Michelle Acting Senior Financial Analyst
Peter Marshall, Municipal Policing Unit

On a Regional level and Provincial level we can draw experts to talk about specific projects.

The Detachment Commander is your local point of contact. Acting Inspector Neild is responsible for everything related to Kenora. Also responsible for Sioux Narrows-Nestor Falls and provincial responsibilities.

At the time you have the resources to cover the entre area, but you spend 95% of time in the City of Kenora. It means you have more access to resources and that is how the local detachment works. Could be assisting other police services such as Treaty 3 police service. The advantage we have in our communities, we have access to all provincial resources.

You have detachment commanders who were born and raised here and know the community well.

As Regional Commander it is his mandate to oversee the nine detachments and provide regional support. Whitedog is a good example where they add staffing complement to cover the shifts at Whitedog Independent Nation. Can help regionally and fund through other areas. If you had major incidents, they bring in additional specialized units to step in and help as needed. Provincially they have a mandate to cover other major components of policing. Maintain synergy between local priorities, provincial priorities and they do everything they can to allow the membership of the detachment to focus on the City of Kenora.

Property crime was at the highest in the City of Kenora with year over year decreases in all levels of property crime. Regionally it is driving down the property crime across the region. The prevalent crime you are dealing with is dropping year over year and clearance rates are good. Kenora is not the highest in violent crime.

Superintendent is the direct supervisor of the Detachment Commander. It is overseeing the position of the D/C. Do see all the reports. There is an obligation to replace the Detachment Commander. On an interim level, it rests with MacKillop directly.

It is the Board's prerogative to evaluate the Commander separately, however the Commander receives his evaluation as part of the OPP's processes.

It is recommended that the Board work with Ontario Association of Police Services Board (OAPSB) to continue advocacy for the need for social intervention above and beyond policing. That collective group advocating on behalf of policing is key. There are social interventions that need to occur, and it is our advocacy that will be key. From a public perception piece, we have a role to communicate more of what we are doing. When we have more interaction with the community and engagement with the community there are better satisfaction surveys. When it comes to what we are doing regionally, we have a staffing model that we are able to monitor over a five-year service the calls for service and if we find there is too much being done on a reactive basis, we have a way to revaluate that. As we look to grow, over the next year the growth numbers are all going to come to Kenora to address the Whitedog policing. Come January there will be a dedicated recruitment team with a dedicated communication person dedicated to recruitment. Able to do that because there is so much vacancy in the north. Need to find good solid people that want to be police officers. In the growth model, Kenora is forecasted to grow the most.

Recruitment should be a priority of the Board and advocacy is key. Bail reform is another area of advocacy. The safety issues that are posed and third from an alcohol perspective and need that to be a focus. Limiting hours of service and the relocation of areas that sell alcohol. The most significant impactful thing is alcohol. All the health units provided all the statistics and have that information gathered and shared with everyone.

It is the Detachment Commanders that work with the advocacy groups and the Boards working with the province that will make a difference.

We are much ahead in recruitment, there are 8 names that all want Kenora, and have houses in Kenora, we are doing well and travel to Manitoba, schools, conferences, and career fairs.

The billing model is a four-year model and if you have additional ten officers in a detachment it is incorporated into the provincial model and allocated across the province. We are able to add more resources without the cost being directly allocated to the City of Kenora and that is the economy of scale.

The Board thanked Mr. MacKillop for attending.

Minutes of the Previous Meeting(s)
Resolution #1
Moved by J. McGrath, Seconded by S. Norlen & Carried:-

That the minutes of the last regular meeting of the Kenora Police Services Board held September 16, 2025 be confirmed as written and circulated.

Business Arising from Minutes (Outstanding Items)

a) Outstanding Policies
The board will have two policies per meeting coming forward.

b) Youth Mentorship Engagement Fundraiser
MCSS has funding coming forward and hopeful that the funding will be in place. There is an opportunity for the Board to be involved where it's a board night and they come and participate.

It was questioned if there are corporate sponsorships for the youth programming event.

Statistical Reporting
- September 2025 Kenora OPP Statistical Information

Acting Detachment Commander Neild provided the Board with an overview of the report. The crime severity index and violent crimes are down. Under the property crime section we continually have a continuing trend down basically every category for property crime.

The Board can help with getting the message out to the general public on what they can do to help. The OPP had individuals hitting all cars – if hit all cars they may stop. Data is showing even in September decrease in property crime is slowing. It will start going in other direction unless we start getting a handle on thefts. We need to work with community partners how we are going to address that issue. OPP has met with Manager to discuss the placement of liquor and entrances/exits. It's going to keep happening in other locations. We need to advocate for changes to the placement of goods and CEPTD logics. Need advocacy with community partners.

There are opportunities to put in bylaws for alarm calls where it's billed back to company for false alarms.

Ride programs are important, and they continue to happen and continue to grow in presence. We are seeing a significant continued number of impaired on a weekly basis.

Foot patrol hours were 116.75 hours which included 338 hours downtown and 75 hours on foot patrols in schools.

Strategic Plan Tracker
The group has not met.

New Business

Northwestern Health Unit Report – reaffirming something we all know the more availability of alcohol and what it is doing to our community including impacts to emergency response.

During the deputation delegation at AMO the Minister was surprised to hear that the O/Reg overrides local policies/bylaws on alcohol availability and sale times in individual communities. They Mayor is meeting with Minister Kerzner as a follow up.

Next Meeting Date
November 25 @ 2:00 p.m. – Kenora OPP Detachment Office

KENORA OPP DETACHMENT BOARD
CONSEIL DU DÉTACHEMENT DE KENORA
DE LA POLICE PROVINCIALE

KENORA OPP DETACHMENT
DÉTACHEMENT DE KENORA DE LA POLICE PROVINCIALE

Policy Name: Board Communication	**Policy #** **KODB-4-1**
Reference: Community Safety and Policing Act (CSPA) and Regulation 416/23	**Date:** January 13, 2026

1.0 Purpose and Scope

The purpose of this policy is to establish clear guidelines for communication practices that promote transparency, accountability, and public trust in accordance with the Community Safety and Policing Act (CSPA). This policy applies to all Board members and designated staff involved in communication activities. It covers interactions with municipal councils, the public, media, and other stakeholders.

2.0 Principles & Legal Foundations

This Board commits to communication grounded in the principles of transparency, respect, inclusion, and procedural fairness as required under the CSPA and Regulation 408/23. All communication must uphold the highest standards of professionalism, confidentiality, and cultural sensitivity. The Board is committed to fulfilling its obligation to publish strategic plans, annual reports, and directions to the OPP Detachment Commander in a timely and accessible manner.

3.0 Roles, Authority & Delegation

3.1 Authorized Spokespersons

Only the Board Chair or other designated spokespersons are authorized to speak publicly or issue formal statements on behalf of the Board. Staff support will be provided to assist with the preparation and review of communications, including press releases and media statements.

3.2 Handling Public and Media Inquiries

Board members are expected to refrain from providing official comments or information to the media or public unless specifically authorized. If approached for comment, members should:

- Politely direct inquiries to the Board Chair or designated communications officer.
- Clearly state if offering personal opinions, ensuring these are not mistaken for official Board positions.
- Avoid discussing confidential or sensitive information.
- In critical or sensitive situations, all media engagement must be coordinated through the Chair or communications lead.

3.3 Personal Opinions

Members must clearly distinguish personal views from Board positions when communicating publicly and ensure compliance with the code of conduct outlined in Regulation 408/23.

4.0 Public Engagement & Channels

The Board will utilize appropriate platforms, including the municipal website, social media, public meetings, and press releases, to engage with the community. All communication channels will be managed to ensure accessibility, inclusivity, and responsiveness to diverse communities, including Indigenous peoples, racialized groups, and persons with disabilities.

5.0 Critical Events & Sensitive Situations

A critical event is any occurrence that may significantly affect public safety, community trust, the reputation of the Board, or its ability to fulfill its responsibilities. Examples include serious injury, an officer-involved incident, a major policy failure, or any matter that draws considerable public or media attention.

This definition is informed by the concept of a “Critical Point” as outlined by the Toronto Police Service Board, which describes situations that quickly elevate operational, reputational, financial, or governance risk and require the Board’s immediate attention. It also reflects the guidance issued by Ontario’s Inspectorate of Policing, which encourages municipal police service boards to adopt formal “Critical Point” policies and establish clear information-sharing protocols with police leadership during significant or high-impact events.

The Board recognizes that not all communications during a critical event are appropriate for Board comment. Operational information, investigative details, or statements concerning active police activity remain the responsibility of the OPP Detachment Commander. The Board’s role is to focus on communication related to governance, oversight, accountability, and community reassurance, while avoiding interference in operations.

This approach aligns with policing best practices such as those described in Managing Officer-Involved Critical Incidents by the Police Executive Research Forum, which frames critical incidents as serious events requiring coordination between operational leadership and governance bodies.

By combining these perspectives, the Board acknowledges that critical events extend beyond operational matters to include those that influence governance, accountability, and community confidence. This broader definition supports the Board’s duty under the Community Safety and Policing Act to ensure transparency and effective communication while maintaining clear respect for operational independence.

6.0 Communication and Response Protocol

When a critical event occurs, the Board will follow a structured process to manage communication, assess risk, and coordinate an appropriate response.

6.1 Immediate internal notification to the Board Chair, communications lead, and, where appropriate, legal counsel.

6.2 Preliminary assessment to determine whether the event meets the criteria for a critical event.

6.3 Verification of facts through reliable and authorized sources before making any public or internal statement.

6.4 Coordination with the Chief of Police or OPP Detachment Commander to confirm which elements of the event fall under operational communication.

6.5 Preparation of approved Board messaging limited to governance-related matters, such as expressions of support, transparency commitments, or confirmation of oversight processes.

6.6 Designation of the appropriate spokesperson, ensuring alignment between the Board's communication and the service's operational updates.

6.7 Notification of the full Board and relevant partners, including police leadership and municipal officials if applicable.

6.8 Coordination of all public or media communication through official channels, maintaining transparency while protecting sensitive information.

6.9 Monitoring of media coverage and public reaction, with adjustments as necessary to preserve accuracy and trust.

6.10 Post-event review to evaluate the effectiveness of communication and identify improvements for future incidents.

All communication related to critical events must balance transparency with confidentiality, ensuring that operational independence is maintained at all times.

7.0 Privacy, Data & Misconduct Reporting

All personal and confidential information received by the Board shall be handled in compliance with applicable privacy laws, including the Municipal Freedom of Information and Protection of Privacy Act (MFIPPA), and regulations concerning Regulated Interactions.

Board members and staff are required to follow formal procedures for reporting suspected misconduct, including whistleblower protections against retaliation, in accordance with the Community Safety and Policing Act (CSPA) and Regulation 408/23.

Complaints or concerns must be directed as follows:

- Complaints regarding the Board or Police Leadership (including governance issues, failure to comply with legislation, or breaches of the Board Member Code of

Conduct) should be submitted to the Inspectorate of Policing of Ontario (IoP) at www.iopontario.ca or by email at complaints@iopontario.ca.

- Complaints regarding individual police officers or members of a police service should be filed with the Law Enforcement Complaints Agency (LECA) at www.leca.ca or by email at info@leca.ca

- Complaints regarding Board employees or contractors will be managed through the City's internal human resources and complaint procedures.

Conflicts of interest must be disclosed promptly and managed in accordance with Regulation 408/23.

8.0 Training & Continuous Improvement

Board members should receive training on communication protocols, media engagement, that align with the mandatory training on human rights, and systemic racism to ensure effective, respectful, and lawful communication practices.

This policy will be reviewed and updated regularly, at minimum in alignment with the Board's strategic planning cycle, to incorporate feedback and evolving best practices. Training costs should also be included as part of the board budget process for governance development.

9.0 Sample Clauses

Authority Statement

"Only the Chair or designated spokesperson(s) may issue formal statements on behalf of the Board. Individual members must preface any personal comments with a disclaimer that such views do not represent the Board."

Critical Point Definition

"Critical events are defined as occurrences that significantly affect public safety, operational effectiveness, community trust, or the reputation of the Board, and that require immediate notification to the Chair, coordination with the OPP Detachment Commander, and a structured public communication response.

This definition is informed by the concept of a 'Critical Point' adopted by the Toronto Police Service Board (2023) and the guidance of Ontario's Inspectorate of Policing (2024), which encourages boards to establish clear communication and information-sharing protocols during significant or high-impact events. It also reflects recognized policing practice described by the Police Executive Research Forum (2019) concerning management of officer-involved critical incidents."

Privacy Clause

"All confidential information will be handled in accordance with the Municipal Freedom of Information and Protection of Privacy Act (MFIPPA) and related legislation. Unauthorized disclosure is prohibited."

End of Policy

Communication Flowchart for Critical or Sensitive Incidents

1. Incident Occurs

A critical or sensitive incident occurs within the jurisdiction of the Board.

2. Initial Assessment

Board Chair and Communications Lead assess whether the event meets the definition of a critical incident.

3. Information Verification

Gather facts from verified and authorized sources before any statement or discussion.

4. Determine Communication Path

- Operational matters: OPP Detachment Commander leads all public communication.
- Governance or oversight matters: Board Chair or designated spokesperson leads communication on transparency, accountability, and community reassurance.

5. Message Coordination

Ensure consistency between Board and Service statements while maintaining independence of roles.

6. Public Communication

Release approved statements through official channels such as the municipal website, press release, or public notice.

7. Monitoring and Adjustment

Track media coverage, public response, and social media activity. Correct inaccuracies promptly and factually.

8. Post-Event Review

Conduct a debrief to evaluate communication effectiveness and update Board policy or protocol as needed.
