Lakewood Honour Society Enjoys Tour Of Winnipeg

On Friday March 20th, the Junior Honour Society of Lakewood Secondary School travelled to Winnipeg for the annual excursion awarded by the Lake of the Woods High School Board. This year the excursion included a tour of the Winnipeg International airport, a play at the Manitoba Theatre Centre with some free time for shopping in between.

At 9 a.m., the group of 28 students under the guidance of Mr. W. Dexter and Mr. C. Kitson, left for Winnipeg by bus, arriving in the city about noon. The trip in had been very musical or noisy depending on whether the observer had been singing or listening.

The bus proceeded immediately to the airport where lunch was eaten in the airport cafeteria.

After lunch, the tour commenced with a two hour demonstration and explanation of the meteorological facilities installed and operated by the Department of Transport in the new airport terminal building. Later the group was taken on a tour of the building itself from the Data Control Centre to the observation deck and everything in between. The group spokesman, Ron Noseworthy, expressed the appreciation of the students to the Department of Transport officials who had acted as guides. The bus then returned to the city.

Free time in the city! Four hours to shop and the only visible signs were approximately 28 MAD magazines, three machetes, and the results of eating "all you want" for 89 cents. Manitoba Theatre Centre was next, which offered the group a rare chance to see professional theatre. The play itself provided material for lively discussions on the bus on the way home.

This outing was extremely interesting and entertaining to the students taking part and was well worth the time and money spent.

Mayor Norton To Star In Kin Show

Can you imagine our 5 ft. 6 inch quiet-spoken Mayor, Ed Norton, cast as a 3 ft. 6 inch Whistling Midget? Well, this is how the Kinsmen have the Mayor and Don Baker cast in their forthcoming musical comedy "Westward Ho — The Kinsmen." Mayor Norton and Don will appear each night in the comedy number "The Whistling Midgets" and from all reports this routine should provide some of the most hilarious moments in the show. The Mayor has been a loyal Kinsmen for several years and has always been an avid supporter of the Club's projects.

All citizens will be surely looking forward to seeing His Honor in this different role and full houses are expected for each evening's performance. "Westward Ho — The Kinsmen" is a three-part musical comedy that young and old can enjoy. Remember the show dates: Friday, April 3rd, Saturday, April 4th, Friday, April 10th and Saturday, April 11th. Each evening's performance starts at 8 p.m. in the Lakewood Secondary School and tickets are obtainable from any Kinsmen or at the door.

"Smiles"

A lot of people would see better days if they didn't run around all night.

Kelso Roberts To Visit Here

Toronto — Kelso Roberts, Ontario Minister of Lands and Forests, leaves here today for a three-day inspection tour of northwestern establishments in Red Lake, Pickle Lake, Kenora and the Lakehead cities, Fort William and Port Arthur.

Madsen Red Lake Mine Shows Increase Profit

Toronto — Madsen Red Lake Gold Mines Ltd. had net profit of \$683,981 for the year ended Dec. 31, 1963 compared with \$657,920 the previous year, says the firm's annual report.

The company owns and operates a producing gold mine in the Red Lake area of Ontario. Working capital during the year rose slightly to \$1,972,424 compared with \$1,942,145 in 1962, President M. K. Madsen said. Ore reserves increased by 7,200 tons to 852,000 tons grading .33 per cent gold per ton (\$11.55).

Marie Helen Martin Called To Rest Saturday, March 28

Mrs. Marie Helen Martin, of 5 Seventh Ave. S., Kenora, was called to rest at St. Joseph's Hospital, Saturday afternoon, March 28, following a short illness. Born in St. Agathe, Manitoba, August 3rd, 1891, she was 72 years of age.

She came to Kenora when two years of age, and received her education at Kenora schools. She was a member of St. Alban's Pro-Cathedral.

Predeceased by her husband Oscar in 1959, she is survived by three daughters, Mrs. G. (Eleanor) Bjorn Dahl and Mrs. E. A. (Helen) Dawson both of Winnipeg; and Mrs. H. (Audrey) Reishel of Kenora; two brothers Arnie and Fred Poirier both of Kenora and one sister Mrs. G. E. (Fleeta) Sjaholm of Los Angeles, California. Five grandchildren and one great grandchild also survive.

Funeral services will be held Tuesday afternoon, March 31 at St. Alban's Pro-Cathedral at two o'clock. Dean L. M. Watts will officiate and interment will be in the family plot, Lake of the Woods Cemetery.

Pallbearers will be Messrs: Len Howard, F. Dufresne, R. Reishel, Gordon Peterson, F. Alcock and R. Poirier.

Marie Poirier Former Resident Dies In Vancouver

Marie Adeline Poirier, former well known Kenora resident passed away at her late residence 8215 Selkirk Street, Vancouver, Saturday, March 28. Born June 2, 1887 in Prince Albert, Sask., she was 76 years of age. She was a resident of Kenora from 1921 until 1943 when she left to take up residence in Vancouver. Predeceased by her husband Joseph in 1940, she is survived by one

daughter Mrs. M. (Suzanne) Ternes of Vancouver; five brothers, Fred, Wilfred, Bert, Harold and Nelson Lecroix all out west and two grandchildren.

Funeral services will be held in Kenora in Notre Dame Church, Wednesday morning, April 1st, at 9.30. Rev. Father Julian Jalbert will officiate and interment will be in the Roman Catholic Cemetery. Pallbearers will be Messrs: George Harlins, Terry Sweeney, Gerry Duggan, John Landry, Edgar Lebleu and Frank Horan.

Prayers will be said in the Chapel of the Brown Funeral Home, Tuesday evening, March 31st at eight o'clock.

Golf Club Names New Directors

At the 41st annual meeting of the Kenora Golf and Country Club held last week, three directors were elected for three year terms. They are: Charles McCoy, Webb Engstrom and Gerald R. Browning.

Also elected were four Honorary Presidents, Dr. J. P. Paton, Dr. R. G. Davidson, Mr. L. A. Toole and Dr. J. H. Johnson.

Annual reports showed a good year had been enjoyed during the 1963 season and plans were advanced for this year.

Officers will be elected at the next meeting of the Board of Directors, GOLF PRO

The Kenora Golf and Country Club announced today that Ronald Fiddler, of Winnipeg will be the Club professional and manager for the coming season. He is expected to arrive here shortly.

Mr. Fiddler was a member of the Manitoba Willingdon Cup team and last year was professional at the Portage la Prairie Club.

Mr. Fiddler will bring his wife and two children with him to Kenora. Mrs. Fiddler will assist at the clubhouse.

James Link, 90, Former Resident Dies In Vancouver

Word has been received in Kenora of the passing of James Arthur Link, of 1565 Fulton Avenue, West Vancouver, former well known Kenora business man. The death occurred March 21. He was 90 years of age.

The late Mr. Link operated the business of Link and Henderson for many years at the Second Street location. After Mr. Henderson retired, Mr. Link carried on the business himself, then sold out to Phil Dufresne. His first business, was the livery business with offices where the old coal sheds are now, across from the Thistle Rink. He then enlarged to include coal, wood and ice as well as transfer. Prior to that in 1900 he was a contractor for making lathe for the old Rat Portage Lumber Company.

Interested in hockey, he was the trainer of the Thistles when they won the Stanley Cup in 1907 and was trainer for the team the year previous when they played in Ottawa. He also was a well known Lacrosse player.

He served as an alderman for the Town of Kenora for some years. He left to reside at the Coast a few years ago.

Funeral services were held March 24 at the Holyburn Funeral Home

with the Rev. C. F. Wilkins officiating. Cremation followed. Local citizens attending the funeral were: Mr. and Mrs. Ernie Fortier, Mr. and Mrs. Jim Fielder and Mr. and Mrs. Charlie McGimsie.

Police Report Two Accidents During Weekend

The Kenora Police Department reported two minor accidents over the week-end. At 10:50 p.m. on March 29th a 1961 Studebaker driven by Donald Petch of Kenora was in collision with a 1963 Dodge operated by Eva Thomson of Kenora. Damage to both vehicles is believed to be over \$100.

Mr. Petch was travelling south on Matheson Street and the Thomson vehicle was attempting to make a left turn off First Street North onto Matheson when the mishap occurred.

The second accident took place on Second Street at 2:45 p.m. on the 29th. A 1959 Vauxhall operated by David Balchin of Keewatin was struck from the rear by a 1959 Oldsmobile driven by Mitchell Vodrey of Kenora.

Mr. Balchin was stopped in a traffic line-up when the Vodrey vehicle proceeding east, slid into the rear of his car.

Damage is estimated to be under \$100.

Fire Destroys Home Saturday Near Keewatin

A fire Saturday evening, completely destroyed the one storey home of Edward Page about one and a half miles west of Keewatin on highway 17.

The Ontario Provincial Police were called to the scene by the Keewatin Police Department at 11:30 p.m. The fire at this time was raging out of control. No one was at home when the fire broke out and the cause of the blaze has not been determined.

Break In To Local Store Last Night

The Kenora Police Department reported a break-in at the Marshall Wells Hardware store on Second Street. The business was entered through a rear window sometime last night. It was discovered at 8:30 this morning by the Manager when he arrived at work.

Police say an office window inside the store was also broken to gain access to the office.

It is not known if anything was taken and Police have the matter under investigation.

AT KEEWATIN DELEGATES ARRIVING FOR TEEN CONFERENCE

Today is registration day for the delegates who are attending the 12th Annual Northwestern Ontario Youth Conference in Keewatin. The Kenora Teen Club is the host this year for the first time.

Delegates will be arriving throughout the day from points such as Marathon, Port Arthur, Dryden, Nipigon, Fort William, Emo, Terrace Bay, Geraldton, Red Rock, Manitowadge, Schreiber, Beardmore and Kenora.

A total of 20 delegates is expected to attend along with 28 councillors. The conference will be in session until Thursday, April 2nd at which date the representatives will depart for their respective homes.

The theme of the conference is "Advancing Youth". Principle speaker will be Doctor Grapho, acting di-

rector of the child psychology department at the University of Toronto.

A "Welcome Stranger Dance" will be held this evening to acquaint the delegates with one another.

WEATHER FORECAST

Cloudy with snowflurries, clearing this afternoon. Sunny with a few cloudy periods on Tuesday. A little milder. Winds northwest at 15 miles per hour this afternoon, otherwise light. Low tonight and high on Tuesday at Kenora will be 5 above and 30 above.

Temperature at two o'clock this afternoon was 22 degrees above with winds west-northwest at 12 miles per hour. Relative humidity stood at 72 percent.

NODA REPORTS ON HAPPENINGS AS THEY AFFECT AREA IN FEBRUARY

The Northwestern Ontario Development Association reports on the following items:

NORTHWESTERN FARM LOANS HALF-MILLION

The Farm Credit Corporation in 1965 approved 49 loans totalling nearly \$500,000 to farmers in the 3 districts of Northwestern Ontario, announced Peter McDougall, credit adviser in charge of the district office. The total in 1962 was \$350,000.

Principal uses of the loans were for livestock and land purchases and debt consolidation. Beef cow-calf operations are growing throughout

the farm region.

BASIC WORK-STUDY COURSE IS PLANNED

Limited to 25 participating students, a two-week course in effective application of work-study methods in industry is planned at the Lakehead June 15-26. The course will be one of five to be given in different sections of Ontario. Co-operating with the economic council of Canada and the Ontario Economic Council in the program of NODA.

The courses, designed to be especially helpful to smaller industries, will include instruction in methods analysis, motion economy, time systems, plant layout, materials handling and office procedures.

Information concerning the location of the course, registration fees and so on will be made available to interested industries as soon as possible. Top authorities in various fields will conduct the courses.

WELLAND CANAL TOLLS OPPOSED BY REGION

Vigorous appeals to the federal government to reconsider its decision to reimpose tolls on the Welland canal were forwarded by the mayors of the twinports of Fort William and Port Arthur and by NODA on behalf of Northwestern Ontario, in recent days.

Protests were made directly to Prime Minister Pearson and the minister of transport, Hon. Mr. Pickers-gill.

Reimposition of tolls was viewed as detrimental to the economic growth of Western Canada and a brake on development of traffic on the Seaway route.

CN TRANSCONTINENTAL REROUTING UNLIKELY

Rainy River and Thunder Bay District organizations including NODA, have been informed by the CNR that the problem of providing rail passenger service through the area does not lie in the rerouting of one or the other of CN's transcontinental trains.

Proposed changes it was stated, "would seriously disrupt the whole pattern of main line service and cause the loss of substantial amounts of mail, express and passenger revenues."

However, the CN is studying the situation and will examine every possibility of improving service.

10 GEOLOGICAL TEAMS ASSIGNED NORTHWEST

Ten of 25 geological field crews to be active in the province this year will work in Northwestern Ontario, it was announced by the Ontario Department of Mines. Every area of the Northwest will be under geological scrutiny.

Merchandise: Department store sales in the week of March 7 were valued 20.1% above those in the corresponding 1965 period, while February sales were placed at 15.1% above a year ago.

Don't Teach Them To Read Too Young

TORONTO — Children should not be taught to read in kindergarten classes, J. R. McCarthy, superintendent of curriculum for the Ontario Department of Education, told the Ontario Federation of Home and School Associations.

There will always be five-year-olds with a mental age of 6½ who can read, but the proportion will be small, he told 1,000 delegates attending the federation's annual convention.

He emphasized that the duty of a school is to allow for the maximum development of each child, intellectually, socially, physically, and morally, with recognition of his individual differences.

A child starting too young may continue through the grades but there will come a time when he is not promoted and he will get the idea he is a failure, Mr. McCarthy said. He said a school, at any level, should never set out to provide experience in failure.

FROM CAVES OF ROME. Scientists found this perfect specimen of a young Roman girl, preserved more than 1,800 years, in the caves under Rome. The girl was about 13 years old when she died. A scientist from the Home Institute is shown examining the mummy. — TNS Photo

Exploring the grade system as being too rigid, Mr. McCarthy said that assessment of a child's rate of achievement must be measured against his ability and not against the rate of progress of the others in the class.

This is one area in which parents really work against the best interests of their children, he said. Parents should seek out how the child fares against his own potential without regard for others in his class about whose mental ability and background they know nothing.

CPR Using 2-Way Radios In Chapleau Division Now

CHAPLEAU — For perhaps the past 10 years or so, the Canadian Pacific Railway has been experimenting with the use of radios for train crews in the interests of efficiency, accuracy and safety.

For a number of years in other territories to the west two-way radio communication between train crews has been in use. During that time, testing has been going on with train-radio communication between members of the train crew with the idea of using them for this particular territory, the Schreiber Division.

D. W. Alexander, assistant superintendent at Chapleau said that satisfactory results have been achieved, the Schreiber Division has now been equipped with portable train radios.

These provide communication between the train crews and engine crews. Also equipped with radios are the yardmen in the division. Both yard crews and train crews are able to communicate with the yardmaster.

This marks the first use of two-way radio communication between the train crew members, engine crew, and yard offices on the Canadian Pacific railway lines east of Fort William.

Use of radios in the yards started on March 2, and on road service March 19, throughout the division.

These radios are compact, lightweight, units, the latest in transistor equipment, powered by flashlight batteries to reduce the weight of the unit carried by the trainmen. Clear reception is obtained up to two miles under all weather conditions. Under ideal weather conditions they have been known to give clear reception up to 23 miles at certain locations. At a later date it is planned to equip all diesel units with transmitters with an operating range up to 25 miles.

For this particular division extensive testing was done before the type of radio was decided upon. Use of radio throughout this territory, Alexander felt, may have been delayed until more suitable equipment had

been designed to reduce the weight of individual units.

The Schreiber Division as far as the use of radio is concerned presents definite difficulties because of the terrain which includes hills, rock cuts and other natural obstacles. The roadbed through the division is a winding one with many curves. Add to all this weather conditions through the winter months with extreme cold, generally abundant snow and severe storms. These have all been factors which have contributed to the difficulty in maintaining schedule times and in handling trouble encountered.

Social Insurance Number Project To Begin April 11

A nine digit number, designated as the Social Insurance Number, will be issued beginning April 1 to all employed Canadians with the exception of those engaged in agriculture, those in private domestic service where there is only one employee, and members of the armed forces.

As the Minister of Labour, Hon. Allan J. MacEachern, has explained, the issuance of the Social Insurance

Number is being carried out for a number of reasons, one of the paramount being a means to better government record-keeping. The Glassco Commission has suggested that a single numbering system should be established to do away with multiplicity of numbering systems in government departments.

At the Unemployment Insurance Commission, the situation has been that the growth in the labour force and the use of electronic data processing has made the old UIC number obsolete. Therefore, it was felt that a good starting point for the new numbering system would be the operations of the Unemployment Insurance Commission, and the UIC has been assigned to carry out the numbering project. This new num-

bering system will be introduced in conjunction with the annual renewal of unemployment insurance books that will take place, as usual, this spring.

The Social Insurance Number will be issued to all employed persons whether they are covered by unemployment insurance or not. And it is to be noted that it will be broad enough and flexible enough to be adapted to the "record-keeping required for the proposed pension plan and other social security measures."

There has been some talk that there is a link with the project and extending coverage under unemployment insurance. However, there is no consideration in the Social Insurance Number project of broadening the group who will pay unemployment insurance.

When the project gets underway April 1 employers will have a supply of application forms. And it should be mentioned that an employer for the purpose of the numbering project is one who has at least one full or one part-time employee on payroll.

The employee will obtain an application form, fill it out completely and accurately, sign it and return it to the employer. Then the employer will send the application form to the nearest office of the Unemployment Insurance Commission. The Social Insurance Number will then be sent back to the employer in the form of a three-part card.

The first section of this card will have the Social Insurance number, surname and at least two given names where applicable and will have the employee's signature affixed. This section will be most useful and handy if it is kept in a wallet or purse but there is absolutely no compulsion that the card be carried. However, it would be handy, for example, for those who are from time to time seeking or changing employment so that they may make their number known to their employer immediately. Section two is a duplicate and will have in addition the old UIC number where applicable. This section is to be put in safe-keeping it is suggested. The third portion will be retained by the employer. It will bear the Social Insurance Number, old UIC number where applicable, the surname and at least two given names where applicable. It will show in addition the day and month of birth but not the year.

This third part is to be retained by the employer until such time as the new account number has been recorded on all employee and/or payroll records, at which time it may be destroyed.

An employee who has two employers must ensure that the second employer is advised of his Social Insurance Number. He must not obtain a second number under any circumstances. Officials of the Commission emphasize that only one application form is to be completed.

If an employee has never had an unemployment insurance number he will register for a Social Insurance Number, says the Commission, and points out that if a person has at present an employment insurance number he will re-register for a Social Insurance Number which will replace the present unemployment insurance number.

Five Regional Processing Centres are being planned across Canada where application forms will be funnelled from the local offices. These regional centres are at Montreal, Toronto, Winnipeg, Moncton and Vancouver. Montreal, Toronto and Winnipeg will also act as embossing units for the duration of the project and will be responsible for producing plastic name plates for unemployment insurance books. The plastic plates for the Moncton regional centre will be produced at Montreal; Vancouver's will be produced at Winnipeg.

D.B.S. Weekly Highlights

Dominion Bureau of Statistics

Labour: Some 6,223,000 persons were employed and 467,000 unemployed in Canada in February, virtually unchanged from January. In previous years, employment has usually declined somewhat during this period and unemployment has tended to rise.

Manufacturing: Steel ingots produced in the week of March 21 aggregated 178,706 tons, up by 6.9% from the preceding week. More washing ma-

chines, automatic clothes dryers and individual electric home and farm freezers but fewer refrigerators were shipped by producers in January this year as compared to last.

Sales by department stores in the week ended February 22 were valued 13.6 per cent above those in the corresponding 1963 period. All provinces contributed to the advance.

Baseball games at the crippled children's camps are one of the popular activities not only with the teenagers, but also the junior campers of six or seven years. The Ontario Society for Crippled Children has five camps that provide summer holidays for more than 1,200 children. All campers participate in camp activities to the best of their ability and are therefore taking part in a competitive manner that is not possible the rest of the year. Easter Seal contributions have built these camps and have sent the children on these vacations for 25 years. Camping for crippled children is just one of the many services that the 1964 Easter Seal campaign objective of \$1,000,000 will fulfill this year.

When I graduate from High School, I'd like to work for a large organization — but would I get individual "coaching" to help me move right ahead?

YES—that's one of the big advantages at Royal Bank

Royal Bank ranks as one of the world's largest financial institutions, with more than 1,100 branches in Canada and abroad.

Yet each Royal Bank branch operates much like a local business, with a relatively small staff. This means that in the branch where you start, and others where you'll go for extra experience, your training and progress will be the personal concern of the manager. And he will help and encourage you in further studies, including special bank courses and training schools that give you valuable preparation for a banking career.

YOU CAN AIM FOR THE TOP AT THE ROYAL

Most of our managers came to us right from High School, were put in charge of their first branch by their mid-thirties. Senior officers, right up to the top, started the same way.

At Royal Bank, your aptitude, your desire to work and get ahead, and your talent for dealing with people are the things that count.

Staff benefits include an outstanding pension plan — group life insurance — health and hospital insurance — generous sick leave and vacation policies.

For further details, ask at any Royal branch for our booklet, "Your Future in the Royal Bank". Or have a talk with any Royal Bank manager about the interesting work and the human and financial rewards awaiting you in the challenging, growing field of modern banking.

ROYAL BANK

Medallions To Mark Hockey Anniversary Given At Warroad

Hiro Oshiro journeyed to Warroad over the weekend as Thunder Bay Hockey Association representative to assist with the playoffs between the Warroad Lakers, Thunder Bay Intermediate A Champions and the Flin Flon Warriors, Manitoba Champions.

During the weekend, Bob Alexander, President of the Manitoba Hockey Association presented a medallion to each player, and official commemorating the fiftieth anniversary of the Association in Canada. The medallions larger than an American silver dollar were struck at the International Nickel Company. They are most attractive and are

big enough to be used as a paper weight etc. They are most eye-catching and a fitting memento of the occasion.

The opening game was a real thriller and saw Warroad take the game with a 7-5 score over Flin Flon.

Mando - Forester Explains Multiple Use Management

Advantages to the public of "multiple-use" management of forest lands were stressed by F. T. Frederickson, Minnesota forestry supervisor for the Minnesota and Ontario Paper Company, International Falls, to a regional meeting of the Lake States Council of Industrial Foresters Wednesday at Eagle River, Wisconsin.

Frederickson explained that in addition to some ten million acres of commercial forest lands in Minnesota owned by federal, state and county governments, about 500,000 acres of tax-paying, industrial tree farm lands are also open to the public for hunting, fishing, camping, picnicking, canoeing and other outdoor activity. Contrasting this policy with "single use" treatment applied to some non-industrial forests, he pointed out that company lands are not restricted solely to timber production but provide a wide range of recreational activity as well.

In his capacity, Frederickson is responsible for supplying Mando's paper and insulation board mills at International Falls. The prepared supply area embraces about 2,469,000 acres of land in mixed ownership within a 100-mile radius of the mills. The company obtains a part of its supply from its own tree farm lands totaling about 300,000 acres within this supply area.

Describing Mando's efforts on behalf of recreationalists using company tree farm lands, Frederickson indicated that a public campground maintained on Bass Lake in northern Itasca county has been open to the public for almost ten years. Last year 600 individual parties from eleven states registered there for camping. It is also popular with Boy and Girl scout troops, and is used extensively by local people for picnicking. Wells, picnic tables, fireplaces and sanitary facilities are provided without charge.

The largest part of the Company's operating area lies in the lake bed of the old glacial Lake Agassiz which supports extensive stands of black spruce. Major recreational use of this area is for hunting and trapping and more recently, float trips down the Big Falls and Littlefork Rivers for fishing and wilderness camping.

On Mando lands, annual hunting and campsite leases are granted to individuals at low cost. There are 45 such leases in effect now covering one acre each. Forest access roads in effect now covering one acre each. Forest access roads have

been constructed and made available to hunters and other recreationalists who are permitted to use them except in cases where there is extreme fire hazard or when the roads would be seriously damaged by vehicles in adverse weather.

In its timber cropping program, Mando leaves uncut areas along main highways and lakeshores, and maintains them in scenic condition by cleaning up dead, down, and over mature trees as the opportunity presents.

On Rainy, Namakan and Kabetogama Lakes, company foresters have made a survey of Mando's lakeshore lands, classifying them as to their value for public camping or for summer home sites. Four such sites have been planned for sale of lots for this purpose.

Mando is co-operating in a program of the Big Falls Commercial Club in the development of river access points, primitive campsites and zoning limited areas for summer home sites.

"Mando recognizes the potential for good will in the management of its forest lands and in making them

available for recreational uses, where this can be done without interfering with the timber production on these lands," Frederickson said. "We recognize that as landowners we have some responsibility for maintaining our lands, not only in productive condition for timber growth but also in protecting the scenic values where we can do so without great economic sacrifice," he added. "We also recognize that we have some lands in timber production now which have or will have more value for recreational and agricultural uses, and our policy is to make them available for these purposes."

Open, multiple-use policies present some problems for private landowners, Frederickson described the difficulty of maintaining woods roads rutted by deer hunters traveling during the critical fall season. "No all deer hunters are so inconsiderate as to drive their cars as far into the woods as they can go before bogging down, leaving the roads in a rough and hazardous condition for winter pulpwood logging. Most hunters do co-operate during high fire danger periods," he said.

High School Pupils
To See Scenes
From Shakespeare

Scenes from Macbeth, The Taming of the Shrew, As You Like It, and Twelfth Night, will be performed for local high school students when the Manitoba Theatre Centre provincial tour is seen here Monday, April 6th at 3 p.m. in the Lakewood auditorium.

The program is patterned after the Shakespeare Goes To School tour of 36 high schools in greater Winnipeg earlier this fall. Specifically designed to familiarize students with plays in the curriculum, the hour-long program has proven very successful in bringing to life

what often seems dull on the printed page. The players provide a infusion of props, and the excitement of a live performance. The students provide imagination and enthusiasm.

Jack Medley, Anne Butler, Nicholas Simons, and Bena Shuster will be seen in the production which was directed by Robert Sherrin. They will also be seen in the major production of the MTC provincial tour, the sparkling Noel Coward comedy, Private Lives. Mr. Medley has already played the role of Elyot in MTC's Private Lives and took leading parts in The Hostage and A Midsummer Night's Dream. Mr. Simons was also seen in The Hostage, Pygmalion, and A Midsummer Night's Dream. Miss Butler has toured with the Canadian Players, and is frequently seen on TV. Miss Shuster is well known in Canadian theatrical circles, and has appeared with the Chamber theatre in Israel. In the evening the MTC players will present Noel Coward's Private Lives, under the Rotary Club sponsorship. Tickets are available from any Rotarian and usual downtown outlets.

Parcel Post Rates
In U.S. Go Up
On April 1st

International Falls — Acting Postmaster Larry Sheehy reminds residents of International Falls and surrounding area that an effective date of April 1 has been set for new domestic parcel post rate increases.

The parcel post increase — approved recently by the Interstate Commerce Commission and averaging about 13.1 per cent — is expected to yield about \$75.4 million annually.

Catalog rates will be increased approximately 13 per cent and will produce added revenue of about \$2.4 million if 1962 volume is maintained.

The higher rates do not effect

air parcel post or international parcel post.

Postmaster Sheehy said he has been advised by Postmaster General John A. Gronouski that the decision of the ICC will assist the Post Office Department in carrying out its objective of reducing the drain on the Federal treasury by \$100 million.

The last parcel post increase was on Feb. 1, 1960, the postmaster pointed out.

To illustrate the effect of the new rates here, Sheehy noted that a six-pound parcel, which is the average weight for local area delivery will cost 37 cents instead of 32 cents.

MILK SALES INCREASE

OTTAWA — Sales of fluid milk and cream in milk equivalent totalled 521,270,000 pounds in January, an increase of four per cent from January of last year, the bureau of statistics reported Monday.

REVENUE BARRIERS

NORTHWESTERN ONTARIO PROJECTS COULD EXCEED \$100 MILLION IN 1964

Capital expenditures on new and expanded industrial and commercial projects in Northwestern Ontario might exceed \$100 million in 1964. The surge of new growth is gathering momentum, embracing new plants, utilities, communications, transportation and services. Noted in recent weeks by the Northwestern Ontario Development Association are the following major enterprises:

Great Lakes Paper Company will build a \$31 million kraft mill at Fort William-Neebing. It will occupy a site adjacent to the existing newsprint plant and will have a capacity of 200,000 tons of sulphate pulp per

year. The mill will be financed without recourse to public financing. The plant will be completed in 1966.

Huron Chemicals Limited of Toronto will build a \$300,000 plant for the production of sodium chlorate at Marathon. Marathon Corporation of Canada Limited will take at least two-thirds of the plant's output in initial years for its mill operations. It will come into production by mid-year.

Canadian Car division of Hawker-Siddeley Canada Limited, at Fort William, will build subway cars for the Toronto Transportation Commission's subway system. A contract totalling \$16.4 million was awarded to the company for more than 360 new cars. The order will provide employment for 400 workers at the Fort William plant for 18 months and 700 additional jobs in the province in subcontract work.

Canadian Charleson Limited, Atikokan, will resume iron mining op-

erations this year, with a reported productive objective of 200,000 tons. Up to 90 men will be employed when operations reach peak activity. The mine did not operate in 1963.

Northern Wood Preservers Limited, Port Arthur, completed final installations in its new sawmill, specializing in studs, railway ties and birch lumber. The plant has a capacity of 15 million board feet a year and will employ 70 in mill and woodlands operations, providing a payroll exceeding \$300,000 annually.

Geico Mines Limited, major copper-zinc-silver producer at Manitowadge, will build a \$800,000 recreation centre to serve the 3,000-population metal community. The centre will embrace a regulation-size skating and hockey arena, a four-sheet curling rink, and an auditorium to accommodate 250, at social functions.

Lakehead College officially opened the first unit of a \$3,750,000 University Centre - the \$730,000 University Centre. In order, will follow a lecture room wing, university library and arts administration centre. The college now has 315 full-time and 400 part-time students.

Northwestern Ontario's pulpwood harvest for the season ending March 31st is estimated to total 2,305,000 cords, an increase of 2.2 per cent over the year previous. The total included more than 650,000 cords purchased from farmers, woodlot owners and smaller licensees in the area from Hearst to Manitoba. The labor force reached a peak of 5,919.

Rainy Lake Hotel, Fort Frances, renovated at a cost of nearly \$100,000, was opened with appropriate ceremonies attended by hundreds of citizens. Prefect George Walmesley and his associates in the hotel were congratulated for their enterprise and faith in the future of the border community.

Construction was advanced on a \$75,000 addition to the Nor Shore Motor Hotel at Port Arthur owned by Michael Zale.

Rainy River Arena, valued at \$100,000 was opened formally amid community rejoicing at the railway centre. Built under direction of the town's Kinsmen Club with much of the labor on a voluntary basis, the fine new community asset has an outstanding debt of only \$1,000.

Canadian Imperial Bank of Commerce awarded Gateway Developments Co. Ltd. the contract for building a branch bank building at Port Arthur (Bay Street) at a price of \$34,580.

Work is underway by Sead and Lindstrom Ltd. in the \$70,000 nurses' residence at Geraldton.

Matthews Construction of London, Ontario was awarded the \$380,270 contract by the Ontario Water Resources Commission to construct a sanitary trunk sewer at Port Arthur.

Announcement was made by Mayor Reed of Fort William that work on a \$1 million Ontario Department of Highways regional headquarters complex is expected to begin early this year. The project involves administration equipment, storage and workshop buildings on a 26-acre site.

Fort Frances publisher R. H. Larson announced plant expansion by 2,000 square feet to accommodate installation of a roll-fed newspaper press and other modern equipment. The additional facilities will enable the newspaper and magazine publishing plant to undertake production of a second magazine.

Atikokan welcomed its first downtown motel - the Radisson of Tyndall stone and redwood. The building provides five units at the moment but seven more are planned.

Steel mills in the U.S. use 3,000 trillion gallons of water a year.

"Quick Hints for Better Health"

by J. B. Gladstone,
Editor, Healthful Living Digest.

Need more vigor? Try Garlic

About the last place you'd expect to see a reference to garlic is in a book on Beauty. But Dr. Howard Crum, noted skin specialist, in his book lays great stress on the value of garlic as a builder of health. And health, he states, is the foundation of beauty. "Few people of refinement and culture," remarks Dr. Crum, "seem to understand or appreciate the value of garlic." He points out that many Europeans eat large quantities of it and almost without exception where this is true you will find a healthy people.

Dr. Crum explains how he first discovered the value of garlic. "For many months I was utterly exhausted, regardless of whether or not I exerted myself." Doctors found nothing wrong with his health, yet it was almost impossible to do his regular work because of this great feeling of tiredness.

A friend suggested garlic. Within 3 days he found a tremendous improvement in his stamina. "I was free of fatigue even after doing the hardest kind of physical work, and have so continued to this day. I take but one tablet each day."

He concludes: "I believe garlic should be used daily just as we do milk and green vegetables."

Odor problem solved at last

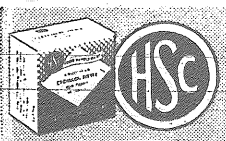

The special HSC brand of Garlic and Parsley tablets have been prepared to give you all the health benefits of garlic without the social hazard of "garlic breath". By drying the garlic and adding dried parsley leaves, the odor-creating power is lessened and neutralized. A special coating on each tablet prevents dissolving until after it's swallowed.

Ask your druggist for a trial size (30 tablet) box of HSC Garlic and Parsley Tablets (\$1.25) tomorrow. Take one each night at bedtime and if you don't agree you feel better within only 15 days, then simply return the balance to your druggist and he will cheerfully refund your money.

Free Health Book

Help yourself to better health. BIG DAY FOR URSULA

In his office in the House of Commons, Federal Minister of Mines and technical Surveys, Wm. M. Bendickson, congratulates pretty Ursula Glander, 22, on being chosen Miss Mines and Tech for 1964. Miss Glander, who is employed as an electronic data processor, will represent the mines department in the forthcoming government-wide contest to decide who will be this year's Miss Civil Service. She came to Canada ten years ago from Lemwerder, a little town outside Bremen, Germany. If she makes it, it will be the first time Mines and Tech have ever had a winner.

LI'L PEDRO -

- By de la Torre

Onion On Hands

To remove that disagreeable odor from your hands after you've been peeling onions, rub your hands with raw celery or parsley before trying to wash them. Or, wet the hands with clear water and then rub them thoroughly with salt.

Spilled Grease

As soon as grease has been spilled on your kitchen floor, pour ice water over the area. This will make it harden before it has a chance to penetrate into the linoleum, and you can scrape it off with a dull, flat-bladed table knife.

Weatherproofing Wood

To make wood durable and weatherproof, cover it with several coats of hot linseed oil varnish.

NAPOLEON — By McBride

RESCUED HABS. Vezina Trophy for best NHL net-minder went to 31-year-old Charlie Hodge. Hodge replaced Gump Worsley in Montreal Canadiens' goal last October after Worsley suffered shoulder injury. He played brilliantly enough to allow underdog Canadiens to win this year's NHL pennant, and helped the Habs into the Stanley Cup playoffs. —TNS Photo

Senate Investigator's Told Clay Agreed On Subterfuge

WASHINGTON — Cassius Clay agreed on "subterfuge," in setting up a rematch with Sonny Liston and posted half his purse from their heavyweight title fight as a guarantee, Senate investigators have been told.

"We didn't like it, we don't like it, but we had to swallow it... because Clay wanted to fight for the title," said Gordon B. Davidson, attorney for the Louisville, Ky., group sponsoring Clay.

Testifying Thursday before the Senate antitrust and monopoly subcommittee, Davidson strongly endorsed a proposal the subcommittee is considering for setting up a federal boxing czar.

He said there now is no ruling body to force a champion to meet the top-ranked contender. "If you have a byer, there is no place you can appeal," Davidson said. "You have to deal with the heavyweight champion."

The subcommittee is studying

circumstances surrounding the Feb. 25 fight when Clay won the title as Liston failed to answer the bell for the seventh round. It wound up three days of hear-ings and will resume Monday.

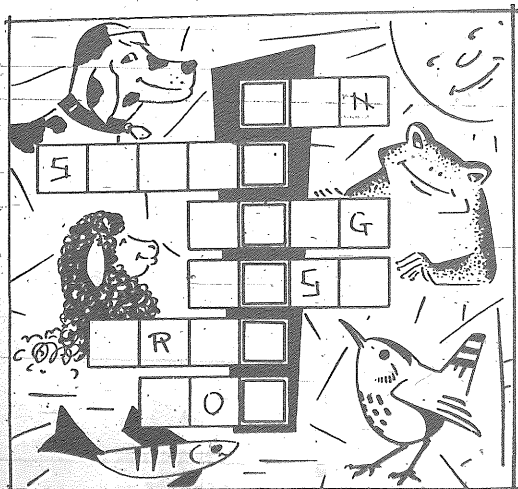

When negotiations began for the Liston-Clay fight, Davidson said, Liston's advisers said they were willing to negotiate on money and other terms, but the rematch with 50 per cent of the purse going into escrow was not negotiable.

As written, the rematch clause does not specifically call for a second Liston-Clay fight. It provides that Inter-Continental Promotions, Inc., a firm organized to promote Liston's fights—and in which he is a stockholder, has the right to promote Clay's first fight as champion and to select his opponent.

REACHES SCHOOLS

The BBC's school broadcasting department sends out 50 sound transmissions a week, reaching more than 29,000 schools.

SOCIAL SCENE

Mrs. Robert McLay has joined her daughter Miss Roberta McLay for an Easter holiday in New York city.

Has the Government Travel Service used a picture of the picturesque rock-cut near Granite Lake for its colour advertisement entitled "Holiday in Canada" which appears in the March issue of the National Geographic Magazine?

Jack Shea brought the issue to our attention and we are inclined to agree with him. The picture caption identifies the photo as a Northwestern Ontario original, and it could be that we have "made" the Geographic for the second time in a few months.

Master Kirk Morgan who is attending the Ontario School for the Deaf, Belleville, Ontario, arrived home Friday night to spend the Ea-

ster holidays with his parents Mr. and Mrs. Jim Morgan, 105 Mellick Ave. His grandpa McCulluch accompanied him from Fort William.

BRITTS

MUNROE — Gilbert and Carol (nee Ferguson) are happy to announce the birth of their daughter Susan Barbara on Sunday, March 29th at Misericordia Hospital, Winnipeg. Weight 6 lbs., 4 oz. A wee sister for Carolyn.

LAX — Michael Lax wishes to announce the arrival of his baby sister Gaelyn Elizabeth, on March 27 at St. Joseph's Hospital. Weight 7 lbs., 13 oz. Proud parents are Glynida and Wayne Lax.

REID — Mr. and Mrs. Bud Reid (nee Higgins) are pleased to announce the birth of their son Wesley James on March 25, 1964 at the Grace Hospital, Winnipeg. Weight 7 lbs., 11½ oz.

GAGNON — Mary and Glenn are pleased to announce the safe arrival of their third son Wade Lawrence on March 24, 1964 at the Kenora General Hospital. Weight 8 lbs., 1½ ounces. Many thanks to Dr. Baker and hospital staff.

GAGNON — Laith and Curtis are pleased to announce the birth of their baby brother Wade Lawrence on March 24, 1964 at the Kenora General Hospital.

of school in June. Mr. Hebditch is a former president of Atikokan Chamber of Commerce and also served on the parking commission.

He originally came to Atikokan from Dryden as recreation director in 1949, served as manager of a local hotel for a couple of years, and then established the Rockton Hotel in partnership with outside interests.

All three hotels in this community - the Atikokan, Steep Rock and now the Rockton - have changed hands within the last two years.

Police Station At Dryden Is Broken Into

Dryden — The municipal police department had an unexpected visitor last week. And no one was on hand at the time to offer him the hospitality of the law.

In court Magistrate J. V. Fregeau fined a Dryden man \$50 and costs for his unusual action.

Town Police Chief Ed Rogers said the accused had called around at the police offices and finding no one home he pushed his fist through the window, tore down the police department sign and then broke in the door.

Besides the \$50 he also suffered five stitches to his hand.

Teachers Sign Wage Contract

FORT WILLIAM — A new two-year wage agreement between Fort William Separate School Board and the 81 teachers employed by the board was signed Wednesday afternoon following two months of negotiations.

The new scale calls for \$260 yearly increase across the board, with the basic minimum wage for the lowest

qualified teacher set at \$3,300.

Under the new agreement the highest paid qualified teacher will receive up to \$7,000.

Secretary-manager Stan Carroll described the teacher's new salary

structure as the same as that received by teachers employed by the public school board. The new rates will go into effect Sept. 1.

OPPORTUNITIES TO ADOPT CHILDREN

BONNIE is a bright and active baby available for adoption. She is a year and a half old, with deep blue eyes and brown hair. She has a heart condition but is otherwise in good health. As Bonnie is Roman-Catholic, parents of that faith would find her a delightful daughter.

CLARENCE wants to become part of a family; that is his one wish for the future. He is an attractive Protestant child of eight years of age. His racial origin is unknown. Clarence is bright and intelligent, in Grade 3 this year, a tall boy of wiry build with brown eyes and hair. This healthy lad is badly in need of a home and parents to call his own.

If you can offer Bonnie or Clarence—or some other child—a permanent home, please consult your local Children's Aid Society, or write to:

Atikokan Hotel Reported Sold

Atikokan — Sale of the Rockton Hotel in Atikokan has been disclosed by owner-manager E. A. Hebditch. He reports the new owners, coming from Alberta, will assume charge the end of this month.

Mr. Hebditch has made plans to move to Dryden and will be heading for that community in early April. His family will follow at the close
