## Traffic Lights For Subway Are Authorized

An enquiry as to validity of Survey lines in the vicinity of property at 612 7th Avenue South owned by Mr. Allanson was received at the regular meeting of the Kenora Town Council, held Monday. He asked "Am I to go by the old survey, or the new one?" He said he was anxious to have the proper lines established as he has plans for remodelling and additions to his home. He said many people are affected in the area. Mr. Allanson said the matter would be investigated and a report submitted to him.

Also present at the Council was Mr. John Faszeka who said he had moved into town a week ago with his house on Falcon Lake and had parked it but was told by police he had to move it as it was in contravention with the zoning by-law which says house-trailers cannot be placed on any property which is not designated for their use.

Mayor Carter said the matter of house trailers is now under discussion by council and referred Mr. Faszeka's submission to committee.

A letter was received from the Ontario Department of Transport dealing with the matter of the Town's application for the installation of traffic control devices at the intersection of highway 17 and Main Street North (subway) and stating in part "on the basis of the information which was collected during a study, it was determined that traffic control signals are warranted at this intersection."

Council went on record to authorize the installation of these lights under the direction of the Public Works and Police Departments. An application for subsidy will be submitted to the Department of Highways in a separate report.

A report was received from the pet-control officer regarding the sale of dog licenses. Alderman Harry Luby, chairman of the Fire and Police committee said that many dog-owners have indicated that due to the age of their animals or other reasons they refused to buy a license. He said much abuse is given to the pet-control officer and advised council that something should be done to improve the present dog-pound established as the present building is in a bad state of repair.

## J. H. Pateman Named Patrol Supervisor

The District Engineer, Department of Highways announces the appointment of Mr. J. H. (Jim) Pateman to Patrol Supervisor for the Highways between Red Lake and Vermilion Bay, the appointment became effective October 1st 1969 and Mr. Pateman will be working from the Dryden office.

Mr. Pateman has been employed with the Department since 1946 beginning as a roadman on a survey crew. He spent a brief period in Blind River, during 1947-48, but returned to Kenora District.

In late 1956 he became Highway Foreman and was responsible for maintenance activities on Highway 17 from Kenora easterly 48 miles.

Jimmy, as he is known to his fellow employees, has followed the foot-steps of his late father, Mr. Harry Pateman, who was Highway Foreman from Dryden Highway for many, many years. Mr. Pateman was an active member of the Masonic Lodge in Kenora. His wife Agatha and their two boys, David 18 and Ron 15, have now taken up residence in Dryden.

## Smiles

This is one age when, if you miss a day's work the government loses as much as you do.

LAST OF THE ROSES FOR THE YEAR?

The roses in Mrs. Henry Wolfe's garden this past summer have been unusually beautiful; a source of interest and enjoyment for family and friends. Yesterday Monica Wolfe decided that a large yellow rose bud, ready to burst into bloom, might not survive the threatening frost. The rose is doing nicely inside, today.

## LATE NEWS BULLETINS

Canada's first ambassador to the Vatican says Canada's official recognition of the Vatican will help gather information to formulate foreign policy. Doctor John E. Robbins said in a Winnipeg interview today that Canadian policy in Latin America could be specifically affected by the Vatican relationship.

Search parties have recovered the bodies of the eight men who died in last night's crash of an executive jet near Labrador City. The bodies of six senior executives involved in the building of the giant Churchill Falls Power Project and two crew members were recovered today from an open-pit iron mine. They included Donald McFarland, President and Chief Executive Officer of British Newfoundland Corporation Limited and its subsidiary, Churchill Falls (Labrador) Corporation. The men were en route to Labrador City in Western Labrador from Churchill Falls.

The crew of a Chilean airliner ordered to Cuba by two youths, overpowered them today and now is returning the plane to Santiago, Chile. A spokesman for the L-A-N Chilean Airlines says the pilot and co-pilot knocked out the two youths in a brief fist fight in the tail section of the plane.

There were no passengers aboard. The first flight broke out 20 minutes after the plane had taken off at Antofagasta, Chile, and left on the way to Cuba.

Former Canadian Prime Minister, Lester Pearson says the best way to help underdeveloped countries is to build up their trade. Mr. Pearson told a University of Toronto seminar today that rather than give ten million dollars in foreign aid, he suggested it would help more to buy ten million shirts produced in a poorer country.

Mr. Pearson, who has written a report on world development and aid for underdeveloped countries, said Canada should consider removing import restrictions on products from developing nations.

Eight South Korean Officers on an inspection tour died today when their plane crashed near Qui Nhon in South Vietnam. The accident was blamed on the weather. On the battlefronts, fighting has been reported on three sides of Saigon — but no closer than 28 miles from the city.

Eleven Communist rocket and mortar attacks were reported during the night.

The West German Parliament is debating the treaty to ban the spread of nuclear weapons. Foreign Minister Walter Scheel said Russia has given assurances the treaty would not hinder peaceful nuclear research in signatory countries.

He also announced Japan has urged West Germany it will sign the treaty.

An Austrian painter, Helmut Konrad, has realized a burning ambition to display his art to his best advantage. He set fire to two of his own paintings, saying "I wanted people to enjoy the burning, to be excited by the movement of colors and the sound of crackling flames."

The 22-year-old artist was asking 408 dollars for the pictures.

## Council Deal With Many Items Monday Evening

At the regular meeting of the Kenora town council held Monday evening a letter dated October 28th was received from the Subsidies Branch, Department of Municipal Affairs sending a cheque in the amount of \$31,955.63 under provisions of the municipal grants act. The grant was based on a population of 11,115 for a total amount of \$63,911.25.

The Minister of Highways sent in comments on the matter of the report of the Consultants on recommended connecting links (highway 17, Highway 108, and secondary highway 604) This was referred to a committee of the whole council.

O'Hallerty, Chairman of the Kenora Public Library board sent in a copy of the Board's preliminary budget for 1970, together with comparative figures for 1969 which indicates the municipal levy for 1970 would be \$45,807 as compared with \$29,000 for 1969. Referred to the Finance Committee.

J. Looole, consultant, Youth and Recreation Branch, Dept. of Education, sent in a communication dealing with the matter of a recreation program for young people of the community. Referred to the Recreation Committee.

Members of the local committee of adjustment were authorized to attend a workshop for committees of adjustment to be held in Port Arthur November 14th.

A letter was received from Mrs. A. G. Romanek, Kenora-Kewatin Business and Professional Women's Club, requesting authority to complete a municipal telephone directory covering the Kenora area be received and referred to the public utilities committee.

The Kenora council endorsed a resolution of the municipal council of Barrie recommending that the provincial shelter grant or its equivalent be credited to the municipal administration rather than to the cost of education.

G. Lummis, clerk of the corporation of the town of Mississauga sent in a copy of a resolution of their municipal council recommending that legislation be passed providing for the municipal licen-

sing of community antenna television companies. Mr. Lummis sought endorsement of the Kenora town council for the resolution. The question was referred to a committee of the whole council. Payment of municipal accounts were authorized in the amount of \$294,070.00. Biggest item in these accounts was a payment to the Kenora Board of Education in the amount of \$172,000.00. Utilities accounts amounted to \$37,292.85.

The mayor and clerk were authorized to execute an agreement with Trevor and Redfern Consulting Engineers, Toronto, covering the construction of a sanitary sewer collection system for Tunnel Island in accordance with the standard form of agreement. Council was advised by Fire Chief Bernard Dubois that the fire department is at present, undermanned on several shifts. Mr. Dubois said the shifts now stand at one officer and one fireman on duty and said he felt that the fire department should have a minimum of 3 men on duty at all times. Referred to the Fire and Police Committee.

Members of the Kenora Town Police force were authorized to attend various courses at the Ontario Police College during 1970. The Municipal engineer was directed to advertise the removal and demolition of the old tourist bureau located across from the fire hall.

A progress report was received on the construction of the sewage treatment plant and council was told that it is the feeling of both the contractor and the consulting engineers that the plant will be in operation by the completion date of July 7th, 1970.

## Ear Falls To Get Improvement District Status

Leo Bernier, M.P.P. for the Kenora district has been informed by the Ontario Municipal Board that approval has been given to an application of a group from Ear Falls for improvement district status. This form of municipal government will be in force at the north-western Ontario Community, along the Red Lake Road, on January 1st 1970.

The minister of municipal affairs will appoint 3 trustees, along with a secretary-treasurer.

## Fireman Pleads Guilty To Manslaughter On Tuesday

Gabrielle Fireman, 25 year old native of the village of Atawabaskat, located 450 miles to the northeast of Sioux Lookout, pleaded guilty to a reduced charge of manslaughter when he appeared before Mr. Justice Wright at the Supreme Court Fall Assize sittings in Kenora, Tuesday afternoon. Fireman had originally been charged with non-capital murder in connection with the shooting death of his 19 year old cousin Eli during the early morning hours of July 31st, 1969. Defence counsel for Fireman is Bruce Findlay of Kenora. The case for the crown was conducted by Crown Attorney E.C. Burton.

Following the plea Fireman was remanded in custody until Wednesday, November 19th for sentence.

The Crown Attorney outlined the case for the court, explaining that the incident occurred following an all-night drinking party which involved about 12 residents of the remote village. Court was told that there had been no previous 'bad blood' between the two men but the night before the shooting an aircraft had arrived with a consignment of wine, beer and rum. The group commenced drinking and during the early part of the evening one of the men had taken two bottles of wine which he indicated belonged to him and refused to pay for it. Later fights broke out among the group which divided into two camps. There were numerous scuffles courts was told, and one woman ended up in a water-trough. One man was knocked unconscious and several were struck with a flashlight. The accused, one witness said, was seen with a 30.30 rifle to his shoulder and a de-

st. One witness saw a shot and heard a scream. The rifle was then seen to fall into the bush and disappear. He came out of the woods sixteen hours later. The rifle was recovered and taken into the possession of the father.

The accused was taken to Sioux Lookout and in a statement said "I'm sorry for what I did, I was drinking and I don't remember. I want to pay for what I did."

Defence Counsel Bruce Findlay said the facts were formed up during the night of drinking and many individual tussles had ensued. A blood test on the deceased showed he had consumed considerable alcohol, a reading of 1.87 parts per 1000 was obtained. The accused, said Mr. Findlay, had never been involved in the courts before.

Corporal Forsythe of the Ontario Provincial Police who investigated the incident told the court that he had always found the accused to be a law-abiding citizen.

## Winnipeg Girl Killed In Crash

Winnipeg—Police have identified 21 year old Rosemary Condo of Winnipeg as victim of a four-car fatal accident this morning in the Greater Winnipeg Municipality of Fort Garry.

Miss Condo is the daughter of W. J. Condo, Comptroller of the University of Manitoba. Three men were sent to hospital after the accident.

## Car Accident Tuesday Night

Cars driven by Vern Lundin and Maurice Metell were in collision at 10:40 p.m. November 11th at the corner of 5th Street South and Fourth Avenue North. The Lundin car was making a left turn from 5th Street onto Fourth Avenue while the other car was travelling east on 5th Street. Over \$100, damage resulted. There were no injuries.

## The Weather

Mostly cloudy today and on Thursday. Widely scattered snowfall. Cool. Winds northwest 20. Low tonight and high Thursday at Kenora, Red Lake, Fort Frances, Sioux Lookout and Atholton 20 and 25. At Armstrong 15 and 25 At the Lakeshead 25 and 30.

## TRUE BILLS BROUGHT IN AT FALL ASSIZES TUESDAY

Tuesday afternoon a Grand Jury empanelled at Kenora at the Fall sittings of the Supreme Court of Ontario made their report to presiding Judge, Mr. Justice Wright, after having considered a number of criminal indictments. A True Bill on a charge of manslaughter was brought in against Gabrielle Fireman, 25 who was originally charged with non-capital murder in the shooting death of his nineteen year old cousin Eli on July 31st at the remote settlement of Atawabaskat situated on the barren west shore of James Bay, some 450 miles to the northeast of Sioux Lookout. A True Bill was brought in charges of attempted murder and wounding against John Joseph Bernard of Keewatin who was charged following a stabbing incident involving his wife.

A True Bill on a charge of manslaughter was brought in against Michael Bruyere who was charged following the beating death of his ten month old son Michael Paul Bruyere, Jr. on May 3rd. Bruyere

originally was charged with the more serious offence of non-capital murder. A true bill was brought in against 34 year old James Redsky of the Shoal Lake Indian Reservation who was charged with non-capital murder in connection with the beating death of Delores Madamain 26, on May 30th. She was a resident of the same reservation. A true bill was brought in against a Kenora man Richard Zubelewicz who is charged with criminal negligence in the operation of a motor vehicle. This charge followed an automobile accident on April 2nd in which a Kenora youth, Richard Zubelewicz met his death.

Following the presentation of the True Bills, Mr. Justice Wright asked members of the Grand Jury to proceed on their inspection tour of buildings which are supported by public funds. These include such establishments as the district jail, court house, fire-creek, hospitals, Indian Schools and other such buildings.

## ROTARIANS HEARD TALK ON REMEMBRANCE DAY

Kenora Rotarians heard an outstanding address on Monday in their commemorative service.

Reverend L.M. Watts, St. Albans Pro-Cathedral on the annual solemn observance of Remembrance Day and all its implications and obligations. The speaker also outlined his duties as a member of Rotary in his classification of "Religion, Protestant."

President Charles Hayes presided. Don Dingwall was welcomed as a guest and attendance last week was 89.96%. This week only 87.93%. It was announced that Jim Wilson had assumed office of chairman for the annual club auction sale. L.J. Johnson had taken over as chairman of Membership.

Speaking on the theme of Remembrance, the speaker said it was a remembrance of war, with all the concomitants of division, hate, violence, needless suffering and death. These were the very opposite of what Rotary is all about. Rotary aims included International understanding and brotherhood. It was not our business as Rotarians only in name and that a meaningless one.

Not only did Jesus Christ pray for the unity of all mankind, but he gave his life in sacrifice, in part of that ideal. Not only has he been called the Prince of Peace, but he laid the obligation on all his followers to be peacemakers. "Blessed are the Peacemakers" he said "for they shall be called the children of God."

I suggest today that one of remembrance of those who gave their lives in war, we re-dedicate ourselves to be peacemakers in the

world of human relationships. "Before we raise for a moment any flag of war, let us first consider the content of organized religion, call for a discipline that men are led to accept. In the realm of religion a something more specific is required than the general term 'Christianity' if a man is going to be a part of the Christian peacemaking efforts."

"To be effective Christian peacemakers, we have to be studied down somewhere. Of such church disciplines Milton Trushell recently said: "Although the disciplines they have voluntarily and joyfully adopted, differ in details, the basic similarities are strikingly great. To change the figure, you can't belong to the army by proxy. Peacemaking is an occupation, and that, in spite of the fact that many think of peace, merely as an absence of war."

"And so we think of those who served, and suffered and died in their wars to end all wars. Tomorrow there will be gatherings at memorials across the country to honor those who gave their lives. The memory of them is a constant challenge to us. In a poem Archibald MacLennan has voiced the challenge. The title of the poem is:

"THE YOUNG DEAD SOLDIERS" "The young dead soldiers do not speak. Nevertheless they are heard in the still houses. (who has not heard them?) That have a silence that appeals for them at night, and when the clock counts. They say, - We were young, we

### From Around The World

A department of Transport investigation into last night's tragic plane crash at Labrador City Newfoundland, is being hampered today by generally bad weather conditions in the area. The executive jet crashed in similar weather, killing all eight aboard, including British Newfoundland Corporation Limited President Donald McFarland.

Searchers are attempting to locate the bodies of Mr. McFarland, two crew members, two other Bricco Executives and three Canadian Dechtel Limited executives. They were key men in the giant Churchill Falls Hydro development.

The consumer price index rose two tenths of a point in October

to 126.0 based on 1964 prices equalling 100. But, the percentage increase of 4.4 percent is lower than in the several previous months. Higher interest rates, property taxes and rents were the main cause of the increase in October. Food prices eased moderately last month, attributed by the Dominion Bureau of Statistics to seasonal factors.

President Sunay of Turkey arrived in Moscow today for the first Turkish presidential visit to the Soviet Union. Sunay and a large delegation of Turkish officials were met at the airport by such Soviet leaders as Premier Kosygin, President Podgorny and foreign Minister Gromyko.

The eight-day visit is billed as a goodwill trip, and illustrates the steady increase in Soviet-Turkish contracts since relations became friendly five years ago.

The so-called "old guard" majority in the top leadership of India's badly split ruling congress party

today expelled Prime Minister Indira Gandhi. It then ordered party members in parliament to elect a new Prime Minister. The party's top policy-making body, the working committee, said it acted because Mrs. Gandhi had set up a rival working committee and a rival all-India Congress Committee. The action is not expected to immediately affect Mrs. Gandhi's position as Prime Minister.

Philippines President Marcos, appears headed for victory in his bid for re-election. With about one quarter of the votes in yesterday's election counted, Marcos was leading Senator Sergio Osmena junior by about 3-2.

Victory would make Marcos the first president to win a second 4-year term in Philippines history.

An American lawyer representing accused airline hijacker Raphael Minichello, says he will fight to keep Italy from extraditing his client. Minichello allegedly commanded a trans-world airlines plane over California and forced its crew to fly to Rome. Under U.S. Law, Minichello could face the death penalty. The most he could get on charges against him in Italy would be a 30 year jail sentence.

Vietnam war protesters have won the right from the U.S. Government to march down part of Pennsylvania Avenue. However, their permitted line of march will avoid the White House, once a prime target of their demonstration Saturday.

A war protest group in Milwaukee says its contribution to Saturday's Vietnam moratorium observance will call for its members to shed blood—at the Milwaukee blood-center. The group said volunteer blood donors will march to the center as a symbol of fraternity with marchers in Washington.

**New Service By C.P.A.**

Toronto—Canadian Pacific hotels and CP Air will start a new service in Toronto January 1st which will deliver a passenger's luggage from the airport to his hotel.

C.G. Burton, Vice-President of the hotel chain, said: "Lots of people have been talking about doing this in the transportation industry but as far as I know we're the first in the world to try it."

He said the plan will start in Toronto and will be established possibly by next summer in other cities with CP Air Service—such as Montreal, Calgary, Edmonton and Vancouver.

**VARIATIONS ON A THEME: THREE WAYS TO SERVE BREAD STUFFING**

Traditional as bread stuffings are, in Canadian homes, they may be baked separately from poultry and meats and served as accompaniments. Consider these three variations for the Holiday Bird this year, whether planned for Thanksgiving, Christmas, or that special occasion.

The recipes for these stuffing accompaniments call for simple, everyday ingredients, yet the combinations are unusual and achieve special flavors. As illustrated, BACON-PARSLEY BREAD STUFFING is baked in a casserole; CELERY-NUT STUFFING STICKS are fashioned from a stuffing baked in a shallow pan and cut into sticks; APPLE SAUCE-PINEAPPLE STUFFING MUFFINS speak for themselves as a quick and interesting way to serve attractive, equal portions to one and all.

By baking bread stuffings separately you not only can achieve a new menu note, you can cut the roasting time for the poultry. Roasting an unstuffed bird allows the heat to reach the internal cavity sooner and shortens the time you need to keep it in the oven. And, there is no need to be concerned about how much stuffing to prepare in order to fill the cavity of the bird. All you need do is prepare the stuffing according to the number of people you wish to serve. Forty minutes or less of even time will thoroughly bake any one of these variations.

**CELERY-NUT STUFFING STICKS**

1 1/2 quarts (1 1/4 inch) bread cubes, lightly toasted  
1/2 cup chopped nuts  
1/4 teaspoon poultry seasoning  
1/4 cup water  
2 tablespoons butter or margarine  
1 cup condensed cream of celery soup

Combine toasted bread cubes, nuts and poultry seasoning. Add water

and butter to undiluted soup and place over low heat until butter is melted, stirring frequently; toss with bread cube mixture until blended. Press stuffing into a well-greased (9 inch) square baking pan. Chill for at least 1 hour. Cut into 8 portions and bake in a moderate oven (350°F.) for about 30 minutes, or until lightly browned.

YIELD: 8 servings.

**HURRY!**

After Friday, Nov. 14th, Canada Savings Bonds will cost you more, because you will have to pay accrued interest.

**CANADA SAVINGS BONDS**

**8%**

average annual interest to maturity

- This year the new Canada Savings Bonds yield an average of 8% interest a year when held to maturity—the best return ever!
- Each \$100 Bond begins with \$7.00 interest for the first year, pays \$8.00 interest for each of the next two years, and then pays \$8.25 interest for each of the last six years.
- You can also earn interest on top of your interest. Double your money in nine years!
- Canada Savings Bonds are designed for everyone. You can buy yours when you work, bank or invest, for cash or on instalments. They start at \$50 and the limit this year is \$25,000 worth for each holder.
- You can cash Canada Savings Bonds any time you want at your bank, for their full face value plus earned interest.
- Few investments are so profitable. None builds more surely for the future. Buy yours today!

**BEST EVER!**

# THE 60TH ANNIVERSARY OF THE LAST POST FUND

It was a cold bleak December night in 1909. An elderly soldier was lying in the doorway of a building in Montreal. He was very tired, ill, destitute and in desperate need of help. At first the police thought that he was intoxicated. However, after further investigation they took him to the Montreal General Hospital, where a few days later he died of malnutrition.

His case came to the attention of Arthur H. Hare, himself a veteran and employed in the hospital. Finding that the deceased man was friendless and penniless, Hare approached several veterans' organizations in Montreal to inquire if they could make arrangements for a dignified and moderately priced funeral and burial for him. He was informed that the deceased man was not a member of any organized group of ex-servicemen, and that no fund existed that could provide the money for such a burial. The body of the elderly soldier was then turned over, ever reluctantly by hospital authorities to the inspector of Anatomy, for disposal.

This incident preyed upon Arthur Hare's mind, to the degree that he managed to interest a small group of Montreal people in the

raising of a fund for the burial of "fallen" and friendless veterans. Thus the Last Post Fund (of that time under another name) came into being in 1909, and was organized by Mr. Hare and a few dedicated associates under a Quebec Provincial Charter. All money for the fund was initially raised by private subscription, and its financial position in those early days was often times precarious.

**DEVELOPMENTS:** In 1922 Arthur Hare and his associates circulated an appeal to members of the Parliament of Canada, asking support for a Government Grant toward the fund's operations. The appeal was favorably received, and eventually resulted in the acquisition of a Dominion Charter, and a grant from the Federal Government, on condition that the operations of the fund become national-wide. Following this, the Last Post Fund Inc., a private corporation and not a veteran organization, was formed and headed by a Dominion Council with headquarters in Montreal. Arthur Hare was appointed full-time secretary-treasurer general, and continued to serve the fund until his death in 1947.

After its inauguration, branches of the Last Post Fund were gradually established in all the Canadian Provinces, each with a Board of Directors of public-spirited Canadians who offered their services, gratis, and paid Secretary-Treasurer. Each branch is responsible to the Dominion Council, to whom annual reports are rendered, and who originally drew up and occasionally amend the fund's regulations, when advisable, and who are also responsible, through the Department of Veterans Affairs, for the proper use of monies provided under the Federal Government Grant.

In addition to the various provincial offices, the voluntary services of sundry ex-servicemen were obtained as local representatives of which there are some 65 in Ontario. It has been largely due to the unselfish devotion and efficient efforts of this type of representative that the Last Post Fund has been able to carry on for so long a period. Some of these men have served in that capacity for 10 or 20 years, or more.

**FINANCES:** While Federal Government grants are the source of the money needed to pay for the services of funeral directors and the purchase of grave plots and markers, Last Post funds still receive and gratefully accept, voluntary donations or bequests from Provincial governments, organizations and private individuals. The funds necessary to pay administrative expenses of all branch offices are wholly dependent upon such public and private monies, or from Municipal Grants, and from the recovery of cash, etc., from the small estates of sundry indigent veterans buried under the auspices of the fund.

**PURPOSE OF LAST POST FUND:** To make systematic and effective provision, at moderate cost, for the dignified and proper burial of any friendless and indigent ex-serviceman or woman who served in the Armed Forces of Canada during a major war, or those of its allies, rather than abandon them to a "paper" burial and consignment to oblivion.

"How shall their names be carved on the tablets of the Last Post Fund? War passed time, their deeds are faded. Their bones buried, NOT as of old—"

**QUALIFICATIONS:** In order to qualify for the services of the "Fund", the deceased person must be a "veteran" of World War I or 2, or of the Korean Campaign, or earlier wars, or the recipient of an allowance paid under the "Civilian War" Pensions and Allowances Act; and he or she must be considered "indigent" at time of death. Indigency is determined by a means test. Neither race, color, rank nor creed influence who shall be buried by the Fund.

**APPLICATION:** Application should be made to Last Post Fund prior to making funeral arrangements. Contact should be established as soon as possible after death with the Fund's local representative, or with the Provincial Secretary-Treasurer. The names of the latter are at the various telephone books, or at where to apply may be obtained from Department of Veterans' Affairs personnel, branches of the Royal Canadian Legion, and other veterans' organizations, or from funeral directors, hospitals, the police, or provincial and municipal welfare agencies. Next-of-kin of a qualifying Canadian Veteran who dies in Great Britain or the United States should apply directly to Last Post Fund Dominion headquarters, 1245 Bishop Street, Montreal, Quebec.

**FUNCTION:** Where a case is accepted as the responsibility of the Fund, it provides a dignified funeral and burial at reasonable cost. This includes the services of a funeral director and his establishment, the provision of a suitable casket to be draped with the Canadian Flag or Union Jack, if desired; the purchase of a grave and the opening and closing charges (or cremation, if preferred), and the erection of a standard marker in accordance with cemetery requirements. Interment is usually in the "Veterans' Section" of a cemetery, although Montreal has its own "Field of Honor." In death there is no distinction as to rank, except that which is shown on the inscription of the marker and sea-men, soldiers and airmen rest side by side with N.C.O.'s, Nursing Sisters, and some Officers.

**60th ANNIVERSARY:** So 1969 brings us to the sixtieth Anniversary of the Last Post Fund—an organization unique in the world, and one of which Canadians can be justifiably proud. Everyday three or four veterans are buried by the Fund. Since its inauguration in 1909, approximately 24,000 veterans have been buried under its auspices, a total cost of about \$6,100,000.00.

"To honor and protect in death, seems but small return to him who has protected the nation's honor in life."

**LEST WE FORGET**  
**LETTERS TO THE EDITOR**

Dear Sir:  
Electors attending the Kenora-Town Council meeting October 27 1969, requesting a vote December 1st, 1969, on the question of the proposed re-routing of the Trans-Canada Highway #17 through Kenora's Town Center as a "Controlled Access" highway, were no doubt all amazed, at the reading of a pre-prepared statement, refusing the elector's a vote on said question saying "It would serve no good purpose at this time" and "a vote could be taken at any time of the year". Messrs T. Saul, D. Sweeney and D. Kennedy were conspicuously absent it would seem. Refusal to put the question before the Electors at Election Time, December 1st/69, shows lack of consideration to the request of the electors present, for a democratic vote on the question with greater cost of the question is put other than at Election Time. Let the Electors decide as to whether or not their elected representatives have made a wise decision on this proposal. I feel points to be remembered are these:

1. The electors should be granted their right through the Democratic process, of a vote on the question.
2. No serious consideration has been given a complete by-pass of the Town, supposedly because of prohibitive cost of necessary bridges.
3. The Municipality retains jurisdictional control over the route.
4. The Amalgamation of Kenora, Keewatin and Jaffray Melick seems to be inevitable in the near future. Kenora needs the land, which Jaffray Melick will no doubt provide when amalgamation takes place. This should be the most important consideration, in any plans for the re-routing of the T.C. Highway in this district.
5. Kenora is too small, to permit the designation of any of our streets or proposed "Connecting Links"

## Meet the Teacher

MRS. SHEILA LYSAK, Pine Grove, addition to the staff of Pine Grove School. This is her first year of teaching. Prior to coming to Kenora Mrs. Lysak attended Lakehead Teachers' College in Port Arthur. Before becoming a teacher, she was employed for a year by the Bank of Montreal in Fort

William. Mrs. Lysak has been a native of Fort William all her life and received both her elementary and secondary education there. In addition to her interest in teaching, Mrs. Lysak is also a fan of outdoor sports which include skating and various other activities.

as the Trans Canada Highway, at such great cost to Kenora and all Ontario Taxpayers, as it will not eliminate the traffic congestion or noise problem in Kenora. Our Post Office building seems to be a good one, is a landmark most of us are fond of. Do you want it torn down for this purpose? Those having a right of decision on this serious matter, should certainly consider, the future good of the whole district and all the people concerned, regardless of the cost of necessary bridges, etc and plan a route north of Kenora, thereby giving all the choice as to whether or not they wish to come into Kenora, or be forced to come into Kenora. Transport and other trucks would not have to travel our downtown streets, thereby eliminating most of the heavy, noisy truck-traffic in Kenora. The cost of an out-of-town by-pass would be shared by the greatest number, be far more practical despite the cost, for the future benefit of the greatest num-

ber of people and the widest area in the District. Mr. Wm. Tomaszewski is to be commended for his action, in now having petitions circulating, in an attempt to have the matter brought to a vote of the people—the electors. Those interested in preventing the proposed re-routing of the T.C. Highway as a "Controlled-Access" route through Kenora-Town Center and the cost it will entail, on their property and the Provincial (income) Taxbills, will be interested to sign in their own interest. It seems we are always being forced to do things the hard way—by Petition. Why waste more tax-dollars on further exploration—costs in Town, on this matter? Will YOU do YOUR part as a voting CITIZEN? Thank you Mr. Editor. Most Sincerely Molly Thingelstad.

## Plankton in Sea Being Killed

**TORONTO**—Philippe Coustau, 38, son of nuclear engineer Jacques Coustau, said Monday waste from deep-sea and agricultural drift is killing

valuable plankton in the sea. The source of 50 per cent of the world's oxygen comes from Mr. Coustau, who pointed out in his father's underwater exploration, said in an interview some planktonic organisms the sea's oxygen supply will last only 60 more years at the present rate of wastage.

## SHORT FINGERED MEN

**BATTEL BOUVER, La.**—JACK STEVENS, 37, who had the world's longest record for nearly 40 years, died Monday of a heart attack. Stevens set the record of 37 feet 1 1/4 inches, later raising it to 37-1/2, in 1958.

## Blessed event!

This is the true story of a blessed event—and how the beautiful Spartan apple came to be.

Many years ago, the apple growers in British Columbia's sunny Okanagan Valley decided to cross the McIntosh Red apple with the green Newtown apple. The apple created by this union was totally unique. It was a beautiful, deep red. It had a distinctive, sweet flavour. It was equally good for cooking and eating. It had a snowy-white flesh, and an unusually small core. They called it the Spartan apple!

The new Spartan apple was so good that the growers planted more and more. Today, the Okanagan grows almost all the Spartan apples in the world! So you can be reasonably sure that any Spartan you buy is the real thing—nourished by the Okanagan's clear mountain streams and bright, warm sunshine!

Make a point of trying them next time you shop. Ask for B.C. Spartan apples.

# Boise Cascade Details \$3 Million Plans For Air and Water Pollution Control

Major developments and improvements in Boise Cascade operations at the Falls were announced at a community meeting in the Falls restaurant Thursday evening. Talks and slide presentations by the managers covered more than 25 programs and projects completed in the last few years to achieve stability and growth for the local industries.

Publicly discussed for the first time were plans for additional water and air pollution abatement facilities to be installed within three years at a cost of more than \$3 million.

Resident Mgr. F. G. Williams, Paper Div., reported the start of construction on the first stage of a major facility to reduce the pollution of Rainy river. The initial project consists of a foam disposal system and new outfalls for the mill sewers. A 200 ft. diameter clarifier to cost an estimated \$1½ million will be built next.

Conversion to natural gas fuel, scheduled for 1970, will be an important step toward reducing air and water pollution, Williams explained. The change-over of the steam plant alone will cost the Company

approximately \$750,000. A new precipitator to cut down air pollution at the kraft mill is also in the planning stage.

"We're here to show and tell what's been going on at Boise Cascade," said James G. Crump, assistant manager of manufacturing, in his opening remarks. He then showed slides depicting the Company's widespread operations and markets, and growth from \$37 million sales in 1957 to \$1 billion in 1968.

Williams' presentation covered numerous Paper division projects: the modernization of two paper machines, new finishing and cutter room systems, pulp mill improvements and various other installations. Some improvements, he noted, were mainly to increase production, others for product upgrading and greater operating efficiency, and still others to provide better working conditions. Modernization of No. 4 paper machine, he said, is scheduled for 1970. Slides included a view of the newly painted international bridge and a new Minnesota, Dakota & Western Ry. vehicle storage building.

Williams also discussed the increased use of chips in the papermaking process, both for

efficiency and better utilization of available forest products.

Resident Mgr. Guy Schaefer of Insulate reported on capital expenditures by his division. His slides covered major developments, such as the siding plant expansion, installations for making new and better siding products, automatic kiln unloader and numerous other improvements. A slide showing a newly surfaced employee parking lot reflected efforts to improve working conditions.

Commenting on the nationwide drop in home construction, Schaefer reported that Insulate has not been as severely affected as some competitors and other branches of the building materials industry. "Insulate sales have held up better than those of most manufacturers," he noted, "our machines are running seven days a week."

A question and answer period followed, with George Amidon of Midwestern Woodlands joining the other managers in supplying information. An invitation for groups and individuals to tour the Falls mills was extended at the start of the program and repeated several times.

## Furniture Worth \$500,000 Stolen

**CHICAGO** — Burglars carted an estimated \$500,000 worth of imported furniture out of a Chicago wholesale showroom Sunday.

A janitor, Allen Glover, 66, walked in on the thieves during the burglary and was bound and gagged as the robbers finished clearing the John Straus Showroom.

John Straus, 59, the proprietor of his loss at "at least \$500,000" and said, "The showroom is bare." He estimated that the thieves took six truckloads of furniture.

## Ontario May Drop Income Tax

**TORONTO** — Treasurer Charles MacNaughton said Monday the federal government's proposals for tax reform may make it unnecessary for Ontario to impose a provincial income tax.

In a statement to the legislature on the federal government's white paper on taxation, he gave qualified approval to the proposals and said he hoped federal-provincial discussion of them would be held as quickly as possible.

He said it now was hoped Ontario "can become an effective part in one properly reformed tax system across Canada."

Mr. MacNaughton stressed that the province has some reservations about the federal proposals and that the white paper would be examined closely before a definitive position is taken.

He expressed reservations about the method of providing relief through increased basic deductions for single and married taxpayers, saying these would be costly in terms of revenue and of no value to persons whose incomes fall below the exemption level.

He also expressed disappointment that the white paper proposes to increase federal revenues from income tax and that the gains would accrue almost entirely to the federal government.

## Government White Paper Released Financial Markets React How are your Investments Affected?

That, of course, depends on how many of the White Paper's proposals eventually are written into our nation's law books. Some of the proposals could have a profound effect on the Canadian economy if implemented by Parliament.

As a service to investors, the Research Department of Richardson Securities of Canada has prepared a preliminary comment on the White Paper. Our Financial Analysts have made projections on how the White Paper, if legislated, could affect our economy in general; and investment securities in particular.

For a copy of our Research Department's comments, drop in or call our nearest office.

## Duplicate Bridge

We had twelve and one half tables last week, but the same winners! Lynn and Dave Rayner have won 3 out of the last 4 weeks and the week Dave missed Lynn and Betty Brown were tops.

This makes four straight wins for Lynn and three out of four for Dave. I guess we better put a stop to that!

John Gallagher Munroe Roy were top E.W. with 60.4%. Dot Spencer justy Bureau second with 57.2%. Jeff and Mary Craig third with 56.4% and Theresa Kevin McGuire fourth with 56.2%. Jean McIntee Hilda Swanson were second N.S. with 58.4. Bette Browne Alan Spencer third with 54.2% and Hilda Collins Maud Scharr next with 52.9%.

Mel and Glen Peterson were a happy pair even if they did not place, they were the only pair to bid both slams on boards 7 and 8. They bid six spades, made 7 on board 7 then bid six clubs doubled on board eight and made that. John Gallagher Munroe Roy bid six spades but not the other slam and Kevin and Theresa bid the clubs but missed on the spades.

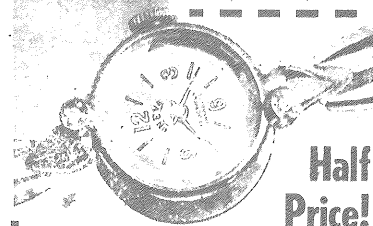

Stan and Annette were the only two not happy about Mel and Glen's bids as they happened to be the opposition. Don't forget the Open Pairs Championship this Saturday, with two Sessions, 1:30 p.m. and 8 p.m. There will be a supper served between sessions by the Ladies' Auxiliary of the Church, all this for \$2.00. You can play in one session if you like and attend the supper too. Let's have good turnout. Marian Williams and Evelyn the Champs for the last 3 years, will be back to defend their record. Larry Gartner Ed Balka are the only others with their names on the Doug Tansley Memorial Trophy, maybe this year, we will add two more names.

## Professor Contends Colors Can Affect People's Moods

**CALGARY** — Weary of life's pressures? Want to escape? Paint your bedroom blue. A man whose expertise in color has made him world-famous, certainly wouldn't recommend blue bedrooms. But then, Harry Woffarth's bedroom carpet is red. He loves living and action and has no desire to do the blue thing—retreat from life and love.

Prof. Woffarth was interviewed on his way home to Edmonton from Rome, where he recently presented a paper supporting the long-held theory that colors really do affect people.

The fine-arts professor from the University of Alberta has been studying this for the last 16 years. He says he has found that colors do cause changes in pulse rates, breathing rates and blood pressure—changes that cannot be controlled consciously.

### YELLOW STIMULATES

Yellow is the most stimulating, followed by red and orange, the professor says. Darker colors depress—black the most, then blue and green.

Prof. Woffarth warns that a complicated series of tests is necessary before any scientific evaluation of a person's personality can be made. But his findings make for great insight analysis.

**Yellow**—for gogo people. Yellow stimulates, particularly mentally. An office full of yellows could be speeded up considerably by splashing lots of yellow paint around.

**Red**—for the self-confident. Red people are aggressive, in a sculline, strong, lively. They, and their color, have a "kind of roar," the professor says.

**Orange**—for those not as aggressive as red or yellow people. They are more like

their color, cheerful and uplifting. They are usually attractive to others.

**White**—for sleep. Legree types. While terroristic people, conjures up images of endless icy wastes, threatens security.

**Blue**—for calm people. Blue people inspire rest in others, can provide a retreat from the hurry-burry red and yellow types.

**Green**—for boring people. They are deadlocked between peppy yellow and recessive blue.

Prof. Woffarth says the painter Kandinsky best described green people as great, fat, contented cows sitting in a meadow and gazing around with huge, stupid eyes.

**Marvs**—for would-be nuns. Marve people withdraw spiritually from the world's cruelties. Purple people are not as esthetic; they have a dash of

### UN Warned

**UNITED NATIONS** — An assessment called for by New York City police today that UN Headquarters would be bombed.

Police cars rushed to the 15-story international complex but no explosive device was uncovered.

Special checks were instituted at all entrances. They were expected to remain in effect throughout the day, principally because of the scheduled visit of Canadian Prime Minister Trudeau.

**Wells Still Awaiting OHSIP Card**

**TORONTO** — Guess who hasn't received his Ontario Health Services Insurance plan identification card. It's Thomas Wells, provincial health minister and the man directly responsible for OHSIP, Ontario's part of the federal medical care plan.

Mr. Wells told the legislature Monday he was not yet a card-holder and Liberal Leader Robert Nixon said he was in the same situation.

Last month, Mr. Wells said persons without cards may still be treated by their doctors and OHSIP will pay its share of the bill.

The original deadline for membership in OHSIP, Sept. 30, was extended indefinitely by Mr. Wells so that 200,000 Ontario residents who had not registered could do so.

**TAKES BRIDE, 14**  
**DAR ES SALAAM** — Vice-President Sheikh Abeid Karume, 64, of Tanzania, has taken a 14-year-old girl as his third wife, informed sources said Tuesday.

**Saints March Past Muskies**

"That's the way to really blow a hockey game," said the Saints' coach Terry Bicknell, summed up his club's 6-5 final minutes with the visiting St. Boniface Saints at the Recreation Centre Saturday. "We played good fundamental hockey in the first two periods and then forgot everything we'd learned in the final frame. I was particularly disappointed with the play of my wingers and my regular defencemen," said Bicknell.

The St. Boniface dressing room, on the other hand was a picture of jubilation and the man of the hour was Ralph Watkins who gave Muskie goalie Rick St. Croix a little chance on his game winning relay from Laurie Sutton with just 24 seconds remaining in the game. The Saints pounced on every scoring opportunity to overcome a two-goal third period deficit. Trailing 4-2 midway through the 3rd period the Saints counted 4 goals to the Muskies single tally to gain the victory. Ironically, Muskies' Jim Rice on nearly pulled his last second heroics once again when his blue line shot elicited Saints' goaltender Phil Perron and entered the net while the horn was sounding to signify the end of the game.

The Muskies controlled play in the first two periods and held period leads of 2-1 and 4-2. They also outshot the visitors by a 31-19 margin over the game and took 6 of the 12 minor penalties assessed by referees Joe Peters and Amie Baert. The Winnipeg duo

kept the game well under control. Larry Bazylo led the Saints' scoring with two goals while singles came from the sticks of Steve Coak, Laurie Sutton, Fred Nord and Ralph Watkins. Bazylo scored his second goal while the Muskies were enjoying a man advantage and a 4-2 lead. He intercepted a centering pass just outside his own blue line and raced in on Duroby to score the tying marker. Duroby was injured on the play and was replaced by Rick St. Croix who had little chance on the two goals that beat him. Duroby's injury was diagnosed as an ankle sprain and X-rays were scheduled to determine the extent of the injury. Ron Casey also re-injured his ankle and did not play during the final period. Buzzo Haines collected his third hat trick of the season with five goals and one assist. Ken George scored a goal and two assists. John Drygusak scored the fourth Muskie goal on a solo effort which saw him unload a blistering shot from just inside the blue line.

Although he did not offer this an excuse, Bicknell was forced to go with only two lines and two defencemen. Butch Olson was not dressed due to his wrist fracture. Casey and Marcel Dubroy were injured, Doug Vansyck who was expected to return to the lineup was benched, and Manny Dubroy did not dress until the second period upon his return from the football wars in the Lakehead. Casey's absence forced Bicknell to use Tom Vanrobays and John Drygusak on defence. If more injuries crop up the Muskies could be in trouble. The Muskies see action again Thursday when they travel to Selkirk to meet the rejuvenated Steelers who recently dumped Dau-

**New Talent For Crippled Muskie Line-Up**

Muskies' coach, Terry Bicknell was fishing for new Muskie talent with his thoughts when the phone rang at his residence. "You see, his ranks had been depleted via the injury bug and the head mentor was wondering what the future might bring. It was almost as if ESP had triggered the concern of brother Ted in Chicago who's welcome voice was on the line direct from the Windy City. "Hello Terry, can you use a kid who's greatest asset is a desire to play hockey?" With that, Bicknell almost dropped the phone but regained his composure to offer a calm "yes".

**Thistles Downed 6-2 Tuesday**

The Kenora Senior Thistles went down to a 6-2 defeat at the hands of the visiting University of Manitoba Hockey Club Tuesday. A total of six minor penalties were doled out by referees Malmo and Scott with both clubs taking three apiece.

It was 1-0 at the end of the first period and the visitors counted 4 more in the second for a 5-0 lead and then came back with one in the 3rd for their total of six. On the other hand, the Kenora Thistles best output was in the third frame when they dented the twice.

Leading the Blons' attack was Jim Gately with two goals and singles going to Paul Allan, Mark Carlow, Rod Linguist, and James Boyd. Kenora's two counters were scored by Don McGowan and Brian Phelan.

It was the work of Allie Reynard that kept the score down to the first frame as the Blons were free-wheeling at will as a result the territorial play was all Blons, but Reynard on more than one occasion sent the storming visitors forwards nodding their heads with his sharp goal tending only to have it marked by his injury with only 30 seconds remaining in the initial frame.

Dean Jefferies took over in the 2nd period and the Thistles up front could not give him the support required and before long, the Thistles were looking for a 5-0 deficit at the end of the 2nd period. Midway through the 3rd period, Allie Reynard once more took over but the cause was lost for the Kenora Thistles.

This coming Friday, beginning at 8 p.m. the Kenora Thistles will host the St. Boniface Mohawks for their league opener. President Bob Johnstone announced today that trophies and awards will be given out to the players at the start of the second period. Friday's Mayor E.L. Wilson will officially start proceedings and a

**Devlin Aces Lead Commercial Hockey League**

Devlin Aces are the only undefeated team in the Commercial Hockey League after their 4-0 victory over the Kenora Hawks Sunday night. In the opening game, Kenora Kings swamped the Grassy Narrows Royals by a 12-2 score. Scorers for the Kings were Wendall Watson with 3 goals hitting for two goals while Kenora's goals were scored by George Metall and Al Kroyak, Grassy Narrows were Robert Land, Jim Southwind, — Referees were Don Millard and Brian Paul. They handed out eleven penalties. Kings took 8 of these. Kenora Braves rolled over the Pawtiks Seals by 4 - 2 score. Salto Mamegejack was the top scorer for the Braves, hitting for 4 goals while 3 went to Vern Main-

ville and Joe Seymour. Two goals went to George Klabowsky and Ron Klabowsky while scoring went to Steve Skedd and Richard Jourditch. The Seals counters were scored by Robert Pappopoulos and Jacques Pappopoulos. Nine penalties were called with the Braves taking five. In the third game of the night, Kenora Hawks defeated the Whitefish Bay Rangers for their first setback of the season by a 5-3 score. Scorers for the Hawks were Pat Corbher with two, Singles went to Brian Karolis, Mike Litowski and Tony Ravitch. Markermen for the Rangers were Leo Cresapigne, Tom White and Alex Medicines. Referees Brian Paul and Don Millard handed out eleven penalties. Whitefish took six.

**Sports Briefs**

The heavy fog which has blanketed Toronto for the past few days has brought fears for this Sunday's Eastern Football conference game along with memories of the Grey Cup of 1962. In that Grey Cup game no one could see the action for fog

# Today's Children

**COLIN** is a very handsome boy, 14 months old, Scottish and English in background. He is big for his age, stockily built with bright blue eyes, the finest of hair and skin. He has been walking since he was 10 months old, and now likes to run and climb. Colin has a big vocabulary than you'd expect for his age.

He loves books with pictures of animals and can pick out his favorites and say their names. He is

interested in other children, especially tiny babies.

This little fellow is very bright and healthy but he has a problem adoption workers are hearing about more and more these days. His mother was experimenting with LSD before he was born, and he has an abnormal chromosome count. No one really knows the significance of this, but geneticists say this uneven chromosome count occurs in the normal pop-

ulation as often as it does where there is a drug background. Sometimes also, it corrects itself. Colin, needs parents who won't worry over that uncertain factor in his medical history but will love a beautiful little boy for what he is.

To inquire about adopting Colin please write to Today's Child, Department of Social and Family Services, Parliament Buildings, Toronto 182.

## Fireman Pleads Guilty To

(Continued from Page 1)idents of Atsawabaskat to be much above average people and the officers had always received excellent cooperation during investigations from the Chief and the Councilors of the Band. He said the Chief and Council often handle the administration of justice themselves in minor incidents.

Mr. Findlay told the court that there are about 475 to 500 people live at the settlement and the inhabitants are known as 'coastal Cree Indians.' At the settlement there is a priest, Ojibwa sisters and nursing staff. There is no road or railway but a scheduled airline now stops there when weather permits. He said the people used to live further away on a Reservation but had moved down to the area of the settlement during the past 30 years. There is a Hudson's Bay Post there and outside communication is by Radio-telephone.

Mr. Findlay said the government is

presently engaged in a program of house-building at the settlement. The houses are kept clean and the people maintain a high degree of pride. He said the Fireman family in particular had always been held in high regard and make their living hunting and trapping. There are no sanitary facilities in the homes, and no electric lights. However, most families have freighter canoes powered by outboard motors and some have power toboggans for winter trapping. Entire families leave the village when winter sets in and spend six months out on trap lines. One man was known to have cleared \$2500 from trapping during the winter.

The accused said Mr. Findlay had completed Grade 5 at Mooseonee at the age of 22. Drinking parties are a fairly recent thing at the settlement said the Defence Counsel. The accused, following his arrest said he had fished out and came to when in the woods. He said he recalled a voice saying "Go home. You did something terribly wrong". The voice, said accused, seemed to come from the hills. He returned to the camp and

then learned from his father he had killed his cousin.

Mr. Findlay said he felt that incarceration for the accused would be a tremendous adjustment, particularly he said, as he does not speak any English. He said there was a complete lack of motive and that witnesses had testified as to a melée going on throughout the night. He asked for the mercy of the court for the accused.

## 2 Hunters Die While Hunting

Minneapolis—Hunting success was spotty on the opening weekend of the 1969 Minnesota deer season in which two hunters died of gunshot wounds and two others suffered fatal heart attacks.

The statewide season began Saturday, with the season ranging up to 9 days in the prime deer country. Other areas had one and two-day seasons.

The season was only about one hour old when Willard Rantz, hunting with a group on his farm

# BUDGET ESTIMATES SET AT OVER \$1 MILLION

The Public Works engineer Harry Cookburn presented Town Council Monday night with budget estimates for both capital and operating amounts for 1970 for waterworks, parks and cemetery and public works. Total for all estimates was \$1,052,320.00. Among the items were the following:

1. Waterworks capital budget - \$13,450.00
2. Parks and Cemetery (a) parks maintenance \$37,500; outdoor racks \$3,700.00; capital expenditures Cemetery, Conny Island, Recreational Centre Grounds - \$100,000.00 for a total of \$86,200.00
3. Public Works (operating):
  - a- Roads and Bridges \$150,000.
  - b- Sidewalks \$26,000.
  - c- Operating and Maintenance of equipment \$45,500.
  - d- Truck Maintenance \$17,500.
  - e- Refuse collection \$61,000.
  - f- Sanitary Landfill \$29,500.
  - g- Sewer Maintenance \$41,500.
  - h- Storm Sewer Maintenance \$1,500.
4. Waterworks (operating) \$209,670
5. Municipal Equipment \$47,100.
6. Storm Drainage, Sidewalk construction and replacement - \$180,000.00
7. Proposed paving - \$100,000.00

These budget estimates were referred to a committee of the whole council.

Four miles north of Wadena, was struck by a stray bullet. The second shooting death occurred a few hours later about twenty miles southeast of where Rantz died. Wesley A. Henderson, age 38, of Fergus Falls was attempting to flush deer from heavy brush country when he was struck by a bullet.

The Treasurer of the ladies' aid club brought a deposit to the bank and handed it to the slightly deaf teller saying it was "aid" money. The teller, thinking she said "egg" money, chipped back pleasantly: "My, my, it looks like the old hens have been doing right well."

They say—Our deaths are not ours — They are yours. They will mean what you make them.

They say— Whether our lives and our deaths were for peace and a new hope, or for nothing, we cannot say. It is you who must say this. They say— We leave you our deaths. Give them their meaning. Give them an end to war and a True Peace. Give them a victory that ends war and a peace afterwards. Give them their meaning. We were young, they say. We have died. —Remember us? In his vocational remarks Dean Watts said he was a servant-salesman of the Biggest Company in the world, and the oldest one. It is a corporation that goes under the general name of the Trinity. The President yields a power — only limited by demand. There is never any difficulty about supply. The Company has agents or salesmen all over the world. It is a Multi-lingual Company, as far as I know, not only International but Super-National. It has a communication system second to none, that goes under the general name of Prayer. Its constitution took ages

## The \$2.76 advantage of the 40-year mortgage

**NATIONAL HOUSING ACT** mortgages may now be extended to forty years.

What does this mean to the borrower? Is it a wonderful new system of making it possible for everybody to own his own home?

With rising interest rates, the only possible way to keep monthly mortgage payments down is to lengthen the amortization of the loan. Unfortunately, this financial rubber band can be stretched just so far.

Amortize means to spread. To amortize a loan is to extinguish it by means of a sinking fund; in other words, an allowance of principal payments over a period of time will be made to reduce the debt to zero.

When amortizing a NHA mortgage, the repayment schedule is computerized to ensure that all monthly payments are identical, with each one containing the amortized principal amount, plus interest on the outstanding balance of the loan.

Previously, NHA loans could be obtained with a maximum amortization of 35 years. In attempting to keep the lid on the

soaring cost of housing, this has now been stretched to 40 years.

The current maximum NHA loan is \$25,000. When one becomes a mortgagee (borrower) in such a deed, a 1 per cent insurance fee, in favor of the lender, must be added to the loan. This produces a maximum NHA mortgage of \$25,500.

Using an interest rate of 10 per cent compounded semi-annually, the monthly payment on such a 40-year loan is \$210.41.

If this loan were amortized at the previous maximum level of 35 years, the monthly payment would be \$213.17—a difference of \$2.76.

By taking advantage of this \$2.76 monthly saving, the borrower will bind himself not only to a further five years in the loan, but to an additional debt of more, than \$11,000.

And NHA regulations, by requiring the interest to be adjusted every five years, could point a much gloomier picture—Richard H. Stacey, a Toronto real estate broker, and the author of *Canadian Real Estate: How to Make it Pay*.

### REPAYMENT OF \$25,500.00 MORTGAGE, 10%, COMPOUNDED SEMI-ANNUALLY

	40 year loan	35 year loan	30 year loan	25 year loan
Monthly payment:	\$ 210.41	\$ 213.17	\$ 217.83	\$ 223.86
Yearly cost:	2,524.92	2,558.04	2,613.96	2,710.32
