William Armour Keewatin Citizen Dies Early Today

William Armour, 424 - Eighth Street Keewatin, well known and highly respected citizen, was called to rest at St. Joseph's Hospital, this morning, July 28. Born in Ayrshire Scotland, August 30th, 1900, he was in his 64th year.

He received his education in Scotland and Keewatin coming to Keewatin when a lad of ten years of age. He was employed by the Lake of the Woods Milling Company for 48 years and was Assistant Superintendent. He was a Past Master of the Keewatin Masonic Lodge, A.F. and A.M., a past president and a member of the executive of the Keewatin Baseball Club and a member of the Presbyterian Church. He saw service overseas in France and England with the 8th Canadian Battalion, 90th Rifles.

He is survived by his wife Emma; one daughter, Mrs. Max (Hettie) Clark of Atikokan; one step-daughter Mrs. Irene Field of Lincoln Nebraska; one step son George Harlins of Kenora; one brother Andrew of Keewatin; four sisters, Mrs. Mary Smith of Kenora; Mrs. Margaret Atkin and Mrs. Anne Mandel both of Los Angeles, and Mrs. Henrietta Yoakam of West Covina, California. Six grandchildren also survive.

Funeral services will be held in the Chapel of the Brown Funeral Home Thursday afternoon, July 30 at two o'clock. Rev. Harold W. Boyd will officiate and interment will be in the Lake of the Woods Cemetery. Pallbearers will be: Messrs. George Morden, Cecil Robertson, Gordon Davis, Jim Forbes, Punch Hansen and Wally Peirce.

Outflow From The Lake Is Sharply Cut Yesterday

Some stop logs were taken into the Norman Dam yesterday afternoon, reducing the outflow from the Lake of the Woods to 20,000 cubic feet per second; a sharp drop from the 35,000 cubic feet which has been going out for the past two weeks.

Residents residing along the Winnipeg River will start to notice the effect of this closing today.

The lake level is being held about the 1060.00 foot mark, and the week end rain of about one third of an inch was offset by evaporation. During the past 24 hours, another .38 of an inch of rain has fallen.

Fred And Eva Moroz Funeral Services Wednesday - 10 a.m.

A joint funeral service will be held for Mr. and Mrs. Fred Moroz, well known Kenora couple who were killed in a car accident Sunday, July 26, near Falcon Lake, Manitoba, Wednesday morning, July 27th at ten o'clock in the St. Nicholas Greek Catholic Church. Rev. Father William B. Charney will officiate and interment will be in the family plot, St. Nicholas Cemetery. Pallbearers will be: Messrs. Nick Stepanik, Bill Stepanik, Al Stepanik, P. Welchenko, J. Malona and L. Didioti. Prayers will be said in the Chapel of the Brown Funeral Home tonight, Tuesday, July 28 at eight o'clock.

Fred Moroz was born in Hahliwka, West Ukraine, February 22, 1902 and was 62 years of age. He received his education in the old country. He was employed by the Lake of the Woods Milling Company for a number of years, and for the past

ten years with the Town of Kenora Public Works Department. He was a member of the Civic Employees Union, St. Nicholas Greek Catholic Church, the Ukrainian Literary Society and the Ukrainian Fraternal Society.

Eva Moroz was born in Dzwyniacz, West Ukraine, March 9th, 1906 and was 53 years of age. She was a member of the St. Nicholas Greek Catholic Church, the Ukrainian Women's Association, the Ukrainian Literary Society, the Ukrainian Fraternal Society and the Catholic Women's League.

Mr. and Mrs. Moroz are survived by one son, Walter, and one grandchild, Mrs. Moroz is also survived by two brothers, Dmytro Stepanik of Kenora and Jeha Stepanik in the old country.

"Mill Rate Must Be Held Down" - Davidson

At last evening's regular Town Council meeting an expression of sympathy was extended to the family of the late Mr. and Mrs. Fred Moroz, who died as a result of an unfortunate automobile accident near Falcon Lake, July 26th. Mr. Moroz was a dedicated employee of the Town of Kenora since September of 1948, and a respected citizen of the community.

Mike Marshaklok from Norman was present at the meeting. A resident of 57 Pearson Street West he asked that improvements be made to drainage in the vicinity of his residence. He said he had approached council on former occasions. A ditch nearby clogs with refuse and the water floods out his property. Mr. Marshaklok said he has lived there for 20 years and had found it necessary to clean out this ditch at least once a week. He said he realized he was not alone with a drainage problem but expressed hopes that something could be done.

Alderman Carter said that last year this problem had been examined. He believed the solution was to replace the open ditch with a culvert and promised that a second look be given to this. It was referred to the Public Works Committee.

The Department of Transport advised the council of a new regulation of the Highway Traffic Act which reads as follows: "A speed limit sign bearing the words 'speed limit' is not valid on and after the 31st day of August and no such speed limit sign shall be erected on or after the 31st day of August 1960. This was noted and ordered filed.

J. W. Spooner, Minister of Municipal Affairs sent a cheque in the amount of \$2384.92 payable for Indigent Hospitalization claim under the Municipal Unconditional Grants Amendment Act. His Worship Mayor W. E. Norton was requested to declare Monday, August 3rd 1961 a Civic Holiday in and for the Town of Kenora. Charles F. Bennett made application to purchase lots 24-27 on Conroy Island at a price of \$1000 for the purpose of erecting a 60 foot private summer camp. Referred to the Finance Committee. A request was received from Allan Campbell to purchase lot 163, on Fifth Street South. This was also referred to Finance. Following a recent visit to the area by members of the Ontario Water Resources Commission the following indication was received by council "It is our wish, as expressed at the meetings, that you proceed with a program which will provide treatment of the sewage before discharge to the Lake of the Woods or the Winnipeg River. Referred to the Committee of the Whole Council."

A. Eriksen, Business Administrator, Kenora Public School Board, requested the construction of a sidewalk on the west side of Sixth Ave. from the west side of the existing sidewalk north to the edge of the Lutheran Church property (approximately 100 feet). The Board will

Ratepayers To Decide On Proposed Swimming Pool

Kenora's proposed Centennial Project, namely the Community Centre, came up for lengthy discussion at Monday night's regular meeting of the Kenora Town Council. A motion that a questionnaire be sent out in an endeavour to determine just what part or parts of a Community Centre the majority wished was voted on and carried. The motion reads as follows:

"Whereas the Town of Kenora will likely be asked to contribute towards the capital costs of the proposed Community Centre Project involving an ice skating arena, a community activities building, and an indoor swimming pool; AND WHEREAS the estimated operating deficits of the Community Centre would likely be a charge upon the Municipality and payable out of Municipal taxes; NOW THEREFORE be it resolved that this Municipal Council authorize forthwith, the submission of a questionnaire to residents of Kenora entitled to vote at Provincial elections which would indicate the views of the individual relative to the following:

(a) the capital costs of each part of the proposed Community Centre.

(b) the estimated annual deficits (if any) of each part of the proposed Community Centre.

(c) the extent of personal financial participation in the proposed Community Centre.

(d) the anticipated use by the individual of the proposed Community Centre.

(e) are you a taxpayer and are you willing to pay for operating deficits incurred in this respect.

Alderman Bill Gibben, proposer of the motion said that at an earlier meeting he had brought out a notice of motion to the effect that the Community Centre project be considered without the swimming pool. Since then, he added, he had received many representations which indicated to him that there was much interest in the pool and thus he wished to withdraw the former notice and put the question to the people who would have an opportunity of voicing their opinions.

In commenting on the proposed questionnaire, Alderman Jim Davidson, Chairman of Finance queried what the cost of such a survey would be and advised that it would probably run in the neighbourhood of \$650.00 to \$1,000.00. He said there was no assurance that a conclusive report would be forthcoming after such a survey and was of the opinion

that the Municipal Council should make its own decisions in matters of this nature without such a questionnaire.

Alderman Harry Michalak agreed with Mr. Davidson stating that he had also had many representations from people who would like to see the pool, however he was looking towards the cost of operation of the pool and though he was not against it, he certainly thought it would be a costly thing.

Two Car Collision Sends Man To Dryden Hospital

A two car collision at the junction of Highway 17 and Highway 105 at Vermilion Bay has sent one man to hospital with undetermined injuries. A passenger in a car driven by William Bowsfield of Perrault Falls, Ont., Jack Van Fleet, was taken to Dryden hospital. His condition is reported as satisfactory today.

Police said that the Bowsfield car was entering Highway 17 from Highway 105, known as the Red Lake Road, when it was hit broadside by a car driven by Mervin White of Oshawa, Ont. Three passengers in the White auto were treated for minor injury and released.

Damage to both cars is extensive.

(Continued on Page 3)

The development of Pipestone Peninsula as a Provincial Park is very much alive, said a Lands and Forests official today. Within the past week a firm of consultants has been engaged to lay out the whole area in order to obtain the most advantageous use of natural surroundings.

The long arm of the peninsula juts far out into the middle of the Lake of the Woods just to the south of Hay Island.

The Dept. of Highways has been requested to survey the necessary road off Highway 17 to serve the new park, and this will be done as soon as men are available.

Lack of funds has been responsible for the delay in the project, but there is every indication now that work will proceed when plans are finalized. One thing in favour of early action is the fact that both the Sioux Narrows and Rabbit River parks are filled to overflowing each day.

Highway Accident Claims Third Life

RCMP in Winnipeg said today that a third person has died as a result of injuries suffered in a two car collision Sunday; 20 miles west of Falcon Lake, Manitoba.

Mrs. Hans Schilling of Nassau, Bahamas, died in St. Boniface hospital on Monday. Her husband, Hans Schilling and 15 year old daughter, Gabrieli, are both said to be in fairly good condition today.

All three were passengers in a car bearing Florida licence plates.

Mr. and Mrs. Frederick Moroz, 1126 - 8th Street North, Kenora died in the accident on Sunday. Police said their car skidded on the wet, slippery pavement and was hit broadside by the Florida car.

Mr. Schilling was a salesman for Pioneer Chain Saws and travelled the Kenora area out of the Winnipeg office during the years 1957-1960. He was transferred by his company to The Bahamas where he travelled the European markets. The family were in Canada on a holiday.

Ladies' Softball News

For several years now various leagues have operated to keep youngsters busy and to teach them the finer points of the game. Most of the emphasis has been directed to the men and the boys. Slowly, the girls are being organized and one of the needs has been a ball league. This summer a junior softball league has been formed to operate along with the playground activities. One team operates in the league from each of the five Kenora playground areas, King George VI, Central, Pinecrest, Evergreen and Norman. Added to the league are two teams from the Rabbit Lake, the one called Rabbit Lake, the other the Hardrocks. In the Senior Ladies League, the Tigerettes have folded for the balance of the year and their games will be defaulted.

L & F Beaver Aircraft Now Back in Service

The Department of Lands and Forests at Toronto announced today that all of Ontario's 34 Beaver fire protection aircraft are now back in service. They were grounded last Thursday by order of the federal Department of Transport following the crash of a similar plane in Australia. The order came from the de Havilland Aircraft Company, manufacturers of the plane suggested constant inspection of wing struts.

Kelso Roberts, minister of the department, Monday accused the federal department of making a "panic" order to ground the aircraft during the weekend. "It was an old woman's wind-up type of order," the minister told reporters in Toronto. "It was not practical in the high fire hazard season and it has probably cost us several thousands of dollars."

Mr. Roberts also said that because of the order, two U.S. Beavers had to help put out a fire on Canadian territory.

To remind drivers of the deadly potential in every car exhaust system, the Ontario Safety League quotes the case of a teenage boy who got his tailpipe stuck in a snow bank, last winter. As he tried to dislodge it, carbon monoxide fumes, unable to escape normally, accumulated, killing him.

"Mill Rate Must Be

(Continued from Page 1)

indicating the attention required on streets and sidewalks in the following areas: Rideout, East End, North End, Centre, Lakeside, Tunnel Island and Norton. Referred to the Public Works Committee. Approval was granted for the construction of drainage facilities at an estimated cost of \$1400 in the neighbourhood of South Street North between Main and Matheson Streets. This will consist of 100 feet of asphalt gutter on Fourth Street, 75 feet of concrete curb at the lower level, 270 sq. yards of asphalt, 2 catch basins and 233 feet of drain pipe to the existing catch basin.

Commenting on this, Alderman Davidson, Chairman of Finance said that things which were not budgeted for should be held back. He said the mill rate could continue to increase. He mentioned big projects facing the Council including the addition to: Bauer Base School and Sewage Treatment. Besides this, he added, Municipal employees have received salary increases. He requested all departments and committees to watch closely all expenditures.

Payment of the following accounts was authorized: Municipal Account \$88,111.01, Utilities Account totaling \$18,211.34. The Chief of Police will be directed to make immediate arrangements for the removal to a suitable location, of all vehicles which have been abandoned on Municipal Streets and lanes or other

Municipal properties.

Alderman Paterson said that quotations have been received for the replacement of existing pay telephone stations with the additions of some new ones, a total of 60 stations altogether. The order, he added, should be placed this year as delivery could not be made for several months. The new phones would be of the direct dialing type and quite a departure from the "Arksonic" stations now in use.

Alderman Davidson commented on reports of vandalism at some of the schools. He asked if the police could be requested to check the buildings. Mayor Norton advised him that it is part of the police patrol to check all the schools in the area daily. Alderman Dusing, Chairman of Fire and Police said that the Police, with their limited staffs, are conducting regular checks.

Ratepayers To Decide On

(continued from page one)

Alderman E. L. Carter commented on the motion before the Council stating that at the last regular meeting the Chairman of Parks and Cemeteries, Mr. Gibben, had indicated by notice that he was bringing in a motion to reduce the Centennial Project form a three unit complex to a two unit, with the proposed swimming pool to be deleted from the by-law. "It appears now" stated Mr. Carter "that he has changed his mind and is no longer prepared to present his motion". He said that rather than have Council decide the issue, a proposal has been put forward to conduct a survey, throughout the Town, at a cost of possibly \$1,000 to \$1,500. This he termed "tossing good money down the drain". He added that had the original motion gone forward, it would have been a sign of good judgment showing that Council was prepared to go along with the recommendation of the Community Centre Committee which was appointed by Council. It also would indicate that Council was giving some positive leadership in the matter.

Mr. Carter said that he was not opposed to a swimming pool but was thinking of the high cost of operation, probably several added mills to the taxation, and these costs will fall on the Ratepayers. He did not agree to everyone having an opportunity of voting and said it was not right for non-taxpayers over 21 to commit the ratepayers to any operating deficits that may result.

He commended the Community Centre Committee for a good job and said he was opposed to the Survey Resolution for two reasons: (1) The Community Centre Committee does not think it is a good idea to incorporate the Swimming Pool in the complex and we should accept their ideas; (2) He believed the Council, a collective representative of the ratepayers, should show the leadership to make the decision itself. He said if a poll is taken, then it should be in the form of a referendum voted on by the ratepayers only.

Alderman Paterson said that we should consider the wishes of the Committee appointed by council. He said he was not worried about the capital costs but certainly thought that the recommendation of the Community Centre Committee should be considered. He felt concerned that the efforts of this committee would be "shot down in flames" if Council disregarded their opinions. An arena, auditorium and Community Activities Building in the proposed Community Centre, he added would serve more people. A long second look should be given towards the operating costs of the pool. If a vote is taken, he added, it should be as a money by-law of the ratepayers.

The motion was then put to a vote. In favour of the motion were Alderman Gibben, Paterson and Dusing while opposed were Alderman Davidson, Michaluk and Carter. His Worship Mayor Norton then declared the motion as carried.

Alderman J. Davidson said that

the people should go "all out" for the Centennial Project. He said he was in favour of "A" project which would encompass the whole complex, including the large swimming pool. If 11,000 people get behind the thing then it would go over without any difficulty. He said "the people should think big and think of the future."

Alderman Gibben agreed with Mr. Davidson but said he felt the people who are going to pay for it should have a chance to vote on it.

Representatives of the Recreation Committee were present at the meeting last evening. Dennis Lafreniere said that the committee had taken it upon themselves to make a survey of part of the town in an endeavour to find out the wishes of the people as far as a pool was concerned. He had a total of 442 names on a petition concerning in the addition of a pool to the Centennial project.

Lois Roy, Director of the Red Cross Swimming Program in Kenora outlined the benefits which a large pool would have. She said at present there are 1300 children and adults registered for swimming classes and a pool would provide year-round opportunity for people to swim. Swimming, she added, has been proven to be the best all-round sport. If a pool was here then instructions could be carried out in Kenora rather than at the Lakehead which is now a necessity. She outlined the various activities which could be held in a pool.

Claims Safety Laws Violated In Province

TORONTO — "Men all over Ontario are digging their own graves," the Ontario Construction Safety Association warned Friday.

Alarmed by five near-fatal cave-ins in the last six weeks, the association is appealing to construction workers to disobey orders to go into unsafe holes or trenches.

The association, a management organization, announced a \$20,000 newspaper campaign aimed at preventing cave-ins.

It charged that builders, plumbers, electricians, public utilities, sewer and trenching firms are daily violating laws aimed at preventing the mishaps.

Letter To The Editor

Kenora, Ontario,
July 28th, 1964.

Editor,

Miner and News:

FOR THE SAKE OF ARGUMENT
Various sessions of the Royal Commission on Biculturalism and Bilingualism are developing into a passionate cry from numerous ethnic groups for recognition, or from Separationists of Quebec in vicious minorities, who are taking over meetings in the West-Communist formula of shouting disorder, to get the newspaper publicity they are so earnestly seeking.

We have heard from many ethnic groups, but strangely enough the MAJORITY of Scottish, English, Irish and Welsh groups have been reluctantly silent to express their feelings. They may be a national characteristic, but none have a better right to express themselves, for many of their forefathers fought on the Plains of Abraham and on the side that won that memorable historical battle.

One heard with dismay in a recent TV broadcast from Ottawa, one dozen members of Parliament express their sentiments on the flag issue. Many of them were definitely convinced that they, as elected representatives, were competent to decide on this vitally important matter, without the necessity of referring the problem to the electors by referendum.

Yes, at least of those distinguished gentlemen, two referred to the Union Jack as "the flag of England." How stupid can they get? Surely in such a discussion of such vast importance to many Canadians, they could have done a little bit of first or second grade school research. The Union Jack is the flag of GREAT BRITAIN and includes the Crosses of St. George, St. Andrew, and St. Patrick. One would hope that it was a case of forgetfulness or even ignorance, for a snide remark in this regard could only be regarded as bad manners. Jules Gregoire, whose historical background precludes any deep regard for the Union Jack, at least had the knowledge to refer to it as the "Flag of Great Britain."

We hear so much about Quebec these days, their disappointments, and the Anglo-Saxon neglect to speak their language fluently. How many Quebecers speak the broad Scottish language fluently? Yet we have never rebuked them. We have also heard them singing at the New Year "Auld Lang Syne" and braggily pronouncing it "Old Lang Zine" which puts them in the class of Perry Como, and a wealth of United States entertainers. There is no Zee in the Scottish language, except when we talk about zebras, and that word comes from Africa. "Syne" rhymes with "sign" and means "old long since" or "old long ago".

The tendency these days is to kick any Englishman, Scotchman or Irishman, in the teeth, and blame them for all the ills of Quebec, including their badly antiquated educational system, now changing rapidly as certain influences and direction disappears. It is an easy out for those who don't want to start in on the ground floor, and work their way up to the top, as Donald Gordon told them.

It is true that the great explorers, Jacques de Noyan and Pierre de la Verandrye, discovered most of Western Canada, as it is today. It is also true that their fellow French Canadians back in Montreal and Quebec, treated them stabbily, and were pleased when they came back east broken in health and finances.

But Scotchmen in the Hudson's Bay Company, and the North-West Company developed the country and harvested its wealth by long years of pioneering in a grim northland that had no time for weddings.

Premier Smallwood of Newfoundland still clings to the Union Jack, for he remembers the history of that hardy people who would have perished had it not been for Anglo-Saxon immigrants and Anglo-Saxon financial support. It is regrettable that some Canadians today, and especially the new bred that crowd some of our universities, forget the millions of pounds poured into Canada by Great Britain in those days of pioneer development and after.

One, of course should be thankful for small mercies. It is surprising to note that all parties in the house, (it is most unbelievable) would now seek to honour a Great Scotchman, Sir John A. Macdonald,

Detractors often refer to his preference for Scotch whiskey. But as a Scotchman, born and bred, I'd risk a dollar to say, that "sober" or "under the influence"; John A. would never have mistaken the Union Jack as the "Flag of England".

History tells us that the French Canadians should well remember the Scottish soldiers, not only on the Plains of Abraham, but before. Our school books told a dramatic story of the British boats approaching in the dead of night with the objective of scaling the heights. Surely you remember the story. The French sentry challenged "Qui Vive?", and it was a SCOTCHMAN WHO REPLIED IN THE FRENCH LANGUAGE, "AMÉ".

Something needs explaining. Either the French sentry was at fault in not recognizing his language spoken with a broad Scottish doric, or the Scotchman spoke perfect French. Here at least, was one occasion when a despised Anglo-Saxon spoke French to advantage.

Over this vast Dominion, or should one say realm, for the Biblical word "Dominion" is now an anathema to those who hate the Anglo-Saxon in Canada, one finds that Scotland made a huge contribution to Canada's progress and development. This was done by hard work. Not by abuse and development of an inferiority complex, or the damning of England.

In fact the history of Scotland reveals a shrewd characteristic that the French Canadians could adopt, with advantage. You see we tried the hard way to battle the English over a long period of years. We licked them at Bannockburn, but they came back again and again.

Then we slipped a fast one over when we sent King James the Sixth as King of England and Scotland. Then we took over from there. It was a Scotchman named Patterson, who founded the Bank of England. We gave them several Prime Ministers: Campbell-Bannerman, not so hot; Bonar Law, quite an ordinary individual, and of course the first Labour Prime Minister, Ramsay MacDonald. This dour old Scot fouled up things for the English and started going away the Empire.

Then we changed our tactics and gave them a Scottish Queen, Elizabeth Bowes-Lyon. Scottish through and through, and her gracious charm still delights with a personality and smile that captivated England.

The present Queen of Canada, (excuse me I haven't heard it mentioned lately) is therefore half-Scottish, and even that sickening egotist, Mugggeridge, praises her gracious charm.

The proud record of Scottish Highlanders and Lowlanders as soldiers stands supreme, established on a thousand battlefields. We can remember a few top leaders, Sir Colin Campbell, of Indian Mutiny fame, Sir Hector-Mardonald, of Boer War distinction, and of course Sir Douglas Haig, whose record of achievement is often disputed by First World War soldiers who fought under his command. But he was the first President of the British Legion, and he led us to final victory in World War One.

We had a few good sailors too, for Davie Beatty with his cocked hat and his proud signal "Engage the enemy closely" gave Britain a few proud moments of history. One remembers the story of Nelson's victory at Trafalgar, when he flew the signal "England expects that every man this day will do his duty."

One of the Scotemen on the guns of a ship of the line said emotionally to a friend, "Not a word Sandy about auld Scotland". Sandy replied, "Hoot man, Nelson knows damned well we Scots will do their duty. But he had to remind some of the Englishmen".

Incidentally, the greatest Admiral in pioneer days for the U.S.A. was John Paul Jones, who was born in Dunfermline, Scotland. But the Yankees, like others we know, hate to give credit to a born Britisher. It even took a Russian Queen to make him an Admiral.

Donald Gordon, C.N.R. President, has a grand Scottish name, and when he speaks his mind, he is burned in effigy. Yet, one of the Quebec members, in the House, states he is the best President the C.N.R. has ever had. So who cares about the nitwits who spit out of Universities at the drop of the hat, or the Professors who give them their ideas and get well paid for it in consequence. Thank goodness not all of them, for a good majority still go to the Universities to study

and acquire knowledge.

"It took the fighting Irish years to gain their independence; but they certainly got their own back. Hundreds of thousands of them immigrated to Scotland, and poor old Glasgow, hasn't been the same since. Then they sold over ninety per cent of their exports to the English market. Being Irish and liking a fight, they joined the British army in thousands in World War Two.

One remembers the story of two Irishmen in a British mosquito aircraft fighting over Europe. One was praising De Valera, the other damning him. Pressing the triggers of his twin cannon, the navigator said, "Well he's keeping Ireland out of the war isn't he?"

Speaking frankly we would suggest to our French-Canadian friends that the only benefit they would immediately achieve if they became a separate State, would be to fly the Fleur-de-lis without hindrance.

Don't forget if you become a separate state, you will have to defend your borders in case of war or invasion. You won't be able to depend on Mr. Couette, and his group, for in his own words, "he headed for the bush when conscription seemed imminent in the last war". Colonel Triguet, V.C. and the Van Doo's, and other great French Canadian regiments must be getting old, and even hunting in the bush for Couette, and his friends would be quite a chore. Then again, they might still want to remain in Canada and then you would really be on the spot.

But for heavens sake quit yapping about being downtrodden and forgotten. The great City of Montreal wasn't built by yappers but doers. The heritage of de la Verandrye, Montcalm, de la Salle, and a host of other great men like Laurier and Cartier, surely points the way to equality. They did it by ability, dedication and true Canadian spirit.

You can quit if you want to, although we Canadians of British descent would hate to see you go. The east Germans will show you how to build a wall, and General Charles De Gaulle, is really anxious to get your business. But be suspicious about Charles.

When driven out of France he sought sanctuary in much despised Britain. British and American funds helped Jim build up an army of patriotic Frenchmen, British, Amer-

ican and Canadian lives helped free his beloved France, and then the General walked into Paris as its "sole" liberator.

The reward for sacrificing and financing his return in money and thousands of British and American, and Canadian lives, was to keep the British Commonwealth, and the U.S.A. out of the European Common Market. Canada had agricultural products to sell, and Charles wanted to keep that business in France. What does a few lives amount to, when compared to many bushels of wheat?

The British and their off-shoot the Americans have spread their language over the known world, and as great colonizers and financiers dominate the world's trade even today. After all your distant patron Saint "Napoleon" called them the nation of shop-keepers. Can you blame them for living up to this

sobriquet.

Our fine Swedish, Norwegian, Dutch, Ukrainian, Polish, Japanese and Chinese Canadians, proudly keep their own languages and don't bemoan the fact that everyone else does not speak it fluently. They took conditions in their stride, adopted the spirit of true Canadian citizenship, and have established their homes and families in our great land. Like you, they have sent their gifted to Parliament and into our places of business and Universities. We have never heard them rant and rave because we do not speak their language fluently. Yet we have a common meeting place we share, the principal language of this country, "English". Not by legislation, but by common sensible usage, have all others accepted the opinion of the majority. Are they any less Canadian in consequence?

TO ALL BOAT OWNERS AND OPERATORS ON LAKE OF THE WOODS

At this time of the summer season when numerous gas boats and pleasure craft are operating and company tug boats are towing pulpwood and logs, we respectfully solicit your co-operation in our endeavour to keep the lake clear of floating pulpwood, logs and dead heads. When gas boats run too close to a tow of pulp or logs, the swell has a tendency to wash out some of the pulp and logs, and it is for this reason that we ask you to:

1. When passing a tow, either being towed by tugs or in storage, keep at least 100 feet from boom, when it is not possible to do this, if in narrows, slow down till past the boom or tow.
2. When following a tow of pulp or logs watch for any stray logs or pulpwood sticks which may have worked out from rear of tow.

If these precautions are observed by all boat owners, it will keep the lake free from floaters and will eliminate damage to small craft.

Letter To The Editor

39 Worsley St.,
 Barrie, Ont.,
 July 20, 1964.

Mr. S. King,
 Miner and News,
 Kenora, Ont.

Dear Mr. King,
 For some considerable time I have intended writing you concerning the competitions the High School First Aid teams won some years back. I have no knowledge of any teams entering the competitions since I reluctantly had to give up instructing.

What had been on my mind is - Has there been a record kept at the High School of the successes obtained by these teams and, if so, is the record in a conspicuous place where the students can see it?

The following is the record I have copied from the "Miner & News" clippings in my scrap book.

1930-31 - District and Provincial Championship.
 1931-32 - District, Provincial and Dominion Championship
 1932-33 - District and Provincial Championship
 1932-33 - Girls' Team - Fourth in Dominion

1933-34 - District and Provincial Championship, also 3rd in Dominion Championship.

November 10, 1933 in the High School auditorium Gold Medals were presented to the following members of the First Aid teams: - F. White, Capt.; J. Bradford; G. Keenan and Geo. Geddes Jr. for outstanding performance in district and provincial competitions.

I shall be very pleased to forward you my scrap book which contains some of the boys names who took part in the competitions as well as other items you would find of interest.

Yours very truly,
 F. W. Jackson.

Ed. Note - It was a real delight to receive this letter from Mr. Jackson, a former resident who is 84 years young. We are so glad that he has brought the records to readers' attention. Possibly some who received instruction from him will write to him at the above address.

TODDLER TAKES OFF

SAULT STE. MARIE Ont. - It was hot, sticky, and 1 a.m. Three-year-old Paul Hotchkiss couldn't sleep.

So he raided his mother's purse for 15 cents and toddled off toward

the corner store to buy an ice cream cone.

But passers-by, who saw little Paul in his pyjamas, failed his nocturnal adventure by calling the police. "I was lying on the couch and I dozed off for a few minutes," Paul's mother told police who delivered him home. "When I woke up he was gone."

Traffic Problems Discussed At Council Meeting

Alderman Clarence J. Dusang, Chairman of the Fire and Police Committee Monday evening reported to Council on the latest developments in regards to the request to have traffic lights installed at the Canadian Pacific Railway subway.

Mr. Dusang told of meeting Monday with Municipal Engineer Jack McConnis, Police Chief J. Pille and Mr. M. S. Stevens, Assistant Traffic Engineer, Department of Transport.

The Transport Department carried out extensive surveys at the subway on different occasions. Note was made of the number of cars, trucks, semi-trailers, etc which made the turn from the highway through the subway and also traffic going the other way.

Mr. Stevens stated Monday that as yet, the volume of traffic at this particular point does not warrant the installation of signals. He did say that there are certain aggravating times during the day when the

condition is worse than others and that after the survey had been made it was decided that lights would be recommended for that area possibly within the course of the next year. He promised a full and detailed report to be sent to Council outlining the reasons for the decision.

Alderman E. L. Carter last evening presented a resolution to council in regards to the ever increasing vehicular traffic on Main and Second Streets. The traffic count indicated over 20,000 vehicles per week pass over the section of the Trans Canada Highway (17) which utilize a main thoroughfare of the downtown area of Kenora. Many precautions have been taken but in spite of this accidents and the danger of accidents involving particularly high speed transport is a growing concern to Municipal Officials and the danger is increased by congestion and the right angle turn at the intersection of Main and Second Streets. Mr. Carter's resolution was that the Municipal Council again request the Ontario Department of Highways to undertake during the summer months, a complete survey of the local traffic situation on this part of the Trans Canada Highway with a view to considering the alternative of a traffic by-pass which it is expected would relieve the congestion and dangerous traffic conditions now prevailing and likely to increase.

to be under control. One fire is at Dryden and is 15 acres and the other is an 80 acre blaze in the Mink area. Forestry officials believe both fires were caused by lightning. The forest fire hazard for today is listed as low in the Kenora district.

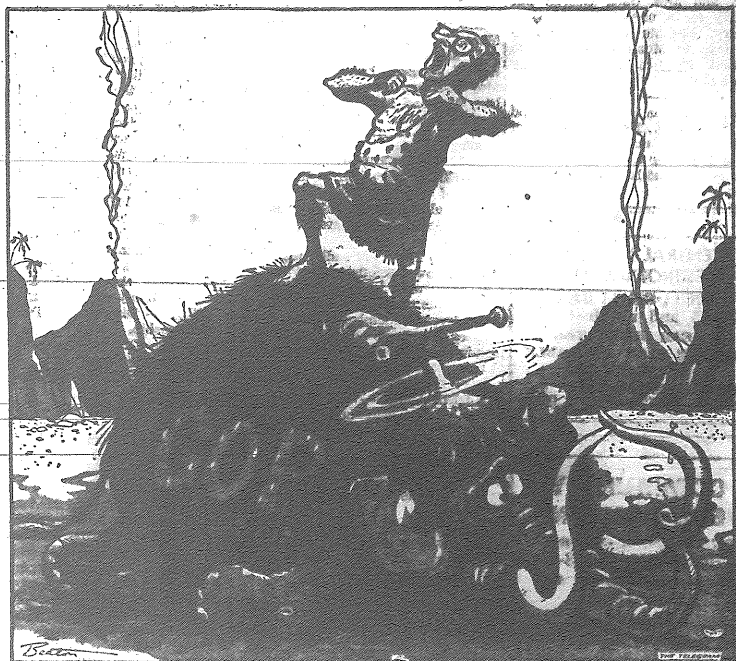

Monday throughout the province, there were 32 forest fires burning in

the five districts of Northwestern Ontario, with South Lokout topping the list with 17 fires. Most blazes are reported to be small and under control. Lightning was said to be the main cause of the fires.

Children with impaired vision do not all have the necessary glasses, surveys show. It has also been found

that youngsters who appear to be dull and slow at learning to read may really be in need of aids to vision. Before starting school every child should have a thorough medical checkup which would include eyes, teeth and ears.
