including the International Federation of Business and Professional Women, attend the sessions of this Commission and, with the permission of the Chairman, may present the views of their organization on any item of the agenda.

"Thus, through the International body to which we belong, our Canadian organization has a channel of communication to the Commission", Miss MacLean said.

Boat Building Firm At Fort Frances Is Sold Recently

Fort Frances — Purchase of Maffey Steel Boats Ltd. of Fort Frances by Art Busch, operator of West End Welders, has been announced. The two firms are merging under a newly-formed company to be known as Fort Frances Steel and Welding Ltd.

Busch started his welding and boat-building career 35 years ago at the former Russell Bros. plant at 533 Front Street, the predecessor of Maffey Steel Boats.

As president of the new company, he disclosed plans to close up the West End Welders plant on King's Highway and move into the river-front shop of Maffey's West End Welders opened in 1947.

The combined plants will contain nine electric welding machines, eight oxy-acetylene cutting and welding outfits including two automatics and an eight-foot plate roller especially built for boat work and recently completed by West End Welders.

The new firm will manufacture steel boats of all types, from 12-footers to 60-footers, as well as fabricating steel for small building purposes. Numerous improvements in the Maffey plant are being planned.

Dear Mr. Benidickson: I have for reply your letter of March 13, 1962, asking for information concerning house construction for the fiscal years 1960-61 and 1961-62, on Indian Reserves or communities in the Kenora-Rainy River constituency. Latest reports show the following:

Fiscal Year 1960-61	
Deer Lake	No. Of Units
Pikangikum	2
Rainy Lake	1
Seine River	2
Wabigoon	4
Northwest Angle 33	1
Sabaskong	3

Fiscal Year 1961-62	
Deer Lake	No. Of Units
Pikangikum	1
Rat Portage and Dalles	9
Whitefish Bay	6
Rainy Lake	9
Lac la Croix	4
Sabaskong	2
Big Grassy	2
Manitou Rapids	1
North Spirit	1
Sandy Lake	4
Bearskin Lake	2
Round Lake	2
Sachigo Lake	1

I trust this is the information you require but if I can be of further assistance please do not hesitate to get in touch with me. Yours sincerely, H. M. Jones, Director.

MEXICAN HELP

A total of 171,000 Mexicans went to the United States to help harvest various crops in 1961, a drop of 20,000 from 1960.

Catholic Women Name Officers For Coming Year

The Annual Dinner Meeting of the Notre Dame Parish Council of the Catholic Women's League took place Wednesday, April 4th at 6:30 p.m. in the Parish Hall, with 73 persons attending. After the singing of O Canada and a prayer by Rev. Father Salamon, the President Mrs. Frank Leroux, Sr. extended a welcome to the guests and members. A delicious dinner was served by the proprietors of Joe's Place, after which Mrs. A. Fleming introduced the guest speaker, Rev. Father R. DeRoo of Holy Cross Parish, Norwood, Manitoba. Father chose as his topic His Holiness Pope John XXIII's Encyclical "Mater et Magistra" - the doctrine of social justice of the Church, as it applies to individuals, society and nations. The dignity of man is God-given and is to be upheld. "Socialization" - the multiplication of relationship, not "socialism" is what the Church strives for, for a better society - national and international. Father DeRoo urged the members to familiarize themselves with this important Encyclical. Mrs. J. N. Davidson then thanked Father for his very informative and interesting address, after which a Solo, "On This Day O Beautiful Mother", was rendered by Miss Sylvia Burton.

Nominations Convener, brought in the slate of officers for the coming year: President - Mrs. F. Leroux, Jr.; Corresponding Secretary - Mrs. A. Fleming; Treasurer - Mrs. K. Kozak; Councillors: Mesdames Dannel, Juinn, Roy., Swirhun, Everett and Dugan. Mrs. Fleming moved a vote of thanks to the retiring officers and Rev. Father Salamon installed the newly elected officers - he spoke of the responsibility of these officers to their duties and the responsibility of the members to co-operate with their executive. Following this, the regular monthly meeting took place and the business consisted of arrangements in the hands of Mrs. Duggan for the Girl Guide Communion Breakfast to be held May 6th; election of a convener to take charge of surplises - Mrs. J. C. Guellette and the appointment of Mesdames Fortier and Leroux to the visiting committee for the balance of April. Rev. Father Salamon closed the meeting with his blessing.

175 Claims At Red Lake Recorded During March

During the month of March, 1962, there were 175 mining claims recorded in the Red Lake Mining Division. Of this total, there was 1 mining claim staked in the McVicar Lake Area, 25 in the Shinbone Lake Area, 55 in Favourable Lake Area, 51 in Mulcahy Township, 7 in Bateman Township, 20 in Ball Township, 1 in Heyson Township, 1 in Byshe Township, 7 in McDonough Township and 7 mining claims in Fairlie Township.

There were 1920.5 days assessment work credited to diamond drilling, 2203 days to manual labour and 709 days to rock drilling.

Luxor Red Lake Mines and Gold Seekers Mines are carrying out diamond drilling on their properties in McDonough Township.

Also during the month there were 143 mining claims cancelled throughout the various townships and areas.

THE MISSING LINK IN CIVIL DEFENCE IS CONFIDENCE THAT SURVIVAL IS POSSIBLE

Women Of Moose Plan For Rummage Sale This Month

Kenora Chapter 785, Women of the Moose, held their monthly business night session in the Moose Hall, Norman, on Monday evening, March 26th with a good attendance of members.

Jr. Regent Evelyn Farrell presided over the lengthy business agenda, due to the absence of Sr. Regent Eva Thompson who was confined to her home due to illness.

Maquette Chairman Eva Farrell reported that there are thirty-five majorettes at the present time and they will continue to meet each Tuesday evening at 7:30 p.m. in the Moose Hall for drill under the leadership of Mrs. Beverley Adams. Co-workers are advised that a "Stanley Park"

ness. Recorder Mary Saunders read the minutes of the last Chapter and executive meetings, and the treasurer's report was given. The correspondence included many "thank you" notes from co-workers who had been ill. The many items of business were dealt with accordingly, and the reports from the conveners of the Standing and Special Committees showed that all were working diligently toward the betterment of our Chapter.

The attendance prize was drawn for co-worker Anne England and the travelling prize was won by co-worker Alda Cunningham who also was pianist for the evening. Club 25 was won by co-worker Violet Thyder. The meeting then adjourned. The next meeting will be our Chapter Night on Monday, April 9th.

Letter To The Editor

(Continued from Page 1)

fluoridation at the present time. If this is the case, I would urge each citizen to go to his own dentist or family doctor and discuss the subject

with him. Or discuss it with friends in Greater Winnipeg, where the water supply has been fluoridated since January, 1957. I too should be pleased to discuss the subject with any individual or group at any time, and answer any questions which might arise. I extend a most cordial and sincere invitation to "One Against", who has written several letters to the Editor, to drop by and discuss the subject with me. I should also be most pleased to provide at any time information regarding specific aspects of fluoridation, such as the experience in New York City and in Sweden, the reasons why a relatively small number of doctors and dentists in Canada and U.S.A. are opposed to fluoridation, the effects of fluoride on adults and children, the action of fluoride in the body's bones, kidneys and other tissues, the perplexing reasons why fluoridation plebiscites are so often defeated, and why a relatively small number of "antifluoridationists" continue to oppose fluoridation so vigorously, and determinedly and thus create doubt in the minds of many reasonable people.

Finally, as your Medical Officer of Health, I wish to assure you that no other public health measure has ever had such sound proof and such widespread approval by scientists. Just as vaccination against smallpox, pasteurization of milk and chlorination of water have produced great public health benefits, so fluoridation can produce great health benefits in our communities. As one who has attempted to weigh all the evidence fairly, I can assure you that fluoridation of our water supplies would be effective, economical and absolutely safe.

Dr. E. R. Langford.

The rapidly dwindling Australian emu, a big flightless bird related to the ostrich may stand six feet tall.

Scout Camporee To Be Held In . . .

(Continued from Page 1)

This island cannot be seen from this part of the shore as it is north of the large island called Bigsby Island that you can see to the northwest. Bigsby island was named after Dr. John J. Bigsby, an Englishman sent out in 1825 to try to settle the boundary dispute that had gone on for 50 years between Canada and the United States.

On the far side of Bigsby Island is Garden Island, an interesting one. On it a white man, John Tanner "famed". In 1789, when he was ten years old, he was kidnapped by Indians down in Kentucky to replace the lost son of one of their women. He was brought up here, grew up, lived and thought like an Indian, and married two Indian women. As he grew older, he was an interpreter for the English fur traders who supplanted the French.

Wildlife is interesting in this park with a large number of wild deer. Birds are plentiful including many that one would not see in many parts of the country. The large Osprey (fish hawk) which is not uncommon where there is shallow water, frequents Lake of the Woods. Some have nests at the top of tall dead tree trunks within the park, and from the ground, the nests look like a jumble of sticks.

There are Great Crested Flycatchers here. Anyone lucky enough to see their nest will see the only nest lined with cast-off snake skins. The Yellow Throated Vireo, a very small and uncommon bird is here, as is the Red-breasted Merganser (or Sawbill) which only frequents larger bodies of water. You will also see the colourful Scarlet Tanager, which frequents stands of mixed jackpine and poplar. Both the Red-headed Woodpecker (entire head is red) and the Pileated (large crown-sized red crested) Woodpecker are fairly common. On these long beaches you will see many spotted Sandpipers and out on the water, lots of gulls and numbers of wild ducks and maybe a loon.

The Bald Eagle frequents the area and also Turkey Vultures. The latter, the adult of which has a red head (young a black head) can be distinguished from the Eagle by its small head and slimmer tail. A rare bird for here is the Snowy Egret, the heron with the "golden slippers". It rarely ever gets this far north - maybe the sub-humid climate is good for it's sinuses. People come here for that reason, this being reputed as the driest atmosphere in Canada. As a matter of fact, it has been said that the only cactus growing wild in Canada are on islands in Lake of the Woods.

Even the huge White Pelican with its wing spread of nine feet has been observed. One was watched last summer around 100 yards off shore adjacent to the picnic area.

The writer wishes to thank the Dept. of Lands and forests of Ontario for material in the above article (quoted from the pamphlet on Lake of the Woods provincial parks.)
