

**Date:** July 30, 2012

## **City Council Committee Report**

**To:** City Council

**Fr:** Lake of the Woods Development Commission

**Re:** Mooring Balls on the Harbourfront

### **Recommendation:**

THAT Council approve the Lake of the Woods Development Commission to assume the responsibility for reservations, fee collections and monitoring the Mooring Balls on the Harbourfront effective August 14, 2012 and that all fees collected be allocated as Tourism Revenue for the Development Commission.

### **Background:**

The City of Kenora Operations has approached the Development Commission to look into assuming responsibility for monitoring the Mooring Balls on the Kenora Harbourfront. It is believed that the Thistle Pavilion would be the best place to collect these fees and take reservations. The Development Commission has reviewed this request and agrees to take on the responsibility for reservations and monitoring the 4 Mooring Balls, as well as the collection of payment. The proposed fee structure that the Commission is recommending is that current approved City Of Kenora fee structure, which is \$15 per day.

### **Budget:**

It is expected that this will generate approximately \$500 per year in rental fees for the Commission.

### **Communication Plan/Notice By-law Requirements:**
